0:25:39	Bax:	Pete's books are amazing
0:26:18	Margaret:	Blessings All!
0:39:03	Linda:	Can you explain the CLEAR CARD, please?
0:39:42	Dan:	Replying to "Can you explain the ..."He mentioned it at the beginning of his talk. Card #93 Clear All Stray And Negative Energies.
0:42:24	J:	Replying to "Can you explain the ..."Where can we get access to the notes that include the cards Pete has talked about?
0:43:47	Dan:	Replying to "Can you explain the ..."Presumably Scott will put that information in the chat or in the newsletter.
0:44:22	Lalita:	Carbon dioxide is not bad? Dr.m Raddati mentioned
0:44:52	Beth:	Replying to "Can you explain the ..." You'll find them on the website when you login
0:48:18	Linda:	QUESTION: Do those plastic cards have to have a magnetic strip or chip in them? Or just a plastic card only?
0:48:37	Bob:	Just the plastic
0:48:40	Dan:	Replying to "QUESTION: Do those p..."Either will work.
0:48:46	Shaylynne:	Replying to "QUESTION: Do those p..."I think the card would work because it's plastic and carbon based
0:49:11	Tanya:	Replying to "QUESTION: Do those p..."Yes, its the carbon base that's important.
0:49:22	Margaret:	No
0:49:46	Bob:	Replying to "Carbon dioxide is no..."Carbon Dioxide is what plant life need. It's essential. Just ask your local indoor pot grower.

0:50:49	Beth:	Replying to "Carbon dioxide is no..." CO2.... we're carbon beings....
0:51:01	Bob:	Reacted to "CO2.... we're carbon..." with 🙌
0:51:14	Tanya:	Would the accumulation of all of those compressed rates, then be considered a Reagent?
0:51:46	Frederic:	Replying to "Carbon dioxide is no..."not to be confused with carbon monoxide, which is toxic
0:53:36	Dan:	Replying to "Would the accumulati..."Technically yes.
0:57:18	Jana:	Replying to "Carbon dioxide is no..."Information: Consciousness dictates the universe:

0:59:12	Jana:	Replying to "Carbon dioxide is no..."Thoughts are things with mass and can be stored and touched when one is out of the Body.
0:59:55	Alexander:	How would you suggest to do cascade amplification of rates used? Like converting the rates in multiple stages before broadcasting them to make more powerful?
1:01:57	Frederic:	Can I use a rate for a command ?
1:02:09	Deanna:	How do you put the rate on the card?
1:02:19	Lalita:	Any way rates can be lost . Like magnets?
1:02:26	Bev:	Could we see a sample of an Xcel sheet you described?
1:02:45	Linda:	QUESTION: Not sure if those cards HAVE TO HAVE either a magnetic strip or chip, or can you just use plastic cards for what you're programming with rates. I think you're saying the plastic alone is all you need, correct?
1:03:00	Radu:	To clear and lock plastic cards, you use rates for gems or specific rates for Carbon?
1:03:09	Beth:	Reacted to Could we see a sampl... with "🙌"

1:03:39	Dan:	Replying to "How do you put the r..."You potentate them with a radionic potentizer.
1:04:24	Christina:	Where can we get your book?
1:04:26	Linda:	LOTS of health people are now talking about carbon dioxide as a necessity for human health because it assists oxygen into the cells.
1:04:34	Tanya:	Reacted to "LOTS of health peopl..." with ❤️
1:04:55	Bill:	Can you use paper cards?
1:04:55	Margaret:	General High School Biology class that we learned
1:05:18	Margaret:	Yeah BEEF
1:05:34	Shaylynne:	Reminds me of taking Carbo Veg for lack of oxygen, etc
1:06:32	Tanya:	Replying to "Reminds me of taking..."Absolutely!
1:09:46	Jana:	Replying to "Reminds me of taking..."BEEF: Holistic Management International www.holisticmanagement.org hmi@holisticmanagement.org 505-842-5252
1:11:08	Jaibaba:	Replying to "Reminds me of taking..." Best radionic device to use? Or top 3?
1:11:43	Bob:	Replying to "Reminds me of taking..." Kellys are a safe bet for top place
1:11:59	Shaylynne:	It's all about your intention
1:12:04	Dan:	Replying to "Reminds me of taking..."@Jaibaba Kelly Research Tech.
1:12:11	Linda:	QUESTION: Can you say more about turning a Command into a Rate? Are you using a radionics device to find the rate? Also, can you just assign a rate to a command and keep track of those assigned rates to reuse them again?
1:12:18	Jaibaba:	Replying to "Reminds me of taking..."Thank you.
1:12:22	Shaylynne:	Replying to "It's all about your ..."YOU are the machine
1:12:33	Robbin:	How do you know the rates are restored to the card? What means do you use to test it. Thanks
1:12:34	Bob:	Reacted to "YOU are the machine" with 👍1:12:35
1:12:34	Jaibaba:	Replying to "Reminds me of taking..." @BobW thanks you
1:13:19	Dan:	Replying to "QUESTION: Can you s..." You use a radionics instrument to cold scan a rate.
1:13:28	Jana:	Replying to "Reminds me of taking..." Reality follows Consciousness and commands of our emotions.
1:13:32	Robbin:	So in essence - do we need a "machine" or our intention ?
1:14:02	Shaylynne:	Replying to "So in essence - do w..." I say, try it. That's what I do
1:14:07	Bob:	Replying to "So in essence - do w..." Both are best. But a machine alone is useless
1:14:09	Dan:	Replying to "It's all about your ..." The radionics instrument amplifies, extends, and enhances your natural abilities.
1:14:54	Shaylynne:	Replying to "It's all about your ..." @Dan True, there's only so much or how long we can thinking about a thought, where as a machine can be set up to broadcast 24/7
1:15:10	Dan:	Replying to "It's all about your ..."@Shaylynne S Exactly.
1:16:07	Dan:	Replying to "It's all about your ..." he instrument doesn't need lunch or have to go to work either.

1:19:53	Bob:	www.spooky2.com
1:20:07	Bonnie:	The instrument can help you to focus your intention and, at this time in history, we are programmed to trust machines and substances. However, as we progress, focus and intention to heal are all you need.

1:20:07	Gayle:	Is the Astropulse D machine similar Spooky2? I have one and can't find any info other than the brief manual.
1:21:34	Susan:	Reacted to "The instrument can h..." with ♥
1:21:55	Jana:	Linda, without CO2, there is no life. Normal edible bicarbonate helps the body to detoxify and keep the right amount carbon dioxide in the body for us to live well. It has to be taken in water on empty stomach and then 30 minutes pause not drinking, nor eating: https://en.wikipedia.org/wiki/Sodium_bicarbonate
1:23:06	Shaylynne:	Do the Rife programed cards create herx reactions?
1:23:12	Bob:	You can also reduce the Dwell factor in Spooky to speed up that potenization
1:23:50	D:	If the body does not need the frequency, sent radionically, do they just fall away?
1:24:01	Bob:	Replying to "If the body does not..." yes
1:24:05	Friend:	https://www.spooky2.com/
1:24:22	Beth:	Replying to "LOTS of health peopl..." Dr Sircus books
1:24:24	Bax:	I use NLS machines often
1:24:29	susan:	Where could purchase Pete's program cards?
1:24:48	Shawn:	any experience with White noise/lasers to send information?
1:24:50	Friend:	Pete's card can be purchased for Sami Chowdhury
1:24:57	Bax:	NLS deos work in Radionics principles using the remote tech
1:25:00	Linda:	QUESTION: How can you take a Rife generator that has handhelds and put those frequencies into a medium, like perhaps water? Then that substance could be put into a card or pellet, etc.
1:25:08	Lalita:	Oberon has bioresonance machine that Dr. Pete mentioned
1:25:38	Friend:	@saminox@hotmail.com
1:25:52	Bob:	Replying to "QUESTION: How can yo..." You can fasten the handles to each side of a glass of water
1:25:56	Dan:	The instrument amplifies, and expands your abilities. You are driving it. Also, the instrument doesn't get tired, need to eat, or have to go to work. And you can only maintain your concentration for so long. The instrument keeps that going after you set up the intent. And it is a firewall as Pete says.
1:26:20	Shawn:	Can you talk about some of your toys in your room
1:26:29	Bonnie:	Wow. Thank you, Peter!
1:28:01	Bob:	Replying to "QUESTION: How can yo..." Then drink the water. Harder, with just handles, to program things like cards
1:28:17	Lalita:	How long does it take to clear the entities I the well with witness?
1:28:53	Friend:	Entities get removed immediately if the right program is used
1:28:55	Radu:	QUESTION: To clear, lock and unlock plastic cards, you use rates for gems or specific rates for Carbon?
1:29:08	Bob:	Replying to "How long does it tak..." Normally you would dowse for that time. But generally a few minutes.
1:29:15	William:	I use 3 spooky generators all running the same spooky program starting at the same time. One direct to input well, one to laser and one to contact. Contact pads are on outside of the substrate (water and crystals), laser shines through top of substrate being potenziized. Works very well.
1:29:22	D:	What about those negative entities that are generational, how does radionics work with this?
1:29:23	Linda:	Replying to "QUESTION: How can yo..." I wasn't sure if the electricity would be conducted through the glass and water and be equivalent to the handhelds touching, which could short out the machine. Is this correct, or have you done this before, by chance?

1:29:39	Linda:	How important is it to avoid the fingerprints of operator on witnesses?
1:29:52	Bonnie:	Reacted to "The instrument amp..." with 👍
1:29:56	Bob:	Replying to "QUESTION: How can yo..." It just works. There won't be any current flow.
1:30:06	Linda:	Replying to "QUESTION: How can yo..." Thank you!
1:30:11	Friend:	@saminox@hotmail.com
1:30:12	Clement:	How do you send frequencies using radionics?
1:30:27	Friend:	@saminox@hotmail.com to buy Pete's Cards
1:30:55	Bob:	Replying to "QUESTION: How can yo..." If you look into Spooky2 stuff, a whole world opens up.
1:32:02	Bob:	Pete. You ROCK
1:32:29	Henry:	?High density Lucite, or acrylic...?

1:37:35	Bonnie:	This information is as complex as you say you love, Peter and sooo fantastic for us to learn. Thank you and thank you U.S. Psychotronics Association!!!!
1:38:09	Dan:	You can check your general vitality, then play the music and check GV again while it is playing. If GV goes down the music isn't good for you.
1:38:25	Jana:	Yes, it was/is deliverate. The Tuning must be a1 on 432 Herz. Then all Kinds of Music will be benefincial.

1:39:16	Bob:	Replying to "QUESTION: How can yo..." You aren't limited to hand cylinders. They use all kinds of ways to transmit frequencies, including "Remotes" to send frequencies remotely.
1:39:30	Linda:	I remember using FORTRAN back in the day. :)
1:40:00	Susan:	Replying to "Your Body Believes E..." Barbara Hoberman Levine

1:40:13	Bob:	Reacted to "me 2 and punch cards" with 👍
1:40:27	Lalita:	Short break anytime soon? Thanks
1:40:45	Dan:	There are Hieronymus rates for Homeopathic remedies in the KRT ratebook.
1:41:00	Linda:	QUESTION: Can you please explain more about how you make a rate for a combined homeopathic???
1:41:04	Susan:	Spooky 2 group on FB has lots of info and discussions about imprinting
1:41:12	Trina:	i woke up two days in a row excited for this presentation and then after waiting I am over an hour late. Will this be in th members section?
1:42:38	Shaylynne:	Yes please!
1:43:07	Lalita:	How to make if card and homeopathy car combined?
1:44:10	Bonnie:	Reacted to "Pete. You ROCK" with 👍
1:44:28	Shaylynne:	let's go! :)
1:44:35	Beth:	Replying to "i woke up two days i..." Talks always go there. Also the cards and a handout of notes
1:44:57	Trina:	so I can just use my paper machine?
1:45:25	Trina:	i love this. already. thanks for doing this.

1:46:36	Sam:	This is amazing..as a newcomer to Radionics...but spooky2 user..the rate cards you are mentioning tonight...are these with USPA or do we need to mail your contact thanks 🙏 Im teaching myself and decided to start on paper so v interested in virtual machines
1:46:43	Trina:	wait. I can get rid of spiritual parasite?
1:47:09	Shaylynne:	amazing
1:47:37	Lalita:	What is the separation card? Is it available? Thks.
1:48:25	Friend:	
1:48:30	J:	Can you SHOW an example of stovepiping witnesses and compare this to your E-card?
1:48:41	Beth:	Replying to "This is amazing..as ..." In the member section after the talk, maybe tomorrow

1:55:26	Alexander:	what is really so special about radionic machines vs any other instrument like a simple radio/scalar Tesla coil/tensor coil etc.? In principle?
1:55:43	Bax:	Replying to "what is really so sp..." Good question
1:56:47	Shaylynne:	infant photo!?!?
1:57:10	Shaylynne:	Replying to "infant photo!?!?" homeostasis?!
1:58:17	Alexander:	you can use ABPA device to filter out negative instead of cold scanning?
1:58:45	Alexander:	Alan said that in his videos
1:59:58	Dan:	Replying to "what is really so sp..." A radionic instrument is more powerful than those other things and has more features and abilities.

2:01:49	Alexander:	Torsion fields theory?
2:02:22	Yogadhata:	If you find classical music performed with A-440 tuning unhelpful, get an app like Audacity (free) that lets you change the pitch on a track by specific number, by percentage, or by semitones. From 440 to 432 is only -1.82% and most people cannot hear the difference.

2:02:29	Radu:	QUESTION: How do you help the patient in learning the spiritual causes that is the root cause of the disease? If this is not solved, in most cases the disease comes back in a different form.

2:03:12	Alexander:	what is the most powerful carrier of radionoc broadcast? EMF? Light? Magnetic field? Audio?
2:03:14	Frederic:	When you program a card with the IF condition, how can you integrate an already programmed card for ex St Jude is it like" If St Jude is needed then call St Jude card" ?
2:03:41	Jana:	Replying to "QUESTION: How do you..." Even if you cannot hear it, you can definately feel it. And when you sing it, it is a whole world of difference.
2:03:55	Trina:	Reacted to "Even if you cannot h..." with ❤️
2:03:57	Jana:	Replying to "QUESTION: How do you..." It was Change to distress all of us.
2:04:52	Shaylynne:	440hz VS 432hz here is some speculation that 440hz isn't as pleasant on our system with studies on its effects on the body and mind vs 432hz. Stress levels, heart rate and blood pressure were measured on participants who listen to the same music twice, once at 440hz and also at 432hz. The results showed that the high-frequency sound exposure immediately showed its detrimental effect on heartbeats after a short adaptation period in the 440 Hz group and the average values decreased to half of the normal values
2:05:13	Friend:	Sami Chowdhury's new PCR4 device
2:05:13	Jana:	Replying to "QUESTION: How do you..." The Change is only effective on western Music. The ragas and the maquam Systems are still intact.
2:05:58	Jana:	Replying to "QUESTION: How do you..." ragas work with 1/4 tones and maquam works with 1/3 tones.
2:06:09	Casa:	When that music key changed? At what moment?
2:06:32	Shawn:	white noise/laser ?
2:06:37	Jana:	Replying to "QUESTION: How do you..."It was changes after 1935 where it moved from 435 Herz.
2:06:39	Dan:	I did some radionic research a few years ago. 440 Hz is definitely detrimental to life. 432 is beneficial to life. 440 Hz lowers GV, white light, emotional stability, DNA/RNA and more.
2:06:55	Friend:	Reacted to "I did some radionic ..." with ❤️
2:07:34	Shaylynne:	Question, do the Rife programmed cards create Herx reactions?
2:07:39	Alexander:	is it possible to create a device that encodes rates in infinite loop, maybe from frequency to light then to frequency again then to light etc.? so it will be more powerful?
2:07:49	Jana:	Replying to "I did some radionic ..."Exactly. Also the Instruments are less strained and Sound wonderfully soft on 432 Herz.
2:08:09	Yogadhata:	I appreciate your explanation about clearing the plastic wells, but wondering whether glass well that are less retentive be useful?
2:08:30	Friend:	Solfeggio Frequencies are far better than the change in pitch that happened to create health hazards for people
2:08:48	Friend:	432 Hz is a Solfeggio tone
2:09:44	Bonnie:	Reacted to "Even if you cannot..." with ❤️
2:09:58	Jana:	Replying to "432 Hz is a Solfeggi.. Solfeggio is just any scale. Solfeggio is not a set of exact tones, but a set of fixed Intervalls that can be used starting from any scale.
2:10:10	Alexander:	if you broadcast you are a photon then you can be easily teleported to a photon in a rstaurent in Paris by laws of quantum entanglement,is it correct?

2:10:23	Jana:	Replying to "432 Hz is a Solfeggi..." what you are mentioning is an Invention of a Collection of frequencies.
2:10:49	Judy:	If you want to create a wave field of a caduceus on an oscilloscope, you use sine wave and square wave, one going high frequency to low frequency and one low frequency to high frequency, left ear on one and right ear on the other. See our DVD Winged Thing.
2:11:19	D:	How about the ratio of resonance to resistance?
2:11:25	Jana:	Replying to "432 Hz is a Solfeggi..." What is a truly absolute fixed Tuning is the geosonic Tuning scale that has absolute and precise intervals and set frequencies.
2:12:37	Shaylynne:	Follow your highest excitement on those opportunities :)
2:13:27	Dan:	I think it was in the late 1930s that the idea to institute an international tuning standard was promoted and realized. They recommended that concert A be set to 440 Hz for everyone. That way any orchestra can play with any other without one of them having to retune their instruments. Was 440 Hz chosen deliberately chosen because it was detrimental to health, and especially emotions? Probably.
2:14:12	Lalita:	Does one carry Pete's cards in person? Or it has to be used in a machine?
2:14:37	Bax:	Is the SE-5 2000 a decent machine?

2:15:43	Dan:	Replying to "432 Hz is a Solfeggi..." The Solfeggio tones are 174, 285, 396, 417, 528, 639, 741, 852, and 963.
2:15:46	Beverly:	Can you review making a command card.
2:16:35	Bill:	Replying to "Is the SE-5 2000 a d..." Also curious
2:16:39	Susan:	Replying to "Is the SE-5 2000 a d..." Yes, it is somewhat different from dialed instruments. I have had amazing results with my SE5-1000. The 2000 is for those who need help getting a stick.
2:16:46	Jana:	Replying to "432 Hz is a Solfeggi..." Yes, I know, which is not a scale as we know it.
2:17:02	Lynne:	Pete, I missed seeing information about your yearly class in Nebraska. How would I find out about next years class?
2:17:16	Jana:	Replying to "432 Hz is a Solfeggi..." That Collection of tones is just that a nice Collection. It is not a scale, not Solfeggio.
2:17:24	Bax:	Reacted to "Yes, it is somewhat ..." with 👍

2:18:36	Jana:	Replying to "432 Hz is a Solfeggi..." Solfeggio is: do re mi fa so la si do
2:19:22	Jana:	Replying to "432 Hz is a Solfeggi..." It is relative to the tone where one begins. Solfeggio is a Major normal scale.
2:19:24	Shaylynne:	Any thoughts on the heart producing a toroidal field and its effects on radionics when creating a program/intention?
2:19:27	Dan:	Replying to "432 Hz is a Solfeggi..." Those tones are known as the Solfeggio tones. They are old. Not the same as what modern music is. The term solfeggio as you are using it comes from an older usage.
2:20:04	Alexander:	you mean the analogue calculation machines?
2:20:07	Jana:	Replying to "432 Hz is a Solfeggi..." I know what they are known as and is not a correct Name for it.

2:21:06	Shawn:	spinning crystal? mechanical
2:21:57	Jana:	Replying to "432 Hz is a Solfeggi..." It does not matter if something is old or not. Solfeggio is a System, not a Collection of tones. One uses Worlds because they mean something. Just because the word OLD is used for being old, no one would use it in a "new" way for meaning being Young.
2:22:38	Jana:	Replying to "432 Hz is a Solfeggi..." "We use language to communicate to get understood. Solfeggio is an Italian word and denotes a scale System with set intervals.
2:25:42	Jana:	Replying to "I think it was in th..." Yes, it was Chosen to get a brighter Sound in the strings. Nowadays it fluctuates between 440 and 445 Hz and it is impossible to sing everything up to including Verdi.
2:26:30	Jana:	Mozart used 421 Hz at home and tuned around 428 Hz in the Theater of the day, that tuned up 432 Hz when the Instruments were warmed up.
2:26:31	Antoinette:	Dr. Skye Monarch has "time machine" cards included in her library.
2:27:28	Shaylynne:	Replying to "Dr. Skye Monarch has..." I believe time operates on the 4th dimension
2:27:51	Jana:	The queen of night in the magic flute is impossible to sing on 445 Hz, the original E3 has turned into F#3
2:29:46	Beverly:	Do you have an Excel example in one of your books.
2:30:05	Alexander:	Replying to "432 Hz is a Solfeggi..." what is so special about how radionic machines operate vs other manifestation amplification devices, such as scalar Tesla coils, tensor coils, simple radio, etc.? In principle?
2:30:25	Emil:	excellent
2:30:30	Dan:	Replying to "Is the SE-5 2000 a d..." They're pretty good, but the price tag will make your nose bleed.
2:31:51	Bonnie:	Thank you!!!❤
2:33:01	Lynne:	Where do you buy the cards? The ones that are blank.
2:34:10	Shaylynne:	The right knee returns to a homeostasis state without any harm. Thoughts?
2:35:58	Margaret:	white plastic card on Amazon
2:36:21	Susan:	SE5-1000 and 2000 have scalar antennae
2:36:24	Judy:	are there any base 9 radionics machines?
2:36:48	Susan:	Replying to "Where do you buy the..." Amazon and eBay are good sources

2:38:50	Margaret:	you going to use copper wire around the crystal?
2:39:02	Dan:	Replying to "I learned on an SE-5..." The original SE-5 hasn't been manufactured for a long time. Don Paris bought the rights and re-engineered them into the SE-5 100 and SE-5 2000.
2:39:04	Shaylynne:	likely
2:39:48	Margaret:	good that will be your conductor
2:41:05	Sky:	Reacted to "SE5-1000 and 2000 ha..." with 👍
2:41:22	Alexander:	Replying to "432 Hz is a Solfeggi..." I have 2 such machines here
2:42:01	Beverly:	Have you an opinion on the system called AO scan?

2:42:30	Susan:	Replying to "I learned on an SE-5..." People who have SE-5 instruments that still work, hang on to them. I have a friend that just inherited an SE-5 plus
2:43:06	Bonnie:	Replying to "I learned on an SE..." Thanks, Susan. ♥
2:43:15	Alexander:	Replying to "432 Hz is a Solfeggi..." have you seen tarot cards machine? using Tarot cards instead of the rates?
2:44:00	Linda:	Are you familiar with voice programmed devices where you don't use rates, just verbal commands?
2:44:12	Bonnie:	Replying to "I learned on an SE..." I have one but the little pocket computer died. I still prefer it to other, more complex instruments.
2:44:15	D:	What do you find is the best self defence in general and with a specific attack?
2:44:42	Gayle:	Replying to "432 Hz is a Solfeggi..." Good idea!
2:44:47	Alexander:	Replying to "432 Hz is a Solfeggi..." i have not made one yet but thinking about it now
2:45:17	Frederic:	Replying to "Are you familiar wit..." I've one for preparing homeopathic remedies since many years and it works fine
2:46:16	Sky:	Replying to "I learned on an SE-5..." You can buy used ones
2:46:44	Linda:	Doctor In The House Dr Rangan Chatterjee
2:46:47	Aviva:	Replying to "Are you familiar wit..." What are the names and how do you buy these programmed devices?
2:47:01	Bonnie:	Replying to "I learned on an SE..." I'm looking for one! I prefer to create my own rates for the specific person and situation.
2:47:05	Frederic:	Replying to "Are you familiar wit..." White Mountain Radionics
2:47:09	Shaylynne:	I think I have that book as well, emotion cause (not the name of the book)
2:48:09	Susan:	Replying to "I learned on an SE-5..." You can contact Don Paris and see if he has any or ask for anyone who can repair them. There used to be a guy here in Denver that did this.
2:48:18	Sky:	Contact info for the Tarot Radionic device?
2:48:51	Dan:	Replying to "I learned on an SE-5..." Don Paris and his company no longer support or repair the original SE-5 or the SE-5 Plus.

3:01:19	Beverly:	Do you know of Sanda rose Michaels energetic system?
3:01:33	Beth:	But remember the Archduke lived to shoot with guns. If you visit any of his Schloss, many inherited so he had to change his name to Franz Ferdinand D'Est to acknowledge the woman who left them to him as a condition of her will, they are literally stuffed with guns and all the wildlife he killed. They're like slaughterhouse mausoleums. No surprise he was shot tbh. He drew that energy to him, it was in him and the killing fields followed. 🙏

3:06:38	Dan:	Pete, what are your thoughts about radionics vs magic?
3:06:56	Alexander:	is it possible to create a device that encodes rates in infinite loop, maybe from frequency to light then to frequency again then to light etc.? so it will be more powerful?
3:06:58	Linda:	QUESTION: Can airport scanners damage radionic devices especially if they have energetic programming included in the device. And how could those devices be best protected in airports?
3:07:01	Bill:	Replying to "QUESTION: Are you sa..." military explosive
3:07:13	D:	Can you scramble the thought form behind the attack?
3:07:21	Jana:	Replying to "QUESTION: Are you sa..." aha. ok

3:08:00	Trina:	That Is Awesome Pete. Thank you for all You do.
3:08:22	Trina:	Replying to "Can you scramble the..." good question.
3:08:58	Alexander:	what is really so special about radionic machines vs any other instrument like a simple radio/scalar Tesla coil/tensor coil etc.? In its base technical principle? Why scalar devices or Tesla coils or just magnetrons are not more powerful?
3:10:15	Alexander:	is it because of the caduceus coils used inside it? Just trying to understand
3:11:33	Linda:	QUESTION: Concerning radionic devices that contain energetic programming or commands, can airport scanners damage these types of devices? And how could those be best protected from airport scanners and magnets, and the like?

3:21:24	Linda:	QUESTION: How does remote viewing relate to radionics, if it does?
3:22:00	Alexander:	is there a way to measure radionic resistance somehow on the actual radionic machine? something similar to how you measure intensity?
3:22:19	Alexander:	so you dont waste time on high resistance broadcast
3:22:34	Bill:	Replying to "QUESTION: How does r..." That's my question too. Governemt did a lot of remote viewing in the 80's and maybe more recently
3:22:35	Debra:	how do you know you have resistance for instance in partial results -- how do you look at and see if you can overcome it?
3:22:36	Susan:	Replying to "is there a way to me..." cold scan a rate for resistance
3:23:13	D:	How to raise yourself above resistance? Prayer? Breathwork? Chi cultivation? ??
3:23:25	Lorre:	I can do webmaster work.
3:23:36	Alexander:	Replying to "is there a way to me..." and then?..
