00:34:08	Bill Beaty U. W	1800s terminology "What is electricity?", today we would say "What is electric charge?" The original scientific definition of the word "electricity" was very narrow and specific: the entity which flows during electric current, to be measured in units of Coulombs. What is charge, really? Still today, nobody knows!

00:39:23	Eileen B	There is a crop circle that looks an awful lot like Tesla's tower. Sorry I cannot recall (at this moment) date of.
00:41:44	Bill B	Insight: Tesla as a child was seeing "mountain-lightning," which visibly starts at the peaks, and shoots UPWARDS. Supposedly his breakthrough occurred when visiting his hometown, and almost getting killed by a strike, while hiking the peaks. He must have realized that all that energy originated from lightning which was fired upwards, from the ground.
00:42:48	Jani E	What do you think about AI and the double-edged sword it presents to humanity? They say it's the new electricity
00:43:56	David B	Maybe it i the new electricity...and the ethical issues are ENORMOUS!

00:47:50	Bill Beaty U. W	called the Duga radar antenna(s) three of them. Looks like HAARP, but turned on its side, jutting upwards

00:59:42	Bill Beaty U. W	Did USAF "Project Nick" ever work? That paper was just a funding proposal, where the key invention was not disclosed (how to actually form the metal nano-droplets.)

01:18:56	Tina C	Cool! I saw a Bettelheim lecture in San Francisco.
01:22:16	Eileen B	QUESTION: Does Infrasound: Low Frequency Noise (LFN) adversely affect people who DO NOT hear it or feel it ... QUESTION: Does EMF Radiation intensify and/or amplify Infrasound?
01:23:47	Gavin D	UV search lights at Wardencllyffe to transmit energy to upper atmosphere?
01:24:33	Bill Beaty U.	In 1916 court docs, Tesla reveals that THOSE WEREN'T SEARCHLIGHTS
01:25:16	Reinhard A	Yes. Infrasound is the domain of brainwaves, and can entrain brainstates to follow low frequencies. Lots of research available.
01:25:38	Eileen B	Marconi died young. EMF Radiation?
01:25:55	Bill Beaty U. W	Pupin apparently was a Marconi investor, at the same time he testified as an "independent expert" to the court.
01:27:46	Bill Beaty U. W	"Maxwell's equations" didn't exist then, not in the form we know today. They were twenty quaternion-based eqns. The four modern equations became well known AFTER 1899
01:33:01	USPA	Maxwell's equations did exist when, Marc said this recent article came out.
01:33:32	Jani E	Are "they" tapping the energy at the earth's core? Russia?
01:38:16	Bill Beaty U. W	That book is available, now titled "Wireless: life work and doctrine." Recently in paperback.

01:45:34	Bill Beaty U. W	Practical electricians was a debunking article! Gernsback himself built one, found it didn't work (he used only 30KV, not the specified megavolts. So, his x-ray tube didn't ionize the air, or guide the lightning from a Tesla Coil)
01:54:13	Michael M	Congratulations
01:55:14	Fayanne L	This is amazing!! Anybody here believe in Time travel? I believe Tesla had that all figured out. Cannot wait to get this book.
01:56:27	Eileen B	A MAGICAL presentation! Thank you so much.
01:56:36	Michael M	Thank You Marc
01:56:42	Lynne S	Thank you

01:56:57	Joshua G	Outstanding presentation. Thanks!
01:57:11	Ellen P	Great presentation Thank you
01:57:12	Alan W	Loved it! Thank you Marc.
01:57:13	Sharon A	Thank you Marc, an incredible presentation
01:57:14	Becky Dees	Very amazing presentation!
01:57:16	Trina M-C	That was a great presentation. Thank you Marc.
01:57:29	Pontus H	Thank you, love it.
01:57:32	Kevin K	Thank you, amazing presentation
01:57:53	Deborah B	Thank You
01:58:53	Sonia D	Thank you Marc and congratulations 🙌🙌
02:00:23	Eileen B	Dear Marc Seifer,
02:01:38	Bill Beaty U. W	Note that NOBODY knew Maxwell's equations back then. It took thirty years for a handful of scientists to force the issue. And, Electrical Engineers lagged behind that! Oliver Heaviside destroyed his own career, by trying to force the electronics community to study the math behind EM waves.
02:02:17	Gavin D	Great presentation, thanks
02:04:02	Gavin D	Current thinking is that magnetism is a relativistic effect of moving charge
02:06:06	Amauri S	Thank you for the great presentation. It helped people to understand that we don't understand energy / matter at all...
02:06:09	Fayanne L	But Gravity has never been proven. Is it not all about Density?
02:06:58	Eileen B	Dear Marc Seifer, how does one contact you? I could not find a contact on your contact/links page on your website. I would like to share some info ... that may or may not be of interest to you.
02:07:07	Charles B	John Muir, of Volkswagon Book fame said that "The sun operates on the moral thoughts of men."
02:07:44	Gavin D	Before Maxwell described his vector (quaternion) theory of electromagnetism, he published a dynamic theory
02:07:45	Fayanne L	Awesome presentation
02:08:20	Eileen B	Fer De Lance by Bearden
02:11:50	Fayanne L	Thank you SO much. God Bless you
02:12:20	Eileen B	Eileen Balint: Questions??
02:12:41	Fayanne L	WOW!! Dada was ahead of his time!!
