4-15-2023 USPA Zoom Masterclass #40 Chat- An Afternoon of Radionics with Pete Radatti

Time	Attendee	Comment
0:21:59	Trina M	Hi!
0:22:18	Trina M	Replying to "Morning all, where a"in the member area".
0:24:23	Trina M	I am so excited to finally get this particular Master class
0:29:02	J V:	How well or how long does water hold the rates?
0:30:28	Jenn	If I printed a picture as witness and laminate it, how long can I use that picture on my
		machine?
0:30:50	USPA	Dr. Ermion Pierre: https://www.essentiacih.com/
0:31:03	Jessica R	Replying to "How well or how long "21 days in human body from my knowledge
0:32:13	J V:	Then we put in our well with our own witness or just put this in the well?
0:33:34	Alex S	can the lcd wrist watches that have 200-year range calendar be radionically potentized in a
		well?say we set a date in the past on the watch
0:33:45	J V:	Plz compare older Photo vs recent and head vs whole body
0:35:37	Alex S	date in the past
0:35:49	Alex S	so we can manifest to the past
0:36:22	L O:	QUESTION: So, could you use a photo of a CD that has info on it, as a witness or a
		reagent?
0:36:25	Ronaldo d	Have you tried the "potentizer" from the SE5 Machine compared to others radionics
		instruments?
0:37:21	Lalita S	SUCCESS %?
0:38:09	Katy M	Can you change results of high blood pressure or blood sugar before going into the doctor
0.20.40	G: 1 D	to take a test?
0:38:40	Stanley B	This is so interesting. How would someone go about reducing their cholesterol in a
0.20.54	D11C	previous test?
0:38:54	Donald C Lalita S	What is potentize? How is it done? Is there self-potentization by our thoughts of poor health? In terms of planning for old age
0.39.31	Lanta 5	or financial security
0:41:52	Brian A:	Can reagents (such as colors, scents) placed into a well to increase intensity, overpower the
0.41.32	Difail A.	witness itself and dilute the focus of intention?
0:42:17	Lee R	In what ways have you used reverse phase?
0:43:26	Katy M	Where can we get cards that already have your programs on them?
0:43:36	Riaan R	Would one be able to copy a program/reagent from a picture if the particular reagent had a
		quality of having or needing a relationship to the original owner? I would like to have the
		program minus the connection to the owner of a reagent. A example would be a personally
		consecrated medal/amulet
0:44:54	J V:	Plz compare putting your whole rate book in the witness well vs a few carefully procures
		rates.
0:45:29	Alex S	How is it possible to broadcast your program on a plastic card without placing it in a
		radionic machine well?
0:46:27	Libby R	What has been your experience in helping people with diabetes?
0:47:40	Martin L	Thanks Pete!
0:47:49	Tamara D	Reacted to "Thanks Pete!" with J
0:48:06	LO:	Myanmar???
0:50:37	P. C.	I have heard from a guy who has a base 10 machine and he has been pushing base 12 now.
0.50.40	T -124 - C	What do you think about this idea of using base 12?
0:50:48	Lalita S	Do rates generated by computers like Copen work?
0:53:11	J V:	Please compare command codes vs those rates that increase GV as far as effectiveness and
0.55.00	Mari- C	success?
0:55:28	Mark O	great innovation how is it possible to associate significantly with the particultier witness?
0:55:41	Alex S	how is it possible to associate sigil with the particultlar witness?
0:56:08	Mark O	Aplicum.com circuitry, in the hockeypuck?
0:56:09	D.D.	how to do you keep witness/target safely seperate
0:56:43	Brian A:	More info on that conference plz

0:56:46	Michael S	have instructions for the 2tb eWell with sigils been published?
0:56:59	Cynthia W	Where in Colorado will the conference be and when
0:58:55	Laurel M	Wouldn't flashing LEDs potentially cause seizures in some people?
0:59:12	USPA	Please consider joining or supporting https://www.psychotronics.org/
1:00:20	Mark:	Can you speak about your big sea program?
1:00:26	Lee R	Even though the highest GV may not be the best, what causes extremely high GVs, for
		example over 100K?
1:00:30	Lou Lou:	can you detail what device to attach on the back of the cell phone to mitigate the EMF? TY!
1:00:40	Lalita S	What programs should we carry - basic for first aid?
1:00:40	Mark O	Reacted to "can you detail what" with ŏŸ'•
1:00:52	Kate K	Reacted to "can you detail what" with ŏŸ'•
1:00:54	Stanley B	When you broadcast the card rate from your phone, how do you set the potency?
1:01:13	Kate K	Replying to "can you detail what" Would love to know also
1:01:29	Cynthia W	Reacted to "can you detail what" with ŏŸ'•
1:01:41	PT F	I use old cellphones for other things. If there is no SIM card is in the phone does it still put
1101111		off microwave radiation from the back side? Can you recommend a piece of software that
		blocks the microwaves?
1:01:47	PT F	Thank you.
1:02:35	Derek F	Where do you order your cards from to make up rate cards
1:04:12	L O:	QUESTION: So, with your IF card, you don't put any condition with it, just IF?
		(Programmer here)
1:04:21	PT F	Where do we purchase your devices?
1:04:34	P. C.	PETE!!! This was sooooo GREAT!
1:04:56	Rajesh H	Please show how you make your card (eg.253, what is in there)and how you use the IF and
-10 110	9	LOOP card. thanks
1:05:01	Ronaldo d	What's the name of your last book and where can we find it?
1:05:11	Carlos V	For a loop program, if I run it for 3 minutes as said with the intention and the instruction, it
		Will run the necessary time until accomplish the goal?
1:05:33	Carlos V	how to program the loop instruction?
1:06:20	Carlos V	if I use a RAE card in the pone, it should work, correct?
1:08:26	Carlos V	I have a 3 dial device. Which is the best way to use a base 10 rate there?
1:08:31	Libby R	Do you send rates simply by your own intention, that is, without any radionics instrument?
1:10:05	Michael S	to create a reagent with the IF statement, would we potentize each rate with the IF
		statement at the same time, or do we potentize IF then potentize the rate seperetly? I was a
		bit confused by the instructions in the book
1:10:19	Lalita S	What is the financial fulfillment program? can we buy it?
1:11:12	Matei G	So the resistence to maniffestation is in the operator not in the 'target'
1:13:41	Lee R	Thanks Pete!
1:14:42	Lalita S	What do you do for Hashimotos my husband has it?
1:14:51	Julian N	And Roundup is ubiquitously sprayed on all wheat grown in Canada (at the very least) to
		dry it down (i.e. dessicate) before harvest
1:14:55	Bill M	Will you have The Conshy Meetups in the future? Any classes coming up?
1:18:18	Alex S	can a simple magnetic sheet serve as a basic radionic amplifier?
1:18:22	Carlos P	I WOULD LIKE TO ASK ABOUT THE REASONS FOR USING OTHER PEOPLE'S
		RATES, OBTAINED AT ANOTHER TIME AND IN OTHER CIRCUMSTANCES I
		KNOW I CAN CREATE MY OWN RATES EVERY TIME. MY QUESTION IS WHY
		USE OTHER PEOPLE'S RATES? WHT'S THE POINT OF IT?.
1:18:25	J V:	How does the well know if you are adding another witness or adding more reagents?
1:19:24	Trina M	how do you dowse?
1:21:40	Karl K	Like with drugs, which are cut differently and require different rates each time to overcome
		their harming effects, how does it work to overcome side effects of

1:50:01	Brian A:	Regarding happiness, Neville Goddard insists on synchronizing an emotion of joy with what you desire to manifest it in reality
1:50:09	P. C.	ðŸ~, I love Pete's humor. I don't relish the fact that some people have dis-eases but
		I think it is nice to listen to his massive brain power to also enjoy a high level joke about
		the crazy things in life that we take so seriously.
1:50:38	John M	Glaucoma ideas if he has time, how to think about treating it
1:53:14	J V:	Do you put the phone in well for emf radiation broadcast- or what do I broadcast to put ON
		phone?
1:54:31	Loraine:	disabling cell phone- Farraday cage or wrap in aluminum foil??
1:54:54	Alex S	do you need to keep the screen on to use celphone radionc broadcasting programs?
1:55:29	Loraine:	‹ or RF frequency block bag/box, etc.
1:55:54	P. C.	Can use a faraday cage to shut off the connection with the cell phone. Do you recommend using a foil lined box when turning off phone?
1:56:44	Jennifer B	Replying to "Morning all, where a" Is it recommended to use tensor coils around the well
		when utilizing your programs or is this counter indicated?
1:59:40	Julian N	Question: If frequencies were to be imprinted in water, for example (e.g. Dr. Cyril Smith
		method), how could you use Radionics to detect/cold scan those specific frequencies?
2:01:58	Brian A:	Curious if you've tried Astral Projection / Out of Body Experience?
2:02:47	Lalita S	Not sure what crunchy creatures are /. Is radionics safe for ordinary people to study and use.
2:03:04	Maria:	Can you talk about the "crunchy critters" you mentioned, why they are attracted to some
		people vs others, how to protect against them, how you know they've arrived, and how to
		get rid of them
2:03:42	Brian A:	hahah I heard "NO you don't need permission" in Uncle Chuckie's voice
2:03:49	Dan M	Replying to "Not sure what crunch" He's talking about beings that want to feed off of
		your energy. Yes, radionics is safe for people to use.
2:03:52	L O:	QUESTION: Have you heard of capturing a person's voice over a corded phone into water
		and using that as a witness?
2:06:14	PT F	How do you handle other autoimmune issues things like Sjogren's Syndrome, RA, etc.
2:06:59	Maria:	80% of degenerative diseases/ autoimmune, etc stem from broken mitochondrial function.
		Aside from taking away "the poisons", you have to provide your body with the means to
		repair itself
2:07:24	Maria:	It all comes back to optimizing mitochondrial function, which is fundamentally based in
		the physics of biophotonics
2:07:26	Alex S	does the Government use radionics these days really
2:08:11	Lalita S	Replying to "Not sure what crunch" What being like micro organism? Thanks
2:08:12	Sky D	Is it possible to import Italuan wheat flour to avoud both gmo gluten and round uo?
2:08:14	Maria:	Sunlight is a frequency actually many frequencies. You need proper and continuous
		sunlight exposure for your body to function as it was built
2:09:04	Lalita S	Will chat be also on the tape available later? Thanks
2:09:38	Brian A:	Pete's getting hungry LOL
2:10:22	Helen B	Reacted to "He's talking about b" with 👕
2:10:34	Robert F	Is a ewe
2:11:21	Robert F	What is a well card?
2:13:49	Jessica R	Replying to "Not sure what crunchâ€₁" Beings are entities seeking to feed their desires or
		needs so yes micro organisms.
2:13:54	Dan M	The Shadow Knows newsletter can be found archived here. Any new issues will also be archived here. https://harmonicenergyworks.com/resourc/
2:14:02	Josh C	The shadow knows link?
2:15:09	Karl K	Thank you Pete.
2:15:44	Cynthia W	Thank you Dan Mangum
2:15:47	Carlos P	I think it would be very interesting if Mr. Radatti made a video course. A book is all very well but there is nothing better than SEEING things.
2:18:38	Karine S	Thank you so much. Loved it.
