 "How to Discern the Truth: Lessons from a Scientist" with Beverly Rubik.**

Time	Attendee	Comment
0:34:07	Veri T:	In TRUTH, since that's what we're all about, TWO US MILITARY JETS struck the Twin Towers on 911. These jets were purchased with Pentagon funds earlier in 2001 by Pentagon Comptroller Rabbi Dov Zakheim, who was also the CEO of Systems Planning Corporation, where decommissioned US military jets are sent for refurbishing. In the case of 911, these jets were refurbished as UAVs (unmanned aerial vehicles), provided under-fuselage missiles, and reinforced. They were directed into the Towers by means of radio beacons.
0:38:10	Veri T:	I provide that prior message in response to the apparent claim that no jets struck the towers. More than 53 videos-with-audios alone exist for the second jet, from as many angles. All angles are consistent with the others, and all audios are consistent with their respective videos. No CGI can create such consistent videos and audios. Let's commit to Truth. And EVIDENCE always outweighs REASONING. I hope Bev will point this out at some point.
0:47:57	Veri T:	Perhaps refraining from using the term "pandemic" in the context of c*v1d19 would help guide us all into more open-minded thinking and bring us closer to the truth of the matter?

1:13:04	Carlos P:	Water vapor has been the subject of discussion but it has hardly been known about
1:14:41	Tina C:	https://weathermodificationhistory.com/

1:15:07	Veri T:	Yes, two military jets did strike the towers, HOWEVER these were merely optics. The towers were proven through electron microscopy and much more to have undergone standard controlled demolition with both incendiary thermite (for the 45-degree-angle steel beam cuts) and nanothermites, as found in e-microscopy, for pulverization of other materials.
1:15:47	Veri T:	ZeroGeoengineering.com is the group that helped Bev write her paper on c*v1d and 5G. it is also the group with SOLUTIONS to geoengineering.

1:17:25	Carlos P:	In my opinion, one reason to suspect/know that information is being manipulated is to notice that only those who defend a position are allowed to speak, when there is no real debate between different id
1:18:23	Ashley D:	This was fantastic, thank you Dr. Rubik!

1:19:00	Veri T:	Good point, Carlos!
1:19:41	Ginger H:	Thank you for recognizing that we cannot do this by ourselves. Heaven(God) rules....not us.
1:19:48	Tina C:	Amazing Randi would attack others for free
1:19:57	Su K:	Thank you, thank you, thank you! Many blessings!
1:20:15	A B:	Thank you for your authentic and courageous voice! All children should hear this.
1:20:42	Veri T:	Yes, derogatory name-calling is the lowest form of "argument". But more subtle means can still fool many. For example, some elevate one person's reasoning above evidence.
1:20:43	Lalita S:	Thank you.
1:21:29	Tina C:	I'm not saying that Randi didn't get paid, I'm just saying that it's his character, too
1:22:08	Donna A:	Thank you Beverly, fantastic presentation! This should me on 'mainstream' media!
1:24:07	Ashley D:	I feel that's how AI is dangerous... because of WHO is feeding it the information it uses - who discerns what information is fed into the AI, what is their agenda, their affiliations, etc.? I don't trust it because I don't fully trust those in power who fund these companies that created open AI etc.
1:24:09	Carlos P:	When Plato's Myth of the Cave was explained to us in school, I thought it was nonsense. For years I have thought that it is a reality and that we live in a world of shadows.
1:25:36	Veri T:	Pulse-modulated microwave radiation disrupts neurofunction, above all, as US military-intel agencies have well known definitively by 1965.
1:26:11	Veri T:	NO, that is not correct.
1:27:14	Veri T:	2.45 GHz is ~5 inches. However, wifi is NOT the same frequency as the MW oven. I personally knew two of the developers of the MW oven.
1:27:32	Donna A:	Dr. Martin Pall has interesting info on 5G and the cells
1:28:02	Jimmy G:	2.45GHz has a 6" wavelength. This is similar to bra underwires, making htem into a high-gain antenna, re-radiating microwaves into the sensitive breast tissue
1:28:19	Veri T:	ZeroGeoengineering dot com is the only organization with SOLUTIONS to stop geoengineering.
1:28:30	william B:	Search ...Symptoms of Pathological Skepticism. (Know your enemy) It's why Truzzi quit Randi's CSICOP, Truzzi a founding board member, but also a working scientist. He coined "Pseudoskepticim"
1:29:07	Donna A:	DEW - directed energy weapons using in Hawaii

1:29:10	Ashley D:	Geoengineering creates odd weather patterns, has been for decades.... like the 'first-in-history' tropical storm headed for California perhaps? ;)
1:29:17	Carlos P:	Taking the example of 5G: If, supposedly, it is true that it causes damage and, supposedly, the authorities know about it, what could be the reason for allowing it?
1:29:22	Tina C:	Censorship Industrial Complex chart can be found here: https://republicbrief.com/wp-content/uploads/2023/05/Censorship-Industrial-Complex-1-1024x680.jpeg
1:29:39	Glen R:	Ber, Do you believe aliens are responsible for the anomalies you described at the end of your talk?
1:29:47	Veri T:	Close, Jimmy. That is correct that underwires in bras and closed metal zippers on pants do function as antennas.
1:30:36	Ashley D:	5G is needed for 'smart cities' and mass surveillance campaigns. 'They' know it's bad for human health, but they need it to further the agenda of full-spectrum dominance of the global population.
1:30:43	Maria:	What is your best advice for staying on the message of honest science and true benefit healthcare, without being neutralized/ stripped of licenses by "Mr. Global the powers that be"?
1:31:10	Veri T:	Colleague at MIT Gravitational Lab told me in 1992 that 60 Hz electricity was chosen over 50 Hz a century ago because 60 Hz was "more efficient for capitol punishment".
1:32:18	Veri T:	Ashley, wireless infrastructures and devices are the primary means by which oligarchs are pulling all remaining people into the Internet of Bodies (IoB) matrix under totalitarian A I control.
1:32:45	Donna A:	some talk about 'smart meters' used to funnel energy into home? overload? - FIRE? has anyone heard about this? How did individual HOMES burn - space between fires? direct murder of Hawaiians not willing to sell their property
1:32:56	william B:	If we complain of suppression, then obviously we're delusional and paranoid, eh? Easily dismissed. (It's a common Skeptic go-to argument. Weaponized terminology.) Countermove mentioned in JSE journal is to instead call it ...Silencing of dissenting views, "Suppression of Intellectual Dissent"

1:33:33	Veri T:	A.B. "Buzzy" Krongard, former executive Director of the C*A, purchased \$millions in put options (predictions that the stock would decrease) on United and American Airlines just a few days prior to 911.
1:34:41	Carlos P:	Well... let's follow the money in the Ukrainian War....I think it is not only a question of money but also of political project and power
1:34:43	Veri T:	Actually, there is no such term "justification". This is PULVERIZATION. And this was caused by the pulverizing nanothermates found in electron microscopy in all lower-Manhattan dust samples, per an intl team of physicists.
1:35:26	Veri T:	The flyover over the Pentagon was witnessed by someone I know. however it did not strike. A missile struck simultaneously and simultaneous explosions also at once occurred.
1:36:27	Veri T:	(When I tired to write "D -ustification" earlier, the system changed it to "justification", ha.
1:36:50	Tina C:	How about the US Navy waiting for the okay to sail from Pearl Harbor to Lahaina but the orders never arriving? Navy ships could have been there in a couple of hours to help put out the fires?
1:37:26	Maria:	QUESTION: Do you think there is a path to make darkfield microscopy more available to healthcare providers in the united states? What does that path look like and if I am a healthcare provider, what resources can I use to obtain darkfield microscopy access?

1:37:26	Marilyn G:	Question: You spoke about the icecaps on Mars. Yearssss ago I'd heard that the entire Solar System is warming - so are we responsible for Global Warming? Then about 5 years ago I started reading that NASA was mistaken. !!! Really? Hah!? Your comment(s) please? Thank you.
1:38:29	L O:	QUESTION: How would we go about deciphering the current whistleblowing activity regarding UAPs? Any tips? Confused as to why the government would allow him to speak at all, as I understand they did. But he seems to be speaking against them in many ways.
1:38:31	Donna A:	and the PATRIOT ACT
1:38:33	Veri T:	Neils Harrit PhD and Stephen Jones PhD led the teams of scientists that sent lower Manhattan split samples to multiple labs for electron-microscopy. The pulverization that nanothermates do effect in standard controlled demolition was well observed by everyone in NYC at the time.
1:39:15	Veri T:	Good question, Maria! Every MD should be doing dark field microscopy!
1:39:24	Maria:	QUESTION: what is your best advice for people trying to carry on the mission of honest science and honest healthcare, to avoid being defunded/ stripped of licenses and shut down?
1:39:34	Donna A:	CANADA is being censored BIG TIME!
1:39:45	Carlos P:	In addition to scientific journals, the mainstream media (which really influence the general public) Youtube, Facebook, censor those they "don't like". We all know it. If those highways are cut, the logical solution (I'm not saying easy) is to create other roads to drive on.
1:40:03	Jennifer S:	This is a bit off topic, yet very relevant.... Please talk about HOW to follow the money... We hear the phrase all the time, but how do we, as people who want to know what's really going on, know HOW to follow the money. What do we teach our youngsters how to do it? Thank you for this conversation
1:40:17	Nancy J:	Question: Can you suggest some alternative media that can be trusted?
1:40:53	Veri T:	One major point we haven't discussed is the respective levels of sources - primary, secondary, tertiary, quaternary. For example, eyewitnesses, original researchers, first data, and so forth without financial interest would be primary; whereas sources with financial interests are quaternary.
1:41:00	Jimmy G:	QUESTION: could Dr. Rubik speak about her "Clear Zone" concept?
1:41:41	Veri T:	Good question, Jennifer! At the end of each published study, there is to be expected an acknowledgment of funding sources.
1:42:42	Marilyn G:	Beverly, free speech is not gone. It is being heavily suppressed. The suppressors have been planning this for years, decades, and then they acted, using COVID as the excuse. Unprepared, it has taken time for us to: (a) Realize (b) Understand (c) Act. We. Shall. Prevail. And they will be mightily sorry.
1:42:46	Veri T:	Nancy, look not to "media" per se, but rather individual researchers who are, or are close to, the original source.
1:43:42	Tina C:	My son's high school science classes uses "dry labs" which means they read about other people doing lab work. Thank goodness I have been taking him to community biotech labs for years.
1:43:55	John F K:	No one is asking who and why. I would encourage this group to investigate the Khazarian Mafia and the WEF.
1:44:10	Joseph K:	Addition of Fluoride to drinking water is a significant dumbing down process.
1:44:29	Sanja M:	Reacted to "No one is asking who..." with 🖱️
1:45:34	Jennifer S:	Community Leader Fatigue is a real thing. I'm hearing this from many of my clients,
1:45:36	Marilyn G:	John F. Kressler - I have been hearing about the Khazarians for years. Where do I find out more info about them? Thank you.
1:46:15	John F K:	Ask Beverly if she knows who are the 1,000,000 Khazarians?

1:47:00	Veri T:	Dr. Ana Mihalcea's and David Nixon's darkfield microscopy of c*v1d vial contents and blood is extremely important. In electron microscopy, they find nanotech, sharp-edge shards, transbiological parasites and more - from which we all need to detox, since even non vcxx'd persons have been exposed to others' shedding. Most important? TAKE EDTA and NAC, minimally, and use magnets brushing near blood vessels near skin surface in salt baths.
1:48:14	John F K:	Hi Marilyn, go to Bitchute and watch Clif High on the Khazarian Mafia. Extremely well done.
1:48:19	Veri T:	Thank you, Dr. Kressler! The Khazarian Mob is still in control, but perhaps not for long. And it is more than millions strong... Disastrous for our Earth, for all Life.

1:49:49	Veri T:	Yes, Dr. Kressler. Very important - and censored!
1:50:00	Brian A:	Jeffrey Mishlove wrote a book called PK-MAN about Ted Owens who was in touch with ET's and could affect weather, causing hurricanes, floods, droughts, and also curing them, via psychokinesis.
1:50:00	Sanja M:	Hi Marilyn, you can find book> The Thirteenth Tribe is a 1976 book by Arthur Koestler

1:50:29	Brian A:	question - is NPR good alternative media ? If not what is a good source?
1:50:39	Carlos P:	In my opinion, it is not just a question of money. It is a question of politics, power and reshaping the world. For example, the increasing difficulty of discussing ideas freely in universities because of the woke ideology or the openly publicized claims and purposes of the so-called Agenda 2030.
1:50:41	Veri T:	Brian, the US Military budgets \$5 Billion per year for the Pentagon ALONE for Geoengineering Weather Warfare.

1:51:15	Veri T:	Likewise, BR. I took a geigercounter to the Twin Towers after 911, but was kept away from the site...

1:52:28	Veri T:	One helicopter company in Oregon boasts of fire-creation by means of aiming incendiaries on Earth's surface.
1:53:08	Veri T:	I think that's likely correct, Brian, per photography and videography.
1:54:03	John F K:	Reacted to "In my opinion, it is..." with 🖱
1:54:18	Veri T:	TOWERS IN NYC DID NOT MELT. THEY DID NOT COME DOWN BY SUCH METHOD. THEY WERE PULVERIZED BY MEANS OF NANOTHERMATE EXPLOSIVES UNDERGROUND LARGE EXPLOSIVES, AND THERMITIC INCENDIARIES. (Sorry for caps. Didn't know they were on!)
1:54:41	John F K:	Replying to "TOWERS IN NYC DID NO..."Exactly!

1:54:53	John F K:	Replying to "TOWERS IN NYC DID NO..."Holograms
1:55:32	Brian A:	All that Real Estate that just opened up...
1:55:46	Marilyn G:	Thank you, John

1:55:51	Veri T:	Replying to "TOWERS IN NYC DID NO..." Dr. Kressler, holograms don't have audio consistent with low-flying military jets... Please look at evidence. The commercial jets were, per Op. Northwoods, were switched with UAV military jets at Stewart AFB just NW of NYC on 911.
1:56:12	Brian A:	look up "red house Lahaina"
1:56:29	John F K:	Replying to "All that Real Estate..." That's why they used the weather weapons to make the fires!
1:56:47	John F K:	Reacted to "Thank you, John" with 😊
1:57:02	Veri T:	Touché, Dr. Kessler and Brian.
1:57:54	Jimmy G:	QUESTION: Please ask Dr. Rubik about her "Clear Zone" solution
1:58:06	Veri T:	Not "nanothermite" Sir, but rather "nanothermates", which are military-grade, AND incendiary "thermite". The two should not be confused.
1:58:31	John F K:	Replying to "Yes, Dr. Kressler. ..." Precisely
1:58:36	william B:	An inventor would say: look for a SINGLE device which explains multiple events. That's why inventors must suppress their own breakthroughs: if their idea gets out, a few years later the military will be misusing it, and widely. New energy sources, wireless beam-power devices for megawatt power-transmission? We can't have nice things.
1:58:55	Carlos P:	QUESTION: If the relationship between Covid19and 5G exists it is presumably known to the authorities.
1:59:32	Maria:	Replying to "QUESTION: If the r..." Yes of course. And you know why.
1:59:34	Veri T:	Pulse-modulated infrared is as hazardous as pulse-modulated microwave radiation. Ask our most prolific EPA maverick researcher on this subject - Carl Blackman PhD. It's the carriage of DATA through MODULATION that primarily creates the HAZARD.
2:00:02	Veri T:	This is why we can use fiber-optic cable instead.
2:00:20	Ashley D:	QUESTION: Dr. Rubik, have you heard of the work of Dr. Ibrahim Karim who created the science of BioGeometry, his newest book is on a Physics of Quality? If so, what are your thoughts on his work of using shapes and angles to neutralize detrimental energy (EMF, detrimental earth energy, 5G, etc.)?
2:00:28	John F K:	Replying to "Touché, Dr. Kessler ..." Hopefully the white hats like the light system organizations will help us faster but we need the normies to awake for us to win.
2:00:56	Ashley D:	Reacted to "Hopefully the white ..." with 👍
2:00:58	Veri T:	There is SOOOOOOO much research, we are OVERWHELMED with RF/microwave radiation bioeffects studies - over 25,000 studies. Let's not diminish this vast voluminous area of study, which far exceeds, for example, lead bioeffects and cigarette bioeffects studies' numbers.
2:01:15	Maria:	Reacted to "There is SOOOOOOO ..." with 👍
2:01:24	Donna A:	Talk about 'freedom of speech' - English language is NOW FORBIDDEN IN QUEBEC (cannot communicate or file docs with Quebec gov in English) the guy who wrote the 'law 96' says finally now the 'courts' are free from the 'scourge' of THE ENGLISH LANGUAGE! America should make English the official language of AMERICA - or you might have the same problem if you don't. please pray for Canada - my prayers are for USA too! Thanks to USPA - my favourite family! Are there any ALTERNATIVE TO 5G? OR INTERNET? CLEAR ZONE RANCH A GREAT IDEA!
2:01:37	Veri T:	Use cables/wires. NO wireless. No infrared radiation, either. it is hazardous.

2:03:12	Maria:	Reacted to "The first study of..." with 👍

2:03:14	william B:	Heh, to detect "crazy crackpots," just check whether they believe that radio waves have biological effects. Since we "know" that there is no EM/bio coupling, then we can employ this concept to filter out all the crackpots .right? When mentioning this back in the 1970s, a college professor noted that this once applied to ...ultrasound! "Everybody knows" that sound has no impact on biochem. To detect crackpots, just look for claims that ultrasound affects chemistry. But today we know that ultrasound of course affects chemistry. The "crackpot detector" has moved on, and now is aimed at EM/chemistry coupling. PS, clam-phones FTW!!!!
2:03:56	Veri T:	Like your tongue-in-cheek, Wm Beatty.
2:04:00	Maria:	!!!!QUESTION: Do you think there is a path to make darkfield microscopy more available to healthcare providers in the united states? What does that path look like and if I am a healthcare provider, what resources can I use to obtain darkfield microscopy access?
2:04:45	Veri T:	The modulation and duration of RF/MW radiation are even more powerful factors on biology than is the power density.
2:06:21	Veri T:	I have a presentation on how to discern truth about these matters, too, including review of the level of each sources - as stated before - primary, secondary, tertiary, quaternary... and much more.
2:06:39	Libby R:	Replying to "!!!!QUESTION: Do you..." See Dr. Ana Mihalcea. She does dark field microscopy and offers a class for it, and suggests microscopes to buy.
2:07:32	william B:	I'm a PKD follower. Phillip K Dick had a vision: where we're still living in Ancient Rome, and if we complain in public, the authorities (in helmets) will come and drag us away. So, just assume that you're a guerrilla-fighter in an enemy country, and you'll do fine. Play Talking Heads on repeat, "Life In Wartime!"
2:07:34	Veri T:	Replying to "!!!!QUESTION: Do you..." Yes, Libby, I've cited her colleague David Nixon, as well. Did you see my message on this?

2:09:03	Marilyn G:	Yes - in BioGeometry.com look for "The Miracle of Hemberg" the cell phone equipment was in the church towers. His shapes - The Physics of Quality" neutralized the problems caused by the cell phone antennas. EVERYONE was affected. And the Cow God thanked him. This is BIOGeometry, not just sacred geometry.
