1:05:39	Dan M:	This is a good combination of features. Very cool.
1:05:42	Lynn P:	LOOKS LIKE THE FRONT OF THE OLD Hieronymus MACHINES FROM THE 1960S AND 70S! LOVE IT!!
1:07:56	Jana S:	What does it cost?

1:09:09	Jana S:	I never got started because the machines are so complicated. Finally an Instrument that is straight and simple.
1:11:07	Jana S:	What is a coldscan?
1:12:48	Lori K:	Reacted to "I never got started ..." with 👍
1:12:59	Tamara D:	Replying to "What is a coldscan?" it's dowsing, only using your fingers on the stick plate

1:13:20	Tamara D:	Replying to "What is a coldscan?" to find the rates or time
1:13:37	Patti:	Reacted to "I never got started ..." with 👍
1:13:45	Jana S:	Replying to "What is a coldscan?" Is there any other way to do it? I thought that was the only way...
1:14:00	Steve O:	Reacted to "\$675 <a href="https://www....">https://www....</a> " with 👍
1:14:26	Tamara D:	Replying to "What is a coldscan?"some people use a pendulum at first...but that takes longer, at least for me.
1:14:49	Tamara D:	Replying to "What is a coldscan?" Ed's course he mentioned is really great and on video.
1:15:27	Jana S:	Replying to "What is a coldscan?" I see, one can use bioresonance of Paul Schmidt, that is fast, but does one not just feel it when the resonance kicks in?
1:15:47	Jana S:	Replying to "What is a coldscan?" OK
1:15:49	Robbin H:	Can we see the new instrument again when you are done with the powerpoint, Ed, please. Just so we can see it better (larger)? Thanks
1:15:53	Tamara D:	Replying to "What is a coldscan?" Sorry, not familiar with Paul.
1:16:22	Jana S:	Replying to "What is a coldscan?" German System. Great.
1:17:00	Jana S:	Replying to "What is a coldscan?" But only the old Dipole antenna gear. The new stuff is not really it.
1:17:04	Pamela M:	Fabulous - thank you
1:17:07	D C:	How do we order? Definitely want one
1:18:33	Pamela M:	Reacted to "Ed's course he men..." with 👍

1:22:04	Beverly C:	Nice job Ed. Thanks!
1:22:09	Sami C:	Thanks Ed👍
1:22:59	Shaylynne S:	what are your thoughts on voice radionic machines
1:23:08	Victoria K:	Thank you!
1:23:36	Robbin H:	Are we charged now or when it ships? Thanks!
1:24:36	Cintia S:	Question! I know how to use a pendulum and am very familiar with energy healing and stuff like that. I work with radionic graphics (not sure if you know them, but I am very familiar with Brazil), anyway my question is if I buy your product can I learn to use it without taking a presential course?
1:24:36	Julian N:	technical Q please: is the input well wrapped in copper acting like an induction coil?
1:24:52	Bob W:	Could you record your voice intent onto a thumb drive and put that in your well?
1:25:19	Jana S:	Is the Price with or without us tax?
1:25:20	Patti:	I have the personal instrument, Will this PPPE work with it as well as the replicator? I need to get either or. (Or both!! LOL)
1:25:25	P B:	are the pyrex wells removable for cleaning?
1:26:04	Robbin H:	Thank you!
1:27:28	Dan M:	Replying to "Could you record you..." I don't see why not Bob. A voice recording can be used for a witness, so this should work too.
1:28:16	P B:	how do you remove the energetic imprint of items placed in the wells?
1:29:14	Nicole G:	Thank you so much ...
1:30:54	Bill M:	Replying to "Could you record you..." How about an energy healing session ? Reiki or maybe Pranic Healing sesh. Could be vocal and energy projection. Colored energies with Pranic.
1:31:35	John F:	For those interested in spiritual development, what do recommend that might be most helpful? Who are the people leading the way in this type of research?
1:31:40	William H:	Can the new PPE device be used for out-of-phase programs to resolve pests and weeds in the garden. I have the personal instrument now, but haven't figured out how to use it that way.
1:32:16	Helen B:	I have a betar dual spin coil antenna. Is this the thing can be used portable? like you put it on the body for pain or to clear blockages? or is it different because mine is blue around it.
1:33:07	Radu I:	Replying to "Could you record you..." Yes , I also combine Pranic Healing with Radionics and it is indeed of greater success than each one separately!
1:33:18	Lori K:	Replying to "I have a betar dual ..." Yes, Helen, the work the same and are fantastic for pain relief. I love them!
1:34:06	Bill M:	Replying to "Could you record you..." I am well versed in PH but new to Radionics. How do you combine the two?
1:35:37	Beth K:	<a href="https://twisteddsage.com/">https://twisteddsage.com/</a>

1:35:48	Radu I:	Replying to "Can the new PPE devi..." just use as witness a picture of the field, I add also small bags with soil from 4 directions and stick over the picture in their directions
1:35:59	Shaylynne S:	You are the machine ;)
1:36:10	Justine B:	Reacted to "You are the machine ..." with 
1:37:38	DM:	If there are not enough capacitor banks on PPE MAX, how do you take the rate
1:38:33	Shaylynne S:	Set your intention for the pest to find your land undesirable, and to find a more suitable environment, and place your property outline in the outplace
1:38:59	Pamela M:	Reacted to "how do you remove ..." with 
1:39:16	Shaylynne S:	outplate*
1:39:23	Jana S:	Is this offer only today?
1:40:00	Jana S:	You say no one knows how radionic works. Is this correct?
1:42:17	Jana S:	Are you Aware of the formulas of Dr. Konstantin Meyl? Also Tesla made it clear what Radionics is.
1:42:50	Shaylynne S:	I'd like to hear what Tesla said what Radionics is
1:42:53	Cintia S:	Answer my question pls
