#### FREE USPA Masterclasses #53 and #54

April 27, 2024: "Transforming Yourself from Muggle to Magician: Awakening Yourself as an Avatar" with Darren Starwynn.

at 1:00 p.m. CT

For info and a [link](#) to attend, click Darren's Picture!!

#### About the Class:

An Avatar is divine source consciousness expressing itself through a human being, for a purpose. This supreme consciousness is within everybody and everything, but Avatars express it more consciously and powerfully.

In this event Darren Starwynn will talk about the awakening of consciousness and spiritual alchemy we are all going through. This is the process of transmuting the density of our lower, programmed mind into higher states of illumination and empowerment. Awakening as an Avatar is also a physiological process. Darren will describe how you can upgrade your body to a higher level of vitality and energy vibration through its epigenetic pathways.

#### About Darren:

Darren Starwynn is a "Quantum Catalyst" who helps people to awaken their consciousness and superpowers, so they can make their most valuable contribution and thrive. He is dedicated to creating consciousness raising and heart opening gatherings for meditators and Lightworkers.

Darren has written four groundbreaking books including bestseller *Awakening the Avatar Within*, led hundreds of workshops and trainings internationally, and invented vibrational medical devices that have been sold worldwide since the 1990's.

### **About the Class:**

An Avatar is divine source consciousness expressing itself through a human being, for a purpose. This supreme consciousness is within everybody and everything, but Avatars express it more consciously and powerfully.

In this event Darren Starwynn will talk about the awakening of consciousness and spiritual alchemy we are all going through. This is the process of transmuting the density of our lower, programmed mind into higher states of illumination and empowerment. Awakening as an Avatar is also a physiological process. Darren will describe how you can upgrade your body to a higher level of vitality and energy vibration through its epigenetic pathways.

He will present his vision of how awakening Avatars can effectively heal and transform our planet. This vision is based on a stanza in the *Tao Te Ching* from ancient China, and describes a way each of us can be a conscious leader.

This talk includes instruction in a simple form of meditation that promotes presence and embodiment in less than 30 seconds.

### **About Darren:**

Darren Starwynn is a “Quantum Catalyst” who helps people to awaken their consciousness and superpowers, so they can make their most valuable contribution and thrive. He is dedicated to creating consciousness raising and heart opening gatherings for meditators and Lightworkers.

Darren has written four groundbreaking books including bestseller *Awakening the Avatar Within*, led hundreds of workshops and trainings internationally, and invented vibrational medical devices that have been sold worldwide since the 1990’s.

Darren has over 30 years’ experience in acupuncture, Chinese medicine, energy medicine and spiritual healing. He has mentored or inspired thousands of healthcare practitioners, business owners, healers and meditators to embody Quantum principles of healing, leadership, spirituality and financial success.

Director of Bridge to Mastery Consciousness Institute, Darren also serves as lead minister of Lightworker Ministry. Darren loves hiking, writing and creating original music.

### **Section IV - In Case You Missed This:**

**March 9, 2024, Glen Rein presented USPA Masterclass #52, “DNA as a Transducer of Subtle Energy.”**

About the Class:

It is well known that DNA absorbs and emits electromagnetic (EM) energy as can therefore be considered a transducer. Furthermore, DNA is a conductor of electrons and its electrical properties are now considered one of its functional properties.

The ability of DNA to transduce and conduct other forms of energy like subtle energies and NADI energy from healers will be presented in the form of original research using double-stranded human DNA in aqueous solutions. The interaction of these energies with DNA was assessed using impedance measures from which real and imaginary values can be obtained.

The use of imaginary impedance measurements as a window to the quantum, virtual and etheric properties of DNA will be discussed. Since the author has previously demonstrated the ability of conscious intention to resonate with and change DNA, it is proposed that the mind-DNA connection is mediated by quantum fields.

About Dr. Glen Rein

Dr. Glen Rein earned a BSc degree in psychology from the University of Waterloo in Canada and later completed his PhD in biochemistry at the University of London.

Following the completion of his PhD, Dr. Rein co-ran a laboratory at St Bartholomew's hospital (UK) continuing his in-depth research interests in bioenergetics with the summation of these new findings being published in respected domains including the prestigious journal 'Nature'

Returning to the US, Dr. Rein continued his study and research in biomedical sciences at highly regarded institutes including Harvard and Stanford Medical Schools.

He is currently CEO of the Quantum-Biology Research Lab conducting further innovative and contract research. Most recently, Dr. Rein has co-founded Glee Biologics with Dr. Lee Lorenzen.

## Three Recommendations from Dan Taylor:

### First: Controlling Lucid Dreams

Dan Recommends the following study: PsyArXiv Preprints | Two-way control of a virtual avatar from lucid dreams <https://osf.io/preprints/psyarxiv/xzmwh> Abstract provided)

“In lucid dreams (LDs), it is possible to maintain consciousness and achieve predetermined goals while in REM sleep? Since the 1980s, scientists have been searching for LD application areas. The current study is the first to demonstrate a method for controlling a car avatar with feedback from LDs. Support for this possibility could be used for personal applications and LD studies.” (From the Abstract)

### Second: Fundamental awareness: A Framework for Integrating Science, Philosophy and Metaphysics

Fundamental awareness: A framework for integrating science, philosophy and metaphysics - PMC <https://www.ncbi.nlm.nih.gov/pmc/articles/PMC4951167/> Authors: Neil D. Theisea, B and Menas C. Kafatosc

“The ontologic framework of Fundamental Awareness proposed here assumes that non-dual Awareness is foundational to the universe, not arising from the interactions or structures of higher-level phenomena. The framework allows comparison and integration of views from the three investigative domains concerned with understanding the nature of consciousness: science, philosophy, and metaphysics.” (From the abstract)

### Third: How Einstein and Minkowski missed but could have discovered superluminal Lorentz transformations and six-dimensional spacetime.

Possible relation to quantum theory and consciousness.

<https://www.researchgate.net/publication/377759560> How Einstein and Minkowski missed but could have discovered superluminal Lorentz transformations and six-dimensional spacetime Possible relation to quantum theory and consciousness

“The history and rationale for the discovery of superluminal Lorentz transformations are first briefly provided. The analysis of how Einstein, Minkowski and others did not find the possibility of  $v > c$  shows that we must be cautious in our assumptions not to implicitly exclude  $v > c$ . It is also shown how they, especially Minkowski, could have discovered superluminal LT and a six-dimensional spacetime with three space and three timelike dimensions, which allows real-valued superluminal LT. Is this just a mathematical possibility? Does this contradict the causality order? Is this related to entanglement? As no objective physical becoming seems possible in Minkowski 4D spacetime, because all events of spacetime exist equally, this seems to be an apparently insurmountable contradiction between the physical theory of relativity (and the experiments that support it) and our everyday experience of change and the flow of time. Can this be better handled with more timelike dimensions? Is there a relation to Quantum theory and consciousness?” (From the abstract)

## **From the amazing site, WINN (What is Needed Now) Good Vibes Can Change Our World**

Celia Coates, WINN Editor, April 19

"Prominent designer channels a chic, organic vibe in a new, bayside abode." That's what appeared recently in slick marketing magazine. I am not interested in living an abode, what about you? But I am very interested in "vibes" – vibrations.

We've been hearing about vibrations for decades (even centuries) but "vibes" arrived in the creative 1960s, especially with the Beach Boys 1966 song, "Good Vibrations". Although bad vibes exist, usually vibes are about the positive feelings people give off, waves of attitude that we can feel but not see or measure.

Pam Gregory is an astrologer and so much more than that. She is a lively, intuitive, spiritual wisewoman who produces YouTube videos that are splendidly worth watching. She knows a great deal more than I do about frequencies and vibrations and has said,

"We are electromagnetic beings living in an electromagnetic soup."

There have been so many predictions about how that soup is about to change (Y2K, 2012, the Hopi Prophecies, and so on) and yesterday a frequent current message arrived from The Institute of Noetic Sciences saying that, "our whole planet is in profound transition".

Please watch Pam Gregory's YouTube discussion about consciousness and how we each can be a good part of that transition: 10 Simple Steps to Raise Your Frequency.

It's a Zoom session of over an hour with a chance for the attendees to have asked questions at the end - but it is the first 50 or so minutes that are practical and helpful.

The link is: [https://www.youtube.com/watch?v=X\\_0mEQibND4](https://www.youtube.com/watch?v=X_0mEQibND4)

Pam Gregory has such a large audience you may already know about her!

## Our Library is Your Library! Here is the 'gps' for the USPA Library

<https://www.psychotronics.org/library/>

Have you been to the USPA Library lately? Have you wandered into the newly added rooms?

- [The Media Room](#) Visit our Media Room to learn about our Audio and Video recordings and to download the Catalogues of USPA Audio and Video Recordings 1978 to 2019. There is also a link for the full tables of contents of all of our Conference Proceedings.
- [The Toby Grotz Room](#) Toby Grotz is an electrical engineer with a background in power systems design. He has designed electrical systems for coal, natural gas and nuclear power plants. Mr.

Grotz has been effectively managing projects in the energy and utility industry and researching alternative energy systems for 40 years. He is a founding board member of the Vernon County Energy District, a nonprofit founded to replace the utility scale fossil fuel supply and wealth extraction model of energy use and generation. Toby has presented at our conferences and on a USPA Zoom Masterclass.

- [The Masterclass Chat Room](#) The documents in the Masterclass Chat Room are supplemental to the recorded Masterclass Videos, which are now freely available only to paid USPA Members via our [MEMBERS](#) tab. (You can also purchase them in our shop). Since mid-2019, USPA has been presenting special monthly Masterclasses. These are live, online presentations, Free via Zoom on the day they are presented. We continued to offer these through the pandemic and the series is ongoing as of this writing (October 2023). ALL of the Masterclasses can be seen free by Members! At this point there are 54 of these available!
- [The John Reed Room](#): As we have shared in previous newsletters, John has been collecting, hoarding, and preserving everything he can get his hands on relating to USPA, psychotronics and radionics since – well, since I don't know when. As the collection grows, so does John's frustration at not being able to "complete sets." He is creating a digital library by scanning every out of print book, series of newsletters and magazine articles that he can lay his hands on relevant to psychotronics, radionics and sister fields. As his database grows, he will share updates via this newsletter and our website. **SPECIAL:** In the John Reed Room, you will find the first **twenty** Original USPA Newsletters. **Please visit The John Reed Room** on line and see if you can help fill a void in John's collections. If you contribute an item to the USPA Library, *you may choose a free video of your choice from our shop.*

### What is USPA?

The United States Psychotronics Association (USPA) is a federally recognized, nonprofit 501(c)(3) organization founded in 1975 to serve as a focal point for scientific and technical exploration of the universe of esoteric, spiritual, and psychic arts in the United States of America.

The USPA has been hosting annual conferences for its membership since its formation and has featured countless individuals with cutting-edge viewpoints, research, or theories to share, allowing any interested persons to openly discuss their work.

### What is Psychotronics?

USPA defines psychotronics as the science of mind-body-environment relationships, an interdisciplinary science concerned with the interactions of matter, energy, and consciousness.

Psychotronics involves the study, research, and applications of the physics and technology of the mind, brain, spirit, consciousness, and the underlying forces of life and nature – hence the term “psychotronics.” A true understanding of the universe must include the spiritual as well as the technical. USPA provides an opportunity for amateur researchers to present their findings along with the professionals. USPA stresses research, with documentation of results, and practical applications, rather than personal experience and unsupported hypotheses

***Bonus Class by Morris Hartman***

**Polarity 1 - June 6 Cost \$80 9:00 AM – 5:00 PM**

**Polarity 2 – June 7 Cost \$80 9:00 AM – 5:00 PM**

*Polarity* is movement back and forth that is caused by opposite charges— i.e. positive, negative, and neutral poles — causing attraction and repulsion. Understanding this energy flow between the body's negative and positive poles is the key to unlocking energy blockages in the body and encouraging health. A harmonious balance and flow of energy is the goal of Polarity Therapy.

Morris will teach you how to contact certain areas of the body to stimulate or inhibit energy flow, to bring it into a state of balance. Problems on physical, mental, and emotional levels have an opportunity to resolve themselves as the life force is liberated and re-balanced. This then tends to have the person receiving experience a sense of well-being, and deeper connection to their inherent health. Lunch will be provided. As well as Coffee and water.

# **Brainicity™ Brain Synchronization and Resonance**

## **The Next Step in Human Evolution**

### **Audio Files - Video Files - Guidebook**

What is ascension? Who are we? Where do we come from? What is our purpose? These are the primary questions the human race asks. Some people say that ascension is going to a place like heaven. Others say it is the evolution of the human brain.

The Ancients believed the universe consists of multi-dimensions. Quantum physics today is showing serious consideration of this theory. It is believed that there are ascending levels of consciousness associated with multi-dimensionality. Advancing to a higher level of consciousness / higher dimension may be considered ascending.

Understanding the world around us expands as consciousness evolves, and higher awareness activates knowledge, inherent in ancient wisdom traditions. Brainicity™ Brain Synchronization and Resonance can be the shortcut to the path of awakening consciousness through self-discovery and the use of advanced technology in the acceleration of human consciousness. In this program, various aspects of knowledge are presented and Brainicity™ Brain Synchronization and Resonance audio and video selections are suggested.

**With Help from USPA, J.G. Gallimore’s Books are Still Available on Amazon**

Jerry G. Gallimore was one of the founders of the USPA in 1975, and was a leading researcher in psychotronics and unusual energies until his untimely death in 1989.

All five of J.G. Gallimore’s rare books on psychotronics subjects and unusual energies have been reprinted by the United States Psychotronics Association (USPA) and are being made available at a fraction of the cost that used copies were being sold at online.

So rare have these books been, that only a few libraries in the entire world had them in their collections, and some original Gallimore’s books were being sold for several hundred dollars each online. However, with these newly reprinted volumes, each will be available for less than \$30.00. All are: [Available at Amazon.com](#)

This is the second book in the "Unusual Energies" series that J.G. Gallimore published. It covers Gallimore's research on Albert Abrams, the founder of modern radionics, psychological physics, psychic energy, thought resonance, subtle energies, crystals, and related subjects.

In addition, a number of radionics devices are discussed, such as the De La Warr Diagnostic Instrument. And very helpfully, the rates are provided for substances, body organs, and medical diseases and disorders. I very interesting interview of Christopher Bird, conducted by J.G. Gallimore is provided, as well as a discussion of Walter Russell and his research

This book describes in depth the research and theories of J.G. Gallimore into the question of "parapsychology transmission" -the question of how such things as telepathy, remote viewing, ESP, and similar phenomena can physically occur. He discusses the various emanations, radiations, and energy fields of all matter and life including the ancient Chinese energy called "chi" (qi), the ancient Indian's prana energy, Reichenbach's "odic force," Gurwitsch's "mitogenic radiation," Wilhelm Reich's orgone energy, and other subtle energies. He shows how all of these energies are similar, how they interact, and how they are related to gravity. He also discusses crystals as transducers of these energies, and provides diagrams of devices that could potentially be used to harness or control these energies.

This book covers the visionary research and theories developed by J.G. Gallimore about anti-gravity, space, time, and biophysics. He discusses in depth the dimensions of space, time, and gravity, and new discoveries in each of these areas. In addition, he covers research being done on anti-gravity and then discusses anti-gravity patents that have been obtained.

He also discusses the intriguing concept of aura energy fields surrounding humans and other living things, and how extra-sensory perception (ESP) might be explained through biophysical principles.

This book is about psychotronics, radionics, electromagnetic fields and waves, psi-plasma, plasma fields, subtle energies, bio-electromagnetic energy, and other unusual energies emitted by living and non-living things. It also is about how living things interact with and are affected by these energies, which may enhance health or harm health. The book covers the research of Wilhelm Reich on Orgone energy, of Baron Reichenback on the odic forces, as well as research done by Cazzamalli on brain radiations and Lakhovsky on using high frequency radiations to successfully treat cancer in humans. In addition, Lakhovsky used

similar methods to enhance the growth of plants. Gallimore shows how these energies, forces, and fields are all inter-related and provides hypotheses and ideas on their possible unification.
