Rainer Fromknecht sent Easter Mandalas for our pleasure.

Rainer sent mandalas with Easter wishes in various languages. He said, "These simple greetings for Easter are another interesting "area of research" in terms of language and attribution, because they also include names and expressed emotions; the focus seems to vary depending on the language."

Daniel Taylor offers this talk Harold McCoy gave for Global Sciences, on the Power of the Focused Mind.

<https://www.youtube.com/watch?v=4jtF-Dskse0>

Harold spoke many times at USPA Conferences. He established a record of many incredible healings, from tumors to depression to diabetes, all using the “Power of the Focused Mind.” His mission was to teach as many people as possible to use his healing techniques.

After retiring as a military intelligence officer with 24 years of service, Harold was elected as president of the American Society of Dowsters for four years and trustee for eight years. After receiving a grant, he went on to establish the non-profit Ozark Research Institute. The Institute is chartered to study and teach the power of the mind as it pertains to

spontaneous remission or miraculous healing of chronic or life-threatening diseases, as well as all other manner of mind phenomena. Harold taught the power of the mind techniques for more than 30 years.

Beverly Rubik notified us of another loss: Charles T. Tart (1937 – 2025)

She said, “Sorry to be the bearer of sad news—Charlie Tart, parapsychologist and professor, is gone. He died at 88 years old.”

CHARLES T. TART OBITUARY 29 April 1937 – 5 March 2025

by Stephan A. Schwartz

In every generation of scientists in every branch of science there are always a very small group of scientists who stand out and Charles Tart, known to his friends as Charley, his preferred name form, is one such person. In two disciplines: psychology, and parapsychology, his work stands out for its originality, insights, and the influence it has had on the work of others.

Charley died at the age of 86 on 5 March 2025, by his own account, just before he died, “mostly of old-age.” He is survived by his daughter Lucinda, and his son David. His beloved wife Judy died 2022, and her death was as he told me, “Very difficult and very sad.”

Charley was born in Morrisville, Pennsylvania, but grew up mostly in New Jersey. As a teenager his consuming interest was electronics, particularly for communications, and he became so proficient that as a teenager he became a Ham radio operator and even worked as a radio engineer. He was an excellent student, and his electronic interests and his student achievements qualified him for admittance to the engineering program at Massachusetts Institute of Technology.

But this was the age when drugs that produced altered states of consciousness became a major cultural trend amongst the young, and after several personal experiences his fascination with altered states became so strong that after reading J.B. Rhine’s *The New World of the Mind*, Charley transferred from MIT to Duke University in order to meet and be mentored by Rhine, then the leading parapsychologist in the United States. It was the start of his lifelong research into altered states of consciousness, particularly, nonlocal consciousness. After earning his bachelor degree Charley went on to graduate work in psychology and became fascinated with altered consciousness produced by hypnosis.

In 1963, Charley finished his doctorate in psychology at the University of North Carolina, based on his research on the use of post-hypnotic suggestions to influence dreaming, and then went to Stanford University to pursue post-doctoral research with Ernest R. Hilgard, internationally known for his research in altering consciousness through hypnosis. This foundation led him for the rest of this life on a dual path career, as a psychologist and as a parapsychologist, and he was soon recognized for his substantial contributions.

Charley joined the faculty of the University of California – Davis in the Department of Psychology where he would serve for 28 years, eventually becoming a Professor Emeritus. But he also held a number of other concurrent academic appointments as well: Senior Research Fellow of the Institute of Noetic Sciences, the first holder of the Bigelow Chair of Consciousness Studies at the University of Nevada in Las Vegas, a Visiting Professor in East-West Psychology at the California Institute of Integral Studies, an Instructor in Psychiatry at the School of Medicine of the University of Virginia, and a consultant on government funded parapsychological research at the Stanford Research Institute (now known as SRI International).

From the beginning of his academic life, he was a prolific writer. He would go on to publish more than 250 papers in peer reviewed journals and chapters in books. His work was recognized as being of such quality that his papers were accepted and published in both Science and Nature. His first book, Altered States of Consciousness, published in 1969, quickly was recognized as an international classic, as was his 1975 book, Transpersonal Psychologies. Both were considered so significant that they became textbooks. He also became one of the founders of the then emerging approach to psychology, transpersonal psychology, and became an internationally recognized figure in both psychology and parapsychology.

Over the course of his career in addition to the two books already mentioned he wrote a number of other on both psychology and parapsychology: On Being Stoned: A Psychological Study of Marijuana Intoxication, States of Consciousness (1975), and Symposium on Consciousness. His 1997 book Body Mind Spirit: Exploring the Parapsychology of Spirituality, which explored the relationship between parapsychological abilities and spiritual and religious beliefs won Amazon's best metaphysical book award, in March 1998. His most recent books were Mind Science: Meditation Training for Practical People and The End of Materialism: How Evidence of the Paranormal is Bringing Science and Spirit Together.

The lives of hundreds of students were affected by Charley's instruction and mentoring and, additionally, he co-founded with myself and others, The International Society for the Study of Energy Medicine (ISSEM), and the Academy for the Advancement of Postmaterialist Science (AAPS), and was a major figure in, and one time president of, the Parapsychological Association (PA) an affiliate of the American Association for the Advancement of Science (AAAS).

As I said at the beginning in every discipline of science there are always a very small group of scientists who stand out and Charles Tart was one such scientist. He will be celebrated in history and deeply missed by his friends and colleagues.

This was from an article at <https://www.metapsychique.org/wp-content/uploads/2025/04/Tart-VO.pdf>

There is a comprehensive article about Tart here: https://en.wikipedia.org/wiki/Charles_Tart

What is USPA?

The United States Psychotronics Association (USPA) is a federally recognized, nonprofit 501(c)(3) organization founded in 1975 to serve as a focal point for scientific and technical exploration of the universe of esoteric, spiritual, and psychic arts in the United States of America.

The USPA has been hosting annual conferences for its membership since its formation and has featured countless individuals with cutting-edge viewpoints, research, or theories to share, allowing any interested persons to openly discuss their work.

What is Psychotronics?

USPA defines psychotronics as the science of mind-body-environment relationships, an interdisciplinary science concerned with the interactions of matter, energy, and consciousness.

Psychotronics involves the study, research, and applications of the physics and technology of the mind, brain, spirit, consciousness, and the underlying forces of life and nature – hence the term “psychotronics.” A true understanding of the universe must include the spiritual as well as the technical. USPA provides an opportunity for amateur researchers to present their findings along with the professionals.

USPA stresses research, with documentation of results, and practical applications, rather than personal experience and unsupported hypotheses.

With assistance from USPA, J.G. Gallimore's Books are Still Available on Amazon

Jerry G. Gallimore was one of the founders of the USPA in 1975, and was a leading researcher in psychotronics and unusual energies until his untimely death in 1989.

All five of J.G. Gallimore's rare books on psychotronics subjects and unusual energies have been reprinted by the United States Psychotronics Association (USPA) and are being made available at a fraction of the cost that used copies were being sold at online. [Available at Amazon.com](https://www.amazon.com) USPA Shares in the income from these sales.

So rare have these books been, that only a few libraries in the entire world had them in their collections, and some original Gallimore's books were being sold for several hundred dollars each online. However, with these newly reprinted volumes, each will be available for less than \$30.00.

The Handbook of Unusual Energies: Volume	ISBN-13: 978-1543024999	The 1st book of 3 on unusual energies	468 Pages
<p>Gallimore discusses in depth the research, discoveries, and inventions of all the major researchers in subtle energies, the aether, biological 62 fields, pyramid energy, radiesthesia, radionics, crystal transduction, and related subjects.</p> <p>These include the works of Baron von Reichenbach's and his odic energy, Dr. Wilhelm Reich's orgone energy, Dr. Harold Burr's biological life fields, Kozyrev's time mirror, Edgar Cayce's transmission of energy, and related research done by many others.</p> <p>Of particular importance is Gallimore's 127-page chapter on radionics. In this chapter he discusses in depth the research and devices of Ruth Drown, T. Galen Hieronymus, Rho Sigma, Dr. L. P. Corte, and other prominent people in the radionics field.</p>			
Collected Properties & Writings of J. G. Gallimore: Volume 2	ISBN-13: 978-1543025040	The 2nd book of 3 on unusual energies	258 Pages
<p>This is the second book in the "Unusual Energies" series that J.G. Gallimore published. It covers Gallimore's research on Albert Abrams, the founder of modern radionics, psychological physics, psychic energy, thought resonance, subtle energies, crystals, and related subjects.</p> <p>In addition, a number of radionics devices are discussed, such as the De La Warr Diagnostic Instrument. And very helpfully, the rates are provided for substances, body organs, and medical diseases and disorders. I very interesting interview of Christopher Bird, conducted by J.G. Gallimore is provided, as well as a discussion of Walter Russell and his research</p>			
Relationship Between Parapsychology and Gravity: Vol. 3	ISBN-13: 978-1543024944	The 3rd book of 3 on unusual energies	228 Pages
<p>This book describes in depth the research and theories of J.G. Gallimore into the question of "parapsychology transmission" -the question of how such things as telepathy, remote viewing, ESP, and similar phenomena can physically occur. He discusses the various emanations, radiations, and energy fields of all matter and life including the ancient Chinese energy called "chi" (qi), the ancient Indian's prana energy, Reichenbach's "odic force," Gurwitsch's "mitogenic radiation,"</p> <p>Wilhelm Reich's orgone energy, and other subtle energies. He shows how these energies are similar, how they interact, and how they are related to gravity. He also discusses crystals as transducers of these energies, and provides diagrams of devices that could potentially be used to harness or control these energies.</p>			
Transverse Paraphysics: The New Science of Space, Time, and Gravity Control	ISBN-13: 978-1543024920	Gallimore's fourth book	374 Pages
<p>This book covers the visionary research and theories developed by J.G. Gallimore about anti-gravity, space, time, and biophysics. He discusses in depth the dimensions of space, time, and gravity, and new discoveries in each of these areas. In addition, he covers research being done on anti-gravity and then discusses anti-gravity patents that have been obtained.</p> <p>He also discusses the intriguing concept of aura energy fields surrounding humans and other living things, and how extra-sensory perception (ESP) might be explained through biophysical principles.</p>

Gallimore's Fifth book

134 Pages

This book is about psychotronics, radionics, electromagnetic fields and waves, psi-plasma, plasma fields, subtle energies, bio-electromagnetic energy, and other unusual energies emitted by living and non-living things. It also is about how living things interact with and are affected by these energies, which may enhance or harm health.
