**Masterclass #69 Why Radionics Works:  
Understanding Cause Before Effect. with Dale Pond-  
January 24, 2026**

#### Dale's Class

Radionics has demonstrated consistent results for more than a century, yet its underlying mechanism remains poorly understood. Practitioners work with rates, patterns, witness samples, instruments, and intention—often successfully—

without a clear explanation of *why* these elements work together. In this masterclass, Dale Pond presents a causal framework drawn from Sympathetic Vibratory Physics (SVP) and modern scalar-field understanding to explain how and why radionics functions.

Participants will learn to:

Distinguish sympathetic vibration (cause) from resonance (effect) in radionics systems.

Understand what radionic rates actually represent and why they work.

Explain how operator intention couples to instruments through scalar conditions.

## Section I – A Message from Our Outgoing President, Jon Klimo

Dear friends and members of USPA,

As outgoing president of the USPA, I warmly welcome Dr. John Reed as interim president of the USPA. He brings much knowledge and understanding to the subject of radionics and psychotronics. I especially see him as an excellent historian of the whole movement and he's been very conscientious and responsible throughout the years of his involvement with the USPA. So welcome, John Reed to whatever interim duties you can excellently perform.

I see Radionics and psychotronics becoming ever more important to our understanding of science, the mind, and causality and treatment in biomedicine and health technology in general. You apparently need to be bitten by the bug of hands-on effectiveness to truly assent to the efficacy of radionics and psychotronics.

Meanwhile, there will continue to be an ongoing debate regarding operator-independent vs. operator-dependent effect. To what degree consciousness plays a central part in effectiveness and the interconnectedness of all things remains to be shown to us. But we in the USPA will continue to believe the way we do and devote ourselves in the ways that we will. Thank you all for your involvement in this little-understood and little-cared about area of theory, findings, and practice. We may well inherit a kind of dream-come-true when things central to radionics finally "come true."

My best wishes to you all,  
Jon Klimo

**Ed Note - Jon was a frequent presenter at USPA Conference. Several of his recorded talks are in Members tab and in our Shop.**

**Thanks, Jon,  
for many years of service to the USPA!**

## Section II A Message From our Incoming President, John Reed

Hello Members and Friends of USPA,

I am honored to be chosen to be your new president. Under Jon Klimo and the board that served with him, USPA not only survived the past few years, including the pandemic years, it flourished and grew! Our email list has grown to nearly 4,000 subscribers. Our membership increased by over twenty-five percent. We held our 50th Anniversary Conference in July of 2025 in Crystal Lake, Illinois.

Now, in 2026, it is my hope that with increased participation in the work of USPA, that these numbers will continue to grow and USPA will continue to be a major resource to people interested in cutting edge science.

In order for USPA to serve its members better in the coming years, we are establishing a number of working committees, to organize and implement existing and planned projects and programs.

The table below has the name of each committee, the current chairperson, (if there is one), and the general mission or objectives of each committee.

If you have an interest in helping with any of these committees, please contact the acting committee coordinator, John Reed at [joreed43@gmail.com](mailto:joreed43@gmail.com). Please reach out to me with any questions or inquiries about USPA. I will respond quickly to all inquiries.

Sincerely,  
John Reed

### Masterclass #69 “Why Radionics Works: Understanding Cause Before Effect” with Dale Pond

January 24, 2026 – 1:00 pm Central Time. This is a free Zoom presentation, open to all.

With 3,655 email subscribers, we hope to fill the Zoom Screen

Register in advance for this meeting: [CLICK HERE](https://us02web.zoom.us/j/84451200000), or copy and paste the URL <https://us02web.zoom.us/j/84451200000>

#### ABSTRACT

Radionics has demonstrated consistent results for more than a century, yet its underlying mechanism remains poorly understood. Practitioners work with rates, patterns, witness samples, instruments, and intention—often successfully—without a clear explanation of why these elements work together.

In this masterclass, Dale Pond presents a causal framework drawn from Sympathetic Vibratory Physics (SVP) and modern scalar-field understanding to explain how and why radionics functions. Using clear analogies and practical examples familiar to radionics practitioners, Dale shows how sympathetic vibration precedes resonance, how rates represent harmonic identities rather than frequencies, why operator intention is inseparable from the instrument, and how nonlocal effects arise naturally from scalar conditions.

This presentation bridges classic radionics (Abrams, Drown, De la Warr) with a coherent physical model that explains results without mysticism—offering practitioners a deeper, more confident understanding of the art they already practice.

LEARNING OBJECTIVES Participants will be able to:

- Distinguish sympathetic vibration (cause) from resonance (effect) in radionics systems.
- Understand what radionic rates actually represent and why they work.
- Explain how operator intention couples to instruments through scalar conditions.
- Recognize the role of harmonic ratios, geometry, and patterning in radionics efficacy.
- Understand why distance is irrelevant in nonlocal radionic effects.
- Integrate classic radionics practice with a coherent causal physics model rather than technique alone.

#### SPEAKER BIO

Dale Pond is a researcher, author, and lecturer with more than four decades of study in Sympathetic Vibratory Physics (SVP), scalar field dynamics, and the work of John Ernst Worrell Keely, Walter Russell, and Viktor Schauberger.

He has presented at multiple United States Psychotronics Association (USPA) conferences since the early 1990s and is widely known for his ability to explain subtle-energy and radionics phenomena in clear, causal, and non-dogmatic terms.

Dale is the founder of SVPWiki.com and author of *The Vibration Series*, a long-running body of work exploring the principles underlying energy, matter, consciousness, and anomalous effects. His work focuses on understanding why systems work—not merely how to operate them.

*(Note: A day or two after this presentation, the recording will be available on our website under the Member's tab. And then will be added to our Shop.)*

## Section V- Thomas Bearden Books Are Available Through USPA

Dana Bearden, daughter of the late Thomas E. Bearden, has opened her private stash of her father's books to USPA! We will be selling them for her on commission and her prices are WAY below eBay, Amazon, Alibris, or anywhere else we've found them.

We only have two volumes ready right now, but we'll be adding more soon. Please note: Currently, the prices include shipping for the United States only, but the USPA folks are open to working with people outside the US on an individual basis who are willing to pay the extra shipping, duties and taxes based on location. Contact [gailinvermont@outlook.com](mailto:gailinvermont@outlook.com) for a shipping quote.

There are currently only two Bearden books in our shop for now, but more are coming soon. This is a very new project, for Dana and the USPA, so keep checking. We'll add more Bearden Titles as soon as we can. Find them at <https://www.psychotronics.org/shop/> in the Books section.

## Section VI – In Case You Missed December’s Masterclass

**Justine Bartleywood - presented: “The Art of Prosperity” December 6, 2025.**

### About the class:

When we joined Justine in December, as she promised, she “brought everything she had — sharing everything she knows, lived, witnessed about the true art of manifesting prosperity.”

She led us to explore what it takes to magnetize abundance, the alignments that open unseen doors, and the inner radiance that calls prosperity into being. Justine shared examples of how alignment opens the flow, but also how to anchor prosperity as a living, breathing frequency in your life.

She is the Founder of The Radionics Woman, President of the First Georgia Dowzers, world traveler and keen observer of human nature.

Dedicated to inspiring and empowering prosperity within every soul using multiple forms of energy transmission, cosmic and divine alignment/timing, and radionics. She encourages everyone to form a daily practice to tune their frequency to prosperity and transform their lives for the better.

## Section VII Ongoing work

### Section VI- President John Reed Shared An Announcement:

A Company is Formed to Fund Breakthrough Technologies *and* Benefit USPA (Instant Replay from September!)

A new company called Breakthrough Technologies Investment Fund (BTIF) has recently been established for the development and production of highly innovative devices in the psychotronics, healing, and new energy fields.

BTIF was founded by John H. Reed and Nick Begich, Sr. who together are providing \$100,000.00 as initial investment funds for inventors and developers of such devices. They have generously offered that any net income or other benefits from investments of their initial \$100,000 will go to USPA. It is hoped that others with a strong interest in the development of breakthrough technologies in the psychotronics, healing, and new energy fields will join with BTIF, so that the investment fund can grow and be able to fund even more inventors and startup companies.

Proposals and applications for funding are being accepted, but with the clear understanding that any funding is contingent upon thorough due diligence. BTIF will consider proposals for the following types of devices:

1. Psychotronic and other technologies affecting the brain and mind. These would include devices whose use will enhance memory, intelligence, learning, or knowledge acquisition; enhance psychic abilities of any kind, such as remote viewing, telepathy, psychometry, or spiritual healing; enhance the placebo and other mind-body effects to treat one’s own diseases and disorders;

2. Health, wellness, and healing devices: Devices using micro-currents, electromagnetic waves, magnetic fields, sound waves, subtle energies, scalar, or torsion field technologies: to diagnose or treat diseases and disorders of any kind, but especially microbial diseases, cancer, Alzheimer’s, and drug addiction; to counteract the negative health effects of 5-G and other negative waves and fields in the environment; to enhance the immune system; and devices that have anti-aging and rejuvenation effects, such as the Dotto Ring, the Priore machine, and Lakhovsky technology.

3. New Energy and Propulsion Devices: This would include any device that generates usable electricity or propulsion operating on new principles of energy production, such as zero-point energy, vacuum energy, magnetic fields, anti-gravity, water as fuel, nitrogen as fuel, or any other “free energy” method.

The development and production of any of these devices could potentially have a dramatic effect on the betterment and advancement of humanity. So, if you have developed or are developing any such device, or know someone else who has done so, please send us information or a proposal, and we will follow up with you. Please send all communications by email, with attachments, if necessary, to John H. Reed, M.D. at [joreed43@gmail.com](mailto:joreed43@gmail.com). You can also phone 443-858-0757. Our mailing address is: Breakthrough Technologies Investment Fund, 6800 Roosevelt Ave., #701, Allen Park, MI 48101.

## Section X –The Dan Taylor Dispatch

### Remembrance of Stephen Braude

Stephen Braude, one of the most influential and insightful voices in the field of parapsychology, has passed away at the age of 80 years. Stephen enlightened the scientific perspective of the field of parapsychology with his philosophical training by recognizing the logical conclusions based on the research findings and the extensions of the theoretical proposals.

Stephen was the editor of the Journal of Scientific Exploration for many years and provided a strong scientific voice for that journal and the [Society for Scientific Exploration \(SSE\)](#). Besides his involvement in parapsychology, Stephen also was a professional jazz musician who released many albums. He will be missed for his accomplishments, but also for his kind and gentle nature and his joyful sense of humor.

The feature length documentary film "Love, Work and Knowledge: The Life and Trials of Wilhelm Reich" is once again available as a video on demand rental on Vimeo.

"A full-length documentary that provides an intimate look at the life and work of Dr. Wilhelm Reich. Using never-before-seen documents, recordings, photos and interviews, this film takes

on the lies, rumors and innuendos that perpetuate the distorted view of him and his work that persist to this day.

It's the first film to have access to Reich's personal archives, his original films and recordings, his former home in Maine and to thousands of pages of his publications. Filmed on location in Germany, Austria, Norway and throughout the U.S., it includes interviews with Reich scholars and historians, former lab assistants and neighbors - and the last psychiatrist to have trained under Reich."

## **Schumann Resonances and Their Effect on Human Bioregulation by James Odell, OMD, ND, LAc**

### **Earth's Atmosphere and the Schumann Resonances**

Earth's atmosphere has five main, distinct layers, which are, from the surface up: the troposphere (up to 12 km — where weather occurs); the stratosphere (12–50 km — home to the ozone layer); the mesosphere (50–80 km — very cold); the thermosphere (80–700 km — warmer, which contains the aurora); and the outermost exosphere (700–10,000 km — which gradually fades into space). Within parts of the mesosphere and thermosphere are stretches of high-energy electrons and ionized atoms, referred to as the ionosphere, which stretches from about 50 to 965 kilometers (30 to 600 miles) in altitude.

The sun's very high-energy X-rays and UV radiation hit the gas molecules and knock off electrons from their parent atoms, creating a lot of ions. When these particles are excited, they collide to create auroras — also known as the northern and southern lights. We can say that the ionosphere is the energy shell of the Earth, where the energy flowing from space intersects with the energy from the Earth.

This causes the Earth-ionosphere cavity to "ring" like a bell or resonate at specific frequencies. Here, some of the waves — if they have just the right wavelength — combine, increasing in strength, to create a repeating "atmospheric heartbeat" known as the Schumann resonance.

### **Discovery of the Earth's Natural Frequency**

In 1952, German physicist Professor Winfried Otto Schumann of the Technical University of Munich began attempting to answer whether the Earth itself has a frequency — a pulse. His assumption about the existence of this frequency was derived from his understanding that when a sphere exists inside another sphere, electrical tension is created. Since the negatively charged Earth is located inside the positively charged ionosphere, a tension exists between the two, giving the Earth a specific frequency (frequencies). Through a series of calculations, he was able to deduce a frequency he believed was the pulse of the Earth-ionosphere space. Thus, the Schumann resonances (or frequencies) are quasi-standing electromagnetic waves that exist in the cavity (or space) between the surface of the Earth and the ionosphere.

Two years later, in 1954, Schumann and Herbert König reported reliable and predictable frequencies in the atmosphere that existed in the cavity (or space) between the surface of the Earth and the ionosphere. Several frequencies occur in this cavity, most between 3 Hz and 60 Hz. There are distinct peaks at extremely low frequencies around 7.83 Hz (fundamental), 14.3, 20.8, 27.3, and 33.8 Hz. These correspond to wavelengths of 38,000, 21,000, 14,000, 11,000, and 9,000 km.

### A Personal Account of Meeting Thomas Bearden-by Marc S. Wilson

I met Thomas Bearden at Space Camp in Huntsville in 1984, and though I interacted with him for only minutes, he has had a profound influence in my life. Knowing of your relationship with his family, I wanted to record my experience with him. If of interest to the family, please feel free to forward to them.

At the opening reception, my parents introduced themselves to Konrad Dannenberg, inventor of the Saturn V rocket engine (which took us to the moon) and a former Nazi. When Dannenberg learned we were from Kansas, he engaged us for a lengthy conversation about Kansas history ("Bleeding Kansas") and Ike Eisenhower, Hitler's scourge, and with whom Dannenberg had an apparent fascination.

Later that week, Dannenberg walks into one of our "science focus" sessions with Thomas Bearden, points directly at me and says, "We're here to see YOU!" Surprised, I asked why. He said, "Aren't you the farmboy from Kansas?" Replying in the affirmative, Dannenberg continued, "What if I told you that the Russians were controlling the weather over Kansas?" As the drought and Reagan's trade war was causing my fellow farmboys to drop like flies, I was keenly interested. Dannenberg said Bearden is the man and the genius to explain it.

When Bearden talked about scalar waves moving through high voltage wires causing physical movement, I asked if this was why our arc welder cables moved when we turned it on. (Yes.) When he talked about how the Russians did the "energy transfer" in the atmosphere, I asked if they could do the "transfer" with targets on the ground. (Yes (and I could tell he was doubting the wisdom of talking about scalar weapons with a bunch of 6th graders).) When he asked us how we believed these actions would affect the weather, I answered that if the Russians had pinpoint control of where to create atmospheric temperature differences, they would be creating high- and low-pressure systems at will. When he asked why that mattered, I said because they could park a high-pressure system right over Kansas, it would never rain, and a loaf of bread would cost \$100. He confirmed this, and further, pointed out they are manipulating the jet stream to trap the hot, dry air over the Plains during the summer. The jet stream was a daily topic in my home because my dad was not only a farmer, but also an Army-trained meteorologist.

As such, I was familiar with other weather technology like cloud seeding. So I asked Dannenberg, what is your interest in this topic? He said, "I'm a rocket scientist, so propulsion!" I asked how weather manipulation tech was relevant to that. He replied that it had to do with gravity, but was the same as the weather concept - one creates "low pressure" gravity on the front to pull the rocket forward, and "high pressure" system at the back to push it along.

But Dannenberg then made a fateful mistake. He concluded by saying, "...and off you go, to the speed of light!" I said with astonishment, "You're talking about a UFO!" Dannenberg and Bearden both smiled like proud papas. But that lasted about two seconds because at the mention of UFOs, two dozen 6th graders

started to simultaneously raise their hands and share (shout) their UFO stories and questions. It was truly so chaotic that the counselors were unable to keep control, and we had to end the session early.

As Dannenberg and Bearden moved out of the room in a writhing mass of campers and counselors, they both looked back at me. Bearden pointed to me and said, "You stay curious!"

This is as vivid a memory as any I have about my childhood, but until recently I did not remember Bearden's name. That I know it now is precisely because I followed his advice, stayed curious, and have voraciously consumed Tesla physics since then. This is why I had YouTube on at all when I heard some 'Bama hog farmer put up pictures of cross-hatch clouds that I saw when I was a little kid.

As soon as Bearden opened his mouth that day in 1984, I was hooked. It wasn't merely because the weather effects of "Tesla physics" was so personally relevant to me (and remains so to this that day in many other contexts). It was instead because of Bearden's 'Bama hog farmer' accent, which told me that he was somebody like me, with a small-town background like mine; therefore, if I worked hard, my farm background would be no limitation, and I could do what he does someday. Or what anyone else does, for that matter. It was the first time this dawned on me in my short life, and I have Thomas Bearden to thank for that.

It is only recently after attending a retreat at the Monroe Institute that I investigated his other writings, including those about psi. In my opinion, between Bearden and Bentov, they have described the actual physical, scientific mechanism that produces these effects.

Thank you very much for the opportunity to share this Thomas Bearden experience, one which I will treasure forever.

Very truly yours,  
Marc S. Wilson

#### From Rainer Helmut Fromknecht: "A community note on resilience and inner steadiness."

A community note on resilience and inner steadiness.

In the context of consciousness research, I'm focusing on **mental stability** as a practical construct: **resilience, groundedness, emotional regulation, and recovery after stress**.

A key open question is how to translate these experiences into **clear, reproducible indicators** without reducing the human aspect to mere narrative.

The emotional triad **loneliness – helplessness – compassion**—a theme also noted by Dannion in his writing—appears to influence stability and decision-making. It also shows up as a recurring theme in qualitative material such as **near-death experience (NDE) accounts** and **cross-linguistic meaning analysis of classical texts**.

#### Subject:

#### FM-SGSKFA | Mental Stability – A Visual Research Impulse (Season's Greetings)

Dear Gail, Scott, and Dannion

for the transition into the coming year, I would like to share a small and carefully prepared research impulse with you.

Attached you will find a **visual set on "Mental Stability"**, developed within the FM-SGSKFA framework and recently design-protected via the German Patent and Trade Mark Office (DPMA).

The material is intentionally **neutral with respect to religion, ethics, and cultural background**.

It does not address belief systems, but explores **structural coherence under cognitive and emotional load**.

- In essence, the visual analysis points to:
- very high stability even under strong internal or external stress
  - minimal withdrawal or avoidance dynamics
  - no fragmentation of the overall structure
  - transformation that is continuous rather than abrupt

Of particular interest may be the comparison between the **German and English language representations** of the same emotional concept.

Although mapped onto the same BINDU layer, their internal structures differ, indicating **distinct psychological relevance arising purely from linguistic differentiation.**

This has led me to a working interpretation consistent with FM-SGSKFA:

*The Tower of Babel can be reinterpreted not as a collapse of human capability, but as a rapid diversification of cognitive-emotional architectures through language — enabling parallel evolutionary pathways within a shared biological framework.*

I am sharing this not as a final statement, but as a **first step of a pilot impulse**, and as an invitation for reflection and dialogue.

If you have questions or would like relevant references, please feel free to reach out.

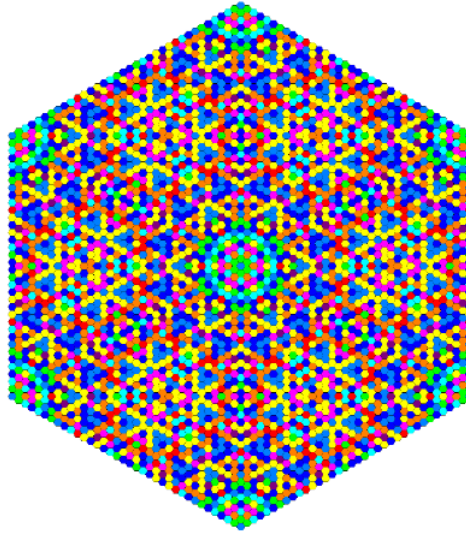

Thank you, and warm regards,  
Rainer Helmut Fromknecht

### What is USPA?

The United States Psychotronics Association (USPA) is a federally recognized, nonprofit 501(c)(3) organization founded in 1975 to serve as a focal point for scientific and technical exploration of the universe of esoteric, spiritual, and psychic arts in the United States of America.

The USPA has been hosting annual conferences for its membership since its formation and has featured countless individuals with cutting-edge viewpoints, research, or theories to share, allowing any interested persons to openly discuss their work.

### What is Psychotronics?

USPA defines psychotronics as the science of mind-body-environment relationships, an interdisciplinary science concerned with the interactions of matter, energy, and consciousness.

Psychotronics involves the study, research, and applications of the physics and technology of the mind, brain, spirit, consciousness, and the underlying forces of life and nature – hence the term “psychotronics.” A true understanding of the universe must include the spiritual as well as the technical. USPA provides an opportunity for amateur researchers to present their findings along with the professionals.

USPA stresses research, with documentation of results, and practical applications, rather than personal experience and unsupported hypotheses.

**J.G. Gallimore’s Books are Still Available on Amazon - through assistance from USPA**

Jerry G. Gallimore was one of the founders of the USPA in 1975, and was a leading researcher in psychotronics and unusual energies until his untimely death in 1989.

All five of J.G. Gallimore’s rare books on psychotronics subjects and unusual energies have been reprinted by the United States Psychotronics Association (USPA) and are being made available at a fraction of the cost that used copies were being sold at online. [Available at Amazon.com](#) USPA Shares in the income from these sales.

So rare have these books been, that only a few libraries in the entire world had them in their collections, and some original Gallimore’s books were being sold for several hundred dollars each online. However, with these newly reprinted volumes, each will be available for less than \$30.00.

<b>The Handbook of Unusual Energies: Volume</b>	ISBN-13: 978-1543024999	The 1st book of 3 on unusual energies	468 Pages
<p>Gallimore discusses in depth the research, discoveries, and inventions of all the major researchers in subtle energies, the aether, biological 62 fields, pyramid energy, radiesthesia, radionics, crystal transduction, and related subjects.</p> <p>These include the works of Baron von Reichenbach's and his odic energy, Dr. Wilhelm Reich's orgone energy, Dr. Harold Burr's biological life fields, Kozyrev's time mirror, Edgar Cayce's transmission of energy, and related research done by many others.</p> <p>Of particular importance is Gallimore's 127-page chapter on radionics. In this chapter he discusses in depth the research and devices of Ruth Drown, T. Galen Hieronymus, Rho Sigma, Dr. L. P. Corte, and other prominent people in the radionics field.</p>			

<b>Collected Properties &amp; Writings of J. G. Gallimore: Volume 2</b>	ISBN-13: 978-1543025040	The 2nd book of 3 on unusual energies	258 Pages
<p>This is the second book in the "Unusual Energies" series that J.G. Gallimore published. It covers Gallimore's research on Albert Abrams, the founder of modern radionics, psychological physics, psychic energy, thought resonance, subtle energies, crystals, and related subjects.</p> <p>In addition, a number of radionics devices are discussed, such as the De La Warr Diagnostic Instrument. And very helpfully, the rates are provided for substances, body organs, and medical diseases and disorders. I very interesting interview of Christopher Bird, conducted by J.G. Gallimore is provided, as well as a discussion of Walter Russell and his research</p>			
<b>Relationship Between Parapsychology and Gravity: Vol. 3</b>	ISBN-13: 978-1543024944	The 3rd book of 3 on unusual energies	228 Pages
<p>This book describes in depth the research and theories of J.G. Gallimore into the question of parapsychology transmission" -the question of how such things as telepathy, remote viewing, ESP, and similar phenomena can physically occur. He discusses the various emanations, radiations, and energy fields of all matter and life including the ancient Chinese energy called "chi" (qi), the ancient Indian's prana energy, Reichenbach's "odic force," Gurwitsch's "mitogenic radiation,"</p> <p>Wilhelm Reich's orgone energy, and other subtle energies. He shows how these energies are similar, how they interact, and how they are related to gravity. He also discusses crystals as transducers of these energies, and provides diagrams of devices that could potentially be used to harness or control these energies.</p>			
<b>Transverse Paraphysics: The New Science of Space, Time, and Gravity Control</b>	ISBN-13: 978-1543024920	Gallimore's fourth book	374 Pages
<p>This book covers the visionary research and theories developed by J.G. Gallimore about anti-gravity, space, time, and biophysics. He discusses in depth the dimensions of space, time, and gravity, and new discoveries in each of these areas. In addition, he covers research being done on anti-gravity and then discusses anti-gravity patents that have been obtained.</p> <p>He also discusses the intriguing concept of aura energy fields surrounding humans and other living things, and how extra-sensory perception (ESP) might be explained through biophysical principles.</p>			
<b>Unified Field Theory Research Book: Using Subjective Response to Psi-Plasma</b>	ISBN-13: 978-1543024838	Gallimore's Fifth book	134 Pages
<p>This book is about psychotronics, radionics, electromagnetic fields and waves, psi-plasma, plasma fields, subtle energies, bio-electromagnetic energy, and other unusual energies emitted by living and non-living things. It also is about how living things interact with and are affected by these energies, which may enhance or harm health.</p>
