## Old Dinshah Ghadiali Treatment Device Discovered at Green Bay, Wisconsin, Antique Mall

A “Visible Spectrum Color Projector” (shown at left), was recently discovered and photographed in an antique mall in Green Bay, Wisconsin, and **psychotronics researcher Brenda Staudenmaier** acquired those photos and sent them to the editor. This device was used for color therapy, and was invented by Dinshah P. Ghadiali. It was manufactured by the Spectro-Chrome Institute, which Ghadiali founded in New York City in 1922, but later moved to Malaga, New Jersey, the place shown on the device. Although there is no indication of manufacturing date on this particular device, it is obviously quite old, as witnessed by the wrapping on the coiled plug-in cord and the heavy metal used in the device’s construction.

Dinshah invented and patented this device in 1925 and made improvements and another patent in 1936. The manufacturing plate showing the patent numbers, 1,544,973 (July 7, 1925) and 2,038,784 (April 28, 1936) is shown below. And although for legal purposes and for protection from the FDA, the

plate states that “NO THERAPEUTIC CLAIMS ARE MADE FOR THIS PROJECTOR”, the device was, in fact, used for color therapy for self treatment and for treating patients in doctor’s offices.

However, this disclaimer statement did not stop the FDA from going after Ghadiali, since they charged him numerous times, including in the years 1944, 1945, 1947, and 1948. If any readers happen to have one of these devices, please contact the editor at: [joreed43@gmail.com](mailto:joreed43@gmail.com).

## Short News, Notes, and Queries

(If anyone would like to make a short news announcement, report something, has a question about anything related to psychotronics and related subjects, or has any information or comments about any of the following notes and queries, please write to the editor, John Reed at: [joreed43@gmail.com](mailto:joreed43@gmail.com))

1. **A comprehensive bibliography of articles on biophotons, subtles energies, and related subjects has recently been discovered via the Wayback Machine.** This bibliography was compiled by Dr. Marco Bischof in 2006 and includes over 1,700 articles and monographs on these subjects, dating back to the early 1900s. They include the works of such pioneers in this field as Dr. Alexander Gurwitsch, Dr. Harold Saxton Burr, Dr. Fritz Popp, and many others. Most citations are from peer reviewed journals. [This bibliography is available here for your use.](#)
2. **We have been recently informed that one of the radionics devices that Jerry Gallimore invented in the 1970's or 1980's used a GSR meter in place of a stick plate.** Does anyone happen to have or know anything about this particular device? Such a device would be very significant, because if there is a such a radionics device that can be successfully used without a stick plate, which depends on the sensitivities and subjectivity of the user, it would enable nearly anyone to use that radionics device. One of the problems that beginners in radionics often have is the detection of the "stick", on the stick plate, and some people are never able to develop this ability.
3. **Do any of you know anyone who has ever owned, used, or did research on the Dotto Ring?** This was an electrotherapy treatment device developed by Gianni Dotto back in the 1970's and is said to have been was used successfully to treat cancer and other diseases in humans and animals. In addition, the Dotto Ring was also said to be able to slow down the aging process and even rejuvenate individuals to some degree.  

4. **Does anyone know anything about a man named William Lehr (1933-1996), who lived in Scammon, Kansas, and who developed several energy and healing devices, and made a reproduction of the T. Henry Moray energy device?** In addition, Lehr is said to have created a high-powered spark-gap device for healing

purposes that cured a man who had been sent home to die, as well as a huge bibliography of articles and books dealing with new energy sources and energy medicine and treatment.

5. **Does anyone have video tapes of the presentations that Andrija Puharich made at the 1982 US Psychotronics Association Conference?** The title of Dr. Puharich's first presentation was: "Chemical Compounds: Receptors of Artificial ELF", and was sold for a period of time on the USPA website with this title and catalog number F6.

The second presentation that Dr. Puharich made at the 1982 USPA Conference was the Keynote Address at the Awards banquet. The Title of this presentation was "Kindling + 1" and had catalog number F7. If anyone has either or both of these tapes, please contact the editor, John Reed at: joreed43@gmail.com.

**Andrija Puharich, Chemical Compounds: Receptors of Artificial ELF (1982) F6**

**Andrija Puharich, Keynote Speaker:, Kindling +1; Awards Banquet (1982) F7**

6. **Art Tool and Die Company:** Does anyone know anything about the Art Tool and Die Company that was located in Detroit, Michigan, in the 1930s and 1940s, and apparently manufactured radionics devices? It has been referred to in a number of publications on radionics, psychotronics, and related subjects, but it is not clear what devices they manufactured.
7. **Mangrove College for Radionics:** Does anyone know anything about the Mangrove College for Radionics, and if it ever published a periodical of any kind? Its address at one time was: 1313 N. Market St., Hercules Plaza Suite 3410, Wilmington, Delaware 19801, although this appears to be a mail box service location. It was once headed by a Dr. P. W. Meier.
8. **Were you ever a member of the Electronic Medicine Association (EMA) or know anyone who was?** According to online sources, this organization was co-founded by Peter Moscow (US), former president of the USPA, and John Morley-Kirk (UK) and was incorporated in the United Kingdom in 2001. (UK Company number 04223137). From 2001 through 2010, the EMA held numerous seminars, workshops, and conferences, and may have published a newsletter or journal, although this is uncertain.

Unfortunately both Peter Moscow and John Morley-Kirk died in 2011, and records show that the organization was officially dissolved in the United Kingdom in October of 2011. A number of people have indicated that they would like to revive this

organization, and we are attempting to locate all former members. **So if you have any interest in this, or by chance have an old membership list, please write to the editor, John H. Reed, M.D. ([joreed43@gmail.com](mailto:joreed43@gmail.com))**, so that I can contact the former members to see if they would be interested in resurrecting this organization, or starting a new one with a similar mission.

9. **Do any of you happen to know anything about the Paraphysical Laboratory that was founded in the UK by Benson Herbert in 1966, or have any issues of the Journal of Paraphysics that he published for more than 20 years?** Mr. Herbert's laboratory was located at Privett Farm, Downton, Wiltshire, England, between Salisbury and Southampton. His mission included an attempt to provide a workable theory and physical explanation for paranormal phenomena, including telepathy, remote viewing, dowsing, and other extraordinary abilities and phenomena. Unfortunately, Benson Herbert died in 1991, and no one seems to know what became of the papers and records of the laboratory, or if he even had any family, who might be able to shed light on this. So if you know anything about Benson Herbert or have any issues of his periodical, please contact the editor at: [joreed43@gmail.com](mailto:joreed43@gmail.com).

## Newly Discovered Psychotronics Related Organizations and Periodicals, October, 2017

A number of newly discovered psychotronics related organizations and periodicals have been discovered since the last issue of the **USPA Journal and Newsletter**. These organizations and periodicals, some of which ceased operation many years ago, are listed below, with brief information. **If you know anything about these organizations, please contact the editor.** The periodicals have been added to the master list of psychotronics periodicals in the **USPA Periodicals Library section** of this journal. We are seeking copies of all issues of these periodicals, which we plan to digitize and make available to our members as a USPA membership benefit. So if you have any issues the periodicals listed below or any of the missing issues of the periodicals listed in the USPA Periodicals Library section of this Journal, please let the editor know by emailing him at: [joreed43@gmail.com](mailto:joreed43@gmail.com).

### Organizations:

**Asian Association for Psychotronica Research (AAPR):** This organization was founded in Tokyo, Japan, by Toshiya Nakaoka probably in the late 1980's or early 1990's. The AAPR focuses on psychotronics and related subjects, and works with similar organizations in China and South Korea. It is unknown if this organization ever published a periodical of any kind. Surprisingly, a Google search of this organization turns up zero results, so if any readers have ever heard of this organization or know anything about it, please write to the editor, John Reed, at: [joreed43@gmail.com](mailto:joreed43@gmail.com).

**Electronic Medical Foundation (EMF)(San Francisco):** This organization was founded by Fred J. Heart in San Francisco, California, in 1947. It superceded and replaced the College of Electronic Medicine, which had been founded by Albert Abrams in 1922. The EMF focused on radionics, electrotherapeutics, and related subjects, and published a periodical called "Electronic Medical Digest " from 1947-1955.

**Institute for Radiesthesia and Biophysics (Institut fur Radiasthesie und Biophysik):** This is an organization that was founded in Furth, Germany, in the 1980s. Its focus is on the research of radiesthesia, biophysics, and related subjects. Interestingly, in 1989, the Institute developed a method of diagnosing disease using a type of Kirlian Photography called "Plasma Print". It is unknown if this organization ever published a periodical of any kind.

### Periodicals: (all added to the master list of USPA psychotronic periodicals)

**Information Service Newsletter:** This was a quarterly periodical published in Oxford, England, by the Delawarr Laboratories, Ltd., and the Radionic-Magnetic Centre Organisation. It focused on radionics, subtle energies, and related subjects. This periodical began with Vol. 1, No. 1 (Spring, 1973) and continued through at least the

Winter, 1980, issue, but it is uncertain if any issues were published after that date. **The USPA Library needs all issues of this periodical.** No libraries in the world have this periodical in their collections. If any readers happen to have copies of this periodical in their personal library, it would be greatly appreciated if you would xerox these issues and send them to the USPA Library. Please write to the editor (John Reed) ahead of time if you are willing to help: joreed43@gmail.com;

**Pathometric Journal (Sometimes called the Pathoclast Journal):** This was a periodical published in Chicago, Illinois, by the Universal Society of Pathometrists. It focused on issues related to the Pathoclast instrument, radionics, psychotronics, and related subjects. This periodical began with Vol. 1, No. 1 in 1929 and continued through at least Vol. 18, No. 3 (April, 1946), but it is uncertain if any issues were published after that date. In the late 1930s and early 1940s, it was called "Journal of the Universal Society of Pathometrists". **The USPA Library needs all issues of this periodical.** No known libraries in the world have this periodical in their collections. If any readers happen to have issues of this periodical, it would be greatly appreciated if you would xerox these issues and send them to the USPA Library. Please write to the editor (John Reed) ahead of time if you are willing to help: joreed43@gmail.com;

**Radionic - Magnetic Centre Newsletter:** This was a quarterly periodical published in Oxford, England, headed by the Radionic-Magnetic Centre Organization, also known as the Radionic Centre Organization. It focused on radionics, subtle energies and related subjects. This periodical began with Vol. 1, No. 1 (Autumn, 1967) and continued through at least Winter, 1978, but it is uncertain if any issues were published after that date. **The USPA Library needs all issues of this periodical.** Only one library in the world has this periodical in its collection: The British Library. If any readers live near this library, it would be greatly appreciated if you would xerox these issues and send them to the USPA Library. Please write to the editor (John Reed) ahead of time if you are willing to help: joreed43@gmail.com;

US Psychotronics 2017 Conference DVD Order Sheet			
DVD	No.	Name	Presentation Title
	2017-1	Jon Klimo, Ph.D / Scott Beutlich	Welcome / USPA "Ted Talk"
	2017-2	Nick Begich	Mind Control: A Brave New World or Enhancing Human Performance
	2017-3	George Kuepper	Radionics & Biodynamics in the Garden: Tuning in to Nature
	2017-4	Lorna Reichel	Unseen Worlds of Subtle Energy
	2017-5	Don Paris	Consciousness Interactive Technology in the 21st Century
	2017-6	Glen Rein	The Holographic Nature of the Mind and its Role in Mediating Higher Order Healing Phenomena
	2017-7	Beverly Rubik and Harry Jabs	The Memory of Water and Beyond
	2017-8	Michael Leger	21st Century Radionics – Theory and Practice
	2017-9	Ed Kelly	Radionics: Easy as 1-2-3!
	2017-10	Jon Klimo, Ph.D.	Nonlocality, Higher-dimensionality, and Radionics
	2017-11	Judy Lynne Cole	K.I.S.S. "Hello" to the Next Collaborative Revolution in the Industries of Health, Art and Music
	2017-14	Linda Lancaster	Endocrine System and its Role in Radionics
	2017-15	Ellen Kamhi	Pineal Stimulation for Higher Health and Consciousness: Radionics - Dowsing - Botanicals
	2017-16	Elizabeth Rauscher	Psychotronics, PSI and Consciousness: A New Revolution
	2017-17	Dan Taylor	History and Overview of Radionics
	2017-18	Marty Lucus	Higher Octaves of Physical Frequencies
	2017-19	Rainer Fromknecht	Body – Water as a Conducting System for Electromagnetic Information
	2017-20	Craig Dongoski	Mental Radio
	2017-21	Scott Ertl	Magnetism and Polarity

## 2016 US Psychotronics Post-Conference DVD Order Sheet

MP4	DVD	ID	Speaker and Lecture Title
		2016-1	Dr. Beverly Rubik & Harry Jabs- "Geometry Coupled with Intention: Effects of a Pyramidal Structure"
		2016-2	Dan Taylor - "The Physics of Radionics – USPA Luminaries Light the Way"
		2016-3	Panel Discussion- "Subtle Energy w/ E. Kamhi, J. Klimo, G. Rein, E. Rowley, B. Rubik, W. Tiller, Dan Taylor"
		2016-4	Ed Kelly - "The History of Kelly Research Technologies"
		2016-5	George Kuepper - "Practicing Radionics for Farming and Gardening: Past, Present and Future"
		2016-6	Tim Lippert - "Elimination of Lyme Disease, Allergies, and the use of Radiation Hormesis"
		2016-7	Dr. Don Paris - "The Latest Advances in Radionics"
		2016-8	Lutie Larsen and Linda Lancaster - <i>Radionics Cameras of the 1900s</i>
		2016-9	Marty Lucas - "Geometry and the Shape of Disease"
		2016-10	Panel Discussion - "Radionics / G. Kuepper, E. Kelly, L. Larsen, L. Lancaster, T. Lippert and D. Paris"
		2016-11	Dr. William Tiller - "The Power of Human Intention and its Many Applications"
		2016-12	Gayle Mack - "Spiral Breath and the Glia Brain: Activate Higher Consciousness"
		2016-13	Tom Masbaum - "Consciousness - Some Effects of Emotions and Memories on the Body"
		2016-14	Judy Lynn Cole - "Phase Shifting"
		2016-15	Dr. Glen Rein - "Subtle Light Energy and the Substratum: Bio-Physics and Mysticism"
		2016-16	Dean Radin - "Skype: Mind-Matter Interactions at the Quantum Level"
		2016-17	Geoffrey Miller - "Free Energy 30 Years Ago and Where We are NOW in 2016"
		2016-18	Ellen Kamhi - "Herbs, Dowsing, and Radionics: Self-Care Techniques for the Coming Times"
		2016-19	Dr. Karl Maret - "Exploring Subtle Energies in Energy Medicine"
		2016-20	Dr. Jon Klimo - "Radionics: Working with the Post-Cartesian Unified Field"
		2016-21	Kenneth Diehl - "Subtle Energy Relationships in Human Form and Function"
		2016-22	Mary Hardy - "Balancing the Grid so the Schumann Resonance Does Not Affect Human Consciousness"
		2016-23	Dr. John Reed - "Evidence Based Psychotronics"

**GFIM**

Global Foundation for Integrative Medicines

**2018 - NEW YORK CITY**

**SAVE THE DATE**  
THURSDAY & FRIDAY MARCH 8-9, 2018

**GFIM**  
GLOBAL FOUNDATION FOR  
INTEGRATIVE MEDICINES  
**GFIMUSA.COM**

**2018 GFIM NYC**  
**AT CURRENT, PIER 59**

## **“The Elements of Healing our Planet and Ourselves”**

GFIM’s mission is to promote the integration of all medicines by uniting a diverse international community of doctors, researchers, students, healers and patient advocates from all over the world.

We acknowledge and hold in equal esteem the healing power of Western Medicine, Eastern Medicine, Indigenous Medicine, Energy Medicine, Prayer, Mind-Body Medicine, Nutrition, Natural Medicine, Homeopathy, Yoga, Movement Arts and all integrative practices that heal.

On March 8th & 9th, 2018 at Current – Chelsea Pier 59, GFIM will be organizing this year's World Congress of Integrative Medicines featuring some of the brightest minds and healers of our time to share their knowledge with our intimate audience. It is our belief that **“through healing we unite in peace.”**

*Our Honored Speakers include:*

Linda Lancaster, PhD

Alfredo Sfeir Younis, GFIM Peace Ambassador

Dietrich Klinghardt, MD

Terry Tempest Williams, Author, Environmentalist

Woody Merrill, MD

Jim Gordon, MD

Ann Louise Gittleman, PhD & NY Times Bestselling Author

Prof. Martin Pall, PhD

Ben Asher, MD

Glen Rein, PhD

Martha Cortes, DDS

Jerry Epstein, MD

Roger Laborde, Shaman

Loch Kelly, Meditation and Spiritual Counselor

Will Keepin & Cynthia Brix

Sylvia Moss, Sound Healer

with more to be announced!

*Our GFIM team:*

John Sherdon, DOM & GFIM Conference Coordinator

Camilla Rees, GFIM Ambassador

Kenneth Lee Diehl, Shaman

Althea Gray, Healer

Sandra Rose Michael, DNM

Radha Gopalan, MD

Martina Goldberg, PhD

More Details including a limited amount of discounted pre-sale tickets to be announced before December 2017. If you are interested in more information and notification of the release of pre-sale tickets, please email us.

[gfimcongress@gmail.com](mailto:gfimcongress@gmail.com)

## **USPA Continues Program to Offer Digital Copies of All Conference Presentations, 1978-2017**

The United States Psychotronics Association (USPA) is continuing its program to make all USPA Conference presentations available on DVDs and other digital media. Through this program you will eventually be able to access all of the hundreds of presentations given over the years at USPA conferences from 1978 through 2017, and subsequent years. It will include all of the presentations given by such luminaries in the psychotronics field as (alphabetically):

**Arden Anderson, Cleve Backster, Col. Thomas Bearden, Robert C. Beck, Robert Beutlich, Chris Bird, Tom Brown, Eldon Byrd, Phillip Callahan, Beverly Coleman, Bruce De Palma, Eric Dollard, Sherry Edwards, Jerry Fridenstine, Jerry G. Gallimore, Toby Grotz, Mary Hardy, Barbara Hero, T. Galen Hieronymus, Kathleen Joyce, Elen Kamhi, Peter Kelly, Moray B. King, John Klimo, Lutie Larsen, Samuel Lentine, Peter Lindemann, Andrew Michrowski, Henry Monteith, Peter Moscow, Preston Nichols, Brian O'Leary, Don Paris, Dale Pond, Andija Puharich, Elizabeth Rauscher, Glen Rein, Beverly Rubik, Carl Schleicher, Ed Skilling, Maj. Gordon Smith, Dennis Stillings, William Tiller, Thomas Valone, Marcel Vogel, Charles Whitehouse, and many, many more.**

The DVDs of all of these USPA Conference presentations will be made available at <http://uspa.emediapress.com/>, and presentations will be added year-by-year over time. Many of the presentations from 1978, 1979, and 1980, are already available, so please go to this website to see what presentations you may be interested in. And, of course, keep this website in your "favorites" folder and check back periodically to see new selections that have been added. Please be patient, however, because there are hundreds of presentations, and it will take some time to get them all up on the website for the forty years, 1978-2017.

**Scott Ertl**

**Master Dowser**

# **Dowsing Class 2017**

## **November 11, 12**

### **November 11, 8:30 Registration, Class 9-6**

- Learn basics of Dowsing, tools avail. Or bring own
- Dowsing tools and techniques
- Hands on learning

### **November 12, Class 9-5**

- Advanced Dowsing techniques
- Using Dowsing in real life scenarios (auras, healing, etc.)
- Dowsing for: Water, Geopathic Stress, Stray Voltage and Heliopathic issues and teaching **SOLUTIONS** for them

### **Cost**

**\$300 of which \$50 must be received before Nov. 1 to reserve a chair**

**Lunch will be provided both days**

Please RSVP to Scott (715)305-2387 by Nov. 1 **Space is Limited**

### Abstract of Patent # FR2710745 (A1)

The invention relates to a device making it possible to measure the Vibrant Energies emitted by matter, in particular those of places, objects, plants, animals and persons. This device is in the graduated support (1) on which a plurality of wave generators (2) are arranged, the characteristics of which waves have been measured using a suitable detector (example: Lécher antenna). The relative position of these generators make it possible to emit a wave range, the value and nominal positions of which waves with respect to the graduations can be established. The graduated support also includes a metal plate (3) provided with a socket (4) allowing injection of the wave fields from the location or "subject" to be measured. This field then interferes with the fields of the generators and causes, depending on the case, a shift in the nominal positions, making it possible to quantify the energies involved. This device is particularly intended for geobiologists and for all those working in the field of vibrant energies emitted by matter.

## **Among the Missing, (and Updates): A Column about Missing People, Organizations, Periodicals, Books, Artifacts, and Collections in the Psychotronics Field**

**by John H. Reed, M.D**

This is a new “column” or section of the USPA Newsletter, and will be an ongoing part of every issue, with the purpose of helping the USPA, as well as, our members and research associates locate people, organizations, periodicals, books, artifacts, devices, collections, and other items that have seemingly disappeared, or have been extremely difficult to find. **Updates will be added, and each missing item will be retained in future issues until it is found or otherwise resolved, since some readers may not have seen prior issues of the USPA Newsletter or the original notice of the missing item.**

**In addition, this will also serve as a “People Locator Service”** to help find authors and researchers on psychotronics, radionics, subtle energies, energy medicine, and related subjects, who have “disappeared” or have died long ago, and whose relatives you may be trying to find in order to preserve the research papers and collection of that person.

In our research and reading, we all have encountered people, organizations, periodicals, books, articles, or other things that we have tried to find, and some people have searched for years to find something, but have not yet found it, despite the vast resources of the Internet. However, with our large USPA membership, we can all help one another find what we have been searching for. Some of you may have experience in genealogical research, or private investigation, law enforcement, or even intelligence work which you could utilize to help each other, or perhaps just make suggestions on how or where to search for something.

**So if there is anything you have been searching for and need help to find, please write to me, John H. Reed, M.D. at: [joreed43@gmail.com](mailto:joreed43@gmail.com), and I will include your search help request in the next and subsequent issues of the USPA Newsletter. And if you have any information about an item that is listed in “Among the Missing”, please write to the same email address and share what you know or your suggestions. If there is something that is confidential, your confidentiality request will be honored and protected.**

### **Missing Person: Paul Sauvin, USPA 2<sup>nd</sup> Vice Pres., 1976 and 1<sup>st</sup> Vice Pres., 1977**

Paul Sauvin, whose full name is Pierre Paul Sauvin, is an electrical engineer and inventor who, [according to one source](#), worked in the aerospace industry and later with the National Institute for Rehabilitation Engineering at St. Joseph’s Hospital in Paterson, NJ. He also worked with Dr. Carl Schleicher, head of Mankind Research Unlimited, and helped develop a device called the [“AGRAD Machine”](#). This device was designed to

control crop insects, and was introduced on an experimental basis, although it is not known if it ever reached commercial production. Paul Sauvin's mother was Edith Sauvin, who lived in White Plains, NY, and died August 25th, 1987. Edith's only child was Pierre Paul Sauvin, who himself had 2 sons, Alan Paul Sauvin and Steven Eric Sauvin. He also had one daughter, Jane Elizabeth Sauvin. Any help in locating the children of Paul Sauvin would be greatly appreciated, and please write to joreed43@gmail.com.

### **Missing Person and Periodical: William Reid, Editor of the Journal of Scientific Controversy**

We are trying to find William Reid, or his surviving family, who lived in the Boulder, Colorado, area in the 1960s and edited a periodical called "**Journal of Scientific Controversy**."

Mr. Reid had placed an advertisement in a 1963 issue of **Analog Science Fiction and Fact** (ASFF) stating that the first issue of the **Journal of Scientific Controversy** would be published in the second quarter of 1963. The advertisement showed William Reid as the editor, **with the address: P.O. Box 855, Boulder, Colorado**. (There was no zip code at that time.)

However, it is uncertain how many issues, if any, were ever published of this periodical. It is not found in any public, government, or university library in the world, including the Library of Congress or British Library. But many periodicals on controversial subjects are not held by such libraries, so this is not entirely surprising.

**If any of you know, or once knew, a person by the name of William Reid, who lived in the Boulder, Colorado, area in the 1960s, please write to the editor at: joreed43@gmail.com. Many of you are family tree and genealogy researchers, so even if you have never heard of this man, perhaps you would be kind enough to check your genealogy resources to help locate him or his family.**

### **Missing Device: Marcel Vogel's Omega- 1 Radionics Instrument**

In a 1987 meeting presentation, [YouTube Video, available here, beginning about 4:20](#), Marcel Vogel states that he had been trying to find a way by which he could measure the subtle energies and fields in the crystals he was working with, and that he prayed to God to give him an instrument to make such measurements. Marcel says that about two months later, a man named Daniel Perkins, apparently guided by higher forces to build such an instrument, came to Marcel's door and said, "Here is your instrument, the Omega-1. You will know how to use it," and walked away. **But where is that particular Omega-1, and were any other Omega-1 instruments built?** It is known that other Omega models of radionics instruments were produced, especially Omega-5 instruments, but it is not known if the company that built them still exists. **In addition, does anyone know who Daniel Perkins is, and where he is located?** I read in another source that the delivering man's name was Lou Perkins, but is doubtful that Marcel would have not remembered the correct name. Perhaps Lou may have been a

relative of Daniel Perkins, or may have been involved in some other way. Anyone who can shed light on this mystery, please write to the editor at: [joreed43@gmail.com](mailto:joreed43@gmail.com).

## **Missing and Mysterious Stone: The “Swedish Stone” of T. Henry Moray’s “Free Energy” Device:**

**Has anyone done any research on what the substance called “Swedish Stone” is that T. Henry Moray used in the 1920s to extract energy from cosmic rays and produce electricity?** According to Moray’s original diaries, he discovered the stone somewhere near the city of Abisko, Sweden, in 1913 when he was there doing his overseas Mormon missionary service. He brought the stone back to the US and subsequently created a device using the stone to produce electricity in much the same way that silicon is used to produce electricity when struck by light. However, the Swedish stone used in Moray’s device apparently had the particular molecular and/or crystalline structure such that it would produce electricity when struck with **cosmic rays**, which constantly strike the earth. And since cosmic rays are an electromagnetic wave with much higher energy than light, which is also an electromagnetic wave, Moray’s device produced a great deal more electricity than any current silicon based devices of similar size.

Since cosmic rays flood the universe, clearly such a device could provide essentially free electrical power anywhere on earth or anywhere else in the universe. Some have hypothesized that the Swedish stone was a radioactive substance, whose radioactivity was used to produce the electricity. However, others believe that the Swedish stone was not radioactive, but just happened to have the particular structure necessary to convert cosmic rays to electricity. Theoretically there are substances like silicon, only of a different structure, that will convert each of the electromagnetic wave frequencies to electricity, and perhaps Moray just accidentally discovered the substance that would do this with cosmic waves. **Please contact the editor if you have any information about this “Swedish Stone” substance: [joreed43@gmail.com](mailto:joreed43@gmail.com)**

## **Andrija Puharich’s Lost Manuscript and other Puharich Mysteries by Greg Mallozzi**

During the late 60s and into the 70s, Puharich owned and worked out of a large house in rural Ossining, New York. A home laboratory known as Lab 9. Lab 9 produced the most mysterious and far out work that Puharich was involved in when he began to delve deeper and deeper into parapsychological, experimental research: like alleged communication with extraterrestrial beings VIA trance mediumship and ELF (extremely low frequency) waves and their effect on the brain.

At Lab 9, Puharich worked with a faraday cage, a large cage that blocks electrostatic and electromagnetic influences. Puharich found that when a subject was placed inside the faraday cage and a certain level of specially controlled electromagnetic waves were sent through the cage, the subjects ESP abilities were heightened significantly. He

conducted what some have called inhumane, psychological experiments on human subjects. Lab 9, like The Round Table Foundation, began to attract people from all walks of life.

Shrouded in controversy, the new film on the life of Dr. Andrija Puharich that we are producing will show what Lab 9 was really like, using never before seen photos, videos and transcripts. In 1978, a mysterious attempt to burn down Lab 9 was made. The town of Ossining ruled it arson. Puharich's publisher, Doubleday, was also broken into at this time and the manuscript he was working on was destroyed. Was someone out to get Puharich, to discredit and sabotage his work? If so, who? People who were present at Lab 9 at the time of the infamous fire will weigh in on what really happened, which to this day is unsolved.

If anyone has any knowledge about the missing manuscript or other mysteries surrounding the life of Dr. Andrija Puharich or has any video tapes, audio tapes, or correspondence of Puharich, please contact:

Greg Mallozzi at: [gregorymallozzi@gmail.com](mailto:gregorymallozzi@gmail.com) or the editor John Reed at: [joreed43@gmail.com](mailto:joreed43@gmail.com)

## **Combo Mystery: Missing Person, Organization, and Book, All Related**

**Person:** Dr. Floyd S. Graham, Sr. **Organizations:** Radionic Laboratories and Radiant Associates, Inc. founded by Floyd S. Graham, Sr. **Book:** The Radiant Era, by Floyd S. Graham, Sr.

This is our first "Combo Mystery" of a missing person, the organization(s) he founded, and the book that he wrote. The organization "Radionic Laboratories" was referred to in the American Society of Dowsers Quarterly Digest, Vol. 4, No. 2 (May, 1964), page 22, in a letter to the editor, by Dr. Floyd S. Graham, Jr. It indicated that Dr. Graham was the president of the "International Headquarters Unit" of "Radionic Laboratories", located in the small town of Tumtum, Washington, which is located northwest of Spokane, WA. The letter was signed "Radiant Associates, Inc.".

These names suggest that there may have been two different organizations, or that the "Radionic Laboratories" was part of the corporation, "Radiant Associates, Inc. However, I checked my database of incorporated organizations, which covers both profit and non-profit corporations, operating or defunct, that have been formed in the United States and worldwide since the early 1900's, and neither name was shown as ever having existed in the State of Washington. But since the letter was written and published in 1964, there is little doubt that Dr. Graham and the organization entities he mentioned did exist at that time in Tumtum, WA.

A further mystery related to Dr. Graham is the booklet he wrote titled, "The Radiant Era", date and place of publication unknown. It is being offered for sale online, with a photo, as shown at left. It is said to be published by the Journal of Natural Living, and is 22 pages long, stapled, and sized 6.75 by 7.75 inches.

However, a check of the WorldCat database, which lists the holdings of every library in the United States, Canada, and the UK, including the Library of Congress and the famous British Library (AKA British Museum Library), shows that this booklet by Dr. Graham is not located in any known library.

**So if you know anything about Dr. Floyd S. Graham, Sr., the Radionic Laboratories, or Radiant Associates, Inc., in Tumtum, Washington, or anything about his booklet, The Radiant Era, please contact the editor, John H. Reed, at:**

**[joreed43@gmail.com](mailto:joreed43@gmail.com). If you happen to have a copy of the booklet in your personal collection, the USPA Library would greatly appreciate it if you would make a xerox copy of it for the library, which you can scan and email as a PDF, or send the physical copy to: USPA Library and Archives, 4401 Roland Avenue, Unit 405, Baltimore, MD 21210.**

### **Missing Devices:**

1. **The AGRAD Machine:** In the 1970's Mankind Research Unlimited, Inc.(MRU), headed by Dr. Carl Schleicher, was offering for sale a device called the AGRAD Machine. It was intended to be used in the electromagnetic treatment of crops and the control of insect populations, and sold for \$390.00. MRU claimed that AGRAD machines had been used for several years by MRU researchers to conduct experimental applications of the type described in **The Secret Life of Plants** by Christopher Bird and Peter Tompkins, and **Report on Radionics** by Edward W. Russell. Theoretically, the AGRAD machine was intended to produce effects through electromagnetic wavefronts that would interact with and control insects by disturbing the insect sensor mechanisms. A photo of the device and additional information appeared in one of MRU's publications [which you can access here.](#)

### **Missing Organizations:**

1. **American Electronic Research Association (AERA):** Albert Abrams established the American Electronic Research Association in the early 1920s and it continued to operate until at least 1935, when John F. Spaulhurst was the president of AERA, according to the 1935 Edition of Who's Who Among

Association Executives. The AERA published the monthly Journal of the American Electronic Research Association from 1924 through some point in 1936, when it ceased publication, according to Harvard University records.. Only two libraries in the world are known to have issues of this periodical. There are only two issues in the Harvard University Medical School Library, and the Kirkwood School of Osteopathic Medicine has one issue. If you know anything about this organization, or happen to have any issues of its journal, please contact the USPA Journal and Newsletter editor, John Reed at: joreed43@gmail.com.

2. **International Association for Psychotronic Research (IAPR):** Does anyone know what became of the International Association for Psychotronic Research? And do any of you have copies of its meeting proceedings or newsletter, if such a newsletter were published? It was founded in 1973, even before the United States Psychotronic Association (USPA), which was founded in 1975. However, the current location or activities of the IAPR are unknown.

The IAPR held numerous international conferences around the world, beginning with its first in 1974 in Prague, then Czechoslovakia. At this conference, Dr. Zdenek Rejdak was elected president for the Eastern Division of the IAPR, and Dr. Stanley Krippner was elected president for the West. The 8th International Conference on Psychotronic Research was held in Milwaukee, Wisconsin, 1993, as a joint conference with the United States Psychotronics Association (USPA), but it is unknown if any subsequent conferences of the IAPR were held.

Proceedings of each of these conferences were published. If copies of these proceedings can be obtained, or any newsletters that it may have published, we will add them to the USPA Library and make them available to USPA members. If you have any knowledge about this organization, please write to the editor at: joreed43@gmail.com

3. **International Radionics Association (IRA):** Does anyone know anything about the **International Radionics Association (IRA)**, which was located in Springfield, Missouri in the late 1940s. This is known, because a book called **The Truth about Radionics** was published in 1947 by this organization, and although the author's name is anonymous, it is highly probable that the author was T. Galen Hieronymus, who passed away many years ago.

I checked several newspaper databases, and references to this organization were found in the press as far back as the early 1930s, and as late as the early 1960s, but nothing more recent than that. If you have any knowledge about this organization, please write to the editor at: joreed43@gmail.com

## Missing People, and Updates:

### Missing USPA Related People:

We are trying to track down some of the original directors and officers of the United States Psychotronics Association (USPA), when it was organized in 1975, with the word "Radionics" in the organization title. Does anyone have any information on the current whereabouts of the following people, or family members, if the person is known to have passed away, or where they passed away?? Please check Ancestry.com, social media websites, newspaper archives, and any other databases you have to help find these people.

1. **Dr. Marcel Vogel and his Research Papers:** Does anyone know what became of the papers and files of Dr. Marcel Vogel, who died in 1991? Dr. Vogel did extensive research on crystals and crystal healing, pyramid power, the "Backster Effect" involving plants and their bioenergetic fields, and a number of other psychotronics related subjects. He also spoke numerous times at USPA conferences. Marcel Vogel worked at IBM for 27 years and had 32 patents. If you have any knowledge about Marcel Vogel and what became of his papers and files after he died, please write to your editor at: [joreed43@gmail.com](mailto:joreed43@gmail.com). The USPA would like to make sure that all of his papers are preserved.

### Missing Periodicals:

1. **British Journal of Radiesthesia and Radionics:** Does anyone have any issues of The British Journal of Radiesthesia and Radionics. It was published in London, England, by the British Radiesthesia Association, 1953-1963. The original title was **British Journal of Radiesthesia**, published from 1953-1957. No libraries in the United States, public or university, have this journal in their collection., and only five libraries elsewhere in the world are known to have any issues at all: The British Museum Library (AKA The British Library), Oxford, Cambridge, the National Library of Scotland, and Trinity College Library, in Dublin Ireland. If you have any issues of this periodical, will you please let me know? And for our members and associates in The UK and Ireland, if you can access these periodicals at any of the above libraries, you would do a huge service for all of us if you would Xerox what issues are available and send them to me. A generous donor has offered to pay whatever expenses are involved for doing this service. We will add them to the USPA Library and make them available to researchers. Please contact the editor at: [joreed43@gmail.com](mailto:joreed43@gmail.com)

## Missing Books:

Rhea White and Larissa Vilenskaya wrote a book titled **Parapsychology in the Soviet Union, Eastern Europe, and China: A Compendium of Information**. It was supposedly published by Scarecrow Press of Metuchen, NJ, a well known publisher of reference books. This book was listed as reference work #680 on [page 213 of Rhea White's book, Parapsychology: New Sources of Information, 1973-1989](#), also published by Scarecrow Press. I called the publisher, and they said they have never published this book, and know nothing about it. As you can see from entry #680, Rhea White noted that this book was "in press", so it may have been in a preparation stage, but the manuscript may never have been sent to Scarecrow Press.

Again, I have searched the WorldCat, which shows books and monograph holdings of virtually every public and university library in the United States and Canada, and many of the large libraries in the UK and elsewhere in the world. But this book title does not exist in the WorldCat database, which indicates that this book is not held in any library, even special collections, which are also included in WorldCat. Unfortunately, I was unable to ask either of the authors about this, since both have passed away.

Rhea White was a well known parapsychology researcher, so some of you may have known her or heard her speak of the missing book manuscript that she was working on. Larissa Vilenskaya was from Russia, but lived and worked in the San Francisco area, and she was a prolific researcher on Russian and Eastern European psychotronics research. Please write to your editor at: [joreed43@gmail.com](mailto:joreed43@gmail.com) if you have any information about this at all.

## **HOW PSYCHE ENTERS MATTER**

**The Holographic Brain**  
by  
*Dr. Richard Alan Miller, c2015*  
[www.richardalanmiller.com](http://www.richardalanmiller.com)  
[www.docram.com](http://www.docram.com)

### **(Part 10): The Holographic Brain – Part 3**

#### **A Holographic Theory of the Brain - Part 3**

Dr. Karl Pribram's whole brain theory states that the brain stores information throughout the whole brain. There is not a specific location for a specific memory. His book, "*Languages Of The Brain*" describes these various neurological holographic process.

*[Cognition is] the mental action or process of acquiring knowledge and understanding through thought, experience, and the senses.*

It encompasses processes such as knowledge, attention, memory and working memory, judgment and evaluation, reasoning and "computation", problem solving and decision making, comprehension and production of language, etc.

**Figure 1:** Human Cognition Process

Human cognition is conscious and unconscious, concrete or abstract, as well as intuitive (like knowledge of a language) and conceptual (like a model of a language). Cognitive processes use existing knowledge and generate new knowledge.

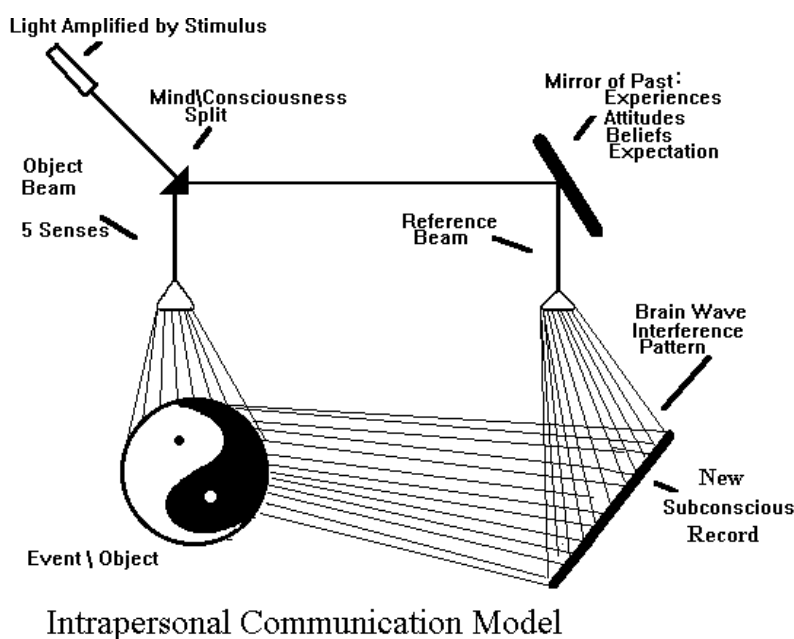

**Intrapersonal Holograms** - Paul Chivington describes a psychological hologram in his book "*Seeing Through Your Illusions*". These communication models are based on Chivington's psychological model. Communication takes place when we respond to stimulus.

**Figure 2:** Paul Chivington's *Seeing Through Your Illusions*

We store new information based upon our past experiences and what we experience in the present. Our new subconscious record will be projected in the future. Both Pribram and Chivington say that we holographically store and project information through our subconscious mind.

So, what is the so-called subconscious mind, and how might it be best represented as a model for consciousness itself?

In this model the object beam represents our 5 senses., where the lens represents the sharpness of our senses. The lens becomes "clouded" when we lose detail in our sensitivity to stimulus. When we reflect our sensory stimulus attention onto the object, we also record the waves as a reflection of our sensory interaction.

The reference beam is a reflection of the mirror of our past experiences, beliefs, attitudes, and our expectations of the outcome of the future. It is the projection of our past hologram. The diffusion lens needs to be clear to project a clear representation of the past.

The two beams cause the interference pattern to be created in our brains. We project these old images onto future events. Chivington claims that we can change our reactions to present events by changing our *attitudes* and *beliefs* about our past experiences. This will be discussed further in the next series of article on the *time travel*, and the nature of *cavitation* (Next Month)

**Projecting Information** - One reference beam is used to project a hologram. A white light can be used to view, or project, most holograms. But, to get the clearest image and the most perspectives, the light source used to project the image should have a coherency similar to the original light source.

The waves of the reference beam will intersect with those on the film and reproduce the information of the image. The more intersections of waves, the clearer the image reproduced.

**Figure 4:** Projecting Information

A hologram projected has an inverse relationship with the hologram recorded. Notice that the black side of the object is closest to the plate in both the real image and the virtual image.

**The Science of Nonduality** - Everything is in metaphor. It was Gregory Bateson who said “*What is your metaphor, but to serve your paradigm.*” To illustrate the “distortion” of comparing one thing to another, the metaphor could be stated as “*What is your meadow for but to serve you pair of ox.*”

*"What is your metaphor (meadow for), but to feed  
your paradox (pair of ox)"*

Paul Gregory, 12-13-03  
(G. Bateson, "Steps to an Ecology of Mind," Class of 1974-5, Santa Cruz)

**Figure 5:** The true nature of a Metaphor

***Imagination is Reality*** - The more children there are in this world, the more the world is filled with imagination. Whether we have come to discover or whether we have come to endure, it is certain that the free exchange of experience is the central core of being.

Our perception of reality is context dependent. Innocence is the unfiltered perception of reality. All of the variation is in the context. Non locality is the idea that we are connected to every point of space-time in the *Sonoluminous Holofield*. Why do we not perceive this? Our consciousness is filtering out the information. It is the loss of our innocence.

As we pursue understanding, we are branching out into a dark landscape. Just occasionally we are able to put up a street lamp. Some will stay near the lamp because it is brighter there and some will venture further into the darkness stumbling over both the extraordinary and the embarrassing.

**Figure 6:** The true nature of Imagination

There is no way to accurately describe a paradox (as a metaphor), so we tend to distort it using words. This is probably why most Bibles discuss the nature of “babble.” The *Sefer Yetzirah*, or *Book of Formation*. This important part of the Bible relates sounds to words (*Gematria* or numerology), and how the pronunciation of words can convey more than just a single concept of communications.

This was the mathematical concept originated by David Bohm, and his Implicate Order of “*similar differences*,” and “*different similarities*.”

*Space is not empty. It is full, a plenum as opposed to a vacuum, and is the ground for the existence of everything, including ourselves. The universe is not separate from this cosmic sea of energy.*

David Bohm

The same is true with

**Be like water (Inspirational)** - *You must be shapeless, formless, like water. When you pour water in a cup, it becomes the cup. When you pour water in a bottle, it becomes the bottle. When you pour water in a teapot, it becomes the teapot. Water can drip and it can crash. Become like water my friend*

Bruce Lee

**Figure 7:** Bruce Lee

-----  
**Theorem:** When *Intent* (what happens at the end of the day) becomes *Purpose* (why you are actually here), that moment is known as “*sacred time*.” This is where a *cavitation topology* is formed in the very fabric of space-time.

# "STORY OF THE DOTTO RING"

by the Editors of the Journal of Borderland Research

Gianni A. Dotto was born in Venice, son of a prominent engineer who was the designer of two hydro-electric generating plants on both the American and Canadian sides of Niagara Falls. His father was an Italian Marquis and since Gianni is the eldest son, he would have inherited the title had he not become an American citizen. The family is directly descended from Galileo and the Galileo Coat of Arms has been adopted for use as the Foundation's letterhead.

Before World War II, Gianni had received flight training but Mussolini never did trust the Dotto family so Gianni was drafted into the Italian Army as a paratrooper. When Italy surrendered, Gianni was able to join the American Air Force as a fighter pilot in time to participate in numerous engagements against the German Messerschmitts before the war ended.

After the war, Gianni became head of the racing division of Alfa-Romero and started race-driving cars of his own design. His racing career ended when his wife, Renata, served him with an ultimatum: "Either give up racing or me." He is a prolific inventor as he is owner of many Italian patents bearing on the automotive industry and, subsequently, just as many American patents.

He is highly educated, holding the Italian equivalent of an American Ph.D. in nuclear physics from Milan University and the same degree in mechanical engineering from another Italian technical school. Subsequently, he received a degree in electrical engineering from Wayne University of Detroit.

While Gianni was teaching at Milan University, the medical school requested the services of a physicist to collaborate with the doctors on a research project. This started him on a career as a "Bio-Physicist;" that is, a physicist that specializes in the area of the science of physics that bears on the human body. This embraces an amazingly wide field as it has to do with magnetic fields, polarity, the various vibrations and pulsations generated by the brain and, of course, the effect of the many facets of nuclear fission on the human body.

It was there that Gianni discovered that magnetic fields induced by an electric coil and by permanent magnets had a small effect on the human body, but that a mild magnetic field created by adjacent hot and cold areas was definitely beneficial. In other words, the thermal unbalance created a magnetic field that matched the natural

field of the body. The development of the "Dotto Ring" was Gianni's practicable way of producing a piece of equipment that could impress the beneficial magnetic field on the body. The ring is 27 inches in diameter, made of heavy copper and has an adjacent heated and refrigerated area.

Through the ring he has reproduced in a compact, accessible form the same magnetic environment responsible for the good health and longevity of the Hunza people. Visitors to Hunzaland always attribute this great advantage to their diet, air and water but Gianni could not accept his belief because there are many valleys in the Himalaya Mountains where the diets, air and water are similar to that of the Hunzas' but the inhabitants of these valleys are devoid of the same health and longevity manifestations as in Hunza. With the principle of the "Dotto Ring" in mind, a panoramic view of Hunza valley makes Gianni's theory easy to understand. At the head of the valley there is a huge glacier or ice mass and in the valley itself the temperature becomes quite warm thus creating the thermal unbalance mentioned previously and which is re-created in the principle of the "Dotto Ring." When a Hunza travels across his valley, he receives a beneficial treatment from a mild magnetic field. The similarity of the "Dotto

Ring" to the Hunza valley is interesting to say the least.

Gianni has written what he describes as a "simple explanation of just how the ring works." Simple to a physicist perhaps but difficult for a layman to understand; consequently, the following preliminary explanation has been outlined for the purpose of clarification:

The nucleus of each cell contains a material known as the DNA, which is an abbreviation for deoxyribonucleic acid. This substance contains the life or genetic code. The presence and function of the DNA had long been suspected by our doctor-scientists and had been presented as a theory, but it was only about seven years ago with the development of the electron microscope that the presence of the DNA was confirmed. Now it can be seen, photographed and sketched. Imagine a tiny ladder twisted together in a coil fashion until the unit forms a double helix. The DNA is pliable and rubbery and is never still as it constantly vibrates in resonance with brain signals and even outside influences. The DNA is polarized, one end being plus and the other being minus. A healthy DNA reproduces healthy cells and aids the body to naturally overcome and eliminate an invasion of bacteria or toxins. This, of course, adds up to good health. When the body stands within the beneficial magnetic field of the "Dotto Ring," polarization of the DNA is oriented properly and resonance is synchronized to that of a healthy cell.

Important animal tests required by the medical

authorities have been underway for the past three years, culminating in seven official tests that were conducted under rigidly controlled conditions. The tests were conducted by Professor Gerald L. Willis, Biology Professor at the University of Dayton, and Dr. Robert E. Zipf, Ph.D. Dr. Zipf is owner of a group of biological laboratories and has been Coroner for Montgomery County, Ohio for twenty years. The room in which the tests were conducted was kept under triple lock so that only Professor Willis had access to the area. Dr. Zipf performed the pathology on the test mice.

Mice, six per cage, and 8 cage per test were injected with cancer cells. In three tests, C-37 cancer cells were used and in two other tests, Krib type carcinoma cells were used. The most recent tests were conducted on mice that had induced leukemia.

Results have been very good indeed. The untreated mice died in about seven days while, with a few exceptions, the treated mice survived. When the treated mice were finally sacrificed, they showed no evidence of cancer. These tests, as well as actual experience using the ring on the human body, prove definitely that there are no side effects.

Gianni Dotto has now had five years of experience in the use of his ring. For the past two years the ring has been in operation in his Bio-Physics Laboratory in Kettering, Ohio. Results have been uniformly good.

We are grateful to Associate Dr. R.T. Lustig, Grand Rapids, Michigan for sending us a copy of the brochure on the Dotto Ring. For those of you who want to dig into Dr. Dotto's fascinating and eye-opening explanation of his dramatic break-through in therapy, write to his organization directly for a brochure: The Bio-Physics Research Foundation, 121 Pines Shopping Center, 1130 Perry Highway, Pittsburgh, Pa. 15237.

There is no explanation of the performance of the Ring equipment pictured on the next page but each piece appears to be capable of treating two subjects at a time, standing on the step platforms. The Rings, with their hot? and cold? segments appear to be stopped at about the waist-high position. The Rings are undoubtedly raised and lowered on the vertical shafts so the whole torso can be exposed to the hot-cold electro-magnetic field created by the refrigeration and heating units, but only one area at a time as the Rings raise and lower rhythmically, at a rate which can be set by the operator, probably. This press-and-release principle in treating living cells was

Dotto Rings Installed at the foundation.

well proven by Dr. George Starr White in his use of pulsing complementary colors in his clinical work in Los Angeles in the 1920s, and by Georges Lakhovsky with his Multi-Wave Oscillator. In fact, Johnny Dotto's explanation of the function of his Rings helps us to understand why the MWO has been so effective in re-balancing the electro-magnetic fields of body cells. Obviously, bio-physics has come a long, long way since Lakhovsky developed his theories in the 1920s.

There is no doubt that Dotto's Thermomagnetic (hot-cold) field is closer to the sun-earth field in which we live than are the Alnico permanent magnet fields or electro-magnetic fields. He makes convincing arguments as to why the latter two types of fields are unsuitable for therapy; but seeing that Dotto Rings are unavailable for use, and both research and clinical practice have proven that Alnico magnets and Tesla Coils and electro-magnets are helpful, and available for use, we'll continue to push them in our own work. Dr. Dotto claims, for instance, that Alnico magnetic fields will upset the genetic code in the DNA spiral "and the consequences in the succeeding generations could be very undesirable", and electro-magnetic fields may shift a disease virus from a diseased cell to a healthy cell.

## Abstracts of Important Articles and Papers

Below are some abstracts of important papers related to psychotronics subjects found in the academic and professional literature. Many of these articles are still under copyright restrictions, but if you are interested in any of these articles, please write to the editor, John Reed, ([joreed43@gmail.com](mailto:joreed43@gmail.com)) and he will assist you in getting a copy. Also, please remember that one of the benefits of USPA membership is your right to use the USPA Literature Research Service, whereby we will find any article, book, or other item you are seeking on any psychotronics related subject and provide it to you, if at all possible.

**Pitkanen, Matti, DNA & Water Memory: Comments on Montagnier Group's Recent Findings. DNA Decipher Journal. Vol. 1, No. 1 (2011)**

### Abstract

HIV Nobelist L. Montagnier's group has published two articles challenging the standard views about genetic code and providing strong support for the notion of water memory. Already the results of the first article suggested implicitly the existence of a new kind nano-scale representation of genetic code and the the recent article makes this claim explicitly. The TGD based model for the findings was based on the notion of magnetic body representing biologically relevant aspects of molecules in terms of cyclotron frequencies. The model involved also the realization of genetic code using electromagnetic field patterns and as dark nucleon strings and led to a proposal that the analogs of transcription and translation are realized for the dark variants of DNA, RNA, tRNA, and aminoacids represented in terms of dark nucleon strings. Also processes transcribing ordinary and dark variants of the biomolecules to each other were proposed. This would make possible R&D-like controlled evolution based on experimentation using dark representations of biomoleculesd defining kind of virtual world. The recent findings of Montagnier's group allow a more detailed formulation of the model and suggest a general mechanism for generalized transcription and translation processes based on the reconnection of magnetic flux tubes between the molecules in question. A new element is the proposed role of ordered water and hydrogen bonds in the formation of water memories. These representation would result from the dropping of the magnetic bodies of molecules as the hydrogen bonds connecting the molecule to water molecules of the ordered water layer around it- analogous to ice layer- are split during the mechanical agitation. A similar process occurs quite generally when external energy feed excites the resting state of cell and induces protein folding and its reversal and the formation of protein aggregates. Good metaphors for resting state and excited states are cellular winter and summer. The necessity of a repeated dilution and mechanical agitation could be understood if agitation provides metabolic energy for the replication of the magnetic bodies filling the

diluted water volume and gives rise to a series of "environmental catastrophes" inducing evolutionary leaps increasing the typical value of Planck constant associated with the magnetic bodies until the energy  $E = hf$  of 7 Hz dark photons exceeds the thermal energy at room temperature.

**(Editor's Note: The DNA Decipher Journal is an excellent journal edited by Huping Hu, Ph.D., J.D. and Maoxin Wu, M.D., Ph.D., of QuantumDream, Inc., New York, with many articles that are of great importance on the above and related subject matter. Their home page is: <http://www.dnadecipher.com/index.php/ddj/index>)**

**Fojt, L., Strasak, L., Vetterl, V., and Smarda, J. " Comparison of the Low-Frequency Magnetic Field Effects on Bacteria - Escherichia coli, Leclercia adecarboxylata, and Staphylococcus aureus." Bioelectrochemistry, Volume 63, Issue 12 (June, 2004), pp. 337-341**

#### **Abstract**

This work studies biological effects of lowfrequency electromagnetic fields. We have exposed three different bacterial strains Escherichia coli, Leclercia adecarboxylata, and Staphylococcus aureus to the magnetic field ( $t < 30$  min,  $B_m = 10$  mT,  $f = 50$  Hz) in order to compare their viability (number of colony forming units (CFU)). We have measured the dependence of CFU on time of exposure and on the value of the magnetic field induction  $B_m$ . Viability decreases with longer exposure time and/or higher induction  $B_m$  for all strains, but the quantity of the effect is strain dependent. The highest decrease of the viability and the biggest magnetic field effect was observed with E. coli. The smallest magnetic field effect appears for S. aureus. From the measurement of the growth dynamics we have concluded that the decrease of the CFU starts immediately after the magnetic field was switched on. © 2004 Elsevier B.V. All rights reserved.

#### **Abstract**

This article briefly reviews the biofield hypothesis and its scientific literature. Evidence for the existence of the biofield now exists, and current theoretical foundations are now being developed. A review of the biofield and related topics from the perspective of physical science is needed to identify a common body of knowledge and evaluate possible underlying principles of origin of the biofield. The properties of such a field

could be based on electromagnetic fields, coherent states, biophotons, quantum and quantum-like processes, and ultimately the quantum vacuum. Given this evidence, we intend to inquire and discuss how the existence of the biofield challenges reductionist approaches and presents its own challenges regarding the origin and source of the biofield, the specific evidence for its existence, its relation to biology, and last but not least, how it may inform an integrated understanding of consciousness and the living universe.

# HORIZONS IN RADIONICS

edited by Dr. Tony Scofield

A new book published to celebrate the Diamond Jubilee of the [Radionic Association](#). Edited by Dr Tony Scofield

250 pages. ISBN 0 9545786 0 0. Published by [Trencavel Press](#), 2003

Horizons in Radionics is the first book for many years to explore in depth some of the aspects of this practice and to bring to the reader, whether they be experienced practitioner or interested layperson, a greater understanding of the philosophy and practice of this powerful technique.

In the first chapter Linda Fellows explores the relationship between radionics and modern science and provides a convincing argument that aspects of radionics have parallels with modern concepts in quantum science. Tony Scofield describes the early history of radionics and its trials and tribulations. Working largely from primary sources this well referenced chapter provides some interesting novel insights into the early evolution of the therapy. Gillian Lowe discusses the radionic approach to treating chronic disease while Alan Gwilt does the same for terminal illness. Alan also describes treatments for patients after they have died which ease their passage. Both chapters are illustrated with case histories.

In an authoritative essay Nick Franks, a homeopath as well as a radionic practitioner, discusses the role of homeopathic miasms in radionic work. The concept of the chakras, introduced from Eastern mystical tradition, is discussed from a radionic standpoint by Cathy Marshall. Cathy extends the major chakras with some 'minor' ones which she has found valuable in radionic treatment. The area of 'rates', the numbers used on the radionic instrument for both analysing and treating, is discussed by Ina Manzoor, for many years

the official rate maker for the [Radionic Association](#). This is a valuable contribution in the light of ongoing discussions in this area.

The next chapters deal with analysis and treatment in specific areas. Three experienced practitioners, Sally Higham, Doris Frankish and Linda Fellows, describe some of their human case histories and other experiences in radionics. Galea Parsons, a practitioner with a large horse practice, describes horse case histories, but in her first chapter she deals with the subtle anatomy of the horse and how it relates to the physical anatomy. Subtle anatomy is the level at which the radionic practitioner works.

Radionics has been used extensively in the field of agriculture and horticulture, especially in the United States where treatment of humans has been forbidden. One of our most experienced agricultural radionic practitioners, Enid A. Eden describes the history and scope of this field and illustrates her chapter with several case histories.

Tony Scofield, in another heavily referenced chapter, has returned to primary sources to present his views on geopathic stress – what it is, how it is caused and how it is treated. He draws on years of experience in the field to present a comprehensive synthesis of views. Finally, Tony Scofield describes the major developments in Europe in radionics with particular emphasis on current practice involving computerised and digital instruments. Again well referenced this chapter provides a clear indication of where developments in radionics are currently leading.

There are 13 chapters, an Introduction to the book which includes a brief history of the [Radionic Association](#) and the book ends with a subject index.

It is available price £14.99 (+ £1.69 postage) from the [Radionic Association](#) bookshop. E-mail the office for ordering details.

**Available at [Amazon Books](#)**

## **A Fun Course in Beginning Radionics: Miracles in the Palms of Your Hands (Mastering Radionics Series), Volume 1**

**by Peter V. Radatti**

Paperback: 268 pages

Publisher: CreateSpace Independent Publishing Platform; Third Edition edition (January 8, 2017)

Language: English

ISBN-10: 1542419972

ISBN-13: 978-1542419970

Product Dimensions: 8.5 x 0.6 x 11 inches

Shipping Weight: 1.7 pounds

[Available from Amazon](#)

This is the third edition of the book. The second edition is still available as a Kindle book. The second edition is 43 pages while

the third edition is 268 pages. Everything in the second edition is included in the third edition. Please note that the B&W version of the third edition is \$14 while the color is \$39.99. The Kindle version is \$6.99 or free with Book Match and Kindle Unlimited.

The Universe is awash in psychic power. Some of the names for this ability used in the past are Miracles, Blessings and Magic. It is natural and normal. Everyone and everything exists soaked in this power and everyone and everything has this natural ability. Normal people have this ability. People with above normal ability we call psychics. There is no difference except in the level of ability. Radionics amplifies and converts this ability, for everyone, into a simple to follow procedure. That is why the subtitle of this book is, "Miracles in the palms of your hands".

This book is intended as a starting point for new Radionics students. It does not explain what, it explains how. It is a spiritual based book. If you don't know what Radionics does then this book is not for you. If you know what it does and just need to know how to do it, then this book will get you there. Certainly there are things in this book that exist nowhere else that will make it useful even to experienced operators. This book introduces the Radionics Operating System (ROS) and the Radionics Operating System Program (ROSP). The ROS is an easy way of performing radionics using Radionics programs stored in crystals. ROSP is the operating system program that supports that way of thinking. This concept turns the training of Radionics on its head. Instead of learning how to use the system and then taking years to get good at obtaining results, the ROS and ROSP lets you get results at a grand master's level from day one.

If you ever wanted to develop your abilities this is a safe way to do it. Warning: This course assumes you already own a 2-dial-per-bank style Radionics system, either symbolic or electronic. You can download symbolic Radionics systems for free and they are good enough to learn. A symbolic Radionics system is included in the printed version of this book which you can photocopy for use. The book includes access to a radionics support website for readers of the book. The website includes a pdf of the printouts required for the training exercises. This allows people to keep the book unmarked.

## USPA Generous Donor Recognition Page

The USPA would like to give special recognition on a continuing basis to people making generous donations to the United States Psychotronics Association. To do this, we are creating this special “USPA Generous Donors Recognition Page” that will be carried in each issue of the **USPA Journal & Newsletter**, beginning with the December, 2016, issue and going forward. New names will be added as other generous donations are received.

**We wish to recognize the following individuals for their generosity:  
(in alphabetical order)**

**Mary Hardy**

**Michael Leger, ( [Homeodynamics, LLC](#) )**

**John H. Reed, M.D.**

**Arnold Reinhold**

**Eric Rowley**

**The USP wishes to extend our thanks and gratitude for their generosity.**

**To make a tax deductibe donation** to the United States Psychotronics Association (USPA) online, please go to the [USPA home page and scroll down to the “Donations” tab](#), where you can make a donation using your credit or debit card. **For those who wish to make a donation by check**, please make your check payable to USPA and mail it to the **USPA treasurer, Scott Beutlich, 525 Juanita Vista, Crystal Lake, IL 60014.**

## USPA Periodicals Library Update

In order to do good psychotronics research of any kind, whether it involves radionics, radiesthesia, psionic medicine, dowsing, subtle energies, biophotons, or any other subject covered by psychotronics, one needs access to as much of the periodical literature as possible on these subjects.

**To address this issue, the United States Psychotronics Association has resolved to identify and acquire every psychotronics related periodical that has ever been published anywhere in the world, and to retain copies in the USPA Library.**

**As a first step, we have developed the following list of periodicals that focused on or frequently had articles on psychotronics related subjects.** But this is only a preliminary list, and we know that there are probably more psychotronics periodicals that have been published, but that we do not yet know about.

So please look over the following list and check your own personal physical libraries and your computers to see if you have any issues of the periodicals on this list. Even if you just have one issue, please let us know, because that may be the one we need to complete all the issues of a particular periodical. **Please write to me (John) at: [joreed43@gmail.com](mailto:joreed43@gmail.com), since I am the USPA librarian and archivist coordinating this effort,** and tell me what periodicals you have.

**As a whole, the members of USPA have a huge “library” of periodicals, but it just happens to be “distributed” among its members** at this point in time. However, we can work together, and if you would be willing to loan, donate, xerox, or as a last resort, sell copies of your periodicals for the USPA Library, then we will be able to build a large centralized library of all psychotronics periodicals. And all USPA members will then be able to use these periodicals in their research or for their reading enjoyment.

**American Journal of Electromedicine:** Daniel Kirsch Ph.D., developer of Alpha-Stim Craniotherapy Electrical Stimulation (CES) was the first editor; **The USPA Library needs all issues.**

**American Radio Therapy Society Journal:** This was a periodical published in Hollywood, California, by the American Radio Therapy Society, which had been founded by Dr. Ruth Drown in 1949. This periodical began with vol. 1, no. 1 in June, 1949, and continued to be published for a period of time. However, it is not known when it ceased publication or how many issues were published, but presumably it ceased sometime before Dr. Drown's death in 1963. This journal focused on radionics psychotronics subjects, and had no interest in ionizing radiation therapies, such as x-ray therapy, which were also known as "radio therapy" at that time. The only library in the world that has copies of this periodical is the National Library of Medicine in Bethesda, Maryland. **The USPA Library needs all issues of this periodical.**

**BEMI Currents:** BEMI Currents was a quarterly journal published by the Bio-Electro-Magnetics Institute in Reno, Nevada, from 1989-1993. The editor was Dr. John Zimmerman. This journal began with vol. 1, no. 1 (Spring, 1989) and continued through Vol. 3, no. 4 (March, 1993), after which it ceased publication. **A total of 12 issues were published, and the USPA Library has all 12 issues in its collection.**

**Bioeffects Newsletter:** This was a periodical that was published by the "Physiology Program", Office of Naval Research, in Arlington, Virginia, and focused on the biological effects of electromagnetic fields. It probably began sometime in the 1977, because it is known that Issue #5 was dated April, 1978. The Bioeffects Newsletter is believed to have ceased publication when the Bioelectromagnetics Society (BEMS) was formed in 1978, because it was edited by Thomas Rozzell, who served as the editor of the BEMS Newsletter for the Bioelectromagnetics Society. This periodical is not found in any library of the world, but is undoubtedly in a number of private collections. **The USPA Library needs all issues of this periodical.**

**Bioelectric Medicine:** Journal founded in 2014, Kevin Tracey, M.D., President of the Feinstein Institute for Medical Research, which has established a Center for Bioelectronic Medicine; **The USPA Library needs all issues.**

**BioElectroMagnetics:** Published by John Wiley and Sons from Vol. 1, No. 1 (1980) to present. It is the **Journal of the Bioelectromagnetics Society**. We need all issues. All articles are freely available online at Johns Hopkins, back to 1980; **The USPA Library needs all issues.**

**Bridges:** This was the newsmagazine of the International Society for the Study of Subtle Energies & Energy Medicine (ISSSEEM) from 1990 through the present. **The USPA Library has a complete set of this periodical from vol. 1, no 1 (Spring, 1990) through the present.**

**British Journal of Radiesthesia and Radionics.** Published by the British Radiesthesia Association, 1953-1963. The original title was British Journal of Radiesthesia. **The USPA Library needs all issues.**

**DeLaWarr Laboratories Newsletter:** published by George and Marjorie DeLaWarr, and later their daughter Diana Di Pinto, from 1964-1986. **The USPA Library has a complete set of these, unless you know of any issues published after 1986.**

**Dowsing Today:** The journal of the British Society of Dowsters, published from 2000 to the present. Original title was Radio Perception, which began in 1933. **The USPA Library needs all issues.**

**Earthpulse Flashpoints:** This periodical was edited by Dr. Nick Begich and published by Earthpulse Press, Inc. in Anchorage Alaska. It focused on such subjects as Patrick Flanagan's neurophone, biohazards of ELF, living cells as electromagnetic units, and other psychotronic related subjects. It began with Series (Volume) 1, no. 1 in 1996, and continued until at least 1999, when the last known issue, Series 2, no. 3, was published.

Only one library in the world has this periodical in its collection, the UAA/APU Consortium Library in Anchorage, Alaska. **The USPA Library needs all issues of this periodical.**

**Electro and Magnetobiology:** Published by Taylor and Francis from 1993-2002. Title was changed to Electromagnetic Biology and Medicine. **The USPA Library needs all issues.**

**Electromagnetic Biology and Medicine:** Published by Taylor and Francis from 2003-present. Former editor, Dr. Abe Liboff; **The USPA Library needs all issues.**

**Electronic Medical Digest:** published in San Francisco, California, by the College of Electronic Medicine, and then the Electronic Medical Foundation from 1946 - 1955, edited by Fred J. Hart. **The USPA Library needs all issues.**

**Electrus Newsletter:** This periodical was published by the American Institute of Archives located in Keene, Texas, in the early 1990s. It was edited by Mark Simpso, author of the book, The Rife Way III, and focused on Royal R. Rife research and bioelectromagnetics. It began with Issue #1 (August, 1990) and published at least two issues, with the second being Issue # 2 (November, 1990). However, it is not known if any other issues were ever published. According to WorldCat, it is not held by any library in the world. **The USPA Library needs all issues of this periodical.**

**Energy & Character - Journal of Bioenergetic Research:** This was a periodical published by Abbotsbury Publications, Dorset, England, UK, and focused on psychotronic related subjects, especially orgone energy and Wilhelm Reich's research. It began with vol. 1, no. 1 (January, 1970), and continued publishing 3 times per year for 38 years, but ceased publication with volume 37 in 2009. **The USPA Library needs all issues of this periodical.**

**Extension Bulletin, Electronic Medical Foundation:** This was a series of bulletins published by the Electronic Medical Foundation of San Francisco, beginning in 1950. Thomas Colson was the editor, and at least three issues were published. It is not known if additional issues were published. **The USPA Library needs all issues.**

**Information Service Newsletter:** This was a quarterly periodical published in Oxford, England, by the Delawarr Laboratories, Ltd., and the Radionic-Magnetic Centre Organisation. It focused on radionics, subtle energies, and related subjects. This periodical began with Vol. 1, No. 1 (Spring, 1973) and continued through at least the Winter, 1980, issue, but it is uncertain if any issues were published after that date. **The USPA Library needs all issues of this periodical.** No libraries in the world have this periodical in their collections. If any readers happen to have copies of this periodical in their personal library, it would be greatly appreciated if you would xerox these issues and send them to the USPA Library. Please write to the editor (John Reed) ahead of time if you are willing to help: joreed43@gmail.com;

**Interdimensional News:** This periodical was edited by Peter Kelly, who founded what is now [Kelly Research Technologies \(KRT\)](#), and published by Interdimensional Sciences, Inc., in Lakemont, Georgia. It focused on radionics, energy medicine, effects of EM waves and fields, and other psychotronic related subjects. It began with Volume)

1, no. 1 (Fall, 1983) and continued on until the final issue, Volume 3, no. 3 (May-June, 1986). **Through the generous donation of Ed Kelly, USPA Board member, and current CEO of Kelly Research Technologies (KRT), the USPA Library has a complete set of this periodical.**

**Journal of Bioelectricity:** Published by Taylor and Francis from 1982-1992. Title was changed to Electro and Magnetobiology. **The USPA Library needs all issues.**

**Journal of Bioenergetic Research (JBR):** This periodical was being published by the Royal Rife Research Society (RRRS) in Carlsbad, California, in the early 1990's. It is not known for certain when the JBR began publishing, but is believed to be in 1992, since vol. 1, no. 3 was for November, 1992. By 1995, it was no longer being published, and in correspondence by John H. Reed with the RRRS in August, 1995, the RRRS stated that no back issues were available. **The USPA Library needs all issues of this periodical.**

**Journal of Electroceutical Medicine:** founded by Richard Markoll, MD, PhD, Port d'Andratx (Majorca), Balearic Islands, Spain; **The USPA Library needs all issues.**

**Journal of Electronic Medicine (Kirkville, Missouri):** This was a periodical that was published by the Kirkville, Missouri, McManis Branch of Albert Abrams' College of Electronic Medicine, which was headquartered in San Francisco, California. This very rare journal focused on Albert Abrams' radionic methods of diagnosis and treatment, as well, as other energy and electronic methods of medical treatment. It began with Vol. 1, No. 1, probably in January, 1923, because it is known for certain that Vol. 1, No. 5 was dated May, 1923. This periodical ceased publication later in 1923, when the McManis Branch was closed, and it is not known whether there were any other issues published after issue No. 5. This journal is not listed in Worldcat as being held by any library in the world, but a single issue was recently discovered by John Reed and Daniel Taylor in the archives of the Museum of Osteopathic Medicine at A.T. Still University in Kirkville, Missouri. **The USPA Library has issue Vol. 1, No. 5, but needs issues Vol. 1 No. 1, 2, 3, and 4, as well as, any issues of this periodical that may have been published after No. 5 in 1923.**

**Journal of Electronic Medicine (San Francisco, California):** This was a continuation of Physico-Clinical Medicine, and ran from 1939-1945, published by Fred J. Hart and the College of Electronic Medicine. **The USPA Library needs all issues.**

**Journal of Paraphysics/International Journal of Paraphysics:** Benson Herbert started his Paraphysical Laboratory in Downton, Wiltshire, England and began publishing the Journal of Paraphysics with vol.1, no.1 in 1967, and the name was later changed to International Journal of Paraphysics. Herbert published the Journal from 1967 until around 1989, with the last volume being vol. 23 in that year. Since the Journal and Lab were mostly the project of Herbert, they fell apart as his health failed and have become defunct. **The USPA Library needs all issues of this periodical.**

**Journal of the American Electronic Research Association:** Vol 1, No. 1 (January, 1924) through Vol. 13, No. ??? (1936), when it ceased publication; **The USPA Library needs all issues.**

**Journal of the Bioelectromagnetics Society:** see BioElectroMagnetics, above;

**Journal of the British Society of Dowzers:** Published by the British Society of Dowzers from 1956-2000. Prior title was **Radio Perception**. Succeeding title: **Dowsing Today**. **The USPA Library needs all issues.**

**Journal of the United States Psychotronics Association.** Published by the United States Psychotronics Association. Only six issues were published, and **the USPA Library has a complete set.**

**JPI News:** This periodical was being published by the Japan Psychotronics Institute in Tsukuba-shi Ibaraki, Japan, in the 1990's. It is known that there was a September, 1993, issue of this periodical, but it is not known when it was first published, or if it is still being published. **The USPA Library needs all issues of this periodical.**

**Little Farm Journal:** This periodical was published by Lutie Larsen and Little Farm Research in Pleasant Grove, Utah, and focused on agricultural radionics and related subjects. It began sometime before the first issue of The Radionic Homestead Report, which was published in May, 1988, because that issue referred to the Little Farm Journal. It is not known when it began publishing, how many issues were published, or when it ceased publication. This periodical is not found in any library of the world, but is undoubtedly in a number of private individuals' collections. **The USPA Library needs all issues of this periodical.**

**Mind and Matter:** published by George DeLaWarr of the DeLawarr Laboratories in Oxford, England from 1957-1967. **The USPA Library has a complete set of these very rare journals.**

**NeuroQuantology: (ISSN: 1303-5150)** This is a quarterly peer-reviewed journal published in Bornova, Turkey, by Suktan Tarlaci, M.D., a Turkish physician. It is published in English and focuses physical and quantum explanations for consciousness, psychic phenomena, entanglement, non-locality, mind-matter interaction, and related subjects. It began with Vol. 1, No. 1 in 2003 and has continued to be published through the present, with Vol. 15, No. 2 being published in 2017.

**The USPA Library needs all issues of this periodical.** Many issues are freely available to readers at:

<https://www.neuroquantology.com/index.php/journal/issue/archive>

**Newsletter of the Institute of Psionic Medicine.** Published by the Institute of Psionic Medicine only from 1978-1979. **The USPA Library needs all issues.**

**Newsheet of the Psionic Medical Society.** Published by the Psionic Medical Society in the England only from 1975-1977. **The USPA Library needs all issues.**

**New Zealand Society of Dowsing & Radionics Journal.** Published by the New Zealand Society of Dowsing & Radionics from 1988-present. **The USPA Library needs all issues.**

**Pathometric Journal (Sometimes called the Pathoclast Journal):** This was a periodical published in Chicago, Illinois, by the Universal Society of Pathometrists. It focused on issues related to the Pathoclast instrument, radionics, psychotronics, and related subjects. This periodical began with Vol. 1, No. 1 in 1929 and continued through at least Vol. 18, No. 3 (April, 1946), but it is uncertain if any issues were published after that date. In the late 1930s and early 1940s, it was called "Journal of the Universal Society of Pathometrists". **The USPA Library needs all issues of this periodical.** No known libraries in the world have this periodical in their collections. If any readers happen to have issues of this periodical, it would be greatly appreciated if you would xerox these issues and send them to the USPA Library. Please write to the editor (John Reed) ahead of time if you are willing to help: joreed43@gmail.com;

**Physico-Clinical Medicine:** This journal was started in 1916 by the father of radionics, Dr. Albert Abrams, and continued to be published up through 1938, by Fred J. Hart, who took over the College of Electronic Medicine after Abrams died in 1924. **The USPA has all issues of this periodical, the only complete collection in the world.** The name was changed in 1939 to Journal of Electronic Medicine.

**Psionic Medicine (ISSN: 0033-2585).** This was a periodical published in Hindhead, Surrey, England, by the Psionic Medical Society. It was originally edited by Dr. Aubrey Westlake, and focused on psionic medicine, and related subjects. This periodical began with Vol. 1, No. 1 (Winter, 1969) and continued through at least Vol. 16, (2000), but it is uncertain if any issues were published after that date. The USPA Library needs most issues of this periodical. Only one library in the world has this periodical in its collection: The British Library, London, England. If any readers live near this library, it would be greatly appreciated if you would xerox these issues and send them to the USPA Library. Please write to the editor (John Reed) ahead of time if you are willing to help: joreed43@gmail.com;

**Psychic Research Newsletter (Marcel Vogel):** Volume 1, No. 1 ( May-June, 1984) through Vol. 5, No. 4 (July-August, 1988) This is the periodical that Marcel Vogel published in the 1980's as part of his research organization, Psychic Research, Inc. in San Jose, California. The title of the periodical is really a misnomer, as is the name of his research organization, because the periodical deals almost exclusively with Vogel's and other's research on crystals and their use in healing, and very little with psychic matters. **The USPA Library has all known issues.**

**Psychoenergetic Systems :** This periodical was published by Gordon & Breach Science Publications in New York City, and focused on psychotronic related subjects. It began with vol. 1, no. 1 in December, 1974, and continued with this title until 1981, when the title was changed to "**Psychoenergetics**" (ISSN: 0278-6060) with the April, 1981, issue. It then continued under this title until 1988, when the title was again changed to "**Theoretical Parapsychology**" (ISSN: 0894-2528). However, only one issue (vol. 6, no. 1) was ever published under this title, after which it ceased publication. **The USPA Library needs all issues of this periodical.**

**Psychotronik:** This periodical was published in Innsbruck, Austria, and focused on radionics and psychotronics related subjects. It began with Vol. 1, No. 1 in 1977, but ceased with Vol. 3 in 1979. **The USPA Library needs all issues of this periodical.**

**Quantum Medicine:** This periodical was published by the Association of Eclectic Physicians in Savannah, Georgia, and focused on quantum related treatments of medical disorders. It began with vol. 1, no. 1 in 1988, but only a few issues were ever published before it went out of business. **The USPA Library needs all issues of this periodical.**

**Radiesthesia.** Published by the Dowser's Club of South Australia, and began in 1992. **The USPA Library needs all issues.**

**Radio Perception.** This was the original title of the Journal of the British Society of Dowsters, which began in 1933 and was published under that name until around 1956, when its name was changed to the Journal of the British Society of Dowsters, and continues today under the name, Dowsing Today. **The USPA Library needs all issues.**

**Radionic - Magnetic Centre Newsletter:** This was a quarterly periodical published in Oxford, England, headed by the Radionic-Magnetic Centre Organization, also known as the Radionic Centre Organization. It focused on radionics, subtle energies and related subjects. This periodical began with Vol. 1, No. 1 (Autumn, 1967) and continued through at least Winter, 1978, but it is uncertain if any issues were published after that date. **The USPA Library needs all issues of this periodical.** Only one library in the world has this periodical in its collection: The British Library. If any readers live near this library, it would be greatly appreciated if you would xerox these issues and send them to the USPA Library. Please write to the editor (John Reed) ahead of time if you are willing to help: joreed43@gmail.com;

**Radionics Journal:** Published by the Radionics Association in England from 1954 through the present. **The USPA Library has a complete set of these from Vol. 1, no. 1 (1954), through 2005, but needs all issues published after 2005.**

**Radionics Network Newsletter:** Vol. 1, No. 1 (January-February, 1993); Last Known issue: Vol. 4, No. 6 (November-December, 1996); Published by the Radionics Network, New South Wales, Australia; **The USPA Library has Vol.1, No.1 (Jan.-Feb., 1993) through Vol.5, No.1 (Jan.-Feb., 1997), but needs all issues published since then.**

**Radionik Newsletter:** This periodical is published by the German School of Radionics (GSR), an organization founded by Claudio Romanazzi in Germany in 1994. It is a monthly, and began with issue No. 1 in 2006, and has been published continuously since then. **The USPA Library needs all issues of this periodical.**

**Resonance:** Newsletter of the Bioelectromagnetics Special Interest Group (BEM SIG) of American Mensa during the 1980s and 1990s. **The USPA Library has a complete set of this rare periodical;**

**Subtle Energies:** (ISSN: 1084-2209) This was the original title of the periodical, **Subtle Energies and Energy Medicine**, when it began publishing in 1990. The title was changed to Subtle Energies and Energy Medicine in 1996.

**Subtle Energies and Energy Medicine:** Published by the International Society for the Study of Subtle Energies and Energy Medicine (ISSSEEM) from 1990 through the present, with some interruptions. **The USPA Library needs most of the issues of this periodical;**

**The Radiant News:** Vol. 1, Issue 0 [zero] (March, 2001) through Vol. 1, No. 12 (May, 2002), after which it ceased publication. Published by Peter Lindemann of Clear Tech, Inc. **The USPA Library has all 13 issues.**

**The Radionic Homestead Report:** This periodical was a periodical published by Lutie Larsen and Little Farm Research in Pleasant Grove, Utah. It began with the first issue being May, 1988. It is not known how many issues were published, or when it ceased publication. **The USPA Library needs all issues, except the first issue (May, 1988) and vol. 3, no. 4 (August-September, 1990), which are the only two issues in the USPA Library.**

**USPA Newsletter:** Published by the United States Psychotronic Association from 1977 through present. **The USPA Library needs most of these issues.**

**Visible Spectrum Researcher:** This was a periodical published by the Visible Spectrum Research Institute in Malaga, New Jersey, USA. It was edited by Dinshah P. Ghadiali and was published monthly, focusing on color and light therapy. It began with vol. 1, no. 1 (January, 1955), and published issues through at least vol. 3, no. 1 (January, 1957). It is not known if any issues were published beyond that date. **The USPA Library needs all issues of this periodical.**

**Zeitschrift fuer Radiaesthesie und Harmoniefindung (Journal of Radiesthesia and Harmonization) (ISSN: 2191-0103)** This journal is published in Munich, Germany by Herald-Verlag, and focuses on radiesthesia and related subjects. It was founded in with Vol. 1, No. 1 in 1950 by Dr. Franz Wetzel (1888-1956), and continues to be published at present. The former title from 1950-2010 was: **Zeitschrift fuer Radiaesthesie (Germany) (0044-3425).** **The USPA Library needs all issues of this periodical.**

**Zeitschrift RGS (Radiesthesia - Geopathie - Strahlenbiologie); (Journal of Radiesthesia, Geopathy, and Radiation Biology):** This was a radiesthesia and radionics periodical published by the Schweizerische Gesellschaft für Radiästhesie (Swiss Society of Radiesthesia) in St. Gallen, Switzerland. It began publishing around 1949, although the date is uncertain, and the title was changed at some point to "Schweizerische Zeitschrift für Radiästhesie, Radionik, Geopathie, Strahlenbiologie" (Swiss Journal of Radiesthesia, Radionics, Geopathy, and Radiation Biology). It was still being published in 2014, with issue No. 291 being published during that year. **The USPA Library needs all issues of this periodical.**

## USPA Local Groups and Affiliates Update

As mentioned in the May, 2016, USPA Newsletter, one of our goals is to reactivate all of the former 24 USPA Chapters that once existed across the US and Mexico. In addition, we plan to establish new local groups of people interested in psychotronics and related subjects in other major cities in the US and other countries as well. All such local groups and affiliates will be independent, but will work together with the USPA in a mutually beneficial relationship to achieve our goals of advancing research and applications in psychotronics, radionics, subtle energy, and related fields.

So I would like to invite all of former USPA Chapters leaders and members to contact me (John Reed) at: [joreed43@gmail.com](mailto:joreed43@gmail.com) and let me know if you would like to help reactivate your local chapter. In addition, if you are a leader or member of a psychotronics or related organization which was never a chapter of USPA, and we would welcome you as a USPA affiliated organization as well.

We will be establishing a USPA affiliated groups as traditional organizations and also via the Meetup.com online group platform. This will enable current and former members to more easily have local get-togethers, meetings, and other activities, and those activities, times, and other details can be posted online. So please let me know if you would like to be the leader of a group in your area.

If you do decide to use Meetup.com to establish your local group, you could do it quickly and easily by going to [www.meetup.com](http://www.meetup.com) , and clicking on the big red word “**Start**” in the upper left, and then just following the step-by-step procedures.

**You can give your local group any name you want, but it should probably have a name that relates to psychotronics in some way.** And if you need any help, please let me know, and I will help you in any way I can. Perhaps the most important thing is enthusiasm and determination, so write to me, even if you don’t know any other USPA members in your area, and I will help you set up a local group: [joreed43@gmail.com](mailto:joreed43@gmail.com)

## Exchange Corner and Advertisements

The “Exchange Corner”, is a place where people can advertise to buy, exchange, or sell items of interest, or request information or other help in relation to something wanted. So if there is anything you want to buy, sell or trade that has to do with psychotronics, radionics, subtle energy, or related subjects, please contacted the Classified Ads manager at: [joreed43@gmail.com](mailto:joreed43@gmail.com). Advertisements are free of charge to USPA member within certain limits, but non-members will be charged for any classified or display ads. So please send your ads and wanted requests to: [joreed43@gmail.com](mailto:joreed43@gmail.com).

**Wanted:** Any articles, periodicals, books, devices, or other materials on psychotronic related subjects that you can donate or lend to the USPA for its library, archives, and museum. **The USPA is a nonprofit, 501(c)(3), tax exempt organization, and as such, you are able to make tax deductible donations to the USPA. Please email the USPA at: [joreed43@gmail.com](mailto:joreed43@gmail.com) to make shipping arrangements. Thank you for your generosity.**

### Kelly Personal Analyzer for Sale

Mariette Picket has a friend that has a brand new unused Kelly Personal Analyzer that she paid \$2100 for, and is offering it for sale at only \$1600.00 Anyone interested call Mariette at: [317-773-0061](tel:317-773-0061)

\*\*\*\*\*

### Bruce Copen MARS III for Sale

I am a current USPA member and have a **Bruce Copen MARS III** for sale. The system is about 7 or 8 years old and in original, excellent condition. Sale includes original SCOPE analysis, database and broadcast software, HP laptop, comprehensive training manual and program disc, interconnects and boxes. I have always run it on XP with no issues; everything original as supplied by Copen.

All operations can be automated and multiple broadcasts can be run simultaneously, although Copen saw to develop this device so it could be used in many radionic styles and without computer control. The price is \$8500 USD roughly half the original cost. I prefer to not ship to a destination outside the USA. A limited amount of training by me, as I understand it, is available to a confirmed purchaser, as time and distance reasonably permit. Please contact: **Dr Robert Dixon, [robertdixondc@gmail.com](mailto:robertdixondc@gmail.com) or call (304) 259-9439** Berkeley Springs, WV.

## KRT Experimental Agricultural Radionic Analyzer for Sale

For Sale:

### USED EXPERIMENTAL AGRICULTURAL RADIONIC ANALYZER

Manufactured by KRT (Kelly), this machine is a predecessor to their current Workstation model. The machine is clean and in good condition. For more information please see KRT's website:

<http://www.kellyresearchtech.com>

Asking a very reasonable \$2499.00 plus \$100.00 shipping to the lower 48 states.

Please contact [saminox@hotmail.com](mailto:saminox@hotmail.com).

**Member:** John Reed, M.D.    email: [joreed43@gmail.com](mailto:joreed43@gmail.com)

# WHAT IS PSYCHOTRONICS?

The United States Psychotronics Association defines psychotronics as the science of mind-body-environment relationships, an interdisciplinary science concerned with the interactions of matter, energy, and consciousness. Psychotronics involves the study, research, and applications of the physics and technology of the mind, brain, spirit, consciousness, and the underlying forces of life and nature – hence the term “psychotronics”.

We believe that a true understanding of the universe must include the spiritual, as well as, the technical, and provide an opportunity for amateur researchers to present their findings along with the professionals. We stress research, with documentation of results, and practical applications, rather than personal experience and unsupported hypotheses.

**Some Prominent People in the history of psychotronics research and application:** Albert Abrams, Thomas Bearden, Robert C. Beck, Robert O. Becker, Jacques Benveniste, David Bohm, Harold Saxon Burr, George W. Crile, Ruth Drown, T. Galen Hieronymus, Vlail P. Kaznacheyev, Georges Lakhovsky, Wilhelm Reich, Royal R. Rife, Rupert Sheldrake, Nikola Tesla, Marcel Vogel, and others.

**Some of the forces, fields, waves, and energies studied and researched in psychotronics include:** bioelectromagnetism, biophotons, biopotentials, electromagnetic wave pollution and harmful effects; coherent emanations of DNA, emanations of matter, “free energy”, morphogenetic fields, non-hertzian waves, orgone energy, pyramid energy and power, qi (chi), quantum fields, scalar waves, subtle energies, ultra-weak radiation of living matter, zero-point energy, and others.

**Some of the phenomena believed to be produced or involved with the above fields and energies:** action-at-a-distance, the aura of the body and other living things, bioinformation, bioluminescence, chakras, consciousness, distant intercellular interactions, meridians of the body, mind-body interactions, non-locality, the placebo effect, quantum consciousness, spontaneous remission of cancer and other diseases, water memory, water structure, and others.

**Related fields of study and research covering the above forces, energies, and phenomena of psychotronics:** bioelectromagnetics, bioenergetics, biophotonics, biophysics, psionics, psychoenergetics, psychoneuroimmunology, quantum biology, radionics, scalar electromagnetics, and others.

**Some practices, techniques, and applications related to psychotronics include:** acupuncture, biogeometry, brain entrainment, clairvoyance, dowsing, energy healing and medicine, extrasensory perception, feng shui, homeopathy, kirlian photography, magnetic therapy, pendulum use and methods, prayer effects, psionic medicine, psychic healing, psychometry, qigong, radiesthesia, radionics, remote viewing, shamanism, sound and sonic healing, telekinesis, telepathy, and others.

## Membership Benefits

So if you are interested in any of the above subjects, then the USPA is the place for you, where you can interact with, exchange ideas, and collaborate with other people who are interested in the same subjects. So sign up now for membership in the USPA using the form on the following page and start enjoying all of your membership benefits. These benefits include, but are not limited to:

1. **USPA Psychotronics Library:** Free access to copies of certain articles, periodicals, books, audio tapes, videos, and other materials in **USPA Psychotronics Library**. Please write to [joreed43@gmail.com](mailto:joreed43@gmail.com) for whatever item(s) you are seeking;
2. **Your free subscription to the USPA Journal & Newsletter;**
3. **Your right to freely publish articles in the WISE Journal - The Journal of the World Institute for Scientific Exploration (ISSN 2381-1536),** enabling the world to see your ideas or research, and thereby enhance your resume and credentials;
4. **Your right to use the USPA Literature Research Service,** whereby we will find any article, book, or other item you are seeking on the above subjects, and provide it to you;
5. **Your right to participate in the USPA "Research Assistance Program",** especially useful to professors, authors, and other researchers, who need extra help on their projects. USPA will help find volunteers to help you with your research project(s).
6. **Your right to be part of the USPA Project Participation Program,** whereby you can volunteer to help on numerous available USPA projects, or help researchers who are conducting research on psychotronics and related subjects.
7. **Your right to make oral or poster presentations at the annual USPA meeting,** with the approval of the Annual USPA Meeting Planning Committee.
8. **Your right to discounts** on the purchase of certain items and services made available for sale or provided by the USPA and its members.
9. **Your right to freely advertise in the WISE Journal,** which goes out to thousands of people.
10. **Your right to participate in the USPA Psychotronic Literature Preservation Program (UPLPP).** The USPA, via its Library and Archives, has established a "Literature Preservation Program" to preserve your personal papers, files, records, and collection of articles, periodicals, books, and devices on psychotronics and related subjects, noted above. You may no longer need or use some of these items that you have, and you can send them to the USPA, and we will preserve them in our library and archives, so that they can be of use to other researchers.

## MEMBERSHIP INFORMATION

**The U.S. Psychotronics Association (USPA), was incorporated in the District of Columbia in August, 1977, and is a nonprofit, 501(c)(3), tax exempt organization, and as such, you are able to make tax deductible donations to the USPA.** It is empowered to enroll members in the parent organization throughout the United States, Canada, and other foreign countries. Membership is open to all people who wish to join with the USPA on the new frontiers of science in working constructively for the qualitative improvement of man and his environment. **Please remember the USPA in your annual charitable giving, especially if you want to advance research in the above subject areas, which can greatly benefit humans, animals, plants, and the environment.**

## United States Psychotronics Association Membership Application

Please print the page, and complete the following information:

Date \_\_\_\_\_

Name \_\_\_\_\_

Email \_\_\_\_\_

## Thank You!

# **USPA Catalog of Conference Lectures, 1978-1994**

## **Now Available**

A compilation of nearly 300 lectures given at the first 17 years of the United States Psychotronics Association (USPA) conferences, from 1978 through 1994 is [now available in a 30 page catalog \(click here\)](#).

There are talks by some of the most well known scientists of our age, including Andrija Puharich, Thomas Bearden, Marcel Vogel, Lynn Surgalla, Robert Beck, T. Galen Hieronymus, J.G. Gallimore, Elizabeth Rauscher, Christopher Bird, and many, many more.

There are also lectures specifically about radionics from some of the top practitioners: Robert Beutlich, Lutie Larsen, Jerry Fridenstine, Frances Farrelly, and others.

If you have an interest in the paranormal, the life of plants or zero-point energy, there are speakers here who are experts in the fields. How about dark-field microscopy, scalars, magnetic fields, or the Philadelphia Experiment? Yes, they are in here in this catalog too. Homeopathy, color-healing, use of crystals, structuring water, water memory, and Tesla's work are some of the other topics covered in this catalog.

As of this date, (April 15, 2017) they are available only by direct contact with USPA, but soon, they will be available online. The USPA home page is at <http://www.psychotronics.org> and we will have a linked site where purchase will lead to immediate download of the MP3, and payment can be made through Pay Pal.

Please note that [in the Catalog \(click here\)](#), most of the lectures are standard MP3s, are 30-45 minutes long, and priced at a very reasonable \$5.00 each. These have no marking in the right-hand column of the catalog listing. Other MP3s are one hour or slightly longer, and are marked "Prime" in the right-hand column, with a price of \$8.00 each. And a few of the MP3s are 90 minutes or longer, and are marked "Double", with a price of \$10.00 each. USPA members get 40% off.

However, if you just "can't wait," for the online order website, email us at [uspsychotronics@gmail.com](mailto:uspsychotronics@gmail.com) or contact our USPA Treasurer by snail mail at:

**Scott Beutlich**  
**USPA,**  
**525 Juanita Vista**  
**Crystal Lake, IL 60014**  
**Email: [uspsychotronics@yahoo.com](mailto:uspsychotronics@yahoo.com)**

Until the online order site is ready, you can print out the last page of this PDF and fill it in. You can scan it and email it to us, or send it via snail mail. For now, payment is by Check, Money order, or Pay Pal.

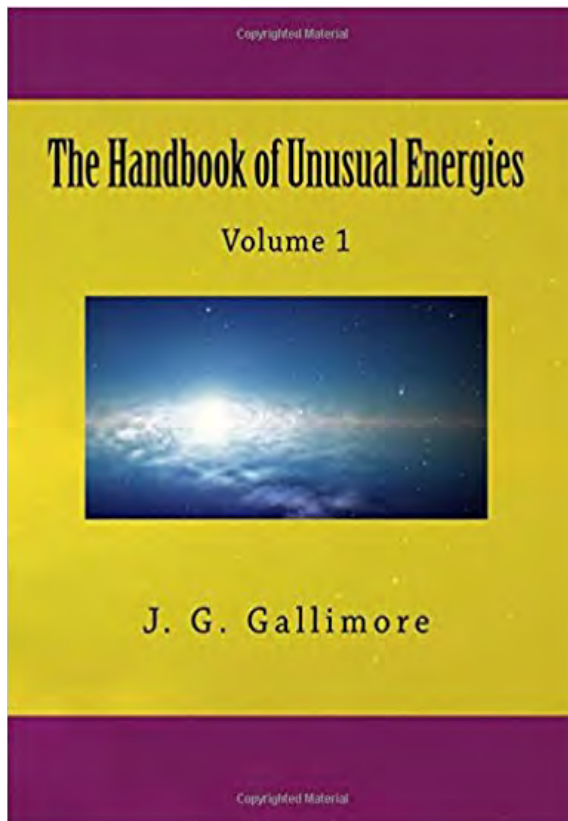

Thanks for your interest, and good luck with your research.

**The Board and Officers of USPA**  
**USPA is a fully registered, 501 C(3) Non-Profit Organization**  
**Donations are Gratefully Accepted, and are fully tax deductible**

# J.G. Gallimore's Five Rare Books Now Available for Sale

All five of J.G. Gallimore's rare books on psychotronics subjects and unusual energies have been reprinted by the United States Psychotronics Association (USPA) and are being made available at a fraction of the cost that used copies were being sold at online. So rare have these books been, that only a few libraries in the entire world had them in their collections, and some of Gallimore's books were being sold for several hundred dollars each online. However, with these newly reprinted volumes, each will be available for less than \$30.00. Each of Gallimore's books is described below with links to Amazon.com.

Jerry G. Gallimore was one of the founders of the USPA in 1975, and was a leading researcher in psychotronics and unusual energies until his untimely death in 1989.

## The Handbook of Unusual Energies: Volume 1

by J. G. Gallimore

**Paperback:** 484 pages

**Publisher:** CreateSpace Independent Publishing Platform (March 22, 2017)

**Language:** English

**ISBN-10:** 1543024998

**ISBN-13:** 978-1543024999

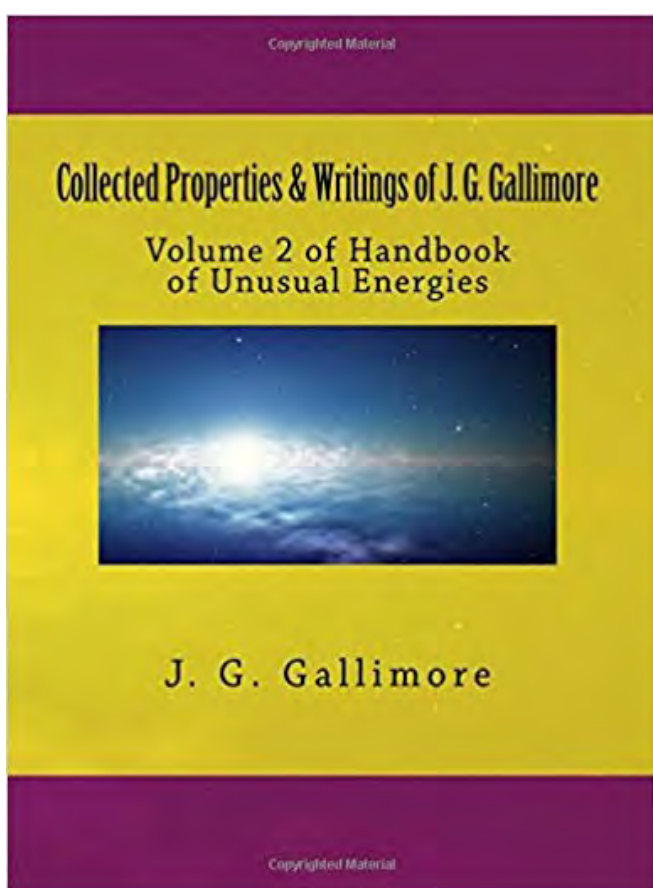

**Product Dimensions:** 8.5 x 1.1 x 11 inches

[Available at Amazon.com](#)

This is J.G. Gallimore's first book of three volumes on unusual energies, and at 468 pages, it is a magnificent work. In this book, Gallimore discusses in depth the research, discoveries, and

inventions of all the major researchers in subtle energies, the aether, biological

fields, pyramid energy, radiesthesia, radionics, crystal transduction, and related subjects. These include the works of Baron Von Reichenbach's and his odic energy, Dr. Wilhelm Reich's orgone energy, Dr. Harold Burr's biological life fields, Kozyrev's time mirror, Edgar Cayce's transmission of energy, and related research done by many others. Of particular importance is Gallimore's 127 page chapter on radionics. In this chapter he discusses in depth the research and devices of Ruth Drown, T. Galen Hieronymus, Rho Sigma, Dr. L. P. Corte and other prominent people in the radionics field. But in addition, Gallimore provided diagrams showing how such devices are made and how they actually work.

## **Collected Properties & Writings of J. G. Gallimore: Volume 2 of Handbook of Unusual Energies**

**by J. G. Gallimore**

**Paperback:** 258 pages

**Publisher:** CreateSpace Independent Publishing Platform (March 22, 2017)

**Language:** English

**ISBN-10:** 1543025048

**ISBN-13:** 978-1543025040

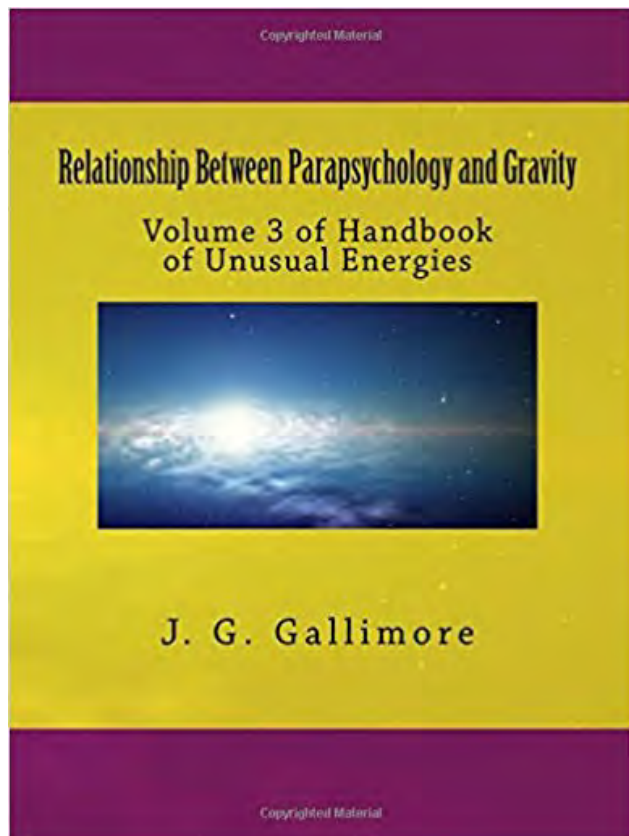

**Product Dimensions:** 8.5 x 0.6 x 11 inches

**[Available at Amazon.com](https://www.amazon.com/dp/1543025048)**

This is the second book in the "Unusual Energies" series that J.G

Callimore published. It covers Gallimore's research on Albert Abrams, the founder of modern radionics, psychological physics, psychic energy, thought resonance, subtle energies, crystals, and related subjects. In addition, a number of radionics devices are discussed, such as the De La Warr Diagnostic Instrument. And very helpfully, the rates are provided for substances, body organs, and medical diseases and disorders. A very interesting interview of Christopher Bird, conducted by J.G. Gallimore is provided, as well as a discussion of Walter Russell and his research.

## **Relationship Between Parapsychology and Gravity: Volume 3 of Handbook of Unusual Energies**

**by J. G. Gallimore**

**Paperback:** 228 pages

**Publisher:** CreateSpace Independent Publishing Platform (March 22, 2017)

**Language:** English

**ISBN-10:** 1543024947

**ISBN-13:** 978-1543024944

**Product Dimensions:** 8.5 x 0.5 x 11 inches.

The Relationship Between Parapsychology and Gravity is Volume 3 of J.G. Gallimore's series of three handbooks of unusual energies. This book describes in depth the research and theories of J.G. Gallimore into the question of "parapsychology transmission" --the question of how such things as telepathy, remote viewing, ESP, and similar phenomena can physically occur. Gallimore discusses various explanation on how they occur, including the possibility that gravity waves may play a role. He also discusses the various emanations, radiations, and energy fields of all matter and life. This includes the ancient Chinese energy called "chi" (qi), the ancient Indian's prana energy, Reichenback's "odhic force", Gurwitsch's "mitogenic radiation", Wilhelm Reich's orgone energy, and other subtle energies of life and matter. Gallimore shows how all of these energies are the same or similar, how they interact, and how they are related to gravity. He also discusses crystals as transducers of these energies, and provides diagrams of devices that could potentially be used to harness or control these energies.

# **Transverse Paraphysics: The New Science of Space, Time, and Gravity Control**

**by J.G. Gallimore**

**Paperback:** 374 pages

**Publisher:** CreateSpace Independent  
Publishing Platform (March 21, 2017)

**Language:** English

**ISBN-10:** 1543024920

**ISBN-13:** 978-1543024920

**Product Dimensions:** 8.5 x 0.8 x 11  
inches

[Available at Amazon.com](https://www.amazon.com/dp/1543024920)

This book covers the visionary research and theories developed by J.G. Gallimore about anti-gravity, space, time, and biophysics. He discusses in depth the dimensions of space, time, and gravity, and new discoveries in each of these areas. In addition, he covers research being done on anti-gravity and then discusses anti-gravity patents that have been obtained. He also discusses the intriguing concept of aura energy fields surrounding humans and other living things, and how extra-sensory perception (ESP) might be explained through biophysical principles.

## **Unified Field Theory Research Book: Using Subjective Response to Psi-Plasma for Analysis of Properties Neutral Charge Plasma Fields**

**by J.G. Gallimore**

**Paperback:** 134 pages

**Publisher:** CreateSpace Independent  
Publishing Platform (March 21, 2017)

**Language:** English

**ISBN-10:** 1543024831

**ISBN-13:** 978-1543024838

**Product Dimensions:** 8.5 x 0.3 x 11  
inches

**[Available from Amazon.com](https://www.amazon.com/dp/1543024831)**

This book is about psychotronics, radionics, electromagnetic fields and waves, psi-plasma, plasma fields, subtle energies, bioelectromagnetic energy, and other unusual energies emitted by living and non-living things. It also is about how living things interact with and are affected by these energies, which may enhance health or harm health. The book covers the research of Wilhem Reich on orgone energy, of Baron Reichenback on the odic forces, as well as research done by Cazzamalli on brain radiations and Lakhovsky on using high frequency radiations to successfully treat cancer in humans. In addition, Lakhovsky used similar methods to enhance the growth of plants. Gallimore shows how these energies, forces, and fields are all inter-related and provides hypotheses and ideas on their possible unification.
