Call for Exhibitors/Vendors and Volunteers

We are proud that we have such an illustrious group of internationally known researchers who will be speaking at the annual United States Psychotronics

Association (USPA) conference, **July 14th-16th, 2017, at the beautiful Hyatt Regency in Deerfield, Illinois, a suburb of Chicago.** (pictured at left). **Because of our speakers and the subjects they will be speaking on, we expect a large turnout of conference attendees. So exhibitors and vendors should register early, since space is limited.**

Call for Exhibitors and Vendors

The USPA welcomes vendors and exhibitors representing groups, firms, and organizations with products and services related to psychotronics, energy healing, and related subjects. Fees are \$30 per table, plus 10% of gross sales. **For more information please contact Bob Peters, VP of Exhibitor Relations, at: cathyschleyer@msn.com.**

Volunteers Needed

Because of a larger expected turnout this year, volunteers are needed to help with the 39th U.S. Psychotronics Conference July 14-16, 2017. Since 1975 the USPA has been operating 42 years, as a Non-Profit 501(c)(3) All Volunteer Educational organization. We are extremely fortunate to have **Phyllis Weiland** as the official USPA Conference Coordinator. Phyllis needs people with MS Word skills to prepare written material, help with advertising, as well as being volunteers at the conference. **Most volunteers will get the conference fee waived.** We know it will take multiple volunteers to do all that needs to be done, but there are only a limited number of volunteer positions available. To become a volunteer, please contact: **Scott Beutlich, Co-Chairman of the Conference Committee at uspsychotronics@gmail.com or call / text at 815-355-8030 to offer your time and talents!**

J.G. Gallimore's Five Rare Books Now Available for Sale

All five of J.G. Gallimore's rare books on psychotronics subjects and unusual energies have been reprinted by the United States Psychotronics Association (USPA) and are being made available at a fraction of the cost that used copies were being sold at online. So rare have these books been, that only a few libraries in the entire world had them in their collections, and some of Gallimore's books were being sold for several hundred dollars each online. However, with these newly reprinted volumes, each will be available for less than \$30.00. Each of Gallimore's books is described below with links to Amazon.com.

Jerry G. Gallimore was one of the founders of the USPA in 1975, and was a leading researcher in psychotronics and unusual energies until his untimely death in 1989.

The Handbook of Unusual Energies: Volume 1

by J. G. Gallimore

Paperback: 484 pages

Publisher: CreateSpace Independent Publishing Platform (March 22, 2017)

Language: English

ISBN-10: 1543024998

ISBN-13: 978-1543024999

Product Dimensions: 8.5 x 1.1 x 11 inches

[Available at Amazon.com](#)

This is J.G. Gallimore's first book of three volumes on unusual energies, and at 468 pages, it is a magnificent work. In this book, Gallimore discusses in depth the research, discoveries, and

inventions of all the major researchers in subtle energies, the aether, biological

fields, pyramid energy, radiesthesia, radionics, crystal transduction, and related subjects. These include the works of Baron Von Reichenbach's and his odic energy, Dr. Wilhelm Reich's orgone energy, Dr. Harold Burr's biological life fields, Kozyrev's time mirror, Edgar Cayce's transmission of energy, and related research done by many others. Of particular importance is Gallimore's 127 page chapter on radionics. In this chapter he discusses in depth the research and devices of Ruth Drown, T. Galen Hieronymus, Rho Sigma, Dr. L. P. Corte and other prominent people in the radionics field. But in addition, Gallimore provided diagrams showing how such devices are made and how they actually work.

Collected Properties & Writings of J. G. Gallimore: Volume 2 of Handbook of Unusual Energies

by J. G. Gallimore

Paperback: 258 pages

Publisher: CreateSpace Independent Publishing Platform (March 22, 2017)

Language: English

ISBN-10: 1543025048

ISBN-13: 978-1543025040

Product Dimensions: 8.5 x 0.6 x 11 inches

[Available at Amazon.com](https://www.amazon.com/dp/1543025048)

This is the second book in the “Unusual Energies” series that J.G

Callimore published. It covers Gallimore's research on Albert Abrams, the founder of modern radionics, psychological physics, psychic energy, thought resonance, subtle energies, crystals, and related subjects. In addition, a number of radionics devices are discussed, such as the De La Warr Diagnostic Instrument. And very helpfully, the rates are provided for substances, body organs, and medical diseases and disorders. A very interesting interview of Christopher Bird, conducted by J.G. Gallimore is provided, as well as a discussion of Walter Russell and his research.

Relationship Between Parapsychology and Gravity: Volume 3 of Handbook of Unusual Energies

by J. G. Gallimore

Paperback: 228 pages

Publisher: CreateSpace Independent Publishing Platform (March 22, 2017)

Language: English

ISBN-10: 1543024947

ISBN-13: 978-1543024944

Product Dimensions: 8.5 x 0.5 x 11 inches.

[Available at Amazon.com](https://www.amazon.com/dp/1543024947)

The Relationship Between Parapsychology and Gravity is Volume 3 of J.G. Gallimore's series of three handbooks of unusual energies. This book describes in depth the research and theories of J.G. Gallimore into the question of "parapsychology transmission" --the question of how such things as telepathy, remote viewing, ESP, and similar phenomena can physically occur. Gallimore discusses various explanation on how they occur, including the possibility that gravity waves may play a role. He also discusses the various emanations, radiations, and energy fields of all matter and life. This includes the ancient Chinese energy called "chi" (qi), the ancient Indian's prana energy, Reichenback's "odhic force", Gurwitsch's "mitogenic radiation", Wilhelm Reich's orgone energy, and other subtle energies of life and matter. Gallimore shows how all of these energies are the same or similar, how they interact, and how they are related to gravity. He also discusses crystals as transducers of these energies, and provides diagrams of devices that could potentially be used to harness or control these energies.

Transverse Paraphysics: The New Science of Space, Time, and Gravity Control

by J.G. Gallimore

Paperback: 374 pages

Publisher: CreateSpace Independent
Publishing Platform (March 21, 2017)

Language: English

ISBN-10: 1543024920

ISBN-13: 978-1543024920

Product Dimensions: 8.5 x 0.8 x 11
inches

[Available at Amazon.com](https://www.amazon.com/dp/B06YDQYQYQ)

This book covers the visionary research and theories developed by J.G. Gallimore about anti-gravity, space, time, and biophysics. He discusses in depth the dimensions of space, time, and gravity, and new discoveries in each of these areas. In addition, he covers research being done on anti-gravity and then discusses anti-gravity patents that have been obtained. He also discusses the intriguing concept of aura energy fields surrounding humans and other living things, and how extra-sensory perception (ESP) might be explained through biophysical principles.

Unified Field Theory Research Book: Using Subjective Response to Psi-Plasma for Analysis of Properties Neutral Charge Plasma Fields

by J.G. Gallimore

Paperback: 134 pages

Publisher: CreateSpace Independent
Publishing Platform (March 21, 2017)

Language: English

ISBN-10: 1543024831

ISBN-13: 978-1543024838

Product Dimensions: 8.5 x 0.3 x 11
inches

[Available from Amazon.com](https://www.amazon.com/dp/1543024831)

This book is about psychotronics, radionics, electromagnetic fields and waves, psi-plasma, plasma fields, subtle energies, bioelectromagnetic energy, and other unusual energies emitted by living and non-living things. It also is about how living things interact with and are affected by these energies, which may enhance health or harm health. The book covers the research of Wilhem Reich on orgone energy, of Baron Reichenback on the odic forces, as well as research done by Cazzamalli on brain radiations and Lakhovsky on using high frequency radiations to successfully treat cancer in humans. In addition, Lakhovsky used similar methods to enhance the growth of plants. Gallimore shows how these energies, forces, and fields are all inter-related and provides hypotheses and ideas on their possible unification.

A Week for Youth

at Little Farm

June 4-10, 2017

This USPA sponsored event is hosted by Little Farm Research in Pleasant Grove, Utah. It will be held the week of June 4-10, 2017. It is focused primarily on youth ages 8-20 who have an interest in growing food crops; farming, market or community gardening or to develop family gardening skills.

The system used at Little Farm is sustainable, natural and organic, using zero refined agricultural products. Furthermore techniques applied to improve produce quality are determined and largely applied energetically using radionic technique. The environment at the Farm is wholesome and balanced.

We can accept up to 20 young people (and their accompanying chaperones) for this educational week. Applications are now being accepted by Lutie Larsen at lutielarsen@mac.com. or mailed to 993 West 1800 North, Pleasant Grove, UT 84062. These will be reviewed and responded to as soon as they are received. Any questions or further information about the program can also be directed to this same email.

For the youth involved in this event there is no charge. It is a gift, but many will need to find sponsors for transportation costs to get to Little Farm. Chaperones will help with this. Chaperones are also invited to participate during the week and take their meals and lodging with us. There are a variety of lodging options but we are keeping the costs minimal.

From 1991 until 2011 Little Farm sponsored a local youth apprentice program each summer. We have an excellent curriculum for teaching young people the basic skills of sustainable soil management, planting and transplanting techniques, soil building and composting methods as well as integrative growing for intensive production. The afternoons will be focused on using radionics to evaluate and create Balancing strategies for seed plant and soil.

It is our hope that this week will spark new ideas in our youth and give them tools to better the way we grow and manage our food supplies. At LFR we are excited to be preparing for you.

Talk to you soon!

Lutie Larsen

LFR Director

January 2017

Application

for *Week for Youth*

at Little Farm-June 4-10, 2017

About you

Name _____ age in June 2017 _____

email for you _____

Address _____

Parents name _____

Parent phone # _____ email _____

Do you have your parent's permission to attend this event? _____

About your chaperone

Chaperone's name _____

Chaperone's phone # _____ email _____

Chaperone's relationship to you _____

Is your chaperone interested in learning to grow food? _____ to use radionic skills? _____

About the event

What is your favorite plant? _____ your favorite crop? _____

What do you hope to learn or do at this event?

How will you use the things you have learned?

Is there any aspect of farming, gardening you would like to see covered with greater detail?

soil management

composting

pest management

seed saving

care of transplants

weeds

planning the growing season

companion plants

watering techniques

soil mediation

USPA sponsored
for youth interested in
applying radionics to food crops.

SummerWeek 2017

at Little Farm Research

USPA sponsored

- Primarily for youth, 8-20
- Accompanying adults
- Week (5 days of study)
- Presentation at USPA - 2017 conference

Purpose and Focus

- Experience - “Doing it”
- Program in place
- Lots of growing space
- Templates to practice on
- Basic radionic training
- Opportunity USPA

Summary

- One week-June 5-10 arrive June 4, 2017
- Adult student must accompany at least one child
- Food and lodging available at LarsenHomestead
- Only expense for youth is transportation. Adults will pay \$25/day fee for meals
- Mornings at Little Farm, Afternoons in class. Evening programs

USPA Catalog of Conference Lectures, 1978-1994

Now Available

A compilation of nearly 300 lectures given at the first 17 years of the United States Psychotronics Association (USPA) conferences, from 1978 through 1994 is [now available in a 30 page catalog \(click here\)](#).

There are talks by some of the most well known scientists of our age, including Andrija Puharich, Thomas Bearden, Marcel Vogel, Lynn Surgalla, Robert Beck, T. Galen Hieronymus, J.G. Gallimore, Elizabeth Rauscher, Christopher Bird, and many, many more.

There are also lectures specifically about radionics from some of the top practitioners: Robert Beutlich, Lutie Larsen, Jerry Fridenstine, Frances Farrelly, and others.

If you have an interest in the paranormal, the life of plants or zero-point energy, there are speakers here who are experts in the fields. How about dark-field microscopy, scalars, magnetic fields, or the Philadelphia Experiment? Yes, they are in here in this catalog too. Homeopathy, color-healing, use of crystals, structuring water, water memory, and Tesla's work are some of the other topics covered in this catalog.

As of this date, (April 15, 2017) they are available only by direct contact with USPA, but soon, they will be available online. The USPA home page is at <http://www.psychotronics.org> and we will have a linked site where purchase will lead to immediate download of the MP3, and payment can be made through Pay Pal.

Please note that [in the Catalog \(click here\)](#), most of the lectures are standard MP3s, are 30-45 minutes long, and priced at a very reasonable \$5.00 each. These have no marking in the right-hand column of the catalog listing. Other MP3s are one hour or slightly longer, and are marked "Prime" in the right-hand column, with a price of \$8.00 each. And a few of the MP3s are 90 minutes or longer, and are marked "Double", with a price of \$10.00 each. USPA members get 40% off.

However, if you just "can't wait," for the online order website, email us at uspsychotronics@gmail.com or contact our USPA Treasurer by snail mail at:

Scott Beutlich
USPA,
525 Juanita Vista
Crystal Lake, IL 60014
Email: uspsychotronics@yahoo.com

Until the online order site is ready, you can print out the last page of this PDF and fill it in. You can scan it and email it to us, or send it via snail mail. For now, payment is by Check, Money order, or Pay Pal.

Thanks for your interest, and good luck with your research.

The Board and Officers of USPA
USPA is a fully registered, 501 C(3) Non-Profit Organization
Donations are Gratefully Accepted, and are fully tax deductible

KRT Radionics Workshops: **Chicago, Illinois**

Kelly Research Technologies is very proud to support the U.S. Psychotronics Association's 39th conference, whose theme is **Psychotronics: Emerging Technologies in Consciousness, Subtle Energy, and Radionics**. The conference will be held in the Chicago suburb of Deerfield on **July 14-16, 2017**, at the lovely Hyatt Regency hotel.

The USPA is a non-commercial, not-for-profit organization that supports research in "psychotronics", which is the science of mind-body-environment relationships, including the interactions of matter, energy, and consciousness. Because the USPA is dedicated not just to radionics, but also the broader spectrum of esoteric phenomena, **this meeting will present research, information, speakers, and vendors from a wide variety of disciplines**. KRT founder Peter J. Kelly was an organizing member of the USPA in 1975, and KRT's Ed Kelly has served on the USPA's Board of Directors since 2011. For more information about the USPA and the 2017 conference please visit: www.psychotronics.org, or follow the USPA page on Facebook.

Immediately following the USPA conference on **July 17 and 18**, Ed Kelly will deliver Basic Radionics, a two-day course covering the fundamentals of radionic instrumentation, including analyzing and balancing soil and water samples using a Hieronymus-type variable capacitance radionic unit. This hands-on workshop will equip participants with the skills needed to immediately apply radionics at their homestead or farm. Space is limited, so register to participate today and **learn how to recognize and shape the unlimited forces of pure Universal Energy!**

BASIC RADIONICS: July 17-18, 2017

Deerfield, Illinois

An introduction to the basic theory and hands-on operation of the radionic instrument. This course is designed for the brand new beginner and anyone seeking a refresher on the basics. Topics include:

- History and Theory of Radionics
- Samples and Witnesses
- Energetic Analysis and Balancing
- Water & Plant/Soil Analysis Worksheets
- Use of Reagents: Physical and Electronic
- Basic Rate Scanning/Electronic Dowsing

Participants will practice using and developing a touch for the radionic instrument by completing analysis worksheets on water and soil samples brought from home or taken at the site of the class, then utilizing the instrument in the broadcast mode to energetically balance those elements.

Each individual and family/friend enrollee will be provided with following materials and information:

- *Radionics - Book 2: Applied Radionics*
- Set of 10 KRT radionic worksheets
- One 300 ml Griffin beaker
- Electronic: Kelly Research Report

Individual Enrollment	\$400.00
Retake or with Purchase of a New Instrument	\$200.00
Instrument Rental (Supplies are limited!)	\$50.00

SPECIAL OFFER! Save \$50.00 per class for each new student you bring to that class!
The more folks you bring, the more you save!

NOTE: The universal radionic concepts covered in class will equip participants to conduct radionic research in any area of interest. However, human health issues cannot be covered at any time. Regrettably, any questions concerning human health will have to be declined.

- Teachers:** **Ed Kelly** is President of KRT - a uniquely qualified instructor with a lifetime of experience designing and building radionic devices, working with senior instructors, and writing about this amazing field. Ed is the son of KRT founder Peter J. Kelly and a member of the Board of Directors of the U.S. Psychotronics Association.
- Where:** All workshops will take place at the Deerfield Hyatt Regency located at 1750 Lake Cook Rd, Deerfield, IL 60015. See the web page at: <http://tinyurl.com/jtgv6oq>. Special room rates of \$119.00 have been secured for USPA and KRT workshop program participants and includes two breakfast vouchers per night booked. Call for reservations at (847) 945-3400 and ask for "USPA".
- When:** Classes will run from 8:30 am to 5:00 pm each day, with breaks.
- Bring:** Any two-dial radionic instrument. A limited number of KRT Personal Instruments will be available for rent. Optional: Bring soil and/or water samples and any reagent you wish to test.
- Food:** Participants will be responsible for their own meals and snacks. Onsite, the Jaxx Bistro restaurant and lounge offers three meals a day, and several restaurants are located nearby.
- Register:** Registration may be paid by check, credit card, or PayPal in US dollars. Call to register via credit card at (706) 782-2524, or complete and fax the following enrollment form to (706) 782-1047. Direct PayPal payments to: sales@kellyresearchtech.com. Send checks and other correspondence to KRT, Inc., PO Box 128, Lakemont, GA, 30552, USA. Enrollment will be refunded upon request in the event a participant cannot attend, less a non-refundable fee of \$75 each. *New student registration offer can reduce class enrollment fee(s) to zero, then accrues as credit for purchases from the KRT catalog.*

Newly Discovered Psychotronics Related Organizations and Periodicals, April, 2017

A number of newly discovered psychotronics related organizations and periodicals have been discovered since the last issue of the **USPA Journal and Newsletter**. These organizations and periodicals, some of which ceased operation many years ago, are listed below, with brief information. **If you know anything about these organizations, please contact the editor.** The periodicals have been added to the master list of psychotronics periodicals in the **USPA Periodicals Library section** of this journal. We are seeking copies of all issues of these periodicals, which we plan to digitize and make available to our members as a USPA membership benefit. So if you have any issues the periodicals listed below or any of the missing issues of the periodicals listed in the USPA Periodicals Library section of this Journal, please let the editor know by emailing him at: joreed43@gmail.com.

Organizations:

American Radio Therapy Society (ARTS): This was an organization founded by Dr. Ruth Drown in 1949 in Hollywood, California, where she also operated the Drown Laboratory of Radio Therapy. ARTS published a periodical called the **American Radio Therapy Society Journal**, with vol. 1, no. 1 being June, 1949. This organization focused on radionics and psychotronics subjects, and had no interest in ionizing radiation therapies, such as x-ray therapy, which were also known as "radio therapy" at that time. It is not known how long this organization lasted, but it undoubtedly ceased to exist at the time of, or some time prior to the death of Dr. Drown in 1963. **If anyone has any information about this organization or its periodical, American Radio Therapy Society Journal , please contact the editor.**

Paraphysics Study Group, Society for Psychical Research: In the mid 1960s, a group of physical scientist members of the Society for Psychical Research (SPR) in London, England, decided to form a more specialized group dedicated to the study of Paraphysics. They hoped that their study group would eventually evolve into a more formal Society for Paraphysics under the umbrella of the SPR. Members met and exchanged ideas as well as paperwork, but the organization fell apart over disagreements who should be full members - People holding PhDs in Physics, the Physical sciences, any academic discipline, or just anyone who was interested. It is not known if any newsletter or other periodical was ever published by this organization. **If anyone has any information about this organization or its potential periodical, please write the editor.**

Periodicals: (all added to the master list of USPA psychotronic periodicals)

American Radio Therapy Society Journal: This was a periodical published in Hollywood, California, by the American Radio Therapy Society, which had been founded by Dr. Ruth Drown in 1949. This periodical began with vol. 1, no. 1 in June, 1949, and continued to be published for a period of time. However, it is not known when it ceased publication or how many issues were published, but presumably it ceased sometime before Dr. Drown's death in 1963. This journal focused on radionics psychotronics subjects, and had no interest in ionizing radiation therapies, such as x-ray therapy, which were also known as "radio therapy" at that time. The only library in the world that has copies of this periodical is the National Library of Medicine in Bethesda, Maryland. **The USPA Library needs all issues of this periodical. If anyone has any issues of this periodical, or knows anyone else who does, please contact the editor.**

Bioeffects Newsletter: This was a periodical that was published by the "Physiology Program", Office of Naval Research, in Arlington, Virginia, and focused on the biological effects of electromagnetic fields. It probably began sometime in the 1970s, because it is known that Issue #5 was dated April, 1978. The Bioeffects Newsletter is believed to have ceased publication when the Bioelectromagnetics Society (BEMS) was formed in 1978, because it was edited by Thomas Rozzell, who served as the editor of the BEMS Newsletter for the Bioelectromagnetics Society. This periodical is not found in any library of the world, but is undoubtedly in a number of private individuals' collections. **The USPA Library needs all issues of this periodical. If anyone has any issues, please contact the editor.**

Little Farm Journal: This periodical was published by Lutie Larsen and Little Farm Research in Pleasant Grove, Utah, and focused on agricultural radionics and related subjects. It began sometime before the first issue of The Radionic Homestead Report, which was published in May, 1988, because that issue referred to the Little Farm Journal. It is not known when it began publishing, how many issues were published, or when it ceased publication. This periodical is not found in any library of the world, but is undoubtedly in a number of private individuals' collections. **The USPA Library needs all issues of this periodical. If anyone has any issues, please contact the editor.**

2017 Radionics Symposium Taught By the Masters

Advanced Radionics Classes Covering Humans, Livestock,
Pets, Crops and Gardens

Best Western Ramkota Hotel
October 24-28, 2017

Advanced Radionics Class

Instructor: Ed Kelly

October 24-25, 2017 - 8:30AM to 5PM

Life can be hard enough without external forces dragging you down. Don't spend another day toiling under the weight of anchors that have been placed on your life, your work, and/or your business! In this rare two-day, hands-on, Advanced radionics course, Ed Kelly will focus on techniques and strategies for recognizing and banishing negative patterns of information from plants, animals, and spaces. Topics will include:

Systematic Elimination of the Energy Patterns of Sickness

Recognizing and Eliminating Psychic Attacks and Dark Forces

Cold Scanning Effective Supporting Rates

Advanced Selection, Testing, and Uses of Colors and Frequencies

Participants should have a working knowledge of their radionics instrument for this course.

Individual Enrollment

\$400.00

Bring: Any Hieronymus-type two-dial radionic instrument, plus samples of water, soil, plants, seeds, and/or animals from home. Please order as soon as possible if a new instrument is required from KRT. A limited number of instruments will be available for rent.

Separate Registration Required for Advanced Radionics Class!

To Enroll: Call 706-782-2524 or email: cathie@kellyresearchtech.com

All Saints Church
PO Box 86
Black Hawk, SD 57718

Phone: 605-787-5620

2017 Radionics Symposium

Taught By the Masters

Schedule

Day 1

October 26, 2017 - 8AM to 5PM

7:15AM - 8AM

Registration

8AM - 8:30AM - **Dr. Ron Barone**

Introduction

8:30AM - 9:30AM - **Dr. Ron Barone**

The story of miasms begins with Samuel Hahnemann himself. As his experience of homeopathy brought him to understand its usefulness not only in acute but also in chronic disease, Hahnemann found that chronic diseases arise from a deep inner susceptibility that he called miasm. External causes of disease, he observed, can bear fruit only in the fertile ground of a miasmatic foundation, which passes by various means from person to person and creates the predisposition to particular kinds of disease states. Hahnemann identified three miasms, each with its own characteristics and disease propensities. In recent developments, there are 4 primary miasms and 4 recessive. We will learn how to deal with these with radionics.

Dr Darius Dinshah developed a system of using light as a direct application to the body for many diseases. A Pdf of this book will be supplied on the notes disc. I will demonstrate how to apply light in radionics as an application to the input well as well as a basic rate sheet for broadcasting.

Dr. Ronald Barone: Body, Mind & Spirit - Ron is a consultant on personal well-being; from Blackhawk, SD. Ron brings over 50 years of experience in the health care field. He is a Chiropractic Doctor certified in Orthopedics, with training in advanced Radiology, Nutrition, and Kinesiology and with a focus on environment, organic foods, nutrition, herbs, homeopathics, exercise and correct thinking. He has been doing radionics and energy medicine as his ministry since 1995. Working on people with health issues and longevity is his primary ministry. He is a skilled dowser in the natural and spiritual realm. A personal friend of Master Dowser and Shaman Raymon Grace. He is also skilled in helping the dying go through transition to the spirit world. He has considerable experience with discarnates and a wide realm of non-physical issues. Ron has worked on many issues in the natural and spiritual realm. Ron teaches people take control of their own well-being, physically and spiritually.

9:45AM - 10:45AM - **Sarah Emond**

To be announced.

Sarah Emond, Essence Healing - Sarah is a Certified Reflexologist, Reiki Master, Radionics Practitioner, Intuitive Facilitator, and Energy Practitioner. She uses her intuitive abilities to help her clients bring their spiritual and energy bodies into balance, maintain that balance and begin to increase its abilities.

11AM - 11:30AM - **Vendor Spotlight**

Cory Stover, Pete Radatti and Brian Besco will highlight the products they have available for sale. (Other vendors will highlight their products during their teaching times.)

Cory Stover - Cory Stover is an inventor, intuitive and expert dowser. He is the maker of the Cory Coil, Colossus energizer and Avalon Well among other radionics tools in development.

Brian Besco - Brian Besco is the leader in research and development of Tensor Technologies. He considers the Tensor tools to be a combination of the physical sciences and spiritual technologies. He is a published author and manufacturer of the Tensor tools, and spoke at the 2013 Tesla Technology Convention on the Tensor Fields. Brian has also created several new modalities of subtle energy work, and teaches workshops around the world.

"Pennsylvania" Pete Radatti - Pennsylvania Pete Radatti is best known for his articles in the KRT newsletter, training new radionics operators, and grassroots radionics support groups (Conshohocken Radionics) in www.meetup.com. His radionics training manual "A Fun Short Course in Beginning Radionics" is available on Kindle readers via Amazon.com and research.

2017 Radionics Symposium

Taught By the Masters

Day 1 Continued

October 26, 2017 - 8AM to 5PM

1PM - 2:30PM - **George Kuepper**

My Evolving Approach to Agricultural Radionics - This presentation will feature three inter-related organic strategies for radionically managing the health of farm and garden ecosystems—organic, eco-ag, and Biodynamic. Analysis procedures and rate sheets will be detailed along with follow-up strategies for balancing gardens, fields, and whole farms using broadcasts, potencies, and/or physical materials. The information provided emerges from the presenter's past experience applying radionics to agriculture and his current research in establishing and managing a Biodynamic garden in Northwest Arkansas.

George Kuepper - George Kuepper has 40 years of experience with sustainable and organic agriculture. He began studying and practicing radionics in 1986 to address crop and soil health problems that were not responding to conventional prescriptions. George is the author of two training manuals: *Radionics, Reality & Man and Plants, Soils, Earth Energy, and Radionics*. He is the owner of Midsouth Radionics, located in Northwest Arkansas, where he conducts trainings and continues his research.

2:45PM - 3:45PM, 4PM - 5PM - **Daniel Taylor and Possible Assistant Guest Speaker**

To be announced. Daniel is an amazing teacher and whatever topic he chooses to present, it will be cutting edge information.

Daniel Taylor - Daniel Taylor has been involved with energy work since 2010. He double-majored in Chemistry and Biology, and double minored in Physics and Mathematics, to prepare for PhD level research in Biophysics. His undergraduate research involved single molecule tethering, magnetic tweezer manipulation, and Fluorescence Resonance Energy Transfer (FRET) analysis. Radionic research is a full-time part of his daily regimen. He is also pursuing Licentiateships with the Radionics and Dowsing Institute of Canada, and The Radionics Association of the UK.

Day 2

October 27, 2017 - 8AM to 5PM

8AM - 9AM, 9:15AM - 10:15AM - **Special Speaker - Gary Blackwell**

With 34 years of experience, Gary will teach you how to improve your agricultural operation, make a profit and save input costs from seed to harvest. He will also teach for the first time ever the creation theory of the soil and components.

Gary Blackwell - Worked for Chevy engineering for 27 years. Moved to his farm in 1972 and began doing agriculture radionics. Student of Steve Weston, Pat Smith, Peter Kelly and Cathie Jordan. Milked cows for over 20 years with a cow average of 26, 400 lb with no drugs of any kind.

10:30AM - 11:30AM - **Tammy Steuber**

Tammy will talk about the emotional link to physical ailments; cover a variety of essential oils and what its properties do physically and emotionally and how understanding this will allow you to use them more effectively as radionics reagents to boost your broadcast results. She will teach how to use them personally or with your clients as a tool to support the body to heal and stay strong during and after the radionics treatment.

Tammy Steuber - Operates her own business, Pure and Simple Solutions in Fairmont, MN. Tammy has been serving others by teaching them how to improve their physical, spiritual and financial well being for the past 8 years as a Certified Holistic Health Coach, Essential Oils Educator, and more recently a Radionics operator.

1PM - 2:30PM - **Tim Lippert**

Every time Tim teaches a radionics class, his stories of problem cases & healings leave people amazed. They always declare "You need to put those in a book". Well the book isn't written yet, but Tim will share many of those true life stories in this session. Don't be late.

Tim Lippert; President, Livestock Innovations, Inc. - Tim has done Radionic, Naturopathic, and Alternative Medical work for clients in over 25 states, Belize, Mexico, Canada, Australia, Great Britain, and the Philippines. He owns and operates one of the most elaborate Radionics labs in North America. His specialties include agricultural and environmental consulting, geo-biology, water treatment, mold & myco-toxins, Lyme Disease, sleep apnea, and spiritual issues.

2017 Radionics Symposium

Taught By the Masters

Day 2 Continued

October 27, 2017 - 8AM to 5PM

2:45PM - 3:45PM - **Stephen Quong**

Mind and Machines: Optimizing the Psychotronic Interface - Demonstration of advanced methods to clear sub-conscious programs which interfere with accurate dowsing and use of the stick plate. Yogic breathing exercises and nutritional supplements which can increase your mental clarity. Enhancing bioresonance with the Apex Homeopathic Imprinter. Feng Shui principles for facing the ideal compass direction for optimal dowsing. Techniques for enhancing multidimensional perceptions, mental coherence, and even time travel, using the double tetrahedron crystal and the tensor rings. More short-cuts for scanning/identifying the best radionic rates to use. Introduction to Esoteric Reagents: Dr. U Shein's Gold Ash Powder, Shen Ion HarmoniK tools, Buddhist relics (Sharira), Navapashanam, Ormus, Gibeon Meteorite, traditional Vedic gemstones, planetary gem elixirs, and gemstone ashes (bhasma), Phi ratio quartz pyramids, Taoist Fu yantras, Fractalization of Platonic Solids, Kaya Kalpa Yoga herbal powder (for immortality); ultra-high quality Wild Ginseng, Tibetan Cordyceps, and Shilajit for regeneration of degenerative conditions. Innovative uses of the Corey Coil antenna and phased array antenna for deep earth cleansing.

Stephen Quong - is recognized internationally as one of the foremost Vedic Astrologers in the Western world. He has been certified as an instructor of Qi-Mag Feng Shui and Tao Geomancy; Qinyang Qigong; Vipassana Meditation, the Yuen Method of energetic healing, and the Medicine Buddha Healing Dharma. He has also studied and practiced Pranic Healing, Matrix Energetics, Quantum Healing, Neutrakon hypnotherapy, and many other healing modalities for many years. Stephen has practiced and taught dowsing and energy healing since 1972, and worked with radionic devices for over 30 years. His presentation will introduce various concepts and techniques from Vedic, Buddhist, Taoist and Shamanistic traditions, which can enhance our use of Kelly-type, analog radionic devices. His full biography is available online at www.jyotisha.com/bio.html. Email: smquong@gmail.com. Office telephone: (925) 754 8858 PT.

4PM - 5PM - **Ron Barone and Tim Lippert**

What do you do with your results after running your sheets? Ron and Tim will present a case study and explain what they would each do after running the sheets.

7PM - 8:30PM - **Raymon Grace Video/Social Time**

Raymon Grace presents via video prepared just for this conference. Social time to follow.

Day 3

October 28, 2017 - 8AM to 5PM

8AM - 9AM - **Scott Ertl**

Scott will be teaching about Magnetism and Polarity, which are the two most important things in life. He will be sharing Radionic and Dowsing technology which will lead to the understanding of how to analyze and correct imbalances in Magnetism. He will also discuss ways to analyze and remedy reverse polarity.

Scott Ertl is a Master Dowser, Weird Energy Expert/Energy Mechanic, Stray Voltage Specialist. He is the Inventor of the Patented Stray Voltage Device called the "Ertlizer". Through his work with Stray Voltage, he also solves Geopathic and Spiritual issues around the world. In his spare time he operates an Organic Dairy Farm in Marshfield, WI. Scott has spent the last 20 years researching and developing tried and true strategies that remedy many types of issues for people, animals and properties.

9:15AM - 10:15AM - **Marty Lucas**

The raw energy of life can be called Chi. When there is ample Chi, the body is healthy, but not all Chi is the same. Its structure mirrors that of bio-photons. So there is some that helps the body to repair itself, there is some that supports replication and some that moves the body towards recycling. By managing the mixture of Chi in a subject we can support the repair and replication functions. Balancing Chi works at a more fundamental level than even Somatids! This work peels another layer from the 'onion'!

Marty Lucas, Every Advantage Ag, Urbandale, IA - Marty Lucas is a full-time Radionic Practitioner and teacher out of central Iowa. He is known for in-depth and far-reaching research into the fringes of radionic practice. He is able to present complex scientific and esoteric subjects into easy to understand protocols and procedures.

2017 Radionics Symposium

Taught By the Masters

Day 3 Continued

October 28, 2017 - 8AM to 5PM

10:30AM - 11:30AM - Robin Hermanson

A high-stress lifestyle coupled with improper eating habits can wreak havoc on delicate hormonal balance. Symptoms of hormonal imbalance may include PMS, osteoporosis, weight gain, altered sex drive, allergies, fibroids, urinary track infections, fatigue, anxiety, water retention, hair loss, even depression. Keeping hormones in balance results in healthy weight and optimal energy levels. How to measure your hormone levels, what hyper tonicity or hypo tonicity of what organs, what deficiencies of vitamins, what parasites and toxins contribute to imbalances and how to balance your hormones naturally will be discussed.

Robin Hermanson, Garretson, SD - Robin is a Professional Mechanical Engineer, Green Building Engineer and Certified Energy Manager. He is also a Certified Organic Farmer and has 360 acres. For 14 years, Robin has researched health and longevity through the Reams Biological Theory of Ionization. Robin is a veteran radionics operator helping people solve a wide range of health problems with alternative methods and detoxification.

1PM - 2:30PM - Dr. Linda Lancaster

Radiesthesia is the ability to detect vibrations of force fields emanating from minerals, plants, animals and humans. Every living cell is like an electric battery broadcasting a pulsing rhythm, creating a field. The ability to contact these fields is called Radiesthesia. Medical Radiesthesia is a method of discovering information from energy fields around the human being, animals and plants. The Parcels System utilizes a pendulum and a Determination Board to measure these frequencies. While the applications of Medical Radiesthesia are vast, Dr. Linda will teach an effective approach to taking care of yourself and your family through this system of Radionics.

Dr. Linda Lancaster - Dr. Linda is a Board Certified Naturopathic Physician and Homeopath. She has been in practice since 1981 and founded Light Harmonics Institute, an Energy Medicine Clinic and Educational Center based in Santa Fe, New Mexico and maintains clinics in Santa Fe and New York City. Her training includes Classical Homeopathy, Radionics, Medical Radiesthesia, Subtle Energy Healing, Nutrition, Herbal Medicine, Ayurveda and Detoxification Methods. Her health and cleansing programs have been offered to her patients for more than 30 years.

2:45PM - 3:45PM - Ed Kelly

Ed Kelly will share the work of KRT veteran Cathie Jordan and his step-mom Marianne Keeler-Kelly, who collaborated for years on advanced potentizing projects. Emphasis will be placed on delivering ideas, techniques, and lessons learned that can be applied directly to the projects of new and intermediate users. We will also discuss ways to utilize potentized materials for maximum impact and effectiveness.

Ed Kelly, Kelly Research Technologies - KRT (www.kellyresearchtech.com) has been delivering radionic instruments, equipment, and information to the world for 37 years. Sister company BETAR USA (www.betar.com) produces focused vibroacoustic sound therapy systems that allow riders to literally *feel* their favorite music - every note and drum beat - as a sonic energy massage that melts away physical pain, emotional stress, and/or mental anxiety. Ed Kelly took the leadership position in these firms following the untimely passage of his father, founder Peter J. Kelly, in 2004. Ed has been involved in radionics and the esoteric arts for his entire life, literally growing up around such giants as T. Galen Hieronymus, Thomas Bearden, Bob Beck, Bob Beutlich, and countless other inventors and researchers. Ed has a BS in Geology from the University of Georgia, an MBA from Kennesaw State University, and served the nation in the U.S. Marines.

4PM - 5PM - Questions & Answers with the Teachers

All teachers will be available for you to ask questions and get clarification.

2017 Radionics Symposium

Taught By the Masters

Kids Energy Classes

October 28, 2017 - 8AM to 11:30AM

Kids ages 7-20. No Fee. Registration Required.

8AM - 9AM - Playing with Energy, Meditation, and Energy Art

Sarah will show how energy exists all around us and how it can be used to help us. She will teach simple energy balancing techniques that can be done daily such as centering, grounding, clearing and protecting. We will also draw our souls after we do a See Your Soul Meditation. Taught by Sarah Emond.

9:15AM - 10:15AM - Kid's Radionics Class

Ed and Sarah will explain the basic principles of the radionics instrument, then the group will work together to do hands-on testing of the energy levels of common foods and beverages. Taught by Ed Kelly. Sarah Emond assisting.

10:30AM - 11:30AM - Kid's Dowsing Class

In this session, participants will be shown how to make and use their own dowsing tools. They will learn how to dowse with L rods, pendulums, body dowsing and bobbars. They will be taught how to utilize dowsing in their everyday life. We will cover a couple of fun dowsing games and all kids will go home with a great basic dowsing kit! Parents are welcome to sit in on the class! Taught by Scott Ertl and Sarah Emond.

Registration Form

Oct. 28, 2017

8AM - 11:30AM

Please fill out all information below.

Parent(s) or Guardian(s) Name(s)

Cell Phone

Email

Child(ren) Name(s) and age(s)

Any food allergies or other information we should be aware of about your child(ren)?

I understand that:

- ☐ That there is NO FEE for the Kids Energy Class
- ☐ Children must be between the ages of 7 and 20 to attend.
- ☐ Equipment will be provided for child(ren) for class use only unless other noted.

Complete form and mail to:

All Saints Church
PO Box 86
Black Hawk, SD 57718
(605) 787-5620
livingwordministry8@yahoo.com

Short News, Notes, and Queries

1. **Duncan Laurie**, author of the excellent book, [The Secret Art: A Brief History of Radionic Technology for the Creative Individual](#), recently sent USPA an online article titled ["Sick Frequencies: Behind Radionics, the Wacky Sound Therapy That Turns Thoughts into Music."](#) This article, written by Tom Howells in March, 2017, is all about Daniel Wilson and his "Radionics Radio Project" where he creates electronic music from human thoughts.
2. **Were you ever a member of the Electronic Medicine Association (EMA) or know anyone who was? According to online sources, this organization was co-founded by Peter Moscow (US), former president of the USPA, and John Morley-Kirk (UK) and was incorporated in the United Kingdom in 2001.** (UK Company number 04223137). From 2001 through 2010, the EMA held numerous seminars, workshops, and conferences, and may have published a newsletter or journal, although this is uncertain.

Unfortunately both Peter Moscow and John Morley-Kirk died in 2011, and records show that the organization was officially dissolved in the United Kingdom in October of 2011. A number of people have indicated that they would like to revive this organization, and we are attempting to locate all former members. **So if you have any interest in this, or by chance have an old membership list, please write to the editor, John H. Reed, M.D. (joreed43@gmail.com),** so that I can contact the former members to see if they would be interested in resurrecting this organization, or starting a new one with a similar mission.

3. **Do any of you happen to know anything about the Paraphysical Laboratory that was founded in the UK by Benson Herbert in 1966, or have any issues of the Journal of Paraphysics that he published for more than 20 years.** Mr. Herbert's laboratory was located at Privett Farm, Downton, Wiltshire, England, between Salisbury and Southampton. His mission included an attempt to provide a workable theory and physical explanation for paranormal phenomena, including telepathy, remote viewing, dowsing, and other extraordinary abilities and phenomena. Unfortunately, Benson Herbert died in 1991, and no one seems to know what became of the papers and records of the laboratory, or if he even

had any family, who might be able to shed light on this. So if you know anything about Benson Herbert or have any issues of his periodical, please contact the editor at: joreed43@gmail.com.

4. **Does anyone have video tapes of the presentations that Andrija Puharich made at the 1982 US Psychotronics Association Conference? The title of Dr. Puharich's first presentation was: "Chemical Compounds: Receptors of Artificial ELF", and was sold for a period of time on the USPA website with this title and catalog number F6.**

The second presentation that Dr. Puharich made at the 1982 USPA Conference was the Keynote Address at the Awards banquet. The Title of this presentation was "Kindling + 1" and had catalog number F7. If anyone has either or both of these tapes, please contact the editor, John Reed at: joreed43@gmail.com.

Andrija Puharich, Chemical Compounds: Receptors of Artificial ELF (1982) F6

Andrija Puharich, Keynote Speaker:, Kindling +1; Awards Banquet (1982) F7

5. **Does anyone have any personal copies of the excellent periodical called "DNA Decipher Journal" ?** This journal focuses on subjects of great interest to the psychotronics community, including subtle energies emanating from DNA, wave genetics, quantum biology, quantum entanglement, phases and structure of water, and many other interesting subjects. In fact, the vol. 6, no2 (June, 2016) issue of this journal included an article titled, "On the Plausible Implications of Gariaev & Montagnier's Work". (Editor JHR:See the abstract of Montagnier's article in the Abstracts section below.)

Surprisingly, and strangely, not a single academic or public library in the world lists this periodical in their holdings, including the Library of Congress. This journal is published by Quantum Dream, Inc., In Stony Brook, NY , and has a website at: <http://dnadecipher.com/> , which shows all the issues published since its first issue in 2011. Unfortunately, the price is \$13.90 for the latest issue published in Dec., 2016, and back issues have higher prices running up to \$19.90 for the first issue.

If any of you have personal copies of the DNA Decipher Journal, would you be willing to lend them temporarily to the USPA Library so that we can review them? If so, please write to the editor, John Reed, at:

joreed43@gmail.com

Among the Missing, (and Updates): A Column about Missing People, Organizations, Periodicals, Books, Artifacts, and Collections in the Psychotronics Field

by John H. Reed, M.D

This is a new “column” or section of the USPA Newsletter, and will be an ongoing part of every issue, with the purpose of helping the USPA, as well as, our members and research associates locate people, organizations, periodicals, books, artifacts, devices, collections, and other items that have seemingly disappeared, or have been extremely difficult to find. **Updates will be added, and each missing item will be retained in future issues until it is found or otherwise resolved, since some readers may not have seen prior issues of the USPA Newsletter or the original notice of the missing item.**

In addition, this will also serve as a “People Locator Service” to help find authors and researchers on psychotronics, radionics, subtle energies, energy medicine, and related subjects, who have “disappeared” or have died long ago, and whose relatives you may be trying to find in order to preserve the research papers and collection of that person.

In our research and reading, we all have encountered people, organizations, periodicals, books, articles, or other things that we have tried to find, and some people have searched for years to find something, but have not yet found it, despite the vast resources of the Internet. However, with our large USPA membership, we can all help one another find what we have been searching for. Some of you may have experience in genealogical research, or private investigation, law enforcement, or even intelligence work which you could utilize to help each other, or perhaps just make suggestions on how or where to search for something.

So if there is anything you have been searching for and need help to find, please write to me, John H. Reed, M.D. at: joreed43@gmail.com, and I will include your search help request in the next and subsequent issues of the USPA Newsletter. And if you have any information about an item that is listed in “Among the Missing”, please write to the same email address and share what you know or your suggestions. If there is something that is confidential, your confidentiality request will be honored and protected.

Andrija Puharich’s Lost Manuscript and other Puharich Mysteries by Greg Mallozzi

During the late 60s and into the 70s, Puharich owned and worked out of a large house in rural Ossining, New York. A home laboratory known as Lab 9. Lab 9 produced the most mysterious and far out work that Puharich was involved in when he began to delve deeper and deeper into parapsychological, experimental research: like alleged communication with extraterrestrial beings VIA trance mediumship and ELF (extremely low frequency) waves and their effect on the brain.

At Lab 9, Puharich worked with a faraday cage, a large cage that blocks electrostatic and electromagnetic influences. Puharich found that when a subject was placed inside the faraday cage and a certain level of specially controlled electromagnetic waves were sent through the cage, the subjects ESP abilities were heightened significantly. He conducted what some have called inhumane, psychological experiments on human subjects. Lab 9, like The Round Table Foundation, began to attract people from all walks of life.

Shrouded in controversy, the new film on the life of Dr. Andrija Puharich that we are producing will show what Lab 9 was really like, using never before seen photos, videos and transcripts. In 1978, a mysterious attempt to burn down Lab 9 was made. The town of Ossining ruled it arson. Puharich's publisher, Doubleday, was also broken into at this time and the manuscript he was working on was destroyed. Was someone out to get Puharich, to discredit and sabotage his work? If so, who? People who were present at Lab 9 at the time of the infamous fire will weigh in on what really happened, which to this day is unsolved.

If anyone has any knowledge about the missing manuscript or other mysteries surrounding the life of Dr. Andrija Puharich or has any video tapes, audio tapes, or correspondence of Puharich, please contact:
Greg Mallozzi at: gregorymallozzi@gmail.com or the editor John Reed at: joreed43@gmail.com

Combo Mystery: Missing Person, Organization, and Book, All Related

Person: Dr. Floyd S. Graham, Sr. **Organizations:** Radionic Laboratories and Radiant Associates, Inc. founded by Floyd S. Graham, Sr. **Book:** The Radiant Era, by Floyd S. Graham, Sr.

This is our first "Combo Mystery" of a missing person, the organization(s) he founded, and the book that he wrote. The organization "Radionic Laboratories" was referred to in the American Society of Dowsters Quarterly Digest, Vol. 4, No. 2 (May, 1964), page 22, in a letter to the editor, by Dr. Floyd S. Graham, Jr. It indicated that Dr. Graham was the president of the "International Headquarters Unit" of "Radionic Laboratories", located in the small town of Tumtum, Washington, which is located northwest of Spokane, WA. The letter was signed "Radiant Associates, Inc.".

These names suggest that there may have been two different organizations, or that the "Radionic Laboratories" was part of the corporation, "Radiant Associates, Inc. However, I checked my database of incorporated organizations, which covers both profit and non-profit corporations, operating or defunct, that have been formed in the United States and worldwide since the early 1900's, and neither name was shown as ever having existed in the State of Washington. But since the letter was written and published in 1964, there is little doubt that Dr. Graham and the organization entities he mentioned did exist at that time in Tumtum, WA.

A further mystery related to Dr. Graham is the booklet he wrote titled, "The Radiant Era", date and place of publication unknown. It is being offered for sale online, with a photo, as shown at left. It is said to be published by the Journal of Natural Living, and is 22 pages long, stapled, and sized 6.75 by 7.75 inches.

However, a check of the WorldCat database, which lists the holdings of every library in the United States, Canada, and the UK, including the Library of Congress and the famous British Library (AKA British Museum Library), shows that this booklet by Dr. Graham is not located in any known library.

So if you know anything about Dr. Floyd S. Graham, Sr., the Radionic Laboratories, or Radiant Associates, Inc., in Tumtum, Washington, or anything

about his booklet, The Radiant Era, please contact the editor, John H. Reed, at: joreed43@gmail.com. If you happen to have a copy of the booklet in your personal collection, the USPA Library would greatly appreciate it if you would make a xerox copy of it for the library, which you can scan and email as a PDF, or send the physical copy to: USPA Library and Archives, 4401 Roland Avenue, Unit 405, Baltimore, MD 21210.

Missing Devices:

1. **The AGRAD Machine:** In the 1970's Mankind Research Unlimited, Inc.(MRU), headed by Dr. Carl Schleicher, was offering for sale a device called the AGRAD Machine. It was intended to be used in the electromagnetic treatment of crops and the control of insect populations, and sold for \$390.00. MRU claimed that AGRAD machines had been used for several years by MRU researchers to conduct experimental applications of the type described in **The Secret Life of Plants** by Christopher Bird and Peter Tompkins, and **Report on Radionics** by Edward W. Russell. Theoretically, the AGRAD machine was intended to produce effects through electromagnetic wavefronts that would interact with and control insects by disturbing the insect sensor mechanisms. A photo of the device and additional information appeared in one of MRU's publications [which you can access here.](#)

Missing Organizations:

1. **American Electronic Research Association (AERA):** Albert Abrams established the American Electronic Research Association in the early 1920s and it continued to operate until at least 1935, when John F. Spaulhurst was the president of AERA, according to the 1935 Edition of Who's Who Among

Association Executives. The AERA published the monthly Journal of the American Electronic Research Association from 1924 through some point in 1936, when it ceased publication, according to Harvard University records.. Only two libraries in the world are known to have issues of this periodical. There are only two issues in the Harvard University Medical School Library, and the Kirkwood School of Osteopathic Medicine has one issue. If you know anything about this organization, or happen to have any issues of its journal, please contact the USPA Journal and Newsletter editor, John Reed at: joreed43@gmail.com.

2. **International Association for Psychotronic Research (IAPR):** Does anyone know what became of the International Association for Psychotronic Research? And do any of you have copies of its meeting proceedings or newsletter, if such a newsletter were published? It was founded in 1973, even before the United States Psychotronic Association (USPA), which was founded in 1975. However, the current location or activities of the IAPR are unknown.

The IAPR held numerous international conferences around the world, beginning with its first in 1974 in Prague, then Czechoslovakia. At this conference, Dr. Zdenek Rejdak was elected president for the Eastern Division of the IAPR, and Dr. Stanley Krippner was elected president for the West. The 8th International Conference on Psychotronic Research was held in Milwaukee, Wisconsin, 1993, as a joint conference with the United States Psychotronics Association (USPA), but it is unknown if any subsequent conferences of the IAPR were held.

Proceedings of each of these conferences were published. If copies of these proceedings can be obtained, or any newsletters that it may have published, we will add them to the USPA Library and make them available to USPA members. If you have any knowledge about this organization, please write to the editor at: joreed43@gmail.com

3. **International Radionics Association (IRA):** Does anyone know anything about the **International Radionics Association (IRA)**, which was located in Springfield, Missouri in the late 1940s. This is known, because a book called **The Truth about Radionics** was published in 1947 by this organization, and although the author's name is anonymous, it is highly probable that the author was T. Galen Hieronymus, who passed away many years ago.

I checked several newspaper databases, and references to this organization were found in the press as far back as the early 1930s, and as late as the early 1960s, but nothing more recent than that. If you have any knowledge about this organization, please write to the editor at: joreed43@gmail.com

Missing People, and Updates:

Missing USPA Related People:

We are trying to track down some of the original directors and officers of the United States Psychotronics Association (USPA), when it was organized in 1975, with the word “Radionics” in the organization title. Does anyone have any information on the current whereabouts of the following people, or family members, if the person is known to have passed away, or where they passed away?? Please check Ancestry.com, social media websites, newspaper archives, and any other databases you have to help find these people.

1. Paul Sauvin, USPA 2nd Vice Pres., 1976 and 1st Vice Pres., 1977. Paul Sauvin, whose full name is Pierre Paul Sauvin, is an electrical engineer and inventor who, [according to one source](#), worked in the aerospace industry and later with the National Institute for Rehabilitation Engineering at St. Joseph’s Hospital in Paterson, NJ. He also worked with Dr. Carl Schleicher, head of Mankind Research Unlimited, and helped develop a device called the [“AGRAD Machine”](#). This device was designed to control crop insects, and was introduced on an experimental basis, although it is not known if it ever reached commercial production. Paul Sauvin’s mother was Edith Sauvin, who lived in White Plains, NY, and died August 25th, 1987. Edith’s only child was Pierre Paul Sauvin, who himself had 2 sons, Alan Paul Sauvin and Steven Eric Sauvin. He also had one daughter, Jane Elizabeth Sauvin. Any help in locating the children of Paul Sauvin would be greatly appreciated, and please write to joreed43@gmail.com.

2. Dr. Marcel Vogel and his Research Papers: Does anyone know what became of the papers and files of Dr. Marcel Vogel, who died in 1991? Dr. Vogel did extensive research on crystals and crystal healing, pyramid power, the “Backster Effect” involving plants and their bioenergetic fields, and a number of other psychotronics related subjects. He also spoke numerous times at USPA conferences. Marcel Vogel worked at IBM for 27 years and had 32 patents. If you have any knowledge about Marcel Vogel and what became of his papers and files after he died, please write to your editor at: joreed43@gmail.com. The USPA would like to make sure that all of his papers are preserved.

3. Henry Nagorka, USPA 1st Vice Pres., 1975 and 1976, and then President, of the USPA in 1977.

Missing Pages of a Book

The book, **Relationship Between Parapsychology and Gravity, Vol. 3 of Handbook of Unusual Energies, by J.G. Gallimore**, was published by Borderland Sciences in the 1970's, although the date of publication and copyright date were not noted in this book. The USPA has this book in its library, and plans to republish it for the Gallimore family, but unfortunately, pages 208 and 209 are missing from the printed book. It appears that this is a publisher printing error, because page 210 is printed on the back side of page 207. However, it is possible that pages 208 and 209 were missing from the manuscript when it was sent to Borderlands for publication. Or these pages of the manuscript may have been inadvertently lost by the publisher, or possibly they were intentionally removed by someone from the manuscript prior to publication.

Do any of you have a copy of this book, and if so, would you please check to see if it has pages 208 and 209? I have searched the WorldCat, which shows the books and monograph holdings of virtually every public and university library in the United States and Canada, and many of the large libraries in the UK and elsewhere in the world. But not a single library has this book in its collection. If by chance you have a copy, please let me know what you find by emailing the editor at: joreed43@gmail.com

Missing Periodicals:

- 1. British Journal of Radiesthesia and Radionics:** Does anyone have any issues of The British Journal of Radiesthesia and Radionics. It was published in London, England, by the British Radiesthesia Association, 1953-1963. The original title was **British Journal of Radiesthesia**, published from 1953-1957. No libraries in the United States, public or university, have this journal in their collection., and only five libraries elsewhere in the world are known to have any issues at all: The British Museum Library (AKA The British Library), Oxford, Cambridge, the National Library of Scotland, and Trinity College Library, in Dublin Ireland. If you have any issues of this periodical, will you please let me know? And for our members and associates in The UK and Ireland, if you can access these periodicals at any of the above libraries, you would do a huge service for all of us if you would Xerox what issues are available and send them to me. A generous donor has offered to pay whatever expenses are involved for doing this service. We will add them to the USPA Library and make them available to researchers. Please contact the editor at: joreed43@gmail.com
- 2. Journal of Scientific Controversy.** This periodical was referred to on [page 49 of the Vol. 1, No. 1 \(Spring, 1967\) issue of the INFO: The Journal of the International Fortean Organization](#). Someone was trying to find out about it even then, 49 years ago, and said that this journal was “formerly published in Boulder , Colorado” implying that it may have ceased publication prior to 1967, or that it moved somewhere else after being published for a period of time in Boulder. I have searched the WorldCat, which shows the periodical holdings of virtually every public and university library in the United States and Canada, and many of the large libraries in the UK and elsewhere overseas. But this title, or anything close to it does not exist in the WorldCat database, so that indicates that this

periodical title is not held in any library, even special collections, which are also included in WorldCat. However, this does not mean that the periodical does not exist, since many periodicals in the psychotronics , scientific anomalies and similar fields are excluded from libraries.

If any of you have ever heard of this periodical or know anything about it, such as its editor, publisher, or other information, please write to the editor at: joreed43@gmail.com

Missing Books:

Rhea White and Larissa Vilenskaya wrote a book titled **Parapsychology in the Soviet Union, Eastern Europe, and China: A Compendium of Information**. It was supposedly published by Scarecrow Press of Metuchen, NJ, a well know publisher of reference books. This book was listed as reference work #680 on [page 213 of Rhea White's book, Parapsychology: New Sources of Information, 1973-1989](#) , also published by Scarecrow Press. I called the publisher, and they said they have never published this book, and know nothing about it. As you can see from entry #680, Rhea White noted that this book was "in press", so it may have been in a preparation stage, but the manuscript may never have been sent to Scarecrow Press.

Again, I have searched the WorldCat, which shows books and monograph holdings of virtually every public and university library in the United States and Canada, and many of the large libraries in the UK and elsewhere in the world. But this book title does not exist in the WorldCat database, which indicates that this book is not held in any library, even special collections, which are also included in WorldCat. Unfortunately, I was unable to ask either of the authors about this, since both have passed away.

Rhea White was a well known parapsychology researcher, so some of you may have known her or heard her speak of the missing book manuscript that she was working on. Larissa Vilenskaya was from Russia, but lived and worked in the San Francisco area, and she was a prolific researcher on Russian and Eastern European psychotronics research. Please write to your editor at: joreed43@gmail.com if you have any information about this at all.

Patents Relating to Radionics and Dowsing

— 2017 update

Tony Scofield

(This article is modified from the original since the accessing of patents is now available from worldwide.espacenet.com/ rather than from the British Patent Office and the instructions on the site are clear and simple and no further explanation is therefore necessary here).

Since the Patent Office has gone on-line (www.ipo.gov.uk) patents are now available over the Internet. The earliest patents that are available will depend on the country but for Britain patents earlier than 1920, which was the cut off date at start up and at the time of the original publication of this file (2003), are now available. The files are best accessed through worldwide.espacenet.com/. The US Patent office is also on-line at patft.uspto.gov/. A number of patents from around the world are also available although not all are available as a full description. Some patents have 'equivalents' where they have been taken up in a number of countries.

Below is a list of ones I have located but locating relevant ones requires putting in the correct key-words and it is almost certain that there are others of interest that I have missed. I have generally only included those for which at least an English abstract is available and the titles of non-English texts are normally given in English. There are a number from Russia and the far east with no English translation available. Most refer to dowsing devices and ways to neutralise geopathic stress. If readers know of others then please let me know, as I will add them to the list. Letters to the office at Baerlein House over the years are testament to interest, particularly for researchers, in the patents available. It is quite clear that by far and away the most common area for patents related to our dowsing interests is prevention of geopathic stress by interference with 'earth rays' or grids.

To access the files go to worldwide.espacenet.com/ and use the quick search facility to obtain the patent either by typing in the number (including the GB or other prefix) or some key words.

Please notify me of any new patents that may be of interest to readers. amscofield@radionic.co.uk

Based on articles by Tony Scofield in the *Radionic Journal* 47(4) 32-35; 36-38 (2002), 48(4) 20-27 (2003) and 52(2) 20-21 (2007).

Inventor	Date	Title	Number	Description
----------	------	-------	--------	-------------

Pendulums and divining rods

Heber-Percy, J.R.	1912	A new or improved device for locating the presence of water, minerals and the like	GB191200979	A recording device is provided in conjunction with a divining rod for recording the amount of attraction or pull upon the same when in use
Schermuly, P.	1921	Improvements in apparatus of the divining-rod type for detecting the presence of subterranean substances and for like purposes	GB146840	Pendulum attached to sprung clip by a screwed rod in such a way that amplitude of oscillation can be measured
Schermuly, P.	1921	Improvements in apparatus of the divining-rod type for detecting the presence of subterranean substances and for like purposes	GB147052	Modification of above to measure also speed of rotation of pendulum
Schermuly, P.	1921	Improvements in or relating to apparatus of the divining-rod type	GB147186	A pendulum to contain a witness in interior cavity
Schermuly, P.	1922	Procédé et appareil du genre de la baguette des sourciers pour indiquer la présence de l'eau, des minéraux, du charbon, de l'huile minérale, ainsi que pour étudier les substances parémanation	FR534054	Essentially the three GB patents above in one
Chaumery, L., J. & M. & de Bélizal, A., M. & P.	1937	Procédé et appareillage radiesthésiques	FR816132	A novel pendulum with natural magnetic poles for use in a radiesthetic procedure based on terrestrial magnetism
Baton, E.	1952	Perfectionnements apportés aux pendules radiesthésiques	FR1006125	A complex spherical pendulum
Auscher, J & Auscher, S.	1956	Perfectionnement au mode de suspension d'une masse ou d'un pendule	FR1152637	Method of suspending pendulum by its cord
Borgni, J.	1980	Pendulums for radiesthesia or water divining	GB1573007 (Also FR2592961; 1987)	Pendulum with tuned electronic detector circuit incorporated

De Marly, F.	1985	Pendentif radiesthésique	FR2566243	Pendulum with amplifying properties conferred by a geometrical pattern
Kruhler, W.	1985	Divining rod	GB2159856	One-handed adjustable divining rod
Roth, J.	1985	Pendulum for radiesthetic purposes	DE3339818	Bob pendulum with a storage cap with clip (like a pen cap)
Lembeye, C.	1986	Pendulum emitting energy fluxes having the properties to cure certain cancers and other illnesses	FR2572290	A device which has the property of transmitting, under certain conditions, sixty-six energy fluxes.
Xulomenos, D.	1986	Improved horizontal metallic dowsing instruments	GR861456	Balanced telescopic dowsing rod (Application in Greek)
Jaeger, H-E	1989	Divining rod with sensitivity control	DE3806435	Angle rods with moveable sleeve on the horizontal arms to alter sensitivity
Curchod, J. Progam, S.A.	1991	Dowsing pendulum equipment - suspends cylindrical pendula with wt. attached in different position on each so that they have different periods of oscillation	CH678573	The equipment includes twelve pendula. The respective oscillation periods of each pendulum follows a curve in the shape of a spiral. Claimed to provide ultra-sensitive detection of very weak magnetic fields.
Schneider, R.	1991	Antenna for use as divining rod or for scientific investigation – has separate conductors in resonator circuit dimensioned to match transmission chamber characteristic impedance	DE4011344	Similar to the Lecher antenna i.e. two arms held by the hands with a sliding scale along which a cursor moves as a dowsing reaction occurs
Fazzi, G.	1992	Test device determining sensitivity to radiation	DE4116941	Has metal tube with handle containing extractable spring element in form of wire with non-magnetic ballast weight to act as pendulum
Wehren, R.	1995	Pendule radiesthésique équipé d'une diode laser	FR2711536	Electronic pendulum with a diode, for amplification of reaction
Kramer, F.	1995	Test instrument for divining	DE4341366	An adjustable and calibrated dowser's wand

Keding, C.R.	1996	Divining-rod for detecting geobiological stimuli	DE4423279	Two forked arms connected by electrical conductors which can slide relative to the fork arms. Latter may be connected to voltage source
Gruenau, D.	1996	Deflection measuring device for divining rod	DE19517828	Device that measures swing of rod along its path and can record to computer via an electrical circuit or can utilise a GPS receiver.
Budei, C.L. Budei, B.C,	1998	Dowsing rod	RO113710	The rod has two sharp ends positioned on the same axis, which are connected by means of two uneven arms so that the distance (a) between a longitudinal axis and the surface of a bevel protractor is minimal.
Gerber, R.	1999	Baguette de sourcier a ondes de formes modulables	FR2774177	Device emits divining waves and when there is synchronisation with object being investigated a needle on the divining stick rotates on couplings
Porombka, M. Porombka, E.	2001	Pendulum for e.g. underground mineral prospecting, has intermediate link to which an upright holder connected to pendulum mass, and two slant holders connected to grips, are fastened	DE110019364	As in title
Mirabeau, C.	2004	Universal pendulum for use in archaeology, meteorology and alternative therapies, comprises central axis with selector arm, two half spheres, graduated crown to receive spheres and supporting arch	FR2846102	As in title
Gunter, G.	2005	Tensor to be used in radionics, made of fiber glass or carbon fibers with wooden handle	DE 202005000519	Design for a single-handed dowsing rod

Bloemer, J.	2006	Divining rod for therapeutic applications, has cylindrical wooden handle with borehole in centre and into which brass sleeve is inserted, and helical compression spring inserted in sleeve, where rod utilizes high-quality materials	DE202005015433U	As in title
Bucher, J.L.M.	2006	Divining fork for geobiological field, has inner cylinder mounted in direction such that anti-clockwise or clockwise polarization of emitted waveforms is selected and angular position of cylinder permits to select wavelength of waveforms	FR2878039	Details as in title
Hirai, H.	2007	Electronic dowsing system	JP2007307321 (Japanese)	Pendulum linked to light receiver and computer
Borer, H.P.	2010	Pendulum for use as compass for dowsing static electric, electromagnetic and geomagnetic waves or charges, comprises overhead wire made of copper along with common pendulum made of common metal	CH699417	As in title
Ganzhorn, K.E.	2010	Dowsing effect obtaining device, has ultrasound oscillator and ultrasound generator for breaking molecular structure of substance, where device is movable/conductible by movement unit e.g. carriage	DE 102008048867	As in title
Ramirez, J.R.	2010	Apparatus for detecting natural resources, natural assets, and detection method	MX2008015092	Modified (hollow) dowsing rods into which a witness can be inserted
Kuniaki Takamatsu, Y., Nariko Ohara, N. & Taisuke Zen, N.	2015	Weight of dowsing pendulum	US D721,601 S	Ornamental design for a weight of a dowsing pendulum

Methodology

Turenne, L.	1931	Procedure to determine the presence of certain substances in the ground and elsewhere and to study their properties	FR704353	Dowsing method to detect waves emitted by bodies
Turenne, L.	1933	Measuring apparatus for the determination of waves emitted by substances	FR748563	A calibrated rule and black box for the substance
Turenne, L.	1933	1st addition to FR704353	FR 41448	Box to contain substance to be dowsed
Turenne, L.	1933	2nd addition to FR704353	FR42464	Further sophistication of the dowsing method
Turenne, L.	1935	3rd addition to FR704353	FR45540	Further sophistication of the dowsing method
Turenne, L.C.C.	1947	Use of novel magnetic rays in the construction of measuring apparati	FR921625	Special pendulum and the means of detecting the rays Turenne has identified
Bon, M.	1950	Radiesthetic method based on novel carrier for witnesses	FR959265	Essentially a novel witness carrier
Vanson, R.	1950	Apparatus to find the unknown position of an individual	FR969581	Radiesthetic method using essentially a triangulation procedure
Vanson, R. & Calu, J.	1951	Particle selector	FR971642	Device for selecting particles from the atmosphere. Could be used in making of homeopathic remedies
Vanson, R. & Calu, J.	1953	Particle selector	FR58443	1st addition to authors' 1951 patent FR971642
Ludwig-Bärtels, G.	1984	Harmful substance detector	DE3228677	Uses spiral antennae to assess tolerance of operator to substances
Angermann, T.	1987	Radiation-measuring device employing the principle of a divining rod	DE3600505	Device to measure electric, magnetic and em fields and other unusual rays (e.g. earth rays giving rise to geopathic stress)
Decaix, R. & Labroille, C.	1995	Device for measuring the Vibrant Energies emitted by matter	FR2710745	Graduated plate onto which 'wave generators' are placed. Dowsing required.
Ramos, F.F.	1995	Hopper for treating liquids with non-ionizing radiations	ES2071545	Spiral arrangement in hopper to affect flow of water during the treatment process

Wehrlen, R.	1995	Dispositif d'émission photonique coloré adaptable sur tous les instruments sensitifs radiesthésiques	FR2716115	Simple switching system to light coloured lamps or LEDs to be used in vibratory radiesthesia
Matthaei, H.	2001	Method for producing and measuring informative life energy units, copy thereof on a substrate, verification and uses thereof	WO0104625	Method of measuring informative life energy units (radiesthetically or physically) and transfer to a substrate such as water
Callegari, G.	2010	Device for performing analyses, searches and experiments on organic and inorganic physical entities using their electromagnetic field	WO2010/058436	Uses oscillating circuits to generate a 'radionic' em field to achieve aims in the title

Radionic Instrumentation

Boyd, W.E.	1923	Instrument for detecting and investigating emanations proceeding from substances	GB198018	The Emanometer, a modification of Abrams system
Hoffman, S.O.	1923	Circuit-controlling device	US1445951	The circuit breaker for Abrams' Oscilloclast
Boyd, W.E.	1925	Apparatus for detecting and investigating emanations	GB235926	Modification of 198,018 involving incorporation of a variable condenser
Boyd, W.E.	1925	Improvements in the detection and investigation of emanations	GB239457	Improvements on GB198018 by metallic screening
Holzheimer, A.	1927	Device for testing the radiations emanating from organisms	GB272023	Box into which witness is placed and can be joined to various painted cells in other part of box. Tests to determine requirements of witness done by dowsing as different connections are made.
Whiting, A.	1927	Disease diagnosis machine	CA272476	Electronic method of diagnosis and treatment of disease
Whiting, A.	1929	Improvements in or relating to apparatus for use in the diagnosis and treatment of disease	GB231539	As the 1927 patent but in much more detail.

Lemonnier, H.-E.	1933	Produit formant double artificiel d'un corps pour l'émission des radiations de ce corps et applications diverses de ce produit	FR753090	A device for capturing and copying waves for radiesthetic use
Drown, R.	1939	Method of and means for obtaining photographic images of living and other objects	GB515866	The Drown radionic camera
Atkinson, D.W.	1949	A new or improved apparatus for use in the study and practice of radiesthesia	GB626396	A device utilising a light beam projected via a prism onto a ruled surface. Blood on a slide, when placed between light source and prism alters the position of the projected spectrum and may give useful medical information. May be used in conjunction with other apparatus currently used in radiesthesia.
Hieronimus, T.G.	1949	Detection of emanations from materials and measurement of the volumes thereof	US2482773 GB663978 (1952; Slightly shorter version)	A tuneable electronic device for detecting chemical elements which relies on a stick pad to determine correct settings
De la Warr, G.W.	1955	Perfectionnements à la recherche d'une radiation fondamentale	FR1084318	Delawarr radionic camera
De la Warr, G.W.	1955	Therapeutic apparatus	GB741651	The Colorscope

Panaiteescu, V.	2012	Human body detoxification method named VIP	RO127928	Textile sleeves with at least 4 energy collectors attached to both wrists and feet in salt water. Dowsing used to determine final details of structure
Baines, J.	2013	Fluid transformation method and apparatus using a tachyon beam	GB2499254	A mainly copper ovoid container positioned by dowsing in a tachyon beam to treat water for healing purposes

Bio-Electrical Reactions to Color, Sound, and Frequency Waves... The Components of a Closed System

Gene Chamberlain

Nothing exists in physical reality that has not first existed in the mind as an idea, a thought form, a fear, or an experience. If the mind and the body are an electrical system, then through modern electronics can we not tune the physical world to be more desirable? Perhaps then we can tune the electrical system of the body to be more receptive to conscious direction from the mind; to take creations in the mind and make them real.

I am going to share with you some experiences and techniques that hopefully you can use in your own work to improve guided visualization results, and even achieve the abatement of disease symptoms.

Dr. Jonas Salk said that the mind, in addition to medicine, has the power to turn the immune system around to defend the body against disease or illness. We all know someone who worries about being sick — and every time you turn around there they are, sick again. Don't you also know people who *never* get sick because they don't have time for it?

Regressive Hypnosis

I have been doing hypnotic regressions for over ten years and many times have seen physical changes in the body as a result of the subject's visualization exercises in conjunction with remembered experiences. A young girl I worked with broke out in hives and sneezed every time she got close to horses. Her remembered experience was being trampled to death by horses on a dusty track, while big flies were biting her. Once she had related the details of this experience she released the control it had over her and she no longer broke out in hives around horses.

To relive is to relieve is an old adage from Freudian psychology. Once the subject recognizes the relationship between the experience and the pattern, they can release the control that experience has over them.

Usually the subject learned to get the results they wanted, but there were times when they did not. This has been the situation with both physical goals of the subject and non-physical goals. The state of hypnosis, or if you prefer, the depth of relaxation, has a definite effect on the results. A deep state is not required to obtain results but

it won't work if the subject is thinking about financial or domestic problems while they are trying to learn to apply self hypnosis and controlled visualization. The subject is always in control at whatever level, even though the facilitator continues to direct the consciousness of the subject.

I had used a cassette recorder to preserve the details of a regression until one time, right in the middle of a heavy traumatic experience, a woman stopped talking about her experience and asked me to turn the recorder off. I did so and she went back to crying and talking about her experience as though there had been no interruption. I have had subjects sit up in the middle of a good regression and clearly state that they did not want to do that anymore.

One subject came to me with neck pains where no medical cause could be found. He went back to an experience where he had been hanged. I guided him up to his gallows three times before he would complete his hanging so that he could release that experience.

Body-Mind Relationships

Traditional science is accepting more and more the relationship between what we believe and the physical state or health of the human body. This is evidenced quite frequently in magazine and newspaper articles and other media presentations. *TIME* magazine has carried articles on Carl Simonton's work with terminal cancer patients using guided imagery. The *Smithsonian* recently had a story on the way thought affects the brain cells.

My first experience with the body mind relationship was in 1977 while I was working with a subject who wanted to learn to relax. I was going over some visualization exercises with him and he could not sit still very long because he kept scratching his left ankle. When I asked him about it he said he had psoriasis there. As part of the visualization I suggested that he visualize his right ankle, where the skin was clear and smooth. When he could see it clearly in his mind's eye, I suggested that he visualize his left ankle, where the psoriasis was. When he could see that, I suggested he perceive the left ankle change until it was clear and smooth like the right one. The process was slow and clumsy, but it worked; and we both learned from it. Since

then I have developed straightforward procedures that work well with a variety of symptoms. These manifest in patterns that range from nightmares to physical handicaps.

The depth a subject can readily reach is determined by many factors: how easily they can relax, level of maturity and understanding, trust, suggestibility, and many more. A subject might relax easily and follow the visualization in a predictable manner but when traumatic experiences are remembered, lose their concentration. Most of the time I would notice the change and take appropriate action, but sometimes I would not. I needed a better way to determine the state of the subject. Something that would arouse my attention even if I was concentrating deeply with the subject.

Arm raising and testing for pain had long since gone out of style as a methods of testing. Watching the breathing and facial expressions usually worked: however, because they are under the subject's conscious control, they are not always conclusive. Bio-feedback devices such as GSR meters and brainwave monitors are helpful, but for some reason I was not able to measure the effect certain traumatic experiences were having on the body. Something was still missing — a factor I could not identify.

Father Ober helped fill in that missing factor for me at the USPA Conference in Dayton in 1988 when he presented his paper on the development of the Electro-Psycho-Meter. He was doing a lot of the same things I was doing with visualization techniques but he had a more reliable electronic device to measure a subject's emotional reactions. The factor I was missing, with the other biofeedback devices I was using, was the monitoring of involuntary muscle reactions.

To include an indicator of involuntary muscle reactions in my work, I dug out a plant monitor I had been building to measure changes in the electrical properties of a plant according to how the plant felt. I have a computer with a voice synthesizer and wanted to have my plants talk to me and tell me they needed water; or maybe I could get them to recognize me and other members of the household. I was using a diagram from the book *How to Build a Lie Detector, Brain Wave Monitor & Other Secret Parapsychological Electronics Devices*, by Mike & Ruth Wolverton, published by Tab Books, Inc.

I have since added several components to this circuitry to allow more control with different subjects and connections. It is basically a Whetstone bridge circuit built around an op-amp. I use a short piece of PVC pipe with copper wire wrapped around it for an electrode. The subject holds this electrode in one hand. I have used this body monitor with subjects who were concurrently connected to a GSR device, one that is available from a national electronics chain. Using verbiage that would prompt a predictable reaction, the body monitor showed responses that the GSR did not. The GSR was tested connected to several various parts of the body and showed the same results.

Sheri Edwards' presentation at the 1988 Conference aroused my interest in the effects that color and sound have on human emotions. I had been aware of these effects through books, experiments and other lectures, but was not currently using sound or color in my work.

Using the body monitor to measure the reactions, I then used my computer to generate tones for a subject. I varied these tones, one cycle at a time, until the subject found the one that was felt to be most pleasant. They also determined the one that annoyed them most. I verified the subject's indications with the body monitor responses.

I used another channel of the computer to generate a second tone three cycles higher than the first tone. This provided a beating effect, much the same as two lawn mowers running at about the same speed. I then varied this beat between one and ten cycles and found the one the subject liked best. If the subject did not prefer any of them then I left it at three cycles.

Again, using the body monitor to measure the responses, I set out to verify the effects colors have on a subject's emotions. Using verbiage selected to prompt predictable responses, the responses were quicker with some colors than with others. With subjects used so far, orange and yellow cause quicker responses than blue and indigo. Other studies have shown if you use an energy color — such as orange — body reactions will be faster than with a relaxing color like blue.

I filled the subjects visual awareness with different colors in several ways. The best way with one subject was to use gel filters on a slide projector. The color was projected on beaded movie screen and all the other lights turned out. The easiest way I found for several subjects was to use colored poster paper held up close to the subject's face so they can not see anything else. I have also used a slide projector with the lens modified with a quartz crystal, directing the subject to stare at the crystal. I have not made studies to see if any one method is more effective than another.

I then used the tone and colored light together on subjects I had worked with previously. There was a marked improvement in both the relaxation level of the subject and the results achieved. Subjects who had not achieved complete success at previous sessions did so with the tones and colors. If the subject had selected a beat frequency, and that beat was used during a regression, the subject relaxed easier. Other benefits of the beat frequency are still being studied.

Frequency Devices

After hearing and reading so much about Raymond Royal Rife's work with his microscope and diseases, I started using a Rife-type frequency device. The results were so interesting that I dug into the book *The Body Electric*, by Robert Becker and Gary Seldon, to gain a better understanding of the bio-electric nature of the body and electrical currents in living things.

With this awareness, I went back to the drawing board and came up with an amplifier and inductor system that I use to apply the same tones researched earlier for relaxation as a voltage to the subject. The subject hears and feels the same tone — not very loud and not very strong — just enough for the proper effects.

To connect the voltage to the body I used stainless steel plates, available from a local sheet metal supplier. I also made some pads from the black conductive foam used to protect electronic components from static electricity. Except when desirable to connect directly to a particular muscle, best results were obtained by resting the subject's feet on the pads. A damp paper towel aids conductivity.

Previously I used relaxing music or meditation tapes for background, mostly to cover up any distractions such as noisy cars going by, dogs barking, or the phone ringing in the other room. Now I use the particular tone that suits the subject and get quicker and deeper relaxation. By using the tones and frequency devices I have shortened the time required for each session and although it's hard to say for sure, I believe that subjects with patterns that would require 2 or 3 sessions without the tones are now achieving success with just one session. I use the body monitor to adjust the tone frequency while I talk to the subject about the area of their life they want to address. I try not to talk about problems. Talking about the pattern a subject wants to work on while adjusting the tones has an overall tuning effect that makes visualization more effective.

When the tone has been adjusted to be the most pleasing for the subject, a very common form of guided visualization is used to allow the subject to release their physical awareness and slide into communication with the subconscious. The subject is then directed to go to an earlier experience, another time and place, that relates to the area of their life they want to address. It never ceases to amaze me how easily people will come up with an experience that relates.

I have worked with weight loss as much as, or more than, anything else. When a person comes to me after going through several programs, several diets and sometimes even several doctors, I look for a deeper tie with their eating habits or physical appearance. One of the first clues is that they are continually trying something new. It works for a while, they lose weight and then they gain it back. Usually the same method of weight control won't work all the time.

The true source of the recall has never been important to my work. The fact that there is a remembered experience that the subject allows to control some facet of their life is what needs to be addressed. The source can be a combination of books, TV and real life situations. It could be from a past life, also. The important thing is that once the subject accepts the relationship between the past remembered experience and their behavior pattern they can release the control that experience has on their life.

Components of a Closed System

Bio-electrical monitoring and control between man and machines is established technology with current state of the art devices available from a number of sources. Many books and magazines have construction details to launch the experimenter into some useful and enlightening projects. The next step from my current work is a closed system where a computer monitors the physical and emotional state of a subject and varies the tone and voltage according to the responses of the subject.

If an experimenter was working with the specific frequencies and wave forms to abate distinct disease symptoms — and the subject was consciously directing the tones, color and voltages toward these symptoms — the computer could monitor and adjust swiftly and effectively to apply exactly the correct combination of modalities to abate these symptoms.

I hope some part of what I have been talking about you can take with you and use in your own work. A lot of you are better equipped than I am to connect devices like these together into a closed system. Build on this work; expand. Direct the creations of the mind and make them real.

Abstracts of Important Articles and Papers

Below are some abstracts of important papers related to psychotronics subjects found in the academic and professional literature. Many of these articles are still under copyright restrictions, but if you are interested in any of these articles, please write to the editor, John Reed, (joreed43@gmail.com) and he will assist you in getting a copy. Also, please remember that one of the benefits of USPA membership is your right to use the USPA Literature Research Service, whereby we will find any article, book, or other item you are seeking on any psychotronics related subject and provide it to you, if at all possible.

**Liboff, Araham R., “A Human Source for ELF Magnetic Perturbations”
Electromagnetic Biology and Medicine , Volume 35, Issue 4 (2016), pp. 337-342**

Abstract:

Current models that frame consciousness in terms of electromagnetic field theory carry implications that have yet to be fully explored. Endogenous weak extremely low frequency (ELF) magnetic fields are generated by ionic charge flow in axons, dendrites and synaptic transmitters. Because neural tissues are transparent to such fields, these provide the basis for the globally unifying qualities required to properly describe consciousness as a field. At the same time, however, an electromagnetic approach predicts partial transmission of this 1–100 nT field, suggesting external interactions similar to the various ELF magnetic perturbations that are linked to homeostatic and endocrine-related physiological effects. It follows that humans may represent an additional, previously unrecognized source of weak (1–10 nT) ambient ELF magnetic fields.

Montagnier L, Aïssa J, Ferris S, Montagnier JL, Lavallée C. “Electromagnetic signals are produced by aqueous nanostructures derived from bacterial DNA sequences.” *Interdisciplinary Science*. 2009 Jun;1(2):81-90

Abstract:

A novel property of DNA is described: the capacity of some bacterial DNA sequences to induce electromagnetic waves at high aqueous dilutions. It appears to be a resonance phenomenon triggered by the ambient electromagnetic background of very low frequency waves. The genomic DNA of most pathogenic bacteria contains sequences which are able to generate such signals. This opens the way to the development of highly sensitive detection system for chronic bacterial infections in human and animal diseases.

Hammerschlag, Richard, Benjamin L. Marx, and Mikel Aickin, “Nontouch Biofield Therapy: A Systematic Review of Human Randomized Controlled Trials Reporting Use of Only Nonphysical Contact Treatment”. The Journal of Alternative and Complementary Medicine. December 2014, 20(12): 881-892.

Abstract:

Objective and Context: This review was designed to assess the quality and review the outcomes of randomized controlled trials (RCTs) of biofield therapies (external qigong, Healing Touch, Johrei, Reiki, and Therapeutic Touch) that report using only nonphysical touch forms of treatment. RCTs of nonphysical contact biofield therapies have the potential to contribute to an evidence base for health promoting effects mediated through mechanisms outside the present understanding of biomedicine.

Methods: Articles meeting inclusion criteria were identified from database and reference list searches and evaluated for a range of reporting and design items. Data were extracted to determine the range of protocol parameters and treatment outcomes. The final set of included RCTs were evaluated via a modified 5 item Jadad scale as well as by a set of 20 criteria that included items relevant to the early phase nature of the trials and to the examination of nonphysical touch biofield therapy interventions.

Results: Of 90 RCTs that assessed effectiveness of a biofield therapy in humans, 28 trials involving 1775 participants met additional inclusion criteria (most importantly a clearly reported use of only nonphysical contact treatment). The research designs of these 28 trials revealed marked heterogeneity in regard to condition treated, number and duration of treatments, nature of the control/comparison group, and outcome measures. Finally, 10 trials were excluded on the basis of low quality assessment scores. Twelve of the remaining 18 trials (7 Therapeutic Touch, 3 external qigong, 1 Reiki, and 1 Healing Touch) reported at least one primary outcome with statistically significant beneficial treatment outcomes.

Conclusions: The pilot study nature of essentially all the identified nonphysical contact biofield therapy RCTs, as reflected by low sample sizes alone, precludes drawing robust conclusions. Given this perspective, the finding that two thirds of the higherscoring trials demonstrated at least partial effectiveness favors a continued research effort, especially in light of the translational value of biofield clinical trials for studies exploring the nature and physiologic basis of biofield healing.

Medicine Beyond: Startling New Dimensions Of Health and Healing For The Future

By Keith Scott-Mumby, M.D., Ph.D.

Paperback: 548 pages

Publisher: Mother Whale, Inc; 1 edition (May 8, 2015)

Language: English

ISBN-10: 0988419688

ISBN-13: 978-0988419681

Product Dimensions: 6 x 1.2 x 9 inches

Shipping Weight: 2 pounds ([View shipping rates and policies](#))

[Available at Amazon.com](#)

This is a wonderful book that discusses in depth all of the topics and subjects that psychotronics deals with and more. Having 548 pages and 27 chapters, this book is one of the most comprehensive and well written books that have been written on these subjects. Just to give you a flavor of what is in this book, consider just some of the topics discussed in the

first ten chapters, whose titles are below, each of which has several sections, but only a few of the interesting subjects discussed are shown below:

Chapter 1: The Wild West of Science: Discusses how mainstream science has in many ways become junk science;

Chapter 2: The Electric Universe: Shows how the model of the electric universe is a far better model than that of the Big Bang Theory;

Chapter 3: Strange Goings On: Sections on Bioluminescence, Electrical Biology, Body Radiation Emanations, and Electrical Hypersensitivity;

Chapter 4: Information Rules: Discusses Information Fields, Morphogenetic Fields, Radio DNA, the recent work of Nobelist Dr. Luc Montagnier on these exciting subjects;

Chapter 5. Top-Down Creation: Sections on Where Consciousness Fits In, Downwards Causality, Consciousness Rules, and Shamanism;

Chapter 6: A World of Structure Unseen: Sections on Retrocausality, Telekinesis, Bohm's Bombshell, and Time Can Be Created;

Chapter 7: The Body Electric: Sections on The Electric Cancer Model, Georges Lakhovsky, The Priore Affair, Robert O. Becker, and Crystal Memory'

Chapter 8: The Three Proofs - Cyclotron Resonance: Discusses George De La Warr and his research on radionics, plu sections on Biological Resonance, Oscillometer **Broadcasts, and Healing Frequencies;**

Chapter 9: The Three Proofs – Homeopathy: Sections on Memory of Water, Beating the Dreaded Brain Tumor, Radio Belladonna, and other subjects related to homeopathy and how it works energetically;

Chapter 10: The Three Proofs – Digital Substances: Sections on Signature Oscillations, Digital Treatments, and Royal Raymond Rife, and his research in the 1930's.

These are just the titles of the first ten chapters of this book, with a sampling of some of the many subjects discussed in each. There are, however, 17 more chapters packed with information and the latest research on the subjects discussed. Full chapter descriptions and contents are available on Amazon.

PEMF – The Fifth Element of Health: Learn Why Pulsed Electromagnetic Field (PEMF) Therapy Supercharges Your Health Like Nothing Else

By Bryant A. Meyers

Paperback

Publisher: BalboaPress (September 3, 2013)

ASIN: B00N4JMXTK

[Available at Amazon.com](http://www.amazon.com)

You probably know that food, water, sunlight, and oxygen are required for life, but, according to the author, there is a fifth element of health that is equally vital and often overlooked: The Earth's magnetic field and its corresponding PEMFs (pulsed electromagnetic fields). The two main components of Earth's PEMFs, the Schumann and Geomagnetic frequencies, are so essential that NASA and the Russian space program equip their spacecrafts with devices that replicate these frequencies. These frequencies are absolutely necessary for the human body's circadian rhythms, energy production, and even keeping the body free from pain. But there is a big problem on planet earth right now, rather, a twofold problem, as to why we are no longer getting these life-nurturing energies of the earth. In this book we'll explore the current problem and how the new science of PEMF therapy (a branch of energy medicine), based on modern quantum field theory, is the solution to this problem, with the many benefits listed below:

- eliminate pain and inflammation naturally
- get deep, rejuvenating sleep
- increase your energy and vitality
- feel younger, stronger, and more flexible
- keep your bones strong and healthy
- help your body with healing and regeneration
- improve circulation and heart health
- plus many more benefits

Radionics & the Subtle Anatomy of Man

by David V. Tansley, DC

Paperback: 95 pages

Publisher: Health Science Press (January 1, 1996)

Language: English

ISBN-10: 0850320895

ISBN-13: 978-0850320893

Product Dimensions: 5.1 x 0.3 x 8.4 inches

[Available here at Amazon.com](https://www.amazon.com/dp/0850320895)

Radionics is a method of diagnosis and therapy which is primarily concerned with the use of subtle force fields and energies, for the purpose of investigating and combating the causes of disease. This book aims to redress the balance, providing an outline of the anatomy of man.

Radionics Interface with the Ether Fields

by David V. Tansley, DC

Paperback: 136 pages

Publisher: Random House UK (January 1, 1996)

Language: English

ISBN-10: 0850321298

ISBN-13: 978-0850321296

Product Dimensions: 5.3 x 0.4 x 8.5 inches

[Available here at Amazon.com](https://www.amazon.com/dp/0850321298)

This book explores the interface that exists between the human energy field and the Universal Field of energy in which we live, also known as the Ether Field. It shows how these fields can be used for distant diagnosis and treatment. Radionics is a healing art that links the physical world with the unseen worlds lying beyond the physical senses. The theory and practical

application of these concepts is fully covered in this this book, which is the companion to ***Radionics & the Subtle Anatomy of Man***.

USPA Generous Donor Recognition Page

The USPA would like to give special recognition on a continuing basis to people making generous donations to the United States Psychotronics Association. To do this, we are creating this special “USPA Generous Donors Recognition Page” that will be carried in each issue of the **USPA Journal & Newsletter**, beginning with the December, 2016, issue and going forward. New names will be added as other generous donations are received.

**We wish to recognize the following individuals for their generosity:
(in alphabetical order)**

Mary Hardy

Michael Leger, ([Homeodynamics, LLC](#))

John H. Reed

Arnold Reinhold

Eric Rowley

The USP wishes to extend our thanks and gratitude for their generosity.

To make a tax deductibe donation to the United States Psychotronics Association (USPA) online, please go to the [USPA home page and scroll down to the “Donations” tab](#), where you can make a donation using your credit or debit card. **For those who wish to make a donation by check**, please make your check payable to USPA and mail it to the **USPA treasurer, Scott Beutlich, 525 Juanita Vista, Crystal Lake, IL 60014.**

USPA Periodicals Library Update

In order to do good psychotronics research of any kind, whether it involves radionics, radiesthesia, psionic medicine, dowsing, subtle energies, biophotons, or any other subject covered by psychotronics, one needs access to as much of the periodical literature as possible on these subjects.

To address this issue, the United States Psychotronics Association has resolved to identify and acquire every psychotronics related periodical that has ever been published anywhere in the world, and to retain copies in the USPA Library.

As a first step, we have developed the following list of periodicals that focused on or frequently had articles on psychotronics related subjects. But this is only a preliminary list, and we know that there are probably more psychotronics periodicals that have been published, but that we do not yet know about.

So please look over the following list and check your own personal physical libraries and your computers to see if you have any issues of the periodicals on this list. Even if you just have one issue, please let us know, because that may be the one we need to complete all the issues of a particular periodical. **Please write to me (John) at: joreed43@gmail.com, since I am the USPA librarian and archivist coordinating this effort,** and tell me what periodicals you have.

As a whole, the members of USPA have a huge “library” of periodicals, but it just happens to be “distributed” among its members at this point in time. However, we can work together, and if you would be willing to loan, donate, xerox, or as a last resort, sell copies of your periodicals for the USPA Library, then we will be able to build a large centralized library of all psychotronics periodicals. And all USPA members will then be able to use these periodicals in their research or for their reading enjoyment.

American Journal of Electromedicine: Daniel Kirsch Ph.D., developer of Alpha-Stim Craniotherapy Electrical Stimulation (CES) was the first editor; **The USPA Library needs all issues.**

American Radio Therapy Society Journal: This was a periodical published in Hollywood, California, by the American Radio Therapy Society, which had been founded by Dr. Ruth Drown in 1949. This periodical began with vol. 1, no. 1 in June, 1949, and continued to be published for a period of time. However, it is not known when it ceased publication or how many issues were published, but presumably it ceased sometime before Dr. Drown's death in 1963. This journal focused on radionics psychotronics subjects, and had no interest in ionizing radiation therapies, such as x-ray therapy, which were also known as "radio therapy" at that time. The only library in the world that has copies of this periodical is the National Library of Medicine in Bethesda, Maryland. **The USPA Library needs all issues of this periodical.**

BEMI Currents: BEMI Currents was a quarterly journal published by the Bio-Electro-Magnetics Institute in Reno, Nevada, from 1989-1993. The editor was Dr. John Zimmerman. This journal began with vol. 1, no. 1 (Spring, 1989) and continued through Vol. 3, no. 4 (March, 1993), after which it ceased publication. **A total of 12 issues were published, and the USPA Library has all 12 issues in its collection.**

Bioeffects Newsletter: This was a periodical that was published by the "Physiology Program", Office of Naval Research, in Arlington, Virginia, and focused on the biological effects of electromagnetic fields. It probably began sometime in the 1977, because it is known that Issue #5 was dated April, 1978. The Bioeffects Newsletter is believed to have ceased publication when the Bioelectromagnetics Society (BEMS) was formed in 1978, because it was edited by Thomas Rozzell, who served as the editor of the BEMS Newsletter for the Bioelectromagnetics Society. This periodical is not found in any library of the world, but is undoubtedly in a number of private collections. **The USPA Library needs all issues of this periodical.**

Bioelectric Medicine: Journal founded in 2014, Kevin Tracey, M.D., President of the Feinstein Institute for Medical Research, which has established a Center for Bioelectronic Medicine; **The USPA Library needs all issues.**

BioElectroMagnetics: Published by John Wiley and Sons from Vol. 1, No. 1 (1980) to present. We need all issues. All articles are freely available online at Johns Hopkins, back to 1980; **The USPA Library needs all issues.**

Bridges: This was the newsmagazine of the International Society for the Study of Subtle Energies & Energy Medicine (ISSSEEM) from 1990 through the present. **The USPA Library has a complete set of this periodical from vol. 1, no 1 (Spring, 1990) through the present.**

British Journal of Radiesthesia and Radionics. Published by the British Radiesthesia Association, 1953-1963. The original title was British Journal of Radiesthesia. **The USPA Library needs all issues.**

DeLaWarr Laboratories Newsletter: published by George and Marjorie DeLaWarr, and later their daughter Diana Di Pinto, from 1964-1986. **The USPA Library has a complete set of these, unless you know of any issues published after 1986.**

Dowsing Today: The journal of the British Society of Dowsters, published from 2000 to the present. Original title was Radio Perception, which began in 1933. **The USPA Library needs all issues.**

Electro and Magnetobiology: Published by Taylor and Francis from 1993-2002. Title was changed to Electromagnetic Biology and Medicine. **The USPA Library needs all issues.**

Electromagnetic Biology and Medicine: Published by Taylor and Francis from 2003-present. Former editor, Dr. Abe Liboff; **The USPA Library needs all issues.**

Electronic Medical Digest: published 1946 to about 1955, also by Fred J. Hart and the College of Electronic Medicine. **The USPA Library needs all issues.**

Extension Bulletin, Electronic Medical Foundation: This was a series of bulletins published by the Electronic Medical Foundation of San Francisco, beginning in 1950. Thomas Colson was the editor, and at least three issues were published. It is not known if additional issues were published. **The USPA Library needs all issues.**

Journal of Bioelectricity: Published by Taylor and Francis from 1982-1992. Title was changed to Electro and Magnetobiology. **The USPA Library needs all issues.**

Journal of Electroceutical Medicine: founded by Richard Markoll, MD, PhD, Port d'Andratx (Majorca), Balearic Islands, Spain; **The USPA Library needs all issues.**

Journal of Electronic Medicine: This was a continuation of Physico-Clinical Medicine, and ran from 1939-1945, published by Fred J. Hart and the College of Electronic Medicine. **The USPA Library needs all issues.**

Journal of Paraphysics/International Journal of Paraphysics: Benson Herbert started his Paraphysical Laboratory in Downton, Wiltshire, England and began publishing the Journal of Paraphysics with vol.1, no.1 in 1967, and the name was later changed to International Journal of Paraphysics . Herbert published the Journal from 1967 until around 1989, with the last volume being vol. 23 in that year. Since the Journal and Lab were mostly the project of Herbert, they fell apart as his health failed and have become defunct. **The USPA Library needs all issues of this periodical.**

Journal of the American Electronic Research Association: Vol 1, No. 1 (January, 1924) through Vol. 13, No. ??? (1936), when it ceased publication; The USPA Library needs all issues.

Journal of the British Society of Dowsters: Published by the British Society of Dowsters from 1956-2000. Prior title was **Radio Perception**. Succeeding title: **Dowsing Today**. **The USPA Library needs all issues.**

Journal of the United States Psychotronics Association. Published by the United States Psychotronics Association. Only six issues were published, and **the USPA Library has a complete set.**

Little Farm Journal: This periodical was published by Lutie Larsen and Little Farm Research in Pleasant Grove, Utah, and focused on agricultural radionics and related subjects. It began sometime before the first issue of The Radionic Homestead Report, which was published in May, 1988, because that issue referred to the Little Farm Journal. It is not known when it began publishing, how many issues were published, or when it ceased publication. This periodical is not found in any library of the world, but is

undoubtedly in a number of private individuals' collections. **The USPA Library needs all issues of this periodical.**

Mind and Matter: published by George DeLaWarr of the DeLawarr Laboratories in Oxford, England from 1957-1967. **The USPA Library has a complete set of these very rare journals.**

Newsletter of the Institute of Psionic Medicine. Published by the Institute of Psionic Medicine only from 1978-1979. **The USPA Library needs all issues.**

Newsheet of the Psionic Medical Society. Published by the Psionic Medical Society in the England only from 1975-1977. **The USPA Library needs all issues.**

New Zealand Society of Dowsing & Radionics Journal. Published by the New Zealand Society of Dowsing & Radionics from 1988-present. **The USPA Library needs all issues.**

Physico-Clinical Medicine: This journal was started in 1916 by the father of radionics, Dr. Albert Abrams, and continued to be published up through 1938, by Fred J. Hart, who took over the College of Electronic Medicine after Abrams died in 1924. **The USPA Library has all issues from 1916-1923, but need all issues from 1925-1938.**

Psionic Medicine. Published by the Psionic Medical Society in the UK from 1969-around 1991. **The USPA Library needs most issues.**

Psychic Research Neswletter (Marcel Vogel): Volume 1, No. 1 (May-June, 1984) through Vol. 5, No. 4 (July-August, 1988) This is the periodical that Marcel Vogel published in the 1980's as part of his research organization, Psychic Research, Inc. in San Jose, California. The title of the periodical is really a misnomer, as is the name of hiresearch organiation, because the periodical deals almost exclusively with Vogel's and other's research on crystals and their use in healing, and very little with psychic matters. **The USPA Library has all known issues.**

Radio Perception. This was the original title of the Journal of the British Society of Dowsters, which began in 1933 and was published under that name until around 1956, when its name was changed to the Journal of the British Society of Dowsters, and continues today under the name, Dowsing Today. **The USPA Library needs all issues.**

Radiesthesia. Published by the Dowser's Club of South Australia, and began in 1992. **The USPA Library needs all issues.**

Radionics Journal: Published by the Radionics Association in England from 1954 through the present. **The USPA Library has a complete set of these from Vol. 1, no. 1 (1954), through 2005, but needs all issues published after 2005.**

Radionics Network Newsletter: Vol. 1, No. 1 (January-February, 1993); Last Known issue: Vol. 4, No. 6 (November-December, 1996); Published by the Radionics Network, New South Wales, Australia; **The USPA Library has Vol.1, No.1 (Jan.-Feb., 1993) through Vol.5, No.1 (Jan.-Feb., 1997), but needs all issues published since then.**

Resonance: Newsletter of the Bioelectromagnetics Special Interest Group (BEM SIG) of American Mensa during the 1980s and 1990s. **The USPA Library has a complete set of this rare periodical;**

Subtle Energies and Energy Medicine: Published by the International Society for the Study of Subtle Energies and Energy Medicine (ISSSEEM) from 1990 through the present, with some interruptions. **The USPA Library needs most of the issues of this periodical;**

The Radiant News: Vol. 1, Issue 0 [zero] (March, 2001) through Vol. 1, No. 12 (May, 2002), after which it ceased publication. Published by Peter Lindemann of Clear Tech, Inc. **The USPA Library has all 13 issues.**

The Radionic Homestead Report: This periodical was a periodical published by Lutie Larsen and Little Farm Research in Pleasant Grove, Utah. It began with the first issue being May, 1988. It is not known how many issues were published, or when it ceased publication. **The USPA Library needs all issues, except the first issue (May, 1988) and vol. 3, no. 4 (August-September, 1990), which are the only two issues in the USPA Library.**

USPA Newsletter: Published by the United States Psychotronic Association from 1977 through present. **The USPA Library needs most of these issues.**

Zeitschrift RGS (Radiesthesie - Geopathie - Strahlenbiologie); (Journal of Radiesthesia, Geopathy, and Radiation Biology): This was a radiesthesia and radionics periodical published by the Schweizerische Gesellschaft für Radiästhesie (Swiss Society of Radiesthesia) in St. Gallen, Switzerland. It began publishing around 1949, although the date is uncertain, and the title was changed at some point to "Schweizerische Zeitschrift für Radiästhesie, Radionik, Geopathie, Strahlenbiologie" (Swiss Journal of Radiesthesia, Radionics, Geopathy, and Radiation Biology). It was still being published in 2014, with issue No. 291 being published during that year. **The USPA Library needs all issues of this periodical.**

USPA Local Groups and Affiliates Update

As mentioned in the May, 2016, USPA Newsletter, one of our goals is to reactivate all of the former 24 USPA Chapters that once existed across the US and Mexico. In addition, we plan to establish new local groups of people interested in psychotronics and related subjects in other major cities in the US and other countries as well. All such local groups and affiliates will be independent, but will work together with the USPA in a mutually beneficial relationship to achieve our goals of advancing research and applications in psychotronics, radionics, subtle energy, and related fields.

So I would like to invite all of former USPA Chapters leaders and members to contact me (John Reed) at: joreed43@gmail.com and let me know if you would like to help reactivate your local chapter. In addition, if you are a leader or member of a psychotronics or related organization which was never a chapter of USPA, and we would welcome you as a USPA affiliated organization as well.

We will be establishing a USPA affiliated groups as traditional organizations and also via the Meetup.com online group platform. This will enable current and former members to more easily have local get-togethers, meetings, and other activities, and those activities, times, and other details can be posted online. So please let me know if you would like to be the leader of a group in your area.

If you do decide to use Meetup.com to establish your local group, you could do it quickly and easily by going to www.meetup.com , and clicking on the big red word “**Start**” in the upper left, and then just following the step-by-step procedures.

You can give your local group any name you want, but it should probably have a name that relates to psychotronics in some way. And if you need any help, please let me know, and I will help you in any way I can. Perhaps the most important thing is enthusiasm and determination, so write to me, even if you don’t know any other USPA members in your area, and I will help you set up a local group: joreed43@gmail.com

Exchange Corner

The “Exchange Corner”, is a place for USPA members to buy, exchange, or sell items of interest, or request information or other help in relation to something wanted. So if there is anything you want to buy, sell or trade that has to do with psychotronics, radionics, subtle energy, or related subjects, please contacted the Classified Ads manager at: usparesearch@gmail.com. For the next few issues, all such ads will be free of charge, so please send your ads and wanted requests as soon as possible before advertising charges begin.

Kelly Personal Analyzer for Sale

Mariette Picket has a friend that has a brand new unused Kelly Personal Analyzer that she paid \$2100 for, and is offering it for sale at only \$1600.00 Anyone interested call Mariette at: [317-773-0061](tel:317-773-0061)

Bruce Copen MARS III for Sale

I am a current USPA member and have a **Bruce Copen MARS III** for sale. The system is about 7 or 8 years old and in original, excellent condition. Sale includes original SCOPE analysis, database and broadcast software, HP laptop, comprehensive training manual and program disc, interconnects and boxes. I have always run it on XP with no issues; everything original as supplied by Copen.

All operations can be automated and multiple broadcasts can be run simultaneously, although Copen saw to develop this device so it could be used in many radionic styles and without computer control. The price is \$8500 USD roughly half the original cost. I prefer to not ship to a destination outside the USA. A limited amount of training by me, as I understand it, is available to a confirmed purchaser, as time and distance reasonably permit. Please contact: **Dr Robert Dixon**, robertdixondc@gmail.com or [call \(304\) 259-9439](tel:(304)259-9439) Berkeley Springs, WV.

Wanted: Any articles, periodicals, books, devices, or other materials on psychotronic related subjects that you can donate or lend to the USPA for its library, archives, and museum. **The USPA is a nonprofit, 501(c)(3), tax exempt organization, and as such, you are able to make tax deductible donations to the USPA. Please email the USPA at: usparesearch@gmail.com to make arrangements. Thank you for your generosity.**

WHAT IS PSYCHOTRONICS?

The United States Psychotronics Association defines psychotronics as the science of mind-body-environment relationships, an interdisciplinary science concerned with the interactions of matter, energy, and consciousness. Psychotronics involves the study, research, and applications of the physics and technology of the mind, brain, spirit, consciousness, and the underlying forces of life and nature – hence the term “psychotronics”.

We believe that a true understanding of the universe must include the spiritual, as well as, the technical, and provide an opportunity for amateur researchers to present their findings along with the professionals. We stress research, with documentation of results, and practical applications, rather than personal experience and unsupported hypotheses.

Some Prominent People in the history of psychotronics research and application: Albert Abrams, Thomas Bearden, Robert C. Beck, Robert O. Becker, Jacques Benveniste, David Bohm, Harold Saxon Burr, George W. Crile, Ruth Drown, T. Galen Hieronymus, Vlail P. Kaznacheyev, Georges Lakhovsky, Wilhelm Reich, Royal R. Rife, Rupert Sheldrake, Nikola Tesla, Marcel Vogel, and others.

Some of the forces, fields, waves, and energies studied and researched in psychotronics include: bioelectromagnetism, biophotons, biopotentials, electromagnetic wave pollution and harmful effects; coherent emanations of DNA, emanations of matter, “free energy”, morphogenetic fields, non-hertzian waves, orgone energy, pyramid energy and power, qi (chi), quantum fields, scalar waves, subtle energies, ultra-weak radiation of living matter, zero-point energy, and others.

Some of the phenomena believed to be produced or involved with the above fields and energies: action-at-a-distance, the aura of the body and other living things, bioinformation, bioluminescence, chakras, consciousness, distant intercellular interactions, meridians of the body, mind-body interactions, non-locality, the placebo effect, quantum consciousness, spontaneous remission of cancer and other diseases, water memory, water structure, and others.

Related fields of study and research covering the above forces, energies, and phenomena of psychotronics: bioelectromagnetics, bioenergetics, biophotonics, biophysics, psionics, psychoenergetics, psychoneuroimmunology, quantum biology, radionics, scalar electromagnetics, and others.

Some practices, techniques, and applications related to psychotronics include: acupuncture, biogeometry, brain entrainment, clairvoyance, dowsing, energy healing and medicine, extrasensory perception, feng shui, homeopathy, kirlian photography, magnetic therapy, pendulum use and methods, prayer effects, psionic medicine, psychic healing, psychometry, qigong, radiesthesia, radionics, remote viewing, shamanism, sound and sonic healing, telekinesis, telepathy, and others.

Membership Benefits

So if you are interested in any of the above subjects, then the USPA is the place for you, where you can interact with, exchange ideas, and collaborate with other people who are interested in the same subjects. So sign up now for membership in the USPA using the form on the following page and start enjoying all of your membership benefits. These benefits include, but are not limited to:

1. **USPA Psychotronics Library:** Free access to copies of certain articles, periodicals, books, audio tapes, videos, and other materials in **USPA Psychotronics Library**. Please write to joreed43@gmail.com for whatever item(s) you are seeking;
2. **Your free subscription to the USPA Journal & Newsletter;**
3. **Your right to freely publish articles in the WISE Journal - The Journal of the World Institute for Scientific Exploration (ISSN 2381-1536),** enabling the world to see your ideas or research, and thereby enhance your resume and credentials;
4. **Your right to use the USPA Literature Research Service,** whereby we will find any article, book, or other item you are seeking on the above subjects, and provide it to you;
5. **Your right to participate in the USPA “Research Assistance Program”,** especially useful to professors, authors, and other researchers, who need extra help on their projects. USPA will help find volunteers to help you with your research project(s).
6. **Your right to be part of the USPA Project Participation Program,** whereby you can volunteer to help on numerous available USPA projects, or help researchers who are conducting research on psychotronics and related subjects.
7. **Your right to make oral or poster presentations at the annual USPA meeting,** with the approval of the Annual USPA Meeting Planning Committee.
8. **Your right to discounts** on the purchase of certain items and services made available for sale or provided by the USPA and its members.
9. **Your right to freely advertise in the WISE Journal,** which goes out to thousands of people.
10. **Your right to participate in the USPA Psychotronic Literature Preservation Program (UPLPP).** The USPA, via its Library and Archives, has established a “Literature Preservation Program” to preserve your personal papers, files, records, and collection of articles, periodicals, books, and devices on psychotronics and related subjects, noted above. You may no longer need or use some of these items that you have, and you can send them to the USPA, and we will preserve them in our library and archives, so that they can be of use to other researchers.

MEMBERSHIP INFORMATION

The U.S. Psychotronics Association (USPA), was incorporated in the District of Columbia in August, 1977, and is a nonprofit, 501(c)(3), tax exempt organization, and as such, you are able to make tax deductible donations to the USPA. It is empowered to enroll members in the parent organization throughout the United States, Canada, and other foreign countries. Membership is open to all people who wish to join with the USPA on the new frontiers of science in working constructively for the qualitative improvement of man and his environment. **Please remember the USPA in your annual charitable giving, especially if you want to advance research in the above subject areas, which can greatly benefit humans, animals, plants, and the environment.**

USPA MEMBERSHIP APPLICATION

[Online Membership Application: click here.](#)

Mail-in Applications: Please print out this page, fill in your information, check the appropriate spaces, and send to the USPA Membership Secretary at the address at the bottom of this page:

Your Name: _____

Mailing Address: _____

City: _____ **State:** _____ **Zip:** _____

Country: _____

Phone: _____ **email address:** _____

Type of Membership desired:

General: ____ \$35 (1 yr.)

AMOUNT ENCLOSED: _____

Please check the appropriate items below that apply to you:

____ List me/us in the USPA membership directory with the following

Interests: ____ General ____ Healing ____ New Age Physics

____ Radionics/Dowsing ____ Subtle Energy Research

Other Interests, please specify: _____

____ Do not list me in the USPA Directory

Payment (in U.S. funds only) by:

____ Check or Money Order enclosed (Payable to USPA)

____ Visa ____ MasterCard

Charge Card # _____ Exp. Date _____

Signature _____

Please send to the USPA Treasurer:

Scott Beutlich

525 Juanita Vista

Crystal lake, IL 60014

Phone: 815-355-8030 or Email: scottbeutlich@rocketmail.com
