2017 Annual United States Psychotronics Association (USPA) Conference, -- Great Success !

The [United States Psychotronics Association \(USPA\)](#) held its 39th annual conference **July 14th-16th, 2017, at the beautiful Hyatt Regency in Deerfield, Illinois, a suburb of Chicago, and it was a huge success.** Internationally recognized researchers, including **Dr. Elizabeth Rauscher, Dr. Beverly Rubik., Dr. Nick Begich, Dr. Jon Klimo, Dr. Glen Rein, Dr. Linda Lancaster** and other luminaries gave exciting presentations on all aspects of cutting edge research and applications of subtle energies, radionics, and energy medicine for the healing and treatment of humans, animals,

and agriculture crops. We would appreciate your feedback and comments on any or all of the speakers you heard, and [a Speaker Evaluation form is available here](#), as well as later in this Journal-Newsletter. Your comments will be of great value to the USPA, as well as to the speakers themselves, with whom we will share your comments, which may be anonymous, if you wish.

This year's conference had attendees from all over the United States and a number of foreign countries in Asia, Europe, and Latin America, and the number of attendees is continuing to grow with each passing year. **And for those who were unable to attend the 2017 USPA Conference, or who would like to watch again any of the presentations, DVDs of all individual presentations are available for purchase, and an order form with [a complete list of all](#)**

[presentations is available here](#), for both the 2017 and 2016 USPA conferences.

You can either print out the page and send it to Scott Beutlich at the address on the form, or you can telephone Scott at: 815-355-8030, order the presentation(s) in the program that you would like to have, and pay with a credit card. These forms are also available later in this issue of the Journal –Newsletter.

We would like very much to receive your feedback on the USPA Conference as a whole, and your suggestions would be greatly appreciated on how we can continue to improve the USPA conference in any possible way, in order to make it even more valuable and meaningful to you. [A Conference Survey and Evaluation form is available here](#), as well as later in the Journal-Newsletter.

This year's **USPA Conference Committee** who planned the conference, arranged for speakers, scheduling, and all the many other activities needed to make a great conference included **Beverly Rubik, Jon Klimo, Linda Lancaster, Glen Rein, and Scott Beutlich, and Phyllis Weiland**. And to them we extend our thanks and appreciation. In addition, we wish to give special thanks to **Phyllis Weiland** whose help and outstanding organization abilities contributed greatly to the success of the conference.

We also want to extend our great appreciation to those who volunteered in many ways to make this a great conference. These included Al Kacperski, Allen Rhode, Dustin Beutlich, Mitch Feinstein, Marie Hatland, Ann Kay, Eva Knight, Dina Shaw, Steven Splitgerber, Aaron Starkey, Aimee Whalen, Ann Michaels, Marie Jenkins, and Trent Millet.

During this conference, elections were held to fill three Board member positions which were expiring in 2017. **We are happy to announce that Glen Rein, Ed Kelly, and George Kuepper were elected to the USPA Board of Directors. In addition, Marty Lucas was elected to be the Chairman of the Board.**

Current USPA Board members now include: Marty Lucas(Chairman of the Board); Beverly Rubik, Ph.D., Ed Kelly, Linda Lancaster, N.D., Lutie Larsen, Glen Rein, Ph.D., Daniel Taylor, George Kuepper, and John H. Reed, M.D.

We are also happy to announce that Dr. Beverly Rubik was elected by the USPA Board to be the new President of the United States Psychotronics Associatiion. (See special article about Dr. Rubik that follows.)

Because of the success of this conference, plans are already being made for the 2018 conference, which also will be held at the Deerfield Hyatt Regency. So for those who would like to make presentations at the 2018 USPA Annual Conference, please write to Scott Beutlich at: uspsychotronics@yahoo.com

Dr. Beverly Rubik Elected President of the United States Psychotronics Association (USPA)

The USPA Board of Directors is happy to announce that it has elected Dr. Beverly Rubik to be the new President of the United States Psychotronics Association (USPA).

Dr. Rubik is internationally renowned for her research in biophysics, subtle energies, bioelectromagnetics, energy medicine, and other areas of alternative and complementary medicine, and brings her outstanding background and leadership qualities to the USPA.

Dr. Rubik earned her PhD in biophysics in 1979 at the University of California at Berkeley. As a frontier scientist, she is internationally renowned for exploring biofield science and energy medicine. Her main area of focus is research on the subtle energetics of living systems, including spiritual healing. She has published over 60 papers and 2 books. Dr. Rubik serves on the editorial boards of Journal of Alternative & Complementary Medicine, Evidence-Based Integrative Medicine, and Integrative Medicine Insights. She has served on the advisory boards of various groups, including the Program in Integrative Medicine under Dr. Andrew Weil. Her impressive [curriculum vitae is available here](#).

Dr. Rubik was one of 18 Congressionally-appointed members of the Program Advisory Board to the Office of Alternative Medicine at the US National Institutes of Health (NIH) from 1992-1997, and chaired the NIH panels on electromagnetic medicine and manual healing. This was the precursory organization to National Center for Complementary and Alternative Medicine.

Dr. Rubik founded the [Institute for Frontier Science](#) (IFS) in 1996. Laurance S. Rockefeller, Sr., helped support the founding of the IFS. In 2002, IFS was awarded an NIH center grant for frontier medicine research on biofield science in consortium with researchers at the University of Arizona. Dr. Rubik was a project director in this consortium and supervised studies on Reiki, a form of Japanese spiritual healing, and on qigong therapy, a healing practice that originated in China.

Dr. Rubik has appeared on numerous television programs throughout the US and worldwide, including a live appearance on the most popular morning television program in the US, "Good Morning America" (ABC-TV), where she presented her research on the human energy field in December 2000. She serves as a consultant in the health care industry on maverick health and wellness products and as a holistic health consultant to individual clients.

2017 US Psychotronics Post-Conference Speaker Evaluation

Speakers are listed in presentation order

Please let us know what you thought. Enter a number from 1 to 5 - 5 being the best!

	Jon Klimo, Ph.D / Scott Beutlich.	Welcome / USPA "Ted Talk"
	Nick Begich	Mind Control: A Brave New World or Enhancing Human Performance
	George Kuepper	Radionics & Biodynamics in the Garden: Tuning in to Nature
	Lorna Reichel	Unseen Worlds of Subtle Energy
	Don Paris	Consciousness Interactive Technology in the 21st Century
	Glen Rein	The Holographic Nature of the Mind and it's Role in Mediating Higher Order Healing Phenomena
	Beverly Rubik and Harry Jabs	The Memory of Water and Beyond
	Michael Leger	A 21st Century Radionics – Theory and Practice
	Ed Kelly	Radionics: Easy as 1-2-3!
	Jon Klimo, Ph.D.	Nonlocality, Higher-dimensionality, and Radionics
	Judy Lynne Cole	K.I.S.S. "Hello" to the Next Collaborative Revolution in the Industries of Health, Art and Music
	Jeffery Martin	Transformative Technology
	Lutie Larsen	LFR Chickens and Radionics
	Linda Lancaster	Endocrine System and its Role in Radionics
	Ellen Kamhi	PINEAL STIMULATION for Higher Health and Consciousness: Radionics - Dowsing - Botanicals
	Elizabeth Rauscher	Psychotronics, PSI and Consciousness; A New Revolution
	Dan Taylor	History and Overview of Radionics
	Marty Lucus	Higher Octaves of Physical Frequencies
	Rainer Fromknecht	Body –Water as a Conducting System for Electromagnetic Information
	Craig Dongoski	Mental Radio
	Scott Ertl	Magnetism and Polarity

Thank You for your Input! Do you have any comments or suggestions?

U.S. Psychotronics Association
39th Conference - July 14 – 16, 2017

***Psychotronics: Emerging Technologies in
Consciousness, Subtle Energy and Radionics***

Conference Survey

Please tell us about your interest in us:

1. How long have you known about the USPA (US Psychotronics)? _____
2. How did you hear about us? _____
3. What interests brought you to our conferences? _____

Which of the following did you especially like? If you can, please tell us why.

1. Speakers _____
2. Exhibitors _____
3. The Conference Sites _____
4. The Conference Dates _____
5. Other _____

Which of the following did you not like? If you can, please tell us why.

1. Speakers _____
2. Exhibitors _____
3. The Conference Sites _____
4. The Conference Dates _____
5. Other _____

Suggestions for future conferences:

(Please use the ***back of this form*** to complete all that apply)

1. Possible Themes
2. Sites you think would work– Please include contact information and location if you can.
3. Speakers – Please include web site and contact information if you can.
4. Best time of year
5. Exhibitors you feel would enhance the conference – please include contact info.
6. Possible changes to format: Length of talks, available workshops, etc.
7. What would you add?
8. What would you leave out?

Join the creation team:

(Please complete all that apply)

1. I can help in the following ways _____
2. I want to use these skills and abilities _____
3. I want to help because _____
4. My contact information is: _____
5. The number of hours I can give per month is _____
6. I would like to help at the conference in the following area(s) _____
7. I know these people or organizations that can enhance the goals of USPA – Please give contact information and the specifics of how they can help. Please tell us why you think these organizations and individuals could help _____

Suggestions for future conferences:

1. Possible Themes
2. Sites you think would work– Please include contact information and location if you can.
3. Speakers – Please include web site and contact information if you can.
4. Best time of year
5. Exhibitors you feel would enhance the conference – please include contact info.
6. Possible changes to format: Length of talks, available workshops, etc.
7. What would you add?
8. What would you leave out?

If you wish to tell us who you are:

Name_____ Date_____

Email address or phone number_____

Thank You for your interest in the US Psychotronics
Association - Have a WONDERFUL YEAR. We hope to see
you again next year.

Save the Date! - July 20-22, 2018

Hyatt Regency Deerfield - Again

John Reed and Daniel Taylor Tour Western United States to Investigate Unsolved Psychotronics Mysteries and Gather Rare Psychotronics Devices, Books, and Periodicals

by John H. Reed, M.D.

After the close of the United States Psychotronics Association (USPA) conference and workshops in Chicago on July 18, USPA Board members John Reed and Daniel Taylor began a driving tour of numerous Midwest and Western states to investigate a number of psychotronics mysteries, and to search for and, if possible, acquire rare psychotronics devices, books, periodicals, and other “missing” or lost items. In addition, we will be visiting and trying to track down numerous psychotronics researchers and related organizations. This tour has so far taken us from Illinois through Iowa, Missouri, Kansas, Oklahoma, Texas, and on to Albuquerque, New Mexico, where we are currently attending the 2017 Extraordinary Technology Conference, July 26-30.

After the Extraordinary Technology Conference, we will be heading further west to Arizona to visit several important people in the history of psychotronics research, and search for the family of Ralph Bergstresser, a protégé of Nikola Tesla, who later developed the “purple plate” technology. Bergstresser once lived in Arizona, but his final whereabouts are unknown. We also hope to visit Dr. William Tiller who spoke at last year’s USPA conference and heads the [Institute for Psychoenergetic Science](#), and Sally Trautner who operates [Natural Healing Alternatives](#) in Scottsdale, AZ, and numerous other people.

Then it is on to Nevada to visit Bob Nelson, the prolific researcher of free energy devices, psychotronics, and alternative technology of all kinds. Bob has been operating Rex Research for decades, and has generously provided huge amounts of information on these technologies freely to the public on his [Rex Research website, which you can access here.](#)

Next we head to San Diego, California, to investigate reported remnants of Royal Rife’s microscope and beam-ray device. Then up the coast of California to Los Angeles to visit researchers in the LA area and try to track down any records of T. Townsend Brown, who once had a research laboratory on Santa Catalina Island off the coast of LA. We also hope to visit the National Health Federation, which Fred Hart founded in the 1950s or early 1960s. Fred Hart succeeded Dr. Albert Abrams as head of the Electronic Medical Foundation, after Abrams died in 1924, and Hart continued to operate that foundation until the 1950s. If we have time, we will also visit Ted St. Rain of [Lost Arts Media](#), try to locate the family of Trevor James Constable, who died in 2016, and a number of other people and organizations.

Then we head further up the coast to the San Francisco area. We will be investigating what remains, if anything, of Christopher Hills’ University of the Trees, try to track down the family of Henry Fleur, who developed a ray device in the 1920’s to get rid of insects, and try to track down Buryl Payne, well known for his research on magnetic therapy.

While in the San Francisco area, we hope to visit Dr. Jerry Gin, who heads the [Foundation for Mind-Being Research](#), Dr. Dean Radin, Chief Scientist at the [Institute of Noetic Sciences](#), Francesca McCartney, Ph.D., who heads the [Energy Medicine University](#). We also hope to investigate the mysterious death of Larissa Vilenskaya, who spoke at a USPA Conference in the 1990's, but died tragically in 2001 in the San Francisco area, in what may or may not have been an accident. Larissa was a Russian parapsychology researcher, and a prolific translator of Russian literature on this subject into English. We also hope to track down what became of the Borderland Sciences Research Association's Museum, which at one time had many radionics, psychotronics, and other working devices among its collection.

From San Francisco we begin the long trek back east across the entire United States to Ohio, where Daniel lives, and on back to Baltimore, where John lives. First, we're "on the road to Reno", but for research purposes only, in that we will be trying to track down any remnants of the Bio-Electromagnetics Institute, once headed by Dr. John T. Zimmerman, who published the periodical, BEMI Currents.

From Reno, we head to Salt Lake City and other areas of Utah to investigate some strange technologies in that area, and also to visit our close friend, and USPA Board member, Lutie Larsen, at Little Farm Research in Pleasant Grove, UT.

From there we go to the Denver, Colorado, area and visit numerous friends and researchers there, and try to investigate some remaining mysteries about Tesla's activities in Colorado. We also plan to visit Dale Pond at the [Pond Science Institute in La Junta, Colorado](#). Dale is a great friend and has done research on sympathetic vibratory physics, and other psychotronics subjects for decades.

From Colorado, we head across the Plain States, and hope to track down Toby Grotz and Arden Anderson, both in Kansas, but whose exact location is uncertain. Toby Grotz is a well known Tesla technology researcher, and Arden Anderson is not only a physician, but a well known researcher on sustainable agriculture and the use of psychotronics methods in agriculture.

From Kansas on east there are only a few people and organizations we will be visiting, and a few other things we will be investigating. Daniel has to be back to Ohio by August 15, but I have a little more flexibility to get back to Baltimore. **If anyone would like us to stop and say hello or has any information on the people, organizations, other things noted above that we are trying to locate or investigate, please write to me at: joreed43@gmail.com.**

In addition, if you, yourself, would like us to look into or find anyone, a long lost organization, lost items, or any mysterious device of some kind, please let us know, and we will do our best to help you.

Bogdan Jochym Discovers Long Lost Pages of Gallimore Book

Bogdan Jochym has solved one of the most longstanding mysteries of the “Among the Missing” series by finding and providing to the USPA the long lost pages 208-209 of the book, Relationship Between Parapsychology and Gravity, Vol. 3 of Handbook of Unusual Energies, by J.G. Gallimore. Bogdan is an outstanding researcher on radionics, dowsing, and bioenergetics in the United Kingdom, and operates the [Emerald Innovations website](http://emeraldinnovations.co.uk/), where he provides radionics devices, dowsing tools, pendulums, bioenergetic products, free instructions on how to use these items, and much more.

As you may recall, the quest to find the missing pages of Gallimore’s book began over a year ago when the pages were first discovered to be missing. This book was published by Borderland Sciences in the 1970’s, although the date of publication and copyright date were not noted anywhere in the book. A review of the book in preparation for its reprint by the USPA revealed that pages 208 and 209 were missing, with page 210 printed on the reverse side of page 207. Since it was printed this way, it was not known if pages 208 and 209 were missing from the original manuscript when it was sent to Borderlands for publication, or if these pages were inadvertently lost by the publisher, or if possibly, they were intentionally removed by someone from the manuscript prior to publication.

A worldwide search for this rare book was begun in hopes of finding a library, private organization, or individual who might have a copy of Gallimore’s book, [Relationship Between Parapsychology and Gravity](#). We thoroughly searched [the WorldCat](#), which is a database that shows the books, monograph, and periodicals holdings of virtually every public and university library in the United States, Canada, the United Kingdom, and other libraries elsewhere in the world. But not a single library had this extremely rare book in its collection.

We therefore hoped that someone reading the USPA Journal & Newsletter might by chance have this book with the pages 208-209. And although dozens of organizations and people were contacted around the world, all of those who had this rare book reported that their copies also were missing those pages.

Then in early July, 2017, Bogdan Jochym wrote to me (John Reed) that he had a copy of the book with pages 208-209 intact, and he generously sent copies of those pages and solved this mystery at last. We owe a great debt of gratitude to Bogdan, and if any of you would also like to express your appreciation to him, you may contact him through his website at: <http://emeraldinnovations.co.uk/>

Newly Discovered Psychotronics Related Organizations and Periodicals: July, 2017

A number of newly discovered psychotronics related organizations and periodicals have been discovered since the last issue of the **USPA Journal and Newsletter**. These organizations and periodicals, some of which ceased operation many years ago, are listed below, with brief information. **If you know anything about these organizations or periodicals, please contact the editor.** The periodicals have been added to the master list of psychotronics periodicals in the **USPA Periodicals Library section** of this journal. We are seeking copies of all issues of these periodicals, which we plan to digitize and make available to our members as a USPA membership benefit. **So if you have any issues the periodicals listed below or any of the missing issues of the periodicals listed in the USPA Periodicals Library section of this Journal, please let the editor know by emailing him at: joreed43@gmail.com.**

Organizations:

Radionics Research Association: This is an organization that was founded in Toronto, Ontario, Canada in 1998, but it is not known if it is still in operation. It was located at one time at: 544 Dovercourt Rd., Toronto, Ontario M5H 2V6. It is somehow related to the Toronto based Biophysica, Inc., a company which Dr. John Stewart is connected with. It is not known if the Radionics Research Association ever published a periodical of any kind.

Periodicals:

Earthpulse Flashpoints (1996-1999): This periodical was edited by Dr. Nick Begich and published by Earthpulse Press, Inc. in Anchorage Alaska. It focused on such subjects as Patrick Flanagan's neurophone, biohazards of ELF, living cells as electromagnetic units, and other psychotronic related subjects. It began with Series (Volume) 1, no. 1 in 1996, and continued until at least 1999, when the last known issue, Series 2, no. 3, was published. Only one library in the world has this periodical in its collection, the UAA/APU Consortium Library in Anchorage, Alaska. **The USPA Library needs all issues of this periodical.**

Interdimensional News (1983-1986): This periodical was edited by Peter Kelly, who founded what is now [Kelly Research Technologies \(KRT\)](#), and published by Interdimensional Sciences, Inc., in Lakemont, Georgia. It focused on radionics, energy medicine, effects of EM waves and fields, and other psychotronic related subjects. It began with Volume) 1, no. 1 (Fall, 1983) and continued on until the final issue, Volume

3, no. 3 (May-June, 1986). **Through the generous donation of Ed Kelly, USPA Board member, and current CEO of Kelly Research Technologies (KRT), the USPA Library has a complete set of this periodical.**

Journal of Electronic Medicine (Kirksville, Missouri) (1923 only): This was a periodical that was published by the Kirksville, Missouri, McManis Branch of Albert Abrams' College of Electronic Medicine, which was headquartered in San Francisco, California. This very rare journal focused on Albert Abrams' radionic methods of diagnosis and treatment, as well, as other energy and electronic methods of medical treatment. It began with Vol. 1, No. 1, probably in January, 1923, because it is known for certain that Vol. 1, No. 5 was dated May, 1923. This periodical ceased publication later in 1923, when the McManis Branch was closed, and it is not known whether there were any other issues published after issue No. 5. This journal is not listed in Worldcat as being held by any library in the world, but a single issue was recently discovered by John Reed and Daniel Taylor in the archives of the Museum of Osteopathic Medicine at A.T. Still University in Kirksville, Missouri. **The USPA Library has issue Vol. 1, No. 5, but needs issues Vol. 1 No. 1, 2, 3, and 4, as well as, any issues of this periodical that may have been published after No. 5 in 1923.**

Short News, Notes, and Queries

(If anyone would like to make a short news announcement, report something, has a question about anything related to psychotronics and related subjects, or has any information or comments about any of the following notes and queries, please write to the editor, John Reed at: joreed43@gmail.com)

1. **Art Tool and Die Company:** Does anyone know anything about the Art Tool and Die Company that was located in Detroit, Michigan, in the 1930s and 1940s, and apparently manufactured radionics devices? It has been referred to in a number of publications on radionics, psychotronics, and related subjects, but it is not clear what devices they manufactured.
2. **Mangrove College for Radionics:** Does anyone know anything about the Mangrove College for Radionics, and if it ever published a periodical of any kind? Its address at one time was: 1313 N. Market St., Hercules Plaza Suite 3410, Wilmington, Delaware 19801, although this appears to be a mail box service location. It was once headed by a Dr. P. W. Meier.
3. **Duncan Laurie**, author of the excellent book, [The Secret Art: A Brief History of Radionic Technology for the Creative Individual](#), recently sent USPA an online article titled [“Sick Frequencies: Behind Radionics, the Wacky Sound Therapy That Turns Thoughts into Music.”](#) This article, written by Tom Howells in March, 2017, is all about Daniel Wilson and his “Radionics Radio Project” where he creates electronic music from human thoughts.
4. **Were you ever a member of the Electronic Medicine Association (EMA) or know anyone who was?** According to online sources, this organization was co-founded by Peter Moscow (US), former president of the USPA, and John Morley-Kirk (UK) and was incorporated in the United Kingdom in 2001. (UK Company number 04223137). From 2001 through 2010, the EMA held numerous seminars, workshops, and conferences, and may have published a newsletter or journal, although this is uncertain.

Unfortunately both Peter Moscow and John Morley-Kirk died in 2011, and records show that the organization was officially dissolved in the United Kingdom in October of 2011. A number of people have indicated that they would like to revive this organization, and we are attempting to locate all former members. **So if you have any interest in this, or by chance have an old membership list, please write to the editor, John H. Reed, M.D. (joreed43@gmail.com)**, so that I can contact the former members to see if they would be interested in resurrecting this organization, or starting a new one with a similar mission.

5. **Do any of you happen to know anything about the Paraphysical Laboratory that was founded in the UK by Benson Herbert in 1966, or have any issues of the Journal of Paraphysics that he published for more than 20 years?** Mr. Herbert's laboratory was located at Privett Farm, Downton, Wiltshire, England, between Salisbury and Southampton. His mission included an attempt to provide a workable theory and physical explanation for paranormal phenomena, including telepathy, remote viewing, dowsing, and other extraordinary abilities and phenomena. Unfortunately, Benson Herbert died in 1991, and no one seems to know what became of the papers and records of the laboratory, or if he even had any family, who might be able to shed light on this. So if you know anything about Benson Herbert or have any issues of his periodical, please contact the editor at: joreed43@gmail.com.
6. **Does anyone have video tapes of the presentations that Andrija Puharich made at the 1982 US Psychotronics Association Conference?** The title of Dr. Puharich's first presentation was: "Chemical Compounds: Receptors of Artificial ELF", and was sold for a period of time on the USPA website with this title and catalog number F6.
The second presentation that Dr. Puharich made at the 1982 USPA Conference was the Keynote Address at the Awards banquet. The Title of this presentation was "Kindling + 1" and had catalog number F7. If anyone has either or both of these tapes, please contact the editor, John Reed at: joreed43@gmail.com.
Andrija Puharich, Chemical Compounds: Receptors of Artificial ELF (1982) F6
Andrija Puharich, Keynote Speaker:, Kindling +1; Awards Banquet (1982) F7
7. **Does anyone have any personal copies of the excellent periodical called "DNA Decipher Journal" ?** This journal focuses on subjects of great interest to the psychotronics community, including subtle energies emanating from DNA, wave genetics, quantum biology, quantum entanglement, phases and structure of water, and many other interesting subjects. In fact, the vol. 6, no2 (June, 2016) issue of this

journal included an article titled, “On the Plausible Implications of Gariaev & Montagnier's Work”. (Editor JHR: See the abstract of Montagnier’s article in the Abstracts section below.)

Surprisingly, and strangely, not a single academic or public library in the world lists this periodical in their holdings, including the Library of Congress. This journal is published by Quantum Dream, Inc., In Stony Brook, NY , and has a website at: <http://dnadecipher.com/> , which shows all the issues published since its first issue in 2011. The price is \$13.90 for the latest issue published in Dec., 2016, and back issues have higher prices running up to \$19.90 for the first issue.

If any of you have personal copies of the DNA Decipher Journal, would you be willing to lend them temporarily to the USPA Library so that we can review them? If so, please write to the editor, John Reed, at: joreed43@gmail.com

2017 Radionics Symposium Taught By the Masters

Advanced Radionics Classes Covering Humans, Livestock,
Pets, Crops and Gardens

Best Western Ramkota Hotel
October 24-28, 2017

Advanced Radionics Class

Instructor: Ed Kelly

October 24-25, 2017 - 8:30AM to 5PM

Life can be hard enough without external forces dragging you down. Don't spend another day toiling under the weight of anchors that have been placed on your life, your work, and/or your business! In this rare two-day, hands-on, Advanced radionics course, Ed Kelly will focus on techniques and strategies for recognizing and banishing negative patterns of information from plants, animals, and spaces. Topics will include:

Systematic Elimination of the Energy Patterns of Sickness

Recognizing and Eliminating Psychic Attacks and Dark Forces

Cold Scanning Effective Supporting Rates

Advanced Selection, Testing, and Uses of Colors and Frequencies

Participants should have a working knowledge of their radionics instrument for this course.

Individual Enrollment

\$400.00

Bring: Any Hieronymus-type two-dial radionic instrument, plus samples of water, soil, plants, seeds, and/or animals from home. Please order as soon as possible if a new instrument is required from KRT. A limited number of instruments will be available for rent.

Separate Registration Required for Advanced Radionics Class!

To Enroll: Call 706-782-2524 or email: cathie@kellyresearchtech.com

All Saints Church
PO Box 86
Black Hawk, SD 57718

Phone: 605-787-5620

2017 Radionics Symposium Taught By the Masters

Schedule

Day 1

October 26, 2017 - 8AM to 5PM

7:15AM - 8AM

Registration

8AM - 8:30AM - **Dr. Ron Barone**

Introduction

8:30AM - 9:30AM - **Dr. Ron Barone**

The story of miasms begins with Samuel Hahnemann himself. As his experience of homeopathy brought him to understand its usefulness not only in acute but also in chronic disease, Hahnemann found that chronic diseases arise from a deep inner susceptibility that he called miasm. External causes of disease, he observed, can bear fruit only in the fertile ground of a miasmatic foundation, which passes by various means from person to person and creates the predisposition to particular kinds of disease states. Hahnemann identified three miasms, each with its own characteristics and disease propensities. In recent developments, there are 4 primary miasms and 4 recessive. We will learn how to deal with these with radionics.

Dr Darius Dinshah developed a system of using light as a direct application to the body for many diseases. A Pdf of this book will be supplied on the notes disc. I will demonstrate how to apply light in radionics as an application to the input well as well as a basic rate sheet for broadcasting.

Dr. Ronald Barone: Body, Mind & Spirit - Ron is a consultant on personal well-being; from Blackhawk, SD. Ron brings over 50 years of experience in the health care field. He is a Chiropractic Doctor certified in Orthopedics, with training in advanced Radiology, Nutrition, and Kinesiology and with a focus on environment, organic foods, nutrition, herbs, homeopathics, exercise and correct thinking. He has been doing radionics and energy medicine as his ministry since 1995. Working on people with health issues and longevity is his primary ministry. He is a skilled dowser in the natural and spiritual realm. A personal friend of Master Dowser and Shaman Raymon Grace. He is also skilled in helping the dying go through transition to the spirit world. He has considerable experience with discarnates and a wide realm of non-physical issues. Ron has worked on many issues in the natural and spiritual realm. Ron teaches people take control of their own well-being, physically and spiritually.

9:45AM - 10:45AM - **Sarah Emond**

To be announced.

Sarah Emond, Essence Healing - Sarah is a Certified Reflexologist, Reiki Master, Radionics Practitioner, Intuitive Facilitator, and Energy Practitioner. She uses her intuitive abilities to help her clients bring their spiritual and energy bodies into balance, maintain that balance and begin to increase its abilities.

11AM - 11:30AM - **Vendor Spotlight**

Cory Stover, Pete Radatti and Brian Besco will highlight the products they have available for sale. (Other vendors will highlight their products during their teaching times.)

Cory Stover - Cory Stover is an inventor, intuitive and expert dowser. He is the maker of the Cory Coil, Colossus energizer and Avalon Well among other radionics tools in development.

Brian Besco - Brian Besco is the leader in research and development of Tensor Technologies. He considers the Tensor tools to be a combination of the physical sciences and spiritual technologies. He is a published author and manufacturer of the Tensor tools, and spoke at the 2013 Tesla Technology Convention on the Tensor Fields. Brian has also created several new modalities of subtle energy work, and teaches workshops around the world.

"Pennsylvania" Pete Radatti - Pennsylvania Pete Radatti is best known for his articles in the KRT newsletter, training new radionics operators, and grassroots radionics support groups (Conshohocken Radionics) in www.meetup.com. His radionics training manual "A Fun Short Course in Beginning Radionics" is available on Kindle readers via Amazon.com and research.

2017 Radionics Symposium

Taught By the Masters

Day 1 Continued

October 26, 2017 - 8AM to 5PM

1PM - 2:30PM - **George Kuepper**

My Evolving Approach to Agricultural Radionics - This presentation will feature three inter-related organic strategies for radionically managing the health of farm and garden ecosystems—organic, eco-ag, and Biodynamic. Analysis procedures and rate sheets will be detailed along with follow-up strategies for balancing gardens, fields, and whole farms using broadcasts, potencies, and/or physical materials. The information provided emerges from the presenter's past experience applying radionics to agriculture and his current research in establishing and managing a Biodynamic garden in Northwest Arkansas.

George Kuepper - George Kuepper has 40 years of experience with sustainable and organic agriculture. He began studying and practicing radionics in 1986 to address crop and soil health problems that were not responding to conventional prescriptions. George is the author of two training manuals: *Radionics, Reality & Man and Plants, Soils, Earth Energy, and Radionics*. He is the owner of Midsouth Radionics, located in Northwest Arkansas, where he conducts trainings and continues his research.

2:45PM - 3:45PM, 4PM - 5PM - **Daniel Taylor and Possible Assistant Guest Speaker**

To be announced. Daniel is an amazing teacher and whatever topic he chooses to present, it will be cutting edge information.

Daniel Taylor - Daniel Taylor has been involved with energy work since 2010. He double-majored in Chemistry and Biology, and double minored in Physics and Mathematics, to prepare for PhD level research in Biophysics. His undergraduate research involved single molecule tethering, magnetic tweezer manipulation, and Fluorescence Resonance Energy Transfer (FRET) analysis. Radionic research is a full-time part of his daily regimen. He is also pursuing Licentiateships with the Radionics and Dowsing Institute of Canada, and The Radionics Association of the UK.

Day 2

October 27, 2017 - 8AM to 5PM

8AM - 9AM, 9:15AM - 10:15AM - **Special Speaker - Gary Blackwell**

With 34 years of experience, Gary will teach you how to improve your agricultural operation, make a profit and save input costs from seed to harvest. He will also teach for the first time ever the creation theory of the soil and components.

Gary Blackwell - Worked for Chevy engineering for 27 years. Moved to his farm in 1972 and began doing agriculture radionics. Student of Steve Westin, Pat Schmidt, Peter Kelly and Cathie Jordan. Milked cows for over 20 years with a cow average of 26, 400 lb with no drugs of any kind.

10:30AM - 11:30AM - **Tammy Steuber**

Tammy will talk about the emotional link to physical ailments; cover a variety of essential oils and what its properties do physically and emotionally and how understanding this will allow you to use them more effectively as radionics reagents to boost your broadcast results. She will teach how to use them personally or with your clients as a tool to support the body to heal and stay strong during and after the radionics treatment.

Tammy Steuber - Operates her own business, Pure and Simple Solutions in Fairmont, MN. Tammy has been serving others by teaching them how to improve their physical, spiritual and financial well being for the past 8 years as a Certified Holistic Health Coach, Essential Oils Educator, and more recently a Radionics operator.

1PM - 2:30PM - **Tim Lippert**

Every time Tim teaches a radionics class, his stories of problem cases & healings leave people amazed. They always declare "You need to put those in a book". Well the book isn't written yet, but Tim will share many of those true life stories in this session. Don't be late.

Tim Lippert; President, Livestock Innovations, Inc. - Tim has done Radionic, Naturopathic, and Alternative Medical work for clients in over 25 states, Belize, Mexico, Canada, Australia, Great Britain, and the Philippines. He owns and operates one of the most elaborate Radionics labs in North America. His specialties include agricultural and environmental consulting, geo-biology, water treatment, mold & myco-toxins, Lyme Disease, sleep apnea, and spiritual issues.

2017 Radionics Symposium

Taught By the Masters

Day 2 Continued

October 27, 2017 - 8AM to 5PM

2:45PM - 3:45PM - **Stephen Quong**

Mind and Machines: Optimizing the Psychotronic Interface - Demonstration of advanced methods to clear sub-conscious programs which interfere with accurate dowsing and use of the stick plate. Yogic breathing exercises and nutritional supplements which can increase your mental clarity. Enhancing bioresonance with the Apex Homeopathic Imprinter. Feng Shui principles for facing the ideal compass direction for optimal dowsing. Techniques for enhancing multidimensional perceptions, mental coherence, and even time travel, using the double tetrahedron crystal and the tensor rings. More short-cuts for scanning/identifying the best radionic rates to use. Introduction to Esoteric Reagents: Dr. U Shein's Gold Ash Powder, Shen Ion HarmoniK tools, Buddhist relics (Sharira), Navapashanam, Ormus, Gibeon Meteorite, traditional Vedic gemstones, planetary gem elixirs, and gemstone ashes (bhasma), Phi ratio quartz pyramids, Taoist Fu yantras, Fractalization of Platonic Solids, Kaya Kalpa Yoga herbal powder (for immortality); ultra-high quality Wild Ginseng, Tibetan Cordyceps, and Shilajit for regeneration of degenerative conditions. Innovative uses of the Corey Coil antenna and phased array antenna for deep earth cleansing.

Stephen Quong - is recognized internationally as one of the foremost Vedic Astrologers in the Western world. He has been certified as an instructor of Qi-Mag Feng Shui and Tao Geomancy; Qinqway Qigong; Vipassana Meditation, the Yuen Method of energetic healing, and the Medicine Buddha Healing Dharma. He has also studied and practiced Pranic Healing, Matrix Energetics, Quantum Healing, Neutrakon hypnotherapy, and many other healing modalities for many years. Stephen has practiced and taught dowsing and energy healing since 1972, and worked with radionic devices for over 30 years. His presentation will introduce various concepts and techniques from Vedic, Buddhist, Taoist and Shamanistic traditions, which can enhance our use of Kelly-type, analog radionic devices. His full biography is available online at www.jyotisha.com/bio.html. Email: smquong@gmail.com. Office telephone: (925) 754 8858 PT.

4PM - 5PM - **Ron Barone and Tim Lippert**

What do you do with your results after running your sheets? Ron and Tim will present a case study and explain what they would each do after running the sheets.

7PM - 8:30PM - **Raymon Grace Video/Social Time**

Raymon Grace presents via video prepared just for this conference. Social time to follow.

Day 3

October 28, 2017 - 8AM to 5PM

8AM - 9AM - **Scott Ertl**

Scott will be teaching about Magnetism and Polarity, which are the two most important things in life. He will be sharing Radionic and Dowsing technology which will lead to the understanding of how to analyze and correct imbalances in Magnetism. He will also discuss ways to analyze and remedy reverse polarity.

Scott Ertl is a Master Dowser, Weird Energy Expert/Energy Mechanic, Stray Voltage Specialist. He is the Inventor of the Patented Stray Voltage Device called the "Ertlizer". Through his work with Stray Voltage, he also solves Geopathic and Spiritual issues around the world. In his spare time he operates an Organic Dairy Farm in Marshfield, WI. Scott has spent the last 20 years researching and developing tried and true strategies that remedy many types of issues for people, animals and properties.

9:15AM - 10:15AM - **Marty Lucas**

The raw energy of life can be called Chi. When there is ample Chi, the body is healthy, but not all Chi is the same. Its structure mirrors that of bio-photons. So there is some that helps the body to repair itself, there is some that supports replication and some that moves the body towards recycling. By managing the mixture of Chi in a subject we can support the repair and replication functions. Balancing Chi works at a more fundamental level than even Somatids! This work peels another layer from the 'onion'!

Marty Lucas, Every Advantage Ag, Urbandale, IA - Marty Lucas is a full-time Radionic Practitioner and teacher out of central Iowa. He is known for in-depth and far-reaching research into the fringes of radionic practice. He is able to present complex scientific and esoteric subjects into easy to understand protocols and procedures.

2017 Radionics Symposium

Taught By the Masters

Day 3 Continued

October 28, 2017 - 8AM to 5PM

10:30AM - 11:30AM - Robin Hermanson

A high-stress lifestyle coupled with improper eating habits can wreak havoc on delicate hormonal balance. Symptoms of hormonal imbalance may include PMS, osteoporosis, weight gain, altered sex drive, allergies, fibroids, urinary track infections, fatigue, anxiety, water retention, hair loss, even depression. Keeping hormones in balance results in healthy weight and optimal energy levels. How to measure your hormone levels, what hyper tonicity or hypo tonicity of what organs, what deficiencies of vitamins, what parasites and toxins contribute to imbalances and how to balance your hormones naturally will be discussed.

Robin Hermanson, Garretson, SD - Robin is a Professional Mechanical Engineer, Green Building Engineer and Certified Energy Manager. He is also a Certified Organic Farmer and has 360 acres. For 14 years, Robin has researched health and longevity through the Reams Biological Theory of Ionization. Robin is a veteran radionics operator helping people solve a wide range of health problems with alternative methods and detoxification.

1PM - 2:30PM - Dr. Linda Lancaster

Radiesthesia is the ability to detect vibrations of force fields emanating from minerals, plants, animals and humans. Every living cell is like an electric battery broadcasting a pulsing rhythm, creating a field. The ability to contact these fields is called Radiesthesia. Medical Radiesthesia is a method of discovering information from energy fields around the human being, animals and plants. The Parcels System utilizes a pendulum and a Determination Board to measure these frequencies. While the applications of Medical Radiesthesia are vast, Dr. Linda will teach an effective approach to taking care of yourself and your family through this system of Radionics.

Dr. Linda Lancaster - Dr. Linda is a Board Certified Naturopathic Physician and Homeopath. She has been in practice since 1981 and founded Light Harmonics Institute, an Energy Medicine Clinic and Educational Center based in Santa Fe, New Mexico and maintains clinics in Santa Fe and New York City. Her training includes Classical Homeopathy, Radionics, Medical Radiesthesia, Subtle Energy Healing, Nutrition, Herbal Medicine, Ayurveda and Detoxification Methods. Her health and cleansing programs have been offered to her patients for more than 30 years.

2:45PM - 3:45PM - Ed Kelly

Ed Kelly will share the work of KRT veteran Cathie Jordan and his step-mom Marianne Keeler-Kelly, who collaborated for years on advanced potentizing projects. Emphasis will be placed on delivering ideas, techniques, and lessons learned that can be applied directly to the projects of new and intermediate users. We will also discuss ways to utilize potentized materials for maximum impact and effectiveness.

Ed Kelly, Kelly Research Technologies - KRT (www.kellyresearchtech.com) has been delivering radionic instruments, equipment, and information to the world for 37 years. Sister company BETAR USA (www.betar.com) produces focused vibroacoustic sound therapy systems that allow riders to literally *feel* their favorite music - every note and drum beat - as a sonic energy massage that melts away physical pain, emotional stress, and/or mental anxiety. Ed Kelly took the leadership position in these firms following the untimely passage of his father, founder Peter J. Kelly, in 2004. Ed has been involved in radionics and the esoteric arts for his entire life, literally growing up around such giants as T. Galen Hieronymus, Thomas Bearden, Bob Beck, Bob Beutlich, and countless other inventors and researchers. Ed has a BS in Geology from the University of Georgia, an MBA from Kennesaw State University, and served the nation in the U.S. Marines.

4PM - 5PM - Questions & Answers with the Teachers

All teachers will be available for you to ask questions and get clarification.

2017 Radionics Symposium

Taught By the Masters

Kids Energy Classes

October 28, 2017 - 8AM to 11:30AM

Kids ages 7-20. No Fee. Registration Required.

8AM - 9AM - Playing with Energy, Meditation, and Energy Art

Sarah will show how energy exists all around us and how it can be used to help us. She will teach simple energy balancing techniques that can be done daily such as centering, grounding, clearing and protecting. We will also draw our souls after we do a See Your Soul Meditation. Taught by Sarah Emond.

9:15AM - 10:15AM - Kid's Radionics Class

Ed and Sarah will explain the basic principles of the radionics instrument, then the group will work together to do hands-on testing of the energy levels of common foods and beverages. Taught by Ed Kelly. Sarah Emond assisting.

10:30AM - 11:30AM - Kid's Dowsing Class

In this session, participants will be shown how to make and use their own dowsing tools. They will learn how to dowse with L rods, pendulums, body dowsing and bobbles. They will be taught how to utilize dowsing in their everyday life. We will cover a couple of fun dowsing games and all kids will go home with a great basic dowsing kit! Parents are welcome to sit in on the class! Taught by Scott Ertl and Sarah Emond.

Early Bird Symposium Price

(Registrations received by July 31, 2017)

Early Bird Nonrefundable Registration Fee

☐ Individual

\$650.00

\$100.00

☐ Married Couple

\$1,000.00

\$200.00

Symposium Price

(Registrations received after August 1, 2017)

Nonrefundable Registration Fee

☐ Individual

\$675.00

\$125.00

☐ Married Couple

\$1,050.00

\$250.00

Included Nonrefundable Registration Fee Paid by: ☐ Check ☐ Money Order

Payable to **All Saints Church** and marked as **DONATION** in memo.

I understand that:

☐ I need to include the Nonrefundable Registration Fee with this registration form.

☐ That the remainder of the fee must be **paid in cash only** at the beginning of the symposium.

No checks, money orders or credit cards will be accepted.

☐ Equipment is not required to participate in the symposium.

☐ If I choose to attend the Advanced Radionics Class by Ed Kelly that I must register separately by calling 706-782-2524 or emailing cathie@kellyresearchtech.com.

Accommodations

Rooms at the Best Western Ramkota Hotel will be available at a special rate of \$83.99 per night plus taxes. King room or 2 Queens. For reservations call 605-343-8550 and request All Saints Church group rate.

KRT Radionics Workshops: **Rapid City, South Dakota**

Kelly Research Technologies is very proud to participate in All Saints Church Ministry's **2017 Radionics Symposium: Taught by the Masters** on **October 24-28** in Rapid City, South Dakota. KRT President Ed Kelly will open the proceedings by delivering **KRT Advanced Radionics** on **October 24-25** – a hands-on workshop designed to improve your skills and your quality of life. Then, stay from **October 26-28** for presentations and conversations with radionics experts, inventors, energy healers, and agriculture experts like Dr. Ron Barone, Sarah Emond, Cory Stover, Pete Radatti, Brian Besco, George Kuepper, Gary Blackwell, Tim Lippert, Tammy Steuber, Stephen Quong, Scott Ertl, Marty Lucas, Robin Hermanson, Dr. Linda Lancaster, and your own Ed Kelly. A cavalcade of new knowledge and new tools to apply to your home, business, and the wider world!

KRT ADVANCED RADIONICS: October 24-25, 2017

Rapid City, SD

KRT President Ed Kelly deliver a two-day course in which participants will learn and practice creation of a crystal clear statement of intent, cold scanning of a highly-accurate radionic rate, and potentization of that rate and applicable reagents into a personal object brought to the class. *Remember to bring a personal object and your biggest wish or desire for 2017/2018!*

- Crystallizing focused intent
- Cold-scanning primary & supporting rates
- Potentizing for multi-octave impact
- Selecting/testing reagents and tones
- Systematic Elimination of Negative Energy Patterns and Dissonance

Individual Enrollment

\$400.00

Accessory Potentizer w/Acrylic Imprint Well (Pyrex Well +\$50)

\$300.00

A Potentizer or Replicator is required for this class! Please order by September 30 if you need a unit.

Instrument Rental

\$50.00

Includes a Personal Instrument set and an Accessory Potentizer. Supplies are limited!

Enroll today!

Call: **706-782-2524** or email: **cathie@kellyresearchtech.com**

Radionics Symposium: Taught by the Masters October 26-28, 2015

Rapid City, SD

Three days of focused study with fifteen radionics experts, energy users, and ag specialists, plus vendors/exhibitors and your fellow researchers. KRT's Ed Kelly will deliver a presentation on **Advanced Potentizing**, sharing the work of +30 year KRT veteran Cathie Jordan and his step-mom Marianne Keeler-Kelly, who collaborated for years on advanced potentizing projects.

This meeting is now in its 5th year and continues to be an annual highlight for us at KRT. It's an unparalleled opportunity to meet and spend time sharing ideas face-to-face with other daily users of radionics technology and the healing arts.

Enrollment: Individual/Married Couples – Before July 31

\$650.00/\$1,000.00

Enrollment: Individual/Married Couples - After August 1

\$675.00/\$1,050.00

NOTE: The universal radionic concepts covered in class will equip participants to conduct radionic research in any area of interest. However, human health issues cannot be covered at any time. Regrettably, any questions concerning human health will have to be declined.

Bring: Bring an object to potentizer, a two-dial instrument, and a potentizer. *Order by September 30, 2017, if you need to order a Potentizer!*

Enroll: All prices are in US dollars. All registration must be paid by credit card or PayPal. Call to enroll via credit card at (706) 782-2524, or complete and fax the following enrollment form to (706) 782-1047. PayPal payments should be directed to: sales@kellyresearchtech.com. Send other correspondence to KRT, Inc., PO Box 128, Lakemont, GA, 30552, USA.

Food: Participants will be responsible for their own meals.

Expiration Date:	3 or 4 Digit Security Code:	Signature of Authorization:

To enroll in the Radionics Symposium - Taught by the Masters, send a non-refundable \$100 registration fee marked "donation" to All Saints Church, PO Box 86, Black Hawk, SD 57718, then pay the balance in cash at the door. Contact Dr. Ron Barone with any questions at: (605) 787-5620 or livingwordministry8@yahoo.com. No equipment is needed for the Radionics Symposium.

Where: **KRT Advanced Radionics** and the **Radionics Symposium - Taught by the Masters** will both be held at the **Best Western Ramkota Hotel** at 2111 N. LaCrosse Street, Rapid City, SD 57701. A special group rate of \$83.99 per night is available at the by asking for "All Saints Church" group rate. Call: 605-343-8550 to book your room, or visit: <http://goo.gl/rDdFBS> to learn more.

Annual Conference 2017

15th - 17th September

Stamford Court, University of Leicester, Manor Road, Oadby, LE2 2LH

A weekend of self-exploration & inspiration with workshops to both challenge & enhance your dowsing abilities

		Member	Non-member
Residential Full Weekend	(11.30am Fri - 5pm Sun)	£300*	£350*
Residential Short Weekend	(8.30am Sat - 5pm Sun)	£250*	£300*
Day Delegate - Saturday	(8.30am - 5pm inc lunch)	£80*	£105*
Day Delegate - Sunday	(8.30am - 5pm inc lunch)	£80*	£105*

*Book now to get these Early Bird Offers. Offers end 30/06/2017.

Full line-up to be announced soon.

To book, please visit our website
www.britishdowsters.org

The British Society of Dowsters is a Registered Charity (No 295911)
and a Company Limited by Guarantee (Registered Number 2154580).

Raymon Grace Dowsing Seminar Announcement, Blue Earth, Minnesota, September 28-30, 2017

Announcing the upcoming Dowsing Seminar with Raymon Grace! We invite all our like minded contacts to attend. Please forward the following in it's entirety to your contacts who may be interested in attending. We have set aside a block of rooms with the AAA discounted rate at the AmericInn Lodge & Suites, 1495 Domes Drive, in Blue Earth, MN for Sept. 28-30. You will need to call and reserve your own double queen by August 28, 2017. Just ask for the rooms under Livestock Innovations, Inc. for Sept 28-30. The number for the hotel is 507-526-4215.

Self Empowerment Seminar Stacking the deck of Life in Your Favor of Intent

by Raymon Grace

Blue Earth, Minnesota

**Class Date: Sept. 29 & 30
Time 9 am – 5 pm**

Sept 29 & 30 is my normal class working with the mind and the things listed below. Fee \$325 requesting a check of \$100 by Sept. 1st. Please bring CASH and your check will be returned to you.

Please enclose a note with your check with your phone number and email address printed so we can read it.

Contact; Timothy Lippert [cell] 507-381-3421

Location:
Hamilton Hall
202 S Moore Street
Blue Earth, Mn. 56013

Send \$100 deposit check to;
Tim Lippert
Livestock Innovations, Inc.
24085 480th Avenue
Easton, MN 56025
Ph: 507-787-2397
cell: 507-381-3421 [Timothy]

NO recording permitted.

Learn How To:

Reach the Alpha Brain Frequency, including the numerous benefits.
This adds power to your thoughts.

Reducing stress.

Mentally communicate with a person to eliminate arguments.

Plant positive suggestions in your own mind to change your belief system.

Positively influence the behavior of a person at a distance and cause them to treat you better.

Do healing work with the pendulum.

Send healing energy to a person at a distance.

Reach a realm of the Spirit World – A Native American healing technique- The Medicine Place.

Meet your Spirit Guides and use them.

Change a negative situation into a positive one – reduce the effect of past trauma.

Bring a bottle of water to be energized for a supply of energized water.

Find and eliminate various negative influences.

Receive detailed information on effectively clearing the energy of people and property.

Perform Exorcism safely.

Change the energy in your family, home and community for improved health and compatibility.

Employ techniques for attracting prosperity.

AND MORE! LOTS MORE!!

Real life examples will be given on all the techniques taught each day. Time will be provided for question and answer sessions.

Raymon Grace, founder and president of Raymon Grace Foundation, is a dowser, lecturer and author of three books, “The Future if Yours- Do Something About It”, “Techniques That Work For Me” and “Seasons of April”. He has created 40 DVDs sharing information learned over the past 40 years. His books have all been printed in both English and Chinese.

His work has reached 142 countries for improving water and other areas of self improvement. He has been a guest on numerous radio talk shows including the well known “Coast to Coast AM Radio”. He was recognized by the Virginia State Senate for his work. He is a down to earth plain spoken person who tells it as he sees it. His dress clothes are jeans and cowboy boots and he doesn’t own a suit and tie. He’s real.

If folks want to learn more about me and my work, they can watch a free video “Blueprint For Freedom” by going to www.raymongracefoundation.org and clicking on ‘What we do’.

Among the Missing, (and Updates): A Column about Missing People, Organizations, Periodicals, Books, Artifacts, and Collections in the Psychotronics Field

by John H. Reed, M.D

This is a new “column” or section of the USPA Newsletter, and will be an ongoing part of every issue, with the purpose of helping the USPA, as well as, our members and research associates locate people, organizations, periodicals, books, artifacts, devices, collections, and other items that have seemingly disappeared, or have been extremely difficult to find. **Updates will be added, and each missing item will be retained in future issues until it is found or otherwise resolved, since some readers may not have seen prior issues of the USPA Newsletter or the original notice of the missing item.**

In addition, this will also serve as a “People Locator Service” to help find authors and researchers on psychotronics, radionics, subtle energies, energy medicine, and related subjects, who have “disappeared” or have died long ago, and whose relatives you may be trying to find in order to preserve the research papers and collection of that person.

In our research and reading, we all have encountered people, organizations, periodicals, books, articles, or other things that we have tried to find, and some people have searched for years to find something, but have not yet found it, despite the vast resources of the Internet. However, with our large USPA membership, we can all help one another find what we have been searching for. Some of you may have experience in genealogical research, or private investigation, law enforcement, or even intelligence work which you could utilize to help each other, or perhaps just make suggestions on how or where to search for something.

So if there is anything you have been searching for and need help to find, please write to me, John H. Reed, M.D. at: joreed43@gmail.com, and I will include your search help request in the next and subsequent issues of the USPA Newsletter. And if you have any information about an item that is listed in “Among the Missing”, please write to the same email address and share what you know or your suggestions. If there is something that is confidential, your confidentiality request will be honored and protected.

Missing and Mysterious Stone: The “Swedish Stone” of T. Henry Moray’s “Free Energy” Device:

Has anyone done any research on what the substance called “Swedish Stone” is that T. Henry Moray used in the 1920s to extract energy from cosmic rays and produce electricity? According to Moray’s original diaries, he discovered the stone somewhere near the city of Abisko, Sweden, in 1913 when he was there doing his overseas Mormon missionary service. He brought the stone back to the US and subsequently created a device using the stone to produce electricity in much the same

way that silicon is used to produce electricity when struck by light. However, the Swedish stone used in Moray's device apparently had the particular molecular and/or crystalline structure such that it would produce electricity when struck with **cosmic rays**, which constantly strike the earth. And since cosmic rays are an electromagnetic wave with much higher energy than light, which is also an electromagnetic wave, Moray's device produced a great deal more electricity than any current silicon based devices of similar size.

Since cosmic rays flood the universe, clearly such a device could provide essentially free electrical power anywhere on earth or anywhere else in the universe. Some have hypothesized that the Swedish stone was a radioactive substance, whose radioactivity was used to produce the electricity. However, others believe that the Swedish stone was not radioactive, but just happened to have the particular structure necessary to convert cosmic rays to electricity. Theoretically there are substances like silicon, only of a different structure, that will convert each of the electromagnetic wave frequencies to electricity, and perhaps Moray just accidentally discovered the substance that would do this with cosmic waves. **Please contact the editor if you have any information about this "Swedish Stone" substance: joreed43@gmail.com**

Missing Book: Dr. Stefan Manczarski's book, *The Problem of Thought Transference in the Light of Radio-Technical Investigations*, 1945 English version

Has anyone ever seen the book, *The Problem of Thought Transference in the Light of Radio-Technical Investigations*, by Stefan Manczarski, published in England in 1945, in which he discussed at length how telepathy, dowsing, and other phenomena might physically occur?

There are at least two references that state that this book was published in England in 1945, apparently in English:

- 1) A 1962 issue of International Journal of Parapsychology
- 2) In Daniel S. Halacy's 1966 book, *Radiation, Magnetism and Living Things* - page 103

The problem with the 1945 publication date is that this book was originally published in Polish in Warsaw, Poland, in 1946, and the only library in the world that has the Polish version is the National Library of Poland. It is not in any library in the US or UK, including the Library of Congress and the British National Library (formerly British Museum Library). Also, it is not recorded in the British copyright office. It is highly unlikely that Manczarski would have had the manuscript translated into English, and published in England before he published it in his native language and country of Poland. So the two references above are probably in error, but stranger things in the publishing world have happened.

I have been able to determine that this book was serialized in 1946-47 in six issues of the **Polish periodical, *Przegląd Telekomunikacyjny : miesięcznik poświęcony sprawom telefonji, telegrafji, sygnalizacji, radja* (Telecommunication Review:**

monthly magazine devoted to matters of telephony, telegraphy, signaling, radio)
1946, No. 10, 11, 12 and 1947, No. 1, 2, and 3.

It would be very useful if this book were indeed published in English, because Mancsarski was an important, but little known researcher on antennas and EM waves, and it would be extremely interesting to see his thoughts on the physical explanation of dowsing, thought transference, and other phenomena.

If you happen to know anything about this book, please contact the editor, John H. Reed, at: joreed43@gmail.com. If you happen to have a copy of the book in your personal collection, in either Polish or English, the USPA Library would greatly appreciate it if you would make a xerox copy of it for the library, which you can scan and email as a PDF, or send the physical copy to: USPA Library and Archives, 4401 Roland Avenue, Unit 405, Baltimore, MD 21210. And if you happen to be located in or visiting Warsaw, Poland, we certainly would greatly appreciate it if you could go to the National Library of Poland and either make a xerox or digital copy of the book, or of the serialized edition in the above Polish journal.

Andrija Puharich's Lost Manuscript and other Puharich Mysteries by Greg Mallozzi

During the late 60s and into the 70s, Puharich owned and worked out of a large house in rural Ossining, New York. A home laboratory known as Lab 9. Lab 9 produced the most mysterious and far out work that Puharich was involved in when he began to delve deeper and deeper into parapsychological, experimental research: like alleged communication with extraterrestrial beings VIA trance mediumship and ELF (extremely low frequency) waves and their effect on the brain.

At Lab 9, Puharich worked with a faraday cage, a large cage that blocks electrostatic and electromagnetic influences. Puharich found that when a subject was placed inside the faraday cage and a certain level of specially controlled electromagnetic waves were sent through the cage, the subjects ESP abilities were heightened significantly. He conducted what some have called inhumane, psychological experiments on human subjects. Lab 9, like The Round Table Foundation, began to attract people from all walks of life.

Shrouded in controversy, the new film on the life of Dr. Andrija Puharich that we are producing will show what Lab 9 was really like, using never before seen photos, videos and transcripts. In 1978, a mysterious attempt to burn down Lab 9 was made. The town of Ossining ruled it arson. Puharich's publisher, Doubleday, was also broken into at this time and the manuscript he was working on was destroyed. Was someone out to get Puharich, to discredit and sabotage his work? If so, who? People who were present at Lab 9 at the time of the infamous fire will weigh in on what really happened, which to this day is unsolved.

If anyone has any knowledge about the missing manuscript or other mysteries surrounding the life of Dr. Andrija Puharich or has any video tapes, audio tapes, or correspondence of Puharich, please contact:

Greg Mallozzi at: gregorymallozzi@gmail.com or the editor John Reed at: joreed43@gmail.com

Combo Mystery: Missing Person, Organization, and Book, All Related

Person: Dr. Floyd S. Graham, Sr. **Organizations:** Radionic Laboratories and Radiant Associates, Inc. founded by Floyd S. Graham, Sr. **Book:** The Radiant Era, by Floyd S. Graham, Sr.

This is our first “Combo Mystery” of a missing person, the organization(s) he founded, and the book that he wrote. The organization “Radionic Laboratories” was referred to in the American Society of Dowsers Quarterly Digest, Vol. 4, No. 2 (May, 1964), page 22, in a letter to the editor, by Dr. Floyd S. Graham, Jr. It indicated that Dr. Graham was the president of the “International Headquarters Unit” of “Radionic Laboratories”, located in the small town of Tumtum, Washington, which is located northwest of Spokane, WA. The letter was signed “Radiant Associates, Inc.”.

These names suggest that there may have been two different organizations, or that the “Radionic Laboratories” was part of the corporation, “Radiant Associates, Inc. However, I checked my database of incorporated organizations, which covers both profit and non-profit corporations, operating or defunct, that have been formed in the United States and worldwide since the early 1900’s, and neither name was shown as ever having existed in the State of Washington. But since the letter was written and published in 1964, there is little doubt that Dr. Graham and the organization entities he mentioned did exist at that time in Tumtum, WA.

A further mystery related to Dr. Graham is the booklet he wrote titled, “The Radiant Era”, date and place of publication unknown. It is being offered for sale online, with a photo, as shown at left. It is said to be published by the Journal of Natural Living, and is 22 pages long, stapled, and sized 6.75 by 7.75 inches.

However, a check of the WorldCat database, which lists the holdings of every library in the United States, Canada, and the UK, including the Library of Congress and the famous British Library (AKA British Museum Library), shows that this booklet by Dr. Graham is not located in any known library.

So if you know anything about Dr. Floyd S. Graham, Sr., the Radionic Laboratories, or Radiant Associates, Inc., in Tumtum, Washington, or anything about his booklet, The Radiant Era, please contact the editor, John H. Reed, at: joreed43@gmail.com. If you happen to have a copy of the booklet in your

personal collection, the USPA Library would greatly appreciate it if you would make a xerox copy of it for the library, which you can scan and email as a PDF, or send the physical copy to: USPA Library and Archives, 4401 Roland Avenue, Unit 405, Baltimore, MD 21210.

Missing Devices:

1. **The AGRAD Machine:** In the 1970's Mankind Research Unlimited, Inc.(MRU), headed by Dr. Carl Schleicher, was offering for sale a device called the AGRAD Machine. It was intended to be used in the electromagnetic treatment of crops and the control of insect populations, and sold for \$390.00. MRU claimed that AGRAD machines had been used for several years by MRU researchers to conduct experimental applications of the type described in **The Secret Life of Plants** by Christopher Bird and Peter Tompkins, and **Report on Radionics** by Edward W. Russell. Theoretically, the AGRAD machine was intended to produce effects through electromagnetic wavefronts that would interact with and control insects by disturbing the insect sensor mechanisms. A photo of the device and additional information appeared in one of MRU's publications [which you can access here.](#)

Missing Organizations:

1. **American Electronic Research Association (AERA):** Albert Abrams established the American Electronic Research Association in the early 1920s and it continued to operate until at least 1935, when John F. Spaunhurst was the president of AERA, according to the 1935 Edition of Who's Who Among Association Executives. The AERA published the monthly Journal of the American Electronic Research Association from 1924 through some point in 1936, when it ceased publication, according to Harvard University records.. Only two libraries in the world are known to have issues of this periodical. There are only two issues in the Harvard University Medical School Library, and the Kirkwood School of Osteopathic Medicine has one issue. If you know anything about this organization, or happen to have any issues of its journal, please contact the USPA Journal and Newsletter editor, John Reed at: joreed43@gmail.com.
2. **International Association for Psychotronic Research (IAPR):** Does anyone know what became of the International Association for Psychotronic Research? And do any of you have copies of its meeting proceedings or newsletter, if such a newsletter were published? It was founded in 1973, even before the United States Psychotronic Association (USPA), which was founded in 1975. However, the current location or activities of the IAPR are unknown.

The IAPR held numerous international conferences around the world, beginning with its first in 1974 in Prague, then Czechoslovakia. At this conference, Dr. Zdenek Rejdak was elected president for the Eastern Division of the IAPR, and Dr. Stanley Krippner was elected president for the West. The 8th International Conference on Psychotronic Research was held in Milwaukee, Wisconsin, 1993, as a joint conference with the United States Psychotronics Association (USPA), but it is unknown if any subsequent conferences of the IAPR were held.

Proceedings of each of these conferences were published. If copies of these proceedings can be obtained, or any newsletters that it may have published, we will add them to the USPA Library and make them available to USPA members. If you have any knowledge about this organization, please write to the editor at: joreed43@gmail.com

3. **International Radionics Association (IRA):** Does anyone know anything about the **International Radionics Association (IRA)**, which was located in Springfield, Missouri in the late 1940s. This is known, because a book called **The Truth about Radionics** was published in 1947 by this organization, and although the author's name is anonymous, it is highly probable that the author was T. Galen Hieronymus, who passed away many years ago.

I checked several newspaper databases, and references to this organization were found in the press as far back as the early 1930s, and as late as the early 1960s, but nothing more recent than that. If you have any knowledge about this organization, please write to the editor at: joreed43@gmail.com

Missing People, and Updates:

Missing USPA Related People:

We are trying to track down some of the original directors and officers of the United States Psychotronics Association (USPA), when it was organized in 1975, with the word "Radionics" in the organization title. Does anyone have any information on the current whereabouts of the following people, or family members, if the person is known to have passed away, or where they passed away?? Please check Ancestry.com, social media websites, newspaper archives, and any other databases you have to help find these people.

1. **Paul Sauvin**, USPA 2nd Vice Pres., 1976 and 1st Vice Pres., 1977. Paul Sauvin, whose full name is Pierre Paul Sauvin, is an electrical engineer and inventor who, [according to one source](#), worked in the aerospace industry and later with the National Institute for Rehabilitation Engineering at St. Joseph's Hospital in

Paterson, NJ. He also worked with Dr. Carl Schleicher, head of Mankind Research Unlimited, and helped develop a device called the "[AGRAD Machine](#)". This device was designed to control crop insects, and was introduced on an experimental basis, although it is not known if it ever reached commercial production. Paul Sauvin's mother was Edith Sauvin, who lived in White Plains, NY, and died August 25th, 1987. Edith's only child was Pierre Paul Sauvin, who himself had 2 sons, Alan Paul Sauvin and Steven Eric Sauvin. He also had one daughter, Jane Elizabeth Sauvin. Any help in locating the children of Paul Sauvin would be greatly appreciated, and please write to joreed43@gmail.com.

2. Dr. Marcel Vogel and his Research Papers: Does anyone know what became of the papers and files of Dr. Marcel Vogel, who died in 1991? Dr. Vogel did extensive research on crystals and crystal healing, pyramid power, the "Backster Effect" involving plants and their bioenergetic fields, and a number of other psychotronics related subjects. He also spoke numerous times at USPA conferences. Marcel Vogel worked at IBM for 27 years and had 32 patents. If you have any knowledge about Marcel Vogel and what became of his papers and files after he died, please write to your editor at: joreed43@gmail.com. The USPA would like to make sure that all of his papers are preserved.

3. Henry Nagorka, USPA 1st Vice Pres., 1975 and 1976, and then President, of the USPA in 1977.

Missing Periodicals:

1. British Journal of Radiesthesia and Radionics: Does anyone have any issues of The British Journal of Radiesthesia and Radionics. It was published in London, England, by the British Radiesthesia Association, 1953-1963. The original title was **British Journal of Radiesthesia**, published from 1953-1957. No libraries in the United States, public or university, have this journal in their collection., and only five libraries elsewhere in the world are known to have any issues at all: The British Museum Library (AKA The British Library), Oxford, Cambridge, the National Library of Scotland, and Trinity College Library, in Dublin Ireland. If you have any issues of this periodical, will you please let me know? And for our members and associates in The UK and Ireland, if you can access these periodicals at any of the above libraries, you would do a huge service for all of us if you would Xerox what issues are available and send them to me. A generous donor has offered to pay whatever expenses are involved for doing this service. We will add them to the USPA Library and make them available to researchers. Please contact the editor at: joreed43@gmail.com

2. Journal of Scientific Controversy. This periodical was referred to on [page 49 of the Vol. 1, No. 1 \(Spring, 1967\) issue of the INFO: The Journal of the International Fortean Organization](#). Someone was trying to find out about it even then, 49 years ago, and said that this journal was “formerly published in Boulder , Colorado” implying that it may have ceased publication prior to 1967, or that it moved somewhere else after being published for a period of time in Boulder. I have searched the WorldCat, which shows the periodical holdings of virtually every public and university library in the United States and Canada, and many of the large libraries in the UK and elsewhere overseas. But this title, or anything close to it does not exist in the WorldCat database, so that indicates that this periodical title is not held in any library, even special collections, which are also included in WorldCat. However, this does not mean that the periodical does not exist, since many periodicals in the psychotronics , scientific anomalies and similar fields are excluded from libraries. If any of you have ever heard of this periodical or know anything about it, such as its editor, publisher, or other information, please write to the editor at: joreed43@gmail.com

Missing Books:

Rhea White and Larissa Vilenskaya wrote a book titled **Parapsychology in the Soviet Union, Eastern Europe, and China: A Compendium of Information**. It was supposedly published by Scarecrow Press of Metuchen, NJ, a well know publisher of reference books. This book was listed as reference work #680 on [page 213 of Rhea White's book, Parapsychology: New Sources of Information, 1973-1989](#) , also published by Scarecrow Press. I called the publisher, and they said they have never published this book, and know nothing about it. As you can see from entry #680, Rhea White noted that this book was “in press”, so it may have been in a preparation stage, but the manuscript may never have been sent to Scarecrow Press.

Again, I have searched the WorldCat, which shows books and monograph holdings of virtually every public and university library in the United States and Canada, and many of the large libraries in the UK and elsewhere in the world. But this book title does not exist in the WorldCat database, which indicates that this book is not held in any library, even special collections, which are also included in WorldCat. Unfortunately, I was unable to ask either of the authors about this, since both have passed away.

Rhea White was a well known parapsychology researcher, so some of you may have known her or heard her speak of the missing book manuscript that she was working on. Larissa Vilenskaya was from Russia, but lived and worked in the San Francisco area, and she was a prolific researcher on Russian and Eastern European psychotronics research. Please write to your editor at: joreed43@gmail.com if you have any information about this at all.

A METHOD OF PHOTOGRAPHING ETHERIC ENERGY
WITHOUT THE NEED OF SPECIAL OPERATOR PROPERTIES

Michael Watson

At various times attempts have been made to photograph etheric forces. The first person to have produced something more or less systematically seems to have been Ruth Drown some fifty years ago. This was later followed by the work of Delawarr. However, it appears that the methods of these researchers relied on a certain property of the operator to act on a photographic plate in total darkness simply by touching it or merely by proximity. [1]

Other operators without this property could produce little or nothing using either the Drown or the Delawarr method. The requirement for the operator to have the property of effecting a photographic plate without the intervention of light puts any results in the same category as psychic photography.

Psychic photography depends on the person having 'mediumistic abilities', which seem to stem from the human body having the property of emanating a peculiar substance called ectoplasm. This remarkable substance has the property of acting on a photographic plate on the one hand and of being capable of receiving impressions from the unconscious mind of the person on the other.

My own experiments suggest that probably all human beings produce this substance in small quantities and that mediumistic people represent an extreme case. It seems that the modern way of life dissipates it. Intellectual activity reduces it enormously as does any activity that taxes the nervous system such as noise, anxiety, etc.

The writer, long ago, tried to produce direct effects on a photographic plate with absolutely no result. Trials with the Drown camera [2] and a simplified version of the Delawarr camera [3] also yielded nothing. It became clear that the answer did not lie in the instruments, but at the time there was little published information on the Delawarr method and little was (and still is) known about how Drown produced her results. The operator reliance of the Delawarr camera had not then been published and there was always the possibility that he had made some fundamental discovery that rendered direct photography possible.

While performing these experiments the writer was using bromide lantern plates (still available then) and a photographic safelight in the form of a large beehive neon lamp. It turned out that the neon lamp

was not quite safe, that is, it was producing sufficient ultraviolet and blue light to fog a plate held close to it.

During one of the experiments the photographic plate was held close to the neon to see if there was anything on it. There was nothing to start with, but rapidly, a curious pattern started to appear on the plate. After fixing, the pattern bore a remarkable resemblance to some of the Drown pictures. Further experiments showed that the effect was due to the plate becoming fogged by the residual blue light coming from the neon. The plate, having been in the developer, was still wet, and consequently, the plate started to turn black in the usual way. The plate did not turn black uniformly and this seemed to be due to the uneven action of the developer. The places where the developer film was thickest developed the most rapidly.

Despite the clear physical explanation, the similarity to Drown's pictures triggered the idea that perhaps the etheric forces were at play in addition to the developer patterning. This is not to suggest that Drown used such a method, as far as is known she used the ordinary photographic process. The idea was that the etheric force from man is normally too feeble to effect a photographic plate directly but it may be able to modify the rate of development of the plate. The writer eventually convinced himself that this indeed happens, at least sometimes and that some of the failures were due to the difficulties in interpreting the result.

The physical energy needed by the weak ectoplasm or etheric force would be a great deal less if all it had to do was to guide the already operating energy of the developer chemistry. Further experiments suggested that not only did the etheric force modify the development rate but it acted so as to inhibit or accelerate the diffusion of the developer out of the photographic emulsion. To exploit this effect the process was modified. The following process is performed in total darkness or under a proper photographic safelight. The photographic plate is exposed to the source of etheric energy for a few seconds. As will be discussed later, this is not strictly necessary but it serves to concentrate the attention of the operator. The plate is then soaked in developer for a few minutes. After this it is drained and transferred to a water bath in which there is a little acetic acid. The plate must be plunged as rapidly as possible, emulsion side up, into the water bath. After a precise period which usually less than ten seconds, a bright white light is switched on above the water bath. A few seconds later the image will gradually appear on the plate. During the image development and subsequently, the light remains on. When the image has fully appeared, or earlier if it is becoming too dense, the plate is transferred to the conventional rapid fixer bath. That is an outline of the process.

Details of the method:

The developer is 2 parts water / 1 part developer, such as Johnsons 'Universol' or any bromide paper developer.

The stop bath is 5ml glacial acetic acid in 1 litre tap water.

The fixer bath is a standard rapid fixer made up according to the manufacturers instructions.

All solutions should be used at a temperature of 18 +/- 3 degrees Celsius. This is to standardise results, other temperatures can be used,

but if so should be noted.

The time in the stop bath before the light is put on is the controlling factor. The light should be no more than 2 feet away and directly above the stop bath. A standard 100 watt bulb is satisfactory. The time between plunging the plate into the stop bath and turning on the light is best done automatically, but good, if somewhat variable results can be obtained by counting for example; "one A,B" - "two A,B" - etc. The time is usually about 4 seconds, but if there is excessive random patterning due to developer turbulence, (there will always be some), the time may be extended a few seconds. Do not use the stop bath for more than 6 plates before replacing it. Always use a litre at a time and ensure it is at least 3 cms deep.

Photographic materials:

Glass photographic plates are the best but are virtually unobtainable now. Kodak produce a plate called the 'High resolution plate 1a'. For a quarter plate size they cost £55 for 30! The cheapest solution is to use resin backed papers such as Ilfospeed. They must be held as flat as possible with double sided scotch tape onto a sheet of glass or rigid plastic. Cut film can also be used and it produces good results but since it is panchromatic it must be handled in total darkness during the developer saturation phase of the process.

For some not too clear reason, heating the papers or plates to about 80 deg celsius for 1 hour before use, greatly improves the result. Both the plates and papers appear to stand this treatment. Papers will curl unless held flat at the edges. A simple metal frame can be constructed for this purpose. The heat treatment appears to harden the gelatine reducing its absorbency. This for some reason also seems to allow the etheric energy to have a greater effect on the developer diffusion mentioned above. Drying in a vacuum or over a dessicant may produce a similar effect but I have not tried this yet.

Before describing the results, one small word of caution. Resist the temptation to see faces in the results. The human brain is very adept at this. The process is far too crude to show a face with any certainty, even if that were the object of the photograph.

Results :

All the following results were produced without a 'camera' or any additional apparatus unless otherwise stated. In general, the photographic plate was held in the hand over the presumed source of the energy, or the energy source was placed on the plate.

Fig. 1. The aim of this photograph was to replicate the Delawarr fundamental ray photographs. Delawarr's pictures were produced by placing a vertical magnet on a photographic plate previously sensitised by allowing his assistant to handle it in the dark. A small quantity of chemical whose fundamental rays were to be photographed was placed on or next to the magnet. The magnet was rotated until a dowsing reflex detector gave a response. This was simply Drown's rubber diaphragm detector which was stroked with the fingers until a 'stickiness' was felt under the finger. Exactly the same method was followed here with regard to the placing of the chemical (Potassium nitrate KNO_3) and the tuning process. The chemical was next to the base of the magnet. The

magnet was 5 cm long and 1 cm in diameter. It was an alnico magnet. Its location was approximately central in the patch of energy. The fundamental ray (only one) can be seen out towards the bottom left at about 7 o'clock. The magnet is N Pole down.

Fig. 2. This is a repeat of fig. 1 immediately afterwards. Note the energy is already much weaker. The fundamental ray can still be seen. A third repeat produced nothing. The magnet had evidently accumulated some sort of energy. Producing this accumulation at will has proved difficult. More about this important and central problem later.

Fig. 3a, 3b. These results were taken using photographic paper not plates. They are of a kidney stone showing two stages of its progress down the tube from the kidney to the bladder. the person concerned was of course under medical supervision and had been x-rayed so that the presence of the stone was known. The stone took three months to pass from the kidney to the bladder so there was ample time to attempt to photograph it using this process. These results show the enormous difficulty in interpretation and illustrate the danger of using such methods in medicine.

The stone seems to be the constriction marked B. Its position is referenced by the curious mark shown as A and present in both pictures. This seems to be some mark on the bladder, but what, is unknown. The identification of the area surrounding A as the bladder was simply based on the fact that the patient knew roughly the location of the stone. The photographs 3a and 3b were taken about a month apart. The stone passed into the bladder about three weeks after photo 3b was taken. It is interesting to note that in photo 3b, to the left and right there seems to be a black shadow of the intestines. Both photos were taken by holding the photographic paper in the hand and against the person's abdomen. I held the intention to picture the kidney stone clearly in my mind for a few seconds and that was all. The paper was then processed using the above method.

Fig. 4 and 5. These are pictures on the finger aura. The finger position can be seen by the black dots in fig. 5 and the white score mark in fig. 4.

Fig. 6. This is also a finger aura but after doing breathing exercises.

Fig. 7 and 8. These figures are particularly interesting for a number of reasons. Firstly, they point to the self imaging property of the etheric force. Secondly, they give evidence that the process works. Thirdly, they point to the fact that the electric and magnetic fields have a deep connection with the etheric force.

The central part of the figure is actually the top of a narrow plastic box loosely lined with aluminium foil. The box is a quarterplate developing tank. Looking from the top, the end of the plate tank has a recess which engages with a projection on the lid. (The purpose of this is to enable the tank to be filled with developer in daylight without having to open it.- See fig. 9 for sketch of tank.) Fig. 7 was taken by holding the photoplate in the hand in total darkness over the developer tank. Compare the shape of the central lizard-like object with the ordinary photograph Fig. 8 (produced by conventional means) and it can be seen that the elongated oval is actually the shape of the top of the aluminium foil loosely lining the box. The recess visible at the upper end of fig. 8 as a round object appears as a black blob at the head of the lizard-like figure.

The active zone around the central object seems to be a field of

etheric energy. The whole box, foil and all, was standing on a metal plate charged to 8000v with static electricity. At the bottom of the box were two short bar magnets which had been charged by rubbing with the hand.

Although this seems rather arbitrary, in fact, there was and is a theory behind it. It has been known since the days of Mesmer that iron in particular has the property of attracting and holding the human vital or etheric force. Reichenbach [4] showed that the aligned molecular state caused by physical magnetism also caused the stored etheric force to split into two forms. This happens also with non-magnetic crystals so it is not directly connected with magnetism but molecular alignment. The electric field also has a considerable attraction for the human vital force, provided the lines of electric force end up on the human body. So, if we electrify an iron globe, for example, to a high potential, the iron globe will attract and accumulate the etheric force to a certain degree. If the iron is also conventionally magnetised then the etheric force will split into its two components.

As I understand it this property of iron (unelectrified, of course) is the key to physical alchemy. The etheric energy attracted by the iron has to be transferred to the chemical substances and condensed on them. As a result of this the ordinary chemicals commence to transform in a completely new way. The human etheric force is the only agent capable of directing these operations. These chemical actions are totally inaccessible to conventional chemistry simply because its agents such as heat, chemical affinity, etc., do not have this capability. It is for this reason that alchemy is of the utmost importance. If this is true, application of the etheric force to the transformation of matter opens up a vast field, amounting to a new science.

A few words about radionic cameras. Although no such devices have been employed here, it is not true that all these devices are worthless. Despite the self imaging nature of these forces some equipment not only acts as an aid to concentration but does interact with the etheric forces. In recent years there seems to have been a move away from the pioneer researches of Abrams, Drown and Delawarr without much attempt to clarify the physical basis of the subject. Boyd's work on a modification of Abram's device is, as far as I am aware, the only occasion that research has been done with scientific rigour in this area. Boyd's method was, in fact, examined by a scientific committee, the Horder Committee which was set up to examine his claims. He and his apparatus passed the tests set for it with 'flying colours' [5]. The work of Boyd has, to my knowledge, never been repeated, and it seems logical to clarify the basis first before rejecting anything.

Returning to the photographic process : the mechanism by which it works is still obscure. At one level it seems to be just turbulence in the stop bath that causes the image. Yet in that case the water itself, in reality, has the image forming properties. One thing seems certain, that two etheric energies are involved. One part is image forming and comes from the operator, and the second energy from the object under examination. The two parts are the form and force components of the etheric energy. It seems that it is easy to produce the force by physical means, but the formative part always comes from man.

Anyone attempting to repeat this process should not be disappointed if he or she does not get immediate results. A little perseverance may be required to get ones nervous system to produce the required formative

energy. There is a learning process involved here. Do not try to produce more than four photographs per session. The exhaustion it produces is quite noticeable. Do not attempt more than one session per day, or less if results tail off.

It is desirable to control any experiment by running a dummy experiment in parallel with the proper one, differing only in the factor being tested. With this process it is not so easy, since it seems to work by registering the aura of the operator. In other words, handling the photographic materials, or mere proximity, is sufficient to transfer something. The intention to perform an experiment is enough to activate the unconscious mind that controls the aura. The only way to control the experiment would be to gain control over the auric field or etheric emanation.

Microtubules, as another Resolution in the Hologram, Part 2

Orch OR (Orchestrated Objective Reduction)

A review and update of a controversial 20-year-old theory of consciousness published in *Physics of Life Reviews* claims that consciousness derives from deeper level, finer scale activities inside brain neurons. The recent discovery of quantum vibrations in "microtubules" inside brain neurons corroborates this theory, according to review authors Stuart Hameroff and Sir Roger Penrose.

They suggest that EEG rhythms (brain waves) also derive from deeper level microtubule vibrations, and that from a practical standpoint, treating brain microtubule vibrations could benefit a host of mental, neurological, and cognitive conditions.

The theory, called "orchestrated objective reduction" ('Orch OR'), was first put forward in the mid-1990s by physicist Sir Roger Penrose, FRS, Mathematical Institute and Wadham College, University of Oxford, and prominent anesthesiologist Stuart Hameroff, MD, Anesthesiology, Psychology and Center for Consciousness Studies, The University of Arizona, Tucson.

Figure 1: The integration of Orch OR Consciousness

They suggested that quantum vibrational computations in microtubules were "orchestrated" ("Orch") by synaptic inputs and memory stored in microtubules, and terminated by Penrose "objective reduction" ('OR'), hence "Orch OR." Microtubules are major components of the cell structural skeleton.

Orch OR was harshly criticized from its inception, as the brain was considered too "warm, wet, and noisy" for seemingly delicate quantum processes. However, evidence has now shown warm quantum coherence in plant photosynthesis, bird brain navigation, our sense of smell, and brain microtubules.

Microtubules in Brain Neurons

The recent discovery of warm temperature quantum vibrations in microtubules inside brain neurons by the research group led by Anirban Bandyopadhyay, PhD, at the National Institute of Material Sciences in Tsukuba, Japan (and now at MIT), corroborates the pair's theory and suggests that EEG rhythms also derive from deeper level microtubule vibrations.

In addition, work from the laboratory of Roderick G. Eckenhoff, MD, at the University of Pennsylvania, suggests that anesthesia, which selectively erases consciousness while sparing non-conscious brain activities, acts via microtubules in brain neurons.

Figure 2: Stuart Hameroff

The origin of consciousness reflects our place in the universe, the nature of our existence. Did consciousness evolve from complex computations among brain neurons, as most scientists assert? Or has consciousness, in some sense, been here all along, as spiritual approaches maintain?

Stuart Hameroff

This opens a potential Pandora's Box, but our theory accommodates both these views, suggesting consciousness derives from quantum vibrations in microtubules, protein polymers inside brain neurons, which both govern neuronal and synaptic function, and connect brain processes to self-organizing processes in the fine scale, 'proto-conscious' quantum structure of reality.

Sir Roger Penrose

Figure 3: Sir Roger Penrose

After 20 years of skeptical criticism, the evidence now clearly supports Orch OR. Their new paper updates the evidence, and clarifies Orch OR quantum bits ("qubits") as helical pathways in microtubule lattices.

An important new facet of the theory is introduced. Microtubule quantum vibrations (MHz) appear to interfere and produce much slower EEG "beat frequencies." Despite a century of clinical use, the underlying origins of EEG rhythms have remained a mystery.

Orch OR is the most rigorous, comprehensive and successfully-tested theory of consciousness ever put forth. From a practical standpoint, treating brain microtubule vibrations could benefit a host of mental, neurological, and cognitive conditions.

Consciousness depends on anharmonic vibrations of microtubules inside neurons, similar to certain kinds of Indian music, but unlike Western music which is harmonic.

People in psychology love Eastern mysticism and culture. Science has no explanation for that.

Stuart Hameroff

A Religious Perspective:

From a religious perspective, Hameroff believes their Orch OR theory could also account for near death experiences, out of body experiences, and even the afterlife.

The connection to space–time geometry also raises the intriguing possibility that Orch OR allows consciousness apart from the brain and body, distributed and entangled in space–time geometry.

It's possible that the quantum information can exist outside the body, perhaps indefinitely, as a soul.

Stuart Hameroff

Skeptics have long attributed near death experiences to physical phenomena such as the brain being deprived of oxygen, not the human soul or any interaction with God or the afterlife. To put these claims in perspective, last year, even Skeptic magazine's Michael Shermer wrote about a possible after-death communication from his grandfather-in-law.

Figure 4: Dr. Eben Alexander, and his book Proof of Heaven

Other skeptics also tend to be committed materialists until they have their own experience. One such skeptic was Dr. Eben Alexander, a neurosurgeon, whose neurons in his cerebral cortex were stunned to complete inactivity for seven days during a near-fatal bout of meningitis.

I had always believed there were good scientific explanations for the heavenly out-of-body journeys described by those who narrowly escaped death.

I experienced something so profound that it gave me a scientific reason to believe in consciousness after death.... It exists, and what I saw and learned there has placed me quite literally in a new world: a world where we are much more than our brains and bodies, and where death is not the end of consciousness but rather a chapter in a vast, and incalculably positive, journey.

Dr. Eben Alexander

Many Christians have come forward in recent years claiming to have experienced heaven and met God. Of course, Hameroff's personal beliefs are very much different from traditional religions in regards to the nature of the human soul.

He believes "consciousness, or its immediate precursor proto-consciousness, has been in the universe all along, perhaps from the Big Bang.

Do you think science will be able to prove the existence of the human soul?

Einstein and the Parasciences

Dr. Sandor Balogh

Few people realize that Einstein should be the patron saint of the parasciences.

He disagreed with his colleagues on several issues, like the nature of reality, the causation principle, or the scientific method. Today science is based on a few arbitrary assumptions, such as that only ponderable matter exists; if something cannot be seen, it cannot be studied; that the world randomly evolved from bottom up; and instead of causation they study "antecedents," etc. If some fact cannot be placed in this paradigm, they deny it,

Einstein was a realist, accepted reality as it is experienced, and believed in downward causation. The world shows intelligent design and nothing is taboo. If something exists it cannot be impossible, so science must find a set of assumptions and explanations. The assumptions are more important than equations. He wrote once that *"Imagination is more important than knowledge. Knowledge is limited. Imagination encircles the world."*[1] Another quote from Einstein is that *"Logic will get you from A to Z; imagination will get you everywhere."* [2]

In the following essay I will develop the theory he suggested in what can be considered his scientific will, and briefly illustrate the scientific method consistent with his views. But don't expect high science and equations, only plain, Einsteinian common sense.

Einstein summarized in 1952 his position in an essay but no scientific publication would touch his essay that renounced the space-time concept and contained the suggestion to develop a field theory in four dimensional space. He had to publish it as 5th Appendix in the 15th edition of a book first published in 1916, without even mentioning the new addition in the title.[3] It was completely neglected by the science reporters, and was not even put on the internet with the rest of his writings until a few years ago, when the copyright expired.

In a special "Note to the 15th edition" he drops a bombshell. He withdraws space-time, the basis of relativity: *„In this edition I have added, as a fifth appendix, a presentation of my views on the problem of space in general and on the gradual modifications of our ideas on space resulting from the influence of the*

relativistic view-point. I wished to show that space-time is not necessarily something to which one can ascribe a separate existence, independently of the actual objects of physical reality. Physical objects are not in space, but these objects are spatially extended. In this way the concept of "empty space" loses its meaning.

June 9th, 1952

Albert Einstein"[4]

In the essay he describes how his thinking changed over the last decades, general relativity should be re-interpreted as a field theory, and makes the suggestion to find ***"a theory which describes exhaustively physical reality, including four-dimensional space, by a field."*** This is a loaded sentence, every word is important.

Four-dimensional space is a curious concept. Scientists wrested with the problem for centuries. The most recent attempt to find the fourth geometric dimension that even earned a Shaw Prize in 2009, worth over a million Dollars and is referred to as the Nobel prize in mathematics was by Sir Simon Kirwan Donaldson (born 20 August 1957), is an English mathematician known for his work on the [*"topology of smooth \(differentiable\) four-dimensional manifolds"*](#) and [*Donaldson–Thomas theory*](#). [5] The Shaw Prize was one of nine major awards he received for his work. Collaborating with [*Michael Freedman*](#), *"they suggested that there are "exotic" four-dimensional spaces—four-dimensional differential manifolds that are topologically equivalent to the standard Euclidean four-dimensional space but that are not equivalent differentiably. This is the only dimension where such exotic spaces exist."* [6]

György Egely, a Hungarian "alternative scientist," disagrees: *"a really good assumption is never strange to life, an empty, logical construction. It has to do with reality. The idea of the fourth dimension - no matter how much it is above our senses, how unimaginable is for the man of today - it is not unknown to science. Yet, all we can say today about the fourth dimension that 'it is like...' or 'you have to imagine that....' We have to talk about in analogies, because we cannot imagine, cannot experience with our senses. But what we do not understand today because we cannot experience it, it is not certain, that it will not be evident tomorrow. [7]*

Once you find the key, it is surprisingly simple and realistic.

As one contest winner essay explained in 1905, we have to step outside three dimension to imagine the fourth dimension. But since three dimensional space is unbounded, we cannot imagine anything outside of it.

The key is to create boundaries in the dimensional space, e. g. a closed cube. Once you place something outside the boundaries of the cube it becomes four dimensional. In reality, if mass is inside, gravity follows outside. What does this mean for relativity? Gravity is not an independent entity but is an inseparable feature of mass therefore the proper term should be instead mass-attraction.

Thus, on the two sides boundary of the cube we end up with inseparable twin four dimensional space. The new dimension requires new directions and new terminology. The directions are inward-outward, and for terminology I suggest after Charles Hinton[8] the terms "ana" and "kata," for the inside/outside four dimensional geometric regions.

The next concept is the *field theory*. Field might not be most appropriate term, but it has been used already, so I stay with it.

QUANTA AND THE FIELD THEORY

1900, Max Planck discovered that the electromagnetic energy comes in packages, or photons which consist of small units he called *quantum*. The value of the photon depended on the frequency of the wave. Plank also provided a constant, h to calculate this value. The energy of the photon was the product of h and the frequency of the wave, $E = hv$. It was assumed therefore that any EM radiation, including the energy of light are transmitted not in a continuous flow but in small packets called photons, which contains quanta (singular of quantum). This assumption became the basis of the entire quantum science!

It seems that after Einstein made the above suggestion to create a field theory in four dimensional space, he had some reservations. In 1954 he wrote to his friend Michael Besso expressing his frustration: „*All these fifty years of conscious brooding have brought me no nearer to the answer to the question, 'What are light quanta?' Nowadays every Tom, Dick and Harry thinks he knows it, but he is mistaken. ... I consider it quite possible that physics cannot be based on the field concept, i.e., on continuous structures. In that case, nothing remains of my entire castle in the air, gravitation theory included, [and of] the rest of modern physics.*”[9]

In another occasion Einstein wrote, "*The quanta really are a hopeless mess.*"[10] It seems that Einstein's frustration was caused by the fact that he still could not deal with the dual nature of light. Is it really continuous field, or is it really an aggregate of h quantum? So, this dilemma has to be solved.

In these two quotes Einstein expresses the basic question of modern science. Is reality continuous or discontinuous? Is it made up of quanta or is there some hidden, so far undiscovered factor?

As we have shown above, the two most frustrating scientific issues science deals with is this question. Experimental scientists are spending of Euros on the CERN Project to find the secret, what holds the quanta together, makes it continuous. Theoretical scientist crack their brains out to develop a string theory that would answer the question. Somebody came up with the really brilliant but wrong idea: the resonating strings gives the impression of a continuous object.

To develop a field theory in four dimensional space as Einstein suggested, let us start with some assumptions. Let's assume that one wants to buy ten apples. First one puts the apples in a bag. Let us also assume that there some containers that contain the quanta. They are assumed to be invisible fields, higher dimensional potential structures in the kata that become active when energized (filled) by the so called h energy quantum, and facilitate the operation or movement of the quanta. The assumed field is a potential structure: for example, the electromagnetic field is a characteristic invisible feature of an electromagnet or a coil and exists whether the electricity is turned on or off. When it is turned on, it becomes active magnetic field filled with h quantum energy. Light is a form of electromagnetic radiation and can be turned on or off. Some fields are temporary, appear or disappear as needed to accommodate changes.

Further, let us assume that the energy quantum cannot exist all by itself; it has to be contained in a structure (FIELD) that determines how the energy quantum appears and/or is experienced. In some cases it is like inflatable rubber toys that are inflated with air. It is the same air, but it can take different forms, depending on the shape of the rubber toy. In other cases when photons come from a light source it is like when one fills pig intestines with sausage meat that comes in spurts: from one perspective one sees only the sorts, from another one sees a the result, which is a wavelike intestine filled with the sausage meat. But the intestine was created as it was filled.

So the hidden variable is this invisible container that fits all occasions, appears and disappears as needed.

It is interesting to note that this theory is very similar to the Greek philosopher's, Aristotle's *hylomorphism* theory that there is *materia prima* that fills the *forma substantialis*, and when things change the *materia prima* assumes a new *forma*. The *materia prima*, just like the quantum, never annihilates, it is permanent, only the *forma* changes.

Tom Bearden has raised the issue that modern science does not have an adequate explanation of energy. This field theory gives an interesting explanation of energy. When the energy quantum is changing from one field into another field energy exchange takes place, either extra quanta has to be introduced like heat into the process, or energy is released, but the number of quanta remains constant.

According to Einstein the h quantum can be transferred between material fields to energy vector fields as his famous equation, $E=MC^2$ suggests, or living subjects routinely convert energy from organic materials in food into other forms, like scalar or mechanical energy.

It is important to distinguish between the kata and the fields. Kata is an empty geometric concept, one dimension higher than geometric space, filled with real, individual fields.

Einstein added the phrase "exhaustively" to explain reality. This means there are some additional phenomena that require explanation. Inside the ana region is the mass, but co-locating with the mass we often find a living structure, an organism with its organs. In order to co-locate with the mass, they have to be higher dimensional entities and communicate with coded messages, messenger fields.

Outside the ana, in the kata region, in addition to mass attraction, there are numerous info packages or fields floating that science cannot explain, or fails to deal with. From information about underground treasures that dowsers deal with to animals sensing tsunamis or pets sensing the return of the owner that science sweeps under the rug, in Einstein's spirit, require explanation. Healing with energy transfer also is a phenomenon that should be explained instead of treated as a taboo subject, according to the Einsteinian method.

God gave us the ability to use imagination. One should use one's imagination to invent assumptions that makes the seemingly impossible possible. This is the real science in Einstein's spirit.

Abstracts of Important Articles and Papers

Below are some abstracts of important papers related to psychotronics subjects found in the academic and professional literature. Many of these articles are still under copyright restrictions, but if you are interested in any of these articles, please write to the editor, John Reed, (joreed43@gmail.com) and he will assist you in getting a copy. Also, please remember that one of the benefits of USPA membership is your right to use the USPA Literature Research Service, whereby we will find any article, book, or other item you are seeking on any psychotronics related subject and provide it to you, if at all possible.

Oschman, James L., Gaétan Chevalier, and Richard Brown. The effects of grounding (earthing) on inflammation, the immune response, wound healing, and prevention and treatment of chronic inflammatory and autoimmune diseases. *Journal of Inflammation Research*. 2015; 8: 83–96.

Abstract:

Multi-disciplinary research has revealed that electrically conductive contact of the human body with the surface of the Earth (grounding or earthing) produces intriguing effects on physiology and health. Such effects relate to inflammation, immune responses, wound healing, and prevention and treatment of chronic inflammatory and autoimmune diseases. The purpose of this report is two-fold: to 1) inform researchers about what appears to be a new perspective to the study of inflammation, and 2) alert researchers that the length of time and degree (resistance to ground) of grounding of experimental animals is an important but usually overlooked factor that can influence outcomes of studies of inflammation, wound healing, and tumorigenesis. Specifically, grounding an organism produces measurable differences in the concentrations of white blood cells, cytokines, and other molecules involved in the inflammatory response. We present several hypotheses to explain observed effects, based on current research results and our understanding of the electronic aspects of cell and tissue physiology, cell biology, biophysics, and biochemistry. An experimental injury to muscles, known as delayed onset muscle soreness, has been used to monitor the immune response under grounded versus ungrounded conditions. Grounding reduces pain and alters the numbers of circulating neutrophils and lymphocytes, and also affects various circulating chemical factors related to inflammation.

Christianto, Victor and Yunita Umniyati. On the Plausible Implications of Gariaev & Montagnier's Work: Omne Vivum ex Vivo via Crebritudo?. DNA Decipher Journal, vol. 6, no. 2 (2016)

The full article is available from the DNA Decipher Journal website:

<http://www.dnadecipher.com/index.php/ddj/article/view/102>

Abstract:

Recently Luc Montagnier and his group reported that genetic information might be transmitted to water through applications of electromagnetic field. These experiments seem to confirm what have been done by Peter Gariaev and his group in the past three decades, i.e., that DNA has wave character.

However, non-particle view of DNA seems to challenge the standard paradigm of DNA and biology. In this paper, we briefly explore the non-particle view of DNA and consider an extension of the known adage "Omne vivum ex vivo" to "Omne Vivum ex Vivo via Crebritudo (frequency)".

(Editor's Note: The DNA Decipher Journal is an excellent journal edited by Huping Hu, Ph.D., J.D. and Maoxin Wu, M.D., Ph.D., of QuantumDream, Inc., New York, with many articles that are of great importance on the above and related subject matter. Their home page is: <http://www.dnadecipher.com/index.php/ddj/index>)

Bartholomew, Bradley Y. "A Review of Psi Activity in the DNA". Universal Journal of Psychology 5(1): 22-29, 2017

Abstract: This paper presents a general summary of psi experiments conducted with the DNA in the latter decades of the 20th Century particularly at the HeartMath Institute (HMI) in Boulder Creek, CA, by Dr. Glen Rein, relating to the ability of "healers" to affect the conformation of the DNA molecule simply by concentrating their mental and emotional powers of the brain and heart.

In particular it was found that the intentional states of healers could change the molecular structure of water which in turn could alter the conformation of the DNA. Further to these findings about the relationship between water and DNA, this paper discusses a journal article by a team led by 2008 Nobel Prize for Medicine recipient Dr. Luc Montagnier, which describes an electromagnetic field in the DNA that is capable of being projected into water and which contains all the information of its sequence of bases in memory, and is capable of reconstructing itself into the identical chemical

molecule; provided the ambient electromagnetic environment in the water is maintained at a frequency of not less than 7Hz which is in the same frequency window as Alpha rhythm brainwaves and the natural Schumann resonance of the Earth.

This paper goes on to discuss new research in optogenetics where human beings have been able to modify gene expression with their Alpha rhythm and Mu rhythm brainwaves in the same frequency window as the Schumann resonance, simply by adopting different mental states, and takes note of the fact that these same Alpha and mu rhythms are the main conduit frequency for Brain Computer Interfaces (BCIs). The paper presents a general summary of earlier research relating to psi phenomena resulting from interference of brainwaves with the Schumann resonance, and proposes a novel explanation for the recently discovered “mirror neurons” phenomena where the Mu rhythm brainwaves emanating from the motor cortex are able to interfere constructively or destructively with the Schumann resonance of same frequency and thus bring about mental telepathic as well as psychokinesis happenings.

Mind Machines You Can Build

by G. Harry Stine

Paperback: 208 pages

Publisher: Top of the Mountain Publishing

Language: English

ISBN-10: 1560870753

ISBN-13: 978-1560870753

Product Dimensions: 8.5 x 5.5 x 0.5 inches

[Available at Amazon.com](http://Amazon.com)

This is an excellent book recommended for anyone interested in building psychotronic, radionic, dowsing, and related types of

devices. As the Table of Contents (below) shows, this book covers how to build the Hieronymus Machine (often misspelled as Hieronymous as is the case in this book), power pyramids, dowsing rods, pendulums, and related devices.

Each chapter covers a device or set of related devices, and is well organized with the following chapter sections for the device(s): 1. Basic Description; 2) Historical Background; 3) Authors own experience with the device; 4) Instructions for Fabrication; 5) Operating Instructions 6) Experiments you can perform; 7) What to do if it doesn't work; 8) Hypotheses by the author on how and why the device works.

TABLE OF CONTENTS

Regaining Wholeness Through the Subtle Dimensions: Where Science Meets Magic

by Don Paris, Ph.D.

Paperback: 226 pages

Publisher: CreateSpace Independent Publishing Platform; 3 edition (July 28, 2013)

Language: English

ISBN-10: 1491208007

ISBN-13: 978-1491208007

Product Dimensions: 5.5 x 0.5 x 8.5 inches

[Available from Amazon.com](http://www.amazon.com)

If You had Access to the Future, What Would You Do? Regaining Wholeness Through the Subtle Dimensions will wind

you through the latest research and distant past of some of the most profound research on health and wellness. But it goes much deeper than that. The basic building blocks of physical reality have been understood and tapped to show you how to make shifts in reality that have been kept from the eyes of the public. With over 100 years since the beginning of this technology, it has been refined and perfected to allow the user of this technology to redesign the Informational Fields (IDFs or Intrinsic Data Fields) that hold the fabric of our universe together. You have in front of you, at this very moment, an opportunity to not only glimpse the future, but to begin bringing about your wildest dreams. Whether you want better health, satisfying work, spiritual enlightenment, or prosperity, this book is for you. You will discover how easy it is to: Access information from the Past, Present or Future. Use the principles of quantum physics for better health. Use equipment, now, from the distant future to bring about your wants, hopes, and desires. Increase your intuition and perform miracles. This moment the opportunity to change your world is here in front of you now... will you choose to open the door?

Don Paris, Ph.D. (h.c.) is a published author, speaker, video producer, and musician. His book, Regaining Wholeness Through the Subtle Dimensions has been published

internationally in German, Spanish, Japanese, Portuguese, and English. He is known as the guru of the SE-5, the world's most respected subtle energy instrument. He is well loved for his style of bringing challenging concepts into an easy to understand language and has been a popular speaker at the Global Sciences Congress, Congress of Spiritual Scientists and the United States Psychotronics Association. He has created the most detailed explanation of the principles of Radionics and the most advanced training courses in the entire field. He began exploring the subtle dimensions in the early seventies, and has now trained people in over 30 countries around the world in the workings of Radionics and the subtle dimensional realities. Don was awarded an honorary doctorate degree in Human Sciences from the International University of Vitalogical Sciences in Stockholm Sweden in 2000 for his work with the SE-5 and subtle energies. He and his wife, Ilona Selke, who work as a team, have contributed to radio and TV shows, and have been quoted in numerous publications around the world. They teach seminars in Quantum Psychology in the US, Europe and Asia. When not traveling to teach, they divide their time between their homes in the Pacific Northwest and Bali. In his work he had dedicated himself to bridging the barrier of the physical boundaries to the subtle dimensional realities. Current projects are training courses for the SE-5 1000 and multiple music projects. Tibetana with Lodee Tsering from the soundtracks Himalaya and Seven years in Tibet was scheduled for release in the Fall of 2013.

USPA Generous Donor Recognition Page

The USPA would like to give special recognition on a continuing basis to people making generous donations to the United States Psychotronics Association. To do this, we are creating this special “USPA Generous Donors Recognition Page” that will be carried in each issue of the **USPA Journal & Newsletter**, beginning with the December, 2016, issue and going forward. New names will be added as other generous donations are received.

**We wish to recognize the following individuals for their generosity:
(in alphabetical order)**

Mary Hardy

Michael Leger, ([Homeodynamics, LLC](#))

John H. Reed

Arnold Reinhold

Eric Rowley

The USP wishes to extend our thanks and gratitude for their generosity.

To make a tax deductibe donation to the United States Psychotronics Association (USPA) online, please go to the [USPA home page and scroll down to the “Donations” tab](#), where you can make a donation using your credit or debit card. **For those who wish to make a donation by check**, please make your check payable to USPA and mail it to the **USPA treasurer, Scott Beutlich, 525 Juanita Vista, Crystal Lake, IL 60014.**

USPA Periodicals Library Update

In order to do good psychotronics research of any kind, whether it involves radionics, radiesthesia, psionic medicine, dowsing, subtle energies, biophotons, or any other subject covered by psychotronics, one needs access to as much of the periodical literature as possible on these subjects.

To address this issue, the United States Psychotronics Association has resolved to identify and acquire every psychotronics related periodical that has ever been published anywhere in the world, and to retain copies in the USPA Library.

As a first step, we have developed the following list of periodicals that focused on or frequently had articles on psychotronics related subjects. But this is only a preliminary list, and we know that there are probably more psychotronics periodicals that have been published, but that we do not yet know about.

So please look over the following list and check your own personal physical libraries and your computers to see if you have any issues of the periodicals on this list. Even if you just have one issue, please let us know, because that may be the one we need to complete all the issues of a particular periodical. **Please write to me (John) at: joreed43@gmail.com, since I am the USPA librarian and archivist coordinating this effort,** and tell me what periodicals you have.

As a whole, the members of USPA have a huge “library” of periodicals, but it just happens to be “distributed” among its members at this point in time. However, we can work together, and if you would be willing to loan, donate, xerox, or as a last resort, sell copies of your periodicals for the USPA Library, then we will be able to build a large centralized library of all psychotronics periodicals. And all USPA members will then be able to use these periodicals in their research or for their reading enjoyment.

American Journal of Electromedicine: Daniel Kirsch Ph.D., developer of Alpha-Stim Craniotherapy Electrical Stimulation (CES) was the first editor; **The USPA Library needs all issues.**

American Radio Therapy Society Journal: This was a periodical published in Hollywood, California, by the American Radio Therapy Society, which had been founded by Dr. Ruth Drown in 1949. This periodical began with vol. 1, no. 1 in June, 1949, and continued to be published for a period of time. However, it is not known when it ceased publication or how many issues were published, but presumably it ceased sometime before Dr. Drown's death in 1963. This journal focused on radionics psychotronics subjects, and had no interest in ionizing radiation therapies, such as x-ray therapy, which were also known as "radio therapy" at that time. The only library in the world that has copies of this periodical is the National Library of Medicine in Bethesda, Maryland. **The USPA Library needs all issues of this periodical.**

BEMI Currents: BEMI Currents was a quarterly journal published by the Bio-Electro-Magnetics Institute in Reno, Nevada, from 1989-1993. The editor was Dr. John Zimmerman. This journal began with vol. 1, no. 1 (Spring, 1989) and continued through Vol. 3, no. 4 (March, 1993), after which it ceased publication. **A total of 12 issues were published, and the USPA Library has all 12 issues in its collection.**

Bioeffects Newsletter: This was a periodical that was published by the "Physiology Program", Office of Naval Research, in Arlington, Virginia, and focused on the biological effects of electromagnetic fields. It probably began sometime in the 1977, because it is known that Issue #5 was dated April, 1978. The Bioeffects Newsletter is believed to have ceased publication when the Bioelectromagnetics Society (BEMS) was formed in 1978, because it was edited by Thomas Rozzell, who served as the editor of the BEMS Newsletter for the Bioelectromagnetics Society. This periodical is not found in any library of the world, but is undoubtedly in a number of private collections. **The USPA Library needs all issues of this periodical.**

Bioelectric Medicine: Journal founded in 2014, Kevin Tracey, M.D., President of the Feinstein Institute for Medical Research, which has established a Center for Bioelectronic Medicine; **The USPA Library needs all issues.**

BioElectroMagnetics: Published by John Wiley and Sons from Vol. 1, No. 1 (1980) to present. We need all issues. All articles are freely available online at Johns Hopkins, back to 1980; **The USPA Library needs all issues.**

Bridges: This was the newsmagazine of the International Society for the Study of Subtle Energies & Energy Medicine (ISSSEEM) from 1990 through the present. **The USPA Library has a complete set of this periodical from vol. 1, no 1 (Spring, 1990) through the present.**

British Journal of Radiesthesia and Radionics. Published by the British Radiesthesia Association, 1953-1963. The original title was British Journal of Radiesthesia. **The USPA Library needs all issues.**

DeLaWarr Laboratories Newsletter: published by George and Marjorie DeLaWarr, and later their daughter Diana Di Pinto, from 1964-1986. **The USPA Library has a complete set of these, unless you know of any issues published after 1986.**

Dowsing Today: The journal of the British Society of Dowsters, published from 2000 to the present. Original title was Radio Perception, which began in 1933. **The USPA Library needs all issues.**

Earthpulse Flashpoints: This periodical was edited by Dr. Nick Begich and published by Earthpulse Press, Inc. in Anchorage Alaska. It focused on such subjects as Patrick Flanagan's neurophone, biohazards of ELF, living cells as electromagnetic units, and other psychotronic related subjects. It began with Series (Volume) 1, no. 1 in 1996, and continued until at least 1999, when the last known issue, Series 2, no. 3, was published. Only one library in the world has this periodical in its collection, the UAA/APU

Consortium Library in Anchorage, Alaska. **The USPA Library needs all issues of this periodical.**

Electro and Magnetobiology: Published by Taylor and Francis from 1993-2002. Title was changed to Electromagnetic Biology and Medicine. **The USPA Library needs all issues.**

Electromagnetic Biology and Medicine: Published by Taylor and Francis from 2003-present. Former editor, Dr. Abe Liboff; **The USPA Library needs all issues.**

Electronic Medical Digest: published 1946 to about 1955, also by Fred J. Hart and the College of Electronic Medicine. **The USPA Library needs all issues.**

Extension Bulletin, Electronic Medical Foundation: This was a series of bulletins published by the Electronic Medical Foundation of San Francisco, beginning in 1950. Thomas Colson was the editor, and at least three issues were published. It is not known if additional issues were published. **The USPA Library needs all issues.**

Interdimensional News: This periodical was edited by Peter Kelly, who founded what is now [Kelly Research Technologies \(KRT\)](#), and published by Interdimensional Sciences, Inc., in Lakemont, Georgia. It focused on radionics, energy medicine, effects of EM waves and fields, and other psychotronic related subjects. It began with Volume 1, no. 1 (Fall, 1983) and continued on until the final issue, Volume 3, no. 3 (May-June, 1986). **Through the generous donation of Ed Kelly, USPA Board member, and current CEO of Kelly Research Technologies (KRT), the USPA Library has a complete set of this periodical.**

Journal of Bioelectricity: Published by Taylor and Francis from 1982-1992. Title was changed to Electro and Magnetobiology. **The USPA Library needs all issues.**

Journal of Bioenergetic Research (JBR): This periodical was being published by the Royal Rife Research Society (RRRS) in Carlsbad, California, in the early 1990's. It is not known for certain when the JBR began publishing, but is believed to be in 1992, since vol. 1, no. 3 was for November, 1992. By 1995, it was no longer being published, and in correspondence by John H. Reed with the RRRS in August, 1995, the RRRS stated that no back issues were available. **The USPA Library needs all issues of this periodical.**

Journal of Electroceutical Medicine: founded by Richard Markoll, MD, PhD, Port d'Andratx (Majorca), Balearic Islands, Spain; **The USPA Library needs all issues.**

Journal of Electronic Medicine (Kirksville, Missouri): This was a periodical that was published by the Kirksville, Missouri, McManis Branch of Albert Abrams' College of Electronic Medicine, which was headquartered in San Francisco, California. This very rare journal focused on Albert Abrams' radionic methods of diagnosis and treatment, as well, as other energy and electronic methods of medical treatment. It began with Vol. 1, No. 1, probably in January, 1923, because it is known for certain that Vol. 1, No. 5 was dated May, 1923. This periodical ceased publication later in 1923, when the McManis Branch was closed, and it is not known whether there were any other issues published

after issue No. 5. This journal is not listed in Worldcat as being held by any library in the world, but a single issue was recently discovered by John Reed and Daniel Taylor in the archives of the Museum of Osteopathic Medicine at A.T. Still University in Kirksville, Missouri. **The USPA Library has issue Vol. 1, No. 5, but needs issues Vol. 1 No. 1, 2, 3, and 4, as well as, any issues of this periodical that may have been published after No. 5 in 1923.**

Journal of Electronic Medicine (San Francisco, California): This was a continuation of Physico-Clinical Medicine, and ran from 1939-1945, published by Fred J. Hart and the College of Electronic Medicine. **The USPA Library needs all issues.**

Journal of Paraphysics/International Journal of Paraphysics: Benson Herbert started his Paraphysical Laboratory in Downton, Wiltshire, England and began publishing the Journal of Paraphysics with vol.1, no.1 in 1967, and the name was later changed to International Journal of Paraphysics. Herbert published the Journal from 1967 until around 1989, with the last volume being vol. 23 in that year. Since the Journal and Lab were mostly the project of Herbert, they fell apart as his health failed and have become defunct. **The USPA Library needs all issues of this periodical.**

Journal of the American Electronic Research Association: Vol 1, No. 1 (January, 1924) through Vol. 13, No. ??? (1936), when it ceased publication; The USPA Library needs all issues.

Journal of the British Society of Dowsters: Published by the British Society of Dowsters from 1956-2000. Prior title was **Radio Perception**. Succeeding title: **Dowsing Today**. **The USPA Library needs all issues.**

Journal of the United States Psychotronics Association. Published by the United States Psychotronics Association. Only six issues were published, and **the USPA Library has a complete set.**

JPI News: This periodical was being published by the Japan Psychotronics Institute in Tsukuba-shi Ibaraki, Japan, in the 1990's. It is known that there was a September, 1993, issue of this periodical, but it is not known when it was first published, or if it is still being published. **The USPA Library needs all issues of this periodical.**

Little Farm Journal: This periodical was published by Lutie Larsen and Little Farm Research in Pleasant Grove, Utah, and focused on agricultural radionics and related subjects. It began sometime before the first issue of The Radionic Homestead Report, which was published in May, 1988, because that issue referred to the Little Farm Journal. It is not known when it began publishing, how many issues were published, or when it ceased publication. This periodical is not found in any library of the world, but is undoubtedly in a number of private individuals' collections. **The USPA Library needs all issues of this periodical.**

Mind and Matter: published by George DeLaWarr of the DeLawarr Laboratories in Oxford, England from 1957-1967. **The USPA Library has a complete set of these very rare journals.**

Newsletter of the Institute of Psionic Medicine. Published by the Institute of Psionic Medicine only from 1978-1979. **The USPA Library needs all issues.**

Newsheet of the Psionic Medical Society. Published by the Psionic Medical Society in the England only from 1975-1977. **The USPA Library needs all issues.**

New Zealand Society of Dowsing & Radionics Journal. Published by the New Zealand Society of Dowsing & Radionics from 1988-present. **The USPA Library needs all issues.**

Physico-Clinical Medicine: This journal was started in 1916 by the father of radionics, Dr. Albert Abrams, and continued to be published up through 1938, by Fred J. Hart, who took over the College of Electronic Medicine after Abrams died in 1924. **The USPA Library has all issues from 1916-1923, but need all issues from 1925-1938.**

Psionic Medicine. Published by the Psionic Medical Society in the UK from 1969-around 1991. **The USPA Library needs most issues.**

Psychic Research Neswletter (Marcel Vogel): Volume 1, No. 1 (May-June, 1984) through Vol. 5, No. 4 (July-August, 1988) This is the periodical that Marcel Vogel published in the 1980's as part of his research organization, Psychic Research, Inc. in San Jose, California. The title of the periodical is really a misnomer, as is the name of hiresearch organiation, because the periodical deals almost exclusively with Vogel's and other's research on crystals and their use in healing, and very little with psychic matters. **The USPA Library has all known issues.**

Quantum Medicine: This periodical was published by the Association of Eclectic Physicians in Savannah, Georgia, and focused on quantum related treatments of medical disorders. It began with vol. 1, no. 1 in 1988, but only a few issues were ever published before it went out of business. **The USPA Library needs all issues of this periodical.**

Radio Perception. This was the original title of the Journal of the British Society of Dowsters, which began in 1933 and was published under that name until around 1956, when its name was changed to the Journal of the British Society of Dowsters, and continues today under the name, Dowsing Today. **The USPA Library needs all issues.**

Radiesthesia. Published by the Dowser's Club of South Australia, and began in 1992. **The USPA Library needs all issues.**

Radionics Journal: Published by the Radionics Association in England from 1954 through the present. **The USPA Library has a complete set of these from Vol. 1, no. 1 (1954), through 2005, but needs all issues published after 2005.**

Radionics Network Newsletter: Vol. 1, No. 1 (January-February, 1993); Last Known issue: Vol. 4, No. 6 (November-December, 1996); Published by the Radionics Network,

New South Wales, Australia; **The USPA Library has Vol.1, No.1 (Jan.-Feb., 1993) through Vol.5, No.1 (Jan.-Feb., 1997), but needs all issues published since then.**

Resonance: Newsletter of the Bioelectromagnetics Special Interest Group (BEM SIG) of American Mensa during the 1980s and 1990s. **The USPA Library has a complete set of this rare periodical;**

Subtle Energies and Energy Medicine: Published by the International Society for the Study of Subtle Energies and Energy Medicine (ISSSEEM) from 1990 through the present, with some interruptions. **The USPA Library needs most of the issues of this periodical;**

The Radiant News: Vol. 1, Issue 0 [zero] (March, 2001) through Vol. 1, No. 12 (May, 2002), after which it ceased publication. Published by Peter Lindemann of Clear Tech, Inc. **The USPA Library has all 13 issues.**

The Radionic Homestead Report: This periodical was a periodical published by Lutie Larsen and Little Farm Research in Pleasant Grove, Utah. It began with the first issue being May, 1988. It is not known how many issues were published, or when it ceased publication. **The USPA Library needs all issues, except the first issue (May, 1988) and vol. 3, no. 4 (August-September, 1990), which are the only two issues in the USPA Library.**

USPA Newsletter: Published by the United States Psychotronic Association from 1977 through present. **The USPA Library needs most of these issues.**

Zeitschrift RGS (Radiesthesie - Geopathie - Strahlenbiologie); (Journal of Radiesthesia, Geopathy, and Radiation Biology): This was a radiesthesia and radionics periodical published by the Schweizerische Gesellschaft für Radiästhesie (Swiss Society of Radiesthesia) in St. Gallen, Switzerland. It began publishing around 1949, although the date is uncertain, and the title was changed at some point to "Schweizerische Zeitschrift für Radiästhesie, Radionik, Geopathie, Strahlenbiologie" (Swiss Journal of Radiesthesia, Radionics, Geopathy, and Radiation Biology). It was still being published in 2014, with issue No. 291 being published during that year. **The USPA Library needs all issues of this periodical.**

USPA Local Groups and Affiliates Update

As mentioned in the May, 2016, USPA Newsletter, one of our goals is to reactivate all of the former 24 USPA Chapters that once existed across the US and Mexico. In addition, we plan to establish new local groups of people interested in psychotronics and related subjects in other major cities in the US and other countries as well. All such local groups and affiliates will be independent, but will work together with the USPA in a mutually beneficial relationship to achieve our goals of advancing research and applications in psychotronics, radionics, subtle energy, and related fields.

So I would like to invite all of former USPA Chapters leaders and members to contact me (John Reed) at: joreed43@gmail.com and let me know if you would like to help reactivate your local chapter. In addition, if you are a leader or member of a psychotronics or related organization which was never a chapter of USPA, and we would welcome you as a USPA affiliated organization as well.

We will be establishing a USPA affiliated groups as traditional organizations and also via the Meetup.com online group platform. This will enable current and former members to more easily have local get-togethers, meetings, and other activities, and those activities, times, and other details can be posted online. So please let me know if you would like to be the leader of a group in your area.

If you do decide to use Meetup.com to establish your local group, you could do it quickly and easily by going to www.meetup.com , and clicking on the big red word “**Start**” in the upper left, and then just following the step-by-step procedures.

You can give your local group any name you want, but it should probably have a name that relates to psychotronics in some way. And if you need any help, please let me know, and I will help you in any way I can. Perhaps the most important thing is enthusiasm and determination, so write to me, even if you don’t know any other USPA members in your area, and I will help you set up a local group: joreed43@gmail.com

Exchange Corner

The “Exchange Corner”, is a place for USPA members to buy, exchange, or sell items of interest, or request information or other help in relation to something wanted. So if there is anything you want to buy, sell or trade that has to do with psychotronics, radionics, subtle energy, or related subjects, please contacted the Classified Ads manager at: usparesearch@gmail.com. For the next few issues, all such ads will be free of charge, so please send your ads and wanted requests as soon as possible before advertising charges begin.

Kelly Personal Analyzer for Sale

Mariette Picket has a friend that has a brand new unused Kelly Personal Analyzer that she paid \$2100 for, and is offering it for sale at only \$1600.00 Anyone interested call Mariette at: [317-773-0061](tel:317-773-0061)

Bruce Copen MARS III for Sale

I am a current USPA member and have a **Bruce Copen MARS III** for sale. The system is about 7 or 8 years old and in original, excellent condition. Sale includes original SCOPE analysis, database and broadcast software, HP laptop, comprehensive training manual and program disc, interconnects and boxes. I have always run it on XP with no issues; everything original as supplied by Copen.

All operations can be automated and multiple broadcasts can be run simultaneously, although Copen saw to develop this device so it could be used in many radionic styles and without computer control. The price is \$8500 USD roughly half the original cost. I prefer to not ship to a destination outside the USA. A limited amount of training by me, as I understand it, is available to a confirmed purchaser, as time and distance reasonably permit. Please contact: **Dr Robert Dixon**, robertdixondc@gmail.com or [call \(304\) 259-9439](tel:(304)259-9439) Berkeley Springs, WV.

Wanted: Any articles, periodicals, books, devices, or other materials on psychotronic related subjects that you can donate or lend to the USPA for its library, archives, and museum. **The USPA is a nonprofit, 501(c)(3), tax exempt organization, and as such, you are able to make tax deductible donations to the USPA. Please email the USPA at: joreed43@gmail.com to make arrangements. Thank you for your generosity.**

WHAT IS PSYCHOTRONICS?

The United States Psychotronics Association defines psychotronics as the science of mind-body-environment relationships, an interdisciplinary science concerned with the interactions of matter, energy, and consciousness. Psychotronics involves the study, research, and applications of the physics and technology of the mind, brain, spirit, consciousness, and the underlying forces of life and nature – hence the term “psychotronics”.

We believe that a true understanding of the universe must include the spiritual, as well as, the technical, and provide an opportunity for amateur researchers to present their findings along with the professionals. We stress research, with documentation of results, and practical applications, rather than personal experience and unsupported hypotheses.

Some Prominent People in the history of psychotronics research and application: Albert Abrams, Thomas Bearden, Robert C. Beck, Robert O. Becker, Jacques Benveniste, David Bohm, Harold Saxon Burr, George W. Crile, Ruth Drown, T. Galen Hieronymus, Vlail P. Kaznacheyev, Georges Lakhovsky, Wilhelm Reich, Royal R. Rife, Rupert Sheldrake, Nikola Tesla, Marcel Vogel, and others.

Some of the forces, fields, waves, and energies studied and researched in psychotronics include: bioelectromagnetism, biophotons, biopotentials, electromagnetic wave pollution and harmful effects; coherent emanations of DNA, emanations of matter, “free energy”, morphogenetic fields, non-hertzian waves, orgone energy, pyramid energy and power, qi (chi), quantum fields, scalar waves, subtle energies, ultra-weak radiation of living matter, zero-point energy, and others.

Some of the phenomena believed to be produced or involved with the above fields and energies: action-at-a-distance, the aura of the body and other living things, bioinformation, bioluminescence, chakras, consciousness, distant intercellular interactions, meridians of the body, mind-body interactions, non-locality, the placebo effect, quantum consciousness, spontaneous remission of cancer and other diseases, water memory, water structure, and others.

Related fields of study and research covering the above forces, energies, and phenomena of psychotronics: bioelectromagnetics, bioenergetics, biophotonics, biophysics, psionics, psychoenergetics, psychoneuroimmunology, quantum biology, radionics, scalar electromagnetics, and others.

Some practices, techniques, and applications related to psychotronics include: acupuncture, biogeometry, brain entrainment, clairvoyance, dowsing, energy healing and medicine, extrasensory perception, feng shui, homeopathy, kirlian photography, magnetic therapy, pendulum use and methods, prayer effects, psionic medicine, psychic healing, psychometry, qigong, radiesthesia, radionics, remote viewing, shamanism, sound and sonic healing, telekinesis, telepathy, and others.

Membership Benefits

So if you are interested in any of the above subjects, then the USPA is the place for you, where you can interact with, exchange ideas, and collaborate with other people who are interested in the same subjects. So sign up now for membership in the USPA using the form on the following page and start enjoying all of your membership benefits. These benefits include, but are not limited to:

1. **USPA Psychotronics Library:** Free access to copies of certain articles, periodicals, books, audio tapes, videos, and other materials in **USPA Psychotronics Library**. Please write to joreed43@gmail.com for whatever item(s) you are seeking;
2. **Your free subscription to the USPA Journal & Newsletter;**
3. **Your right to freely publish articles in the WISE Journal - The Journal of the World Institute for Scientific Exploration (ISSN 2381-1536),** enabling the world to see your ideas or research, and thereby enhance your resume and credentials;
4. **Your right to use the USPA Literature Research Service,** whereby we will find any article, book, or other item you are seeking on the above subjects, and provide it to you;
5. **Your right to participate in the USPA "Research Assistance Program",** especially useful to professors, authors, and other researchers, who need extra help on their projects. USPA will help find volunteers to help you with your research project(s).
6. **Your right to be part of the USPA Project Participation Program,** whereby you can volunteer to help on numerous available USPA projects, or help researchers who are conducting research on psychotronics and related subjects.
7. **Your right to make oral or poster presentations at the annual USPA meeting,** with the approval of the Annual USPA Meeting Planning Committee.
8. **Your right to discounts** on the purchase of certain items and services made available for sale or provided by the USPA and its members.
9. **Your right to freely advertise in the WISE Journal,** which goes out to thousands of people.
10. **Your right to participate in the USPA Psychotronic Literature Preservation Program (UPLPP).** The USPA, via its Library and Archives, has established a "Literature Preservation Program" to preserve your personal papers, files, records, and collection of articles, periodicals, books, and devices on psychotronics and related subjects, noted above. You may no longer need or use some of these items that you have, and you can send them to the USPA, and we will preserve them in our library and archives, so that they can be of use to other researchers.

MEMBERSHIP INFORMATION

The U.S. Psychotronics Association (USPA), was incorporated in the District of Columbia in August, 1977, and is a nonprofit, 501(c)(3), tax exempt organization, and as such, you are able to make tax deductible donations to the USPA. It is empowered to enroll members in the parent organization throughout the United States, Canada, and other foreign countries. Membership is open to all people who wish to join with the USPA on the new frontiers of science in working constructively for the qualitative improvement of man and his environment. **Please remember the USPA in your annual charitable giving, especially if you want to advance research in the above subject areas, which can greatly benefit humans, animals, plants, and the environment.**

United States Psychotronics Association Membership Application

Please print the page, and complete the following information:

Date _____

Name _____

Email _____

Mailing Address: _____

City _____ St _____ Zip Code _____

County _____ Country _____

Phone _____ Cell Phone _____

I am interested in the following Fields:

☐ General ☐ Healing ☐ New Age Physics ☐ Radionics
☐ Dowsing ☐ Subtle Energy Research Other Interests (Please specify) _____

Do you want to be listed in the USPA Membership Directory? ☐ Yes ☐ No

Type of Membership desired:

☐ One Year @ \$35 ☐ 2 Years @ \$60 ☐ 3Years @ \$85

☐ Full Time Student @\$20

☐ Member of the Military @\$20

☐ Family Member Membership @\$30 per Person

2nd Family Member _____ Email _____

3rd Family Member _____ Email _____

4th Family Member _____ Email _____

Fees Payable to USPA in U.S. Dollars only:

Amount Enclosed: \$ _____ Check or Money Order Number _____

☐ Send via PayPal to uspsychotronics@yahoo.com

☐ Receive a PayPal Bill (Your PayPal email) _____

Visa or Master Card # _____ -- -- -- Exp. Date _____ CVC Code _____

Name on Card _____ Signature _____

Billing Address _____

If you wish to register online, you may go to <https://uspsychotronics.configio.com>

Please complete, scan and email document to Membership@psychotronics.org
Or Mail to USPA c/o Phyllis Weiland, 535 Michigan Ave, Apt. G Evanston, IL 60202

Thank You!

USPA Catalog of Conference Lectures, 1978-1994

Now Available

A compilation of nearly 300 lectures given at the first 17 years of the United States Psychotronics Association (USPA) conferences, from 1978 through 1994 is [now available in a 30 page catalog \(click here\)](#).

There are talks by some of the most well known scientists of our age, including Andrija Puharich, Thomas Bearden, Marcel Vogel, Lynn Surgalla, Robert Beck, T. Galen Hieronymus, J.G. Gallimore, Elizabeth Rauscher, Christopher Bird, and many, many more.

There are also lectures specifically about radionics from some of the top practitioners: Robert Beutlich, Lutie Larsen, Jerry Fridenstine, Frances Farrelly, and others.

If you have an interest in the paranormal, the life of plants or zero-point energy, there are speakers here who are experts in the fields. How about dark-field microscopy, scalars, magnetic fields, or the Philadelphia Experiment? Yes, they are in here in this catalog too. Homeopathy, color-healing, use of crystals, structuring water, water memory, and Tesla's work are some of the other topics covered in this catalog.

As of this date, (April 15, 2017) they are available only by direct contact with USPA, but soon, they will be available online. The USPA home page is at <http://www.psychotronics.org> and we will have a linked site where purchase will lead to immediate download of the MP3, and payment can be made through Pay Pal.

Please note that [in the Catalog \(click here\)](#), most of the lectures are standard MP3s, are 30-45 minutes long, and priced at a very reasonable \$5.00 each. These have no marking in the right-hand column of the catalog listing. Other MP3s are one hour or slightly longer, and are marked "Prime" in the right-hand column, with a price of \$8.00 each. And a few of the MP3s are 90 minutes or longer, and are marked "Double", with a price of \$10.00 each. USPA members get 40% off.

However, if you just "can't wait," for the online order website, email us at uspsychotronics@gmail.com or contact our USPA Treasurer by snail mail at:

Scott Beutlich
USPA,
525 Juanita Vista
Crystal Lake, IL 60014
Email: uspsychotronics@yahoo.com

Until the online order site is ready, you can print out the last page of this PDF and fill it in. You can scan it and email it to us, or send it via snail mail. For now, payment is by Check, Money order, or Pay Pal.

Thanks for your interest, and good luck with your research.

USPA is a fully registered, 501 C(3) Non-Profit Organization
Donations are Gratefully Accepted, and are fully tax deductible

J.G. Gallimore's Five Rare Books Now Available for Sale

All five of J.G. Gallimore's rare books on psychotronics subjects and unusual energies have been reprinted by the United States Psychotronics Association (USPA) and are being made available at a fraction of the cost that used copies were being sold at online. So rare have these books been, that only a few libraries in the entire world had them in their collections, and some of Gallimore's books were being sold for several hundred dollars each online. However, with these newly reprinted volumes, each will be available for less than \$30.00. Each of Gallimore's books is described below with links to Amazon.com.

Jerry G. Gallimore was one of the founders of the USPA in 1975, and was a leading researcher in psychotronics and unusual energies until his untimely death in 1989.

The Handbook of Unusual Energies: Volume 1

by J. G. Gallimore

Paperback: 484 pages

Publisher: CreateSpace Independent Publishing Platform (March 22, 2017)

Language: English

ISBN-10: 1543024998

ISBN-13: 978-1543024999

Product Dimensions: 8.5 x 1.1 x 11 inches

[Available at Amazon.com](#)

This is J.G. Gallimore's first book of three volumes on unusual energies, and at 468 pages, it is a magnificent work. In this book, Gallimore discusses in depth the research, discoveries, and

inventions of all the major researchers in subtle energies, the aether, biological

fields, pyramid energy, radiesthesia, radionics, crystal transduction, and related subjects. These include the works of Baron Von Reichenbach's and his odic energy, Dr. Wilhelm Reich's orgone energy, Dr. Harold Burr's biological life fields, Kozyrev's time mirror, Edgar Cayce's transmission of energy, and related research done by many others. Of particular importance is Gallimore's 127 page chapter on radionics. In this chapter he discusses in depth the research and devices of Ruth Drown, T. Galen Hieronymus, Rho Sigma, Dr. L. P. Corte and other prominent people in the radionics field. But in addition, Gallimore provided diagrams showing how such devices are made and how they actually work.

Collected Properties & Writings of J. G. Gallimore: Volume 2 of Handbook of Unusual Energies

by J. G. Gallimore

Paperback: 258 pages

Publisher: CreateSpace Independent Publishing Platform (March 22, 2017)

Language: English

ISBN-10: 1543025048

ISBN-13: 978-1543025040

Product Dimensions: 8.5 x 0.6 x 11 inches

[Available at Amazon.com](https://www.amazon.com/dp/1543025048)

This is the second book in the "Unusual Energies" series that J.G

Callimore published. It covers Gallimore's research on Albert Abrams, the founder of modern radionics, psychological physics, psychic energy, thought resonance, subtle energies, crystals, and related subjects. In addition, a number of radionics devices are discussed, such as the De La Warr Diagnostic Instrument. And very helpfully, the rates are provided for substances, body organs, and medical diseases and disorders. A very interesting interview of Christopher Bird, conducted by J.G. Gallimore is provided, as well as a discussion of Walter Russell and his research.

Relationship Between Parapsychology and Gravity: Volume 3 of Handbook of Unusual Energies

by J. G. Gallimore

Paperback: 228 pages

Publisher: CreateSpace Independent Publishing Platform (March 22, 2017)

Language: English

ISBN-10: 1543024947

ISBN-13: 978-1543024944

Product Dimensions: 8.5 x 0.5 x 11 inches.

[Available at Amazon.com](https://www.amazon.com/dp/1543024947)

The Relationship Between Parapsychology and Gravity is Volume 3 of J.G. Gallimore's series of three handbooks of unusual energies. This book describes in depth the research and theories of J.G. Gallimore into the question of "parapsychology transmission" --the question of how such things as telepathy, remote viewing, ESP, and similar phenomena can physically occur. Gallimore discusses various explanation on how they occur, including the possibility that gravity waves may play a role. He also discusses the various emanations, radiations, and energy fields of all matter and life. This includes the ancient Chinese energy called "chi" (qi), the ancient Indian's prana energy, Reichenback's "odhic force", Gurwitsch's "mitogenic radiation", Wilhelm Reich's orgone energy, and other subtle energies of life and matter. Gallimore shows how all of these energies are the same or similar, how they interact, and how they are related to gravity. He also discusses crystals as transducers of these energies, and provides diagrams of devices that could potentially be used to harness or control these energies.

Transverse Paraphysics: The New Science of Space, Time, and Gravity Control

by J.G. Gallimore

Paperback: 374 pages

Publisher: CreateSpace Independent
Publishing Platform (March 21, 2017)

Language: English

ISBN-10: 1543024920

ISBN-13: 978-1543024920

Product Dimensions: 8.5 x 0.8 x 11
inches

[Available at Amazon.com](https://www.amazon.com/dp/B06YD8Y8Y8)

This book covers the visionary research and theories developed by J.G. Gallimore about anti-gravity, space, time, and biophysics. He discusses in depth the dimensions of space, time, and gravity, and new discoveries in each of these areas. In addition, he covers research being done on anti-gravity and then discusses anti-gravity patents that have been obtained. He also discusses the intriguing concept of aura energy fields surrounding humans and other living things, and how extra-sensory perception (ESP) might be explained through biophysical principles.

Unified Field Theory Research Book: Using Subjective Response to Psi-Plasma for Analysis of Properties Neutral Charge Plasma Fields

by J.G. Gallimore

Paperback: 134 pages

Publisher: CreateSpace Independent
Publishing Platform (March 21, 2017)

Language: English

ISBN-10: 1543024831

ISBN-13: 978-1543024838

Product Dimensions: 8.5 x 0.3 x 11
inches

[Available from Amazon.com](https://www.amazon.com/dp/1543024831)

This book is about psychotronics, radionics, electromagnetic fields and waves, psi-plasma, plasma fields, subtle energies, bioelectromagnetic energy, and other unusual energies emitted by living and non-living things. It also is about how living things interact with and are affected by these energies, which may enhance health or harm health. The book covers the research of Wilhem Reich on orgone energy, of Baron Reichenback on the odic forces, as well as research done by Cazzamalli on brain radiations and Lakhovsky on using high frequency radiations to successfully treat cancer in humans. In addition, Lakhovsky used similar methods to enhance the growth of plants. Gallimore shows how these energies, forces, and fields are all inter-related and provides hypotheses and ideas on their possible unification.
