WHAT IS PSYCHOTRONICS?

Beverly Rubik, Ph.D.
President, USPA

Psychotronics originally referred to the mind (*psycho*) operating devices (*tron*) with thought. This term came out of parapsychology in the 1960s in Czechoslovakia. The early psychotronics researchers conceived of and built psychotronic generators—sacred geometrical forms composed of pyramids and cones along with crystals, copper coils, and other materials. Unlike most machines, these devices were “operator dependent”—having various effects depending upon the operator and the directed intention—and demonstrated positive effects on people, animals, plants, and processes.

Today our interests are more broadly based. The US Psychotronics Association (USPA) investigates and applies science and technology to interactions of mind, matter, spirit, consciousness, and the underlying forces of life and nature. Psychotronics challenges the dominant scientific worldview because it deals with the power of consciousness to interact directly with the physical world, which is not considered in mainstream science. However, numerous lines of scientific and other evidence point to severe limitations of the dominant paradigm, which holds that consciousness is only a passive observer. We are among those mavericks shaping the new worldview in which consciousness plays an active role in generating physical reality.

Our membership is quite diverse and fascinating. Some USPA members are frontier scientists conducting research on the effects of intention and subtle energy healing on systems such as structured water and its memory, plant growth, and the integrity of DNA. We are also concerned about the impact of electromagnetic pollution from the proliferation of wireless devices in our environment and how to protect ourselves. Other members are practitioners and teachers of radionics, using directed intention to assess and improve the well-being of living systems through the use of radionics devices, pendulums, and dowsing rods. Still others practice energy therapies ranging from hands-on healing to use of sound and light therapies, homeopathy, Oriental medicine, and other complementary modalities. Some members are skilled intuitives who can assess the biofield and subtle energy directly, without any tools. Still others are exploring psychotronics for personal growth and evolution. Despite our differences, we have much in common as we are all open-minded persons focused on expanding our understanding of nature, consciousness, and the full human potential. We enjoy camaraderie and sharing our new learning with one another.

One main focus of the USPA is the existence of a cosmic energy or bioenergy, also called *qi* in Oriental medicine and *prana* in Ayurveda—associated with the biofield

or life force. Energy may be mobilized with directed intention, which corresponds to the principle of ancient Eastern philosophy—“where mind goes, the *qi* flows.” Psychotronics devices may serve as resonators or conduits of a cosmic energy affecting living systems at a physical level. The biofield, the energy field of each organism, is also fundamental.

Is this cosmic energy an aspect of science that has somehow been overlooked, or a new form of energy? We are taking a deeper look at the science of Nikola Tesla, among other pioneering scientists, who have been largely ignored. We are also revisiting the “aether” in physics that was displaced by a materialistic worldview, but may actually be the quintessence underlying physical reality, and the etheric body in radionics, to expand the scientific perspective.

The theme of our 40th annual US Psychotronics Association conference is, “Mind, Matter, and Aether: Applications to Radionics.” Recently I had a conversation with Dr. Jeffrey Mishlove about the event, which he produced into a short video: <https://youtu.be/hR8APqBbgCg> Dr. Mishlove, a parapsychologist, who is also an invited speaker at our event, spoke with me about his upcoming presentation in another short video: <https://youtu.be/iWkRElpYTml> Our 2018 conference features 20 speakers, with more invited speakers than ever before and promises to be one of our best. All are welcome to attend. We look forward to seeing you there!

Live-Streaming of USPA Conference Now Available!!

Not Able to Make it To Chicago For the USPA Conference? Watch the Conference LIVE From Anywhere in the World!!

You don't have to miss out on the 40th Annual USPA Conference "Mind, Matter, and Aether: Applications to Radionics," if you're too far away on July 20-22, 2018. Watch the Livestream of the conference from anywhere – from the comfort of your home, office, or on the go. You'll be saving hundreds of dollars on hotel and air fare.

Explore the subtle realms underlying the material universe; the history of the aether in science and philosophy. Hear from 20 renowned speakers including authors and leading experts in frontier science, radionics, dowsing, energy healing, and subtle energies.

With the Live Streaming Registration, you will get the ability to watch and listen to the speakers from any digital device or by call in phone number. You will also receive access to the digital playback files once they are posted shortly after each session. The viewing platform can be used on either PC or Mac and Apple or Android devices so you will have no problems joining the session from your chosen devices.

Nominations Still Open for Three USPA Board Member Positions (Update)

Nominations are still open for three positions on the Board of Directors of the US Psychotronics Association (USPA), whose incumbent terms expire in 2018. The current Board members whose three year terms are expiring are: Dr. Linda Lancaster, Daniel Taylor, and John H. Reed, M.D., who is the editor of the USPA Journal and Newsletter.

All three people have been renominated, but if any USPA member would like to nominate others, you are welcome to do so. Please email the names of your nominee(s) to Scott Beutlich at: uspsychotronics@yahoo.com.

Only current members of USPA are eligible to make nominations, and those nominated are required to have two consecutive years of USPA membership, as well as, be qualified in knowledge or work in the areas of psychotronics.

Voting on the nominees to determine who will fill the three expiring positions will take place at the USPA business meeting on Sunday, July 22, 2018, in the hotel meeting room.

So be sure to come to the [2018 USPA Conference](#) and let your voice be heard.

Mind, Matter and Aether: Applications of Radionics

Distinguished Speakers Include:

Drs. J.J. and Desiree Hurtak – *The Power of Music and Sound for Mental Consciousness Upliftment*

Dr. James Oschman – *Structure and properties of the Quantum Information Field*

Dr. Jeffrey Mishlove – *Highlights of Psi Research*

Dr. Patrick Bailey – *New Energy Technologies and the Scientific Basis of Alchemy*

Pete Radatti – *Practical Innovations for the Radionics Practitioner*

Dan Davidson – *Aetheric Physics: Cosmic Structure and Aether Function*

Stephen Quong – *Radionics Broadcasting of Sanskrit Mahamantras*

Dr Lauren Palmateer – *Opening Organs of Perception: The Human Body Antenna*

Dr. Beverly Rubik – *Overview of Psychotronics: Intention meets Technology*

Dr. Glen Rein – *The Etheric Nature of Life Force*

Dr. Linda Lancaster – *Understanding the Etheric Body*

Summary of 2018 USPA Conference Presentations and Speakers, in Order of Presentation (Full Abstracts and Biography of Speakers Are Available, Here.)

Beverly Rubik, Ph.D.

Beverly Rubik earned her Ph.D. (biophysics) at University of California, Berkeley. She is internationally renowned for her research on the biofield and subtle energies and is president & founder of the Institute for Frontier Science, a nonprofit laboratory in Oakland, CA. She is also a professor, holistic health educator, and president elect of the USPA.

Overview of Psychotronics: Intention Meets Technology

How psychotronics harnesses the power of intention to manifest the changes in the physical world and is at the cutting edge in exploring subtle energies and novel bio-signals.

Scott Beutlich

Scott Beutlich taught High School Physics for 33 years. Scott's dad, Robert "Bob" Beutlich was one of the original members of the USPA. Scott attended his first USPA meeting in 1979. He has volunteered at conferences, served on the Board of Directors and as President. He is currently Secretary-Treasurer.

The Luminiferous Aether: Its role in the History of Science

Conventional Physics eliminated Aether while ignoring great minds like Tesla and Dirac who described a "Sea of Energy". Our next Paradigm shift, the Aether will return as the home of all forms of Subtle Energy, Free Energy and consciousness.

1. The reason for Luminiferous Aether and how Aether was removed from Physics.
2. Evidence for a "Sea of Energy".
3. The Future of Aether.

Rev. Mary Hardy, Ph.D.

Rev. Mary Hardy is a writer, teacher, herbalist, and servant of bringing a new consciousness to the planet. She has a Ph.D. in Homeopathy from the Missouri College of Naturopathic Physicians, a B.A. in Education from WMU, and founded the annual Temple of Sakkara conference and the sisterhood of the Emerald Fire.

Pyramids Generate Scalar Waves and create Orgone Energy as an Antenna with the proper Orgone covering

A unique "orgone pyramid"- one with an orgone-type covering, a layer of electric and dielectric material, created orgone energy that balanced out abnormalities in the Bermuda Triangle, Great Lakes Triangle, and weather anomalies such as tornados.

1. Pyramids are antennas that can set up the resonance to heal the planet through orgone energy.
2. Weather control. Pyramids generate a standing wave (scalar energy) that can remove weather abnormalities.
3. Using the prayer of the Holy Grail Vortex to balance the resonance factor on the planet so that we can heal the planet.

Marty Lucas

Marty Lucas is a full-time radionics practitioner and instructor. He specializes in cutting edge research, building reagents and advanced protocols for radionic work. "My goal in working with you is simply to empower you with the knowledge. A radionic balancing helps promote vitality and support immune response and can suppress pest and parasites." Properly balanced soils naturally suppress weeds as well. Plus, radionics balancing can help you reduce the use of chemical fertilizers, pesticides and herbicides and create techniques to take advantage of your natural abilities using the newest technology.

Programming Plant DNA with Radionics: How to make self-replicating reagents

1. DNA can be programmed with Radionics Frequencies.
2. These frequencies can be passed to future generations.
3. This technique is more flexible and less costly than other genetic manipulation technologies.

Aimee Whalen, BSN, RN

Aimee Whalen is a polymath of the healing arts. Specializing in biofeedback and cranial sacral modes of therapy, she is also a Registered Hospice Nurse, Reiki Master and a Certified Infant Massage Instructor. She trained with Dr. Linda Lancaster and completed a Masters in Medical Radiesthesia. With over 30 years of practice, she skillfully combines scientific rigor with intuitive sensitivity to hone in on the patient's body-mind as a whole ecosystem. Aimee has lectured on a variety of topics from Spirit & Medicine, medical care of HIV infants and children, to preventing school gun violence through increased parent and school personnel recognition of subtle cures.

Using "Ethereic" Energy to Heal: Spirit and Medicine

Our relationships with people are shaped by the interactions of our energies; by simply touching another person, we influence what happens in their energy field. As I teach new nurses and doctors, I always say, please be present with your patient, observe the subtle cues. Inherent in a diagnosis is the "shock." In order to promote healing, it is imperative to clear the "shock." I am a story-teller and will share my experience and outcomes by presenting several case histories of my former patients and the importance of clearing the etheric energy.

1. Identification of subtle clues, how to "pay attention" and ways to promote self-healing.
2. The importance of clearing the etheric field and "shock".

J.J. Hurtak, Ph.D. and Desiree Hurtak, Ph.D.

J. J. Hurtak, Ph.D., Ph.D. and Desiree Hurtak, Ph.D., are founders and directors of The Academy For Future Science, an international NGO. Dr. J.J. Hurtak is the author of numerous books including, *The Keys of Enoch*®, and also, *The End of Suffering*, with physicist Russell Targ. Together, the Hurtaks have written numerous books including *Overself Awakening*, and recently, *Mind Dynamics*, with Dr. Elizabeth Rauscher.

The Power of Music and Sound for Mental Consciousness Upliftment

We will discuss the use of music and unique frequencies to trigger positive health results throughout the body and mind, showing new ways to help patients, for example, in their recovery from strokes, to improve heart rate variability (HRV), and for the raising of consciousness.

1. Understanding the effects and power of music.
2. Stimulation of brain regions for the raising of consciousness.
3. Binaural beats and sub audible frequencies.

Jeffrey Mishlove, Ph.D.

Jeffrey Mishlove is author of *The Roots of Consciousness*, *Psi Development Systems*, and *The PK Man*. He is the recipient of the only doctoral diploma in “parapsychology” ever awarded by an accredited university (University of California, Berkeley, 1980). He is host and producer of the *New Thinking Allowed* channel on YouTube.

**Highlights from 136 Years of Psi Research**

Since the founding of the Society for Psychical Research in England in 1882, there has been an ongoing effort to scientifically define the boundaries and outer reaches of human consciousness. This presentation highlights the main findings that have been consistently observed for over a century.

**Linda Lancaster, ND, Ph.D.**

Dr. Linda Lancaster is a Board Certified Naturopathic Physician and Homeopath. She has been in practice since 1981 and founded Light Harmonics Institute, an Energy Medicine Clinic and Educational Center based in Santa Fe, New Mexico. She maintains clinics in Santa Fe and New York City. Her training includes Classical Homeopathy, Radionics, Medical Radiesthesia, Subtle Energy Healing, Naturopathy, Nutrition, Herbal Medicine, Ayurveda and Detoxification Methods. Her health and cleansing programs have been offered to her patients for more than 30 years. Dr. Lancaster is President and Founder of GFIM Global Foundation for Integrative Medicines.

Understanding the Etheric Body in Radionics

The etheric body or the Vital Body interpenetrates the physical body and is held together by interpenetrating energy threads, streams, or lines of light. It is the receiver, assimilator, and transmitter of energy! Ether is the life force in every cell and atom of the physical body. Without it, there is no life.

Dr Linda Lancaster will bring awareness of the subtle field of ether.

Dr. Patrick Gage Bailey

Dr. Patrick Bailey received his BS in Engineering Physics from UC Berkeley and his Ph.D. in Nuclear Engineering from MIT. He has spent his entire life in advanced technology fields. He spent 8 years as a Project Manager at the Electric Power Research Institute (EPRI), and then 24 years as a Senior Electrical Engineer at Lockheed Martin. He is the President of the Institute for New Energy.

**The New Energy Technologies and the Scientific Basis of Alchemy**

A review of advanced energy conversion technologies including so-called free energy devices, low energy nuclear reactions, and ancient alchemy. Recent discoveries are forcing a new look at what is truly possible.

1. To understand that new sources of potential energy can lead to new exciting and applicable discoveries.
2. To learn that not everyone wants new information to be shared or utilized by the general public.
3. To understand that our view of physics is very simplistic and that much more is really possible.

Stephen Quong

Stephen Quong has over 40 years of experience with dowsing, energy healing, radionics, and other esoteric sciences. He is a world renowned Vedic Astrologer, Master of Feng Shui and Tao Geomancy, and former Buddhist monk and abbot. He travels extensively to teach and meet with his international clientele.

Radionic Broadcasting of Sanskrit Mahamantras

The presentation will discuss the use of some Maha Mantras as effective energetic talismans in radionic broadcasts, using analog, digital, or software type devices. The knowledge and techniques developed, tested, and proven by millions of people for thousands of years, can now be applied in the practice of modern radionics.

1. An introduction to the Vedic tradition of Mantra Yoga.
2. The practical use of mantras as an energetic talisman for radionics broadcasting.
3. Demonstration of the effects of the radionics broadcasting of mantras.

Glen Rein, Ph.D.

Glen Rein earned a Ph.D. in bio(neuro)chemistry from the University of London. He has 14 years of corporate experience in discovering, targeting and applying new technologies and bio-actives in personal care products. Dr. Rein established the Quantum Biology Research Lab, currently in Colorado, for pioneering research on the role of subtle energies in the body and offers contract research for clients (www.innobiotech.com). He has numerous scientific publications and is a board member of several international organizations and professional societies.

The Etheric Properties of the Life Force

The relationship between etheric, virtual, and imaginary energy will be discussed from the perspective of contemporary physics, which predicts "ghost fields", time-reversal, and other strange phenomena. The implications for biology, including phase conjugation behavior, will also be presented.

Pete Radatti

Peter Radatti is the author of the radionics training manual, "A Fun Course in Beginning Radionics". He is also the founder of the meetup.com radionics study group, Conshohocken Radionics. Other than his books, all of Pete's radionics work is in the public domain. Website: www.radatti.com

Practical Concepts and Tools to Make Radionics More Productive

Pete will explain how to automate a standard radionics system using computers; store radionics programs in crystals; use radionics jewelry and radionics for art, among other topics.

1. There are more ways of doing things than just smile and dial.
2. You can build a library of radionics programs which you can use to save time.
3. Radionics jewelry is very powerful.

Lutie Larson

Lutie Larsen, a radionic researcher for more than 30 years is an excellent consultant for the use of the SE-5 equipment. She operates a research farm and is constantly running projects using energetic frequencies. She believes that “experience is the best teacher”.

**Quantum Agriculture in India 2018**

Agriculture in India is at a critical crossroad. Modern equipment and agricultural practices are changing traditional small market farming practices. Small farmers, family farms are most vulnerable. Both organic and conventional methods are impacting Indian agriculture. Many of these large farms are funded by the government and private organizations.

**James Oschman, Ph.D.**

Jim Oschman, biophysicist, is an internationally recognized expert on the scientific basis of Energy and Informational Medicine. Jim has written several books including *Energy Medicine: the Scientific Basis* (Churchill Livingstone, 2000), *Energy Medicine in Therapeutics and Human Performance* (Butterworth Heinemann, 2003), and the second edition of *Energy Medicine: the Scientific Basis* (Elsevier, 2016). He has also authored 120 articles in peer-reviewed journals.

Structure and Properties of the Quantum Information Field

Radionics, the morphic field, distant healing, homeopathy, and telepathy may be explainable by the existence of a pervasive quantum information field interacting with all matter, living and non-living, extending throughout the universe. Evidence for the existence of such a field that shapes the fabric of space will be provided.

Beverly Rubik, Ph.D.

Beverly Rubik earned her Ph.D. (biophysics) at University of California, Berkeley. She is internationally renowned for her research on the biofield and subtle energies and is president & founder of the Institute for Frontier Science, a nonprofit laboratory in Oakland, CA. She is also a professor, holistic health educator, and president elect of the USPA.

**Harry Jabs**

Harry Jabs is a physicist formally educated in Germany and in the US. He is an experienced multidisciplinary scientist in the fields of physics, chemistry, biochemistry, electronics, mechanics, and material science. Going beyond currently accepted science, he is open to entirely new understandings of consciousness effects on living and material objects.

Aether: The Dynamic Substrate of Physical Reality

The fascinating story of aether from Vedic philosophy to contemporary physics with special focus on new concepts of aether from Einstein to Bohm and beyond.

1. The aether has always been there and was never really abolished.
2. Twentieth-century physics re-cast the aether as mathematical abstractions.
3. The aether explains anomalous phenomena, especially as pertaining to living systems.

Dan Davidson

Dan Davidson has degrees in Mathematics, Electrical Engineering, and extensive background in Signal Processing, Electromagnetics, Quantum Physics and Atomic Chemistry. Dan has 45 years as a Senior Scientist working for various aerospace companies. During college he devoted half time to school and the other half to researching alternative science. He has a consulting business for 13 years, hired by various high tech companies to solve difficult problems. Studying and experimenting with aether is ongoing and extensive.

Cosmic Structure and Aether Functioning The Universal Aether: Some of Its Laws and Operation

Understanding what aether is and how it manifests leads to a new basis for physics. This has applications in commerce, industrial manufacturing, healing, faster than light communication, and the medical arts. How the aetheric operates also provides a better view of dowsing, vastly improved radionics, healing energies, free energy, and gravitational physics.

1. Learn what aether is and how to control it.
2. Learn how our physical universe manifests.
3. Learn new avenues of research that can provide solutions to modern day problems.

Lauren Palmateer, Ph.D.

Lauren Palmateer has a PhD in Electrical Engineering from Cornell University and is an inventor on over 30 patents in the fields of semiconductors and display technologies. She worked in research institutions as Bell Labs, IBM Research and Observatory of Paris in semiconductor and microwave technologies and 4 startups in Silicon Valley in display technologies. Living in San Francisco, she is a consultant, technical advisor and patent analyst.

Opening Organs of Perception – The Human Body Antenna

Relating modern science and technical discoveries with analogies to subtle energy science and the work of the French Radiesthesisists leads back to humane and sensitive science.

1. Current curiosities in science that support Radionics and Radiesthesia principles.
2. Relationships between the human body antenna and new empirical discoveries in science.
3. Ideas to mitigate electromagnetic fields: can one construct the electromagnetic “golden grid”?

Harry Jabs

Harry Jabs is a physicist formally educated in Germany and in the US. He is an experienced multidisciplinary scientist in the fields of physics, chemistry, biochemistry, electronics, mechanics, and material science. Going beyond currently accepted science, he is open to entirely new understandings of consciousness effects on living and material objects.

Eclipse Lore and Results of 3 Solar Eclipse Experiments

Results of experiments conducted during the “The Great American Eclipse” of August, 2017, show anomalous effects on a pendulum, the weight of an object, and ambient electric space charge.

1. Anomalous physical phenomena have been associated with eclipses throughout history.
2. Besides alternations in the gravitational field, the consciousness of observers including their expectations may be factors underlying these anomalies.

Daniel Taylor

Daniel Taylor was elected to the USPA Board in 2015. He double-majored in Chemistry and Biology, and double minored in Physics and Mathematics, to prepare for Ph.D. level research in Biophysics. His undergraduate research involved single molecule tethering, magnetic tweezer manipulation, and Fluorescence Resonance Energy Transfer (FRET) analysis. He has been engaged in full-time Radionics research since 2010. He has studied with various practitioners in the U.S. Dan is also a Licentiate with The Radionics Association of the U.K. (www.radionic.co.uk).

Accessing and Supplementing Morphogenetic Fields with Radionic Coding Via the Ether

Dan will examine how radionic coding may supplement information in Morphogenetic Fields, thereby “informing” and affecting the resulting states in matter in cases of physical dysfunction.

1. Through radionics, we are tapping a hyper-dimensional ether.
2. This Ether, as it is understood in radionics, bears a striking resemblance to the Morphogenetic Field, as proposed by Dr. Rupert Sheldrake.
3. Once we see how the Morphogenetic Field acts as a matrix to “guide” the formation of matter, we will show examples of how radionics can be used to “supplement” information in the Morphogenetic Field, that appears to have “gone wrong,” or became garbled, resulting in physical dysfunction. Examples using radionic coding will be provided.

The USPA is a nonprofit 501(c)(3) organization founded in 1975 to serve as a focal point for scientific and technical exploration of the universe of esoteric, spiritual, and psychic arts in the United States of America. The USPA has been hosting annual conferences for its membership since its formation and has featured countless individuals with cutting-edge viewpoints, research, or theories to share, allowing any interested persons to openly discuss their work. The annual conference also delivers a variety of additional resources for participants, including supplementary workshops and vendors offering the latest ideas and technology.

USPA Conference Volunteers Needed

Because of a larger than expected turnout this year, volunteers are needed to help with the 40th U.S. Psychotronics Conference July 20-22, 2018 . Since 1975 the USPA has been operating 43 years, as a Non-Profit 501(c)(3) All Volunteer Educational organization.

We are extremely fortunate to have **Phyllis Weiland** as the official USPA Conference Coordinator. Phyllis needs people with MS Word skills to prepare written material, help with advertising, as well as, to be volunteers at the conference. **Some volunteers will get their conference fee waived.**

We know it will take multiple volunteers to do all that needs to be done, but there are only a limited number of volunteer positions available. To become a volunteer, please contact: **Scott Beutlich, Co-Chairman of the Conference Committee at uspsychotronics@gmail.com or call / text at 815-355- 8030 to offer your time and talents!**

The United States Psychotronics Association presents:

Radionics 101

An Introductory Workshop on Radionics and Dowsing

July 19-20, 2018

(Registration begins at 1:00 pm on, July 19; Sessions start at 2:00 pm. Contact George Kuepper, Radionics 101 coordinator, for further information: georgekuepper@yahoo.com There is a strict limit of 50 in the workshop, and seats are going fast.)

**The Hyatt Regency Hotel
Deerfield, Illinois**

As a prelude to the 2018 U.S. Psychotronics Conference, we are offering a short, practical introduction to radionics, beginning early afternoon on July 19th. The workshop is designed for novice practitioners and prospective students, as well as for those simply wanting to learn what radionics and psychotronics is all about. It will combine visual and explanatory presentations with several “hands-on” sessions, so participants get a real feel for what radonics practitioners do.

This workshop will be an excellent entrée to formal training in radionics. Students will learn fundamental theory, the design and role of instrumentation, and get an overview of the many applications of this cutting edge art and science. More importantly, much of the program will be hands-on. There will be several opportunities to experience the radionics “stick” and/or dowsing response, which is key to instrument operations in radionics and in radiesthesia.

During the program, participants will receive numerous handouts and other literature, some basic dowsing tools, and their own radionics template for what we hope will be the start of rewarding adventure in radionics.

All teachers are members of the USPA Board of Directors. Each has many years of experience in the practice of radionics and, collectively, their experience covers a wide range of applications:

Scott Beutlich is a former Director and current officer of the US Psychotronics Association (USPA), as well as the son of one its founding members. Scott will open the program with a brief history of the USPA and its role in promoting radionics through education.

Scott will be followed by George Kuepper--a long-time radionics practitioner, Biodynamic grower, and owner of Midsouth Radionics, who will give a quick history of radionics and an overview of its many applications to human and animal welfare, farming and gardening, and the environment.

Marty Lucas, the owner of Every Advantage Consulting, is a former president of the American Society of Dowsters and a certified organic farmer. Marty will lead a hands-on session on basic dowsing using traditional tools like pendulums.

Following dinner, Lutie Larsen, a noted teacher, practitioner, and the owner of Little Farm Research, will provide further hands-on training using a radionics template. The template is a simple device for basic skills training that includes finger-stick dowsing, the use of witnesses and rates, taking measurements, and broadcasting.

The following morning, Ed Kelly, the President of Kelly Research Technologies—a manufacturer of radionics instruments—will give everyone an “under the hood” look at radionics devices, to demystify the how and why of instrument construction and function. He will also guide a short exercise in instrument operation, to afford students another hands-on learning opportunity.

Dr. Linda Lancaster, a Board Certified Naturopathic Physician, Homeopath, and founder of the Light Harmonics Institute, will wrap up the program by discussing the principles of radionics and the evolution of this cutting edge science.

The workshop will come to a close at noon, prior to the USPA Conference, which kicks off at 1:30 pm. Workshop participants are encouraged to stick around!

Free Post-Conference Radionics Workshop

with Don Paris, Ph.D.

Dr. Don Paris will be conducting a free radionics workshop after the USPA Conference on Monday, July 23, from 10AM to 4PM with a lunch break. It will be held in the Lake Room of the Hyatt Regency Hotel, where the conference is being held.

No registration is necessary, but seating will be limited to first come, first serve.

Dr. Paris will teach you how to access the latest Radionics instruments from your smart phone, tablet, or PC. There is no need to purchase equipment, just log in and rent time on other people's units!

You can do this from anywhere in the world as long as there is Internet service.

Dr. Paris will also show SE-5 1000 users how they can add their units to the network so they can be rented out whenever it is not in use for their own clients.

SE-5 1000 users can also create programs for the Quantum Global Network. These can be used for personal use or for clients. SE-5 1000 users can also run programs and sessions for their clients to expand their capacity.

Dr. Paris will also go into depth about how and why Radionics can be used in health, gardening, and business uses. He will also do live demonstrations of analysis and balancing procedures. There will be plenty of time for Q&A. Bring your questions!

He will also discuss the current problems with EMF radiation and some solutions for your personal health, home, car and environment.

KRT Radionics Workshops: **Chicago, Illinois**

Kelly Research Technologies is very proud to support the **U.S. Psychotronics Association's 40th Annual Conference**, to be held in Chicago on **July 20-22, 2018**. The USPA is a non-commercial, not-for-profit organization that supports research in "psychotronics" - the science of mind-body-environment relationships, and interactions of matter, energy, and consciousness. Because the USPA is dedicated not just to radionics, but also the broader spectrum of esoteric phenomena, this meeting will present research and information from a wide variety of disciplines. The theme of this year's conference is ***Mind, Matter, and Aether: Applications of Radionics***.

KRT founder Peter J. Kelly was a founding member of the USPA in 1975, and KRT's Ed Kelly has been a member of the USPA's Board of Directors since 2011. For more information about the USPA and the 2018 conference please visit: www.psychotronics.org.

Immediately following the USPA conference, on **July 23 and 24**, KRT's Ed Kelly will be deliver **Basic Radionics**, a two-day course covering the fundamentals of radionics, including analyzing and balancing of soil and water samples using a Hieronymus-type variable capacitance radionic instrument. This hands-on workshop will equip participants with the tools needed to immediately apply radionics at their homestead or farm. Space is limited, so register to participate today!

BASIC RADIONICS: July 23-24, 2018

Chicago, Illinois

An introduction to the basic theory and hands-on operation of the radionic instrument. This course is designed for the brand-new beginner and anyone wanting a refresher on the basics. Topics include:

- History and Theory of Radionics
- Samples and Witnesses
- Energetic Analysis and Balancing
- Water & Plant/Soil Analysis Worksheets
- Use of Reagents: Physical and Electronic
- Basic Rate Scanning/Electronic Dowsing

Participants will practice using and developing a touch for the radionic instrument by completing analysis worksheets on water and soil samples brought from home or taken at the site of the class, then utilizing the instrument in the broadcast mode to energetically balance those elements.

Each individual and family/friend enrollee will be provided with following materials and information:

- *Radionics - Book 2: Applied Radionics*
- Set of 10 KRT radionic worksheets
- One 300 ml Griffin beaker
- One year: Kelly Research Report

- Who:** Courses taught by Ed Kelly, President of KRT. Ed is a uniquely qualified instructor with a lifetime building radionic devices and writing about this amazing art.
- When:** Classes will run from 8:30 am to 5:00 pm on July 23 and 24, with breaks.
- Bring:** Any Hieronymus-type two-dial radionic instrument, plus samples of water, soil, plants, and/or animals from home. *Please order as soon as possible if a new instrument is required from KRT.* A limited number of instruments will be available for rent.
- Where:** All workshops will take place at the Deerfield Hyatt Regency located at 1750 Lake Cook Rd, Deerfield, IL 60015. See the web page at: <http://tinyurl.com/jtgv6oq>. Special room rates of \$119.00 have been secured for USPA and KRT workshop program participants and includes two breakfast vouchers per night booked. Call for reservations at (847) 945-3400 and ask for "USPA".
- Food:** Participants will be responsible for their own meals.
- Enroll:** All prices are in US dollars. All registration must be paid by credit card or PayPal. Call to enroll via credit card at (706) 782-2524, or complete and fax the following enrollment form to (706) 782-1047. PayPal payments should be directed to: sales@kellyresearchtech.com. Send other correspondence to KRT, Inc., PO Box 128, Lakemont, GA, 30552, USA. Enrollment will be refunded upon request in the event a participant cannot attend, less a non-refundable fee of \$75 each. *New student registration offer can reduce class enrollment fee(s) to zero, then accrues as credit for purchases from the KRT catalog.*

THE SCIENTIFIC BASIS FOR ENERGETIC AND INFORMATIONAL MEDICINES
Post – USPA Conference Workshop

Dr. Jim Oschman is a biophysicist, renowned author, and an internationally recognized expert on the scientific basis for Energy and Informational Medicine. He will share how each type of energy medicine promotes healing, revealing another fascinating piece of the story of how the human body works in health, injury and illness.

Virtually every school of complementary and alternative medicine (CAM) teaches about energy as part of their trainings. It can be said that energy and informational medicine are alive and well in the alternative community, but virtually absent from conventional medicine. Exceptions are the electrocardiogram and electroencephalogram and their magnetic counterparts, the magnetocardiogram and the magnetoencephalogram, which can be viewed as energy medicine diagnostic tools, although physicians do not recognize them as such. Many of the energy modalities, from A to Z (Acupuncture to Zero Balancing) use my books as texts. It is a fascinating and detailed story that grows with the telling. Some basic physics and quantum physics are part of the story. I have lectured and given workshops on this topic in about 25 countries around the world and in every major city in the USA. The information is not only interesting and important for practitioners of the modalities under the umbrella of energy medicine, it is useful and important for everyone wishing to live a long and happy and healthy life. The ability of each type of energy medicine to promote healing reveals another fascinating piece of the story of how the human body works in health, injury and illness.

Judy Lynne Cole to Give Two Workshops Following USPA Conference

On July 23 and 24, 2018, after the USPA Conference, Judy Lynne Cole will be offering two different post conference workshops on these topics: 1) Innovations in Sound and Light and 2) Time and Valence. Each is described below:

WORKSHOP ONE

Innovations in Sound and Light

Level: Beginner or Introductory

July 23 and 24, 2018

Monday and Tuesday Afternoons:

1-4:30 P.M.

The information presented will be related to innovations in sound and light, and different applications for water sonication, such as hydroponics, cormorant behavior modification, stress reduction and cetacean communication.

Participants will have an opportunity to experience portions of The Cole Fusion Protocol. *

The Introductory/Beginner workshop has a fee of \$111.00, a deep discount off the normal \$222.00 fee for presentation of this material.

* * * * *

WORKSHOP TWO

Monday and Tuesday Evenings:

6-9 P.M.

Time and Valence

Level: Intermediate

July 23 and 24, 2018

Monday and Tuesday Evenings:

Workshop topics:

Monday Evening: Energetic ebbs and flows are excellent sets of information which can be used as tools for analysis after you understand how this relates to the level of overall System functioning.

Tuesday evening: How to use circadian rhythm and time anomalies to determine what

necessary recurrent resonances are missing: mineral, amino acid, meridian system, valence, spinal segment , integral pair and the importance of co-factors.

Judy's research, belief system, and experience is that a System out of attunement can be retuned with layered applications of Coherent and Isomorphic Sympathetic Vibratory Physics.

Tools to consider for resetting circadian rhythm and calming sympathetic nervous system overdrive which will be introduced are: Radionics, OMNiSound, Essential Oils, Prisms, Noise Reduction, Eye Exercises, Nutrition, Tuning Forks, Light and Positioning techniques for optimization of applications of recurrent resonances. *

The Intermediate workshop has a fee of \$222.00, a deep discount off the normal \$500 fee for presentation of this material.

Class Size of each workshop is limited to 20 participants.

***Note regarding the above workshops: human health issues cannot be covered at any time. Regrettably, any questions concerning human health will have to be declined.**

No Radionic equipment is necessary for any of Judy's informational and optional experiential workshops. Radionics will be discussed and demonstrated.

10% of the proceeds of each class are donated to The US Psychotronics Association.

Dual participation in both the afternoon and evening workshops will give the participant a discount coupon redeemable on select classifications of one Healing Partnerships product purchase.

Registration is to be paid prior to the workshops. Square, Stripe, Paypal, Check, Money Order or Cash will be accepted.

Please indicate interest in either or both workshops by Judy by emailing her at sonformula@hotmail.com or calling her at (260)249-3893.

Short News, Notes, and Queries

(If anyone would like to make a short news announcement, report something, has a question about anything related to psychotronics and related subjects, or has any information or comments about any of the following notes and queries, please write to the editor, John Reed at: joreed43@gmail.com)

1. BioStar Organix to Exhibit at 2018 USPA Conference

[BioStar Organix Healthcare Association](#) will be exhibiting its complementary and alternative medicine products and technology at the 2018 US Psychotronics Assn. (USPA) Conference, July 20-22 at the Hyatt Regency Hotel, Deerfield, Illinois. They will have a booth for their many nutritional and health products, as well as, for Bruce Copen radionics devices. BioStar Organix represents a device made by the historical radionics pioneer Bruce Copen, and they are the USA and Canada's exclusive representative for this technology. This includes a radionics device that performs without a rubbing plate.

Look for the BioStar Organix booth in the Exhibit area of the Hyatt Regency, or contact them at the following: BioStar Organix Healthcare Association, P.O. Box 3165 Santa Clarita, California 91386 USA; +1(800)787-6404; email to: orders@biostarorganix.com; website: <http://www.biostarorganix.com>

2. **Does anyone know anything about a man named William Lehr (1933-1996), who lived in Scammon, Kansas, and who developed several energy and healing devices, and made a reproduction of the T. Henry Moray energy device?** In addition, Lehr is said to have created a high-powered spark-gap device for healing purposes that cured a man who had been sent home to die, as well as a huge bibliography of articles and books dealing with new energy sources and energy medicine and treatment.
3. **Does anyone know the whereabouts and/or contact information of Dr. Robert N. Miller?** At the 1978 USPA Conference, Dr. Miller gave a presentation with Pierre Paul Sauvin titled "Methods of Detecting and Measuring Healing Energies." That was the only time that Dr. Miller ever spoke at a USPA conference, and we would like to follow up with him on any research he has done since that time.
4. **We have been recently informed that one of the radionics devices that Jerry Gallimore invented in the 1970's or 1980's used a GSR meter in place of a stick plate.** Does anyone happen to have or know anything about this particular device?

Such a device would be very significant, because if there is a such a radionics device that can be successfully used without a stick plate, which depends on the sensitivities and subjectivity of the user, it would enable nearly anyone to use that radionics device. One of the problems that beginners in radionics often have is the detection of the “stick”, on the stick plate, and some people are never able to develop this ability.

5. **Do any of you know anyone who has ever owned, used, or did research on the**

Dotto Ring? This was an electrotherapy treatment device, pictured at left, developed by Dr. Gianni Dotto back in the 1970's and is said to have been used successfully to treat cancer and other diseases in humans and animals. In addition, the Dotto Ring was also said to be able to slow down the aging process and even rejuvenate individuals to some degree.

6. **Does anyone have video tapes of the presentations that Andrija Puharich made at the 1982 US Psychotronics Association Conference?** The title of Dr. Puharich's first presentation was: “Chemical Compounds: Receptors of Artificial ELF”, and was sold for a period of time on the USPA website with this title and catalog number F6.

The second presentation that Dr. Puharich made at the 1982 USPA Conference was the Keynote Address at the Awards banquet. The Title of this presentation was “Kindling + 1” and had catalog number F7. If anyone has either or both of these tapes, please contact the editor, John Reed at: joreed43@gmail.com.

Among the Missing, (and Updates): A Column about Missing People, Organizations, Periodicals, Books, Artifacts, and Collections in the Psychotronics Field

by John H. Reed, M.D

This is a new “column” or section of the USPA Newsletter, and will be an ongoing part of every issue, with the purpose of helping the USPA, as well as, our members and research associates locate people, organizations, periodicals, books, artifacts, devices, collections, and other items that have seemingly disappeared, or have been extremely difficult to find. **Updates will be added, and each missing item will be retained in future issues until it is found or otherwise resolved, since some readers may not have seen prior issues of the USPA Newsletter or the original notice of the missing item.**

In addition, this will also serve as a “People Locator Service” to help find authors and researchers on psychotronics, radionics, subtle energies, energy medicine, and related subjects, who have “disappeared” or have died long ago, and whose relatives you may be trying to find in order to preserve the research papers and collection of that person.

In our research and reading, we all have encountered people, organizations, periodicals, books, articles, or other things that we have tried to find, and some people have searched for years to find something, but have not yet found it, despite the vast resources of the Internet. However, with our large USPA membership, we can all help one another find what we have been searching for. Some of you may have experience in genealogical research, or private investigation, law enforcement, or even intelligence work which you could utilize to help each other, or perhaps just make suggestions on how or where to search for something.

So if there is anything you have been searching for and need help to find, please write to me, John H. Reed, M.D. at: joreed43@gmail.com, and I will include your search help request in the next and subsequent issues of the USPA Newsletter. And if you have any information about an item that is listed in “Among the Missing”, please write to the same email address and share what you know or your suggestions. If there is something that is confidential, your confidentiality request will be honored and protected.

Missing Inventions: The Missing Invention of Arthur H. Matthews to Control Insect Pests, Microbes, and Diseases at a Distance

Where are the patent and invention by Arthur H. Matthews, a Canadian, who in his own words stated “This refers to my invention of selective control – at a distance – with no physical contact – to control any form of germ – any sickness – all kinds of insect[s] which cause damage to forest, garden and human[s].” Those words appeared in Matthews’ own hand writing at the bottom of a reproduced letter on

Appendix page A-10 of his book, *The Wall of Light*, which he published in 1971. But the big mystery is that the Canadian Patent Office database of patents does not show this invention or any other invention by Arthur H. Matthews.

Interestingly, correspondence of the Canadian Commissioner of Patents shows the title of the invention as “Methods for the Control of Insect Pests” and the patent **application** number of: 510,626, but not the number of the patent, if it was ever granted. So the question arises: What happened to this wonderful invention by Mr. Matthews, and why does the Canadian Patent database have no record of this device whatsoever in its database of patents?

Further details on this mystery are available in an article titled, “Among the Missing” Special: The Missing Invention of Arthur H. Matthews to Control Insect Pests, Microbes, and Diseases at a Distance” in the [February, 2018, issue of the USPA Journal and Newsletter, pages 24-27, available here.](#)

If anyone has any information about this invention by Arthur H. Matthews, please write to the USPA editor, John H. Reed, M.D. at: joreed43@gmail.com.

Missing Device: Marcel Vogel's Omega- 1 Radionics Instrument

In a 1987 meeting presentation, [YouTube Video, available here, beginning about 4:20](#), Marcel Vogel states that he had been trying to find a way by which he could measure the subtle energies and fields in the crystals he was working with, and that he prayed to God to give him an instrument to make such measurements. Marcel says that about two months later, a man named Daniel Perkins, apparently guided by higher forces to build such an instrument, came to Marcel's door and said, “Here is your instrument, the Omega-1. You will know how to use it,” and walked away. **But where is that particular Omega-1, and were any other Omega-1 instruments built?** It is known that other Omega models of radionics instruments were produced, especially Omega-5 instruments, but it is not known if the company that built them still exists. **In addition, does anyone know who Daniel Perkins is, and where he is located?** Anyone who can shed light on this mystery, please write to the editor at: joreed43@gmail.com.

Missing Psychotronics Device:

The AGRAD Machine: In the 1970's Mankind Research Unlimited, Inc.(MRU), headed by Dr. Carl Schleicher, was offering for sale a device called the AGRAD Machine. It was intended to be used in the electromagnetic treatment of crops and the control of insect populations, and sold for \$390.00. MRU claimed that AGRAD machines had been used for several years by MRU researchers to conduct experimental applications of the type described in **The Secret Life of Plants** by Christopher Bird and Peter Tompkins, and **Report on Radionics** by Edward W. Russell. Theoretically, the AGRAD machine was intended to produce effects through electromagnetic wavefronts that would interact with and control insects by disturbing the insect sensor mechanisms. A photo of the device and additional information appeared in one of MRU's publications [which you can access here.](#)

WHAT WE DO AND DO NOT KNOW ABOUT THE BIOFIELD: A SOVIET APPROACH

Larissa Vilenskaya
San Francisco, California

In recent years we have often encountered the words "biofield" and "bioradiation" to describe radiations and possible distant interactions of living systems (including humans) in the pages of the Soviet press. Usually these terms have been used in connection with psychic diagnosis and healing, occasionally in regard to psychokinesis, and to other psi phenomena, such as dowsing. In virtually all these publications, the words "parapsychology" or "psi" were not mentioned, although they were implied.

Recalling Soviet publications on psi-subjects in the middle of the 1960's, we notice an obvious difference: at that time they were concerned almost exclusively with the phenomenon of telepathy, which was then more frequently called "bioinformation" or "biocommunication." At that time hypotheses were put forward to explain only telepathic phenomenon (e.g. [1,2]). The hypothesis advanced by Prof. Ippolit Kogan [1] is the most well known of them. However, at the end of the sixties some Soviet scientists emphasized that scholars who were trying to create a physical model for psi phenomena, "must be prepared to explain not only telepathy, but also clairvoyance and telekinesis" [3].

This is why, in some later cases, researchers who were considering this point, attended to gravitational waves [4] and the possible existence of new particles with appropriate properties [5]. Discussing these approaches, Dr. Wortz and his co-authors [6] in their careful consideration of Soviet NBIT (Novel Biophysical Information Transfer) hypotheses that are compatible with current modern physics, have concluded that these three schemes were apparently pursued in the USSR:

1. VLF and ELF electromagnetic waves.
2. Neutrinos, based on the photon theory of neutrinos.

3. Quantum-mechanical waves, based on interpretations of basic quantum mechanical theory.

To explore the first avenue, a more thorough study of the radiations of living organisms was begun in the Soviet Union in the 1960's. Two points were considered to require more in-depth research: the possibility of replicating the findings of Alexander Gurvich [7], who discovered mitogenetic radiation, and the detection of electromagnetic radiation of living systems using remote sensors. Both issues were dependent on improving measuring devices, which was achieved in the late 60's and early 70's. These attempts were described in studies by Pavel Gulyaev [8], Vladimir Zabotin [9], Victor Inyushin [10], Gennady Sergeyev [11,12] and others. More recent studies (which were conducted on a more thorough scientific basis) were carried out by Yuri Gulyaev and his colleagues in Moscow and are partially included in his interview translated for this issue of Psi Research.

To summarize what we **do** know about the biofield according to earlier Soviet research:

1. The biofield (or, at least, some of its components) can be recorded at a distance of up to 5 m in air (Inyushin [10]; Sergeyev [13]) and at a distance of up to 20-25 m in water (Sergeyev [13]).

2. The biofield (or some of its components) penetrates through a screen of metal sheets 5 mm thick (Inyushin [10,14]), at least in the tests with individuals trained in self-regulation techniques developed by Alexeyev, Romen, and others [15-17].

3. The biofield exposes photographic film directly (Inyushin [18,19]) and through an opaque cover (black paper) (Sergeyev, [20]).

4. The biofield causes the movement of objects weighing up to 30 grams [21] and heavier.

5. Biofield interactions play a considerable role in the vegetable kingdom (Marchenko, [22]) as well as in the animal kingdom (Presman, [23]).

What we do not know is the physical nature of the biofield as a whole.

The above experiments were conducted using innovative equipment and procedures. However, after reading some of these studies, one is often left with the unanswered question: What is the exact meaning of the measurements from the standpoint of "normal" physics (and not "paraphysics" of questionable value)? Sergeyev's liquid crystal sensor is an example which clearly illustrates the point.

In his publications, Gennady Sergeyev gives rather incomplete explanations of what kind of radiation is actually recorded by his remote sensor. (One cannot exclude the reason for this vagueness as a desire for preserving secrecy). Although his earlier works referred to "bioplasma" [11,12], he later discarded this assumption and preferred to speak about the "biological paracrystal" (a mathematical model of n-dimensional double crystal lattice of complex and substantial structures of matter) [20,24], as well as about the piezo-texture layer of a gas (or liquid) medium which "transforms all spatial elastic effects of a human body into ELF electromagnetic impulses" that are recorded by his liquid crystal sensor [13]. Taking into account that the sensor acts better in water than in air, it is natural to assume (as was also pointed out by Wortz and his co-authors [6]) that probably it is the magnetic component of the biofield which is being recorded.

Unlike these earlier research attempts, recent studies by Yuri Gulyaev and his colleagues employ conventional modern radio electronic equipment, and, therefore, the question about what has actually been measured does not arise. It is noteworthy to see this shift in Soviet approaches - from sensational telepathy experiments of questionable scientific value between Moscow and Novosibirsk to the elaborate process of measuring the electromagnetic fields of biological organisms. However, the results of these measurements do not very adequately explain the interactions of living systems over considerable distances. The largest distance from a living organism at which a "biofield"'s component was recorded, as cited in the above

paper, equals 2 meters. This can possibly explain some of the attempts at "aura-diagnosis" and "biofield-diagnosis" described in literature [17,25], particularly when a healer diagnoses by moving his/her hands along the patient's body and infers conclusions as to the organism's condition through sensing warmth and tingling in the hands which reveals the "biofield"'s irregularities. Some healers who successfully demonstrated such diagnosis claim to be equally successful when conducting a similar diagnostic procedure without the patient present, from a photograph alone. Sensitive Vladimir Safonov from Moscow, answering a question about his diagnoses from photographs, stated:

"Looking at the photograph, apparently I am able to catch something strictly individual which accompanies a person throughout his entire life - from birth until death. Through this particular characteristic of the person, the 'tuning into' his bioenergetic field and the 'reading' of its information probably occurs. Here, perhaps, it is possible to make an analogy to the holographic effect in which the entire appearance of an object can be recreated from a single detail" [26].

This statement suggests that the process of such a diagnosis is much more complex than just "picking up" changes in the electromagnetic field in the proximity of the body. Perhaps the readers who continuously follow these studies noticed that after successful measurements were made of certain components of the biofield, some authors made attempts to explain the observed phenomena by dealing only with these components. For example, Ivan Marchenko [22] tried to describe interactions of plants exclusively by ultraviolet radiation. V.P. Kaznacheyev [27] attempted to explain results of his research on distant interactions of tissue cultures in the same way. E. Kulin [28] attributed all observations of distant interactions of organisms solely to the quasi-constant bioelectric field (in his terminology, biological electretic - bioelectretic - effect). It should be noted, however, that in spite of the limitations of this point of view, Kulin describes extremely interesting experimental data, including patterns of bioelectric field

distribution in healthy people and in people with various diseases (Fig. 1; cited by E. Kulin from Polish research [29]). Based on this work, the above-mentioned ability of sensitives to conduct diagnosis by perceiving biofield structures can be more easily, or at least partially, explained. Moreover, three types of bioelectric field patterns described in Kulin's book (and their changes in diseases) coincide very closely to the descriptions of sensitives. We indicated above, however, that "easy explanations" do not work in all instances, and do not account for all the diversity of observations and accumulated data.

Even this brief review indicates the necessity of considering interactions of biofield components and synergistic effects (i.e., that the properties of a particular combination, a system of force fields differs from the properties of its components), rather than attempting to reduce the biofield to one of its components. Incidentally, researchers using such an approach well understand its insufficiencies.

In this connection, Ivan Marchenko [22] refers to academician S.S. Schwartz [30], who tells the well-known joke about the three wise blind men: "One of them touched an elephant's leg and said that there was a column in front of him; the other touched the trunk and described it as a snake; the third was stopped by the animal's side and decided that it was a wall. However, in dealing with the immense living world, not just an elephant, . . . perhaps, sometimes we put ourselves in the situation of blind men because we have no point from which we can view the whole picture, rather than only parts of it."

The only solution I see is to conduct further careful experiments, thoroughly designed in order to answer specific questions, and to go ahead step-by-step without leaving unexplored territories behind. Otherwise we will continue to find ourselves in the situation of the three wise men and their elephant.

Device for affecting the growth or properties of organic or mineral bodies (GB 1077765 (United Kingdom))

Inventor: ROBERT ANFOSSO; CPC: A61N1/16; H05F7/00; IPC: A61N1/16; H05F7/00

Abstract -- A device said to stimulate plants, or animal or mineral bodies, comprises one or more arcuate or bent member 3 of an electrically conductive material supported on an electrically insulating member 2 of ebonite or a synthetic plastics material. An animal or mineral body being treated may be positioned on an earthed plate. The effect is said to be improved if the member 3 is directed to the East.

The present invention relates to a device for affecting the growth or properties of organic or mineral bodies and more particularly for stimulating the growth of plants.

From one aspect, the invention consists in a device for affecting the growth or properties of an organic or mineral body comprising a support of electrically insulating material carrying at least one arcuate or open hoop-like member of electrically conducting material having a substantial gap between the ends of said member and being intended to extend around a body or bodies when in use.

The invention also consists in a device for stimulating the growth of plants comprising a support of electrically insulating material and at least one arcuate or open hoop-like member of electrically conducting material carried by the support and extending in a plane substantially normal to said support, said at least one member having a substantial gap between the ends of said member, and being intended to extend around a plant or plants when in use.

The device may comprise a plurality of said members arranged one above the other on the support. Preferably the gap between the ends of the or each member is of a width equal to at least one quarter of the length of the member.

Means may be provided for earthing an organic body surrounded by the arcuate or open hoop-like member or members, if the body is not already connected to earth.

The effects obtained by means of the device according to the invention, can be applied to bodies of three types: animal, vegetable and mineral, and can be shown to stimulate the physical, chemical, biochemical or other types of properties of the bodies under consideration.

Numerous experiments have shown, for example, a more rapid growth of the plants, a therapeutic action on animals and man, and a temporary or permanent modification of

the properties and/or relationships of certain mineral bodies submitted to the effects of the apparatus according to the invention.

The invention will now be further described, by way of example, with reference to the accompanying drawings, in which Figures 1 to 4 (below) all show perspective views of embodiments of devices according to the invention.

Referring to Figure 1, there is shown an embodiment of the device applied to stimulate the growth of a plant. A vertical support 2 comprising a rod made of any type of electrically non-conducting material, such as ebonite, Bakelite (Trade Mark) or other plastics material is driven into the ground 1. This support carries a horizontally disposed arcuate member 3 made of metal, for example of copper. The plant 4, surrounded by and submitted to the field of the arcuate member, has its properties and its growth stimulated.

The arrow A, corresponding to the direction of the gap or opening between the ends of the arcuate member, indicates the direction of the East, or another direction previously determined as preferred; for example as a result of previous experiments on sample plants.

As shown in Figure 2, the device may comprise a group of several parallel arcuate members 3 arranged one above the other on the support 2.

If it is a question of the treatment of a body, which, contrary to the plants of the above examples, is not itself connected to the earth; the body can be connected to earth by employing, for example, the arrangement of Figure 3, where the support 2 is mounted on an insulating plate 5. The body to be treated 6, which may be animal or mineral, is disposed within the arms of the arcuate member 3 on a conducting metal plate 7, connected to earth 1 by means of the conducting wire 8.

Figure 4 shows an embodiment wherein the member 3 has a different shape and forms an open hook-like member.

In all of the above described embodiments, it will be seen from the drawings that the gap between the open ends of the member or members 3 is of a width equal to at least about one quarter of the length of the member.

HORIZONS IN RADIONICS

edited by Dr. Tony Scofield

A new book published to celebrate the Diamond Jubilee of the [Radionic Association](#). Edited by Dr Tony Scofield

250 pages. ISBN 0 9545786 0 0. Published by [Trencavel Press](#), 2003

Horizons in Radionics is the first book for many years to explore in depth some of the aspects of this practice and to bring to the reader, whether they be experienced practitioner or interested layperson, a greater understanding of the philosophy and practice of this powerful technique.

In the first chapter Linda Fellows explores the relationship between radionics and modern science and provides a convincing argument that aspects of radionics have parallels with modern concepts in quantum science. Tony Scofield describes the early history of radionics and its trials and tribulations. Working largely from primary sources this well referenced chapter provides some interesting novel insights into the early evolution of the therapy. Gillian Lowe discusses the radionic approach to treating chronic disease while Alan Gwilt does the same for terminal illness. Alan also describes treatments for patients after they have died which ease their passage. Both chapters are illustrated with case histories.

In an authoritative essay Nick Franks, a homeopath as well as a radionic practitioner, discusses the role of homeopathic miasms in radionic work. The concept of the chakras, introduced from Eastern mystical tradition, is discussed from a radionic standpoint by Cathy Marshall. Cathy extends the major chakras with some 'minor' ones which she has found valuable in radionic treatment. The area of 'rates', the numbers used on the radionic instrument for both analysing and treating, is discussed by Ina Manzoor, for many years

the official rate maker for the [Radionic Association](#). This is a valuable contribution in the light of ongoing discussions in this area.

The next chapters deal with analysis and treatment in specific areas. Three experienced practitioners, Sally Higham, Doris Frankish and Linda Fellows, describe some of their human case histories and other experiences in radionics. Galea Parsons, a practitioner with a large horse practice, describes horse case histories, but in her first chapter she deals with the subtle anatomy of the horse and how it relates to the physical anatomy. Subtle anatomy is the level at which the radionic practitioner works.

Radionics has been used extensively in the field of agriculture and horticulture, especially in the United States where treatment of humans has been forbidden. One of our most experienced agricultural radionic practitioners, Enid A. Eden describes the history and scope of this field and illustrates her chapter with several case histories.

Tony Scofield, in another heavily referenced chapter, has returned to primary sources to present his views on geopathic stress – what it is, how it is caused and how it is treated. He draws on years of experience in the field to present a comprehensive synthesis of views. Finally, Tony Scofield describes the major developments in Europe in radionics with particular emphasis on current practice involving computerised and digital instruments. Again well referenced this chapter provides a clear indication of where developments in radionics are currently leading.

There are 13 chapters, an Introduction to the book which includes a brief history of the [Radionic Association](#) and the book ends with a subject index.

It is available price £14.99 (+ £1.69 postage) from the [Radionic Association](#) bookshop. E-mail the office for ordering details.

Cosmiculture: Balance, Enliven, Enrich, Vitalize, Harmonize the Soil

by T. Galen Hieronymus

Paperback: 186 pages

Publisher: A.S.R. & D. (Advanced Sciences Research & Development Corporation), Lakemont, GA: 1980's?

Language: English

ISBN-10: None

ISBN-13: None

Package Dimensions: 8.5 x 11 inches

This is an extremely rare book by T. Galen Hieronymus, inventor of the legendary "Hieronymus Machine", allegedly able to treat diseases and disorders of many kinds in humans, animals, and plants. So rare is this book, that it is not found in any library in the world, including the Library of Congress or the British Library. Moreover, it is not available for sale on Amazon.com, Abe books, or any other used book website, which together have millions of books for sale.

However, the USPA Library and Archives, does have a copy of this book, and if any of you are interested in obtaining a copy, please write to the USPA Journal and Newsletter editor at: joreed43@gmail.com.

The Table of Contents, (in this book called "Index") is shown on the following pages:

USPA Generous Donor Recognition Page

The USPA would like to give special recognition on a continuing basis to people making generous donations to the United States Psychotronics Association. To do this, we are creating this special “USPA Generous Donors Recognition Page” that will be carried in each issue of the **USPA Journal & Newsletter**, beginning with the December, 2016, issue and going forward. New names will be added as other generous donations are received.

We wish to recognize the following individuals for their generosity:
(in alphabetical order)

Mary Hardy ([Temple of Sakkara](#))

Clement Jewitt

Ed Kelly ([Kelly Research Technologies](#))

Michael Leger ([Homeodynamics, LLC](#))

John H. Reed, M.D.

William Reeves (Print & Web Design - breeves66@gmail.com)

Arnold Reinhold

Eric Rowley

The USP wishes to extend our thanks and gratitude for their generosity.

To make a tax deductible donation to the United States Psychotronics Association (USPA) online, please go to the [USPA donations page and scroll down to the orange “Donate” button](#), where you can make a donation using your credit, debit card, or PayPal. For those who wish to make a donation by check, please make your check payable to USPA and mail it to the **USPA treasurer, Scott Beutlich, 525 Juanita Vista, Crystal Lake, IL 60014.**

USPA Psychotronics Periodicals Library

In order to do good psychotronics research of any kind, whether it involves radionics, radiesthesia, psionic medicine, dowsing, subtle energies, biophotons, or any other subject covered by psychotronics, one needs access to as much of the periodical literature as possible on these subjects.

To address this issue, the United States Psychotronics Association has resolved to identify, acquire, and digitize copies of every psychotronics related periodical that has ever been published anywhere in the world, and to retain copies in the USPA Library.

As a first step, we have developed an [online list of psychotronics related periodicals \(click here\)](#) that focus on or frequently have articles on the psychotronics subjects noted above. This is a growing list, since we know there are probably other psychotronics periodicals that have been published, but that we do not yet know about.

Please look over the online list and check your own personal physical libraries and your computer files, thumb discs, and other external hard drives to see if you have any issues of the periodicals on this list. Even if you just have one issue, please let us know, because that may be the one we need to complete all the issues of a particular periodical. **Please write to me (John Reed) at: joreed43@gmail.com, since I am the USPA librarian and archivist coordinating this effort,**and tell me what periodicals you have.

As a whole, the members of USPA and other interested non-members, have a huge "library" of periodicals, but it just happens to be "distributed" among these people at this point in time. However, we can work together, and if you would be willing to loan, donate, xerox, or as a last resort, sell copies of your periodicals to the USPA Library, then we will be able to build a large centralized library of all psychotronics periodicals. And all USPA members will then be able to use these periodicals in their research or for their reading enjoyment.

USPA Local Groups and Affiliates Update

As mentioned in the May, 2016, USPA Newsletter, one of our goals is to reactivate all of the former 24 USPA Chapters that once existed across the US and Mexico. In addition, we plan to establish new local groups of people interested in psychotronics and related subjects in other major cities in the US and other countries as well. All such local groups and affiliates will be independent, but will work together with the USPA in a mutually beneficial relationship to achieve our goals of advancing research and applications in psychotronics, radionics, subtle energy, and related fields.

So I would like to invite all of former USPA Chapters leaders and members to contact me (John Reed) at: joreed43@gmail.com and let me know if you would like to help reactivate your local chapter. In addition, if you are a leader or member of a psychotronics or related organization which was never a chapter of USPA, and we would welcome you as a USPA affiliated organization as well.

We will be establishing a USPA affiliated groups as traditional organizations and also via the Meetup.com online group platform. This will enable current and former members to more easily have local get-togethers, meetings, and other activities, and those activities, times, and other details can be posted online. So please let me know if you would like to be the leader of a group in your area.

If you do decide to use Meetup.com to establish your local group, you could do it quickly and easily by going to www.meetup.com , and clicking on the big red word “**Start**” in the upper left, and then just following the step-by-step procedures.

You can give your local group any name you want, but it should probably have a name that relates to psychotronics in some way. And if you need any help, please let me know, and I will help you in any way I can. Perhaps the most important thing is enthusiasm and determination, so write to me, even if you don’t know any other USPA members in your area, and I will help you set up a local group: joreed43@gmail.com

Exchange Corner and Advertisements

The "Exchange Corner", is a place where people can advertise to buy, exchange, or sell items of interest, or request information or other help in relation to something wanted. So if there is anything you want to buy, sell or trade that has to do with psychotronics, radionics, subtle energy, or related subjects, please contacted the Classified Ads manager at: joreed43@gmail.com. Advertisements are free of charge to USPA member within certain limits, but non-members will be charged for any classified or display ads. So please send your ads and wanted requests to: joreed43@gmail.com.

Wanted: Any articles, periodicals, books, devices, or other materials on psychotronic related subjects that you can donate or lend to the USPA for its library, archives, and museum. **The USPA is a nonprofit, 501(c)(3), tax exempt organization, and as such, you are able to make tax deductible donations to the USPA. Please email the USPA at: joreed43@gmail.com to make shipping arrangements. Thank you for your generosity.**

Kelly Personal Analyzer for Sale

Mariette Picket has a friend that has a brand new unused Kelly Personal Analyzer that she paid \$2100 for, and is offering it for sale at only \$1600.00 Anyone interested call Mariette at: [317-773-0061](tel:317-773-0061)

Bruce Copen MARS III for Sale

I am a current USPA member and have a **Bruce Copen MARS III** for sale. The system is about 7 or 8 years old and in original, excellent condition. Sale includes original SCOPE analysis, database and broadcast software, HP laptop, comprehensive training manual and program disc, interconnects and boxes. I have always run it on XP with no issues; everything original as supplied by Copen.

All operations can be automated and multiple broadcasts can be run simultaneously, although Copen saw to develop this device so it could be used in many radionic styles and without computer control. The price is \$8500 USD roughly half the original cost. I prefer to not ship to a destination outside the USA. A limited amount of training by me, as I understand it, is available to a confirmed purchaser, as time and distance reasonably permit. Please contact: **Dr Robert Dixon, robertdixondc@gmail.com or call (304) 259-9439** Berkeley Springs, WV.

The photograph shows the 'Experimental Agricultural Analyzer' device, a white rectangular unit with a wooden frame. The top panel features six large semi-circular dials arranged in a 3x2 grid, labeled 'BANK 1 ON', 'BANK 2 ON', and 'BANK 3 ON'. To the right of these dials are several control switches and a '10 HOUR TIMER' knob. Below the dials are two analog meters labeled 'SCALAR POTENTIAL' and 'B FIELD DETECTOR'. The bottom panel contains two large circular wells labeled 'INPUT WELL' and 'POTENTIOMETER WELL'. Between these wells is a central black rectangular area labeled 'REACTION PLATE'. Various other controls, including a 'DIRECT LEVEL' knob, 'ANALYZE' and 'BROADCAST' buttons, and a 'PULSE FREQUENCY' knob, are located on the bottom panel. The device is placed outdoors on a dark, textured surface, with green foliage visible in the background.

What Research and Subjects Does Psychotronics Cover?

The United States Psychotronics Association defines psychotronics as the science of mind-body-environment relationships, an interdisciplinary science concerned with the interactions of matter, energy, and consciousness. Psychotronics involves the study, research, and applications of the physics and technology of the mind, brain, spirit, consciousness, and the underlying forces of life and nature – hence the term “psychotronics”.

We believe that a true understanding of the universe must include the spiritual, as well as, the technical, and provide an opportunity for amateur researchers to present their findings along with the professionals. We stress research, with documentation of results, and practical applications, rather than personal experience and unsupported hypotheses.

Some Prominent People in the history of psychotronics research and application: Albert Abrams, Thomas Bearden, Robert C. Beck, Robert O. Becker, Jacques Benveniste, David Bohm, Harold Saxon Burr, George W. Crile, Ruth Drown, T. Galen Hieronymus, Vlail P. Kaznacheyev, Georges Lakhovsky, Wilhelm Reich, Royal R. Rife, Rupert Sheldrake, Nikola Tesla, Marcel Vogel, and others.

Some of the forces, fields, waves, and energies studied and researched in psychotronics include: bioelectromagnetism, biophotons, biopotentials, electromagnetic wave pollution and harmful effects; coherent emanations of DNA, emanations of matter, “free energy”, morphogenetic fields, non-hertzian waves, orgone energy, pyramid energy and power, qi (chi), quantum fields, scalar waves, subtle energies, ultra-weak radiation of living matter, zero-point energy, and others.

Some of the phenomena believed to be produced or involved with the above fields and energies: action-at-a-distance, the aura of the body and other living things, bioinformation, bioluminescence, chakras, consciousness, distant intercellular interactions, meridians of the body, mind-body interactions, non-locality, the placebo effect, quantum consciousness, spontaneous remission of cancer and other diseases, water memory, water structure, and others.

Related fields of study and research covering the above forces, energies, and phenomena of psychotronics: bioelectromagnetics, bioenergetics, biophotonics, biophysics, psionics, psychoenergetics, psychoneuroimmunology, quantum biology, radionics, scalar electromagnetics, and others.

Some practices, techniques, and applications related to psychotronics include: acupuncture, biogeometry, brain entrainment, clairvoyance, dowsing, energy healing and medicine, extrasensory perception, feng shui, homeopathy, kirlian photography, magnetic therapy, pendulum use and methods, prayer effects, psionic medicine, psychic healing, psychometry, qigong, radiesthesia, radionics, remote viewing, shamanism, sound and sonic healing, telekinesis, telepathy, and others.

Membership Benefits

So if you are interested in any of the above subjects, then the USPA is the place for you, where you can interact with, exchange ideas, and collaborate with other people who are interested in the same subjects. So sign up now for membership in the USPA using the form on the following page and start enjoying all of your membership benefits. These benefits include, but are not limited to:

1. **USPA Psychotronics Library:** Free access to copies of certain articles, periodicals, books, audio tapes, videos, and other materials in **USPA Psychotronics Library**. Please write to joreed43@gmail.com for whatever item(s) you are seeking;
2. **Your free subscription to the USPA Journal & Newsletter;**
3. **Your right to freely publish articles in the WISE Journal - The Journal of the World Institute for Scientific Exploration (ISSN 2381-1536),** enabling the world to see your ideas or research, and thereby enhance your resume and credentials;
4. **Your right to use the USPA Literature Research Service,** whereby we will find any article, book, or other item you are seeking on the above subjects, and provide it to you;
5. **Your right to participate in the USPA “Research Assistance Program”,** especially useful to professors, authors, and other researchers, who need extra help on their projects. USPA will help find volunteers to help you with your research project(s).
6. **Your right to be part of the USPA Project Participation Program,** whereby you can volunteer to help on numerous available USPA projects, or help researchers who are conducting research on psychotronics and related subjects.
7. **Your right to make oral or poster presentations at the annual USPA meeting,** with the approval of the Annual USPA Meeting Planning Committee.
8. **Your right to discounts** on the purchase of certain items and services made available for sale or provided by the USPA and its members.
9. **Your right to freely advertise in the WISE Journal,** which goes out to thousands of people.
10. **Your right to participate in the USPA Psychotronic Literature Preservation Program (UPLPP).** The USPA, via its Library and Archives, has established a “Literature Preservation Program” to preserve your personal papers, files, records, and collection of articles, periodicals, books, and devices on psychotronics and related subjects, noted above. You may no longer need or use some of these items that you have, and you can send them to the USPA, and we will preserve them in our library and archives, so that they can be of use to other researchers.

MEMBERSHIP INFORMATION

The U.S. Psychotronics Association (USPA), was incorporated in the District of Columbia in August, 1977, and is a nonprofit, 501(c)(3), tax exempt organization, and as such, you are able to make tax deductible donations to the USPA. It is empowered to enroll members in the parent organization throughout the United States, Canada, and other foreign countries. Membership is open to all people who wish to join with the USPA on the new frontiers of science in working constructively for the qualitative improvement of man and his environment. **Please remember the USPA in your annual charitable giving, especially if you want to advance research in the above subject areas, which can greatly benefit humans, animals, plants, and the environment.**

USPA Catalog of Conference Lectures, 1978-1994

Now Available

A compilation of nearly 300 lectures given at the first 17 years of the United States Psychotronics Association (USPA) conferences, from 1978 through 1994 is [now available in a 30 page catalog \(click here\)](#).

There are talks by some of the most well known scientists of our age, including Andrija Puharich, Thomas Bearden, Marcel Vogel, Lynn Surgalla, Robert Beck, T. Galen Hieronymus, J.G. Gallimore, Elizabeth Rauscher, Christopher Bird, and many, many more.

There are also lectures specifically about radionics from some of the top practitioners: Robert Beutlich, Lutie Larsen, Jerry Fridenstine, Frances Farrelly, and others.

If you have an interest in the paranormal, the life of plants or zero-point energy, there are speakers here who are experts in the fields. How about dark-field microscopy, scalars, magnetic fields, or the Philadelphia Experiment? Yes, they are in here in this catalog too. Homeopathy, color-healing, use of crystals, structuring water, water memory, and Tesla's work are some of the other topics covered in this catalog.

As of this date, (April 15, 2017) they are available only by direct contact with USPA, but soon, they will be available online. The USPA home page is at <http://www.psychotronics.org> and we will have a linked site where purchase will lead to immediate download of the MP3, and payment can be made through Pay Pal.

Please note that [in the Catalog \(click here\)](#), most of the lectures are standard MP3s, are 30-45 minutes long, and priced at a very reasonable \$5.00 each. These have no marking in the right-hand column of the catalog listing. Other MP3s are one hour or slightly longer, and are marked "Prime" in the right-hand column, with a price of \$8.00 each. And a few of the MP3s are 90 minutes or longer, and are marked "Double", with a price of \$10.00 each. USPA members get 40% off.

However, if you just "can't wait," for the online order website, email us at uspsychotronics@gmail.com or contact our USPA Treasurer by snail mail at:

J.G. Gallimore's Five Rare Books Now Available for Sale

All five of J.G. Gallimore's rare books on psychotronics subjects and unusual energies have been reprinted by the United States Psychotronics Association (USPA) and are being made available at a fraction of the cost that used copies were being sold at online. So rare have these books been, that only a few libraries in the entire world had them in their collections, and some of Gallimore's books were being sold for several hundred dollars each online. However, with these newly reprinted volumes, each will be available for less than \$30.00. Each of Gallimore's books is described below with links to Amazon.com.

Jerry G. Gallimore was one of the founders of the USPA in 1975, and was a leading researcher in psychotronics and unusual energies until his untimely death in 1989.

The Handbook of Unusual Energies: Volume 1

by J. G. Gallimore

Paperback: 484 pages

Publisher: CreateSpace Independent Publishing Platform (March 22, 2017)

Language: English

ISBN-10: 1543024998

ISBN-13: 978-1543024999

Product Dimensions: 8.5 x 1.1 x 11 inches

[Available at Amazon.com](#)

This is J.G. Gallimore's first book of three volumes on unusual energies, and at 468 pages, it is a magnificent work. In this book, Gallimore discusses in depth the research, discoveries, and

inventions of all the major researchers in subtle energies, the aether, biological

fields, pyramid energy, radiesthesia, radionics, crystal transduction, and related subjects. These include the works of Baron Von Reichenbach's and his odic energy, Dr. Wilhelm Reich's orgone energy, Dr. Harold Burr's biological life fields, Kozyrev's time mirror, Edgar Cayce's transmission of energy, and related research done by many others. Of particular importance is Gallimore's 127 page chapter on radionics. In this chapter he discusses in depth the research and devices of Ruth Drown, T. Galen Hieronymus, Rho Sigma, Dr. L. P. Corte and other prominent people in the radionics field. But in addition, Gallimore provided diagrams showing how such devices are made and how they actually work.

Collected Properties & Writings of J. G. Gallimore: Volume 2 of Handbook of Unusual Energies

by J. G. Gallimore

Paperback: 258 pages

Publisher: CreateSpace Independent Publishing Platform (March 22, 2017)

Language: English

ISBN-10: 1543025048

ISBN-13: 978-1543025040

Product Dimensions: 8.5 x 0.6 x 11 inches

[Available at Amazon.com](https://www.amazon.com/dp/B071K1K1K1)

This is the second book in the “Unusual Energies” series that J.G

Callimore published. It covers Gallimore's research on Albert Abrams, the founder of modern radionics, psychological physics, psychic energy, thought resonance, subtle energies, crystals, and related subjects. In addition, a number of radionics devices are discussed, such as the De La Warr Diagnostic Instrument. And very helpfully, the rates are provided for substances, body organs, and medical diseases and disorders. A very interesting interview of Christopher Bird, conducted by J.G. Gallimore is provided, as well as a discussion of Walter Russell and his research.

Relationship Between Parapsychology and Gravity: Volume 3 of Handbook of Unusual Energies

by J. G. Gallimore

Paperback: 228 pages

The Relationship Between Parapsychology and Gravity is Volume 3 of J.G. Gallimore's series of three handbooks of unusual energies. This book describes in depth the research and theories of J.G. Gallimore into the question of "parapsychology transmission" --the question of how such things as telepathy, remote viewing, ESP, and similar phenomena can physically occur. Gallimore discusses various explanation on how they occur, including the possibility that gravity waves may play a role. He also discusses the various emanations, radiations, and energy fields of all matter and life. This includes the ancient Chinese energy called "chi" (qi), the ancient Indian's prana energy, Reichenback's "odhic force", Gurwitsch's "mitogenic radiation", Wilhelm Reich's orgone energy, and other subtle energies of life and matter. Gallimore shows how all of these energies are the same or similar, how they interact, and how they are related to gravity. He also discusses crystals as transducers of these energies, and provides diagrams of devices that could potentially be used to harness or control these energies.

This book covers the visionary research and theories developed by J.G. Gallimore about anti-gravity, space, time, and biophysics. He discusses in depth the dimensions of space, time, and gravity, and new discoveries in each of these areas. In addition, he covers research being done on anti-gravity and then discusses anti-gravity patents that have been obtained. He also discusses the intriguing concept of aura energy fields surrounding humans and other living things, and how extra-sensory perception (ESP) might be explained through biophysical principles.

Unified Field Theory Research Book: Using Subjective Response to Psi-Plasma for Analysis of Properties Neutral Charge Plasma Fields

This book is about psychotronics, radionics, electromagnetic fields and waves, psi-plasma, plasma fields, subtle energies, bioelectromagnetic energy, and other unusual energies emitted by living and non-living things. It also is about how living things interact with and are affected by these energies, which may enhance health or harm health. The book covers the research of Wilhem Reich on orgone energy, of Baron Reichenback on the odic forces, as well as research done by Cazzamalli on brain radiations and Lakhovsky on using high frequency radiations to successfully treat cancer in humans. In addition, Lakhovsky used similar methods to enhance the growth of plants. Gallimore shows how these energies, forces, and fields are all inter-related and provides hypotheses and ideas on their possible unification.
