Table of Contents, February, 2019

News, Events, and Columns:

What Is Psychotronics? by Beverly Rubik, Ph.D. President, USPA: p. 1

2019 US Psychotronics (USPA) Conference July 26-28, 2019, **Update**, Including New Online Registration : p. 2

Call for Speakers: 2019 USPA Conference, with New Online Submission: p. 6

2017 USPA Conference DVD Order Form: p. 7

2016 USPA Conference DVD Order Form: p. 8

Short Psychotronics News, Notes, and Queries (**Updated for February, 2019, with five new articles**): p. 9

“Among the Missing” (**and Updates**): Missing People, Books, Collections, Artifacts, Manuscripts, Periodicals, and Organizations, by John Reed, MD: p. 14

Articles:

Murugan, Nirosha J., Nicolas Rouleau, and Michael A. Persinger. “The Third Option for Stopping Cancer: Complex, Temporally Patterned Weak Magnetic Fields-Critical Factors That Influence Their Efficacy and Potential Mechanisms”: p. 17

Muehsam, David, Muehsam, Gaétan Chevalier, Tiffany Barsotti, and Blake T. Gurfein. “An Overview of Biofield Devices”: p. 18

Lawrence, L. George, “Electronics and the Living Plant”: p. 19

Patents:

Kehlbeck, Heinrich. Method for Transferring Photon Energy or Wave Energy to a Liquid; EP0454877A1, European Patent Office, 1991-11-06: p. 20

Books of Interest:

Tansley, David V., Radionics: Science or Magic? : An Holistic Paradigm of Radionic Theory and Practice: p. 25

Williams, Scott. The Pendulum through Radiesthesia Applied to Radionics: p. 26

Regular Features:

USPA Generous Donor Recognition Page: p. 27

Nexus – The Alternative News Magazine and Nexus NewsFeed.com, a Free Alternative News and Information Service: p. 28

USPA Library and Psychotronics Periodicals Update: p. 29

USPA Local Groups and Affiliates Update: p. 30

Exchange Corner and Classified Advertisements: p. 31

United States Psychotronic Association Officers & Board Members: p. 33

What Research and Subjects Does Psychotronics Cover? p. 34

Ten USPA Membership Benefits and Membership Information: p. 35

USPA Membership Application and Link to Online Application: p. 36

USPA Catalog of Conference Lectures, 1978-1994, Available for Sale: p. 37

J.G. Gallimore's Five Rare Books Now Available for Sale: p. 38

WHAT IS PSYCHOTRONICS?

Beverly Rubik, Ph.D.
President, USPA

Psychotronics originally referred to the mind (*psycho*) operating devices (*tron*) with thought. This term came out of parapsychology in the 1960s in Czechoslovakia. The early psychotronics researchers conceived of and built psychotronic generators—sacred geometrical forms composed of pyramids and cones along with crystals, copper coils, and other materials. Unlike most machines, these devices were “operator dependent”—having various effects depending upon the operator and the directed intention—and demonstrated positive effects on people, animals, plants, and processes.

Today our interests are more broadly based. The US Psychotronics Association (USPA) investigates and applies science and technology to interactions of mind, matter, spirit, consciousness, and the underlying forces of life and nature. Psychotronics challenges the dominant scientific worldview because it deals with the power of consciousness to interact directly with the physical world, which is not considered in mainstream science. However, numerous lines of scientific and other evidence point to severe limitations of the dominant paradigm, which holds that consciousness is only a passive observer. We are among those mavericks shaping the new worldview in which consciousness plays an active role in generating physical reality.

Our membership is quite diverse and fascinating. Some USPA members are frontier scientists conducting research on the effects of intention and subtle energy healing on systems such as structured water and its memory, plant growth, and the integrity of DNA. We are also concerned about the impact of electromagnetic pollution from the proliferation of wireless devices in our environment and how to protect ourselves. Other members are practitioners and teachers of radionics, using directed intention to assess and improve the well-being of living systems through the use of radionics devices, pendulums, and dowsing rods. Still others practice energy therapies ranging from hands-on healing to use of sound and light therapies, homeopathy, Oriental medicine, and other complementary modalities. Some members are skilled intuitives who can assess the biofield and subtle energy directly, without any tools. Still others are exploring psychotronics for personal growth and evolution. Despite our differences, we have much in common as we are all open-minded persons focused on expanding our understanding of nature, consciousness, and the full human potential. We enjoy camaraderie and sharing our new learning with one another.

One main focus of the USPA is the existence of a cosmic energy or bioenergy, also called *qi* in Oriental medicine and *prana* in Ayurveda—associated with the biofield

or life force. Energy may be mobilized with directed intention, which corresponds to the principle of ancient Eastern philosophy—“where mind goes, the *qi* flows.”

Psychotronics devices may serve as resonators or conduits of a cosmic energy affecting living systems at a physical level. The biofield, the energy field of each organism, is also fundamental.

Is this cosmic energy an aspect of science that has somehow been overlooked, or a new form of energy? We are taking a deeper look at the science of Nikola Tesla, among other pioneering scientists, who have been largely ignored. We are also revisiting the “aether” in physics that was displaced by a materialistic worldview, but may actually be the quintessence underlying physical reality, and the etheric body in radionics, to expand the scientific perspective.

(For a more in-depth discussion of psychotronics with Dr. Rubik and Dr. Mishlove, [click here for a 32 minute YouTube video.](#))

Beverly Rubik earned her doctorate in biophysics at the University of California at Berkeley. She is renowned for her research on the biofield, structured water, and energy healing. She is president/founder of Institute for Frontier Science in Oakland, California; professor at Energy Medicine University; author of over 90 papers and 2 books; and president of the US Psychotronics Association. www.psychotronics.org

2019 Annual USPA Conference **Update** July 26-28, 2019, with On-line Registration

The 2019 United States Psychotronics Association (USPA) conference will be held July 26-28, 2019, at the beautiful Doubletree Hilton Hotel in Skokie, Illinois, a suburb of Chicago. (pictured at left). Please note this date on your calendar.

You can now register online for the conference by clicking here and selecting the ticket type(s) you want.

The title of the 2019 USPA conference is: “The Art, Science, and Technology of Healing Energies.”

Again this year, we have an amazing group of distinguished speakers, which includes the following people, along with the titles of their presentations: (in alphabetical order by last name)

Shabari Bird: “Chris Bird and Beyond: Secrets of the Soil and Nature Spirits”

Dr. Gaetan Chevalier: “Earthing: Health Benefits and Research”

Dr. Ellen Kamhi: “Hildegard of Bingen: Mystic, Psychic, Visionary, Herbalist--Weaving the Tapestry of Healing from the Cosmic Elements”

Ed Kelly: “Energy + Resonance = Healing: Understanding the Radionics Equation”

Dr. Jon Klimo: “The Emerging Spiritualization of Science”

Dr. Dietrich Klinghardt: “Applied Biophoton Physics for Healing: Unique Light-Based Tools to Diagnose and Treat Illness”

George Kuepper: “An Interactive Session with Radionics Practitioners (coordinated & moderated by George, with others)”

Dr. Linda Lancaster: “Harmonic Healing”

Lutie Larsen: “Using Radionics Every Day: Practical Applications for the Home, Health, and Garden”

Hugh Lovel: “Flowing with Milk and Honey--A Radionic Approach to Fine Agriculture”

Marty Lucas: “Using Love as a Radionics Reagent”

Eric Pearl: “Reconnective ling: The Effect of Energy, Light, and Information on Matter, Consciousness, and Awareness”

Dale Pond: “Radionics and Keely's Law of Sympathetic Oscillation”

Dr. Glen Rein: “Self-Healing Mechanisms in Biology: Insights from Molecular Biology and Informational Pharmacology”

Dr. Beverly Rubik and Harry Jabs: “Wireless Radiation, 5G, and Our Health”

Daniel Taylor: “A Radionic Approach to the “Gene Keys” (<https://teachings.genekeys.com/>)

Jeffrey Thompson: “Changing States of Consciousness with the Scientific Application of Sound”

Pre- and Post Conference Workshops

In addition to the regular conference, we are again holding Pre-Conference and Post-Conference Workshops. The USPA's Radionics 101 Pre-conference Workshop will start on Thursday, July 25 and end at noon on Friday, July 26, before the conference begins. Write to uspsychotronics@yahoo.com to sign up for this enlightening workshop.

Call for Vendors/Exhibitors

The USPA welcomes vendors and exhibitors representing groups, firms, and organizations focused on the interactions of matter, energy, and consciousness. Write to uspsychotronics@yahoo.com for fees, space needed, and other information you need to exhibit and sell your products and services.

Become a USPA member for only \$35

**Support our All Volunteer - Non-Profit educational organization
A 501c3, founded in 1975 as the US Radionics Congress**

**We have over 1200 talks recorded since 1978 available
on audio mp3, MP4 format and DVD's. See the newsletters for recent
talks.**

***Speaker Information, membership, registration at
www.psychotronics.org***

Like us on [Facebook at U.S. Psychotronics Association](#)

Email inquires to conferences@psychotronics.org

Call for Speakers for the 2019 USPA Conference

In addition to the several internationally known invited speakers coming to the 2019 US Psychotronics Association (USPA) Conference, **we are extending an invitation to any USPA member who may wish to speak as well.** Current USPA membership is required for this privilege, and a presentation proposal must be submitted.

Because we expect more presentation proposals than there are time slots available, these proposals will be evaluated, with the best ones being selected for the limited time slots available. **If you would like to speak at the 2019 USPA Conference, please go to the USPA web page:**

<https://www.psychotronics.org/call-for-papers-speakers/>

Please fill in the required information and then upload your proposed presentation, following the stated guidelines.

The deadline is March 1, 2019.

You will be notified by March 20, if you have been selected as a speaker.

US Psychotronics 2017 Conference DVD Order Sheet			
DVD	No.	Name	Presentation Title
	2017-1	Jon Klimo, Ph.D / Scott Beutlich	Welcome / USPA "Ted Talk"
	2017-2	Nick Begich	Mind Control: A Brave New World or Enhancing Human Performance
	2017-3	George Kuepper	Radionics & Biodynamics in the Garden: Tuning in to Nature
	2017-4	Lorna Reichel	Unseen Worlds of Subtle Energy
	2017-5	Don Paris	Consciousness Interactive Technology in the 21st Century
	2017-6	Glen Rein	The Holographic Nature of the Mind and its Role in Mediating Higher Order Healing Phenomena
	2017-7	Beverly Rubik and Harry Jabs	The Memory of Water and Beyond
	2017-8	Michael Leger	21st Century Radionics – Theory and Practice
	2017-9	Ed Kelly	Radionics: Easy as 1-2-3!
	2017-10	Jon Klimo, Ph.D.	Nonlocality, Higher-dimensionality, and Radionics
	2017-11	Judy Lynne Cole	K.I.S.S. "Hello" to the Next Collaborative Revolution in the Industries of Health, Art and Music
	2017-14	Linda Lancaster	Endocrine System and its Role in Radionics
	2017-15	Ellen Kamhi	Pineal Stimulation for Higher Health and Consciousness: Radionics - Dowsing - Botanicals
	2017-16	Elizabeth Rauscher	Psychotronics, PSI and Consciousness: A New Revolution
	2017-17	Dan Taylor	History and Overview of Radionics
	2017-18	Marty Lucus	Higher Octaves of Physical Frequencies
	2017-19	Rainer Fromknecht	Body – Water as a Conducting System for Electromagnetic Information
	2017-20	Craig Dongoski	Mental Radio
	2017-21	Scott Ertl	Magnetism and Polarity

2016 US Psychotronics Post-Conference DVD Order Sheet

MP4	DVD	ID	Speaker and Lecture Title
		2016-1	Dr. Beverly Rubik & Harry Jabs- "Geometry Coupled with Intention: Effects of a Pyramidal Structure"
		2016-2	Dan Taylor - "The Physics of Radionics – USPA Luminaries Light the Way"
		2016-3	Panel Discussion- "Subtle Energy w/ E. Kamhi, J. Klimo, G. Rein, E. Rowley, B. Rubik, W. Tiller, Dan Taylor"
		2016-4	Ed Kelly - "The History of Kelly Research Technologies"
		2016-5	George Kuepper - "Practicing Radionics for Farming and Gardening: Past, Present and Future"
		2016-6	Tim Lippert - "Elimination of Lyme Disease, Allergies, and the use of Radiation Hormesis"
		2016-7	Dr. Don Paris - "The Latest Advances in Radionics"
		2016-8	Lutie Larsen and Linda Lancaster - <i>Radionics Cameras of the 1900s</i>
		2016-9	Marty Lucas - "Geometry and the Shape of Disease"
		2016-10	Panel Discussion - "Radionics / G. Kuepper, E. Kelly, L. Larsen, L. Lancaster, T. Lippert and D. Paris"
		2016-11	Dr. William Tiller - "The Power of Human Intention and its Many Applications"
		2016-12	Gayle Mack - "Spiral Breath and the Glia Brain: Activate Higher Consciousness"
		2016-13	Tom Masbaum - "Consciousness - Some Effects of Emotions and Memories on the Body"
		2016-14	Judy Lynn Cole - "Phase Shifting"
		2016-15	Dr. Glen Rein - "Subtle Light Energy and the Substratum: Bio-Physics and Mysticism"
		2016-16	Dean Radin - "Skype: Mind-Matter Interactions at the Quantum Level"
		2016-17	Geoffrey Miller - "Free Energy 30 Years Ago and Where We are NOW in 2016"
		2016-18	Ellen Kamhi - "Herbs, Dowsing, and Radionics: Self-Care Techniques for the Coming Times"
		2016-19	Dr. Karl Maret - "Exploring Subtle Energies in Energy Medicine"
		2016-20	Dr. Jon Klimo - "Radionics: Working with the Post-Cartesian Unified Field"
		2016-21	Kenneth Diehl - "Subtle Energy Relationships in Human Form and Function"
		2016-22	Mary Hardy - "Balancing the Grid so the Schumann Resonance Does Not Affect Human Consciousness"
		2016-23	Dr. John Reed - "Evidence Based Psychotronics"

Short News, Notes, and Queries

(If anyone would like to make a short news announcement, report something, has a question about anything related to psychotronics and related subjects, or has any information or comments about any of the following notes and queries, please write to the editor, John Reed at: joreed43@gmail.com)

1. Energy Healing Practitioners in Canada Needed to Test New Device

A new energy healing device, based in part on Lakhovsky, Priore, and Rife technologies, is being built in Canada to provide some degree of safety from certain well known US government agencies. The developers of this device also plan to do trials and testing in Canada, where the use of energy healing devices is completely legal. They are seeking energy healing practitioners anywhere in Canada, but preferably in Alberta or British Columbia, who would be willing to test this device. If you are a Canadian practitioner, **or know someone who is**, and who has experience using energy healing devices to treat people or animals, **please write to the editor, John H. Reed, M.D., at: joreed43@gmail.com**

2. Excellent Article on 5-G Negative Effects

The whole subject of 5-G wireless technology and its potentially negative effect on the health of humans, animals, and plants is a subject of much debate. USPA Board member Daniel Taylor has found and sent to the editor an excellent article on this subject by Claire Edwards, a United Nations staff member who worked at the UN from 1999-2017. Titled **[“5G Is War on Humanity”](#)** (available [here](#)), Edwards gives details on much research that has already been done that shows the potential deleterious effects of 5-G on many life forms, including humans. It is heavily reference, and links to many other sources of information are provided. **This issue will be addresses at the 2019 USPA, where Dr. Beverly Rubik and Harry Jabs will make a presentation titled, “Wireless Radiation, 5G, and Our Health”.**

3. Seeking Help to Repair a Digitron D Spectrometer

We recently received an email from USPA member Sharon Rowe, who has a Digitron D Spectrometer that is in need of repair. This device, a photo of which appears at left, was invented in the early 1980s by Bill Lawson, also known as “Willard Frank”, and is reported to be the forerunner of the SE-5. Does anyone have a Digitron D Spectrometer, which they have used, and who could possibly help Sharon? If so, please write to her at: srowe@ruraltel.net

Sharon is also seeking to purchase a Mattioda frequency instrument, so if you have one that is in good running order, please let her know.

4. Seeking Help on Operating the Gallimore RAU #2 Radionics Instrument

USPA member, Paul Johnston from Australia needs help to get his Gallimore RAU #2 radionics instrument working (pictured below). In a recent email to USPA, Paul wrote: **“The equipment I have is Gallimore's RAU #2. I'm a bit confused by the dials. Most of the radionics gear I have looked at have up to eight dials which all start at zero and go up to 10. On the gear the first dial goes from zero to 100, so I'm not sure about how to set rates here. I have Gallimores "Volume 2 of Handbook of Unusual Energies", which lists the rates, but I'm not sure how to set them on this machine. The instructions that come with it claim that two rates can be used at once with this gear. It has a top bank and a bottom bank of dials (16 in total) with a switch to flick from one to the other so I'm trying to work out how it all goes together. If any of your members can help with this it would be much appreciated.”** If you can help Paul in any way, please contact him at: paulbjohnston61@gmail.com

5. Seeking Information from Users of the IMRS 2000 PEMF System

USPA member Robert Conway is seeking information from users of the IMRS 2000 Pulsed Electromagnetic Field (PEMF) system. He is aware of the IMRS 2000 website, where the various IMRS devices and systems are described in great detail. However, Bob would like to hear from people who have actually used these devices, especially the IMRS 2000 Professional Set. If you have any experience with these devices, please write to Bob directly at: bob10841@gmail.com

- 6. Italian Translator Needed for Book by Dotto Ring Inventor:** The Dotto Ring was a medical device invented by Dr. Gianni Dotto in the 1970's, and is said to have been used to successfully treat a number of diseases, including cancer. The device was also said to have the ability to slow or reverse aging in mammals. At that time, Dr. Dotto, wrote a 37 page book in Italian, that described how the machine was built, operated, and was able to achieve these remarkable results. However, there are no known English translations of this extremely rare book, which a member of the USPA has a copy of. Is there anyone who speaks Italian fluently who would be willing to translate this short book into English? If so, please contact, John H. Reed, M.D. at joreed43@gmail.com

- 7. Trevor James Constable Book or Manuscript about Ruth Drown Wanted:** Does anyone happen to know about, or possess, a book or manuscript about Ruth Drown that was written by Trevor James Constable? It is not certain if this book

was ever published, so it may be only in manuscript form. It is well known that Constable wrote a chapter about Ruth Drown in his book, *The Cosmic Pulse of Life*. However, there is a report that he also wrote an entire book about Drown. If that book exists, it is not known to be in a library in the United States, Canada, or Europe.

8. **Neurophone Devices Wanted:** Does anyone have any old neurophones that they would be willing to sell, rent, or lend for research and application purposes? The neurophone was originally invented by G. Patrick Flanagan in the 1950's, and enabled people who were completely deaf to hear. This non-invasive device was somehow able to bypass the auditory nerve, and interact directly with the auditory region of the brain, allowing a deaf person to hear. This device is needed to treat a patient of a colleague of John H. Reed, M.D. Please write him at: joreed43@gmail.com if you have such a device or know someone who does.
9. **Seeking Radionics Practitioner in Ohio:** Rebecca Cotterman is looking for a radionics practitioner in Ohio. If you are a practitioner in Ohio, or know one in Ohio, please contact Rebecca at: cotterman@hotmail.com
10. **Does anyone know anything about a man named William Lehr (1933-1996), who lived in Scammon, Kansas, and who developed several energy and healing devices, and made a reproduction of the T. Henry Moray energy device?** In addition, Lehr is said to have created a high-powered spark-gap device for healing purposes that cured a man who had been sent home to die, as well as, a huge bibliography of articles and books dealing with new energy sources and energy medicine and treatment.
11. **Does anyone know the whereabouts and/or contact information of Dr. Robert N. Miller?** At the 1978 USPA Conference, Dr. Miller gave a presentation with Pierre Paul Sauvin titled "Methods of Detecting and Measuring Healing Energies." That was the only time that Dr. Miller ever spoke at a USPA conference, and we would like to follow up with him on any research he has done since that time.
12. **We have been recently informed that one of the radionics devices that Jerry Gallimore invented in the 1970's or 1980's used a GSR meter in place of a stick plate.** Does anyone happen to have or know anything about this particular device? Such a device would be very significant, because if there is such a radionics device that can be successfully used without a stick plate, which depends on the sensitivities and subjectivity of the user, it would enable nearly anyone to use that radionics device.

One of the problems that beginners in radionics often have is the detection of the “stick”, on the stick plate, and some people are never able to develop this ability.

13. **Do any of you know anyone who has ever owned, used, or did research on the Dotto Ring?** This was an electrotherapy treatment device, pictured at left, developed

by Dr. Gianni Dotto back in the 1970's and is said to have been used successfully to treat cancer and other diseases in humans and animals. In addition, the Dotto Ring was also said to be able to slow down the aging process and even rejuvenate individuals to some degree.

14. **Does anyone have video tapes of the presentations that Andrija Puharich made at the 1982 US Psychotronics Association Conference?** The title of Dr. Puharich's first presentation was: “Chemical Compounds: Receptors of Artificial ELF”, and was sold for a period of time on the USPA website with this title and catalog number F6.

The second presentation that Dr. Puharich made at the 1982 USPA Conference was the Keynote Address at the Awards banquet. The Title of this presentation was “Kindling + 1” and had catalog number F7. If anyone has either or both of these tapes, please contact the editor, John Reed at: joreed43@gmail.com.

Andrija Puharich, Chemical Compounds: Receptors of Artificial ELF (1982) F6

Andrija Puharich, Keynote Speaker:, Kindling +1; Awards Banquet (1982) F7

Among the Missing, (and Updates): A Column about Missing People, Organizations, Periodicals, Books, Artifacts, and Collections in the Psychotronics Field

by John H. Reed, M.D

This is a new “column” or section of the USPA Newsletter, and will be an ongoing part of every issue, with the purpose of helping the USPA, as well as, our members and research associates locate people, organizations, periodicals, books, artifacts, devices, collections, and other items that have seemingly disappeared, or have been extremely difficult to find. **Updates will be added, and each missing item will be retained in future issues until it is found or otherwise resolved, since some readers may not have seen prior issues of the USPA Newsletter or the original notice of the missing item.**

In addition, this will also serve as a “People Locator Service” to help find authors and researchers on psychotronics, radionics, subtle energies, energy medicine, and related subjects, who have “disappeared” or have died long ago, and whose relatives you may be trying to find in order to preserve the research papers and collection of that person.

In our research and reading, we all have encountered people, organizations, periodicals, books, articles, or other things that we have tried to find, and some people have searched for years to find something, but have not yet found it, despite the vast resources of the Internet. However, with our large USPA membership, we can all help one another find what we have been searching for. Some of you may have experience in genealogical research, or private investigation, law enforcement, or even intelligence work which you could utilize to help each other, or perhaps just make suggestions on how or where to search for something.

So if there is anything you have been searching for and need help to find, please write to me, John H. Reed, M.D. at: joreed43@gmail.com, and I will include your search help request in the next and subsequent issues of the USPA Newsletter. And if you have any information about an item that is listed in “**Among the Missing**”, please write to the same email address and share what you know or your suggestions. If there is something that is confidential, your confidentiality request will be honored and protected.

Where Are the Missing DeLaWarr Camera Plates?

As is well known, George DeLaWarr, founder of the DeLaWarr Laboratories in Oxford, England, invented a type of radionic camera that could make diagnostic images of internal organs and other anatomical structures that were said to be as good, or better than x-rays.

DeLaWarr patented this device (below) in the 1950s, and over the years until his death in 1969, produced thousands of images on plates of glass and other materials which would show the images. It has been claimed that as many as 12,000 image plates were produced by DeLaWarr and others.

However, these image plates have disappeared, and the whereabouts of even a single image plate is unknown. After the DeLaWarr Laboratories closed in the 1980s, it is said that several thousand plates had been purchased by an American. But based on an investigation in 2017 in England by Daniel Daylor and John H. Reed, it was determined that those plates were never picked up in England nor sent to the US. In addition, no image plates were found at the location where the DeLaWarr Laboratories once operated.

If anyone has any information on where these DeLaWarr Camera image plates are or might be located, please write to the editor, John H. Reed, M.D. at: joreed43@gmail.com

Missing Person: Willard Frank , also known as Bill Lawson

We are trying to find any relatives or other people who personally knew Willard Frank, also known as Bill Lawson, who was the developer of the radionics device called the Digitron. This device, a photo of which appears at left, was invented by Willard Frank in the early 1980's, and is reported to be the forerunner of the SE-5, which Don Paris has developed into one of the finest radionics devices in the world.

Willard Frank is reported to have died in 2009, and there is some question as to whether his real name was Willard Frank or Bill Lawson. If any reader knew Willard Frank, or where he lived, or any of his relatives, please contact the editor, John Reed at: joreed43@gmail.com.

The USPA would also like to obtain one of the Digitron devices for the USPA Museum. If anyone has a Digitron (or knows someone who does) and would like to donate it to the USPA or sell it for a reasonable price, please contact the editor.

Missing Inventions: The Missing Invention of Arthur H. Matthews to Control Insect Pests, Microbes, and Diseases at a Distance

Where are the patent and invention by Arthur H. Matthews, a Canadian, who in his own words stated "This refers to my invention of selective control – at a distance – with no physical contact – to control any form of germ – any sickness – all kinds of insect[s] which cause damage to forest, garden and human[s]." Those words appeared in Matthews' own hand writing at the bottom of a reproduced letter on Appendix page A-10 of his book, *The Wall of Light*, which he published in 1971. But the

big mystery is that the Canadian Patent Office database of patents does not show this invention or any other invention by Arthur H. Matthews.

Interestingly, correspondence of the Canadian Commissioner of Patents shows the title of the invention as “ Methods for the Control of Insect Pests” and the patent **application** number of: 510,626, but not the number of the patent, if it was ever granted. So the question arises: What happened to this wonderful invention by Mr. Matthews, and why does the Canadian Patent database have no record of this device whatsoever in its database of patents?

Further details on this mystery are available in an article titled, “Among the Missing” Special: The Missing Invention of Arthur H. Matthews to Control Insect Pests, Microbes, and Diseases at a Distance” in the [February, 2018, issue of the USPA Journal and Newsletter, pages 24-27, available here.](#)

If anyone has any information about this invention by Arthur H. Matthews, please write to the USPA editor, John H. Reed, M.D. at: joreed43@gmail.com.

Missing Device: Marcel Vogel’s Omega- 1 Radionics Instrument

In a 1987 meeting presentation, [YouTube Video, available here, beginning about 4:20](#), Marcel Vogel states that he had been trying to find a way by which he could measure the subtle energies and fields in the crystals he was working with, and that he prayed to God to give him an instrument to make such measurements. Marcel says that about two months later, a man named Daniel Perkins, apparently guided by higher forces to build such an instrument, came to Marcel’s door and said, “Here is your instrument, the Omega-1. You will know how to use it,” and walked away. **But where is that particular Omega-1, and were any other Omega-1 instruments built?** It is known that other Omega models of radionics instruments were produced, especially Omega-5 instruments, but it is not known if the company that built them still exists. **In addition, does anyone know who Daniel Perkins is, and where he is located?** Anyone who can shed light on this mystery, please write to the editor at: joreed43@gmail.com.

Missing Psychotronics Device:

The AGRAD Machine: In the 1970’s Mankind Research Unlimited, Inc.(MRU), headed by Dr. Carl Schleicher, was offering for sale a device called the AGRAD Machine. It was intended to be used in the electromagnetic treatment of crops and the control of insect populations, and sold for \$390.00. MRU claimed that AGRAD machines had been used for several years by MRU researchers to conduct experimental applications of the type described in **The Secret Life of Plants** by Christopher Bird and Peter Tompkins, and **Report on Radionics** by Edward W. Russell. Theoretically, the AGRAD machine was intended to produce effects through electromagnetic wavefronts that would interact with and control insects by disturbing the insect sensor mechanisms. A photo of the device and additional information appeared in one of MRU’s publications [which you can access here.](#)

The Third Option for Stopping Cancer: Complex, Temporally Patterned Weak Magnetic Fields-Critical Factors That Influence Their Efficacy and Potential Mechanisms

by Nirosha J. Murugan, Nicolas Rouleau, Michael A. Persinger

Editor's Note: For copyright reasons, this article cannot be republished directly in the **USPA Journal and Newsletter**. However, it is freely available online at the following link, so just click on it and you can read the article in its entirety. The abstract of the article is below the link.

<https://neurocogconsultants.app.box.com/s/l9f7tld3yjny4b00eqbq/file/177434735079>

Abstract/Summary

One of the most promising technologies for suppressing the growth of malignant (cancer) cells without adversely affecting normal cells involves the application of physiologically-patterned and bioquantum compatible magnetic fields with specific temporal increments generated by optocoupler circuits through each of the three spatial planes.

However, experimentally generated magnetic field patterns designed to target cancer cells are also immersed within the magnetic environment of the incubators. We measured anomalous alterations in the horizontal (primarily "east-west") component of the geomagnetic static field intensity within cell incubators when the most effective experimental field was being generated between three sets of solenoids. The eccentric response was a function of the six solenoids being wrapped or not wrapped with copper foil. In addition, activating or deactivating the experimental field for fixed increments was associated with discrete and obvious DC shifts in the horizontal component as well as emergent patterns that were not a component of either the experimental field or the background incubator 60 Hz source.

If the temporal pattern that defines the effects induced by these magnetic fields is analogous to the spatial patterns that define chemical functions, failure to accommodate these anisotropic transients could be a source of the frequent contradictions and inter-laboratory failures to replicate these phenomena. We suggest that the emergent phenomena from these interactions with quantum-like features may be the causal variables responsible for many of the promising effects for cancer suppression. A modified Dicke model derived from quantum optics where cells cooperatively interact with a single mode of the field and their dipole fields interact coherently may accommodate the observed effects.

An Overview of Biofield Devices*

**by David Muehsam, PhD, Gaétan Chevalier, PhD,
Tiffany Barsotti, MTh, and Blake T. Gurfein, PhD**

Editor's Note: For copyright reasons, this article cannot be republished directly in the USPA Journal and Newsletter. However, it is freely available online at the following link, so just click on it and you can read the article in its entirety. The abstract of the article is below the link.

<https://www.ncbi.nlm.nih.gov/pmc/articles/PMC4654784/>

Abstract/Summary

Advances in biophysics, biology, functional genomics, neuroscience, psychology, psychoneuroimmunology, and other fields suggest the existence of a subtle system of “biofield” interactions that organize biological processes from the subatomic, atomic, molecular, cellular, and organismic to the interpersonal and cosmic levels. Biofield interactions may bring about regulation of biochemical, cellular, and neurological processes through means related to electromagnetism, quantum fields, and perhaps other means of modulating biological activity and information flow.

The biofield paradigm, in contrast to a reductionist, chemistry-centered viewpoint, emphasizes the informational content of biological processes; biofield interactions are thought to operate in part via low-energy or “subtle” processes such as weak, nonthermal electromagnetic fields (EMFs) or processes potentially related to consciousness and nonlocality. Biofield interactions may also operate through or be reflected in more well-understood informational processes found in electroencephalographic (EEG) and electrocardiographic (ECG) data.

Recent advances have led to the development of a wide variety of therapeutic and diagnostic biofield devices, defined as physical instruments best understood from the viewpoint of a biofield paradigm. Here, we provide a broad overview of biofield devices, with emphasis on those devices for which solid, peer-reviewed evidence exists. A subset of these devices, such as those based upon EEG- and ECG-based heart rate variability, function via mechanisms that are well understood and are widely employed in clinical settings. Other device modalities, such as gas discharge visualization and biophoton emission, appear to operate through incompletely understood mechanisms and have unclear clinical significance.

Device modes of operation include EMF-light, EMF-heat, EMF-nonthermal, electrical current, vibration and sound, physical and mechanical, intentionality and nonlocality, gas and plasma, and other (mode of operation not well-understood). Methodological issues in device development and interfaces for future interdisciplinary research are discussed. Devices play prominent cultural and scientific roles in our society, and it is likely that device technologies will be one of the most influential access points for the furthering of biofield research and the dissemination of biofield concepts. This developing field of study presents new areas of research that have many important implications for both basic science and clinical medicine.

Electronics and the Living Plant *

by L. George Lawrence

Editor's Note: For copyright reasons, this article cannot be republished directly in the USPA Journal and Newsletter. However, it is freely available online at the following link, so just click on it and you can read the article in its entirety. The abstract of the article is below the link.

https://borderlandsciences.org/project/bio-icom/lq.lawrence/Electronics_and_the_Living_Plant.html

Abstract/Summary

Can plants be integrated with electronic readouts to form major data sensors and transducers? Can plants be trained to respond to the presence of selected objects and images? And is their alleged super-sensory perception (SSP) verifiable? These are but some of the questions that are addressed in this article by L. George Lawrence, an internationally known British researcher. Lawrence provides illustrations and schematics to show how devices can be made and used to help answer the above questions.

Among other interesting things, Lawrence discusses the electrical characteristics of plants, electrical stimulation of plants, plant conditioning, and the “Backster Effect”, named after Cleve Backster, a former CIA polygraph expert, who discovered a form of extrasensory perception in plants.

Method for Transferring Photon Energy or Wave Energy to a Liquid

(Editor's note: To more easily read the small text, enlarge the document to 125% or 150%)

Abstract

A method and a device are described for transferring photon energy or wave energy from materials of an organic and inorganic nature to a liquid, in particular water, the energy-supplying materials being enclosed in a tube or a container made of glass or aluminium, preferably of quartz glass, and the latter being moved in a liquid. Lying in the container (1) is a prepared plate (5) which is coated with semiconductors (8, 9), for example with germanium. In addition, substances (11) can be coated onto the plate. The liquid is contained in a beaker (12) which is placed on the plate or on the container (1). <IMAGE>

Claims (6)

translated from Germ

1. A method of transmitting energy, in particular photon energy, characterized by a substance in a liquid, characterized in that the substance whose energy is transferred, is an organic or inorganic substance which is encapsulated and is moved in a container, in which the liquid is.
2. A method of transmitting energy, in particular photon energy, characterized by a substance in a liquid, characterized in that the substance whose energy is transferred, is an organic or inorganic material which is laminated on the plate-like structure which is encapsulated in a can, and which is coated with a semiconductor prior to encapsulation.
3. Apparatus for carrying out the method according to claim 1 and 2, characterized in that the substance that is transmitted is contained in a one end closed tube, which dips into the liquid, or in a can or shell is (1,2), is on the cover (2), the vessel with the liquid is placed.
4. Device according to claim 3, that in the box (1) or shell is multi-layer plate-shaped structure is contained, which is coated on its upwardly and downwardly facing surfaces (8,9) with a semiconductor and a therebetween aluminum foil carries.
5. Device according to claim 4, characterized in that the semiconductor is germanium or a germanium compound is that for example in the form of a lacquer to the free surfaces (8) and (9) is painted.
6. Device according to claim 3 - characterized 5 in that the edge of the can (4) has a height such that when the lid (2) a free space between the lid base and top of the plate-like structure, remains in the reference substances in the form of herbal or biological substances in aqueous, alcoholic, or powder form natural form can be introduced.

Description

translated from German

[0001] It is known to measure drug electrically similar to the EKG or EEG. In drug -testung measurement or the patient, an electrode is placed in the hand or the foot, and sampled at a 2nd electrode his body on certain lines or dots under application of a voltage. In this measurement method is obtained resistance curves that can be represented graphically, and you can then supposedly determine if medication for that organism have a healing effect or not. It is possible to select with this procedure, patient-specific remedies with high security (Biological Medicine, No. 4, August 1987, page 512 ff).

[0002] Effects similar to those of medical testing or measurement are also found in plants. It was suspected ultra-weak light beams in living samples, such as cucumber and potato seeds among others Such radiation is linked to the life and disappears at killing the germs after previous increase. The emission of these bio-photons of living germs changes upon the approach of potentiated substance without a chemical influence possibility exists. (. Ruth Bernhard, Experimental

Investigations on Ultraweak Photon Emission Contained in Popp, FA Becker, G. King, HL, Peschka, W. (Ed). Electro-magnetic bio-information Urban & Schwarzenberg, Munich 1979th). (Hellish, E. and Mehlhardt, W., Studies on the objectivity of the EAV-drug testing by measuring the emission of Biophotonen - a preliminary communication, medical journal f Naturheilverf 22.6, 316 -.. 317 (1981).

- [0003] On the other hand, it is now known that plants light guide and that along the meridians of the human body has the light guide function. It has been discovered that barley stem light over a distance of 4 - 5 cm can lead. The light that had traveled this route, was registered visually and using a Photomultipliziervorrichtung on unlit stem end. It was further observed that, paradoxically, the plant was considerably bent after the light was passed through them. It is possible that the inner light consumption helps the body to react to changes in environmental conditions and regulate the functions of various body parts accordingly. For example, have plants no equivalent to the nervous system of higher species. So it could be that sometimes the light guide channels assume this function. In the human organism the inner light system is probably one of the oldest regulatory bodies, which we have inherited from the earliest stages of evolution, from the days when the nervous system of living organisms yet was underdeveloped or even non-existent (space & time 35/88, page 17 and 18).
- [0004] According to the invention now the task is to use these frequencies or low currents through which the photons in biochemical processes, especially of plant, animal and mineral substances occur at beneficial conditions to get the therapy useful insights.
- [0005] This object is achieved in that these vegetable, animal or mineral substances are introduced into a tube, and the tube is brought into contact with a liquid dissolved.
- [0006] The tube is preferably a quartz glass tube which is at least at one end closed and is included in which the test plant, animal or mineral material. The liquid in which the tube is immersed with the substance is water or any other drink, such as mineral water.
- [0007] The residence time for the tubes in the water varies depending on the material, but is generally 1 - 2 mins. If one measures at those outlined above lines of the human body, for example on the meridians, one registered flows extremely low strength and certain frequencies, be the intensity of light on the tolerability or effectiveness of the administered preparations if the patient thus treated liquid to be takes. The substance whose energy is transferred to the liquid, can be as listed, of organic or inorganic type. Thus the tube may contain, for example: basic elements, such as semiconductors, such as germanium, silicon or vegetable, ie, organic substances, such as extracts or parts of plants such as hawthorn or of garlic, vitamins, etc. These substances are in the functioning as a stirring rod tube introduced, and then the stir bar is moved in a container with the water. The stirring bar should preferably have a flat shape and consist of quartz glass, that is not circular cross-section, but rather have a flat-oval cross-section. In some cases it is also possible to make such a stir bar instead of quartz glass of pure aluminum and thus to stir the liquid.
- [0008] The water may also contain a proportion of ethyl alcohol. If you double-distilled eg a neutral liquid such as Aqua or like coffee, tea, milk, mineral water, etc., with the above described stirring rod in which the above-mentioned material is with its inherent energy to, stirring, then it will be within a short time transferred to the liquid, so that also in that this energy is transferred to the patient or test person and it reacts in a certain way. When a person with heart problems, a liquid is administered, for example, for example, which has been stirred with a stirring bar containing Crategutt forte (hawthorn preparation) water, then the energy of this fluid and that of the preparation of the oral mucosa and stomach / intestines is received, which can be determined with suitable measuring instruments. For substances or preparations that are annoying due to their odor or to be rejected, such as garlic, this may even be introduced in concentrated form into such a stir bar and treated with water, and it attains effects corresponding to the consumption of the plant itself, without that bothersome side effects such as odor, are formed.
- [0009] This processing or application of the energy content of materials of the type described above, the present invention can be applied to plants, if, for example, deals with the irrigation water, according to the bar or in the flower-pot, inserted near the root.
- [0010] So (rubber tree) example was registered no sign of life with a diameter of 60 cm at a broadleaf plant, and the leaves had large brown spots, in which indicated the "death" of the plant. It was observed by measuring the biological energy no resonance. A-fed with a germanium preparation stir bar was placed in the wet soil and kept for a few seconds therein. After only three days, the plants center developed new shoots. This suggests that this small light energies can control or influence biochemical processes in plant and animal cells.
- [0011] Above, the solution of the problem has been described so that they filled a vial with the substances mentioned, that is at one end closed, is moved in a liquid, that is, and the liquid is stirred so.
- [0012] In pursuance of the inventive idea, the invention can also be realized in that the reversing means and process steps involved. This takes place in that a box with a lid made of glass - like a petri dish - using, on the bottom inside for generating a photon radiation, a carrier is loaded, which in its shape corresponds to the internal dimensions of the petri dish and pulp, in the manner a cardboard or a plastic - as celluloid -, is, and is coated with a semiconductor, for example in the form of a lacquer. Preferably, the carrier is duplicated, so that the two upward-facing and down-facing surfaces coated Video- while the facing surfaces are not coated, characterized results in different polarities.
- [0013] The coated sides are positive and non-coated sides negative. Between two layers, an aluminum film may be, and the whole laminate structure may be covered by a cover plate. To enhance the radiation photons may be laminated to the laminate substance that causes an amplification of the photon radiation, analogous to the filling in the above-described glass tube whose cross section may be round or oval or similar. To the laminate materials are layered, the medicinal plants, medicines, tea blends and can be like. These reinforcing action substances or substances may be present as a powder or in a natural form in aqueous or alcoholic form and of course finely divided. the tray cover is placed and set the vessel containing the liquid onto the can lid as in the first embodiment to the arrangement so taken. It has been found that the effect of the can with the therein semiconductor coated plate causes a significant gain. This gain can be measured. The box is flat as shown in the drawing. If you upright, you get no values or only very weak.
- [0014] The diameter of the vessel corresponds approximately to the diameter of the Petri dish. Of course, the shell is not necessarily a petri dish, but the flat petri dish relatively large diameter and well suited because of the wide cross-cover for the inventive purpose. The tray or the box may also consist of plastic. In any case, it should preferably consist of a Viskolyt.
- [0015] The refurbishing of the germanium coating for coating analogously to the box is performed using germanium or other suitable germanium compound according to general rules and paint production. Instead of germanium substance, another semiconductor may be used, for example, finely divided silicon oxide or finely divided silica sand. The connection with the panel must not be made with paint; it can be adhered in any other form, for example by dipping into a dispersion. Instead of coating with a paint, of course, the semiconductor may also simply mixed with a binder, for example in the manner of a glue - as described above - be coated on the deposits or applied. The arrangement of the coated germanium or with another semiconductor plate-shaped insert of the can can be applied without container, of course, but the plate is then exposed to the risk of damage.
- [0016] To explain the device for carrying out the method, a drawing is attached, is shown in the device using a tray or box (Petri dish). The application of the tube with the active substance, is stirred with the liquid, is shown so clearly in its nature, that explanation is superfluous by means of drawing. In the accompanying drawing is a cross section of such a shell is illustrated with insert. The shell is preferably round, but may also be square. Its diameter should be the same to be set out vessel, glass or cup in about.
- [0017] The cup or can is made of glass or a plastic. The reference numeral 1 designates the flat box, numeral 2 the cover 3 with its edge which engages over the edge 4 of the can. Inside the can there is a liner formed from individual layers, which is approximately slightly less in diameter than the inner diameter of the can 1. This insert has the reference numeral 5 and is in the present embodiment is formed of two layers 6 and 7, the paperboard or plastic. Their exposed upper and lower

faces 8 and 9 are coated with a semiconductor, preferably with germanium or a germanium compound. The the semiconductor-containing coating can be a coating or a binder in the form of an adhesive, in which the semiconductor is dispersed or in any other way. It is only important that the semiconductor covering the surfaces 8 and 9 good, that is, a forms dense layer and adheres firmly to it. The two layers 6 and 7 are connected through an intermediate layer of a metal foil 13, for example an aluminum foil, with one another, for example by gluing or simply place by superimposed. In this way, an "element" which mimics a photon radiation results. With the semiconductor non-coated surfaces show negative charge, and the coated with the semiconductor surface a positive charge.

- [0018] In the above-described arrangement, the two layers of the plate may be not only made of cardboard or plastic, but also of leather or celluloid, the outer coating is a semiconductor in its broadest sense, or other substance. The inside of the position 6.7 is uncoated. Between two layers, the aluminum foil 13 is arranged, which may also be an aluminum sheet or other metal sheet in a thickness of about 1-2 mm. Through this panel assembly can be demonstrated to a strengthening of the semiconductor vibrations, especially the positive vibrations or waves in food, drugs and natural products, and be compensated for all the negative vibrations that are caused by technical or terrestrial interference, for example by water veins.
- [0019] In the above description, the arrangement of the plate insert 5 is described in a recess provided for the protection petri dish, to which one then uses a vessel in which a liquid is located. By the word "petri dish" the surface area shall not be restricted, but this can be great, several dm, so then to protect a correspondingly larger box or tray is used and a correspondingly larger container can be placed on their covers.
- [0020] The whole is now covered with the tank or tray cover 2, the rim 3 of the lid over the raised edge 4 of the box or the lid engages. In the drawing, the cover and container base are shown pulled apart. In further features of the invention, the edge is 4 or 3 chosen so high that, when the insert 5 is located in the can, even a space remains between its surface and the underside of the cover in which a reinforcement material 11 can be filled. As described above, this reinforcing material is preferably a vegetable or biological substance at an appropriate packaging.
- [0021] The box used for the secure accommodation of the insert 5, with its coatings, protects them from damage and allows the accumulation reinforcing, natural organic substances in dry, aqueous or alcoholic preparation, in powder form or in the natural form and of the cover carries the vessel 12 with its liquid content which receives the photon radiation, increases the active substance contained therein by its radiation, thus increasing its therapeutic effect advantageously affected.

Radionics: Science or Magic? : An Holistic Paradigm of Radionic Theory and Practice

by David V. Tansley

Paperback: 144 pages

**Publisher: C W Daniel; 1st Edition
edition (December 1, 1982)**

Language: English

ISBN-10: 0852071523

ISBN-13: 978-0852071526

**Package Dimensions: 7.8 x 5 x 0.7
inches**

[Available at Amazon.com, here](#)

"Radionics - Science or Magic? offers a radically new, provocative perspective on a controversial field. Tansley draws on clinical experience and recent scientific theories in this rethinking of radionics as a phenomenon of what he calls 'Dimension II'." - Marilyn Ferguson "The Author provides a vivid and concise insight into the future direction that the scientist, healer and patient must take if they are to become aware of their essential relationship to the flow of universal creative energy and innate wisdom from which healing emerges." -Dr. Robin Gibson

David V Tansley 1934 – 1988 was a chiropractor, lecturer, and the Vice President of the British Radionics Association. Tansley was a colleague of John DaMonte, Ruth Drown, Thomas Galen Hieronymus, George Laurence, Tad Mann, Malcolm Rae, Guyon Richards, Rosemary Russell, George de la Warr, Vernon Wethered, Jane Wilcox. David Tansley spent many years researching Eastern Wisdom and studying Alice Bailey. He designed radionics machines specifically to treat chakras and energy fields of a more subtle nature.

The Pendulum through Radiesthesia Applied to Radionics

by Scott R. Williams

File Size: 514 KB

Print Length: 22 pages

Simultaneous Device Usage: Unlimited

Publication Date: December 26, 2017

Sold by: Amazon Digital Services LLC

[Available at Amazon.com, here.](#)

The universe is infinite; also are the possible forms of life and matter that are formed in it. Every form of life and matter is essentially vibrant energy that has a discrete and definite frequency. In general, the different textual descriptions that this writing contains are about how a person, a human, through dowsing can get in tune with the different form of life to find answers to questions related to the health of an organic life form, for example, as well as to find a remedy to help the health of the life form return to balance.

Before going into the main theme of the libretto, the Pendulum Through Radiesthesia Applied to Radionics, it is important to define keywords to fully understand the subject. In the Collins English Dictionary, radionics is defined as "a radiesthesia technique using a pendulum to detect the energetic fields that are emitted by all form of matter" and radiesthesia "the ability to feel energy forces or radiations, esp [sic] of the human body".

These are only some definition provided by dictionaries.

Precisely the purpose of this text is to provide essential principles of practice and elementary knowledge so that every person who yearns to develop him or herself within the field of radionics has the necessary tools to be successful and thus their intuition grows. Despite the infinite possible measurements that can be carried out with the pendulum, with practice and mastering of a few basic skills, which must necessarily be developed, it will be possible to find what the conscious mind seeks in the unconscious. The important thing is to be constant, focus and maintain the serene concentration and seriousness of attitude that the process of radionics deserves.

USPA Generous Donor Recognition Page

The USPA would like to give special recognition on a continuing basis to people making generous donations to the United States Psychotronics Association. To do this, we are creating this special “USPA Generous Donors Recognition Page” that will be carried in each issue of the **USPA Journal & Newsletter**, beginning with the December, 2016, issue and going forward. New names will be added as other generous donations are received.

The USPA wishes to recognize the following individuals and extend our gratitude for their generosity: (in alphabetical order):

George B. Alder, II

Scott Beutlich

Mary Hardy ([Temple of Sakkara](#))

Ed Kelly ([Kelly Research Technologies](#))

Michael Leger ([Homeodynamics, LLC](#))

John H. Reed, M.D.

William Reeves (Print & Web Design - breeves66@gmail.com)

Arnold Reinhold

Eric Rowley

Daniel Taylor

To make a tax deductible donation to the United States Psychotronics Association (USPA) online, please go to the [USPA donations page and scroll down to the orange “Donate” button](#), where you can make a donation using your credit, debit card, or PayPal. **For those who wish to make a donation by check**, please make your check payable to USPA and mail it to the **USPA treasurer, Scott Beutlich, 525 Juanita Vista, Crystal Lake, IL 60014.**

NEXUS

THE ALTERNATIVE NEWS MAGAZINE

After 30 years, NEXUS is delivering more information than ever before!

- **Print:** available worldwide — in-depth articles with bonus free access to digital Nexus Magazine when subscribing via web at www.NexusMagazine.com (also printed in other languages)
- **Digital:** online option, text searchable and linked
Subscribe to print and digital at www.NexusMagazine.com

to your device or computer.

USPA Psychotronics Periodicals Library

In order to do good psychotronics research of any kind, whether it involves radionics, radiesthesia, psionic medicine, dowsing, subtle energies, biophotons, or any other subject covered by psychotronics, one needs access to as much of the periodical literature as possible on these subjects.

To address this issue, the United States Psychotronics Association has resolved to identify, acquire, and digitize copies of every psychotronics related periodical that has ever been published anywhere in the world, and to retain copies in the USPA Library.

As a first step, we have developed an [online list of psychotronics related periodicals \(click here\)](#) that focus on or frequently have articles on the psychotronics subjects noted above. This is a growing list, since we know there are probably other psychotronics periodicals that have been published, but that we do not yet know about.

Please look over the online list and check your own personal physical libraries and your computer files, thumb discs, and other external hard drives to see if you have any issues of the periodicals on this list. Even if you just have one issue, please let us know, because that may be the one we need to complete all the issues of a particular periodical. **Please write to me (John Reed) at: joreed43@gmail.com, since I am the USPA librarian and archivist coordinating this effort,**and tell me what periodicals you have.

As a whole, the members of USPA and other interested non-members, have a huge "library" of periodicals, but it just happens to be "distributed" among these people at this point in time. However, we can work together, and if you would be willing to loan, donate, xerox, or as a last resort, sell copies of your periodicals to the USPA Library, then we will be able to build a large centralized library of all psychotronics periodicals. And all USPA members will then be able to use these periodicals in their research or for their reading enjoyment.

USPA Local Groups and Affiliates Update

As mentioned in the May, 2016, USPA Newsletter, one of our goals is to reactivate all of the former 24 USPA Chapters that once existed across the US and Mexico. In addition, we plan to establish new local groups of people interested in psychotronics and related subjects in other major cities in the US and other countries as well. All such local groups and affiliates will be independent, but will work together with the USPA in a mutually beneficial relationship to achieve our goals of advancing research and applications in psychotronics, radionics, subtle energy, and related fields.

So I would like to invite all of former USPA Chapters leaders and members to contact me (John Reed) at: joreed43@gmail.com and let me know if you would like to help reactivate your local chapter. In addition, if you are a leader or member of a psychotronics or related organization which was never a chapter of USPA, and we would welcome you as a USPA affiliated organization as well.

We will be establishing a USPA affiliated groups as traditional organizations and also via the Meetup.com online group platform. This will enable current and former members to more easily have local get-togethers, meetings, and other activities, and those activities, times, and other details can be posted online. So please let me know if you would like to be the leader of a group in your area.

If you do decide to use Meetup.com to establish your local group, you could do it quickly and easily by going to www.meetup.com , and clicking on the big red word “Start” in the upper left, and then just following the step-by-step procedures.

You can give your local group any name you want, but it should probably have a name that relates to psychotronics in some way. And if you need any help, please let me know, and I will help you in any way I can. Perhaps the most important thing is enthusiasm and determination, so write to me, even if you don’t know any other USPA members in your area, and I will help you set up a local group: joreed43@gmail.com

Exchange Corner and Advertisements

The "Exchange Corner", is a place where people can advertise to buy, exchange, or sell items of interest, or request information or other help in relation to something wanted. So if there is anything you want to buy, sell or trade that has to do with psychotronics, radionics, subtle energy, or related subjects, please contacted the Classified Ads manager at: joreed43@gmail.com. Advertisements are free of charge to USPA member within certain limits, but non-members will be charged for any classified or display ads. So please send your ads and wanted requests to: joreed43@gmail.com.

Wanted: Any articles, periodicals, books, devices, or other materials on psychotronic related subjects that you can donate or lend to the USPA for its library, archives, and museum. **The USPA is a nonprofit, 501(c)(3), tax exempt organization, and as such, you are able to make tax deductible donations to the USPA. Please email the USPA at: joreed43@gmail.com to make shipping arrangements. Thank you for your generosity.**

Kelly Personal Analyzer for Sale

Mariette Picket has a friend that has a brand new unused Kelly Personal Analyzer that she paid \$2100 for, and is offering it for sale at only \$1600.00 Anyone interested call Mariette at: [317-773-0061](tel:317-773-0061)

Bruce Copen MARS III for Sale

I am a current USPA member and have a **Bruce Copen MARS III** for sale. The system is about 7 or 8 years old and in original, excellent condition. Sale includes original SCOPE analysis, database and broadcast software, HP laptop, comprehensive training manual and program disc, interconnects and boxes. I have always run it on XP with no issues; everything original as supplied by Copen.

All operations can be automated and multiple broadcasts can be run simultaneously, although Copen saw to develop this device so it could be used in many radionic styles and without computer control. The price is \$8500 USD roughly half the original cost. I prefer to not ship to a destination outside the USA. A limited amount of training by me, as I understand it, is available to a confirmed purchaser, as time and distance reasonably permit. Please contact: **Dr Robert Dixon, robertdixondc@gmail.com or call (304) 259-9439** Berkeley Springs, WV.

KRT Experimental Agricultural Radionic Analyzer for Sale

For Sale:

USED EXPERIMENTAL AGRICULTURAL RADIONIC ANALYZER

Manufactured by KRT (Kelly), this machine is a predecessor to their current Workstation model. The machine is clean and in good condition. For more information please see KRT's website:

<http://www.kellyresearchtech.com>

Asking a very reasonable \$2499.00 plus \$100.00 shipping to the lower 48 states.

Please contact saminox@hotmail.com.

What Research and Subjects Does Psychotronics Cover?

The United States Psychotronics Association defines psychotronics as the science of mind-body-environment relationships, an interdisciplinary science concerned with the interactions of matter, energy, and consciousness. Psychotronics involves the study, research, and applications of the physics and technology of the mind, brain, spirit, consciousness, and the underlying forces of life and nature – hence the term “psychotronics”.

We believe that a true understanding of the universe must include the spiritual, as well as, the technical, and provide an opportunity for amateur researchers to present their findings along with the professionals. We stress research, with documentation of results, and practical applications, rather than personal experience and unsupported hypotheses.

Some Prominent People in the history of psychotronics research and application: Albert Abrams, Thomas Bearden, Robert C. Beck, Robert O. Becker, Jacques Benveniste, David Bohm, Harold Saxon Burr, George W. Crile, Ruth Drown, T. Galen Hieronymus, Vlail P. Kaznacheyev, Georges Lakhovsky, Wilhelm Reich, Royal R. Rife, Rupert Sheldrake, Nikola Tesla, Marcel Vogel, and others.

Some of the forces, fields, waves, and energies studied and researched in psychotronics include: bioelectromagnetism, biophotons, biopotentials, electromagnetic wave pollution and harmful effects; coherent emanations of DNA, emanations of matter, “free energy”, morphogenetic fields, non-hertzian waves, orgone energy, pyramid energy and power, qi (chi), quantum fields, scalar waves, subtle energies, ultra-weak radiation of living matter, zero-point energy, and others.

Some of the phenomena believed to be produced or involved with the above fields and energies: action-at-a-distance, the aura of the body and other living things, bioinformation, bioluminescence, chakras, consciousness, distant intercellular interactions, meridians of the body, mind-body interactions, non-locality, the placebo effect, quantum consciousness, spontaneous remission of cancer and other diseases, water memory, water structure, and others.

Related fields of study and research covering the above forces, energies, and phenomena of psychotronics: bioelectromagnetics, bioenergetics, biophotonics, biophysics, psionics, psychoenergetics, psychoneuroimmunology, quantum biology, radionics, scalar electromagnetics, and others.

Some practices, techniques, and applications related to psychotronics include: acupuncture, biogeometry, brain entrainment, clairvoyance, dowsing, energy healing and medicine, extrasensory perception, feng shui, homeopathy, kirlian photography, magnetic therapy, pendulum use and methods, prayer effects, psionic medicine, psychic healing, psychometry, qigong, radiesthesia, radionics, remote viewing, shamanism, sound and sonic healing, telekinesis, telepathy, and others.

Membership Benefits

So if you are interested in any of the above subjects, then the USPA is the place for you, where you can interact with, exchange ideas, and collaborate with other people who are interested in the same subjects. So sign up now for membership in the USPA using the form on the following page and start enjoying all of your membership benefits. These benefits include, but are not limited to:

1. **USPA Psychotronics Library:** Free access to copies of certain articles, periodicals, books, audio tapes, videos, and other materials in **USPA Psychotronics Library**. Please write to joreed43@gmail.com for whatever item(s) you are seeking;
2. **Your free subscription to the USPA Journal & Newsletter;**
3. **Your right to freely publish articles in the WISE Journal - The Journal of the World Institute for Scientific Exploration (ISSN 2381-1536),** enabling the world to see your ideas or research, and thereby enhance your resume and credentials;
4. **Your right to use the USPA Literature Research Service,** whereby we will find any article, book, or other item you are seeking on the above subjects, and provide it to you;
5. **Your right to participate in the USPA "Research Assistance Program",** especially useful to professors, authors, and other researchers, who need extra help on their projects. USPA will help find volunteers to help you with your research project(s).
6. **Your right to be part of the USPA Project Participation Program,** whereby you can volunteer to help on numerous available USPA projects, or help researchers who are conducting research on psychotronics and related subjects.
7. **Your right to make oral or poster presentations at the annual USPA meeting,** with the approval of the Annual USPA Meeting Planning Committee.
8. **Your right to discounts** on the purchase of certain items and services made available for sale or provided by the USPA and its members.
9. **Your right to freely advertise in the WISE Journal,** which goes out to thousands of people.
10. **Your right to participate in the USPA Psychotronic Literature Preservation Program (UPLPP).** The USPA, via its Library and Archives, has established a "Literature Preservation Program" to preserve your personal papers, files, records, and collection of articles, periodicals, books, and devices on psychotronics and related subjects, noted above. You may no longer need or use some of these items that you have, and you can send them to the USPA, and we will preserve them in our library and archives, so that they can be of use to other researchers.

MEMBERSHIP INFORMATION

The U.S. Psychotronics Association (USPA), was incorporated in the District of Columbia in August, 1977, and is a nonprofit, 501(c)(3), tax exempt organization, and as such, you are able to make tax deductible donations to the USPA. It is empowered to enroll members in the parent organization throughout the United States, Canada, and other foreign countries. Membership is open to all people who wish to join with the USPA on the new frontiers of science in working constructively for the qualitative improvement of man and his environment. **Please remember the USPA in your annual charitable giving, especially if you want to advance research in the above subject areas, which can greatly benefit humans, animals, plants, and the environment.**

United States Psychotronics Association Membership Application

Please print the page, and complete the following information:

Date _____

Name _____

Email _____

Mailing Address: _____

City _____ St _____ Zip Code _____

County _____ Country _____

Phone _____ Cell Phone _____

I am interested in the following Fields:

☐ General ☐ Healing ☐ New Age Physics ☐ Radionics
☐ Dowsing ☐ Subtle Energy Research Other Interests (Please specify) _____

Do you want to be listed in the USPA Membership Directory? ☐ Yes ☐ No

Type of Membership desired:

☐ One Year @ \$35 ☐ 2 Years @ \$60 ☐ 3Years @ \$85

☐ Full Time Student @\$20

☐ Member of the Military @\$20

☐ Family Member Membership @\$30 per Person

Thank You!

USPA Catalog of Conference Lectures, 1978-1994

Now Available

A compilation of nearly 300 lectures given at the first 17 years of the United States Psychotronics Association (USPA) conferences, from 1978 through 1994 is [now available in a 30 page catalog \(click here\)](#).

There are talks by some of the most well known scientists of our age, including Andrija Puharich, Thomas Bearden, Marcel Vogel, Lynn Surgalla, Robert Beck, T. Galen Hieronymus, J.G. Gallimore, Elizabeth Rauscher, Christopher Bird, and many, many more.

There are also lectures specifically about radionics from some of the top practitioners: Robert Beutlich, Lutie Larsen, Jerry Fridenstine, Frances Farrelly, and others.

If you have an interest in the paranormal, the life of plants or zero-point energy, there are speakers here who are experts in the fields. How about dark-field microscopy, scalars, magnetic fields, or the Philadelphia Experiment? Yes, they are in here in this catalog too. Homeopathy, color-healing, use of crystals, structuring water, water memory, and Tesla's work are some of the other topics covered in this catalog.

As of this date, (April 15, 2017) they are available only by direct contact with USPA, but soon, they will be available online. The USPA home page is at <http://www.psychotronics.org> and we will have a linked site where purchase will lead to immediate download of the MP3, and payment can be made through Pay Pal.

Please note that [in the Catalog \(click here\)](#), most of the lectures are standard MP3s, are 30-45 minutes long, and priced at a very reasonable \$5.00 each. These have no marking in the right-hand column of the catalog listing. Other MP3s are one hour or slightly longer, and are marked "Prime" in the right-hand column, with a price of \$8.00 each. And a few of the MP3s are 90 minutes or longer, and are marked "Double", with a price of \$10.00 each. USPA members get 40% off.

However, if you just "can't wait," for the online order website, email us at uspsychotronics@gmail.com or contact our USPA Treasurer by snail mail at:

Scott Beutlich
USPA,
525 Juanita Vista
Crystal Lake, IL 60014
Email: uspsychotronics@yahoo.com

Until the online order site is ready, you can print out the last page of this PDF and fill it in. You can scan it and email it to us, or send it via snail mail. For now, payment is by Check, Money order, or Pay Pal.

Thanks for your interest, and good luck with your research.

The Board and Officers of USPA
USPA is a fully registered, 501 C(3) Non-Profit Organization
Donations are Gratefully Accepted, and are fully tax deductible

J.G. Gallimore's Five Rare Books Now Available for Sale

All five of J.G. Gallimore's rare books on psychotronics subjects and unusual energies have been reprinted by the United States Psychotronics Association (USPA) and are being made available at a fraction of the cost that used copies were being sold at online. So rare have these books been, that only a few libraries in the entire world had them in their collections, and some of Gallimore's books were being sold for several hundred dollars each online. However, with these newly reprinted volumes, each will be available for less than \$30.00. Each of Gallimore's books is described below with links to Amazon.com.

Jerry G. Gallimore was one of the founders of the USPA in 1975, and was a leading researcher in psychotronics and unusual energies until his untimely death in 1989.

The Handbook of Unusual Energies: Volume 1

by J. G. Gallimore

Paperback: 484 pages

Publisher: CreateSpace Independent Publishing Platform (March 22, 2017)

Language: English

ISBN-10: 1543024998

ISBN-13: 978-1543024999

Product Dimensions: 8.5 x 1.1 x 11 inches

[Available at Amazon.com](#)

This is J.G. Gallimore's first book of three volumes on unusual energies, and at 468 pages, it is a magnificent work. In this book, Gallimore discusses in depth the research, discoveries, and

inventions of all the major researchers in subtle energies, the aether, biological

fields, pyramid energy, radiesthesia, radionics, crystal transduction, and related subjects. These include the works of Baron Von Reichenbach's and his odic energy, Dr. Wilhelm Reich's orgone energy, Dr. Harold Burr's biological life fields, Kozyrev's time mirror, Edgar Cayce's transmission of energy, and related research done by many others. Of particular importance is Gallimore's 127 page chapter on radionics. In this chapter he discusses in depth the research and devices of Ruth Drown, T. Galen Hieronymus, Rho Sigma, Dr. L. P. Corte and other prominent people in the radionics field. But in addition, Gallimore provided diagrams showing how such devices are made and how they actually work.

Collected Properties & Writings of J. G. Gallimore: Volume 2 of Handbook of Unusual Energies

by J. G. Gallimore

Paperback: 258 pages

Publisher: CreateSpace Independent Publishing Platform (March 22, 2017)

Language: English

ISBN-10: 1543025048

ISBN-13: 978-1543025040

Product Dimensions: 8.5 x 0.6 x 11 inches

[Available at Amazon.com](https://www.amazon.com/dp/1543025048)

This is the second book in the “Unusual Energies” series that J.G

Callimore published. It covers Gallimore's research on Albert Abrams, the founder of modern radionics, psychological physics, psychic energy, thought resonance, subtle energies, crystals, and related subjects. In addition, a number of radionics devices are discussed, such as the De La Warr Diagnostic Instrument. And very helpfully, the rates are provided for substances, body organs, and medical diseases and disorders. A very interesting interview of Christopher Bird, conducted by J.G. Gallimore is provided, as well as a discussion of Walter Russell and his research.

Relationship Between Parapsychology and Gravity: Volume 3 of Handbook of Unusual Energies

by J. G. Gallimore

Paperback: 228 pages

Publisher: CreateSpace Independent Publishing Platform (March 22, 2017)

Language: English

ISBN-10: 1543024947

ISBN-13: 978-1543024944

Product Dimensions: 8.5 x 0.5 x 11 inches.

[Available at Amazon.com](https://www.amazon.com/dp/B06YD8Y8Y8)

The Relationship Between Parapsychology and Gravity is Volume 3 of J.G. Gallimore's series of three handbooks of unusual energies. This book describes in depth the research and theories of J.G. Gallimore into the question of "parapsychology transmission" --the question of how such things as telepathy, remote viewing, ESP, and similar phenomena can physically occur. Gallimore discusses various explanation on how they occur, including the possibility that gravity waves may play a role. He also discusses the various emanations, radiations, and energy fields of all matter and life. This includes the ancient Chinese energy called "chi" (qi), the ancient Indian's prana energy, Reichenback's "odhic force", Gurwitsch's "mitogenic radiation", Wilhelm Reich's orgone energy, and other subtle energies of life and matter. Gallimore shows how all of these energies are the same or similar, how they interact, and how they are related to gravity. He also discusses crystals as transducers of these energies, and provides diagrams of devices that could potentially be used to harness or control these energies.

Transverse Paraphysics: The New Science of Space, Time, and Gravity Control

by J.G. Gallimore

Paperback: 374 pages

Publisher: CreateSpace Independent
Publishing Platform (March 21, 2017)

Language: English

ISBN-10: 1543024920

ISBN-13: 978-1543024920

Product Dimensions: 8.5 x 0.8 x 11
inches

[Available at Amazon.com](https://www.amazon.com/dp/1543024920)

This book covers the visionary research and theories developed by J.G. Gallimore about anti-gravity, space, time, and biophysics. He discusses in depth the dimensions of space, time, and gravity, and new discoveries in each of these areas. In addition, he covers research being done on anti-gravity and then discusses anti-gravity patents that have been obtained. He also discusses the intriguing concept of aura energy fields surrounding humans and other living things, and how extra-sensory perception (ESP) might be explained through biophysical principles.

Unified Field Theory Research Book: Using Subjective Response to Psi-Plasma for Analysis of Properties Neutral Charge Plasma Fields

by J.G. Gallimore

Paperback: 134 pages

Publisher: CreateSpace Independent Publishing Platform (March 21, 2017)

Language: English

ISBN-10: 1543024831

ISBN-13: 978-1543024838

Product Dimensions: 8.5 x 0.3 x 11 inches

[Available from Amazon.com](https://www.amazon.com/dp/1543024831)

This book is about psychotronics, radionics, electromagnetic fields and waves, psi-plasma, plasma fields, subtle energies, bioelectromagnetic energy, and other unusual energies emitted by living and non-living things. It also is about how living things interact with and are affected by these energies, which may enhance health or harm health. The book covers the research of Wilhem Reich on orgone energy, of Baron Reichenback on the odic forces, as well as research done by Cazzamalli on brain radiations and Lakhovsky on using high frequency radiations to successfully treat cancer in humans. In addition, Lakhovsky used similar methods to enhance the growth of plants. Gallimore shows how these energies, forces, and fields are all inter-related and provides hypotheses and ideas on their possible unification.
