WHAT IS PSYCHOTRONICS?

Beverly Rubik, Ph.D.
President, USPA

Psychotronics originally referred to the mind (*psycho*) operating devices (*tron*) with thought. This term came out of parapsychology in the 1960s in Czechoslovakia. The early psychotronics researchers conceived of and built psychotronic generators—sacred geometrical forms composed of pyramids and cones along with crystals, copper coils, and other materials. Unlike most machines, these devices were “operator dependent”—having various effects depending upon the operator and the directed intention—and demonstrated positive effects on people, animals, plants, and processes.

Today our interests are more broadly based. The US Psychotronics Association (USPA) investigates and applies science and technology to interactions of mind, matter, spirit, consciousness, and the underlying forces of life and nature. Psychotronics challenges the dominant scientific worldview because it deals with the power of consciousness to interact directly with the physical world, which is not considered in mainstream science. However, numerous lines of scientific and other evidence point to severe limitations of the dominant paradigm, which holds that consciousness is only a passive observer. We are among those mavericks shaping the new worldview in which consciousness plays an active role in generating physical reality.

Our membership is quite diverse and fascinating. Some USPA members are frontier scientists conducting research on the effects of intention and subtle energy healing on systems such as structured water and its memory, plant growth, and the integrity of DNA. We are also concerned about the impact of electromagnetic pollution from the proliferation of wireless devices in our environment and how to protect ourselves. Other members are practitioners and teachers of radionics, using directed intention to assess and improve the well-being of living systems through the use of radionics devices, pendulums, and dowsing rods. Still others practice energy therapies ranging from hands-on healing to use of sound and light therapies, homeopathy, Oriental medicine, and other complementary modalities. Some members are skilled intuitives who can assess the biofield and subtle energy directly, without any tools. Still others are exploring psychotronics for personal growth and evolution. Despite our differences, we have much in common as we are all open-minded persons focused on expanding our understanding of nature, consciousness, and the full human potential. We enjoy camaraderie and sharing our new learning with one another.

One main focus of the USPA is the existence of a cosmic energy or bioenergy, also called *qi* in Oriental medicine and *prana* in Ayurveda—associated with the biofield

or life force. Energy may be mobilized with directed intention, which corresponds to the principle of ancient Eastern philosophy—“where mind goes, the *qi* flows.”

Psychotronics devices may serve as resonators or conduits of a cosmic energy affecting living systems at a physical level. The biofield, the energy field of each organism, is also fundamental.

Is this cosmic energy an aspect of science that has somehow been overlooked, or a new form of energy? We are taking a deeper look at the science of Nikola Tesla, among other pioneering scientists, who have been largely ignored. We are also revisiting the “aether” in physics that was displaced by a materialistic worldview, but may actually be the quintessence underlying physical reality, and the etheric body in radionics, to expand the scientific perspective.

**International Chinese Parapsychology Association Invites
USPA Members and Colleagues to Attend Conference in
Kunming, China, August 4-7, 2019**

Professor Yi-Fang Chang, Vice-Chairman of International Chinese Parapsychology Association, has extended a personal invitation to all USPA members and colleagues to attend the "Chinese Traditional Culture, Parapsychology and Its Function Exhibition" Conference in Kunming, China, on August 4-7, 2019. If you are interested in attending, please write Professor Chang at: yifangch@sina.com.

Special Invitation from Professor Yi-Fang Chang

Dear USPA:

The year 2019 marks 40 years since the beginning of Somatic Science (Parapsychology) in China. As of 2019, the Parapsychological Association in the United States has been an affiliated organization of the American Association for the Advancement of Science (AAAS) for 50 years, which is an important symbol of the scientific mainstream of advanced countries formally accepting parapsychology.

The two prior conferences on "Chinese Traditional Culture and Parapsychology" held in Kunming on October 23-24, 2011, and November 19-21, 2016, are important milestones in the research of Chinese parapsychology. The two published proceedings have caused great repercussions in China and abroad, and have been reported in international journals.

In the face of the rapid development of science and technology, we are scheduled to hold the 2019 Conference on "Chinese Traditional Culture, Parapsychology and Its Function Exhibition" in Kunming, China on August 4-7, 2019.

This will be the first international conference on parapsychology in mainland China. We sincerely invite all experts, scholars, researchers, and people with special talents, from China and the world, to attend, especially those who can show their research and abilities, including theoretical perspectives, medical treatment, Qigong, magic power, Yi, and related. We invite you to gather together in Kunming, the famous

Chinese tourist city with unique scenery, to display your research and talents, share friendship, exchange and discuss with each other, in order to promote the research of parapsychology in the world. Further, we will organize some special exhibitions for your function.

We especially invite USPA members and colleagues to attend the conference, and your head as honorary chairman of this conference, whose date follows your USPA conference in July. We hope for your support for parapsychology in China.

The conference coincides with the 80th birthday of Dr. Brian D. Josephson, who is the 1973 Nobel Prize winner in physics, a professor at Cambridge University, and a director of Mind-Matter Unification Project. We will celebrate his birthday, and have invited him to hold a special report by Skype for the conference. It will be the first in a series of celebrations on his 80th birthday.

Because James Randy (91 years old) claims that no supernormal function has ever been found in the world, on February 18, 2019, we formally invited him and his Committee for Skeptical Inquiry (CSI) colleagues to participate in this conference for the first time. We will have an open exchange and discussion with them at the conference.

The conference will also set up an academic committee, an organizing committee and an expert committee.

Organizer: International Chinese Parapsychology Association

Planning and Coordinating Unit: International Chinese Parapsychology Association China, South Branch

Presiding Chairman of Conference:
Yi-Fang Chang,
Professor, Department of Physics, Yunnan University,

Phyllis Weiland Passes Away

It is with great sadness that we report that our friend and colleague, Phyllis Weiland, passed away on March 9, 2019. Phyllis had been a long time leader of the US Psychotronics Association (USPA), and most recently served as the USPA's Conference Consultant & Membership Coordinator. Phyllis always went above and beyond the call of duty, and volunteered to do extra things to make each conference function smoothly. Her kindness, caring, and friendship will always be remembered, and we will miss her greatly.

The following tribute was published on the [Dieterle Memorial website](#).

Phyllis Kathleen Ann (Pinkous) Weiland

DECEMBER 5, 1944 ~ MARCH 9, 2019 (AGE 74)

TRIBUTE

Phyllis Kathleen Ann Pinkous Weiland

Born December 5th 1944 to Cecil Pinkous and Maria Stephani. Died March 9th 2019. Survived by her 4 children, John Weiland, Tim (Toni Meder) Weiland, Andy (Amy) Weiland and Jennifer (Jeff) Schaffer, as well as 7 grandchildren, 9 siblings and many, many nieces and nephews. She was known by many names and wore many hats, Tiny, Phyllis, daughter, mom, sister, grandma, friend, teacher, guide,

or healer. We knew her as mom, but watched her help or take in all who needed help. She gave all of herself to the very end to heal, guide or just sit with you and hold your hand. She had a way of seeing you without judgement. She accepted you unconditionally. She looked to her insights and always had something to guide you. She had religion and spirituality and saw them as interchangeable. Phyllis had many careers along her path. The one she loved the most was taking care of children. She loved and cared for them for most of her life. We grew up in her day care and watched her continue caring for children until she was 73. She dabbled in the corporate world for a few years, but soon returned to caring for children. Mom enjoyed sewing, wood working, crafts, meditation, and many other things. She participated in many groups, most of which helped her grow as a teacher or mentor. Despite her busy schedule of caring for children she found a way of making time for her second love, and that was her spirituality. The list of people she helped throughout her life is equal only to the number of children she has cared for. No matter how you knew Phyllis, you loved her. She will be missed. Family will be receiving guests on Saturday, March 16, 2019 from 2:00 PM-5:00 PM at Dieterle Memorial Home 1120 S Broadway Montgomery, IL. Interment will be private. In lieu of flowers memorial contributions can be made in her honor to The Night Ministry, or a children's charity of your choice. <http://www.thenightministry.org/>

“Among the Missing” Special: The Missing Invention of Arthur H. Matthews to Control Insect Pests, Microbes, and Diseases at a Distance

by John H. Reed, M.D.

Where is the patent and invention by Arthur H. Matthews, a Canadian, who in his own words stated “This refers to my invention of selective control – at a distance – with no physical contact – to control any form of germ – any sickness – all kinds of insect[s] which cause damage to forest, garden and human[s].” Those words appeared in Matthews’ own hand writing at the bottom of a reproduced letter on Appendix page A-10 of his book, *The Wall of Light*, which he published in 1971. But the big mystery is that the Canadian Patent office and patent database does not show this invention or any invention by Arthur H. Matthews.

The letter in question, which may be seen on the third page of this article, was from the Office of the Secretary of State of Canada, dated February 15, 1944, and refers to Mr. Matthews’ “invention for the improvement in methods for the control of insect pests.” The letter further states that Mr. Matthews file for an application for a patent for this invention on February 8, 1944, and that the Canadian Commissioner of Patents had advised the Office of the Secretary of State that Mr. Matthews’ patent application was being “dealt with without any undue delay.”

In addition, on the fourth page of this article, I have included a copy of the letter from the Canadian Commissioner of Patents to Mr. Matthews, curiously dated February 26, 1944, acknowledging the receipt of his patent application with the filing date of the application as February 8, 1944, which corresponds to the date noted in the letter from the Canadian Secretary of State’s office.

In addition, the Commissioner off Patents’ letter shows the title of the invention as “ Methods for the Control of Insect Pests” and also shows the patent application number of: 510,626. It is useful to note that all applications for patents by inventors in Canada and the United States are first signed a “patent application number” for tracking purposes, and then if the invention is granted a patent, a new “patent number” is assigned that has nothing to do with the original patent application number.

So the question arises: What happened to this wonderful invention by Mr. Matthews, and why does the Canadian Patent database have no record of this device whatsoever. A further question is, why did the Canadian Secretary of State’s Office become involved and know about this invention (on or about February 15, 1944), even before the inventor, Arthur H. Matthews, was sent the official receipt of his patent application (February 26, 1944)?

One hates to think that such an amazing invention would somehow be suppressed, but clearly there is strong evidence here that something is amiss. Of course, it could be claimed that the invention was merely rejected and denied a patent,

and that there is no mystery at all. But if this were the case, then it likely that Arthur Matthews would have mentioned it in his 1971 book, and probably complained about it.

Then, of course, we have to consider that the invention may have had a Canadian “Secrecy Order” placed against it, that stopped it from receiving a patent and becoming public, and stopped Mr. Matthews from talking about it. **Both Canada and the United States have invention “Secrecy Order” programs whereby certain inventions are slapped with an official “Secrecy Order”, whereby the inventor not only does not receive a patent, but is forbidden to write about the invention or even talk about it to anyone, on pain of going to jail or being heavily fined.**

And lest anyone think that this could never happen in such free countries, as Canada and the United States, and that suppression of inventions is merely conspiracy talk, the US Patent Office, at least, actually releases statistics on the number of new Secrecy Orders imposed each year, as well as, the total number in effect. But these figures can only be obtained under a US Freedom of Information Act (FOIA) request, and no additional information is ever released about who the inventors are, the titles of the inventions, or anything about them at all. I am not sure if the Canadian government releases such statistics under a Canadian FOIA request or not. But even if they did, they would certainly not release the names of the inventors, such as Mr. Matthews or his invention.

Fortunately, the Federation of American Scientists (FAS) makes an annual request for these Secrecy Order statistics in the United States, and [puts it on their website here](#). You may be surprised to learn that not just hundreds of inventions, but thousands of US inventions have Secrecy Orders placed against them. In fact, as you can see from the statistics from the US Patent Office, that at the end of fiscal year 2017, there were a total of 5,784 inventions that have Secrecy Orders against them, with 132 new inventions in 2017 having Secrecy Orders placed against them.

How many of the thousands of inventions in the US, and an unknown number in Canada, that have Secrecy Orders are perhaps energy devices that produce energy at little or no cost, or are miracle cures for diseases, such as cancer, Alzheimer’s, AIDS, or other diseases afflicting millions of people across the world can only be speculated upon. But clearly we know for sure that the inventor, Arthur H. Matthews, created one such invention, and that he claimed it could cure virtually any microbial disease, and get rid of insect pests of all kinds. And we also know that for almost 75 years, it has not seen the light of day.

If anyone has any information about this invention by Arthur H. Matthews, please write to the USPA editor, John H. Reed, M.D. at: joreed43@gmail.com.

Short News, Notes, and Queries

(If anyone would like to make a short news announcement, report something, has a question about anything related to psychotronics and related subjects, or has any information or comments about any of the following notes and queries, please write to the editor, John Reed at: joreed43@gmail.com)

1. Energy Healing Practitioners in Canada Needed to Test New Device

A new energy healing device, based in part on Lakhovsky, Priore, and Rife technologies, is being built in Canada to provide some degree of safety from certain well known US government agencies. The developers of this device also plan to do trials and testing in Canada, where the use of energy healing devices is completely legal. They are seeking energy healing practitioners anywhere in Canada, but preferably in Alberta or British Columbia, who would be willing to test this device. If you are a Canadian practitioner, **or know someone who is**, and who has experience using energy healing devices to treat people or animals, **please write to the editor, John H. Reed, M.D., at: joreed43@gmail.com**

2. Excellent Article on 5-G Negative Effects

The whole subject of 5-G wireless technology and its potentially negative effect on the health of humans, animals, and plants is a subject of much debate. USPA Board member Daniel Taylor has found and sent to the editor an excellent article on this subject by Claire Edwards, a United Nations staff member who worked at the UN from 1999-2017. Titled **[“5G Is War on Humanity”](#)** ([available here](#)), Edwards gives details on much research that has already been done that shows the potential deleterious effects of 5-G on many life forms, including humans. It is heavily reference, and links to many other sources of information are provided. **This issue will be addresses at the 2019 USPA, where Dr. Beverly Rubik and Harry Jabs will make a presentation titled, “Wireless Radiation, 5G, and Our Health”.**

3. Seeking Help to Repair a Digitron D Spectrometer

We recently received an email from USPA member Sharon Rowe, who has a Digitron D Spectrometer that is in need of repair. This device, a photo of which appears at left, was invented in the early 1980s by Bill Lawson, also known as “Willard Frank”, and is reported to be the forerunner of the SE-5. Does anyone have a Digitron D Spectrometer, which they have used, and who could possibly help Sharon? If so, please write to her at: srowe@ruraltel.net

Sharon is also seeking to purchase a Mattioda frequency instrument, so if you have one that is in good running order, please let her know.

4. Seeking Help on Operating the Gallimore RAU #2 Radionics Instrument

USPA member, Paul Johnston from Australia needs help to get his Gallimore RAU #2 radionics instrument working (pictured below). In a recent email to USPA, Paul wrote: **“The equipment I have is Gallimore's RAU #2. I'm a bit confused by the dials. Most of the radionics gear I have looked at have up to eight dials which all start at zero and go up to 10. On the gear the first dial goes from zero to 100, so I'm not sure about how to set rates here. I have Gallimores "Volume 2 of Handbook of Unusual Energies", which lists the rates, but I'm not sure how to set them on this machine. The instructions that come with it claim that two rates can be used at once with this gear. It has a top bank and a bottom bank of dials (16 in total) with a switch to flick from one to the other so I'm trying to work out how it all goes together. If any of your members can help with this it would be much appreciated.”** If you can help Paul in any way, please contact him at: paulbjohnston61@gmail.com

5. Seeking Information from Users of the IMRS 2000 PEMF System

USPA member Robert Conway is seeking information from users of the IMRS 2000 Pulsed Electromagnetic Field (PEMF) system. He is aware of the IMRS 2000 website, where the various IMRS devices and systems are described in great detail. However, Bob would like to hear from people who have actually used these devices, especially the IMRS 2000 Professional Set. If you have any experience with these devices, please write to Bob directly at: bob10841@gmail.com

- 6. Italian Translator Needed for Book by Dotto Ring Inventor:** The Dotto Ring was a medical device invented by Dr. Gianni Dotto in the 1970's, and is said to have been used to successfully treat a number of diseases, including cancer. The device was also said to have the ability to slow or reverse aging in mammals. At that time, Dr. Dotto, wrote a 37 page book in Italian, that described how the machine was built, operated, and was able to achieve these remarkable results. However, there are no known English translations of this extremely rare book, which a member of the USPA has a copy of. Is there anyone who speaks Italian fluently who would be willing to translate this short book into English? If so, please contact, John H. Reed, M.D. at joreed43@gmail.com

- 7. Trevor James Constable Book or Manuscript about Ruth Drown Wanted:** Does anyone happen to know about, or possess, a book or manuscript about Ruth Drown that was written by Trevor James Constable? It is not certain if this book

was ever published, so it may be only in manuscript form. It is well known that Constable wrote a chapter about Ruth Drown in his book, *The Cosmic Pulse of Life*. However, there is a report that he also wrote an entire book about Drown. If that book exists, it is not known to be in a library in the United States, Canada, or Europe.

8. **Neurophone Devices Wanted:** Does anyone have any old neurophones that they would be willing to sell, rent, or lend for research and application purposes? The neurophone was originally invented by G. Patrick Flanagan in the 1950's, and enabled people who were completely deaf to hear. This non-invasive device was somehow able to bypass the auditory nerve, and interact directly with the auditory region of the brain, allowing a deaf person to hear. This device is needed to treat a patient of a colleague of John H. Reed, M.D. Please write him at: joreed43@gmail.com if you have such a device or know someone who does.
9. **Seeking Radionics Practitioner in Ohio:** Rebecca Cotterman is looking for a radionics practitioner in Ohio. If you are a practitioner in Ohio, or know one in Ohio, please contact Rebecca at: cotterman@hotmail.com
10. **Does anyone know anything about a man named William Lehr (1933-1996), who lived in Scammon, Kansas, and who developed several energy and healing devices, and made a reproduction of the T. Henry Moray energy device?** In addition, Lehr is said to have created a high-powered spark-gap device for healing purposes that cured a man who had been sent home to die, as well as, a huge bibliography of articles and books dealing with new energy sources and energy medicine and treatment.
11. **Does anyone know the whereabouts and/or contact information of Dr. Robert N. Miller?** At the 1978 USPA Conference, Dr. Miller gave a presentation with Pierre Paul Sauvin titled "Methods of Detecting and Measuring Healing Energies." That was the only time that Dr. Miller ever spoke at a USPA conference, and we would like to follow up with him on any research he has done since that time.
12. **We have been recently informed that one of the radionics devices that Jerry Gallimore invented in the 1970's or 1980's used a GSR meter in place of a stick plate.** Does anyone happen to have or know anything about this particular device? Such a device would be very significant, because if there is such a radionics device that can be successfully used without a stick plate, which depends on the sensitivities and subjectivity of the user, it would enable nearly anyone to use that radionics device.

One of the problems that beginners in radionics often have is the detection of the “stick”, on the stick plate, and some people are never able to develop this ability.

13. **Do any of you know anyone who has ever owned, used, or did research on the Dotto Ring?** This was an electrotherapy treatment device, pictured at left, developed

by Dr. Gianni Dotto back in the 1970's and is said to have been used successfully to treat cancer and other diseases in humans and animals. In addition, the Dotto Ring was also said to be able to slow down the aging process and even rejuvenate individuals to some degree.

14. **Does anyone have video tapes of the presentations that Andrija Puharich made at the 1982 US Psychotronics Association Conference?** The title of Dr. Puharich's first presentation was: “Chemical Compounds: Receptors of Artificial ELF”, and was sold for a period of time on the USPA website with this title and catalog number F6.

The second presentation that Dr. Puharich made at the 1982 USPA Conference was the Keynote Address at the Awards banquet. The Title of this presentation was “Kindling + 1” and had catalog number F7. If anyone has either or both of these tapes, please contact the editor, John Reed at: joreed43@gmail.com.

Among the Missing, (and Updates): A Column about Missing People, Organizations, Periodicals, Books, Artifacts, and Collections in the Psychotronics Field

by John H. Reed, M.D

This is a new “column” or section of the USPA Newsletter, and will be an ongoing part of every issue, with the purpose of helping the USPA, as well as, our members and research associates locate people, organizations, periodicals, books, artifacts, devices, collections, and other items that have seemingly disappeared, or have been extremely difficult to find. **Updates will be added, and each missing item will be retained in future issues until it is found or otherwise resolved, since some readers may not have seen prior issues of the USPA Newsletter or the original notice of the missing item.**

In addition, this will also serve as a “People Locator Service” to help find authors and researchers on psychotronics, radionics, subtle energies, energy medicine, and related subjects, who have “disappeared” or have died long ago, and whose relatives you may be trying to find in order to preserve the research papers and collection of that person.

In our research and reading, we all have encountered people, organizations, periodicals, books, articles, or other things that we have tried to find, and some people have searched for years to find something, but have not yet found it, despite the vast resources of the Internet. However, with our large USPA membership, we can all help one another find what we have been searching for. Some of you may have experience in genealogical research, or private investigation, law enforcement, or even intelligence work which you could utilize to help each other, or perhaps just make suggestions on how or where to search for something.

So if there is anything you have been searching for and need help to find, please write to me, John H. Reed, M.D. at: joreed43@gmail.com, and I will include your search help request in the next and subsequent issues of the USPA Newsletter. And if you have any information about an item that is listed in “Among the Missing”, please write to the same email address and share what you know or your suggestions. If there is something that is confidential, your confidentiality request will be honored and protected.

Where Are the Missing DeLaWarr Camera Plates?

As is well known, George DeLaWarr, founder of the DeLaWarr Laboratories in Oxford, England, invented a type of radionic camera that could make diagnostic images of internal organs and other anatomical structures that were said to be as good, or better than x-rays.

DeLaWarr patented this device (below) in the 1950s, and over the years until his death in 1969, produced thousands of images on plates of glass and other materials which would show the images. It has been claimed that as many as 12,000 image plates were produced by DeLaWarr and others.

However, these image plates have disappeared, and the whereabouts of even a single image plate is unknown. After the DeLaWarr Laboratories closed in the 1980s, it is said that several thousand plates had been purchased by an American. But based on an investigation in 2017 in England by Daniel Daylor and John H. Reed, it was determined that those plates were never picked up in England nor sent to the US. In addition, no image plates were found at the location where the DeLaWarr Laboratories once operated.

If anyone has any information on where these DeLaWarr Camera image plates are or might be located, please write to the editor, John H. Reed, M.D. at: joreed43@gmail.com

Missing Person: Willard Frank , also known as Bill Lawson

We are trying to find any relatives or other people who personally knew Willard Frank, also known as Bill Lawson, who was the developer of the radionics device called the Digitron. This device, a photo of which appears at left, was invented by Willard Frank in the early 1980's, and is reported to be the forerunner of the SE-5, which Don Paris has developed into one of the finest radionics devices in the world.

Willard Frank is reported to have died in 2009, and there is some question as to whether his real name was Willard Frank or Bill Lawson. If any reader knew Willard Frank, or where he lived, or any of his relatives, please contact the editor, John Reed at: joreed43@gmail.com.

The USPA would also like to obtain one of the Digitron devices for the USPA Museum. If anyone has a Digitron (or knows someone who does) and would like to donate it to the USPA or sell it for a reasonable price, please contact the editor.

Missing Inventions: The Missing Invention of Arthur H. Matthews to Control Insect Pests, Microbes, and Diseases at a Distance

Where are the patent and invention by Arthur H. Matthews, a Canadian, who in his own words stated "This refers to my invention of selective control – at a distance – with no physical contact – to control any form of germ – any sickness – all kinds of insect[s] which cause damage to forest, garden and human[s]." Those words appeared in Matthews' own hand writing at the bottom of a reproduced letter on Appendix page A-10 of his book, *The Wall of Light*, which he published in 1971. But the

big mystery is that the Canadian Patent Office database of patents does not show this invention or any other invention by Arthur H. Matthews.

Interestingly, correspondence of the Canadian Commissioner of Patents shows the title of the invention as “ Methods for the Control of Insect Pests” and the patent **application** number of: 510,626, but not the number of the patent, if it was ever granted. So the question arises: What happened to this wonderful invention by Mr. Matthews, and why does the Canadian Patent database have no record of this device whatsoever in its database of patents?

Further details on this mystery are available in an article titled, “Among the Missing” Special: The Missing Invention of Arthur H. Matthews to Control Insect Pests, Microbes, and Diseases at a Distance” in the [February, 2018, issue of the USPA Journal and Newsletter, pages 24-27, available here.](#)

If anyone has any information about this invention by Arthur H. Matthews, please write to the USPA editor, John H. Reed, M.D. at: joreed43@gmail.com.

Missing Device: Marcel Vogel’s Omega- 1 Radionics Instrument

In a 1987 meeting presentation, [YouTube Video, available here, beginning about 4:20](#), Marcel Vogel states that he had been trying to find a way by which he could measure the subtle energies and fields in the crystals he was working with, and that he prayed to God to give him an instrument to make such measurements. Marcel says that about two months later, a man named Daniel Perkins, apparently guided by higher forces to build such an instrument, came to Marcel’s door and said, “Here is your instrument, the Omega-1. You will know how to use it,” and walked away. **But where is that particular Omega-1, and were any other Omega-1 instruments built?** It is known that other Omega models of radionics instruments were produced, especially Omega-5 instruments, but it is not known if the company that built them still exists. **In addition, does anyone know who Daniel Perkins is, and where he is located?** Anyone who can shed light on this mystery, please write to the editor at: joreed43@gmail.com.

Missing Psychotronics Device:

The AGRAD Machine: In the 1970’s Mankind Research Unlimited, Inc.(MRU), headed by Dr. Carl Schleicher, was offering for sale a device called the AGRAD Machine. It was intended to be used in the electromagnetic treatment of crops and the control of insect populations, and sold for \$390.00. MRU claimed that AGRAD machines had been used for several years by MRU researchers to conduct experimental applications of the type described in **The Secret Life of Plants** by Christopher Bird and Peter Tompkins, and **Report on Radionics** by Edward W. Russell. Theoretically, the AGRAD machine was intended to produce effects through electromagnetic wavefronts that would interact with and control insects by disturbing the insect sensor mechanisms. A photo of the device and additional information appeared in one of MRU’s publications [which you can access here](#). If you have any information about this device, please contact John H. Reed, at joreed43@gmail.com

The Physics of the “Other Side”, Part 2

by Robert E. Beutlich

(Editor’s Note: This is the second part of a two-part series of lectures delivered by the author at the 2002 and 2003 US Psychotronics Association (USPA) Conferences. The first part was delivered at the 2002 USPA Conference, was titled, “The Physics of Alice’s Looking Glass”, and was published in the [November, 2016, issue of the USPA journal and Newsletter, which can be accessed, here.](#) The lecture below was delivered at the 2003 USPA Conference.)

To briefly review last year’s presentation, “The Physics of Alice’s Looking Glass”, I covered the four worlds of creation ala the Kabbalah and Dewey Larson’s theorem of ‘Reciprocity’, which explains in detail the dimensional time and scalar space of the ‘Other Side’. The velocities of the ‘Other Side’ [are explained] in terms of multiples of the velocity of light of 1C, 3C, 9C and 27C. And also described are the ‘In Between Worlds’ velocities as 2.5C, 7.5C and 22.5C.

Now we shall examine some of the experiential events that lead me to the previous conclusions.

It all began in the fifties when my father, who was then in charge of all construction projects for the Chicago Park District showed me dowsing which he had learned from a bulldozer/trencher operator while building the new South Branch of the Outer Drive along the Lake Michigan Shoreline.

In the seventies, I became heavily involved with the ‘New Age’ movement after reading “Psychic Discoveries Behind the Iron Curtain” and “Secret Life of Plants”, becoming a ‘weekend junkie’ to all the ‘New Age’ groups that had sprung up. But being an engineering type myself, I wanted to know how all this ‘strange stuff’ occurred, and what was this strange energy behind all of this phenomena. That is when J.G. Gallimore stepped in with the ‘First US Radionics Congress’ in Indianapolis, 1975. Oh Boy - what an eye-opener! We meet the following year, 1976, in Washington, DC, and formed the U.S. Psychotronics Association.

It was there I meet one of the speakers, Dr. Dan Fry, a physicist who had worked at the White Sands Proving Grounds on the hydrogen bomb. He told me a story, one Saturday night, that he missed the last bus going into town (where all the ‘boys’ could get a drink and have some ‘fun’) so he took a stroll through the desert. Where upon, he became a contactee of the third kind, and was invited aboard a UFO. He seemed to acquire a great deal more ‘knowledge’, and he then developed a mechanism for “reading ones thoughts”.

In an electromagnetic shielding screen booth, he placed a bunch of coils in a headband helmet, and placed it on his skull. Observing the trace on the oscilloscope, he could not 'lock it in', and it jittered so much he could not read the patterns of the various emotions he was trying to analyze. He then took a sample of the signal and applied it to a frequency generator, the output of which he used for the horizontal sweep on the scope, which stabilized the signal. He could then read the patterns of love, anger, hate, truth statements, and lies, which he created in his mind. Incidentally, he did all this work alone, on his own time, at night, but used the facilities there at the base. The signals were PULSED SPIKES, AT BRAIN FREQUENCY RATES, WITH A DECAYING RAMP OF FM FREQUENCIES!.

Now this fits exactly into my theorem of the velocities of the four kabbalistic worlds: a pulsed or spike wave is created by odd harmonics, hence the 1-3-9-27C, all odd harmonics. I derived this in 1978 from Keely's work, factoring the frequencies and expanding the pattern given in the back of Mrs. Bloomfield Moore's book, "Keely and His Discoveries", page 360-361. The derivation was first published in Theosophy Science, Adyar, India, 1978.

We now come to the second man that I've meet who was aboard a UFO, Arthur Matthews of Lake Beauport, Que. Canada. In 1975, I had seen the pattern in Gallimore's book, 'Handbook of Unusual Energies', page 341, and the Odic Periodic Table. Above first row of elements, 1 to 8, there were numbers which indicated there were 128, but his table only went to 96. Also there was a notation " Notice Each Polarity (E) Jumps two places in next line down." Not Planned, while analyzing the table, I found the pattern, and completed his table to all 128 Odic periodic elements, and presented that at first [US Radionics Congress] meeting in 1975.

Prior to that, I had shown the table to a friend with whom I had been doing some joint research on the Hendershot Generator. She was the musician, and sometimes psychic, Margo Butgereit. While describing the print of the 128 Odic Periodic Table on her dining room table one evening, she turned and talked to someone else in the room. But there was no one else there! As I turned to the NE corner of the room to see to whom she was talking, the conversation ceased. I could only hear her side of the conversation. I asked, who/what was that? Nonchalantly, she said, "Oh, that was Tesla, and he [Tesla] said, 'That's Right, and there is more in this book'". What book? – She [Margo] described a blue leather book with gold lettering on the cover that was shown to her. But, who was it? She said "Oh that's Tesla, I see him now and then. He's from Venus, and I think sometimes my twin is also there on Venus." (Incidentally, a few years later she experienced 'transfiguration' in which she described a column of light descending upon her, making her 'all aglow' and she passed over shortly afterwards). Querying her further, she had no idea who Tesla had been here on earth, or that he was the creator of our A.C. electrical power system that accelerated the phenomenal growth of the past century.

Switching back to Matthews, I had gotten his book, The Wall of Light, from Health Research, [located in Mokelumne Hill, California] and it described Tesla's arrival on Earth via a Venusian UFO and being deposited with Earth parents. This tied in directly with what Margo had told me! In that book he intimated many other secrets of Tesla, and he had painted 26 pictures that revealed Tesla's secrets. I obtained a slide set of them, but not the notes that went with them. Matthews had given the paintings and notes to the Canadian Government)

I visited Arthur Matthews many times on my way to the Dowzers conference [in Danville, Vermont], going through Canada, stopping in the Quebec City area to see Matthews, and then going on down to Danville. Showing him the 128 element Odic Periodic Table and telling him the story of Margo Butgereit, I asked Matthews about the 'blue book'. He replied that the only blue book Tesla had was a blue leather covered bible with embossed gold letters!

Many famous men had come to visit Matthews and 'check him out', including Andrija Puharich, Christopher Bird, and others. Puharich had purchased a typewriter from Matthews which he said had been given to him by Tesla. Andrija, checked out the up/down/spacing pattern of the typewriter letters with the documents in Tesla Museum, and they were identical! Regrettably it was lost in an arson fire set at Puharich's mansion in NY.

Arthur told me his uncle was in the Royal Academy in London, and as a young boy of eight [Arthur] had met Tesla there one day. Arthur moved to Canada and became an electrical engineer for the Canadian railway system. Here again he met Tesla in the late thirties, helping him disassemble generators at the end of a railway line in northern Quebec, and which were then back-packed to a waterfall site and re-assembled.

Arthur would not reveal any of Tesla's secrets. Should you ask, "It's all in the Bible", he would say. But Arthur would confirm any concepts you had, saying yes that's true. Thus I found that my work on the velocities of the four worlds was correct, and "it's in the Bible" - Revelations, Chap. 4.3, stones of Jasper, Sardine and Emerald.

This further confirmed my work in "The Ring that Sings" where I found the fundamental rays on the nine gem stone, Navaratna Ring from India. These turned into angles, which in turn became musical notes. (The song it played was from a melody a boyhood chum had written three years prior!)

Now, William Tiller describes group phase velocity, faster than ordinary signals in crystals. Crystals are super-conductors for not only the Etheric, but also at Astral and Mind levels. Hence, Aaron's breastplate was a communication device to the 'above'. The 12 foundation stones in Revelations are the resonant structures that empower the creation processes. Look back on my papers and you will see a path. (not consciously deliberate).

Arthur also described the X-12 space craft that landed on his property, NE of Quebec City, and he went aboard - the second man I've personally known to be aboard a UFO. Another fascinating portion of Matthews' story, is that he became deathly ill and 'died' in the hospital, but somehow recovered, and came back a 'different man'. Both Ken Killick and I believe that the 'different personality' that came back in Arthur Matthew's body was in fact Nicola Tesla!

Here I introduce you to the third person I've known to have been aboard a UFO craft, Ken Killick, whom I meet through Mary Hardy. When Ken was 12 years old in England, he was picked up by space craft, and his life was forever changed. He had knowledge well beyond his education, became an Episcopal priest, and at one point, ran some very sophisticated programs growing crystals commercially. Killick worked extensively with the Hardy's on their pyramids and healing circles and on a joint book.

After Arthur's death, Ken and I both came to the conclusion that when Matthews 'died' and a different man came home, that man was a walk-in - Nicolai Tesla. Arthur's main function was apparently to maintain the "Tesla Mystique". (Incidentally, Arthur asked for permission to forward my 128 Odic Periodic Table to the Canadian Government in exchange for his written notes on the 26 paintings that revealed Tesla's secrets. But it turned out to be a one way street, they never sent back his notes to me.)

Importantly— the mathematics to describe FM and Phase modulation are Bessel functions , these were used by Whittaker to describe conversion of transverse electric fields to longitudinal scalar waves and visa versa. (see Tom Bearden's volumes of papers presented at USPA) "All information between worlds, is transmitted via pulsed, phase modulation, longitudinal scalar electromagnetics"

The History and Development of Radionics, Part 2

By The Radionist

This is the first of a nine part series of articles that gives a good portrayal of the history and development of radionics from its inception with Dr. Albert Abrams in the early 1900s, up to the 1960s, when the articles were published. It is uncertain who the author is, but he or she clearly has extensive knowledge of this subject. If anyone knows the identity of “The Radionist”, please write the editor John H. We live in an age of unprecedented flourishing of technology in medicine. So why are we experiencing such epidemic levels of pain, disease, emotional and mental stress, and just plain old poor health—and often at such uncommonly young ages? Searching to answer these questions, we turn to every possible medical specialty and lifestyle cause, looking for clues.

After guiding thousands of patients on their journeys back to health, Dr. Linda Lancaster has discovered that it is the interplay of invisible forces such as chemicals, heavy metals, radiation, and opportunistic parasites--the “Five Culprits”--worms, fungus, bacteria, micro-parasites, and viruses, that are the cause of many of the health struggles we experience today. This fundamental dynamic is the origin of most of the symptoms she has seen, including chronic exhaustion, digestive distress, painful joints, infertility, eczema, and mysterious conditions like Lyme Syndrome. If you have experienced any of these symptoms, you know how the physical experience affects your emotional wellbeing. But it doesn't have to be that way. You can begin to take your life back with *Harmonic Healing*.

In this six-week foundational program, you will learn how to cleanse your liver, neutralize environmental pollution, revitalize your energy and return to a balanced state of health, using solely nontoxic, inexpensive, and natural protocols. With nourishing recipes, therapeutic baths, and gentle homeopathic and household remedies, *Harmonic Healing* helps clear the path for your journey back to health and well-being.

– **Marina Abramovic**, performance artist and author of *Walk Through Walls: A Memoir*

"The knowledge in this book paves the way to a new and healthy future for all of us. Part one is nothing less than a state-of-the union address regarding the 'true causes of chronic illness,' which sets it aside from other books currently on the market. Part two could be easily misunderstood as yet another diet or cookbook. However, it transcends all the current—often misguided—diet fads, and the current, rather confused science of nutrition. Instead, Dr. Lancaster reveals simple, affordable, and effective treatment methods, and recipes that are prescriptions for gaining and sustaining true health. I have worked with Dr. Linda for thirty years and respect her as one of the greatest talents in the world of healing of our time."

USPA Psychotronics Periodicals Library

In order to do good psychotronics research of any kind, whether it involves radionics, radiesthesia, psionic medicine, dowsing, subtle energies, biophotons, or any other subject covered by psychotronics, one needs access to as much of the periodical literature as possible on these subjects.

To address this issue, the United States Psychotronics Association has resolved to identify, acquire, and digitize copies of every psychotronics related periodical that has ever been published anywhere in the world, and to retain copies in the USPA Library.

As a first step, we have developed an [online list of psychotronics related periodicals \(click here\)](#) that focus on or frequently have articles on the psychotronics subjects noted above. This is a growing list, since we know there are probably other psychotronics periodicals that have been published, but that we do not yet know about.

Please look over the online list and check your own personal physical libraries and your computer files, thumb discs, and other external hard drives to see if you have any issues of the periodicals on this list. Even if you just have one issue, please let us know, because that may be the one we need to complete all the issues of a particular periodical. **Please write to me (John Reed) at: joreed43@gmail.com, since I am the USPA librarian and archivist coordinating this effort,**and tell me what periodicals you have.

As a whole, the members of USPA and other interested non-members, have a huge “library” of periodicals, but it just happens to be “distributed” among these people at this point in time. However, we can work together, and if you would be willing to loan, donate, xerox, or as a last resort, sell copies of your periodicals to the USPA Library, then we will be able to build a large centralized library of all psychotronics periodicals. And all USPA members will then be able to use these periodicals in their research or for their reading enjoyment.

USPA Local Groups and Affiliates Update

As mentioned in the May, 2016, USPA Newsletter, one of our goals is to reactivate all of the former 24 USPA Chapters that once existed across the US and Mexico. In addition, we plan to establish new local groups of people interested in psychotronics and related subjects in other major cities in the US and other countries as well. All such local groups and affiliates will be independent, but will work together with the USPA in a mutually beneficial relationship to achieve our goals of advancing research and applications in psychotronics, radionics, subtle energy, and related fields.

So I would like to invite all of former USPA Chapters leaders and members to contact me (John Reed) at: joreed43@gmail.com and let me know if you would like to help reactivate your local chapter. In addition, if you are a leader or member of a psychotronics or related organization which was never a chapter of USPA, and we would welcome you as a USPA affiliated organization as well.

We will be establishing a USPA affiliated groups as traditional organizations and also via the Meetup.com online group platform. This will enable current and former members to more easily have local get-togethers, meetings, and other activities, and those activities, times, and other details can be posted online. So please let me know if you would like to be the leader of a group in your area.

If you do decide to use Meetup.com to establish your local group, you could do it quickly and easily by going to www.meetup.com , and clicking on the big red word “**Start**” in the upper left, and then just following the step-by-step procedures.

You can give your local group any name you want, but it should probably have a name that relates to psychotronics in some way. And if you need any help, please let me know, and I will help you in any way I can. Perhaps the most important thing is enthusiasm and determination, so write to me, even if you don’t know any other USPA members in your area, and I will help you set up a local group: joreed43@gmail.com

Exchange Corner and Advertisements

The "Exchange Corner", is a place where people can advertise to buy, exchange, or sell items of interest, or request information or other help in relation to something wanted. So if there is anything you want to buy, sell or trade that has to do with psychotronics, radionics, subtle energy, or related subjects, please contacted the Classified Ads manager at: joreed43@gmail.com. Advertisements are free of charge to USPA member within certain limits, but non-members will be charged for any classified or display ads. So please send your ads and wanted requests to: joreed43@gmail.com.

Wanted: Any articles, periodicals, books, devices, or other materials on psychotronic related subjects that you can donate or lend to the USPA for its library, archives, and museum. **The USPA is a nonprofit, 501(c)(3), tax exempt organization, and as such, you are able to make tax deductible donations to the USPA. Please email the USPA at: joreed43@gmail.com to make shipping arrangements. Thank you for your generosity.**

Bruce Copen MARS III for Sale

I am a current USPA member and have a **Bruce Copen MARS III** for sale. The system is about 7 or 8 years old and in original, excellent condition. Sale includes original SCOPE analysis, database and broadcast software, HP laptop, comprehensive training manual and program disc, interconnects and boxes. I have always run it on XP with no issues; everything original as supplied by Copen.

All operations can be automated and multiple broadcasts can be run simultaneously, although Copen saw to develop this device so it could be used in many radionic styles and without computer control. The price is \$8500 USD roughly half the original cost. I prefer to not ship to a destination outside the USA. A limited amount of training by me, as I understand it, is available to a confirmed purchaser, as time and distance reasonably permit. What Research and Subjects Does Psychotronics Cover?

The United States Psychotronics Association defines psychotronics as the science of mind-body-environment relationships, an interdisciplinary science concerned with the interactions of matter, energy, and consciousness. Psychotronics involves the study, research, and applications of the physics and technology of the mind, brain, spirit, consciousness, and the underlying forces of life and nature – hence the term “psychotronics”.

We believe that a true understanding of the universe must include the spiritual, as well as, the technical, and provide an opportunity for amateur researchers to present their findings along with the professionals. We stress research, with documentation of results, and practical applications, rather than personal experience and unsupported hypotheses.

Some Prominent People in the history of psychotronics research and application: Albert Abrams, Thomas Bearden, Robert C. Beck, Robert O. Becker, Jacques Benveniste, David Bohm, Harold Saxon Burr, George W. Crile, Ruth Drown, T. Galen Hieronymus, Vlail P. Kaznacheyev, Georges Lakhovsky, Wilhelm Reich, Royal R. Rife, Rupert Sheldrake, Nikola Tesla, Marcel Vogel, and others.

Some of the forces, fields, waves, and energies studied and researched in psychotronics include: bioelectromagnetism, biophotons, biopotentials, electromagnetic wave pollution and harmful effects; coherent emanations of DNA, emanations of matter, “free energy”, morphogenetic fields, non-hertzian waves, orgone energy, pyramid energy and power, qi (chi), quantum fields, scalar waves, subtle energies, ultra-weak radiation of living matter, zero-point energy, and others.

Some of the phenomena believed to be produced or involved with the above fields and energies: action-at-a-distance, the aura of the body and other living things, bioinformation, bioluminescence, chakras, consciousness, distant intercellular interactions, meridians of the body, mind-body interactions, non-locality, the placebo effect, quantum consciousness, spontaneous remission of cancer and other diseases, water memory, water structure, and others.

Related fields of study and research covering the above forces, energies, and phenomena of psychotronics: bioelectromagnetics, bioenergetics, biophotonics, biophysics, psionics, psychoenergetics, psychoneuroimmunology, quantum biology, radionics, scalar electromagnetics, and others.

Some practices, techniques, and applications related to psychotronics include: acupuncture, biogeometry, brain entrainment, clairvoyance, dowsing, energy healing and medicine, extrasensory perception, feng shui, homeopathy, kirlian photography, magnetic therapy, pendulum use and methods, prayer effects, psionic medicine, psychic healing, psychometry, qigong, radiesthesia, radionics, remote viewing, shamanism, sound and sonic healing, telekinesis, telepathy, and others.

J.G. Gallimore's Five Rare Books Now Available for Sale

All five of J.G. Gallimore's rare books on psychotronics subjects and unusual energies have been reprinted by the United States Psychotronics Association (USPA) and are being made available at a fraction of the cost that used copies were being sold at online. So rare have these books been, that only a few libraries in the entire world had them in their collections, and some of Gallimore's books were being sold for several hundred dollars each online. However, with these newly reprinted volumes, each will be available for less than \$30.00. Each of Gallimore's books is described below with links to Amazon.com.

Jerry G. Gallimore was one of the founders of the USPA in 1975, and was a leading researcher in psychotronics and unusual energies until his untimely death in 1989.

This is J.G. Gallimore's first book of three volumes on unusual energies, and at 468 pages, it is a magnificent work. In this book, Gallimore discusses in depth the research, discoveries, and

inventions of all the major researchers in subtle energies, the aether, biological

fields, pyramid energy, radiesthesia, radionics, crystal transduction, and related subjects. These include the works of Baron Von Reichenbach's and his odic energy, Dr. Wilhelm Reich's orgone energy, Dr. Harold Burr's biological life fields, Kozyrev's time mirror, Edgar Cayce's transmission of energy, and related research done by many others. Of particular importance is Gallimore's 127 page chapter on radionics. In this chapter he discusses in depth the research and devices of Ruth Drown, T. Galen Hieronymus, Rho Sigma, Dr. L. P. Corte and other prominent people in the radionics field. But in addition, Gallimore provided diagrams showing how such devices are made and how they actually work.

Callimore published. It covers Gallimore's research on Albert Abrams, the founder of modern radionics, psychological physics, psychic energy, thought resonance, subtle energies, crystals, and related subjects. In addition, a number of radionics devices are discussed, such as the De La Warr Diagnostic Instrument. And very helpfully, the rates are provided for substances, body organs, and medical diseases and disorders. A very interesting interview of Christopher Bird, conducted by J.G. Gallimore is provided, as well as a discussion of Walter Russell and his research.

Relationship Between Parapsychology and Gravity: Volume 3 of Handbook of Unusual Energies

[Available at Amazon.com](https://www.amazon.com/dp/1543024947)

The Relationship Between Parapsychology and Gravity is Volume 3 of J.G. Gallimore's series of three handbooks of unusual energies. This book describes in depth the research and theories of J.G. Gallimore into the question of "parapsychology transmission" --the question of how such things as telepathy, remote viewing, ESP, and similar phenomena can physically occur. Gallimore discusses various explanation on how they occur, including the possibility that gravity waves may play a role. He also discusses the various emanations, radiations, and energy fields of all matter and life. This includes the ancient Chinese energy called "chi" (qi), the ancient Indian's prana energy, Reichenback's "odhic force", Gurwitsch's "mitogenic radiation", Wilhelm Reich's orgone energy, and other subtle energies of life and matter. Gallimore shows how all of these energies are the same or similar, how they interact, and how they are related to gravity. He also discusses crystals as transducers of these energies, and provides diagrams of devices that could potentially be used to harness or control these energies.

Transverse Paraphysics: The New Science of Space, Time, and Gravity Control

Publishing Platform (March 21, 2017)

Language: English

ISBN-10: 1543024920

inches

[Available at Amazon.com](https://www.amazon.com/dp/1543024920)

This book covers the visionary research and theories developed by J.G. Gallimore about anti-gravity, space, time, and biophysics. He discusses in depth the dimensions of space, time, and gravity, and new discoveries in each of these areas. In addition, he covers research being done on anti-gravity and then discusses anti-gravity patents that have been obtained. He also discusses the intriguing concept of aura energy fields surrounding humans and other living things, and how extra-sensory perception (ESP) might be explained through biophysical principles.

Unified Field Theory Research Book: Using Subjective Response to Psi-Plasma for Analysis of Properties Neutral Charge Plasma Fields

by J.G. Gallimore

Paperback: 134 pages

Publisher: CreateSpace Independent Publishing Platform (March 21, 2017)

Product Dimensions: 8.5 x 0.3 x 11 inches

[Available from Amazon.com](https://www.amazon.com/dp/1543024831)

This book is about psychotronics, radionics, electromagnetic fields and waves, psi-plasma, plasma fields, subtle energies, bioelectromagnetic energy, and other unusual energies emitted by living and non-living things. It also is about how living things interact with and are affected by these energies, which may enhance health or harm health. The book covers the research of Wilhem Reich on orgone energy, of Baron Reichenback on the odic forces, as well as research done by Cazzamalli on brain radiations and Lakhovsky on using high frequency radiations to successfully treat cancer in humans. In addition, Lakhovsky used similar methods to enhance the growth of plants. Gallimore shows how these energies, forces, and fields are all inter-related and provides hypotheses and ideas on their possible unification.
