Section I - The Basics

What is USPA?

The United States Psychotronics Association (USPA) is a nonprofit 501(c)(3) organization founded in 1975 to serve as a focal point for scientific and technical exploration of the universe of esoteric, spiritual, and psychic arts in the United States of America.

The USPA has been hosting annual conferences for its membership since its formation and has featured countless individuals with cutting-edge viewpoints, research, or theories to share, allowing any interested persons to openly discuss their work.

What is Psychotronics?

USPA defines psychotronics as the science of mind-body-environment relationships, an interdisciplinary science concerned with the interactions of matter, energy, and consciousness.

Psychotronics involves the study, research, and applications of the physics and technology of the mind, brain, spirit, consciousness, and the underlying forces of life and nature – hence the term “psychotronics”.

We believe that a true understanding of the universe must include the spiritual, as well as, the technical, and provide an opportunity for amateur researchers to present their findings along with the professionals.

We stress research, with documentation of results, and practical applications, rather than personal experience and unsupported hypotheses.

Section II - What's New at USPA?

The Next in our Series of Master Classes: Marcel Vogel!

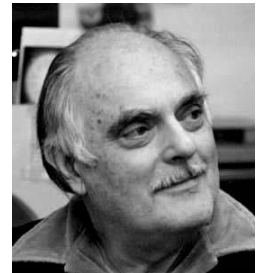

Here is the link to sign up: [JOIN THE MASTER CLASS](#)

USPA Masterclass: Marcel Vogel - Psychoenergetics Experiments

Marcel Vogel was a research scientist for IBM's San Jose facility for 27 years. He received over 100 patents for his inventions during this time. He was World-Renown IBM senior scientist and devoted psychotronics scientist and frequent presenter at USPA

Marcel Vogel's areas of expertise were phosphor technology, liquid crystal systems, luminescence, and magnetics. In the 1970's Marcel did pioneer work in man-plant communication experiments. This led him to the study of quartz crystals and the creation of a faceted crystal. Marcel's research into the therapeutic application of quartz crystals led him to the investigation of the relationship between crystals and water.

He discovered that he could structure water by spinning it around a tuned crystal, altering many of the characteristics of the water and converting it into an information storage system.

Section III: In case you missed it ☺

November's Master Class: “An Interview with Nick Franks” is still available! ☺

It was hosted by Michael Leger and is still available in the “Members Only” page on our website.

Intro by Michael Leger: In my interview with Nick Franks, we discussed Radionics in the UK from the late 60s to the present. Bruce Copen, Chris Dennison, Malcolm Rae and the instruments they developed – Copen, Energy Transmitter, and MGA respectively – were the focus. We discussed the development within this group of movement beyond rates, culminating in Nick's development of his instruments and cards.

Section IV: This Month's Featured "Psychotronic" Person

Dr. Elizabeth Rauscher PhD (1937-2019)

[Note from the editor: Someone once said, if they had to describe Elizabeth Rauscher in one word, they'd say "Remarkable." I'd also like to add, "Unforgettable." Of the many scientists and theorists I've met in my years with USPA, Rauscher was one of few I remembered forever after my first introduction. When doing this article, just reading about her career made me think back to our first meeting and the absolute energy that exuded from her. She embraced life, learning and friends with a vigor rarely matched. I will miss her.]

Good old Wikipedia says she "was an American physicist and parapsychologist...

She was a former researcher with the Lawrence Berkeley National Laboratory, Lawrence Livermore National Laboratory, the Stanford Research Institute, and NASA.^[2]

In 1975 Rauscher co-founded the Berkeley Fundamental Physics Group, an informal group of physicists who met weekly to discuss quantum mysticism and the philosophy of quantum physics.

David Kaiser argued in his book, *How the Hippies Saved Physics* that this group helped to nurture ideas which were unpopular at the time within the physics community, but which later, in part, formed the basis of quantum information science.^[3]

Kaiser wrote that Rauscher had always been interested in science, and as a child had designed and built her own telescopes. Raised near Berkeley, she started hanging around the Lawrence Berkeley Laboratory when she was in high school. She enrolled at Berkeley for her first degree, and *published her first article, on nuclear fusion, while still an undergraduate!* (editor's italics)

Kaiser wrote that she was the only woman in her class; at that time women in America earned only five and two percent of physics undergraduate degrees and PhDs respectively... that she coped with it by wearing tweedy dresses and keeping her hair short, though she experienced some intimidation. She obtained her masters in nuclear physics in 1965.^[4] From 1975 to 1978, she was a researcher at the Stanford Research Institute's Radio Physics Laboratory.^[5]

She married and had a son, and when she became their sole provider took a job as a staff scientist at the Lawrence Livermore National Laboratory. When her son was old enough, she returned to Berkeley to begin her PhD under Glenn Seaborg, the nuclear chemist. She continued by working at Lawrence Berkeley National Laboratory (LBNL) and additionally started and chaired the Livermore Philosophy Group, offering classes on the relationship between science and society at Berkeley, and later at the Stanford Linear Accelerator Center.^[4] She completed her PhD in 1978 on "Coupled Channel Alpha Decay Theory for Even and Odd-Mass Light and Heavy Nuclei."^[6]

She later held positions as professor of physics and general science at John F. Kennedy University, 1978–1984, research consultant to NASA, 1983–1985; and professor and graduate student adviser in the department of physics at the University of Nevada, Reno, 1990–1998.^{[7][8]}

(https://en.wikipedia.org/wiki/Elizabeth_Rauscher. Please refer to this link for the relevant footnotes.)

From the website <https://drelizabethrauscher.com/>:

She [Dr. Rauscher] has worked in the field of Nuclear and Astrophysics at Lawrence Berkeley National Laboratory, University of California and Lawrence Livermore Laboratory.

She has been a consultant at Stanford Research Institute, for NASA on the Space shuttle and a delegate to the United Nations. She is author of more than 275 scientific papers, 6 books, and has 5 U.S. patents. Her main fields of research include: Nuclear & Atomic Physics, Biomedical Engineering & Geophysics Monitoring and Data Analysis.

From a very early age as a young girl, Elizabeth knew that her passion and destiny lay with her desire to fundamentally ‘do good’ in the world, and to provide a meaningful impact on the way in which we – humankind – navigate.

With her early insights into the nature of Energy and Space-time dynamics, Rauscher chose to pursue the language of physics and mathematics to help give voice to these insights. As such, she was one of the first two females to graduate with a PhD. in her field of research....

Additionally, Rauscher’s work ...had profound influences on numerous fields of science, lending vital contribution to Nobel-worthy works.

Quotes from her web page:

“We stand in awe and bliss at the beauty and majesty of the evolving spark of creation. So vast and gorgeous is our Universe. Our mind, in the search for truth and knowledge, stands at the forefront of the cast of existence. My meaning of life is to deeply know life’s meaning and purpose, and to explore the harmony, apparent duality, and mystery of the universe and my mind. As Socrates said, “An unexamined life is not worth living.”

“At 9 years of age, I met an astrophysicist who talked about the billions and billions of stars and galaxies and, in those days, one could see the spiral band of the Milky Way! I built six telescopes between 9 and 15 years of age. I decided to study the very small, the atom, and the very large, the cosmos, and somewhere in this knowledge would lay the nature of consciousness! The ultimate instrument for doing science, love, or anything, is consciousness! The beauty of the symmetry of Nature is basic to epistemology and to inspiration or direct knowing. The interwoven strands of observation, analysis and inspiration lead to an ever-expanding, ongoing path of knowledge.”

“Clues in quantum physics yield the knowledge that each individual, each creature, affects the path of Nature and that we are all interconnected! **We are all One.** The vast lesson of life and the full existence of the embrace of it, is to go for knowing the Universe 100 percent, and discover love, contentment and joy in all creation and to tweak reality a bit to make things better. This is what gives meaning to our lives.”

Elizabeth Rauscher was a frequent and welcome speaker at the USPA Conferences. Following is a list of her presentations, which are now available in MP3 format for a nominal charge at:

<https://www.psychotronics.org/uspa-conference-audio-recordings-1978-to-1995-2015/>

USPA Conference Presentations by Dr. Elizabeth Raucher:

1981-23	Rauscher, Elizabeth	Physical Models Applicable to Remote Viewing.mp3
1982-34	Rauscher, Elizabeth	ELF Radiation and Non-Linear Coherent Phenomena.mp3
1983-35	Rauscher, Elizabeth	Electromagnetic Phenomena in Complex Geometries.mp3
1984-38	Rauscher, Elizabeth	Models of Psychokinesis in Human Volitional Remote Interaction.mp3
1985-42	Rauscher, Elizabeth	Examination of Physical Models of Remote Connectedness Phenomena.mp3
1985-43	Rauscher, Elizabeth	Theoretical Examination of Nonlinear, Far From Equilibrium, Self-

		organizing Phenomena.mp3
1986-40	Rauscher, Elizabeth	Criterion for Existence of a Phenomena.mp3
1987-41	Rauscher, Elizabeth; King, Moray	Measuring the Fourth Dimension.mp3
1990-19	Rauscher, Elizabeth	Problems and Solutions to the Global Environmental Crises.mp3
2004-35	Rauscher, Elizabeth	A Life of Science and Consciousness Research
2005-30	Rauscher, PhD, Elizabeth	Low Frequency, Low Level Pulsed Magnetic Fields Effects on Consciousness
2006-27	Rauscher, Elizabeth	Monitor & Predict Earthquakes, Volcanic Eruptions, & Ionospheric Phenomena.
2007-21	Rauscher, Elizabeth	The Nature and Properties of Consciousness
2008-18	Rauscher, Elizabeth	Environmental Issues and Global Population; Problems/solutions to the global environmental crisis
2017-15	Rauscher, Elizabeth	Psychotronics, PSI and Consciousness: A New Revolution

Section V: USPA Conference Recordings

1978 to 1995 and 2015 Available for purchase in mp3 format

Since the founding of USPA in 1975, top speakers have made presentations at our annual conferences. These historic speakers are involved in the leading edges of science, especially the Phenomena of Mind-Body and technology. USPA Audio Recordings offer over 1400 of our lectures in various formats during 38 of our 41 annual conferences.

<https://www.psychotronics.org/uspa-conference-audio-recordings-1978-to-1995->

When we started recording talks in 1978, we only had audio cassettes tapes. Video recordings using VHS tapes started in 1982 and ran thru 2002. DVDs started in 2003 until the latest format MP4 digital Audio / Visual format began in 2015.

The first eighteen years of these cassette recordings have now been converted to MP3 audio digital format. ***These MP3 files can be ordered and transferred via email.***

Download the PDF Order Sheet on our website here:

[I WANT THE OLD LECTURES ON MP3!](#)

Individual lectures are \$6.00 each; \$5.00 each for purchase of ten or more in one order. Sets are priced separately.

Many of these VHS tapes have been converted to DVDs; some are converted to MP4s.

A revised list will be available soon with ALL 38 years of speakers. Keep checking our website (www.psychotronics.org) to see what new talks are available for online download.

Check out the Shop / Product page on our site for your favorite speakers and topics. When you join USPA, head over to the “members’ only” page for free online access of selected materials.

Section VI - What Are Others Up To?

A Personal Request from the Editor – Mission Completed!

I WAS looking for a small booklet called “The Energy Wheel.” I had searched all the usual corners: Ebay, Bookfinder.com, all the indie bookstores I know. I couldn’t find it and I’d wanted to have a copy – even a pdf of it would have been great.

WELL, I have it now! Whoopie!

I’ve created a USPA Newsletter Research Angel and the first award goes to Cheryl and Alan Glicker. They not only read the newsletter, but responded to the query for information! Thank you!

(More about searching and finding things later in this newsletter.....)

TRANSCRIPTION, TRANSCRIPTION, TRANSCRIPTION!

At one of the recent USPA board meeting, our Secretary/Treasurer Scott Beutlich was given a hearty “go ahead” to have our VHS and DVD recordings sent out for conversion to digital media!

He vetted several companies, chose two studios whose work seemed promising and the job is DONE!!!

Now, Scott (has ‘volunteered’) to go through them, adding titles and such. It is a long, tedious labor of love, ‘cuz he sure isn’t getting rich doing it. ☺

USPA is doing this, partly in response to a sad trend we’ve seen in the past. When a famous scientist dies, more often than you would believe, his or her work – notes, recordings, diaries, etc. – is unceremoniously destroyed by family members. ☹ We hope to offset this by preserving as much of the history of our branches of science as possible and make them available for the scientists, researchers and students of the future.

Our former newsletter editor John Reed has done an enormous amount of this preservation work too. He has scanned to pdf thousands of pages of scientific work. He has preserved most of our USPA newsletters, journals and proceedings and much more. He continues to be the “official” librarian of USPA. Many thanks to John for all of his work!

In conjunction to this work, USPA has now found itself “buried” under a mountain of historical data in the form of DVD and VHS recordings.

So, we thought – What are we going to do with all the originals??

WE’RE GOING TO HAVE AN AUCTION –
Keep reading!

USPA “Silent” AUCTION of Historical Scientific Presentations

This is a once in a lifetime opportunity to have a piece of USPA History and support its future at the same time!

Our Secretary/ Treasurer, Scott Beutlich, has been storing decades of USPA materials in and near his home.

He is now using his precious “Covid Break Time” to organize all of the physical lecture recordings (see the previous article if you skipped it) ones we did on cassette, VHS and DVD? And as he does this, he is having them re-formatted to MP3 and MP4 files, so they will be more accessible to generations to come.

Now – the wonderful originals will now be auctioned off in sets.

AND the money goes directly to pay for the transition. Note-10-10-2020 We lowered the starting Prices!

1. We have a master set of **cassettes** (those little 2.5” x 4” white plastic boxes with **magnetic recording tape in them. ☺**) from 1978 thru 2004. 27 years of advanced scientific wonder – 684 cassettes, labeled with the year, speaker and title of the talk.

Starting bid is 750.00 (less than 1.10 per cassette!) AND we’ll include a Cassette Player!

2. The master set of VHS tapes runs from 1982 thru 2006. That’s 25 years. 684 tapes

Starting bid is 1000.00 (Less than 1.50 per video!) AND we’ll include a VHS Player!

3. The master set of DVD recordings is from 1982-1986 and 1999-2008, 2010, 2011 and 2016. You get 18 years of talks by leaders in the fields of psychotronics and radionics. 528 DVDs

Starting bid is 1200.00 (less than 2.75 per video!)

Email your bids to Scott at uspsychotronics@gmail.com and be sure to say what you are bidding on. We will have this open for 30 days and the winners will be announced in our next newsletter and on our website. Only Scott will have the bids, and highest bid wins. If there is a tie, the first bid received (by sent date) will be the winner.

Again, the money goes directly toward the conversion of 1000 USPA presentations!

Cassettes, VHS Tapes and the DVDs will all be available by the end of the year when the digitizing campaign is finished and will be shipped to the winners at no extra charge.

But Wait! There is more!

The winner in each category will also earn lifetime membership in USPA and forever have access to the members’ only page of our website.

Section VII – Articles of Interest

Al's Alternative Energy Reading Corner – With Al Kacperski

Al's Alternative Energy Reading Corner

I want to call attention to Jim Edmiston and his youtube site

<https://www.youtube.com/channel/UCf3iJaM-WOgPONctpjccbNg>

Jim is building a Joe Newman type motor from scratch. He winds his own coils and 3-D prints his own bobbins and frame and commutator! He makes his own brushes too.

He is measuring the actual torque and speed to calculate Horsepower. Then he will calculate true efficiency. Look for new videos over the next few weeks. He also builds RC planes and flies them expertly.

*Al Kacperski
USPA Board Member*

A bit about Joe Newman:

Joseph Westley Newman (July 2, 1936 – March 6, 2015) was an American inventor and author who claimed to have developed an "energy machine" deemed by the US Patent and Trademark Office to be a perpetual motion machine. He described this device in a book, *The Energy Machine of Joseph Newman*.

Newman alleged that he had a mechanical explanation for Albert Einstein's unified field theory of physics. After applying for patents on the perpetual motion motor, he battled for over seven years against what he claimed was a government conspiracy to suppress his supposed discoveries,[2] garnering national attention as a result.[3][4]

Joseph Newman applied for a patent on his "energy machine" in 1979, which was rejected by the US Patent and Trademark Office as a perpetual motion machine. From 1979 to 1986 he filed lawsuits against the patent office to force the award of his patent.^[7]

The Federal District Court ordered the machine turned over to the National Bureau of Standards for testing.^[4] The NBS also admitted the order to test was unusual saying: "It's very unusual

for us to be testing something for a patent." Matthew Heyman, a bureau spokesman, said, "I'm not aware of us ever having been involved in a patent case before."^[4]

Newman persuaded seven members of Congress to sponsor private bills on his behalf that would order the Patent Office to grant him a patent.^[4]

The NBS concluded that Newman's machine did not reach or exceed 100% efficiency as Newman claimed, and declared the patent as un-rewardable.^[4]

Bits and Pieces from Around the Internet

In doing some research digging for John Reed, I often come across snippets of books or articles that I think have that "hmm... really?" aspect to them. From time to time, I will post them to provoke a bit of chin stroking. Here's the first bit – it's a small one. This was 'approved for release 5-17-2002.' The document is from June of 1989.

SG1J * * * Approved For Release 2002/05/17 : CIA-RDP96-00792R000400390008-4 * * * SG1A

TEXT: EXTRACT. DOCUMENT CONTAINS DIAGRAMS.

IN THE BEGINNING, WEST EUROPEAN PHILOSOPHY, WHICH FORMED THE FOUNDATION OF MODERN PHYSICS, WAS A REDUCTIONIST TWO DIMENSIONAL THEORY OF MIND AND MATTER WHICH SAID IT WAS POSSIBLE TO EXPLAIN ALL THE WORLD'S PHENOMENA IN PHYSICAL AND CHEMICAL TERMS. THE MAIN REASON WHY MODERN SCIENCE HAS NOW REACHED AN IMPASSE IS THAT IT HAS NEGLECTED THE CATEGORY OF CONSCIOUSNESS, SOMETHING NONEXISTENT THAT HAS TO DO WITH MATTER (ENERGY). HOWEVER, IN RECENT YEARS EASTERN PHILOSOPHIES HAVE BEEN LOOKED AT AGAIN AS PART OF A REFORMULATION OF WESTERN PHILOSOPHY, SO THAT FOR EXAMPLE THEY APPEARED IN A SEMINAR ENTITLED SCIENCE AND CONSCIOUSNESS HELD IN CORDOBA, SPAIN, IN 1979. HERE THE CONCEPT OF SPACE IN WHICH EXISTENCE AND NONEXISTENCE ARE INTERRELATED WAS, THOUGH EXPRESSED IN OTHER WORDS, NOTHING OTHER THAN THE EXISTENCE AND FUNCTIONING OF A MATTER LESS ETHER. IT HAS NOT BEEN POSSIBLE TO EXPLAIN VIRTUAL ENERGY (ENER.

GY OF PARANORMAL PHENOMENA) BY THE RELATIONSHIP BETWEEN MATTER AND ENERGY IN CONVENTIONAL PHYSICS ($E=MC^2$). WHAT HAS BEEN REQUIRED IS A REFORMULATION AND REORGANIZATION OF WESTERN SCIENCE WITH THE INCLUSION OF THE CATEGORY OF CONSCIOUSNESS AND WHAT HAS BEEN BORN AS A RESULT OF THAT IS THE NEW SCIENCE OF PSYCHOTRONICS.

(Ed. Note) I particularly like the last sentence, "What has been required is a reformulation and reorganization of Western Science, with the inclusion of the category of consciousness and what has been born as a result of that is the new science of Psychotronics.

Beef without Guilt – Someday it might be possible.

Perhaps this does not fall directly in line with the studies of Zero Point Energy or Quantum Biology, but it certainly addresses a ‘sticky wicket’ of our environmental problems. I pondered six or eight weeks ago why scientists couldn’t invent some kind of Bovine Milk of Magnesia, so that cows would not produce so much methane. Seems Mother Nature has done it for us.

Climate Solutions – From the Washington Post 11/27/20

By Tatiana Schlossberg

An unusual snack for cows, a powerful fix for climate:

Asparagopsis is a species of red algae native to Australian coastal waters. When used as an additive to animal feed it is said to reduce methane production in livestock. (Sea Forest)

One of the most powerful weapons in the fight against climate change is washing up on shorelines around the world, unnoticed by most beachgoers.

It’s seaweed.

Specifically, *Asparagopsis taxiformis* and *Asparagopsis armata* — two species of a crimson submarine grass that drifts on waves and tides all around the world’s oceans.

It doesn’t seem like much, but it could practically neutralize one of the most stubborn sources of a powerful greenhouse gas: methane emissions from the digestive processes of some livestock, including the planet’s 1.5 billion cows, which emit methane in their burps.

Reducing methane from livestock, and cows in particular, has long been a goal of scientists and policymakers but is especially tricky: How do you change a fundamental fact of animal biology in an ethical way that doesn’t affect milk or meat?

In lab tests and field trials, adding a small proportion of this seaweed to a cow’s daily feed — [about 0.2 of a percent of the total feed intake in a recent study](#) — can reduce the amount of methane by 98 percent. That’s a stunning drop when most existing solutions cut methane by about 20 or 30 percent.

Meanwhile, growing seaweed used for the feed supplement could also help sequester carbon dioxide, another greenhouse gas, and reduce ocean acidification, because the plant sucks up carbon in the water as food.

Rob Kinley, the scientist who identified asparagopsis as a methane inhibitor, said it might just be the most promising way to eliminate methane emissions from livestock in the next decade.

That’s significant because livestock overall account for about 15 percent of global greenhouse gas emissions, with nearly 40 percent of that linked to methane from the digestive process, according to the United Nations’ Food and Agriculture Organization. The amount of methane from livestock production alone is about the equivalent of the emissions from about 650 million cars.

In a study published in 2016, Kinley and his co-authors found that asparagopsis virtually eliminated methane emissions in lab trials.

When a cow eats grass or other fibrous plants, microbes inside its rumen, or first stomach, use carbon and hydrogen from the fermentation of those plants to produce methane, which escapes from the cow mainly through burping, although about 5 percent is released through flatulence.

Asparagopsis and other types of seaweed have specialized gland cells that make and store bromoform, an organic compound. When the blurry red seaweed is freeze-dried, powdered and sprinkled as a garnish on a cow’s meal, bromoform blocks carbon and hydrogen atoms from forming methane in the stomach.

In response, the cow makes more propionate, a fatty acid that helps produce glucose in the metabolic process, allowing the animal to more efficiently grow or to produce more milk. That may enable farmers to use less feed and save money.

As it turns out, cows have been eating seaweed for probably as long as there have been cows, since they are, generally speaking, not picky eaters. Some evidence suggests that herders in ancient Greece fed their cows seaweed, as did many in 18th century Iceland.

The most recent effort began when Joe Dorgan, a farmer on Prince Edward Island in Canada, observed that his cows that grazed on seaweed that rolled up on beaches had better pregnancy success, produced more milk and suffered less from mastitis than cows that didn't eat seaweed.

Find the rest of the article here: <https://www.washingtonpost.com/climate-solutions/2020/11/27/climate-solutions-seaweed-methane/?arc404=true>

Now, question: Can it be given homeopathically? Radionically?

Editor's Feedback Nook:

Let me know what **you** are thinking and we'll print it here! (or not if you wish!)

Send your comments or questions to the editor, Gail Ruggles at aprilday@together.net. I will respond to all!

Do you need a nudge?

- **Who is your favorite USPA Speaker? (And why?)**
- **Where did you last attend the USPA Conference and what did you like most?**
- **What is the neatest single thing you learned at a conference, that you didn't expect to learn.**
- **What radionic or psychotronics or related book or article have you read lately that you would like to share?**
- **Who would you like to see present a webinar on our website?**
- **Are you looking for information about a particular radionic instrument, scientist, book or article you can't find?**
- **Would like to make a short news announcement, report something, make a request, or post a question about anything related to psychotronics, radionics or a related subject? Here's your chance!**

Final Question:

Is anyone out there interested in starting or being part of a local chapter? You can gather 3 or more friends and have Zoom meetings. USPA will supply some starter materials and you will have a Chapter spot in the newsletter. Rather than wasting Newsletter real estate with all the particulars, I will wait to see if anyone responds. aprilday@together.net

When the pandemic is slain, you can then have meetings in person or continue to meet on line if your Chapter Members find it more convenient. Inquiries are not commitments, so not to worry.

Searching and Finding:

John Reed was editor of the Newsletter from 2016 through 2019. He put out a lot of feelers for articles and books to fill the USPA library. If you have the older Newsletters, you can review his lists there.

Next month I will be consolidating his quests and I hope some of you will be able to help us fill in the blanks. We really want to have a historical repository for articles, books, proceedings and journals of the radionic and psychotronic ilk, to preserve and to share.

Section VIII- Our Sponsors

USPA Generous Donors Recognition Page

The USPA would like to give special recognition on a continuing basis to people who have made generous donations to the United States Psychotronics Association. This special “USPA Generous Donors Recognition Page” will be carried in each issue of the USPA Journal & Newsletter, and new names will be added as other generous donations are received.

The USPA wishes to recognize the following individuals and extend our gratitude for their generosity: (in alphabetical order):

George B. Alder, II
Scott Beutlich
Mary Hardy (Temple of Sakkara)
Clement Jewel
Ed Kelly (Kelly Research Technologies)
Michael Leger (aetherea, LLC)
John H. Reed, M.D.
William Reeves (William Reeves Design)
Arnold Reinhold
Eric Rowley
Daniel Taylor

To make a tax deductible donation to the United States Psychotronics Association (USPA) online, please go to the

[USPA Donations Page](#)

and use your credit card, debit card, or PayPal.

For those who wish to make a donation by check, please make your check payable to “USPA” and mail it to

USPA Treasurer, Scott Beutlich,
525 Juanita Vista, Crystal Lake, IL 60014

~ With Our Continued Thanks! ~

Section IX – Classifieds

If you have any “related items” to sell, (books, radionic machines, etc.) we charge 20 cents per word, 20.00 per half page with supplied artwork or photos or 35.00 per whole page. Your paid ad will run in the next three issues of the newsletter, or until you let us know your item is no longer for sale.

If you would like to publicize an event for a non-profit organization, USPA will advertise for you up to 750 words free. We ask for mutual links to our website from yours.

If you would like to publicize a for profit event, USPA will charge average advertising rates. Please contact Scott Beutlich at uspsychotronics@gmail.com. to discuss this well ahead of time.

(We will have a disclaimer on the page saying that USPA is not responsible for the content or condition of items sold from this newsletter, nor does it back any treatment, modality or veracity of presentation. It does not back any claim of medical efficacy of machines or treatments. USPA can not recommend specific radionic practitioners, or offer radionic treatments from its board or officers.

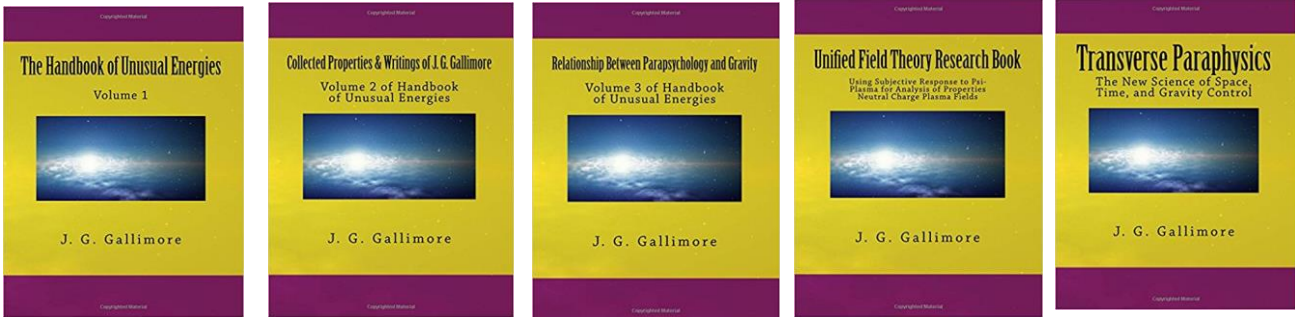

Section X – J.G. Gallimore’s Five Rare Books Are Now Available!

Jerry G. Gallimore was one of the founders of the USPA in 1975, and was a leading researcher in psychotronics and unusual energies until his untimely death in 1989.

All five of J.G. Gallimore’s rare books on psychotronics subjects and unusual energies have been reprinted by the United States Psychotronics Association (USPA) and are being made available at a fraction of the cost that used copies were being sold at online.

So rare have these books been, that only a few libraries in the entire world had them in their collections, and some original Gallimore’s books were being sold for several hundred dollars each online. However, with these newly reprinted volumes, each will be available for less than \$30.00. All are: [Available at Amazon.com](http://Amazon.com)

The Handbook of Unusual Energies: Volume 1 of Handbook of Unusual Energies	ISBN-10: 1543024998 ISBN-13: 978-1543024999	The first book of three volumes on unusual energies	468 Pages
<p>Gallimore discusses in depth the research, discoveries, and inventions of all the major researchers in subtle energies, the aether, biological 62 fields, pyramid energy, radiesthesia, radionics, crystal transduction, and related subjects.</p> <p>These include the works of Baron Von Reichenbach's and his odic energy, Dr. Wilhelm Reich's orgone energy, Dr. Harold Burr's biological life fields, Kozyrev's time mirror, Edgar Cayce's transmission of energy, and related research done by many others.</p> <p>Of particular importance is Gallimore's 127 page chapter on radionics. In this chapter he discusses in depth the research and devices of Ruth Drown, T. Galen Hieronymus, Rho Sigma, Dr. L. P. Corte and other prominent people in the radionics field.</p>			
Collected Properties & Writings of J. G. Gallimore: Volume 2	ISBN-10: 1543025048 ISBN-13: 978-1543025040	The second book of three volumes on unusual energies	258 Pages
<p>This is the second book in the “Unusual Energies” series that J.G. Gallimore published. It covers Gallimore's research on Albert Abrams, the founder of modern radionics, psychological physics, psychic energy, thought resonance, subtle energies, crystals, and related subjects.</p> <p>In addition, a number of radionics devices are discussed, such as the De La Warr Diagnostic Instrument. And very helpfully, the rates are provided for substances, body organs, and medical diseases and disorders. I very interesting interview of Christopher Bird, conducted by J.G. Gallimore is provided, as well as a discussion of Walter Russell and his research</p>			

Relationship Between Parapsychology and Gravity: Volume 3	ISBN-10: 1543024947 ISBN-13: 978-1543024944	The third book of three volumes on unusual energies	228 Pages
<p>This book describes in depth the research and theories of J.G. Gallimore into the question of parapsychology transmission" -the question of how such things as telepathy, remote viewing, ESP, and similar phenomena can physically occur.</p> <p>He discusses the various emanations, radiations, and energy fields of all matter and life including the ancient Chinese energy called "chi" (qi), the ancient Indian's prana energy, Reichenback's "odic force," Gurwitsch's "mitogenic radiation," Wilhelm Reich's orgone energy, and other subtle energies. He shows how all of these energies are similar, how they interact, and how they are related to gravity.</p> <p>He also discusses crystals as transducers of these energies, and provides diagrams of devices that could potentially be used to harness or control these energies.</p>			
Transverse Paraphysics: The New Science of Space, Time, and Gravity Control	ISBN-10: 1543024920 ISBN-13: 978-1543024920		374 Pages
<p>This book covers the visionary research and theories developed by J.G. Gallimore about anti-gravity, space, time, and biophysics.</p> <p>He discusses in depth the dimensions of space, time, and gravity, and new discoveries in each of these areas. In addition, he covers research being done on anti-gravity and then discusses anti-gravity patents that have been obtained.</p> <p>He also discusses the intriguing concept of aura energy fields surrounding humans and other living things, and how extra-sensory perception (ESP) might be explained through biophysical principles.</p>			
Unified Field Theory Research Book: Using Subjective Response to Psi-Plasma for Analysis of Properties Neutral Charge Plasma Fields	ISBN-10: 1543024831 ISBN-13: 978-1543024838		134 Pages
<p>This book is about psychotronics, radionics, electromagnetic fields and waves, psi-plasma, plasma fields, subtle energies, bio-electromagnetic energy, and other unusual energies emitted by living and non-living things. It also is about how living things interact with and are affected by these energies, which may enhance health or harm health.</p> <p>The book covers the research of Wilhelm Reich on Orgone energy, of Baron Reichenback on the odic forces, as well as research done by Cazzamalli on brain radiations and Lakhovsky on using high</p>			
			
<p>frequency radiations to successfully treat cancer in humans. In addition, Lakhovsky used similar methods to enhance the growth of plants. Gallimore shows how these energies, forces, and fields are all inter-related and provides hypotheses and ideas on their possible unification.</p>
