## Section I - The Basics

### What is USPA?

The United States Psychotronics Association (USPA) is a nonprofit 501(c)(3) organization founded in 1975 to serve as a focal point for scientific and technical exploration of the universe of esoteric, spiritual, and psychic arts in the United States of America.

The USPA has been hosting annual conferences for its membership since its formation and has featured countless individuals with cutting-edge viewpoints, research, or theories to share, allowing any interested persons to openly discuss their work.

### What is Psychotronics?

USPA defines psychotronics as the science of mind-body-environment relationships, an interdisciplinary science concerned with the interactions of matter, energy, and consciousness.

Psychotronics involves the study, research, and applications of the physics and technology of the mind, brain, spirit, consciousness, and the underlying forces of life and nature – hence the term “psychotronics”.

We believe that a true understanding of the universe must include the spiritual, as well as, the technical, and provide an opportunity for amateur researchers to present their findings along with the professionals. We stress research, with documentation of results, and practical applications, rather than personal experience and unsupported hypotheses.

### USPA Masterclass #13: Dr. Elizabeth Rauscher

The next USPA masterclass is a presentation from the 33rd Annual USPA Conference: “Mind Dynamics in Space and Time” by Elizabeth Rauscher, PhD. Dr. Rauscher was on the original research team in the physics department at Stanford University where she studied the process of remote viewing. She has a vast understanding of the psychic mind and has conducted over thirty years of research on intentional will and over eighty remote perception experiments.

Through her research, Dr. Rauscher found that we don't just see with the ordinary optical system. The human brain is wired to “see” in other ways, such as through visions and dreams that are not through our ordinary perception or ordinary modality of seeing. She set up a group at UC Berkeley to study remote perception.

In this masterclass, she will explain the concept of “Mind/Body Duality” and what the inner workings of consciousness really are.

**The poem was from the July 2003 Noetic Journal - by Elizabeth Rauscher, written in 1979.**

### Section III: In case you missed it ☹

**December's Master Class: "Marcel Vogel - Psychoenergetics Experiments" is still available! ☺**

Marcel Vogel was a research scientist for IBM's San Jose facility for 27 years. He received over 100 patents for his inventions during this time. He was World-Renown IBM senior scientist and devoted psychotronics scientist and frequent presenter at USPA.

Marcel Vogel's areas of expertise were phosphor technology, liquid crystal systems, luminescence, and magnetics. In the 1970's Marcel did pioneer work in man-plant communication experiments. This led him to the study of quartz crystals and the creation of a faceted crystal. Marcel's research into the therapeutic application of quartz crystals led him to the investigation of the relationship between crystals and water. He discovered that he could structure water by spinning it around a tuned crystal, altering many of the characteristics of the water and converting it into an information storage system.

### Section IV: This Month's Featured "Psychotronic" Person

**Dr. Eldon Arthur Byrd (July 23, 1939 to December 30, 2002)<sup>1</sup>**

[Note from the editor: To those who have fallen down the Pinterest Rabbit Hole, or have researched something until they realized they've skipped two meals, and it is getting dark out, you know what I experienced looking into the "life and times" of Dr. Eldon Arthur Byrd!

One of the best memories I have of Dr. Byrd was from one of our USPA conferences in the early years. Back then, we used to hold them at colleges. One evening, Dr. Byrd, Bob Beutlich, and other scientist presenters started a casual conversation in a large common room in one of the dorms; word of mouth soon filled the room with interested conference attendees. Without script or prompting, these scientists engaged those in the room until the wee hours in the morning.

People brought snacks from their rooms to share. We filled the couches and chairs; we brought cushions and pillows, we filled the floor space and listened with rapt attention while they shared theories, experiments and discoveries with us. It was often said that we learned more in these impromptu sessions than in the lecture halls!]

**To start with, *Good Old Wikipedia* doesn't list Byrd...**

**I had to go to** The John Chappell Natural Philosophy Society (CNPS) for my first basic background. According to the statement on its website, CNPS "provides an open forum for the study, debate, and presentation of serious scientific ideas, theories, philosophies, and experiments that are not commonly accepted in mainstream science," (see footnotes)

Their information is concise, but interesting only if you like dry rye toast and black coffee...every day.

From CNPS I found the following:

"Dr. Eldon Byrd (1939-2002) was an Electrical and Medical Engineer with academic degrees from both Purdue University and George Washington University. He was a POLARIS submarine expert for industry, and held various positions in the US Government, including Strategic Systems Analyst, Operations Research Analyst, Cryogenic Engineer, Head of the Department of Defense Environmental Projects Office, Project Manager for the Navy's Metal Matrix Composites Program, and Project Manager of the Marine Corps Non-Lethal Electromagnetic Weapons Project. He was considered to be an expert in the biological effects of extremely low frequency magnetic fields and authored many professional papers and reports on the subject. In 1968 Eldon Byrd published a paper on the telemetry of brain waves in the "Proceedings" of the International Telemetry Conference, 1972. Byrd: Physical Scientist at the Naval Surface Weapons Center,

White Oaks Laboratory, Silver Springs, Maryland (1968- unknown, at least 1981) Byrd describes his work with Naval Surface Weapons as "predicting what war will be like in the future."<sup>2</sup>

Eldon was much a much more "colorful" character than this paragraph would suggest. Al Kacperski, a USPA board member was kind enough to share some anecdotal stories about Byrd with me. Early in their friendship, Eldon recounted a time when he was a Navy commander supervising secret weapons testing in the ocean.

He had an interesting encounter with Tom Bearden. Byrd had been escorted into the bowels of the pentagon, to one of the lowest levels. He was taken into a room that contained nothing but a long table and a few chairs. Tom Bearden was sitting there, all alone. When they arrived, Tom said, "Hey Eldon, what are you doing here?"

Eldon replied, "I don't know. What are you doing here?" They sat chatting a few minutes.

Then, when the "Brass" arrived, they were shown satellite recon photographs, taken over the Soviet Union, of what to the Generals looked like a Tesla Shield, a secret weapon capable of vaporizing incoming missiles.

Al told me, "Now this part is a little sketchy; Eldon said he and Bearden 'agreed' to tell the Generals, that they had no knowledge of any Soviet Tesla Shields and then they assured them that this thing (which might have been a Star Trek style force field) was most likely just a natural phenomenon!"

Al said that to this day, he doesn't know if Byrd and Bearden truly didn't know what it was, or if they did, if they lied so as to not raise a red flag and possibly start a war. But following that meeting Byrd and Bearden became fast friends.

In another story, Eldon told Al of an experience he had when the US fleet was performing a weapons test in the ocean. Eldon had said, "The commander told me, 'hold off on the test until the ships of the Russian fleet are in range. What use is having a secret weapon to scare them, if they don't know you have it?'"

14th Century English Poet William Langland said, "Like father like son: Every good tree maketh good fruits." This was apparently true with Byrd and his own offspring.

Eldon told Al story about his son Jeff. He said that Jeff is also a super genius. This story is from back in the 80's. Most people know what 3-D videos are and that they are created in such a way that when you watch them while wearing special glasses, experience the film with special effects such as things coming out of the screen "at you." Eldon explained to Al, "But Jeff would do something with the signal and could see all the images like 3-D without the glasses."

As film is just thousands of still frames, which when flashed on a screen at 30 frames per second appear to be in motion. If the display were slower than 30 fps, we'd notice the separate pictures. But Jeff increased the frame rate to 1,000 frames per second, and did some other tweaking to the output. The result was that he could see the 3-D effects without any glasses.

Well, at this point, Jeff had told no one what he was doing. But early in the morning, shortly after he created this technique, a swarm of black vans with tinted windows pulls up into the driveway. The guys – apparently from the Hughes Defense Company - got out and came in the house. The story goes that they offered Jeff a choice: come and work with them...or suffer the 'consequences.' As is the case for many Eldon Byrd stories, we don't know which he chose.

In another story, Al told me that Eldon had promised to take him to observe his dolphin project, but the funding dwindled and he was never able to do this. However, Byrd told Al he had witnessed an amazing dolphin experiment. Two dolphins were taken into captivity and put in two "rooms" in separate tanks, separated by a concrete wall. They taught one dolphin to do a very specific trick, to jump in the air, flip, and do certain things. It took them a couple of weeks to teach this dolphin the sequence. BUT, the instant they let the second dolphin join the first; they both performed the trick in perfect synchronization!

They studied this phenomenon, trying to determine if there was a psychic communication between the dolphins or if they could hear each other hundreds of feet away through the concrete barrier. To Al's knowledge they never found out.

Shortly before our interview ended, Al told me, "He was such a kind person."

Finally, Al said that Eldon confided to him the story of the day he got kicked out of the Air Force. He admitted he was a bit of a big mouth, and the Air Force wanted to kick him out because he had the unfortunate habit of divulging classified information when he told his stories.

Every time he left the base, his car was searched. He was so 'clean' they could not find anything to pin on him to use as a basis for getting him out. So, this one day, someone planted an Air Force pen in his back seat. At the check point when leaving the base, a guard "found it" and claimed he had stolen it, and they used that crime to kick him out. Al said Eldon swears it is a true story.<sup>3</sup>

Besides Tom Bearden, Eldon was also friends with Uri Geller. This photo shows (l to r) Dr. Ron Hawk from Lawrence Livermore Radiation Laboratory, Uri Geller and Eldon Byrd.<sup>4</sup>

(Doesn't it look like they are discussing something that is invisible?)

In a letter of recommendation for Cheryl Welsh of [mindjustice.org](http://mindjustice.org) Byrd says, *"Is Mind Control Possible? Absolutely. There is a mountain of evidence... Today we know there are technologies that can induce sound into the brain at a distance, can monitor and alter brainwaves at a distance, can alter behavior at a distance, can induce images into the brain at a distance, can target individual organs at a distance. Can disrupt the calcium ions binding on individual cell surfaces at a distance, creating pain and other effects anywhere in the body. Mind control technology exists, without a question."* -- Dr Eldon Byrd, Naval Officer, 2001<sup>5</sup>

Eldon was a frequent presenter at the USPA Conferences. In fact, Eldon got married at a USPA Conference in 1985! Peter Kelly officiated. (Left the wedding; on the right is a younger Byrd!

### **Section V: USPA Conference Recordings**

**1978 to 1995 and 2015 Available now for purchase in mp3 format. MORE are coming soon!**

Since the founding of USPA in 1975, top speakers have made presentations at our annual conferences.

These historic lectures were presented by people who are involved in the leading edges of science, especially the phenomena of Mind-Body and technology. USPA has over 1400 of our lectures in various digital formats from 38 of our 41 annual conferences!

When we started recording talks in 1978, we only had audio cassettes tapes. Video recordings on VHS started in 1982 and ran thru 2002. DVDs started in 2003 and ran until the latest format MP4 digital Audio / Visual format began in 2015.

**The first eighteen years of these cassette recordings have now been converted to MP3 audio digital format. *These lectures can be ordered and transferred via email.***

Download the PDF Order Sheet on our website here:

**[I Want The Old Lectures On MP3!](#)**

Individual lectures are \$6.00 each; \$5.00 each for purchase of ten or more in one order.

Many of our VHS tapes have been converted to DVDs; some are converted to MP4s.

Soon, a revised list will be available with ALL 38 years of speakers. Please, keep checking our website ([www.psychotronics.org](http://www.psychotronics.org)) to see what new talks are available for online purchase and download.

Check out the Shop / Product page on our site for your favorite speakers and topics. When you join USPA, head over to the “members’ only” page for free, online access of selected materials.

**Section VI “Members Only” Perk: almost 50 FREE presentations.**

Here is a list of the FREE Master Classes, lectures and other presentations available to members of USPA. (Just log in and click on the “Members” tab.) Not a member yet? You can fix that in just a few minutes at <https://www.psychotronics.org/join/>

## Section VII - What Are Others Up To?

### TRANSCRIPTION, TRANSCRIPTION, TRANSCRIPTION!

ALL of our VHS and DVD recordings were sent out for conversion to digital media! That herculean task is done!

Now, Scott Beutlich, our secretary/treasurer (has ‘volunteered’) to go through them on the computer, adding titles and the USPA Logo and such. It is a labor of love, ‘cuz he sure isn’t getting rich doing it. ☺

The board of directors of USPA decided to spend the money to do this, partially in response to a sad trend we’ve seen in the past.

When a famous scientist dies, more often than you would believe, his or her work – experiment notes, recordings, journals, etc. – is unceremoniously destroyed by family members. We hope to offset this by preserving as much of the history of our branch of science as possible and make it available for the scientists, researchers and students of the future.

We will be presenting some of these in our “members’ only” page on our website, likely in a rotating fashion, but as soon as we get the database fully corrected, (we’re getting close) they will all be available for purchase as MP3 or MP4 files!

### A Virtual Library

Our former newsletter editor John Reed has done an enormous amount of this preservation work too. He has scanned to pdf thousands of pages of scientific work. He has preserved most of our USPA newsletters, journals and proceedings and much more. He continues to be the “official” librarian of USPA. Many thanks to John for all of his work! Here is an introduction from John:

Hello everyone,

In order to do good psychotronics research of any kind, whether it involves radionics, radiesthesia, psionic medicine, dowsing, subtle energies, biophotons, or any other subject covered by psychotronics, one needs access to as much of the periodical literature as possible on these subjects.

To address this issue, the United States Psychotronics Association has resolved to identify and acquire every psychotronics related periodical that has ever been published anywhere in the world, and to retain copies in the “Virtual USPA Library.”

As a first step, we have developed the following list of periodicals that focused on or frequently had articles on psychotronics related subjects. But this is only a preliminary list, and we know that there are probably more psychotronics periodicals that have been published, but that we do not yet know about.

So please look over the following list and check your own personal physical libraries and your computers to see if you have any issues of the periodicals on this list. Even if you just have one issue, please let us know, because that may be the one we need to complete all the issues of a particular periodical. Please write to me (John) at: [joreed43@gmail.com](mailto:joreed43@gmail.com) since I am the USPA librarian and archivist coordinating this effort, and tell me what periodicals you have.

As a whole, the members of USPA have a huge “library” of periodicals, but it just happens to be “distributed” among its members at this point in time. However, we can work together, and if you would be willing to loan, donate, Xerox, or as a last resort, sell copies of your periodicals to us for the USPA Library, then we will be able to build a large centralized library of all psychotronics periodicals. And all USPA members will then be able to use these periodicals in their research or for their reading enjoyment.

To the future,  
John Reed

Here is a tiny sample of John’s list. The full, ever changing list can be found here: [USPA Library](#)

2. Bridges: This was the newsmagazine of the International Society for the Study of Subtle Energies

## The Auction

In conjunction to all of this work, USPA has now found itself “buried” under a mountain of this priceless historical data in the form of audio cassette, VHS Cassette Videos and DVD recordings.

So, we thought – Once it is all digitized, what are we going to do with all the originals??

# WE'RE GOING TO HAVE AN AUCTION!

USPA “Silent” AUCTION of Historical Scientific Presentations

This is a once in a lifetime opportunity to have a piece of USPA History and support its future at the same time!

Our Secretary/ Treasurer, Scott Beutlich, has been storing decades of USPA materials in and near his home for many years. He is now using his precious “Covid Break Time” to organize all of the physical lecture recordings we have on cassette, VHS and DVD. He has already had them ALL re-formatted to MP3 and MP4 files, so they will be more accessible to generations to come. (See the previous article if you missed it)

Now – the wonderful originals will now be auctioned off in sets.

**AND the money goes directly to pay for the transition. Note-10-10-2020 We lowered the starting Prices!**

1. We have a full **master** set of **cassettes** (those little 2.5” x 4” white plastic boxes with magnetic recording tape in them.☺) from 1978 thru 2004. 27 years of advanced scientific wonder – 684 cassettes, labeled with the year, speaker and title of the talk.

**Starting bid is 675.00** (less than 1.00 per cassette!) AND we'll include a Cassette Player!

2. The master set of VHS tapes runs from 1982 thru 2006. That's 25 years. 684 tapes

**Starting bid is 950.00** (Less than 1.40 per video!) AND we'll include a VHS Player!

3. The master set of DVD recordings is from 1982-1986 and 1999-2008, 2010, 2011 and 2016. You get 18 years of talks by leaders in the fields of psychotronics and radionics. 528 DVDs

**Starting bid is 1000.00** (less than 2.00 per video!)

**Email your bids** to Scott at [uspsychotronics@gmail.com](mailto:uspsychotronics@gmail.com) and be sure to say what you are bidding on. We will have this open for 30 days and the winners will be announced in our next newsletter and on our website. Only Scott will have the bids, and highest bid wins. If there is a tie, the first bid received (by sent date) will be the winner.

Again, the money goes directly toward the conversion of 1000 USPA presentations!

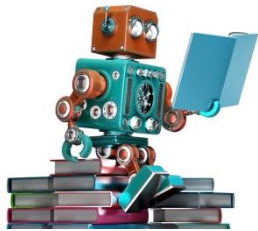

Cassettes, VHS Tapes and the DVDs will all be available early in 2021 when the digitizing and cataloging campaign is finished. They will be shipped to the winners at no extra charge.

## But Wait! There is more!

The winner in each category will also earn *lifetime* membership in USPA and have access to the members' only page of our website *forever*.

Subject: inventions

Date: Mon, 18 Feb 2013 23:39:53 GMT

Dear Mr. Joseph Newman,

I called today about your inventions. My husband and I were sad that you have not been granted a patent.

I worked for the design patent part of the PTO and I was told specifically to reject all patents that had to do with perpetual motion or anything like it. We were told to reject it on wording, drawings, prior art,- anything we could, so it would not become a patent. It is a plan that they do not want the public to have helpful inventions.

Sincerely, Ruth Costea

For the New Year I am giving the reader a report on the thousands of suppressed energy inventions and inventors.

In addition here is copy of an email to Joe Newman from the patent office actually apologizing for their suppression of his free energy motor.

## 'Rush': The Other Founding Father from Philadelphia Named Benjamin

By Melissa Block

Benjamin Rush, the medical doctor and Founding Father, took after the Renaissance-man civic participation of his mentor, Benjamin Franklin. He is the lesser-known Founding Father from Philadelphia named Benjamin — the one whose face does not grace the \$100 bill.

Benjamin Rush was a signer of the Declaration of Independence. He was also a doctor — arguably the most famous doctor in America — who became known as the American Hippocrates. During the Revolutionary War, Rush was alongside Gen. George Washington when he crossed the Delaware; he treated battlefield casualties behind enemy lines; and later, became a pioneer in the field of mental health.

He was also a bold abolitionist, an advocate for public education — for women's education, in particular — and a prolific writer.<sup>1</sup>

But Rush's fame as a Declaration signer is not the reason I am including him in this issue of our newsletter.

Rather it is because he was quoted by Peter Radatti. I met Peter at the USPA New Year's Zoom Party on January 9th. Peter is author of *A Fun Course in Beginning Radionics: Miracles in the Palms of Your Hhands*, *How to Build an Electronic Witness Well for Radionics* and others. He is a master in radionics and a speaker in recent years at a USPA conference.

Peter mentioned a famous quote that is attributed to Rush. Some argue that it can't be proven that this is Rush's quote, but considering the man's history, I would imagine if he didn't say this exactly, he said something like it more than once in his lifetime.

I felt that considering the current health pickle the world is in and the more-often-than-not quashed alternative medicines and therapies in the world; it was a good time to review it.

Here's the quote:

“Unless we put medical freedom into the Constitution the time will come when medicine will organize itself into an undercover dictatorship. To restrict the art of healing to doctors and deny equal privileges to others will constitute the Bastille of medical science. All such laws are un-American and despotic.”

Perhaps we could use this as a topic for a Zoom Panel Discussion at our 2021 Virtual conference.

## Section IX Our First Virtual New Year's Party-On Zoom

On January 9, 2021, about 25 members of USPA gathered via Zoom to toast in the New Year. It was a fun, and admittedly novel way to party. People left the screen to refill cups and glasses, reach for snacks and pat the dog. Dress was certainly varied as we were attending in many geographical locations.

It was fun, informal and everyone (*Thanks Scott for your help here*) introduced themselves and shared a bit about what they'd been doing recently. It was great to see old friends and meet new ones. As they were leaving, most of our guests mentioned that they had a great time and suggested that we do it again. No lingering good-byes, just two clicks and you're gone!

All in favor of doing it again, say “Aye.”

## Section X Searching and Finding:

John Reed was editor of the Newsletter from 2016 through 2019. He put out a lot of feelers for articles and books to fill the USPA library. Earlier in this newsletter, I shared the work John has been doing and why USPA feels that this is such important work. I did a personal “search and find” in a previous newsletter, and the readers came through.

I will be only asking for one thing each month. If someone has, shares or can tell us where to find it, they will be mentioned and be awarded the “USPA Research Angel Award” in our next newsletter.

I’d like to start off with something I think should be easy. John mentioned to me that the American Society of Dowsters once had a “mimeographed” paper newsletter that was done on 8.5 X 11 inch copy paper and mailed out to its members. We’d love to have a copy of them, for our files. As they were organized in 1961, any issues that you might have would be gladly accepted.

If you don’t want them back, just send them to John. If you want to keep them, perhaps you can scan them to pdf and email them to him. IF you want to keep them and don’t have a scanner, send them to me. I will scan them the day I receive them and put them right back in the mail to you the next day!

**Email John or me to set up the donation. [joreed43@gmail.com](mailto:joreed43@gmail.com) or [gailinvermont@outlook.com](mailto:gailinvermont@outlook.com)**

## Section XI Editor’s Feedback Nook:

**We’d like this to be an interactive newsletter!**

**Send your comments or questions to the editor, Gail Ruggles at [gailinvermont@outlook.com](mailto:gailinvermont@outlook.com) (my email has changed.) I will respond to all!**

**Do you need a writing prompt?**

- Who is your favorite USPA Speaker? (And why?)
- Where did you last attend the USPA Conference and what did you like most?
- What’s the neatest single thing you learned at a conference, that you didn’t expect to learn?
- What radionic or psychotronics book or article have you read lately that you would like to share?
- Who would you like to see present a webinar on our website?
- Are you looking for info about a radionic instrument, scientist, book or article you can’t find?
- Would like to make a news announcement, report something, make a request, or post a question about anything related to psychotronics, radionics or a related subject? Here’s your chance!

## Section XII - Homework

**Speaking of interactive, we mentioned homework on page 1. (It’s in the fancy border on the bottom of the page if you missed it.)**

In February, our “Featured Psychotronic Person” will be Tom Bearden.

**Then, in March, to kick off our 2021 USPA Virtual Conference, we will have a free Zoom Panel Discussion with Q & A based on the Tom Bearden 1990 talk "Action at a Distance: The Fundamental Mechanism of Radionics." (90 minutes)**

It is already in our members’ area on our website for free viewing (under Classic Videos, 8<sup>th</sup> one down) and it is also for sale at [\\$9.99 in the products area](#). (Become a member and you can watch it for free - along with nearly 50 other Classics!)

**So anyone who wants to attend the Zoom in March can watch the video ahead of time on our website, or purchase and download it.**

**In February, we’ll let you know where to send your Questions before the Zoom Program. Our panel will answer them on the air, as well as take questions live online via chat.**

## **Section XIII- Our Sponsors**

### **USPA Generous Donors Recognition Page**

The USPA would like to give special recognition on a continuing basis to people who have made generous donations to the United States Psychotronics Association in the past three years.

This special “USPA Generous Donors Recognition Page” will be carried in each issue of the USPA Journal & Newsletter, and new names will be added as donations are received.

The USPA wishes to recognize the following individuals and extend our gratitude for their generosity:

#### **Donors 2020**

**Michael Leger (aetherea LLC)**

**Alexander S.C. Rower**

**Michael Picker**

**PMH Atwater**

**Renee Gerow**

#### **Donors 2019**

**Dr. John Reed**

**Michael Leger**

**George Alder II**

**Harsinie Pranditarante**

#### **Donors 2018**

**George B Alder**

**Michael Leger**

**William Reeves**

**Daniel Taylor**

**Scott Beutlich**

**Eric Rowley**

**Clement Jewel**

**Dr. John Reed**

To make a tax deductible donation to the United States Psychotronics Association (USPA) online, please go to the

**[USPA Donations Page](#)**

and use your credit card, debit card, or PayPal.

For those who wish to make a donation by check, please make your check payable to “USPA” and mail it to

USPA Treasurer, Scott Beutlich,

## Section XIV – Classifieds

**If you have any “related items” to sell**, (books, radionic machines, etc.) we charge 20 cents per word, 20.00 per half page with supplied artwork or photos or 35.00 per whole page. Your paid ad will run in the next three issues of the newsletter, or until you let us know your item is no longer for sale.

**If you would like to publicize an event for a non-profit organization**, USPA will advertise for you up to 750 words free. We ask for mutual links to our website from yours.

**If you would like to publicize a for profit event**, USPA will charge average advertising rates. Please contact Scott Beutlich at [uspsychotronics@gmail.com](mailto:uspsychotronics@gmail.com) to discuss this well ahead of time.

(We will have a disclaimer on the page saying that USPA is not responsible for the content or condition of items sold from this newsletter, nor does it back any treatment, modality or veracity of presentation. It does not back any claim of medical efficacy of machines or treatments. USPA can not recommend specific radionic practitioners, or offer radionic treatments from its board or officers.

## Section XV – J.G. Gallimore’s Five Rare Books Are Now Available!

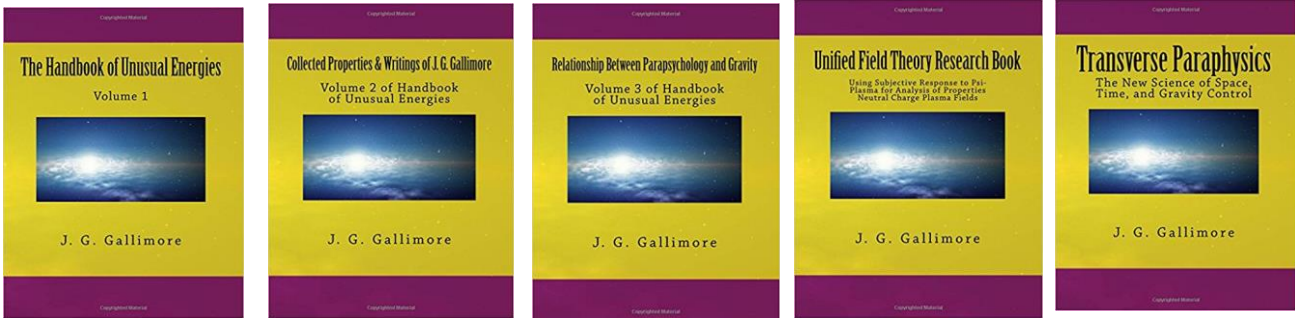

Jerry G. Gallimore was one of the founders of the USPA in 1975, and was a leading researcher in psychotronics and unusual energies until his untimely death in 1989.

All five of J.G. Gallimore’s rare books on psychotronics subjects and unusual energies have been reprinted by the United States Psychotronics Association (USPA) and are being made available at a fraction of the cost that used copies were being sold at online.

So rare have these books been, that only a few libraries in the entire world had them in their collections, and some original Gallimore’s books were being sold for several hundred dollars each online. However, with these newly reprinted volumes, each will be available for less than \$30.00. All are: [Available at Amazon.com](http://Amazon.com)

<b>The Handbook of Unusual Energies: Volume 1 of Handbook of Unusual Energies</b>	ISBN-10: 1543024998 ISBN-13: 978-1543024999	The first book of three volumes on unusual energies	468 Pages
<p>Gallimore discusses in depth the research, discoveries, and inventions of all the major researchers in subtle energies, the aether, biological 62 fields, pyramid energy, radiesthesia, radionics, crystal transduction, and related subjects.</p> <p>These include the works of Baron Von Reichenbach's and his odic energy, Dr. Wilhelm Reich's orgone energy, Dr. Harold Burr's biological life fields, Kozyrev's time mirror, Edgar Cayce's transmission of energy, and related research done by many others.</p> <p>Of particular importance is Gallimore's 127 page chapter on radionics. In this chapter he discusses in depth the research and devices of Ruth Drown, T. Galen Hieronymus, Rho Sigma, Dr. L. P. Corte and other prominent people in the radionics field.</p>			
<b>Collected Properties &amp; Writings of J. G. Gallimore: Volume 2</b>	ISBN-10: 1543025048 ISBN-13: 978-1543025040	The second book of three volumes on unusual energies	258 Pages
<p>This is the second book in the “Unusual Energies” series that J.G. Gallimore published. It covers Gallimore's research on Albert Abrams, the founder of modern radionics, psychological physics, psychic energy, thought resonance, subtle energies, crystals, and related subjects.</p> <p>In addition, a number of radionics devices are discussed, such as the De La Warr Diagnostic Instrument. And very helpfully, the rates are provided for substances, body organs, and medical diseases and disorders. I very interesting interview of Christopher Bird, conducted by J.G. Gallimore is provided, as well as a discussion of Walter Russell and his research</p>			

<b>Relationship Between Parapsychology and Gravity: Volume 3</b>	ISBN-10: 1543024947 ISBN-13: 978-1543024944	The third book of three volumes on unusual energies	228 Pages
<p>This book describes in depth the research and theories of J.G. Gallimore into the question of parapsychology transmission" -the question of how such things as telepathy, remote viewing, ESP, and similar phenomena can physically occur.</p> <p>He discusses the various emanations, radiations, and energy fields of all matter and life including the ancient Chinese energy called "chi" (qi), the ancient Indian's prana energy, Reichenback's "odic force," Gurwitsch's "mitogenic radiation," Wilhelm Reich's orgone energy, and other subtle energies. He shows how all of these energies are similar, how they interact, and how they are related to gravity.</p> <p>He also discusses crystals as transducers of these energies, and provides diagrams of devices that could potentially be used to harness or control these energies.</p>			
<b>Transverse Paraphysics: The New Science of Space, Time, and Gravity Control</b>	ISBN-10: 1543024920 ISBN-13: 978-1543024920		374 Pages
<p>This book covers the visionary research and theories developed by J.G. Gallimore about anti-gravity, space, time, and biophysics.</p> <p>He discusses in depth the dimensions of space, time, and gravity, and new discoveries in each of these areas. In addition, he covers research being done on anti-gravity and then discusses anti-gravity patents that have been obtained.</p> <p>He also discusses the intriguing concept of aura energy fields surrounding humans and other living things, and how extra-sensory perception (ESP) might be explained through biophysical principles.</p>			
<b>Unified Field Theory Research Book: Using Subjective Response to Psi-Plasma for Analysis of Properties Neutral Charge Plasma Fields</b>	ISBN-10: 1543024831 ISBN-13: 978-1543024838		134 Pages
<p>This book is about psychotronics, radionics, electromagnetic fields and waves, psi-plasma, plasma fields, subtle energies, bio-electromagnetic energy, and other unusual energies emitted by living and non-living things. It also is about how living things interact with and are affected by these energies, which may enhance health or harm health.</p> <p>The book covers the research of Wilhelm Reich on Orgone energy, of Baron Reichenback on the odic forces, as well as research done by Cazzamalli on brain radiations and Lakhovsky on using high</p>			
			
<p>frequency radiations to successfully treat cancer in humans. In addition, Lakhovsky used similar methods to enhance the growth of plants. Gallimore shows how these energies, forces, and fields are all inter-related and provides hypotheses and ideas on their possible unification.</p>
