Section II – USPA Master Class - #20

Glen Rein will present "The Role of Longitudinal Scalar Energy and Bio-Energy in the Healing Process."

Glen says: Healing is a complex orchestrated progression of four phases which involves multiple cell types and a variety of signaling pathways. Quantum healing involves balancing the energies in the body, whether they be electrical or subtle (Qi) in order to heal the imbalanced (quantum) information in the blueprint of our DNA.

To validate this quantum healing model, the effects of different forms of subtle energy, including longitudinal scalar waves, on the energetic (electrical) properties of DNA has been assessed experimentally using human DNA in-vitro. The focus of this original research has been to characterize the optimal type of subtle energy and the characteristic frequencies to resonate with DNA.

Some of the "Learning Objectives" of Glen's Presentation are:

1. Understand the difference between the standard biomedical definition of healing and the quantum healing model
2. Learn what frequencies resonate with human DNA the strongest and why
3. Learn why and how Vogel cut crystals are unique compared to other crystals
4. Learn why structured water does not imprint frequency information

About Dr. Rein

After obtaining a PhD from London University and an Assistant Professorship at Mt. Sinai Medical School, he studied various biomedical disciplines at prestigious institutes like Harvard and Stanford Medical Schools. Dr. Rein has extensive corporate experience at a Fortune 100 company working on innovative product development and obtaining numerous patents.

He is currently CEO of the QBRL conducting innovative basic and contract research (www.innobioateck.com). Most recently Dr. Rein has co-founded an Aquaceutical research company (Glee Biologics) with Dr. Lee Lorenzen. Dr. Rein has numerous scientific publications (including Nature), is on numerous Boards, has lectured in eight countries and appeared on numerous radio, TV and documentary films. **REGISTER HERE: [MASTERCLASS #20](#) and keep the confirmation email. Section III – In Case You Missed Last Month's MasterClass ☹

October 23, 2021, Toby Grotz presentsd "Mirror Image Symmetry in Coil Winding and the Implications in Biological and Electrical Systems"

Toby's lecture is now in Member's only on our Website where it can be watched for free by members of USPA. Toby Grotz is an electrical engineer who has been involved on both sides of the energy equation: exploring for oil and gas and geothermal resources and in the utility industry working in coal, natural gas, and nuclear power plants.

While working in the aerospace industry, he worked on space shuttle and Hubble telescope testing in a solar simulator and space environment test facility. He has also been involved in research for new energy sources and novel forms of hydrogen production.

Toby attended the first Earth Day while at the University of Connecticut and took the first course offered in Environmental Engineering. His passion for environmental issues was fired by reading Rachel Carson's book *Silent Spring*, which he says should be required reading for every high school student. In 1976, Toby met Jim Fowler an organic farming pioneer who owned the first health food store in Denver and introduced him to the research and work of natural farming advocates of the 1900's, such as Lady Eve Balfour and J.I. Rodale.

You can join USPA for 35.00 a year (Discounts for Service Personnel, Students and three year purchase) by **clicking those links**. (No, they are not the same links as last month, but they lead to the same great place.☺)

Section IV – Great Lectures Coming in our Continuing Master Class Series:

December 18' 2021: Dan Davidson will present “Manifesting from the Aether”

Scott Beutlich said, “My dad [Bob Beutlich] loved the [earlier] little book "shape power"... he had a small stack of extras he would give away to people. Also, Dan Davidson spoke at USPA Conferences in 1993, 1995, 2010 and 2018.”

The 2018 video, *Dan Davidson Aetheric Physics Cosmic Structure and Aether Function* is available in our products area now, and the other three will be soon.

Dan Davidson, has recently (July 2021) revised and expanded his book, *Shape Power*, into a larger Second Edition. The new book is *Shape Power Second Edition; The Fundamental Discovery of How Shape Modifies Undifferentiated Universal Aether into Electricity, Magnetism, and Nuclear Forces*.

Dan first used the term “Shape Power” in his first book on free energy... *Energy Breakthroughs to New Free Energy Devices*. At that time he devoted an entire chapter to the effects of geometrical shapes manipulating the aetheric field around them. The prime example of this is the ability of the pyramid shape to collect and focus aetheric energy. Numerous books have been written on "pyramid energy" and pyramids have gone and still go through various stages of fad within the new-age circles.

The ability of pyramid energy to cause various effects is well documented. Every shape manipulates aether in some manner. A cone is an example of an infinite sided pyramid and as such will do many of the same things which a simple pyramid does. The American Indian teepee is an example of a near conic shape which has many of the same energy effects as the pyramid.

His new book explores how different shapes manipulate the aether and how *Shape Power* can be used by you to enhance your life, your home, office, and your general well-being.

### January 15, 2022: John Allocca will present “Brainicity™ Brain Biofield Enhancement”

Dr. Allocca is a medical research scientist and biophysicist with over 40 years of experience. He is the internationally published author of *The Neurotransmitter Solution for Migraine, Depression, and More; Starship Diabetes; Ascension in The New Age* and 59 other books and textbooks.

He developed a computerized biochemical analysis and nutritional plan software program (Orthomolecular Assessment and Reprogramming), and nutritional formulas for migraine prevention and other disorders. He also invented the Brainicity™ Brain Biofield Therapy system.

His previous work includes a computerized neonatal diagnostic system, a method for measuring intracranial pressure and vascular compliance noninvasively, development of computerized medical diagnostic systems and rehabilitative instruments. His biography can be found in Who's Who in Science and Who's Who in the World.

~~~~~

February 2022: Duncan Laurie (website <https://www.duncanlaurie.com/>)

Duncan Laurie has been exploring and writing about semiotics [the study of signs and symbols and their use or interpretation.] and the relationship of subtle energy technology (psychotronic and radionic) to art; devising sonic plant and mineral communication experiments for artistic presentation (with Gordon Salisbury and others). At this point, he says he would talk of Quantic technology of Peter von Buengner. Duncan is the author of *The Secret Art, A Brief History of Radionic Technology for the Creative Individual*

Section V – Membership Information:

There are some strange vibrations coming from deep inside the corporate structure of USPA. Scuttlebutt has it that there have been suggestions made that a committee be formed to discuss the advisability of, and the practical feasibility of raising our annual dues. Oh me oh my!

So, here's the thing, If you add to your subscription now, it will add a year (at our current price) to what you already have. IF you select a three year membership, it will extend three years beyond your current term.

To see the status of your membership, go to the website, log in and on the left choose "memberships" and then still on the left, choose "manage." That will show you when your membership will expire.

BUT HERE IS THE CRAZY GOOD NEWS:

For a limited time only the board has decided to re-instate the lifetime membership option. For \$300.00 you can secure a membership in USPA for the rest of your life!

Because this will be a limited time offer, it is not on our website as a clickable option. So...

If you are interested, please contact Scott at uspsychotronics@yahoo.com Just send him a quick email with your phone number and he'll contact you and take your information. He'll do the financial stuff and give me your details and I will plug your lifetime membership into our website database. It is just that easy.

This would be a great way to help pump some "green lifeblood" into USPA and reserve your spot in our rolls forever.

I'd like to add a quick note here. If you are a full time student or a member of the Armed Forces of the US, please let Scott know. You can get a discounted annual membership. Scott will help you with this too.

We try to make USPA membership accessible to as many people as possible.

Al's Alternative Energy Corner

I thought it would be interesting to present the conventional point of view on 5G dangers. I challenge all scientists to refute the safety claims. The presenter on this video is ignorant about the interactions between humans and 5G. He obviously trusts the government agencies that are supposed to protect us. I want to know the truth.

What is Eloptic Energy: An Interesting Presentation

The lead for this video says, “Most people probably haven't heard of the inventor T. Galen Hieronymus, but according to his advocates his machines are able capable of everything from remote analysis to remote healing -- so what is eloptic energy? Tune in to learn more.”

Andrew Michrowski shared: Radionic photography of the mind - Armando Salas Portugal collection

Andrew says, “One of these photographs (from the Montgomery Collection) is being exhibited at the Art Gallery of Ontario (AGO) in Toronto. The link to view this collection in Mexico's Galeria Freijo is:

<https://www.galeriafreijo.com/en/exhibitions/general-program/fotografias-del-pensamiento>”

[This is an article from that website:]

Emanations developed by a new photographic process by Raymonde Guidot

In 1958, Mr. Philip Chancellor, from Cuernavaca, Mexico, visited the DeLaWarr laboratories in Oxford to learn more about the work they were doing and especially about the special type of camera used.

Chancellor explained that during his visit he had been most impressed by the photographs taken with the Mark I camera and that later, following DeLaWar's suggestions, he tried to reproduce the process using film instead of photographic plates. This was important if the camera was to be universally used, as it was virtually impossible to obtain the photographic plates in Mexico.

By using various emulsions and developer combinations, Mr. Chancellor was able to find an appropriate combination that allowed him to produce significant energy patterns on the photographic film. At first he found it difficult to stabilize his results and obtain consistent images but, by persisting in experimentation for a few months, he finally found the process as it is applied today.

While DeLaWarr method used ordinary Ilford plates as well as the standard developer and fixer, Chancellor's method used the Kodak ortho film contrast process and the D8 developer at full power in combination with the Kodak Quick Fix.

Using this combination, patterns of the type seen in Figures 12 and 13 were produced. Experiments showed that the strength of these patterns was substantially increased by eliminating the stop bath and placing the film directly into the developer's fixative bath. The optimal development time was 1 to ½ minutes and the fixation time 2 minutes or more. After fixing the film, it was bathed and dried in the usual way. It also became apparent that the developer's temperature was not critical and that shaking the film in the developer was unnecessary.

It became increasingly evident that the patterns seemed to be abstractions and subsequently it became routine to decide on what the shots should be and record them in a notebook before exposure. This action was to fix the request in the subconscious mind so that the abstraction could be classified accordingly. The conscious effort of the operator during the time of exposure did not seem to be as important as the predetermined desire. Whether the resulting pattern is influenced by the mental or emotional state of the operator could not be elucidated until now.

Chancellor techniques. The bathing process

Mr. Chancellor is developing two techniques: the bathing process and the photographic process. The first consists of inserting a 6 cm² Kodak ortho-film contrast process piece into a D8 developer tray located immediately in front of the operator, having previously decided on which mental request to make. After 1 to 1½ minutes, the developer film is removed and immediately placed in the fixative bath.

The patterns then appear and can be observed using the darkroom light.

The interesting feature of the process is that the photographs are taken without the use of a camera and without exposure to light. It was found that there is no obvious effect on the photographs, whether there is a development in total darkness or with the help of the darkroom light, as is normally used. The process has been studied by qualified observers, including Dr. Felix Saunders, formerly a professor of chemistry at the University of Chicago and currently involved in the study of photographic emulsions. In an effort to define the process, it has not been possible to exclude or establish the possibility of artifact.

Above: Photograph from the series, Photography of the Mind – Numinal Photography, 1968

However, it has been agreed that the extreme variation in shape and pattern density obtained by a plurality of people at the same time and under the same conditions would indicate that the patterns tend to suggest a hitherto unknown emanation of energy.

The nature of the image and the energy that causes it has naturally been the subject of much attention and interest. Attempts to perceptibly influence the pattern by various means other than chemicals or light - such as by spreading ammonia around the film or by introducing an electromagnetic field - have not been met with success so far. However, when the film is exposed in the DeLaWarr camera, a change in the image becomes evident.

The Photographic Process

I do not attempt to offer an explanation of these photographs, other than to say that the superimposed patterns appear in the process of fixation. In my opinion, the patterns and depth of image present variations

that are open to interpretation. A means of producing repeatable patterns is being sought, and experiments are being conducted to combine Chancellor's process with that of the DeLaWarr camera. The initial photographs taken before I left Oxford were very promising. Several people were able to obtain an image on the Mark I camera, which up to that date had been unable to do so when using ordinary Ilford plates. [Please see the website for product information.]

Daniel Taylor Shared the Link to a Presentation by Ian McGilchrist

Daniel wrote:

“I heard Iain McGilchrist give a presentation to coincide with the release of a new book he has coming out, called *The Matter With Things*, his *magnum opus* against the reductionist mechanistic model, said to be roughly 1,500 pages, with nearly 5,700 references.

He is a psychiatrist and philosopher in the U.K. One of the U.K. groups uploaded the video of his talk on to a link I will put below. You need to scroll down to “Our Unmaking of the World - and the Return to Being” to play the video.

Section VII – From the USPA Nostalgia Vaults

John Reed has been digitizing piles of USPA information. He shared the first few newsletters ever published by USPA. I didn't need to go far to find just the right article to share.

Here's the USPA's First President's First Message in Our First Newsletter, 42 Years Ago!

PRESIDENT'S MESSAGE

David
Rhoads,
President
U.S.P.A.

With this long awaited first issue of our own newsletter, psychotronics now has an American voice too. It may not be recognized right away in all corners of the land, and it hasn't been heard 'round the world, but it is learning and growing already. With growth comes maturity, and with maturity will come respect.

Continued on page 4

The rest of his letter reads as follows:

This association intends to gain recognition as the professional body of psychotronics – a dynamic field of today's science this goal will be reached only through demonstration of the professionalism of its members and their work.

But, you may say, professionalism has almost become a dirty word in today's society perhaps, then we must "get back to basics" – as the natural foods people so aptly put it.

What does it – or should it – need to be professional? In our context, this surely relates to character, spirit, methods, and's banding. Here are some observations on which your comment is invited

- The first concerns of any professional are with and about those persons with whom he works in the field in which he works.
- The professional's client and/or field is approached with as little personal emotional involvement as possible.
- The professional maintains high ethical standards in his work.

- Professionals here it is an attitude of optimism, pride, and joy based on the use of one's knowledge and abilities in a work that benefits others.
- Professional methods are those that can be followed and used by others skilled in the art to accomplish agreed-upon objectives.
- Professional standing is how one is seeing in the community and in the world – the respect of peers.

Perhaps the most powerful distorter of these characteristics is fear – both internal and external. It seems most important, then, for all investigators, practitioners, teachers, reporters, and publishers of this transpersonal science of psychic Tronics to conquer their own fears first, and then to approach the rest of the world by way of service not challenge and threat. Herein lies a professional way.

Now it's your turn. What does professionalism mean to you? How can the USPA advance the cause of professionalism for its members? How can we make professionalism in our field means something good to the general public? How can we best demonstrate the professionalism to our counterparts in the physical sciences?

Let this newsletter be your voice – activate it!

David O. Rhoads, Pres. U.S. Psychotronics Association

[Editor's note: I think every word in this first ever letter by the first USPA president ever should be copied and framed on our walls, a reminder of what we are and how we should maintain that integrity!]

Section VIII: USPA Lectures Digitazion – The *FIRST* Herculean Task is Done! **We Have Enough MP4's to watch till Jack Houck's (1939-2013) students run out of spoons!**

Background: Since the founding of USPA in 1975, hundreds of top speakers have made presentations at our annual conferences. These historic lectures were presented by people who are involved in the leading edges of science, especially the phenomena of Mind-Body and technology.

Technology Kept Changing: We tried to keep pace with technology. We went from Audio Cassettes in 1978 to VHS in 1982 to DVD's in 2003 to MP3 and Mp4 in 2015.

Creating the Library: In December of 2020, in the middle of the Covid Pandemic, (with the blessing of the Board of Directors) Scott Beutlich, treasurer of USPA, vetted several companies for conversion of all of our videos to digital media! He personally drove all the tapes and DVDs to two companies for the transfer, and picked them up.

The Master List: The transcription of over 1400 USPA Conference videos to mp4 is now complete. Scott and Gail have exchanged emails for over a year to complete and correct (and correct and correct) the full list of available videos.

You can now download the free PDF catalog of over 1400 Recordings-
Organized by Conference year (click the title)

Organized by Speaker, Alphabetically (ditto).

[Words to the wise – don't click "print" unless you have a lot of paper in the printer! The regular list is 54 pages long. The speaker list- without spaces and year titles is 40 pages. So, download the lists for perusal, and print just the last two order sheet pages to fill out your selections; one order sheet is for audio, one is for video. Please watch the titles; not every lecture is available in both formats. If you have any questions about a listing, please contact Scott at uspsychotronics@yahoo.com]

Making Them Pretty Scott is now going through each of the mp4 files, adding titles, the USPA Logo leader and legal disclaimers. It is a labor intensive project.

The next Herculean Task: Getting them in our Shop: As Scott gets these prepped, he uploads them to FileZilla. Gail then takes them, formats the URL in "USPA Style" and links them into the Products catalog on our website and some in the Members Only Tab.

Shop Here

We have been working hard to bring you more choices in the USPA store.

We now have increased from 242 to 263 Videos; from 35 to 83 audio recordings and from 4 to 23 Master Classes in our shop.

We also have and six journals and the 1985 fully-edited proceedings (a compilation of 28 speakers' papers presented at various conferences.)

We're putting more in the shop as quickly as we can, so check back often for your favorites. *If you just can't wait*, contact Scott uspsychotronics@yahoo.com and he'll give your choice a bump to the head of the line!

Section IX "Members Only" Perk: over 65 70 presentations for *free* online viewing.

One big advantage to being a member of USPA is the Members Only page of our website.

We have over 65 presentations FREE for viewing by USPA members. If you are not a member yet, you can fix that in just a few minutes at <https://www.psychotronics.org/join/>

There is a collection of Master Classes, audio and video lectures from past USPA conferences and livestream videos. Also, several of our Masterclass presenters have given us power point documents, interviews and schematics, which we are sharing on the members' page.

There are several special videos too. Here is a list of the presentations available to **members** of USPA. Each month, new additions to this list are highlighted in Yellow!

Section X - What Are Others Up To?

A Virtual Library

John Reed has done an enormous amount of preservation work for USPA. He has scanned to pdf thousands of pages of scientific work. He has preserved most of our USPA newsletters, journals and proceedings and much more in digital format. He continues to be the “official” librarian of USPA. Many thanks to John for all of his work! The full, ever changing list can be found here: [USPA Library](#).

John says: “As a whole, the members of USPA have a huge “library” of periodicals, but it just happens to be “distributed” among its members at this point in time. However, we can work together, and if you would be willing to loan, donate, Xerox, or as a last resort, sell copies of your periodicals to us for the USPA Library, then we will be able to build a large centralized library of all psychotronics periodicals. All USPA members will then be able to use these periodicals in their research or for their reading enjoyment.”

Section XII: USPA Conference Recordings – the Digitizing Project:

The Auction

Fall 2021 Update on this project: **A new member of USPA is purchasing EVERY SINGLE Viable Conference Lecture We Have Every Produced.** Talk about delving into a subject with intense purpose. We can't "name names" but we can say "Thank You" to this newcomer for their support. We hope you are entertained, educated and enlightened as you watch and listen.

USPA has found itself "buried" under a mountain of priceless historical data in the form of **audio cassettes, VHS Cassette Videos and DVD recordings**. What are we going to do with all the originals??

We're had a silent auction, and the purchase in the purple box above resulted.

However, we are still offering deals on large quantities of this "hardcopy" media stash. Details have been printed in previous newsletters and can be supplied on request to gailinvermont@outlook.com or on the website at [AUCTION](#).

We have doubles and quadruples of some of them. Let us know what you'd like and we'll give you a price you can't refuse! So, if you are interested in any of these items, please let us know. We are considering eBay! We'd rather sell them to you and ship direct than go through the Big E! Contact me gailinvermont@outlook.com Make us an offer we can't refuse.

Help USPA save money. If we can sell enough of this merchandise, we can downsize our storage unit!! ☺

What is USPA?

The United States Psychotronics Association (USPA) is a nonprofit 501(c)(3) organization founded in 1975 to serve as a focal point for scientific and technical exploration of the universe of esoteric, spiritual, and psychic arts in the United States of America.

The USPA has been hosting annual conferences for its membership since its formation and has featured countless individuals with cutting-edge viewpoints, research, or theories to share, allowing any interested persons to openly discuss their work.

What is Psychotronics?

USPA defines psychotronics as the science of mind-body-environment relationships, an interdisciplinary science concerned with the interactions of matter, energy, and consciousness.

Psychotronics involves the study, research, and applications of the physics and technology of the mind, brain, spirit, consciousness, and the underlying forces of life and nature – hence the term “psychotronics”. We believe that a true understanding of the universe must include the spiritual, as well as, the technical, and provide an opportunity for amateur researchers to present their findings along with the professionals. We stress research, with documentation of results, and practical applications, rather than personal experience and unsupported hypotheses.

USPA Generous Donors Recognition Page

The USPA would like to give special recognition on a continuing basis to people who have made generous donations to the United States Psychotronics Association in the past three years.

This special “USPA Generous Donors Recognition Page” will be carried in each issue of the USPA Journal & Newsletter, and new names will be added as donations are received.

We recognize the following individuals and extend our gratitude for their generosity:

Section XV– Classifieds - continued

If you have any “related items” to sell, (books, radionic machines, etc.) we charge 20 cents per word, 20.00 per half page with supplied artwork or photos or 35.00 per whole page. Your paid ad will run in the next three issues of the newsletter, or until you let us know your item is no longer for sale.

If you would like to publicize an event for a non-profit organization, USPA will advertise for you up to 750 words free. We ask for mutual links to our website from yours.

If you would like to publicize a for profit event, USPA will charge average advertising rates. Please contact Scott Beutlich at uspsychotronics@gmail.com. to discuss this well ahead of time.

Please Note: USPA is not responsible for the content or condition of items sold from this newsletter by any private person or company, nor does it back any treatment, modality or veracity of presentation. It does not back any claim of medical efficacy of machines or treatments. USPA cannot recommend specific radionic practitioners, or offer radionic treatments from its board of directors or officers.

Section XVI – J.G. Gallimore’s Five Rare Books Are Now Available!

Jerry G. Gallimore was one of the founders of the USPA in 1975, and was a leading researcher in psychotronics and unusual energies until his untimely death in 1989.

All five of J.G. Gallimore’s rare books on psychotronics subjects and unusual energies have been reprinted by the United States Psychotronics Association (USPA) and are being made available at a fraction of the cost that used copies were being sold at online.

So rare have these books been, that only a few libraries in the entire world had them in their collections, and some original Gallimore’s books were being sold for several hundred dollars each online. However, with these newly reprinted volumes, each will be available for less than \$30.00. All are: Available at Amazon.com

The Handbook of Unusual Energies: Volume 1 of Handbook of Unusual Energies	ISBN-10: 1543024998 ISBN-13: 978-1543024999	The first book of three volumes on unusual energies	468 Pages
<p>Gallimore discusses in depth the research, discoveries, and inventions of all the major researchers in subtle energies, the aether, biological 62 fields, pyramid energy, radiesthesia, radionics, crystal transduction, and related subjects.</p> <p>These include the works of Baron Von Reichenbach's and his odic energy, Dr. Wilhelm Reich's orgone energy, Dr. Harold Burr's biological life fields, Kozyrev's time mirror, Edgar Cayce's transmission of energy, and related research done by many others.</p> <p>Of particular importance is Gallimore's 127 page chapter on radionics. In this chapter he discusses in depth the research and devices of Ruth Drown, T. Galen Hieronymus, Rho Sigma, Dr. L. P. Corte and other prominent people in the radionics field.</p>			
Collected Properties & Writings of J. G. Gallimore: Volume 2	ISBN-10: 1543025048 ISBN-13: 978-1543025040	The second book of three volumes on unusual energies	258 Pages
<p>This is the second book in the “Unusual Energies” series that J.G. Gallimore published. It covers Gallimore's research on Albert Abrams, the founder of modern radionics, psychological physics, psychic energy, thought resonance, subtle energies, crystals, and related subjects.</p> <p>In addition, a number of radionics devices are discussed, such as the De La Warr Diagnostic Instrument. And very helpfully, the rates are provided for substances, body organs, and medical diseases and disorders. I very interesting interview of Christopher Bird, conducted by J.G. Gallimore is provided, as well as a discussion of Walter Russell and his research</p>			

Relationship Between Parapsychology and Gravity: Volume 3	ISBN-10: 1543024947 ISBN-13: 978-1543024944	The third book of three volumes on unusual energies	228 Pages	
<p>This book describes in depth the research and theories of J.G. Gallimore into the question of parapsychology transmission" -the question of how such things as telepathy, remote viewing, ESP, and similar phenomena can physically occur.</p> <p>He discusses the various emanations, radiations, and energy fields of all matter and life including the ancient Chinese energy called "chi" (qi), the ancient Indian's prana energy, Reichenback's "odic force," Gurwitsch's "mitogenic radiation," Wilhelm Reich's orgone energy, and other subtle energies. He shows how all of these energies are similar, how they interact, and how they are related to gravity.</p> <p>He also discusses crystals as transducers of these energies, and provides diagrams of devices that could potentially be used to harness or control these energies.</p>				
Transverse Paraphysics: The New Science of Space, Time, and Gravity Control	ISBN-10: 1543024920 ISBN-13: 978-1543024920		374 Pages	
<p>This book covers the visionary research and theories developed by J.G. Gallimore about anti-gravity, space, time, and biophysics.</p> <p>He discusses in depth the dimensions of space, time, and gravity, and new discoveries in each of these areas. In addition, he covers research being done on anti-gravity and then discusses anti-gravity patents that have been obtained.</p> <p>He also discusses the intriguing concept of aura energy fields surrounding humans and other living things, and how extra-sensory perception (ESP) might be explained through biophysical principles.</p>				
Unified Field Theory Research Book: Using Subjective Response to Psi-Plasma for Analysis of Properties Neutral Charge Plasma Fields	ISBN-10: 1543024831 ISBN-13: 978-1543024838		134 Pages	
<p>This book is about psychotronics, radionics, electromagnetic fields and waves, psi-plasma, plasma fields, subtle energies, bio-electromagnetic energy, and other unusual energies emitted by living and non-living things. It also is about how living things interact with and are affected by these energies, which may enhance health or harm health.</p> <p>The book covers the research of Wilhelm Reich on Orgone energy, of Baron Reichenback on the odic forces, as well as research done by Cazzamalli on brain radiations and Lakhovsky on using high frequency radiations to successfully treat cancer in humans. In addition, Lakhovsky used similar methods to enhance the growth of plants. Gallimore shows how these energies, forces, and fields are all inter-related and provides hypotheses and ideas on their possible unification.</p>
