Section I: What's Happening Soon?

Dan Davidson presents USPA Free Masterclass #23, Shape Power, Second Edition

This Month's Masterclass is sponsored at our highest level- "Free Energy Patron" by Don Paris Ph.D. (h.c.), Ilona Selke and Living from Vision.

Living from Vision started selling the SE-5 in 1987 and they assumed the administration of manufacturing, design and marketing in 2009 after Bill Lawson passed away. The latest advancements in radionics and the SE-5 can be found at www.se-5.com and www.quantumwellnesshub.com They also teach radionics with Lutie Larsen at www.radionics.online

**December 18th 2021, Dan Davidson
will present USPA Free

Dan Davidson presents USPA Free Masterclass #23, Shape Power, Second Edition

Dan

Davidson will talk about his book and “The Fundamental Discovery of How Shape Modifies Undifferentiated Universal Aether Into Electricity, Magnetism, and Nuclear Forces.”

This new revised treatise on how form converts universal aether into electromagnetic and gravitic forces and related discoveries in gravitational physics is the result of 56 years of personally funded research. Dan has broken the code on how the process works... how nature manifests from the virtual particle

soup of the aether into matter. The unified field theory which puts all this into perspective, complete with the mathematical physics and a morphology of atomic structure, is defined in this work, establishing the embryonic basis for a new branch of physics and chemistry. The implications of the breakthrough discoveries elucidated in this book have far reaching implications in every area of our lives.

“Shape power” is the ability of multi-dimensional shapes to manipulate the “aether”—the local space energy field which permeates all space and time. The aether as a term and a concept is not currently accepted in academic circles because the aether was supposedly disproved back in the early part of this century by the Michaelson-Morley experiment. Flaws in the experiment caused new experiments to be run which indicated the existence of the aether. The orthodox physics community has not formally accepted these results. However, research in the last 20 years has brought the aether back in a new guise called zero point energy (ZPE). [Click Here to Register](#)

About DAN A. DAVIDSON - by Dan Davidson

I have always been interested in science. In the 1940s, as a young boy, I tried to build a communicator that I envisioned. In the 1950's the transistor was invented (actually stolen from Dr. T. Henry Moray) so my naive desire to build a communicator was woefully deficient. By High School I realized that the earth's sciences and the planet in general were at a primitive level compared to what I remembered from somewhere else. A simple prayer to God to show me how the universe was built and functions opened doors to a fantastic life.

During college I would spend my spare time researching and studying and interviewing those who were brought into my orbit who had advanced knowledge of alternative science and associated information of past or current researchers. These researchers had built free energy devices, controlled gravity, invented radionics devices, etc. By the time I graduated from college with a couple of hard science degrees I had a good view of the current scientific system and a collection of various alternative science anomalies with a lot of backup data. For example, I took a trip with a friend who had similar interests. Plus he had a fantastic library on scientists like John E. W. Keely, Dr. Nikola Tesla, Dr. T. Henry Moray, Perrigo, etc. when information of this type existed nowhere else. We stopped in the Salt Lake area and visited Dr. T. H. Moray. He told us he had learned to build his 50 KW free energy unit

from studies with Dr. N. Tesla in 1925. He had just found a way to increase power to 100 KW. Moray told me, on a later trip, the secrets of the Moray Radiant unit which enabled me to get a free energy device working.

My studies of Tesla, Keely, and others, and their phenomenal mental abilities led me to study Yoga which promised an avenue to tune to my Higher Self and have advanced mental capabilities. Via simple concentration exercises, I learned the capability to solve problems quickly and accurately. I used this technique to take tests for science and mathematics.

Having to earn a living I worked at various Aerospace firms in the San Francisco bay area, known as Silicon Valley as understood today, and also worked elsewhere. This afforded me further education of applying my college studies and I contributed to many discoveries. This education eventually led to my being a much sought after Systems Engineer and Scientist. I could solve problems with the mind techniques I had learned from Raja Yoga. I had a consulting business for 13 years traveling to various companies solving problems.

Years ago, Peter Moscow (then USPA president) put together a team of us that went to England to study one of the few remaining Delaware Radionic Cameras. Our trip objective was to attempt a reactivation of the Delaware camera. My task was to provide a detail design layout so the camera could be reproduced. In addition, each of the team took turns trying to imprint an image on the camera's film.

At present I have retired from the outer world and pursue my research of the higher realms of spirit. It has been and continues to be an interesting life for me and my dear wife.

### Section III – In Case You Missed Last Month's MasterClass ☺

**Glen Rein presented "The Role of Longitudinal Scalar Energy and Bio-Energy in the Healing Process."**

**Glen said:** Healing is a complex orchestrated progression of four phases which involves multiple cell types and a variety of signaling pathways. Quantum healing involves balancing the energies in the body, whether they be electrical or subtle (Qi) in order to heal the imbalanced (quantum) information in the blueprint of our DNA.

If you missed the class, and if you are a member of USPA, you can see the whole presentation in our "Members' Only" tab in our website. <https://www.psychotronics.org/>. You can see **ALL** of our prior Masterclasses in this area, along with over 50 other audio and video presentations.

You can join USPA for 35.00 a year (Discounts for Service Personnel, Full-Time Students and three year purchase) by ***clicking those links.***

**"Exploring The Potential of Radionics in Art & Music— Quantec's Discoveries in Germany and the Experiments at Dragonline Studios, USA."**

Holiday Freebie to All

**A Link to a pre-recorded with Dan Davidson on "Manifesting from the Aether" will be shared with our email list as a Holiday gift.**

March (tba), 2022

**Sky David will speak on "The Luminous Radiance of the Human Lymph System"**

April (tba), 2022

**Dannion Brinkley will speak on "What dying teaches you about living"**

**In our hopeful sights are Claude Swanson and Jeffrey Martin. The Board is also setting up a Q & A Panel discussion on Radionics for Late Winter or Early Spring 2022**

### **January 15, 2022: John Allocca will present "Brainicity™ Brain Biofield Enhancement"**

Dr. Allocca is a medical research scientist and biophysicist with over 40 years of experience. He is the internationally published author of *The Neurotransmitter Solution for Migraine, Depression, and More; Starship Diabetes; Ascension in The New Age* and 59 other books and textbooks.

He developed a computerized biochemical analysis and nutritional plan software program (Orthomolecular Assessment and Reprogramming), and nutritional formulas for migraine prevention and other disorders. He also invented the Brainicity™ Brain Biofield Therapy system.

His previous work includes a computerized neonatal diagnostic system, a method for measuring intracranial pressure and vascular compliance noninvasively, development of computerized medical diagnostic systems and rehabilitative instruments. His biography can be found in Who's Who in Science and Who's Who in the World.

Section V – Membership Information:

There are some strange vibrations coming from deep inside the corporate structure of USPA. Scuttlebutt has it that there have been suggestions made that a committee be formed to discuss the advisability of, and the practical feasibility of raising our annual dues. Oh me oh my!

So, here's the thing, If you add to your subscription now, it will add a year (at our current price) to what you already have. IF you select a three year membership, it will extend three years beyond your current term.

To see the status of your membership, go to the website, log in and on the left choose "memberships" and then still on the left, choose "manage." That will show you when your membership will expire. If you are not sure of your status, email gailinveromont@outlook.com She will help you figure things out – including lost passwords and login problems.

NOW HERE IS SOME GOOD NEWS:

For a limited time only the board has decided to re-instate the lifetime membership option. For \$300.00 you can secure a membership in USPA for the rest of your life!

Because this will be a limited time offer, it is not on our website as a clickable option.

If you are interested, please contact Scott at uspsychotronics@yahoo.com Send him a quick email with your phone number and he'll contact you and take your information. He'll do the financial stuff and give me your details and I will plug your lifetime membership into our website database. You will get an email confirmation from the website. It is just that easy.

This would be a great way to help pump some "green lifeblood" into USPA and reserve your spot in our rolls forever.

Also, if you are a full time student or an active member of the Armed Forces of the US, please let Scott know. You can get a discounted annual membership. Scott will help you with this too. We try to make USPA membership accessible to as many people as possible.

Section VI SPECIAL REQUEST

Locating a Quantec Device User

One of our speakers is looking for anyone who may have a Quantec device developed by Peter von Buengner and is currently utilizing the Quantec system. We have found quite a bit of anecdotal information, but he is looking for someone who is actively using the device and system. Please contact Scott and he will link them up. Scott is at uspsychotronics@yahoo.com

Section VII – Section VI Articles of Interest

Dan Taylor Shares Information about Robert Bigelow and Dr. Jeffrey Mishlove

Some of our readers may be familiar with Robert Bigelow, and his long-term research into alternative science and technology. In 2020, he also founded the Bigelow Institute for Consciousness Studies, which you can read about here: <https://www.bigelowinstitute.org/about.php> One of their research topics has been the Survival of Human Consciousness after physical death, for which they funded an essay competition.

The winners have all been announced, and the top prize went to one of our own USPA 2018 Conference presenters – Dr. Jeffrey Mishlove! Jeffery spoke on "Highlights of Psi Research," Jeffrey's *Thinking Aloud* website is here: <https://thinkingallowed.com/> Jeffrey's winning paper, along with the 28 other placers, are all available here: https://www.bigelowinstitute.org/contest_winners3.php

Also, a good time to mention Jeffrey's delightful 2018 interview with our own Dr. Beverly Rubik on the topic of Psychotronics: <https://www.youtube.com/watch?v=33jasjn1zuA&t=3s>

Dr. Mishlove spoke at the 2018 USPA Annual Conference. His lecture, "Highlights of Psi Research" is available in our Shop here: <https://www.psychotronics.org/shop/highlights-of-psi-research-jeffrey-mishlove/>

Al's Alternative Energy Reading (watching) Corner –

Al's Alternative Energy Corner

Hello,

Please watch this movie. <https://www.thriveon.com/thrive-ii-free-viewing/>

It is captivating video about the blending of Science and Metaphysics, based on an understanding of organized energy. You can watch it free with a trial version of the program.

THRIVE II: This Is What It Takes brings viewers behind the scenes with the people and inventions that have the power to transform life for everyone. Unpacking the strategies, the science, and the principles that underlie the most potent solutions in energy, health, consciousness, and non-coercive self-organizing, THRIVE II brings compelling evidence that illustrates a new paradigm of science that Einstein was seeking, unveiling for the layperson an emerging coherent theory of the "Unified Field" and all that it implies.

Inspiring trans-political, grass roots, decentralized solutions, THRIVE II offers practical tools for reclaiming authority over our lives. From new sources of energy to breakthrough health cures, THRIVE II provides the insights and resources needed for viewers to take next steps in accessing and supporting the solutions that can truly create a world that works for everyone.

There is a free Seven day trial. Might be worth a peek...or six.

Happy Viewing,
Al Kacperski

USPA Proceedings, Bendini Tests: YOU Tell Me – Do you want more of this:

Way back in 1985 our board of directors decided to publish a collection of all of the papers submitted pre-conferences since USPA began. These were papers sent in by scientist hopefuls who wanted a speaking slot at the conference. The book was titled 1985 Annual Conference Proceedings.

These papers were too important to just let gather dust in some obscure file cabinet. Back then of course, there was no way to share them except by “Copy and Print.” So that is what they did.

It took hours to collect, organize and in some cases, proof read and re-type these documents. The final collection was sent to the printers and “perfect bound,” into a regular paperback book. It is 253 pages long.

Contributors, include Neils Primdahl, Jack Houck, Frederick Blau, Andrew M. Junker, Barbara Hero, Alice W. Rose, Joe Gambill, Kathleen Joyce, Jerry Fridenstine, Rocky McCollum, Lynn Surgalla,

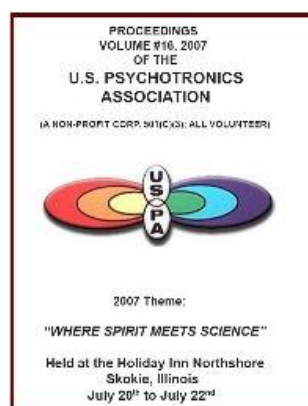

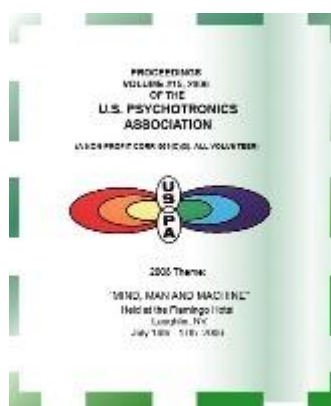

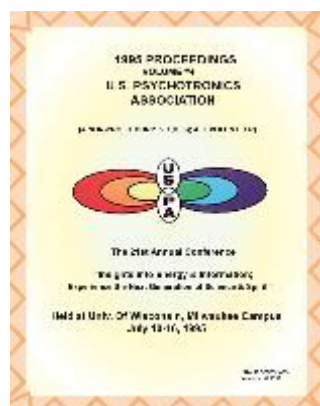

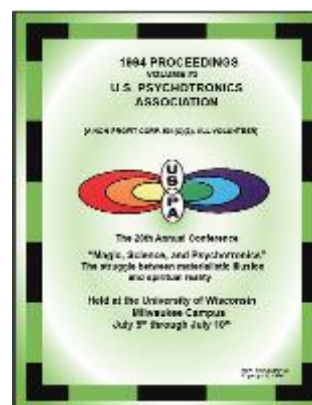

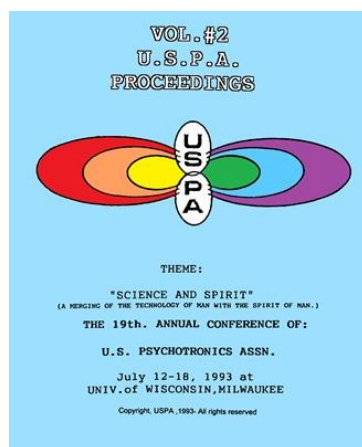

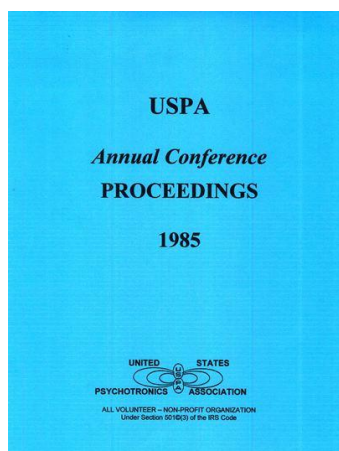

Frank Meyer, Eugenia Macer-Story, Mary Hardy, Tom Bearden, Moray King, Anna Mary Byerly, Rozanne Bazinet, and Ken Moore. Topics range from Scalar, Psychotronics, and Vacuum Polarization to Paranormal Photography, Music of the Planetary grid and a **Bedini / West German Type Pulsed DC Motor**

This Proceedings is available for purchase in our shop at:

<https://www.psychotronics.org/product-category/uspa-publications-27-renown-speakers-papers/>

Then USPA created “Journals,” a series of six bound collections of scientific papers. They were smaller but were meant to get out information in a more timely fashion. These covered the years 1989 to 1993. These are available separately or as a set in our shop.

In 1993, all the speakers submissions were gathered and copied and GBC bound for sale as Proceedings during the conference. Proceedings for 1993 and following years were created in hard copy, but they too are now being digitized. So far there are five, (six including the first one from 1985) in our shop.

On the next page is a taste of the 1985 proceedings, information on a Bedini / West German Type Pulsed DC Motor

Here is the “You tell me” part.

Do you want the rest of this article? If I get three people to respond, I will include the full article in the next newsletter. Contact me at gailinvermont@outlook.com

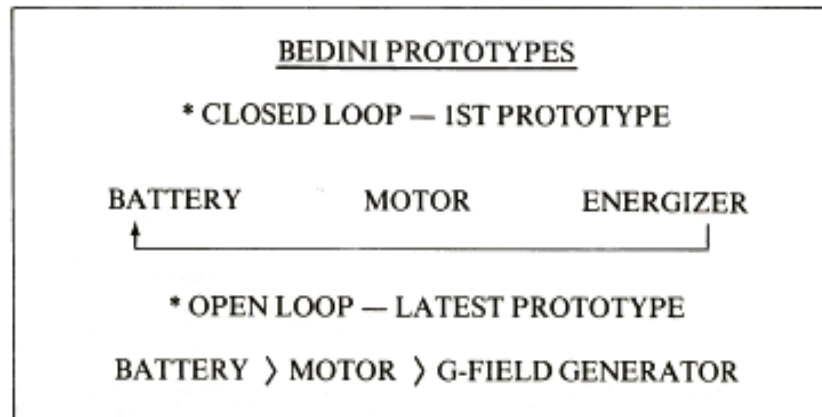

Here are the first two pages:

EXPERIMENTS WITH A BEDINI/WEST GERMAN TYPE PULSED DC MOTOR

By Ken Moore

The purpose of this paper is to document and illustrate the results of a series of experiments, addressing two prototype devices built by John Bedini of Los Angeles, California. The first prototype is a closed loop system consisting of a DC motor, flywheel with magneto, an energizer and a battery. The second prototype is an open loop device, consisting of a battery, a DC motor, and a gravity field (G-field) generator. Figure 1 lists these devices and identifies their principal components.

Figure 1.

Before proceeding with a description of the devices, it is appropriate to give credits to several persons who have worked very hard to assist with these and other experiments in this special Research and Development (R&D) field. First, to Tom Bearden, whose concepts, theories and suggestions have spearheaded the research towards free energy devices. Second, to Tom Herold and Eike Mueller, for their valuable help and assistance in getting information, performing experiments and disseminating results. Finally, to John Bedini, who has been a pioneer experimenter without equal in this field. In addition, John has shared his successes with the R&D community and has encouraged the free exchange of experimental data.

During the Spring of 1984 John introduced his first prototype¹, which was the closed loop system described above. The author was fortunate to be able to visit John's laboratory and witness first hand its successful operation in early May, 1984. The device used a mechanical controller (split-ring commutator) and easily kept its 12 volt battery at full charge (approximately 13 volts), while driving a 5-6 pound flywheel. The author's emulation model was patterned after John's but used an electronic controller designed by Hal Carey of Huntsville, Alabama. Figure 2 summarizes the main characteristics of this prototype.

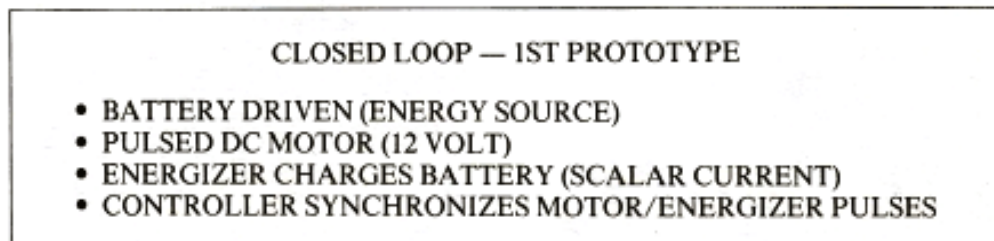

Figure 2. Main Characteristics of 1st Prototype

The battery is used for energy storage and can be any rechargeable type, but it was found that a normal wet cell, such as a car or motorcycle battery, seemed to work the best. The function of the battery is to store charge and to act as an "ionic transducer"², converting the energizer's longitudinal scalar wave to ordinary electromagnetic

energy, such that the battery will recharge itself between the motor pulses. The motor can be any commercial quality "off-the-shelf" item, whose specifications approximate the following:

Permanent Magnet, 12 volt DC Motor
1/10 to 1/6 horsepower
Ball-bearing type/rated for continuous duty.

The energizer circuit consists of two power transformers (120v primary/650v secondary) whose primaries are wired in series, in phase, and whose secondaries are wired in series, 180 degrees out of phase, in order to produce a scalar potential³. The cross-phased output (scalar potential) from these transformers is fed through a standard diode bridge to the battery. The real (measureable) current within the energizer circuit is small, usually within the milliamp range. Therefore, the energizer can use low wattage components.

The function of the controller is two-fold: (1) to pulse the DC motor, achieving a 25-30% duty cycle, and (2) to allow the energizer to pulse the battery between the motor pulses. This can be accomplished with either an electrical or mechanical device. However, unless the experimenter has access to a lathe and machine shop, it is submitted that an electronic type controller is easier to implement and it offers a wider variety of parameters that can be easily varied, making it a more useful research tool.

Figures 3-6 show photographs of the author's emulation of John's first prototype. In addition to the components described above, a 3300 microfarad capacitor was wired in parallel with the DC motor in order to compensate for its inductive reactance (i.e. when properly tuned, the motor should look like a nearly pure resistive load relative to the battery.)

Section VIII: USPA Lectures Digitazion – The *FIRST* Herculean Task is Done!

We Have Enough MP4's to watch till I run out of ways to butcher a newsletter!

Background: Since the founding of USPA in 1975, hundreds of top speakers have made presentations at our annual conferences.

Technology Kept Changing: We tried to keep pace with technology. We went from Audio Cassettes in 1978 to VHS in 1982 to DVD's in 2003 to MP3 and Mp4 in 2015.

Creating the Library: In December of 2020, in the middle of the Covid Pandemic, (with the blessing of the Board of Directors) Scott Beutlich, treasurer of USPA, vetted several companies for conversion of all of our videos to digital media! He personally drove all the tapes and DVDs to two companies for the transfer, and picked them up.

The Master List: The transcription of over 1400 USPA Conference videos to mp4 is now complete. Scott and Gail have exchanged emails for over a year to complete and correct (and correct and correct) the full list of available videos.

Making Them Pretty Scott is now going through each of the mp4 files, adding titles, the USPA Logo, leader and legal disclaimers. It is a labor intensive project.

The next Herculean Task: Getting them in our Shop: As Scott gets these prepped, he uploads them to FileZilla. Gail then takes them, formats the URL in "USPA Style" and links them into the Products catalog on our website and some in the Members Only Tab.

Download the **free PDF** catalog of over 1400 Recordings- NEWLY REVISED DECEMBER 1, 2021

[Organized by Conference year](#) (click the title)

[Organized by Speaker, Alphabetically](#) (ditto).

[Words to the wise – don't click "print" unless you have a lot of paper in the printer! The regular list is 54 pages long. The speaker list- without spaces and year titles is 40 pages. So, download the lists for perusal, and print just the last two order sheet pages to fill out your selections; one order sheet is for audio, one is for video. Please watch the titles; not every lecture is available in both formats. If you have any questions about a listing, please contact Scott at uspsychotronics@yahoo.com]

Section IX "Members Only" Perk: over 70 presentations for *free* online viewing.

One big advantage to being a member of USPA is the Members Only page of our website.

We have over 65 presentations FREE for viewing by USPA members. If you are not a member yet, you can fix that in just a few minutes at <https://www.psychotronics.org/join/>

There is a collection of Master Classes, audio and video lectures from past USPA conferences and livestream videos. Also, several of our Masterclass presenters have given us power point documents, interviews and schematics, which we are sharing on the members' page.

There are several special videos too. Here is a list of the presentations available to **members** of USPA. Each month, new additions to this list are highlighted in Yellow!

Section X - What Are Others Up To?

A Virtual Library

John Reed has done an enormous amount of preservation work for USPA. He has scanned to pdf thousands of pages of scientific work. He has preserved most of our USPA newsletters, journals and

proceedings and much more in digital format. He continues to be the “official” librarian of USPA. Many thanks to John for all of his work! The full, ever changing list can be found here: [USPA Library](#).

John says: “As a whole, the members of USPA have a huge “library” of periodicals, but it just happens to be “distributed” among its members at this point in time. However, we can work together, and if you would be willing to loan, donate, Xerox, or as a last resort, sell copies of your periodicals to us for the USPA Library, then we will be able to build a large centralized library of all psychotronics periodicals. All USPA members will then be able to use these periodicals in their research or for their reading enjoyment.” Please see his “BOLO” feature in section VII! I hope to make it a regular feature.

Section XI Editor’s Feedback Nook:

We’d like this to be an interactive newsletter! (Read that as “Somebody talk to me!!)

Send your article submissions, comments or questions to the editor, Gail Ruggles at gailinvermont@outlook.com (Please note; my email has changed.) I will respond to all!

Pick a topic and submit a comment or question. BE SURE to tell me if you want your name published or not.

- Would you like to present a Masterclass for USPA? Let us know your field of ‘expertise.’
- Who is your favorite USPA Speaker? (And why?) What did you learn unexpectedly?
- Would you attend an “in person” conference in 2022? WE REALLY WANT TO KNOW
- What radionic or psychotronics book or article have you read lately that you would like to share?
- Who would you like to see present a webinar on our website?
- Are you looking for info about a radionic instrument, scientist, book or article you can’t find?
- Would you like to make a news announcement, report something, make a request, or post a question about anything related to psychotronics, radionics or a related subject? Here’s your chance!

Section XII: USPA Conference Recordings – the Digitizing Project:

Fall 2021 Update on this project: A new member of USPA is purchasing EVERY SINGLE viable conference lecture we have every produced. Talk about delving into a subject with intense purpose!. We can’t “name names” but we can say “Thank You” to this newcomer for their support. We hope you are entertained, educated and enlightened as you watch and listen.

USPA has found itself “buried” under a mountain of priceless historical data in the form of **audio cassettes, VHS Cassette Videos and DVD recordings**. What are we going to do with all the originals??

We had a silent auction, and the purchase in the purple box above resulted. However, we are still offering deals on large quantities of this “hardcopy” media stash. Details have been printed in previous newsletters and can be supplied on request to gailinvermont@outlook.com or on the website at [AUCTION](#).

Let us know what you’d like and we’ll give you a price you can’t refuse! We are considering eBay! We’d rather sell them to our members and readers and ship direct than go through the Big E! Contact me gailinvermont@outlook.com Make us an offer we can’t refuse.

Help USPA save money. If we can sell enough of this merchandise, we can downsize our storage unit!! ☺

What is USPA?

The United States Psychotronics Association (USPA) is a nonprofit 501(c)(3) organization founded in 1975 to serve as a focal point for scientific and technical exploration of the universe of esoteric, spiritual, and psychic arts in the United States of America.

The USPA has been hosting annual conferences for its membership since its formation and has featured countless individuals with cutting-edge viewpoints, research, or theories to share, allowing any interested persons to openly discuss their work.

What is Psychotronics?

USPA defines psychotronics as the science of mind-body-environment relationships, an interdisciplinary science concerned with the interactions of matter, energy, and consciousness.

Psychotronics involves the study, research, and applications of the physics and technology of the mind, brain, spirit, consciousness, and the underlying forces of life and nature – hence the term “psychotronics”. We believe that a true understanding of the universe must include the spiritual, as well as, the technical, and provide an opportunity for amateur researchers to present their findings along with the professionals. We stress research, with documentation of results, and practical applications, rather than personal experience and unsupported hypotheses.

Section XIV - Our Donors and Masterclass Sponsors

USPA Generous Donors Recognition Page

Meet our new Masterclass Sponsors!

Masterclass Sponsored:	Our Sponsor:	Sponsorship Tier
Glen Rein - "The Role of Longitudinal Scalar Energy and Bio-Energy in the Healing Process."	Essentia, at https://www.essentia.ca/	Free Energy Patron (\$300 level)
Dan Davidson – "Shape Power, Second Edition"	Don Paris and Ione Selke https://livingfromvision.com/	Free Energy Patron (\$300 level)
John Allocca- "Brainicity™ Brain Biofield Enhancement"	Anonymous long time member of USPA ☺	9-49 Patron ** (\$ 200 level)
**9-49 is the radionic rate for General Vitality!		
These amazing people and their businesses have helped assure the continuance of our Masterclass presentations. We thank them very much!		

The USPA would like to give special recognition to people who have made generous donations to the United States Psychotronics Association in the past three years.

Section XV– Classifieds

If you have any “related items” to sell, (books, radionic machines, etc.) we charge 20 cents per word, 20.00 per half page with supplied artwork or photos or 35.00 per whole page. Your paid ad will run in the next three issues of the newsletter, or until you let us know your item is no longer for sale.

If you would like to publicize an event for a non-profit organization, USPA will advertise for you up to 750 words free. We ask for mutual links to our website from yours.

If you would like to publicize a for profit event, USPA will charge average advertising rates. Please contact Scott Beutlich at uspsychotronics@gmail.com. to discuss this well ahead of time.

Please Note: USPA is not responsible for the content or condition of items sold from this newsletter by any private person or company, nor does it back any treatment, modality or veracity of presentation. It does not back any claim of medical efficacy of machines or treatments. USPA cannot recommend specific radionic practitioners, or offer radionic treatments from its board of directors or officers.

Section XVI – J.G. Gallimore’s Five Rare Books Are Now Available!

Jerry G. Gallimore was one of the founders of the USPA in 1975, and was a leading researcher in psychotronics and unusual energies until his untimely death in 1989.

All five of J.G. Gallimore’s rare books on psychotronics subjects and unusual energies have been reprinted by the United States Psychotronics Association (USPA) and are being made available at a fraction of the cost that used copies were being sold at online.

So rare have these books been, that only a few libraries in the entire world had them in their collections, and some original Gallimore’s books were being sold for several hundred dollars each online. However, with these newly reprinted volumes, each will be available for less than \$30.00. All are: Available at Amazon.com

The Handbook of Unusual Energies: Volume 1 of Handbook of Unusual Energies	ISBN-10: 1543024998 ISBN-13: 978-1543024999	The first book of three volumes on unusual energies	468 Pages
<p>Gallimore discusses in depth the research, discoveries, and inventions of all the major researchers in subtle energies, the aether, biological 62 fields, pyramid energy, radiesthesia, radionics, crystal transduction, and related subjects.</p> <p>These include the works of Baron Von Reichenbach's and his odic energy, Dr. Wilhelm Reich's orgone energy, Dr. Harold Burr's biological life fields, Kozyrev's time mirror, Edgar Cayce's transmission of energy, and related research done by many others.</p> <p>Of particular importance is Gallimore's 127 page chapter on radionics. In this chapter he discusses in depth the research and devices of Ruth Drown, T. Galen Hieronymus, Rho Sigma, Dr. L. P. Corte and other prominent people in the radionics field.</p>			
Collected Properties & Writings of J. G. Gallimore: Volume 2	ISBN-10: 1543025048 ISBN-13: 978-1543025040	The second book of three volumes on unusual energies	258 Pages
<p>This is the second book in the “Unusual Energies” series that J.G. Gallimore published. It covers Gallimore's research on Albert Abrams, the founder of modern radionics, psychological physics, psychic energy, thought resonance, subtle energies, crystals, and related subjects.</p> <p>In addition, a number of radionics devices are discussed, such as the De La Warr Diagnostic Instrument. And very helpfully, the rates are provided for substances, body organs, and medical diseases and disorders. I very interesting interview of Christopher Bird, conducted by J.G. Gallimore is provided, as well as a discussion of Walter Russell and his research</p>			

Relationship Between Parapsychology and Gravity: Volume 3	ISBN-10: 1543024947 ISBN-13: 978-1543024944	The third book of three volumes on unusual energies	228 Pages
<p>This book describes in depth the research and theories of J.G. Gallimore into the question of parapsychology transmission" -the question of how such things as telepathy, remote viewing, ESP, and similar phenomena can physically occur.</p> <p>He discusses the various emanations, radiations, and energy fields of all matter and life including the ancient Chinese energy called "chi" (qi), the ancient Indian's prana energy, Reichenback's "odic force," Gurwitsch's "mitogenic radiation," Wilhelm Reich's orgone energy, and other subtle energies. He shows how all of these energies are similar, how they interact, and how they are related to gravity.</p> <p>He also discusses crystals as transducers of these energies, and provides diagrams of devices that could potentially be used to harness or control these energies.</p>			
Transverse Paraphysics: The New Science of Space, Time, and Gravity Control	ISBN-10: 1543024920 ISBN-13: 978-1543024920		374 Pages
<p>This book covers the visionary research and theories developed by J.G. Gallimore about anti-gravity, space, time, and biophysics.</p> <p>He discusses in depth the dimensions of space, time, and gravity, and new discoveries in each of these areas. In addition, he covers research being done on anti-gravity and then discusses anti-gravity patents that have been obtained.</p> <p>He also discusses the intriguing concept of aura energy fields surrounding humans and other living things, and how extra-sensory perception (ESP) might be explained through biophysical principles.</p>			
Unified Field Theory Research Book: Using Subjective Response to Psi-Plasma for Analysis of Properties Neutral Charge Plasma Fields	ISBN-10: 1543024831 ISBN-13: 978-1543024838		134 Pages
<p>This book is about psychotronics, radionics, electromagnetic fields and waves, psi-plasma, plasma fields, subtle energies, bio-electromagnetic energy, and other unusual energies emitted by living and non-living things. It also is about how living things interact with and are affected by these energies, which may enhance health or harm health.</p> <p>The book covers the research of Wilhelm Reich on Orgone energy, of Baron Reichenback on the odic forces, as well as research done by Cazzamalli on brain radiations and Lakhovsky on using high frequency radiations to successfully treat cancer in humans. In addition, Lakhovsky used similar methods to enhance the growth of plants. Gallimore shows how these energies, forces, and fields are all inter-related and provides hypotheses and ideas on their possible unification.</p>
