## **This is a USPA Newsletter of a “Different Color”**

**I am formatting this one topsy-turvy for a very good reason.**

**I am putting all the “regular stuff” – the cover page, the Table of Contents, the list of board members and the info about USPA and Psychotronics at the end.**

**What you need to read first – *Kind of Right now*— is on THE FIRST 2 PAGES!**

**Starting with:**

We’ve assigned Homework.

**YES, for real!**

**On March 20<sup>th</sup>, at 1:00 pm (EST)**

We’ll be hosting Our 2021 Virtual Conference Preview:

**A Panel Discussion and Interactive Q & A**

**Based on The Tom Bearden 1990 lecture**

**"Action at a Distance: The Fundamental Mechanism of Radionics."**

**Did We mention that this preview Q&A is FREE?**

**But...** if you are going to really enjoy it,

**You will need to *watch* Bearden’s Video first.**

**Now, if you are a member, it is free in the Members tab.**

**OR – you can join USPA *and then* get it free**

**Or- Pay 9.99 and download it to read at your leisure**

**BUT WATCH THE VIDEO**

***before you come to the Q&A***

**Questions can be emailed ahead of time to [contact@psychotronics.org](mailto:contact@psychotronics.org)  
and will be answered by a panel of experts in the March Zoom/Webinar.  
Members of the USPA Board, Ed Kelly and Tom Valone will be on the Panel.**

*If you need the “What is USPA? / What is Psychotronics?” I slid them onto page 13*

**NEXT: (Did you think that was the only cool thing you’d read in this newsletter?)**

**Oh contraire mon ami! Read On!**

**The *free* Bearden Q&A Webinar on March 20<sup>th</sup> is the send-off presentation  
for a summer of  
Unique USPA programming.**

**We will be providing virtual mini-conference weekends in**

**“The USPA Psychotronic Summer Trilogy.”**

**(Homework free)**

**We'll be sending out special announcements about this soon.**

## **Section I - What's New at USPA?**

### **USPA Masterclass #14: Eldon Byrd – “Recent Advances in Scalar Technology”**

The Next in our Series of Master Classes: Saturday, February 27th, 2021 at 12:00 PM CST.  
Here is the link to sign up: [JOIN THE MASTER CLASS](#)

Eldon was our feature “January Psychotronic Person.” As a friend of Tom Bearden, Uri Geller and other well knowns, he had a reputation of being “really out there.” It is difficult to condense a description of Byrd, but I'll give it my best shot.

He was an Electrical and Medical Engineer, a POLARIS submarine expert, a Strategic Systems Analyst, Operations Research Analyst, Cryogenic Engineer, Project Manager for the Navy's Metal Matrix Composites Program, and Project Manager of the Marine Corps Non-Lethal Electromagnetic Weapons Project, an expert in the biological effects of extremely low frequency magnetic fields. Oh, and he was involved in a very interesting Dolphin Project.

Here is a link to one of his papers on Scalars. (With Permission) [SCALARS Part 1& 2](#)

## **Section II – About That Homework We Mentioned on Page 1:**

### **Here is your homework syllabus for the Bearden Q&A:**

- In this issue, our “Featured Psychotronic Person” is Tom Bearden.
- So, in March, to kick off our 2021 USPA Virtual Conference, we will have a **free** [Zoom Panel Discussion with Q & A](#) based on the Tom Bearden 1990 talk "Action at a Distance: The Fundamental Mechanism of Radionics." (It is 90 minutes long)
- It is already in our members' area on our website for free viewing (under Classic Videos, 8<sup>th</sup> one down) and it is also for sale at [\\$9.99 in the products area](#). (Become a member and you can watch it for free – along with nearly 50 other Classics!)
- So *anyone* who wants to attend the Zoom in March can watch the video ahead of time on our website, or purchase and download it.
- Please watch for special emails just about this event.

**Become a USPA member for only \$35**

USPA is a 501(c) (3), founded in 1975 as the US Radionics Congress.

## Section III: This Month's Featured "Psychotronic" Person: Tom Bearden

### From Country Music to Continuous Motion

**Tom Bearden Speaking At Some of the USPA Conferences**

IMBD (The Internet Movie Data Base) offers a mini bio of Tom Bearden as follows: "Tom Bearden is a writer, known for *Energy from the Vacuum*(2006), *Unacknowledged* (2017) and *PBS News Hour* (1975)."

Okay, now that we know everything we need to know about Mr. Bearden, let's see what other sources have to offer!

One might wonder at the life journey of Lt. Col. Thomas Eugene Bearden. He was born in a very rural area in Cheniere, Louisiana, on December 17, 1930. When he was only two years old his mother died in a terrible car accident. He witnessed his father carry his fatally injured mother into the home, crying and screaming for help. Tom lived with the hurt from that for many years.

While he was attending Louisiana State College, he bought a second hand guitar, learned to play and joined with a couple of friends to play local gigs to make money to pay their way through school. Tom was a songwriter too! One of his songs, "Mother Went A-Walking," was written to express his grief over the loss of his mother and his love for her. It was performed by well-known singer Jim Reeves.<sup>2</sup>

During his college years, Tom was a member of ROTC, and in June 1954 Uncle Sam had called him into active military duty. While in the U.S. Army he continued his education and received his M.S. in Nuclear Engineering from the Georgia Institute of Technology in 1971. He graduated from the Guided Missile Staff Officer's Course at Fort Bliss, Texas in 1955, which is regarded by the U.S. Department of Defense as equivalent to an M.S. in Guided Missile Engineering.

He completed his 20 year service career and retired from the U.S. Army at the end of 1975 as a Lieutenant Colonel. He decided to settle in Huntsville, Alabama. He was employed as an aerospace engineer for companies such as System Development Corporation, Computer Science Corporation, and Colsa Corporation until mid-1993 when he decided to retire permanently. But it was only "retirement" in a "not-employed-by-anyone-but-myself" form.<sup>1</sup>

[The balance of this article comes from the Natural Philosopher's Database.<sup>3</sup> I found it to be one of the more concise biographies of his later life. Ed note.]

Lt. Col. Thomas Eugene Bearden (US Army, retired) personally developed and published the basis for a drastic revision of electromagnetic theory and engineering, based on the work of Whittaker and Maxwell. He authored or co-authored several books and over 70 major papers published in leading science and physics journals. He developed and owned many patents on electrical devices demonstrating over-unity, and was a pioneer investigator in healing technologies incorporating bio-electric fields. His work is primarily responsible for the widespread interest and research into scalar electromagnetic phenomena throughout the world over the past two decades.

He was a nuclear and aerospace engineer, war games and weapons analyst, and military tactician, having worked directly with Nike Ajax, Nike Hercules, Hawk, SHORADS, and Patriot guided missile systems. He had over 40 years' experience in air defense systems, technical intelligence, Soviet electromagnetic weaponry, artificial intelligence, computerized war games, and anti-radiation missile countermeasures.

His accolades include: President and CEO of CTEC, Inc., a private R&D corporation researching free energy devices and mechanisms for interaction of EM fields with biological systems; President of the Association of Distinguished American Scientists (ADAS); Editor and publisher of *Specula*, Journal of the American Association of Metascience (AAMS); Board member of the AAMS, the U.S. Psychotronics Association, and

Astron, a DC aerospace R&D corporation, noted for specialized RF antennas; senior scientist with aerospace company, Colsa Corp.; member of Mensa, the Society for the Investigation of the American Physics Teachers, the Alabama Academy of Science, the Air Force Association, the Association of the US Army, The American Nuclear Society, and the American Defense Preparedness Association. Tom Died on 4-6-17

As a scientist, engineer, researcher, author, inventor, musician, and a loving husband and father, Thomas E. Bearden was a true Renaissance Man. He shared Nikola Tesla's legacy and dream to provide mankind with free, clean, limitless energy that can propel mankind to the stars, and beyond. And he had endeavored in pursuit of a greater understanding of how the universe operates at its most fundamental levels.<sup>3</sup>

## Section IV: In case you missed it ☹

**January's Master Class #13: "Elizabeth Rauscher –Mind Dynamics in Space and Time" is still available! ☺**

The USPA masterclass #13 was a presentation from the 33rd Annual USPA Conference: "Mind Dynamics in Space and Time" by Elizabeth Rauscher, PhD. Dr. Rauscher was on the original research team in the physics department at Stanford University where she studied the process of remote viewing. She had a vast understanding of the psychic mind and had conducted over thirty years of research on intentional will and over eighty remote perception experiments.

Through her research, Dr. Rauscher found that we don't just see with the ordinary optical system. The human brain is wired to "see" in other ways, such as through visions and dreams that are not through our ordinary perception or ordinary modality of seeing. She set up a group at UC Berkeley to study remote perception.

In this masterclass, she explains the concept of "Mind/Body Duality" and what the inner workings of consciousness really are.

## Section V – Reviews and Recommendations by the Board of Directors of USPA

**Microcosm and Medium by Dr. Joseph P Farrell**

**A review by Michael Leger Jan. 2021**

What do JS Bach, Jim Morrison, John Archibald Wheeler, William Tiller and Tom Bearden have to do with each other? Mind control. Though my association is a bit facetious, Joseph P Farrell does a great job tying these disparate characters into a cohesive narrative, providing a unique and valuable perspective on mind control in the 21<sup>st</sup> century.

Written in 2018, *Microcosm and Medium* dives deeply into the topic. Dr. Farrell begins the book discussing Baroque and Renaissance music, arguing that the approach to the music composition of the time - summed up in the German term [Affektenlehre](#): the affect that music can have on the listener - is critical to an understanding of current mind-control methods. Composers of this period approached music as a *craft*, not an individual aesthetic endeavor. There was an understanding of what musical keys, meters, etc would have on the listener, and the composer wrote to create that affect.

Devolving from this height, with Modern Classical to Contemporary Classical music, Farrell notes that with the emphasis on individual expression, which occurred in all the Arts, humankind was torn from its cosmological roots. Individualism for its own sake became the definition of Art. This tearing asunder dramatically exploded in the 60s. Revolution was in the air. What better time to conduct a massive mind control experiment?

The music scene in LA took off like a rocket in the 60s. Seemingly from nowhere, bands like The Doors, The Byrds and The Monkees leapt onto the scene with hit songs stuffed into their backpockets. What makes this relevant here, as Farrell notes, is the incredible number of musicians from that scene who had military or covert intelligence parents. The most famous example is The Door's Jim Morrison's father - Admiral in the US Navy, and of Gulf of Tonkin fame. Frank Zappa's father was a chemicals expert, who worked at the MKULTRA lab on the East Coast. Many of the most famous bands were based in LA's Laurel Canyon, which just happened to have a state-of-the-art movie studio/military base at its head. If you wanted to blunt the revolution, what better way than sex, drugs and rock&roll? Farrell makes a convincing point that Western culture was 'suicided' there.

Around the same time, John Archibald Wheeler and associates proposed the [Anthropic Principle](#) in physics. Wheeler was a renowned physicist known for coining now common terms like black hole, wormhole and ‘it from bit’. For our purposes, this principle states that observers literally create the Universe by observing it. While there is quite a bit of argument on how accurate this statement is, it has very significant practical applications. Creating the Universe by interacting with it is something we know as radionics practitioners. Evidently, it is also well known by those who seek to control us. This section closes with a plausible assertion about [Superposition](#) being used on a societal scale with the ‘[Mandela effect](#)’.

Bill Tiller’s experiments are a great example of a practical application of the Anthropic Principle. Bill’s work might be familiar to many of you. Farrell covers Bill’s IIED (Intentionality Imprinted Electrical Device) experiments, highlighting the ability of these devices to be imprinted with intentions that create physically measurable changes in water pH, reproduction rates of fruit flies and more. Segueing from here, Farrell introduces Tom Bearden’s coverage of Soviet-era experiments in the same area and follows with Christian sacramental rites as another example of intentionality imprinted processes. Quite the feat.

Part Two of the book dives into the dark side of psychotronics. This is not a topic I see discussed very often, at least publicly, within our community. It opens with a quote from Col. John B. Alexander (US Army), in [Psychic Warfare ed. John White](#)

*Psychotronics can be defined as the interaction of mind and matter...And the possibility for employment as a weapon has been explored.*

Farrell covers the Nazi->MK Ultra->Manchurian candidate thread relying on Ostrander and Schroeder’s [Psychic Discoveries](#) for most of this section, highlighting Sirhan Sirhan/RFK and the Jonestown massacre to move the mind control narrative forward. Moving into Soviet experiments in the psychotronic space, he returns to the *affektenlehre* idea by presenting Soviet mind-control research that used music and sound to establish or enhance rhythmic entrainment in their subjects. The culmination of these experiments included ‘reincarnate genius’ and establishing brain-wave coherence in sender and receiver in various psychic experiments.

Establishing coherence in sender and receiver becomes the main driver for experiments in the US. Extensive work has been done mapping the mind, including the creation of an ‘electroencephalographic dictionary’ - a method of reading the mind at a distance and converting the EEG of the subject into words. The connection that gets established can be used to transmit as well as receive. ‘Voice of God’ technology—the ability to project words into someone’s head—is the deliverable. Farrell uses author [Gloria Naylor’s](#) and anesthesiologist [Dr. John Hall’s](#) descriptions of their experiences with involuntary mind-control to paint a vivid picture of current technologies. It appears to be possible to setup a resonance within the skull that allows for the transmission of sounds into the bones of the skull that the inner ear can interpret as music, words, etc.

The book concludes with some ideas about possible defenses against the usage of these types of technologies, including establishing a mental phase-conjugate mirror to feedback into the sender’s transmissions.

Dr. Farrell’s book was well worth the time spent. The book itself is somewhat choppy written and could use another pass by a copy reader. It also does not include an index, which I find unacceptable in the 21<sup>st</sup> century. The book was and is very thought-provoking and informative. Just the riff on the [Laurel Canyon scene](#) - details of which are fascinating and disturbing - make the book worthwhile. Check out the author’s site - [gizadeathstar.com](http://gizadeathstar.com) - to get your mind blown, yes even y’all with a deep radionics background. Highly recommended!

## AI's Alternative Energy Reading Corner – With AI Kacperski

(Editor's note: I wonder; are we getting closer to perpetual motion. So many things we now take for granted were deemed "impossible" less than 100 years ago. Will Thane Heins get us there, or just closer?)

## AI's Alternative Energy Reading Corner

This time on I want to feature experimenter Thane Heins. He has a lab in Canada and for years has built many unique motors and transformers. He has put all his work on YouTube. I spent many hours watching his fascinating videos with thought provoking concepts. Enjoy the show at

### A Peak at the Patent World of Thomas C. Heins:

#### Patents by Inventor Thane C. Heins

Thane C. Heins has filed for patents to protect the following inventions. This listing includes patent applications that are pending as well as patents that have already been granted by the United States Patent and Trademark Office (USPTO).

- **Flyback mode process harnessing generator action in electric motor**
  - **Abstract:** This invention pertains to a solution to the parasitic problem of motor armature reaction/generator action in electric motors which causes undesired effects such as neutral plane shift and flux weakening.
- **Generator and improved coil therefor having electrodynamic properties**
  - **Abstract:** The present invention relates to electrical generators and, in particular, to improvements to efficiency in electromechanical energy conversion in electrical generators and electric motors.
- **Bi-toroidal topology transformer**
  - **Abstract:** The present invention relates to electrical transformers and, in particular, to improvements to efficiency in energy conversion in electrical transformers
- **Toroidal Topology Transformer**
  - **Abstract:** The present invention relates to electrical transformers and, in particular, to improvements to efficiency in energy conversion in electrical transformers.
- **Generator and Improved Coil Therefor Having Electrodynamic Properties**
  - **Abstract:** The present invention relates to electrical generators and, in particular, to improvements to efficiency in electromechanical energy conversion in electrical generators and electric motors.

## An Oldie but Goodie – Bob Beutlich, 1978 Dowsing in Illinois

Section Two—Page Eight

LERNER NEWSPAPERS, WEEK OF NOVEMBER 21, 1978

# Simply divining

## Beutlich unearths some facts about unearthing artifacts

By JOYCE HADDOCK  
Correspondent

PICTURE A MAN clutching a Y-shaped branch and walking over a field. He is divining for water to build his well.

This seems to be a picture from long ago, but Rogers Park resident Bob Beutlich thinks it should be the view of the future. Beutlich, an electronics engineer, spoke to 25 persons at the Rogers Park library last week about the mysteries of divining, or dowsing, as he prefers.

Beutlich first explained that dowsing can be used for many things besides looking for water. His father, for instance, used dowsing rods as part of his job as a field engineer for the city. He located two sewers that had been covered over.

Beutlich said that dowsing is also useful for finding missing objects or persons. He referred to the story of Moses, who got water from a rock by tapping it with his walking stick. "Good old Moses was dowsing," Beutlich said. "His walking stick was a dowsing rod."

**BEUTLICH EMPHASIZED** that anyone can dowse, and that anything can be used as a dowsing

rod. "You are the operational device. The only limit is you. If you say you can only use one thing to dowse, then sure you will only be able to use that one thing," he said.

Beutlich cited scientific research by an English physicist who "proved" how dowsing works. By a series of tests on dowzers, the scientists determined that dowzers pick up magnetic currents, which in turn are picked up by the human's super-adrenal glands and the pituitary gland.

Beutlich said there are still some unanswered questions, however. He said that dowzers can find things which send off no magnetic current. "For example, I found a clay pipe. How could I do that?" he asked.

Another mystery is that if both the glands supposedly responsible for the power of dowsing are shielded, the power is heightened. Logically, all power should be blocked by this.

**BEUTLICH THEN** explained to an eager audience how to make and use their own dowsing rods.

"The problem with this business is that you're going to run into ye old rip-off artist," he warned. He

said that rods that you can buy for \$25 or more "aren't going to work any better than that lousy coathanger."

Beutlich cut off the tops of two hangers with wire clippers. He then straightened them out and bent them into two L-shaped wires. "Anything will work," he said. "Brass, steel, copper, anything."

Then, Beutlich said, the would-be dowzers are ready to start. They should hold the bottom part of the "L" loosely at the crease of their second fingers and close their hands into a loose fist. Then, walk gently over the area they're searching, always keeping in mind what they're looking for. For the best results, the rods should be kept parallel to each other and to the ground, he said.

Beutlich made a number of rods for the audience at the end of his talk. "Wouldn't it be wonderful if every guy knew how to use a dowsing rod?" he asked.

Beutlich's lecture was part of a series sponsored by Mind Frontiers, a group interested in para-normal research. Starting in January, the group will sponsor lectures the first Monday night of each month at the Rogers Park library. Lectures of ESP and hypnosis are being planned.

## **Section VII: USPA Conference Recordings**

**1978 to 1995 and 2015 Available now for purchase in mp3 format. MORE are coming soon!**

Since the founding of USPA in 1975, top speakers have made presentations at our annual conferences.

These historic lectures were presented by people who are involved in the leading edges of science, especially the phenomena of Mind-Body and technology. USPA has over 1400 of our lectures in various digital formats from 38 of our 41 annual conferences!

When we started recording talks in 1978, we only had audio cassettes tapes. Video recordings on VHS started in 1982 and ran thru 2002. DVDs started in 2003 and ran until the latest format MP4 digital Audio / Visual format began in 2015.

**The first eighteen years of these cassette recordings have now been converted to MP3 audio digital format. *These lectures can be ordered and transferred via email.***

## Section VIII - What Are Others Up To?

### TRANSCRIPTION, TRANSCRIPTION, TRANSCRIPTION!

ALL of our VHS and DVD recordings were sent out for conversion to digital media! That herculean task is done!

Now, Scott Beutlich, our secretary/treasurer (has ‘volunteered’) to go through them on the computer, adding titles and the USPA Logo and such. It is a labor of love, ‘cuz he sure isn’t getting rich doing it. ☺

The board of directors of USPA decided to spend the money to do this, partially in response to a sad trend we’ve seen in the past.

When a famous scientist dies, more often than you would believe, his or her work – experiment notes, recordings, journals, etc. – is unceremoniously destroyed by family members. We hope to offset this by preserving as much of the history of our branch of science as possible and make it available for the scientists, researchers and students of the future.

We will be presenting some of these in our “members’ only” page on our website, likely in a rotating fashion, but as soon as we get the database fully corrected, (we’re getting close) they will all be available for purchase as MP3 or MP4 files!

### The Auction

In conjunction to all of this work, USPA has now found itself “buried” under a mountain of this priceless historical data in the form of audio cassette, VHS Cassette Videos and DVD recordings.

So, we thought – Once it is all digitized, what are we going to do with all the originals??

We’ll Auction them off to the highest bidder. Details have been printed in previous newsletters and can be supplied on request to [gailinvermont@outlook.com](mailto:gailinvermont@outlook.com)

### Searching and Finding:

**This will become a regular feature by John Reed starting with our March Issue.**

**If you are looking for anything on psychotronics or radionics, let us know; we’ll add that to our request corner.**

John Reed was editor of the Newsletter from 2016 through 2019. He put out a lot of feelers for articles and books to fill the USPA library. Earlier in this newsletter, I shared the work John has been doing and why USPA feels that this is such important work. I did a personal “search and find” in a previous newsletter, and the readers came through.

I will be only asking for one thing each month. If someone has, shares or can tell us where to find it, they will be mentioned and be awarded the “USPA Research Angel Award” in our next newsletter.

I’d like to start off with something I think should be easy. John mentioned to me that the American Society of Dowsters once had a “mimeographed” paper newsletter that was done on 8.5 X 11 inch copy paper and mailed out to its members. We’d love to have a copy of them, for our files. As they were organized in 1961, any issues that you might have would be gladly accepted.

If you don’t want them back, just send them to John. If you want to keep them, perhaps you can scan them to pdf and email them to him. IF you want to keep them and don’t have a scanner, send them to me. I will scan them the day I receive them and put them right back in the mail to you the next day!

**Email John or me to set up the donation. [joreed43@gmail.com](mailto:joreed43@gmail.com) or [gailinvermont@outlook.com](mailto:gailinvermont@outlook.com)**

## A Virtual Library

Our former newsletter editor John Reed has done an enormous amount of this preservation work too. He has scanned to pdf thousands of pages of scientific work. He has preserved most of our USPA newsletters, journals and proceedings and much more. He continues to be the “official” librarian of USPA. Many thanks to John for all of his work! The full, ever changing list can be found here: [USPA Library](#). Here is an introduction from John:

Hello everyone,

In order to do good psychotronics research of any kind, whether it involves radionics, radiesthesia, psionic medicine, dowsing, subtle energies, biophotons, or any other subject covered by psychotronics, one needs access to as much of the periodical literature as possible on these subjects.

To address this issue, the United States Psychotronics Association has resolved to identify and acquire every psychotronics related periodical that has ever been published anywhere in the world, and to retain copies in the “Virtual USPA Library.”

As a first step, we have developed the following list of periodicals that focused on or frequently had articles on psychotronics related subjects. But this is only a preliminary list, and we know that there are probably more psychotronics periodicals that have been published, but that we do not yet know about.

So please look over the following list and check your own personal physical libraries and your computers to see if you have any issues of the periodicals on this list. Even if you just have one issue, please let us know, because that may be the one we need to complete all the issues of a particular periodical. Please write to me (John) at: [joreed43@gmail.com](mailto:joreed43@gmail.com) since I am the USPA librarian and archivist coordinating this effort, and tell me what periodicals you have.

As a whole, the members of USPA have a huge “library” of periodicals, but it just happens to be “distributed” among its members at this point in time. However, we can work together, and if you would be willing to loan, donate, Xerox, or as a last resort, sell copies of your periodicals to us for the USPA Library, then we will be able to build a large centralized library of all psychotronics periodicals. And all USPA members will then be able to use these periodicals in their research or for their reading enjoyment.

To the future,  
John Reed

## Section X Editor’s Feedback Nook:

### We’d like this to be an interactive newsletter!

(Read that as “Somebody talk to me!!)

Send your comments or questions to the editor, Gail Ruggles at [gailinvermont@outlook.com](mailto:gailinvermont@outlook.com)

(Please note; my email has changed.) I will respond to all!

### Do you need a writing prompt?

- Who is your favorite USPA Speaker? (And why?)
- Where did you last attend the USPA Conference and what did you like most?
- What’s the neatest single thing you learned at a conference, that you didn’t expect to learn?
- What radionic or psychotronics book or article have you read lately that you would like to share?
- Who would you like to see present a webinar on our website?
- Are you looking for info about a radionic instrument, scientist, book or article you can’t find?
- Would like to make a news announcement, report something, make a request, or post a question about anything related to psychotronics, radionics or a related subject? Here’s your chance!

### What is USPA?

The United States Psychotronics Association (USPA) is a nonprofit 501(c)(3) organization founded in 1975 to serve as a focal point for scientific and technical exploration of the universe of esoteric, spiritual, and psychic arts in the United States of America.

The USPA has been hosting annual conferences for its membership since its formation and has featured countless individuals with cutting-edge viewpoints, research, or theories to share, allowing any interested persons to openly discuss their work.

### What is Psychotronics?

USPA defines psychotronics as the science of mind-body-environment relationships, an interdisciplinary science concerned with the interactions of matter, energy, and consciousness.

Psychotronics involves the study, research, and applications of the physics and technology of the mind, brain, spirit, consciousness, and the underlying forces of life and nature – hence the term “psychotronics”.

We believe that a true understanding of the universe must include the spiritual, as well as, the technical, and provide an opportunity for amateur researchers to present their findings along with the professionals. We stress research, with documentation of results, and practical applications, rather than personal experience and unsupported hypotheses.

### **USPA Generous Donors Recognition Page**

The USPA would like to give special recognition on a continuing basis to people who have made generous donations to the United States Psychotronics Association in the past three years.

This special “USPA Generous Donors Recognition Page” will be carried in each issue of the USPA Journal & Newsletter, and new names will be added as donations are received.

The USPA wishes to recognize the following individuals and extend our gratitude for their generosity:

#### **Donors 2020**

**Michael Leger (aetherea LLC)**  
**Alexander S.C. Rower**  
**Michael Picker**  
**PMH Atwater**  
**Renee Gerow**

#### **Donors 2019**

## Section XII – Classifieds

**If you have any “related items” to sell**, (books, radionic machines, etc.) we charge 20 cents per word, 20.00 per half page with supplied artwork or photos or 35.00 per whole page. Your paid ad will run in the next three issues of the newsletter, or until you let us know your item is no longer for sale.

**If you would like to publicize an event for a non-profit organization**, USPA will advertise for you up to 750 words free. We ask for mutual links to our website from yours.

**If you would like to publicize a for profit event**, USPA will charge average advertising rates. Please contact Scott Beutlich at [uspsychotronics@gmail.com](mailto:uspsychotronics@gmail.com). to discuss this well ahead of time.

(We will have a disclaimer on the page saying that USPA is not responsible for the content or condition of items sold from this newsletter, nor does it back any treatment, modality or veracity of presentation. It does not back any claim of medical efficacy of machines or treatments. USPA can not recommend specific radionic practitioners, or offer radionic treatments from its board or officers.

## Section XIII – J.G. Gallimore’s Five Rare Books Are Now Available!

Jerry G. Gallimore was one of the founders of the USPA in 1975, and was a leading researcher in psychotronics and unusual energies until his untimely death in 1989.

All five of J.G. Gallimore’s rare books on psychotronics subjects and unusual energies have been reprinted by the United States Psychotronics Association (USPA) and are being made available at a fraction of the cost that used copies were being sold at online.

So rare have these books been, that only a few libraries in the entire world had them in their collections, and some original Gallimore’s books were being sold for several hundred dollars each online. However, with these newly reprinted volumes, each will be available for less than \$30.00. All are: [Available at Amazon.com](http://Available at Amazon.com)

<b>The Handbook of Unusual Energies: Volume 1 of Handbook of Unusual Energies</b>	ISBN-10: 1543024998 ISBN-13: 978-1543024999	The first book of three volumes on unusual energies	468 Pages
Gallimore discusses in depth the research, discoveries, and inventions of all the major researchers in subtle energies, the aether, biological 62 fields, pyramid energy, radiesthesia, radionics, crystal transduction, and related subjects. These include the works of Baron Von Reichenbach's and his odic energy, Dr. Wilhelm Reich's orgone energy, Dr. Harold Burr's biological life fields, Kozyrev's time mirror, Edgar Cayce's transmission of energy, and related research done by many others. Of particular importance is Gallimore's 127 page chapter on radionics. In this chapter he discusses in depth the research and devices of Ruth Drown, T. Galen Hieronymus, Rho Sigma, Dr. L. P. Corte and other prominent people in the radionics field.			
<b>Collected Properties &amp; Writings of J. G. Gallimore: Volume 2</b>	ISBN-10: 1543025048 ISBN-13: 978-1543025040	The second book of three volumes on unusual energies	258 Pages
This is the second book in the “Unusual Energies” series that J.G. Gallimore published. It covers Gallimore's research on Albert Abrams, the founder of modern radionics, psychological physics, psychic energy, thought resonance, subtle energies, crystals, and related subjects. In addition, a number of radionics devices are discussed, such as the De La Warr Diagnostic Instrument. And very helpfully, the rates are provided for substances, body organs, and medical diseases and disorders. I very interesting interview of Christopher Bird, conducted by J.G. Gallimore is			

provided, as well as a discussion of Walter Russell and his research

ISBN-13:  
978-1543024944

The third book of  
three volumes on  
unusual energies

228  
Pages

This book describes in depth the research and theories of J.G. Gallimore into the question of "parapsychology transmission" -the question of how such things as telepathy, remote viewing, ESP, and similar phenomena can physically occur.

He discusses the various emanations, radiations, and energy fields of all matter and life including the ancient Chinese energy called "chi" (qi), the ancient Indian's prana energy, Reichenback's "odonic force," Gurwitsch's "mitogenic radiation," Wilhelm Reich's orgone energy, and other subtle energies. He shows how all of these energies are similar, how they interact, and how they are related to gravity.

He also discusses crystals as transducers of these energies, and provides diagrams of devices that could potentially be used to harness or control these energies.

Control**

ISBN-10:  
1543024920  
ISBN-13:  
978-1543024920

374  
Pages

This book covers the visionary research and theories developed by J.G. Gallimore about anti-gravity, space, time, and biophysics.

He discusses in depth the dimensions of space, time, and gravity, and new discoveries in each of these areas. In addition, he covers research being done on anti-gravity and then discusses anti-gravity patents that have been obtained.

He also discusses the intriguing concept of aura energy fields surrounding humans and other living things, and how extra-sensory perception (ESP) might be explained through biophysical principles.

**Unified Field Theory Research Book:

Neutral Charge Plasma Fields**

ISBN-10:  
1543024831  
ISBN-13:  
978-1543024838

134  
Pages

This book is about psychotronics, radionics, electromagnetic fields and waves, psi-plasma, plasma fields, subtle energies, bio-electromagnetic energy, and other unusual energies emitted by living and non-living things. It also is about how living things interact with and are affected by these energies, which may enhance health or harm health.

The book covers the research of Wilhelm Reich on Orgone energy, of Baron Reichenback on the odic forces, as well as research done by Cazzamalli on brain radiations and Lakhovsky on using high frequency radiations to successfully treat cancer in humans. In addition, Lakhovsky used similar methods to enhance the growth of plants. Gallimore shows how these energies, forces, and fields are all inter-related and provides hypotheses and ideas on their possible unification.
