About George – he has more than four decades of experience in sustainable and organic farming and gardening, and has practiced radionics for well over three decades.

George says, "I'm George Kuepper, originally from Wisconsin but, for many years now, a resident of the Mid-South. I earned a Master of Science from the University of Wisconsin in Agronomy in the mid-1970s and am blessed to have spent my entire career working on sustainable and organic agriculture for such noble entities as The Center for the Biology of Natural Systems in St. Louis, The National Center for Appropriate Technology (ATTRA), and the Kerr Center for Sustainable Agriculture in Oklahoma.

I discovered radionics in the 1980s while struggling to revive an Oklahoma blueberry planting where agricultural chemicals had been both overused and misused. The planting was the cornerstone for an eight-acre U-pick farm project for the aforementioned Kerr Center.

We were replanting about 10% of the berry patch annually due to disease and other losses. Conventional testing by Universities and private labs told me what the symptoms were, but didn't help much with corrective action, other than to suggest more chemicals. It was certainly not sustainable. I'd reached the point where I'd try almost anything."

Around that time, I learned of radionics from several independent sources. I chose to listen to what the Universe seemed to be telling me, and I allowed myself to be dragged—often kicking and screaming—into a New Age art and science. I took my first radionics class in 1986 from the well-known radionics trainer, Steve Westin. Thanks to his skill and patience, I returned to the farm with enough confidence to begin turning things around. It was amazing how rapidly change happened."

Listen to his presentation in September to find out what worked for him!

Andrew Michrowski started this Masterclass by covering the basics on wireless technology - especially ELF and 5G, safety and health issues, where the technology applications are headed in the future, and protective measures.

Beverly Rubik followed after a short break and her talk focused on the possible role of 4G & 5G in the COVID-19 pandemic and the overlapping symptomatology. <u>A reprint of the side bar chat</u> of that masterclass is printed later in this Newsletter.

This recorded video Masterclass is now available for free viewing to all USPA Members on our Members Page on the website <u>https://www.psychotronics.org</u> It is presented in two parts.

Section IV – Great Lectures coming in our Continuing Master Class Series:

October 23, 2021, Toby Grotz will present "Mirror Image Symmetry in Windings of Coils"

Toby Grotz is an electrical engineer who has been involved on both sides of the energy equation: exploring for oil and gas and geothermal resources and in the utility industry working in coal, natural gas, and nuclear power plants. While working in the aerospace industry, he worked on space shuttle and Hubble telescope testing in a solar simulator and space environment test facility. He has also been involved in research for new energy sources and novel forms of hydrogen production.

Toby attended the first Earth Day while at the University of Connecticut and took the first course offered in Environmental Engineering. His passion for environmental issues was fired by reading Rachel Carson's book Silent Spring, which he says should be required reading for every high school student. In 1976, Toby met Jim Fowler an organic farming pioneer who owned the first health food store in Denver and introduced him to the research and work of natural farming advocates of the 1900's, such as Lady Eve Balfour and J.I. Rodale.

As a preview of his presentation, Toby sent the following:

Presentation Objectives

- 1. Present the history and background of the Inventor and his work.
- 2. Describe the methods used to wind coils using Mirror Image Symmetry.
- 3. Present test results using the winding technique on a small lab bench motor.
- 4. Present the concept of an Aether Tap, a phenomenon the presenter feels is present in many of anomalous results and devices in the cold fusion, zero point energy research, and over unity fields of research.

November 20, 2021, Glen Rein will present "The Role of Longitudinal Scalar Energy and Bio-Energy in the Healing Process."

Dr. Rein received his Ph.D. from the University of London in Bio (neuro)chemistry in 1983. In 1984 he became a professor at Mt. Sinai Hospital, where he researched bio-electromagnetics. Beginning in 1987 he studied psychoneuroimmunology at Stanford University Medical Center. He is a Director of Quantum Biology Research Lab and Research Scientist, Estee Lauder, suggests that externally applied quantum fields produce biological effects at the cellular level. He has presented lectures at USPA Conferences over twenty times.

### December (Tentative date 18<sup>th</sup>) Dan Davidson will present a Live Q/A on "Shape Power"

Scott Beutlich said, "My dad [Bob Beutlich] loved the [earlier] little book "shape power'... he had a small stack of extras he would give away to people.

Also, Dan Davidson spoke at USPA Conferences in 1993, 1995, 2010 and 2018." The 2018 video "Dan Davidson Aetheric Physics Cosmic Structure and Aether Function" is available in our products area now, and the other three will be soon.

Dan Taylor shared this about Dan Davidson last month: Dan Davidson, has recently (July 2021) revised and expanded his book, *Shape Power*, into a larger Second Edition. Dan first used the term "Shape Power" in his first book on free energy... "Energy Breakthroughs to New Free Energy Devices". At that time he devoted an entire chapter to the effects of geometrical shapes manipulating the

aetheric field around them. The prime example of this is the ability of the *pyramid* shape to collect and focus aetheric energy. Numerous books have been written on "pyramid energy" and pyramids have gone and still go through various stages of fad within the new-age circles.

The ability of pyramid energy to cause various effects is well documented. Every shape manipulates aether in some manner. A cone is an example of an infinite sided pyramid and as such will do many of the same things which a simple pyramid does. The American Indian teepee is an example of a near conic shape which has many of the same energy effects as the pyramid.

This book will explore how different shapes manipulate the aether and how *Shape Power* can be used by you to enhance your life, your home, office, and your general well-being.

A Practical Radionic Course: Discover How to Help Family and Friends with Radionics. [from: <u>https://www.radionic.co.uk/discover-how-to-help-family-and-friends-with-radionics/]</u>

This course is a practical 5 week online course, being held on Mondays, from September 13<sup>th</sup> to October 18<sup>th</sup>, 2021. The Classes will be held (in England from 7:00 to 8:30 pm.) so, US time, that is SIX hours earlier CHICAGO time, or 1:00 in the afternoon. [Noon US Eastern Time; 11:00 US Mountain Time and 10:00 am US Pacific Time.]

### A little Background:

"The Radionic Association aims to promote the practice of radionics as an honourable and skilled profession, to foster research into the science of radionics and to provide a centre for the collection and dissemination of information. The Association is directed by a Council and the office is based in Baerlein House, Deddington, Oxfordshire. We publish the Radionic Journal which is supplied free of charge to all members and maintain a lending library of over 1000 titles.

### About the class they are offering: <u>https://www.radionic.co.uk/discover-how-to-help-family-and-friends-with-radionics</u>

The following 5 week course will be led by tutors of the School of Radionics and is for those who would like to be able to help their family and friends. Each session will consist of a

practical tutorial of about one hour followed by 30 minutes of Q&A. On completion you will have sufficient information to carry out a basic analysis and to give simple treatments to support health and wellbeing. It is necessary to be proficient at dowsing before commencing the course. **See tutorial date below**. Places are limited. After confirmation of your booking on the course you will be emailed a detailed pdf manual to guide you through the sessions. You will receive a small DT10 instrument on which to broadcast your treatments and a pack of colour gels. You will need to buy a pendulum and to have a timer.

**MONDAY 13 SEPTEMBER: Subtle anatomy with Carol Bamber Judd & Kathryn Palfrey** In this session we look at the aura and subtle bodies: the etheric which mirrors our physical, and our emotional and mental bodies.

### MONDAY 20th SEPTEMBER: Chakras and the endocrine system with Gisela Norman & Amanda Pratt

Our chakras are our powerhouses. They may be overactive or underactive. They distribute energy throughout the body via our endocrine glands.

### MONDAY 27TH SEPTEMBER: Systems and structures with Gisela Norman & Kathryn Palfrey

We look at the individual structures of the body and dowse to find out how well each system is functioning. We will note the worst location from our readings. Each person will have factors in life which have contributed to ill health and we look at common causes and try to understand how they are reflected in our analysis.

### MONDAY 4TH OCTOBER: Treatment protocol with Carol Bamber Judd & Amanda Pratt This session will go through the method used to broadcast healing treatments using the small DT10 instrument. We will use simple treatments with rates and consider the Bach flower remedies and the use of colour both of which work well with radionics.

### MONDAY 11th OCTOBER: NO SESSION – PRACTISE AT HOME WEEK

### MONDAY 18TH OCTOBER: Consolidating your work.

\*NOTE TWO WEEKS LATER with a panel of all the tutors

This general session will be an opportunity to review the work covered in the four previous sessions and also a time to discuss with the tutors and share with others any difficulties or successes you may be having with your case/analysis.

### COST: £325

**MANUAL:** You will be emailed a pdf copy of our accompanying manual. However, as you will be working from this during sessions, we strongly advise buying a simply bound copy which can be ordered from the office for £12.50 plus postage; UK £3.20, Europe £6.50 ROW £11.25.All sessions will be recorded and will be available on our webpage. Attendees receive a Certificate of Attendance upon completion of the course. We're very pleased to be sharing this basic information and method of radionics however this course does not qualify you as a radionic practitioner.

### DOWSING: MONDAY 6th SEPTEMBER With Jacqueline Moore & Gisela Norman It is

essential to be able to DOWSE before taking this course because details of the analysis and treatments are discovered by this method. Please sign up if you need to learn first. There will be a 1½ hr session on 9/6/21. **COST:** £50 **MANUAL:** You will be emailed a pdf copy of the small accompanying manual. However, as you will be working from this during the session, we strongly advise buying a simple bound copy which can be ordered from the office for £6.00 plus postage; UK £3.20, Europe £6.50 ROW £11.25 Please note that if purchasing both manuals, only one charge for postage will be applied.

### Neutrinos

Until 2015, neutrinos were thought to be ghost particles that physicists believed could impart no energy when they were intercepted since they had no mass. In 2015, Takaaki Kajita and Arthur McDonald won the Nobel Prize for Physics for their discovery of neutrino oscillations.

Neutrinos were proven to have mass. What followed was a race to develop ways to extract electrical energy from them. They are everywhere in space so an energy harvesting device could operate day or night, indoors or outdoors, underground or in outer space. The people at <u>https://neutrino-energy.com/</u> are working on this right now and have a patent. Many other groups are quietly working to harness this energy source according to the web site.

According to the news link at <u>https://neutrino-energy.com/</u> Germany and India are creating a self-charging electric PI car powered by Neutrinovolactic technology.

There is a video demo on the web site showing a calculator powered by neutrinos. It is amazing. The devices will look like a battery but will never need charging. The materials used are copper, carbon, and silicon.

### Treatment of Covid-19—A Short Case History by Nick Franks

[ed note: this was sent to me a few months ago by a contributing member and has languished in the 'stuff for the newsletter pile' for too long. For serious radionic practitioners, reports of actual field cases are too important to ignore. At the end provide a link to download the whole article pdf] (Photo Josh Thomas)

On 13th December 2020 I was contacted by CH, living in California, one of my LRI-ULTRA instrument users. CH is a 25-years' experienced acupuncturist who is adapting her techniques for distant treatment using the LRI instrument. Her message was (by email):

Hi Nick, My friend CF has Covid. She is lying on the couch, fatigue and muscle aches especially in her calves. It would be awesome if you can help her. She has 2 sons and is isolating away from her family as they are testing negative at this point..... Covid is spreading like wildfire here.

All LRI-ULTRA instruments share a common field so it is possible to access any person entered to the field from any point by any of the user-practitioners. I am sometimes asked to consult on difficult cases. The patient's permission is also required; but the need to send me a witness is removed. Extremely useful at the present time as airmail from North America is running very slowly.

**13.12.20** — *CF*'s symptoms: Resting pulse: 62. Temperature: 97.3 degrees. Oxygen: 98%. Headache, fatigue, sore throat (visible sore on one side), nasal congestion, muscle pain. No cough. No fever.

Actual reading for COVID virus at commencement: 75% (peak). I append some general comments on measuring techniques and treatments below.

### TREATMENTS

1. VIRAL ISOMORPH #13 98%

2. MULTIPLE INFECTION ISOMORPH #1 96%

3. ITALIAN CYPRESS (CUPRESSUS SEMPERVIRENS) (herbs and plants)

The high percentages recorded above suggest that the infection load was increasing. Note that these are peak, not average, readings.

**14.12.20**—Thanks so much Nick. CF grew up with terrible asthma so I think she can use the support. I will check in with her this morning and give update. I also added some acupuncture points for her. (She hasn't used inhaler in 10 years but she used them multiple times a day from a child to 34. She's 44 now.)

**14.12.20**—*CF*'s report this morning: Okay. Slept just fine. Same as yesterday. The sore in my throat is painful. Fatigue. Two chief complaints. Nasal congestion a close third. Otherwise, doing okay.  $O_2$  at 98%.

**16.12.20**—*This is from CF: Actually starting to feel better today. Day 9 finally! Sore throat pretty much gone. (It was a canker sore on my left side). Headache gone. Still have nasal congestion. Fatigue much less. Not achy. Just sore from lying down so much.* 

4. MULTIPLE INFECTION ISOMORPH #11 98%

5. THROAT CHAKRA - INTEGRITY WITH CELLS 86%

6. LUNGS - INFLAMMATION 54%

7. RESPIRATORY SYSTEM - INFLAMMATORY RESPONSE 97% homoeopathic)

13. ARION DISTINCTUS (homoeopathic)

14. CROWN CHAKRA - INTEGRITY WITH ETHERIC PRE-PHYSICAL 98%

15. ETHERIC BODY - SHOCK 97%33

### 21.12.20

16. TISSUES - NORMALISATION 82%

### 26.12.20 — Cough is gone! I finally felt myself on Tuesday. Three weeks after it all began.

**31.12.20** —(treatment continues to improve respiratory system and give general toning)

17. RESPIRATORY - ALLERGY 95%

18: PINUS PALUSTRIS (homoeopathic)

### THE TREATMENTS

It can always be said that a case like this might just resolve naturally without any intervention. However, given the general unpredictability of how each individual will respond to COVID, it is better in my opinion to take a proactive approach. There are various important points in an acute and potentially serious or even mortal case such as this, which particularly has the added problem of a pre-existing condition (asthma).

• There must be a suitable range of treatments available and an ability to find and apply them as required.

- Regular reporting is essential from the patient or carers as to progress or lack of it, since symptoms may change rapidly. Reporting provides a guide to the practitioner and enables rapid assessment as to how to respond. Radiesthesic testing may indicate improvements but confirmation is extremely helpful.
- Paraphysical-level pathology requires paraphysical-level intervention. Treating Subtle Bodies may be of use but as the illness has progressed to the point of physical symptoms, derangements to subtle energies have passed the point where correcting these alone may be insufficient to resolve the situation. Nevertheless, paraphysical treatments should where possible also contain the subtle body counterpart remedy images e.g. Etheric, Astral, etc.

All treatments were performed with my LRI-ULTRA instrument, which provides a very large number of treatments across paraphysical and subtle bodies.

When taking readings I here follow the method set out by the late Malcolm Rae (1913 - 1979) who proposes we take readings over the range 0 to 100%, the higher the reading, the more serious the potential problem. Rae also advises we take PEAK readings i.e. at the worst point; AVERAGE readings are possible, but as they tend to be bland they do not necessarily indicate the potential seriousness of the situation. As an example you might get RESPIRATORY - VIRAL INFECTION 90/08 (peak/average). In this case the infection is concentrated; but if we later read 90/21, then we know that the infection is tending to spread, rather than being stable or potentially decreasing. If we *only* took an average reading, 8% might not indicate that action was necessary; many people have low level infections which are normally kept in check by the immune system.

If I write VIRAL ISOMORPH #13 98% what I mean is that this treatment is strongly required i.e. 98% out 100. This implies to me that the infection is increasing as the treatment requirement is stronger than the actual virus reading.

Finally, you can take a reading for TOTALITY OF SYMPTOMS, again using the Peak/Average method. The idea of Totality of Symptoms is a lift from homoeopathic thinking, where the totality indicates what needs to be treated in the repertorization (matching of symptoms to the remedy picture). In the radionic approach I mean when looking at the patient *as a whole*, what is the worst point and what is the average of symptoms? So in this case there are various readings higher than the actual COVID reading, which indicates generally there is more to be dealt with than just the presenting problem. You can then ask *'which remedy will most decrease the totality of symptoms*?' or *'how many remedies are required to normalise the patient*?' (etc)

ISOMORPHs come from my core collection of anti-infective treatments. At the present time there are 154 of these, including, for example BACTERIAL ISOMORPHs 1 - 23; VIRAL ISOMORPHs 1 - 24, and etc. The basic concept is that pathogens have energy points-these may be approximated to the concept of acupuncture points. These points allow inflow of Prana (life force energy). In the case of VIRAL ISOMORPHs the basis is that viruses have typically around 40 such points which are configured in various ways per virus species. If the relevant points can be blocked or choked off, the virus will be unable to continue functioning due to insufficient Prana and can be removed much more easily by the immune system1. The underlying argument in radionics is that nothing can infect if it cannot first install itself in the host's energy bodies—this is the prodrome; the physical infection follows. ISOMORPH means 'similar structure', in the sense that viruses share common attributes which make them identifiable as viruses as opposed to some other kind of microorganism<sup>2</sup>. Thus the ISOMORPHs can be applied in various combinations in the attempt to counteract infection. Obviously, the stronger or deeper the infection, the more difficult the task; but the general idea should be clear. Different ISOMORPHs can be combined according to the situation; the design includes the ability to avoid killing off useful microorganisms (commensals etc). Larger pathogens e.g. bacteria and parasites, will have more energy points to contend with.

HERBS & PLANTS have a wide range of uses and can be applied radionically. Here treatment 3 ITALIAN CYPRESS assists in the anti-infective process.

HOMOEOPATHY is well-known. The well-selected remedy will tend to have a broader-ranging effect than many pure radionic treatments, which tend to be more localised in their action.

LOCATION treatments go back to the work of Ruth Drown. One of Drown's fundamental ideas was that if we feed back the 'normal' energy pattern to diseased cells or organs, the body would in time be encouraged to replace the diseased cells with normally functioning cells.

NORMALISATION treatments encourage the target cells or organs to function normally i.e. the disease process may have been removed but function and energy may not have returned to normal. We read of so-called 'long COVID' where people are suffering a range of symptoms long after the disease proper has finished—another reason to give treatment in the acute phase of the infection. Such symptoms are generally referred to as Acute Miasms or Sequelae and here, homoeopathy and normalisation and related treatments may be very useful.

### **GENERAL COMMENTS**

This is actually the second COVID case I have treated. Unlike the first where herbs etc were also used, here we have a largely clear case of use of Radionics only, so a pretty straightforward assessment of efficacy can be made. Nevertheless, both cases had a successful outcome.

At the time of writing the world is in the deep grip of COVID infection and we are informed that approximately 1.8 to 2 million people have perished. Medical dogma is that no treatment exists and that the only way out is mass vaccination using a novel genetic process which may, or may not, have considerable effects on the health of humanity downstream. Marked 'unknown'; presumably the greatest mass medical experiment in history is under way.

It would seem, however, that various forms of complementary medicine can in fact produce curative results and I do not think it is out of order to suggest that many lives could have been saved if the medical establishment was not so bound in its dogma and alternative approaches were allowed to be used, albeit *in lieu* of drugs. Homoeopathy for instance offers various remedies and those interested may investigate for example *Phosphorus* and *Carboneum Oxygenisatum* (Carbon Monoxide). Lynn McTaggart reports on various protocols in *What Doctors Don't Tell You* (issue October 2020), including high-dose vitamin therapy, iodine, micro-immuno therapy, BHT3, herbs, and so on. Practitioners may also test for the strength of IgA (Immunoglobulin A)4, which is heavily involved in defence against infection; if necessary, various radionic techniques may be applied to attempt to enhance it.

In general, however, there is widespread suppression of alternative information and approaches which some may think is morally or even criminally culpable, given the lack of any orthodox treatment. Another result is a large rise in the number of conspiracy theories (many of them complete lunacy) which are poisoning the mental atmosphere of humanity and breaking down, not increasing, trust in the medical and other authorities and generally tearing up the social fabric. But as we know from history, nothing kills like dogma—and history repeats itself. [ed note: I put all the footnotes at the end]

- 1. I do not know if the Isomorphs work on pathogens in vitro as I do not have lab facilities to carry out such tests.
- 2. I am aware of pleomorphic theories of pathogen origin. These come from researchers such as Bechamp, Rife, Naessens etc and suggest that the healthy body contains healthy life organisms (somatids etc) which in the presence of negative terrain in the body become converted into various forms of pathogenic microorganisms. Whether this theory is correct or not I cannot say, but in my opinion the immediate task is to deal with what is there and on the attack, however it might have arisen. Further investigation is doubtless required.
- 3. Butylated hydroxytoluene
- 4. 'Immunoglobulin A (IgA) is the first line of defense in the resistance against infection, via inhibiting bacterial and viral adhesion to epithelial cells and by neutralization of bacterial toxins and virus, both extra- and intracellularly. IgA also eliminates pathogens or antigens via an IgA-mediated excretory pathway where binding to IgA is followed by polyimmunoglobulin receptor-mediated transport of immune complexes.' ### **Registration has reopened for afor Scientific Exploration (SSE) and the Parapsychological Association (PA) convention replay!**

Over the summer, the Society for Scientific Exploration (SSE) and the Parapsychological Association (PA) joined together to sponsor an online convention that emphasized the connections between all of us – seen and unseen. Sixty professionals and students from around the globe joined us to share their latest research at the edges of science, along with an audience of hundreds.

Both the SSE and PA follow strict scientific approaches to pursue a better understanding of the human condition through explorations of anomalous experiences, remote viewing, subtle energies of the body, intentional and unconscious effects on objects and electronics, encounters, and other events related to the nature of consciousness.

This convention replay offers a final opportunity for registrants to view the entire library of <u>over 60 recorded</u> talks and Q&A sessions from that event between now and December 15, 2021. Enjoy this opportunity before it is gone. (If you attended, the replay is free.)

### Section VII: USPA Lectures Digitazion – The *FIRST* Herculean Task is Done! We Have Enough MP4's to watch till Glen Rein runs out of new topics for lectures!

**Background**: Since the founding of USPA in 1975, hundreds of top speakers have made presentations at our annual conferences. These historic lectures were presented by people who are involved in the leading edges of science, especially the phenomena of Mind-Body and technology.

**Technology Kept Changing:** We tried to keep pace with technology. We went from Audio Cassettes in 1978 to VHS in 1982 to DVD's in 2003 to MP3 and Mp4 in 2015.

**Creating the Library:** Recently, Scott Beutlich, treasurer of USPA, with the blessing of the board of directors, vetted several companies for conversion <u>of all of our videos</u> to digital media! In December of 2020 in the middle of the Covid Pandemic, he drove all the tapes and DVDs to two companies for the transfer.

**The Master List:** The transcription of **all** of over 1400 USPA Conference videos to mp4 is now complete. Scott and Gail have exchanged emails for over a year to complete and correct (and correct and correct) the full list of available videos.

You can now download the free PDF catalog of over 1400 Recordings- by year: <u>Organized by</u> <u>Conference year</u> (click the title). If you prefer to see the list sorted by speaker? Here it is: <u>Organized</u> <u>by Speaker, Alphabetically</u> (ditto).

[Words to the wise – don't click "print" unless you have a lot of paper in the printer! The regular list is 54 pages long. The speaker list- without spaces and year titles is 40 pages. So, download the lists for perusal, and print just the last two order sheet pages to fill out your selections; one order sheet is for audio, one is for video. Please watch the titles; not every lecture is available in both formats. If you have any questions about a listing, please contact Scott at uspsychotronics@yahoo.com]

**Making Them Pretty:** Scott is now going through each of them, adding titles, the USPA Logo leader and legal disclaimers. It is a labor intensive project.

**The next Herculean Task: Getting them in our Shop:** As Scott gets these prepped, he uploads them to FileZilla. Gail then takes them, formats the URL in "USPA Style" and links them into the Products catalog on our website.

*Currently we 220 Video recordings, have 35 audio recordings, and 4 Master Classes for sale.* We're putting more in the shop as quickly as we can, so check back often for your favorites. If you just can't wait, contact Scott and he'll give your choice a bump to the head of the line!

### Section VIII "Members Only" Perk: over 65 presentations for free online viewing.

### New additions are highlighted in yellow

### One big advantage to being a member of USPA is the Members Only page of our website.

We have over 65 presentations. There is a collection of Master Classes, livestream videos and audio and video lectures from past USPA conferences. We've added several special videos too. Here is a list of the presentations available to **members** of USPA. Not a member yet? You can fix that in just a few minutes at <u>https://www.psychotronics.org/join/</u>

### Section IX - What Are Others Up To?

### A Virtual Library

John Reed has done an enormous amount of preservation work for USPA. He has scanned to pdf thousands of pages of scientific work. He has preserved most of our USPA newsletters, journals and proceedings and much more in digital format. He continues to be the "official" librarian of USPA. Many thanks to John for all of his work! The full, ever changing list can be found here: USPA Library.

John says: "As a whole, the members of USPA have a huge "library" of periodicals, but it just happens to be "distributed" among its members at this point in time. However, we can work together, and if you would be willing to loan, donate, Xerox, or as a last resort, sell copies of your periodicals to us for the USPA Library, then we will be able to build a large centralized library of all psychotronics periodicals. All USPA members will then be able to use these periodicals in their research or for their reading enjoyment."

### Section XI: USPA Conference Recordings – the Digitizing Project's Fallout:

### The Auction

USPA has found itself "buried" under a mountain of priceless historical data in the form of audio cassettes, VHS Cassette Videos and DVD recordings. What are we going to do with all the originals??

We're having a silent auction, and offer them off to the highest bidder. Details have been printed in previous newsletters and can be supplied on request to <u>gailinvermont@outlook.com</u> or on the website at <u>AUCTION</u>.

We have doubles and quadruples of some of them. Let us know what you'd like and we'll give you a price you can't refuse! So, if you are interested in any of these items, please let us know. We are considering eBay! We'd rather sell them to you and ship direct than go through the Big E! Contact me gailinvermont@outlook.com Make us an offer we can't refuse.

SAVE USPA money. If we can sell enough of this merchandise, we can downsize our storage unit!!

### What is USPA?

The United States Psychotronics Association (USPA) is a nonprofit 501(c)(3) organization founded in 1975 to serve as a focal point for scientific and technical exploration of the universe of esoteric, spiritual, and psychic arts in the United States of America.

The USPA has been hosting annual conferences for its membership since its formation and has featured countless individuals with cutting-edge viewpoints, research, or theories to share, allowing any interested persons to openly discuss their work.

### What is Psychotronics?

USPA defines psychotronics as the science of mind-body-environment relationships, an interdisciplinary science concerned with the interactions of matter, energy, and consciousness.

Psychotronics involves the study, research, and applications of the physics and technology of the mind, brain, spirit, consciousness, and the underlying forces of life and nature – hence the term "psychotronics".

We believe that a true understanding of the universe must include the spiritual, as well as, the technical, and provide an opportunity for amateur researchers to present their findings along with the professionals. We stress research, with documentation of results, and practical applications, rather than personal experience and unsupported hypotheses.

### Section XV – J.G. Gallimore's Five Rare Books Are Now Available!

Jerry G. Gallimore was one of the founders of the USPA in 1975, and was a leading researcher in psychotronics and unusual energies until his untimely death in 1989.

All five of J.G. Gallimore's rare books on psychotronics subjects and unusual energies have been reprinted by the United States Psychotronics Association (USPA) and are being made available at a fraction of the cost that used copies were being sold at online.

So rare have these books been, that only a few libraries in the entire world had them in their collections, and some original Gallimore's books were being sold for several hundred dollars each online. However, with these newly reprinted volumes, each will be available for less than \$30.00. All are: <u>Available at Amazon.com</u>

Gallimore discusses in depth the research, discoveries, and inventions of all the major researchers in subtle energies, the aether, biological 62 fields, pyramid energy, radiesthesia, radionics, crystal transduction, and related subjects.

These include the works of Baron Von Reichenbach's and his odic energy, Dr. Wilhelm Reich's orgone energy, Dr. Harold Burr's biological life fields, Kozyrev's time mirror, Edgar Cayce's transmission of energy, and related research done by many others.

Of particular importance is Gallimore's 127 page chapter on radionics. In this chapter he discusses in depth the research and devices of Ruth Drown, T. Galen Hieronymus, Rho Sigma, Dr. L. P. Corte and other prominent people in the radionics field.

This is the second book in the "Unusual Energies" series that J.G. Gallimore published. It covers Gallimores research on Albert Abrams, the founder of modern radionics, psychological physics, psychic energy, thought resonance, subtle energies, crystals, and related subjects.

In addition, a number of radionics devices are discussed, such as the De La Warr Diagnostic Instrument. And very helpfully, the rates are provided for substances, body organs, and medical diseases and disorders. I very interesting interview of Christopher Bird, conducted by J.G. Gallimore is provided, as well as a discussion of Walter Russell and his research

This book describes in depth the research and theories of J.G. Gallimore into the question of parapsychology transmission" -the question of how such things as telepathy, remote viewing, ESP, and similar phenomena can physically occur.

He discusses the various emanations, radiations, and energy fields of all matter and life including the ancient Chinese energy called "chi" (qi), the ancient Indian's prana energy, Reichenback's "odic force," Gurwitsch's "mitogenic radiation," Wilhelm Reich's orgone energy, and other subtle energies. He shows how all of these energies are similar, how they interact, and how they are related to gravity.

He also discusses crystals as transducers of these energies, and provides diagrams of devices that could potentially be used to harness or control these energies.

This book covers the visionary research and theories developed by J.G. Gallimore about antigravity, space, time, and biophysics.

He discusses in depth the dimensions of space, time, and gravity, and new discoveries in each of these areas. In addition, he covers research being done on anti-gravity and then discusses anti-gravity patents that have been obtained.

He also discusses the intriguing concept of aura energy fields surrounding humans and other living things, and how extra-sensory perception (ESP) might be explained through biophysical principles.

This book is about psychotronics, radionics, electromagnetic fields and waves, psi-plasma, plasma fields, subtle energies, bio-electromagnetic energy, and other unusual energies emitted by living and non-living things. It also is about how living things interact with and are affected by these energies, which may enhance health or harm health.

The book covers the research of Wilhelm Reich on Orgone energy, of Baron Reichenback on the odic forces, as well as research done by Cazzamalli on brain radiations and Lakhovsky on using high frequency radiations to successfully treat cancer in humans. In addition, Lakhovsky used similar methods to enhance the growth of plants. Gallimore shows how these energies, forces, and fields are all inter-related and provides hypotheses and ideas on their possible unification.
