Section I: What's Happening Soon?

January 15, 2022: John Allocca will present "Brainicity™"

What is Brainicity™? (Summary)

Brainicity™ Brain Biofield Enhancement uses several different technologies combined to provide a relaxing and therapeutic experience.

The heart produces electromagnetic signals, which is called electrocardiography (ECG) or the heart biofield. The brain produces electromagnetic signals, which is called electroencephalography (EEG) or the brain biofield. The brain produces an erratic biofield that can be deciphered. Brain waves are classified by frequency as Delta, Theta, Alpha, and Beta waves.

Brainicity™ uses integrated harmonic wave audio patterns to facilitate multiple brain biofield resonances. Too many harmonics can cause the brain to be overwhelmed because it has a limit of how much information can be processed at a given time resulting in the brain ignoring the inputs. Too little harmonics will not be effective.

An integrated wave will produce a limited number of harmonics, which can be interpreted by the brain. Resonance occurs when the frequency of a periodic waveform is in phase with an external periodic waveform of equal or almost equal frequency to the internal frequency. This causes the system to oscillate with a larger amplitude than the force applied at other frequencies.

Waveforms in the frequency range of 0.5 to 20 hertz are below the human hearing range. In order for the brain to be able to sense brain wave frequencies it cannot hear, binaural application of different frequencies are applied to each side of the brain.

The difference between two frequencies produces a third frequency as interpreted by the brain, which is within the human hearing range of the brain wave frequencies (brain biofield). Then, the resulting complex pattern of waveforms is set to achieve multiple resonances with the brain's own waves.

Our 24th Masterclass: Brainicity™ with Dr. John Allocca

[Sign up Here](#) Dr. Allocca is a medical research scientist and biophysicist with over 40 years of experience. He is the internationally known author of *The Neurotransmitter Solution for Migraine, Depression, and More*; *Starship Diabetes*; *Ascension in The New Age*; and over fifty other books and textbooks.

Dr. Allocca developed a computerized biochemical analysis and nutritional plan software program (Orthomolecular Assessment and Reprogramming), and nutritional formulas for migraine prevention and other disorders.

He also invented the Brainicity™ Brain Biofield Therapy system. His previous work includes a computerized neonatal diagnostic system, a method for measuring intracranial pressure and vascular

compliance noninvasively, development of computerized medical diagnostic systems and rehabilitative instruments.

Section III – In Case You Missed Last Month’s MasterClass ☺

The December 18, 2021 Masterclass featured Dan Davidson, author of “Shape Power, Second Edition.”

Dan talked about his book and “The Fundamental Discovery of How Shape Modifies Undifferentiated Universal Aether into Electricity, Magnetism, and Nuclear Forces”

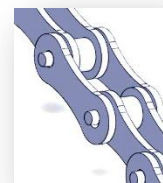

This new revised treatise on how form converts universal *aether* into electromagnetic and gravitic forces and related discoveries in gravitational physics is the result of 56 years of personally funded research. Dan has broken the code on how the process works... how nature manifests from the virtual particle soup of the *aether* into matter.

“Shape power” is the ability of multi-dimensional shapes to manipulate the “*aether*”—the local space energy field which permeates all space and time. The *aether* as a term and a concept is not currently accepted in academic circles because the *aether* was supposedly disproved back in the early part of this century by the Michaelson-Morley experiment. Flaws in the experiment caused new experiments to be run which indicated the existence of the aether. The orthodox physics community has not formally accepted these results. However, research in the last 20 years has brought the *aether* back in a new guise called *zero point energy* (ZPE).

February 2022: Duncan Laurie “Exploring the Potential of Radionics in Art & Music—Quantec’s Discoveries in Germany and the Experiments at Dragonline Studios, USA.”

(His website <https://www.duncanlaurie.com/>)

Duncan Laurie has long been exploring and writing about semiotics [the study of signs and symbols and their use or interpretation] and the relationship of subtle energy technology (psychotronic and radionic) to art; devising sonic plant and mineral communication experiments for artistic presentation (with Gordon Salisbury and others). At this point, he says he would talk of Quantic technology of Peter von Buengner. Duncan is the author of *The Secret Art, A Brief History of Radionic Technology for the Creative Individual*

March 19, 2022: Marty Lucas, George Kuepper, Dan Taylor, Ed Kelly will present “A Radionics Round Table Q/A” .

This masterclass will bring together some standouts in the field of Radionics for a Question and Answer session. Dan Taylor will moderate Questions ahead of this Zoom Masters Class will be taken first. Additional questions in the chat room will serve as additional follow ups. Other experts may be added as the Class gets closer.

Date t/b/a Al Rohde and al Kacperski will present “Experiences with Guy Obolensky and Preston Nichols” Later this spring we hope to be presenting Dannion Brinkley, Sky David, and others.

**Be sure to keep an eye out for our Masterclass emails
so you won't miss your favorites.**

Section V – Membership Information: Instant replay from last month.

There are some strange vibrations coming from deep inside the corporate structure of USPA. Scuttlebutt has it that there have been suggestions made that a committee be formed to discuss the advisability of, and the practical feasibility of raising our annual dues. Oh me oh my!

So, here's the thing, If you add to your subscription now, it will add a year (at our current price) to what you already have. IF you select a three year membership, it will extend three years beyond your current term.

To see the status of your membership, go to the website, log in and on the left choose "memberships" and then still on the left, choose "manage." That will show you when your membership will expire.

BUT HERE IS THE CRAZY GOOD NEWS:

For a limited time only the board has decided to re-instate the lifetime membership option. For \$300.00 you can secure a membership in USPA *for the rest of your life!*

As this is a limited time offer, it is not on our website as a clickable option.

If you are interested, please contact Scott at uspsychotronics@yahoo.com Just send him a quick email with your phone number and he'll contact you and take your information. He'll do the finances and Gail will plug your lifetime membership into the website database.

This would be a great way to help pump some "green lifeblood" into USPA and reserve your spot in our rolls forever.

Quick Note: If you are a full time student or an active member of the Armed Forces of the US, please let Scott know. You can get a discounted annual membership. Scott will help you with this too.

We try to make USPA membership accessible to as many people as possible.

Section VI – Section VI Articles of Interest

The Library Lion: John Reed is Digitizing our Publications World

John Reed is digitizing every out of print book, series of newsletters and magazine articles that he can lay his hands on relevant to psychotronics, radionics and sister fields. He has a huge array of publications that we will be sharing piecemeal, in this newsletter and on our website.

John asks "Does Anyone Have Copies of the USPA Newsletter That Are Missing from the USPA Library?"

The USPA Library and Archives is attempting to gather a complete set of all issues of the USPA Newsletter from the very first issue of Vol.1, no.1 (Spring, 1979) to December, 2015, when the new series of newsletters began online under the editorship of John H. Reed. We have many of the old issues, which were originally to be issued quarterly, but sometimes were published only semi-annually, annually, or not at all for some years. We need your help to find those issues that we need to complete the collection. The goal is to have the complete set published in our website for our members to view and or/download for their own library.

Would you be kind enough to check your physical collection and files to see if you have any of the missing issues we need, which are listed below? If you have any of the missing issues, please email me, John Reed, at: joreed43@gmail.com, or send them to John Reed, 7702 Reed Road, Levering, Michigan 49755. If you wish to have them returned, we will make Xerox copies and return them to you. Thank you for your help.

Editor note: A volunteer is needed for a couple hours of work on a Word Document in this endeavor. Contact gailinvermont@outlook.com. Thanks. **On the next page is the list of Missing issues.**

John now has a collection of 2,027 books all of which are digitized in our USPA Library and archives.

These are on the subjects of radionics, psychotronics, radiesthesia, dowsing, subtle energies, energy healing, bio-electromagnetics, biofields, biophotons, crystal healing, color healing, EM pollution, especially 5-G, homeopathy, infoceuticals, magnetic healing, molecular signatures, non-local effects, orgone energy, PEMF, psionic therapy, psychometry, pyramid and shape power, quantum healing, scalar field effects, torsion field effects, water memory, and other related subjects.

He has stored thousands of articles on these subjects and hundreds of periodical issues on these subjects as well.

The list will be posted soon in our library as a pdf link.

If you have any books, periodicals or vintage articles that you think should be preserved, please contact John and he will help you make arrangements to have them added to our library. We'd love to give notice in our newsletters of contributions made in this way. Joreed43@gmail.com

We are building a large library on the subjects of radionics, radiesthesia, dowsing, homeopathy, crystal healing, subtle energies, scalar technology, free energy, alchemy, and related subjects.

Dan Taylor Shares Information on the Biofield Research Fellowship Program

The Biofield Research Fellowship Program is an international multidisciplinary initiative to advance, strengthen, and scale the field of subtle energy and biofield healing by supporting rigorous research and fostering a community of emerging and established researchers.

The Fellowship Program supports early career investigators conducting high quality examinations of biofield science and/or subtle energy therapies and practices by providing grants up to **\$20,000** as well as mentor support from esteemed scientific researchers in various disciplines related to subtle energy and biofield healing. Proposals are accepted across basic, translational, and clinical research, across multiple disciplines, including, but not limited to, clinical psychology, neuroscience, medicine, physiology, botany, physics, engineering, and social sciences.

Fellows will be paired with an esteemed research mentor with expertise relevant to their proposed project. Mentors will support the fellow's research and help inspire, inform, and guide them into future biofield research. Learn more at <https://biofieldfellowship.org/#mission>

A bit of Catch-up – A Question from Beverly Rubik's Masterclass in August of 2021

Some of those attending the Rubik / Michrowski Masterclass had asked about Beverly's paper "The Effects of Subtle External Stimuli on Chiral Symmetry Breaking during Crystallization of Sodium Chlorate from Aqueous Solutions" Here is the Abstract (below) and the full article can be found in WATER, A Multidisciplinary Research Journal <https://waterjournal.org/volume-12/rubik/>

Abstract How does chiral symmetry breaking occur such that biomolecules have a distinct handedness that is essential for life? The purpose of this study is to test whether certain subtle external stimuli influence chiral symmetry breaking using a model system of sodium chlorate crystallization from aqueous solutions. In 28 controlled experiments, aliquots of a stock solution of sodium chlorate (NaClO_3) were transferred to crystallization dishes and incubated 24-30 hours. Crystals formed slowly by evaporation under isothermal conditions.

Controls were left untreated while test solutions were exposed to the following subtle external stimuli: (1) a dynamic magnetic field; (2) 432 Hz sine wave acoustic field; (3) Amezcua BioDisc-3, a purported water structurizer; (4) Purple Plate, a subtle energy product; and a (5) wooden pyramidal structure. In addition, several experiments were performed with solutions using Vivo® structured water, a commercial product. The number and chirality of crystals from all experiments were analyzed using polarimetry to distinguish d-crystals from l-crystals.

Data was pooled for each exposure condition. While controls yielded no significant difference in the percentage of d-crystals and l-crystals, a significantly larger percentage of d-crystals were found for test conditions (2) 67% ($p=0.049$); (3) 81% ($p=0.034$); and (4) 64.9% ($p=0.003$). Test conditions (1), (5),

and Vivo® aqueous solutions produced insignificant differences. This study demonstrates that aqueous solutions are open systems that may be impacted by certain subtle external stimuli that influence solute crystallization and chiral asymmetry.

Beverly Rubik's Latest Paper Evidence for A Connection between COVID-19 and Exposure to Radiofrequency Radiation from Wireless Communications Including 5G

The Abstract for her paper follows and the full article can be found in the Journal of Clinical and Translational Research and the full pdf can be downloaded here:

Beverly Rubik*, Robert R. Brown
Rubik et al. J Clin Transl Res 2021; 7(5):7
Published online: September 29, 2021
Abstract

Background and aim: COVID-19 public health policy has focused on the SARS-CoV-2 virus and its effects on human health while environmental factors have been largely ignored. In considering the epidemiological triad (agent-host-environment) applicable to all disease, we investigated a possible environmental factor in the COVID-19 pandemic: ambient radiofrequency radiation from wireless communication systems including microwaves and millimeter waves. SARS-CoV-2, the virus that caused the COVID-19 pandemic, surfaced in Wuhan, China shortly after the implementation of city-wide 5G (fifth generation of wireless communications radiation), and rapidly spread globally, initially demonstrating a statistical correlation to international communities with recently established 5G networks.

In this study, we examined the peer-reviewed scientific literature on the detrimental bio-effects of wireless communications radiation (WCR) and identified several mechanisms by which WCR may have contributed to the COVID-19 pandemic as a toxic environmental cofactor. By crossing boundaries between the disciplines of biophysics and pathophysiology, we present evidence that WCR may: (1) cause morphologic changes in erythrocytes including echinocyte and rouleaux formation that can contribute to hyper-coagulation; (2) impair microcirculation and reduce erythrocyte and hemoglobin levels exacerbating hypoxia; (3) amplify immune system dysfunction, including immunosuppression, autoimmunity, and hyper-inflammation; (4) increase cellular oxidative stress and the production of free radicals resulting in vascular injury and organ damage; (5) increase intracellular Ca²⁺ essential for viral entry, replication, and release, in addition to promoting pro-inflammatory pathways; and (6) worsen heart arrhythmias and cardiac disorders.

Relevance for patients: In short, WCR has become a ubiquitous environmental stressor that we propose may have contributed to adverse health outcomes of patients infected with SARS-CoV-2 and increased the severity of the COVID-19 pandemic. Therefore, we recommend that all people, particularly those suffering from SARS-CoV-2 infection, reduce their exposure to WCR as much as reasonably achievable until further research better clarifies the systemic health effects associated with chronic WCR exposure.

Beverly notes: "It took us almost a year to publish this paper due to the censoring of science that challenges the "official narrative." Also published here is our extraordinary peer review, consisting of 73 pages including our rebuttal--again, due to the extraordinary situation of our times. We learned that the journal contacted 48 peers to review our paper, and 12 responded, with 3 rounds of peer review!"

Ed. Note: Whoever thinks that scientists trying to "Think outside the box" have it easy and are rarely challenged should talk to Beverly!

Dan Davidson's Answers to Questions during the December 18, 2021 Zoom Masterclass

- 1) Question from: Eileen in Elora: In this sea of microwaves, how do SNOWFLAKES (shape) influence microwaves?

Dan's Answer: Snow is a higher activity and not influenced by U-Waves. Snow is actually qualified by the Goddess of Purity and that is why it feels so clean and pure after a snowstorm.

- 2) Question from Chris Pollard: With the parallel lines (and other geometric figures) did the direction of the lines make a difference in the energetics? For example, is there a difference between the energetics of two parallel lines with one drawn from bottom to the top and another drawn from the top to the bottom versus both drawn from bottom to the top or both drawn from the top to the bottom?

Dan's Answer: The direction of influence in the pattern energy caused by a person drawing a pattern does exist. For example spirals if drawn by a person goes from large to small will cause the aether to move in that direction and vice-versa.

- 3) Question from: Chris Pollard: What meditation was given to DR X that opened him up to be able to experience clairvoyance?

Dan's Answer: Dr X didn't experience such. He got a contract from a winery company to extract certain putrid chemicals to make wine taste bitter. The water resonance experiment was a test setup to run to eliminate the poor tasting chemicals. Different atomic weight chemicals will aggregate at different levels in the resonance tube.

- 4) Question from LeRoy Boudreau: Dan, did you publish the magnetic field values you measured at the top of the Egyptian pyramid?

Dan's Answer: No

- 5) Question from Chris Pollard: Where can a person go to learn more about adepthood?

Dan's Answer: The Saint Germain Foundation discourses are to me the best. The Yogis are also another source and preferred by many. Contact me directly and I'll help you.

- 6) Question from Vaios Eleftheriou: The name is Levity and not anti-gravity. The stones were moved into place and not formed in place.

Dan's Answer: A rose by any other name! I have evidence to the contrary. You have the theories put out by the orthodoxy and they have no evidence.

The stoneworks outside the South American country Chile, city Cusco are poured into place also like the great pyramid in Egypt. There are other places where this is in evidence.

- 7) Question from Dan Mangum: Is Mr. Davidson familiar with the work of Dr. Ibrahim Karim and Bio-geometry which deals with the shape caused wave?

Dan's Answer: YES: Karim only has an intellectual view and no proof. Personally, I think he is wrong. I have read what is published and I don't subscribe to his ideas. I have done some experiments on his ideas and could not get any of his claims. Lots of fakes and flakes and unilluminated researchers out there.

The aether is eminently qualifiable and many things can be done by qualifying with the aether (intention is the word used and is a lousy word to use but many have accepted it). A person is actually qualifying with his feeling or energetic body the aether or plain substance or his/her body. Many effects can be ascribed to this and I think that is what Karim and others have done. Homeopathy is another example. You can take pure water and qualify it with the healing essence of some herb, or specific healing characteristic and it will do as directed.

Much of radionics becomes understandable when you understand What you are and really understand that you have created and do create your circumstances. An interesting book on this was put out many years ago by George Winslow Plummer called "Consciously Creating Circumstances". A basic intro to governing your life. The green books put out by the Saint Germain Foundation, the yellow books by A. D. K. Luk, and the brown books on "Life and Teaching of the

Masters of the Far East" tell how to be a master of your life. Current versions may be different colored covers.

Basically we are all glorious spiritual light beings occupying a physical body. If you really get stilled down in meditation you can see your Christ body also called your higher mental body and your God self above your HMB. The Ascension is the merging of the various bodies.

The brown books are wonderful experiences by Baird Spaulding and his team of scientists researching the Far East master adepts. The other books mentioned above tell you how to become an adept. An adept manifests the full consciousness of his Christ/HMB self.

If your life has turned to poopoo you have done that to yourself. Turn around and recreate a wonderful fulfilling life. You can prove these things to yourself.

P.M.H. Atwater NDE'er's (Experiencers of Near Death Experiences) Drug Sensitivities

From the Blog of P.M.H. Atwater, L.H. D. (with permission from the author) 4/29/2007

The majority of near-death-experiencers becomes very sensitive to or loses most of their tolerance for pharmaceuticals afterwards [the event]. For this reason, they often turn to alternative or complementary healthcare procedures that enable them to have better health than ever before. This is very important, especially for child experiencers of near-death states.

I carry warnings about this in most of my books. Today, what is often called "Natural Medicine" is under assault, not only in the United States but throughout the world, thanks to the pharmaceutical lobby in the U.S. and to what is called "the Codex," a spate of regulations from the United Nations that severely limit anyone's access to more natural and alternative healthcare measures.

I truly feel the thinking behind these government actions were initially to protect the public from fraudulent people and sources, and I applaud this, yet these agencies have now gone much too far and to the point that our lives are more at risk than they were previously. Because this directly affects millions upon millions of adult and child experiencers of near-death states, I am submitting this article "[Death by Medicine](#)" By Gary Null, PhD; Carolyn Dean MD, ND; Martin Feldman, MD; Debora Rasio, MD; and Dorothy Smith, PhD for your review – and perhaps your action. It is an in-depth article with extensive references and facts. Unfortunately, the language is strong and slanted in some places; still, it is well worth the read. --Thank you, P. M. H. Atwater, L.H.D. <http://pmhatwater.hypermart.net>

Section VII: USPA Proceedings and Journals are All Digitized and in the Shop!! **A new section has filled in the USPA Store: 6 USPA Journals and 18 out of 19 Proceedings are now available for purchase.**

You can download the Tables of contents for the Proceedings here:

<https://www.psychotronics.org/pub/pro/all-uspa-conference-proceedings-toc.pdf> and the table of contents for the Journals here <https://www.psychotronics.org/pub/j/six-journals-tables-of-contents.pdf>

The Evolution of the USPA Periodicals

Since its first meeting in 1975, hundreds of top scientists, educators and researchers have made presentations at USPAs annual conferences. They are from the leading edges of their fields, especially regarding the phenomena of Mind-Body connection, energy and emerging technologies. The first audio recordings were made in 1978.

In 1985, USPA produced a perfect-bound Proceedings book for its tenth conference. It is a comprehensive and fully edited collection of abstracts and/or final papers submitted by twenty-eight of the more than fifty presenters at that year's conference. The difficulty of editing papers and formatting the collection for book publication, just weeks before a conference was rather daunting.

In 1986 the USPA Board decided to have a committee professionally edit submitted papers and print them in smaller groups, hence creating a series of six journals published between November of 1988 and the spring of 1993. Each Journal contains six to ten talks given at US Psychotronics

Conferences during its first eighteen years. These Journals represent some of the best written USPA material of that time!

In 1993, with advances in computers and copiers, a change was made to print Annual Conference Proceedings again. Conference attendees could buy a copy right at the conference. At 260-400 pages, they were large spiral-bound hard-copy books!

In 2010 another switch was made and the proceedings were produced on CDs.

The 6 USPA Journals and 18 of our 19 Annual Proceedings can be purchased in pdf format from our webstore at <https://www.psychotronics.org/product-category/uspa-publications-journals-proceedings/> All USPA publications are copyright protected and are property of the USPA. They may not be reprinted without permission of the Board of USPA.

These are photos of the covers of the Proceedings for sale in our Shop.

Section VII “Members Only” Perk: over 90 presentations for *free* online viewing.
One big advantage to being a member of USPA is the Members Only page of our website.

We have over 90 presentations FREE for viewing by USPA members. If you are not a member yet, you can fix that in just a few minutes at <https://www.psychotronics.org/join/>

The full list is getting unwieldy, so from now on there will be an update list of total offerings and the latest additions. Once a month the full list will be posted in the website Library, as a PDF link

Section IX - What Are Others Up To?

Updates and Changes to the USPA Website

Changes of Note:

1. The Shop Menu no longer has drop downs. When you go shopping, it will naturally lead you to your cart and checkout. The PDF lists of all Audio and Video recordings are now on the new Library Page.
2. The “Archives” page is now the “Library” because it is, like its brick-and-mortar counterparts, this library will be an ever-evolving resource for archival documents, pdf lists of products available and links to other resources of the USPA. We invite you to check back often to see what we've added to the USPA collection.

3. The backbone of this work is John Reed, USPA's Master Librarian, former Newsletter Editor and Current Board Member. This document will be updated soon, but for a glimpse at what John has amassed in the USPA digital databank, click this link: [USPA DIGITAL HOLDINGS](#)
4. The library is the place to go for Newsletters, new and old, donations of articles, PowerPoint presentations by our Masterclass Speakers, The Toby Grots Collection, pdf lists of things available in the store, and much more.
5. On the Join Page, very soon, the link for Full Time Students / Active Military will be a click-through link. We will no longer require these folks to download and print the membership application.
6. As mentioned in the sections above, MANY items have been added to the USPA Store and the Members' Only sections.

Section X Editor's Feedback Nook:

We'd like this to be an interactive newsletter! (Read that as "Somebody talk to me!!)

- Send your article submissions, comments or questions to the editor, Gail Ruggles at gailinvermont@outlook.com (Please note; this is my new email address.) I will respond to all!
- Pick a topic and submit a comment or question. BE SURE to tell me if you want your name published or not.
- Would you like to present a Masterclass for USPA? Let us know your field of 'expertise.'
- Who is your favorite USPA Speaker? (And why?) What did you learn unexpectedly?
- **Would you attend an "in person" conference in 2022? WE REALLY WANT TO KNOW**
- What radionic or psychotronics book or article have you read lately that you would like to share?
- Who would you like to see present a webinar on our website?
- Are you looking for info about a radionic instrument, scientist, book or article you can't find?
- Would you like to make a news announcement, report something, make a request, or post a question about anything related to psychotronics, radionics or a related subject? Here's your chance!

Section XI: USPA Conference Recordings – the Digitizing Project:

The Auction

Fall 2021 Update on this project: **A new member of USPA is purchasing EVERY SINGLE Viable Conference Lecture We Have Every Produced.** Talk about delving into a subject with intense purpose. We can't "name names" but we can say "Thank You" to this newcomer for their support. We hope you are entertained, educated and enlightened as you watch and listen.

USPA has found itself "buried" under a mountain of priceless historical data in the form of **audio cassettes, VHS Cassette Videos and DVD recordings.** What are we going to do with all the originals??

We're had a silent auction, and the purchase in the purple box above resulted.

However, we are still offering deals on large quantities of this "hardcopy" media stash. Details have been printed in previous newsletters and can be supplied on request to gailinvermont@outlook.com or on the website at [AUCTION](#).

We have doubles and quadruples of some of them. Let us know what you'd like and we'll give you a price you can't refuse! So, if you are interested in any of these items, please let us know. We are considering eBay! We'd rather sell them to you and ship direct than go through the Big E! Contact me gailinvermont@outlook.com Make us an offer we can't refuse. Help USPA save money. If we can sell enough of this merchandise, we can downsize our storage unit!! ☺

Section XII - The Basics

Production of the Newsletter

Editorial Office: USPA Newsletter, Gail E. Ruggles, 2088 Maple Ridge Road, Newark, VT 05871. Email gailinvermont@outlook.com Phone: 802-535-5173. After August 1, 2020, please address all newsletter inquiries to Gail.

For immediate assistance regarding other USPA issues, contact Scott Beutlich, the secretary / treasurer of USPA at uspsychotronics@gmail.com

Manuscript Submission: Submit all manuscripts as word documents by the 12th of each month to gailinvermont@outlook.com for review for possible publication in the next month's newsletter. The Board of Directors reviews all editorial decisions.

Enjoy unique information about radionics, psychotronics and other related topics at USPA's website at <http://psychotronics.org> . Find us on Facebook at: <https://www.facebook.com/uspsychotronics/>

What is USPA?

The United States Psychotronics Association (USPA) is a nonprofit 501(c)(3) organization founded in 1975 to serve as a focal point for scientific and technical exploration of the universe of esoteric, spiritual, and psychic arts in the United States of America.

The USPA has been hosting annual conferences for its membership since its formation and has featured countless individuals with cutting-edge viewpoints, research, or theories to share, allowing any interested persons to openly discuss their work.

What is Psychotronics?

USPA defines psychotronics as the science of mind-body-environment relationships, an interdisciplinary science concerned with the interactions of matter, energy, and consciousness.

Psychotronics involves the study, research, and applications of the physics and technology of the mind, brain, spirit, consciousness, and the underlying forces of life and nature – hence the term “psychotronics”. We believe that a true understanding of the universe must include the spiritual, as well as, the technical, and provide an opportunity for amateur researchers to present their findings along with the professionals. We stress research, with documentation of results, and practical applications, rather than personal experience and unsupported hypotheses.

Section XIII - Our Donors and Masterclass Sponsors

USPA Generous Donors Recognition Page

The USPA would like to give special recognition on a continuing basis to people who have made generous donations to the United States Psychotronics Association in past years.

This special “USPA Generous Donors Recognition Page” will be carried in each issue of the USPA Journal & Newsletter, and new names will be added as donations are received.

Personal: If you have any “related items” to sell, (books, radionic machines, etc.) we charge 20 cents per word, 20.00 per half page with supplied artwork or photos or 35.00 per whole page. Your paid ad will run in the next three issues of the newsletter, or until you tell us your item is no longer for sale.

If you would like to publicize an event for a non-profit organization, USPA will advertise for you up to 750 words free. We ask for mutual links to our website from yours.

If you would like to publicize a for profit event, USPA will charge average advertising rates. Please contact Scott Beutlich at uspsychotronics@gmail.com. to discuss this well ahead of time.

Please Note: USPA is not responsible for the content or condition of items sold from this newsletter by any private person or company, nor does it back any treatment, modality or veracity of presentation. It does not back any claim of medical efficacy of machines or treatments. USPA cannot recommend specific radionic practitioners, or offer radionic treatments from its board of directors or officers.

Section XVI – J.G. Gallimore’s Five Rare Books Are Now Available!

Jerry G. Gallimore was one of the founders of the USPA in 1975, and was a leading researcher in psychotronics and unusual energies until his untimely death in 1989.

All five of J.G. Gallimore’s rare books on psychotronics subjects and unusual energies have been reprinted by the United States Psychotronics Association (USPA) and are being made available at a fraction of the cost that used copies were being sold at online.

So rare have these books been, that only a few libraries in the entire world had them in their collections, and some original Gallimore’s books were being sold for several hundred dollars each online. However, with these newly reprinted volumes, each will be available for less than \$30.00. All are: Available at Amazon.com

The Handbook of Unusual Energies: Volume 1 of Handbook of Unusual Energies	ISBN-10: 1543024998 ISBN-13: 978-1543024999	The first book of three volumes on unusual energies	468 Pages
<p>Gallimore discusses in depth the research, discoveries, and inventions of all the major researchers in subtle energies, the aether, biological 62 fields, pyramid energy, radiesthesia, radionics, crystal transduction, and related subjects.</p> <p>These include the works of Baron Von Reichenbach's and his odic energy, Dr. Wilhelm Reich's orgone energy, Dr. Harold Burr's biological life fields, Kozyrev's time mirror, Edgar Cayce's transmission of energy, and related research done by many others.</p> <p>Of particular importance is Gallimore's 127 page chapter on radionics. In this chapter he discusses in depth the research and devices of Ruth Drown, T. Galen Hieronymus, Rho Sigma, Dr. L. P. Corte and other prominent people in the radionics field.</p>			
Collected Properties & Writings of J. G. Gallimore: Volume 2	ISBN-10: 1543025048 ISBN-13: 978-1543025040	The second book of three volumes on unusual energies	258 Pages
<p>This is the second book in the “Unusual Energies” series that J.G. Gallimore published. It covers Gallimore's research on Albert Abrams, the founder of modern radionics, psychological physics, psychic energy, thought resonance, subtle energies, crystals, and related subjects.</p> <p>In addition, a number of radionics devices are discussed, such as the De La Warr Diagnostic Instrument. And very helpfully, the rates are provided for substances, body organs, and medical diseases and disorders. I very interesting interview of Christopher Bird, conducted by J.G. Gallimore is provided, as well as a discussion of Walter Russell and his research</p>			
Relationship Between	ISBN-10:	The third book of	228

Parapsychology and Gravity: Volume 3	1543024947 ISBN-13: 978-1543024944	three volumes on unusual energies	Pages
<p>This book describes in depth the research and theories of J.G. Gallimore into the question of "parapsychology transmission" -the question of how such things as telepathy, remote viewing, ESP, and similar phenomena can physically occur.</p> <p>He discusses the various emanations, radiations, and energy fields of all matter and life including the ancient Chinese energy called "chi" (qi), the ancient Indian's prana energy, Reichenback's "odonic force," Gurwitsch's "mitogenic radiation," Wilhelm Reich's orgone energy, and other subtle energies. He shows how all of these energies are similar, how they interact, and how they are related to gravity.</p> <p>He also discusses crystals as transducers of these energies, and provides diagrams of devices that could potentially be used to harness or control these energies.</p>			
Transverse Paraphysics: The New Science of Space, Time, and Gravity Control	ISBN-10: 1543024920 ISBN-13: 978-1543024920		374 Pages
<p>This book covers the visionary research and theories developed by J.G. Gallimore about anti-gravity, space, time, and biophysics.</p> <p>He discusses in depth the dimensions of space, time, and gravity, and new discoveries in each of these areas. In addition, he covers research being done on anti-gravity and then discusses anti-gravity patents that have been obtained.</p> <p>He also discusses the intriguing concept of aura energy fields surrounding humans and other living things, and how extra-sensory perception (ESP) might be explained through biophysical principles.</p>			
Unified Field Theory Research Book: Using Subjective Response to Psi-Plasma for Analysis of Properties Neutral Charge Plasma Fields	ISBN-10: 1543024831 ISBN-13: 978-1543024838		134 Pages
<p>This book is about psychotronics, radionics, electromagnetic fields and waves, psi-plasma, plasma fields, subtle energies, bio-electromagnetic energy, and other unusual energies emitted by living and non-living things. It also is about how living things interact with and are affected by these energies, which may enhance health or harm health.</p> <p>The book covers the research of Wilhelm Reich on Orgone energy, of Baron Reichenback on the odic forces, as well as research done by Cazzamalli on brain radiations and Lakhovsky on using high frequency radiations to successfully treat cancer in humans. In addition, Lakhovsky used similar methods to enhance the growth of plants. Gallimore shows how these energies, forces, and fields are all inter-related and provides hypotheses and ideas on their possible unification.</p>
