From Dan Taylor: Radionics Lesson: Energy Follows Thought

A very important radionic lesson served up by none other than Willie Nelson! This is a video under four minutes in length. [Ed. Note: This is a good one to share with newbies to the paradigms of personal energy and manifestation.]

A NASA Mission was leaving the solar system when, at the request of Carl Sagan, it was commanded by NASA to turn its camera around and take a last photo of Earth across a great expanse of space. The attached video's accompanying words are spoken by Carl Sagan. The video is called "Carl Sagan's Pale Blue Dot." It is only a bit over three minutes. [Ed. Youth Hailed for Providing Renewable Energy to 10,000 People Without Using Battery, Wind, Sun, or Water

Jeremiah Thoronka invented a machine that delivers electricity to homes through absorbing kinetic energy from vehicles passing over roadways. The device powers 150 small homes; it doesn't rely on changing weather patterns, and needs no battery or external power infrastructure.

Out of 3,500 contestants, Thoronka picked up the \$100,000 reward for his work at the Chegg.org Global Student Prize 2021. He also won the regional top student award from Commonwealth.org, and another £3,000 (\$4,000) to go with it.

Hollywood mega from Down Under, Hugh Jackman, presented the award virtually, saying, "You've made an enormous difference to your community and far beyond. I'm sure that you will now use this incredible platform to make an even bigger impact."

"It's amazing, it's wonderful. Words can't express how I feel about this," Thoronka was quoted as saying.

Sierra Leone has some of the least-established and least-reliable power grids on Earth, with only 26% of people having access to electricity. As a pupil, Thoronka describes seeing students fall behind who did not have adequate access to lighting in their homes for studying after dark.

THE LAW OF MANIFESTATION, CLEARLY EXPLAINED IN DECLASSIFIED CIA DOCUMENT.

B. Patterning. This technique involves use of the consciousness to achieve desired objectives in the physical, emotional, or intellectual sphere. It involves concentration on the desired objective while in a focus 12 state, extension of the individual's perception of that objective into the whole expanded consciousness, and its projection into the universe with the intention that the desired objective is already a matter of established achievement which is destined to be realized within the time frame specified. This particular methodology is based on the belief that the thought patterns generated by our consciousness in a state of expanded awareness create holograms which represent the situation we desire to bring about and, in so doing, establish the basis for actual realization of that goal. Once the thought-generated hologram of the sought after objective is established in the universe it becomes an aspect of reality which interacts with the universal hologram to bring about the desired objective which might not, under other circumstances, ever occur. In other words, the technique of patterning recognizes the fact that since consciousness is the source of all reality, our thoughts have the power to influence the development of reality in time-space as it applies to us if those thoughts can be projected with adequate intensity. However the more complicated the objective sought and the more radically it departs from our current reality, the more time the universal hologram will need to reorient our reality sphere to accommodate our desires. Monroe trainers caution against attempting to force the pace of this process because the individual could succeed in dislocating his existing reality with drastic consequences.

Positive Energy Needed:

You choose the form – prayer, meditation, laughter, silence, random acts of kindness, the ‘attitude of gratitude,’ yoga, humming, singing or a simple nature walk. As you perform these things keep in mind those in need; share the energy that you ‘create,’ and send it out.

Dan Taylor shared the Obituary of James DeMeo, PhD from the Wilhelm Reich Museum James DeMeo, PhD

April 5, 2022. It is with sorrow that we note the death of James DeMeo, PhD, a researcher and teacher of Reich’s work for more than 40 years. As a student in the Geography Department at the University of Kansas, DeMeo demonstrated significant effects on rainfall from use of a cloudbuster, resulting in his 1979 Master’s thesis “Preliminary Analysis of Changes in Kansas Weather Coincidental to Experimental Operations with a Reich Cloudbuster,” which he self-published as a book in 2010. His subsequent work on a hypothesis about the origins of human armoring in the same department led to his 1986 PhD dissertation, expanded and published in 1998 as *Saharasia: The 4000 BCE Origins of Child Abuse, Sex-Repression, Warfare and Social Violence, In the Deserts of the Old World*. DeMeo published an orgonomic journal, *Pulse of the Planet* for a number of years beginning in 1989. An enlarged issue of this was published in 2002 under the title *Heretics’ Notebook*. Most recently, in 2019, he published an extended historical study, *The Dynamic Ether of Cosmic Space*.

DeMeo started an independent research and teaching lab, Orgone Biophysical Research Laboratory in 1979, from which until his death he continued research and teaching on bion experiments, the effects of the orgone accumulator (e.g., on plant growth), weather modification using the cloudbuster (e.g., in the American southwest), and other related subjects. He was hired during droughts in Greece, Eritrea and other places to use the cloudbuster in attempts to produce rain and achieved some noted successes. He described much of this work in a talk at the 2007 International Conference on Orgonomy in Rangeley, Maine sponsored by the Wilhelm Reich Museum. The Library Lion: John Reed

John is hoping a Publications Packrat like him will have what is missing.

John Reed is creating a digital library by scanning every out of print book, series of newsletters and magazine articles that he can lay his hands on relevant to psychotronics, radionics and sister fields. As his database grows, he will share updates via this newsletter and our website.

Among the Missing: Issues of the Journal of Paraphysics

One of the most interesting journals in the psychotronics field that has ever been published is the Journal of Paraphysics, later called the International Journal of Paraphysics. It ran from 1967-1993, was edited by Benson Herbert, and published by the Paraphysical Laboratory located in Downton, Wiltshire, England. The USPA has 66 of the 93 issues of this journal that were published, and is missing the following 27 issues:

- Vol. 1 (1967): No.'s 1, 2, 3, 4, and 6
- Vol. 2 (1968): No.'s 5 and 6
- Vol. 3 (1969): No.'s 5 and 6
- Vol. 6 (1972): No.'s 2 and 6
- Vol. 7 (1973): No.'s 4, 5, and 6
- Vol. 11 (1977): No. 1/2 combo issue;
- Vol. 18 (1984): No. 3/4 combo issue;
- Vol. 19 (1985): No. 5/6 combo issue;
- Vol. 20 (1986): No. 3/4 combo issue;
- Vol. 21 (1987): No.'s 1/2, 3/4, and 5/6 all combo issues;
- Vol. 22 (1988): No.'s 1/2, 3/4, and 5/6 all combo issues;
- Vol. 23 (1989): No.'s 1/2, 3/4, and 5/6 all combo issues;

It is believed that the Vol. 23 (1989) 5/6 combo issue was the final issue published. Apparently Benson Herbert became sickly in 1989 and passed away on April 21, 1991, at the age of 79. **If anyone has copies of the above issues of the Journal of Paraphysics, please contact the USPA Librarian, John H. Reed at: joreed43@gmail.com. We would very much be interested in buying, borrowing, or receiving them as a donation to help complete the collection for the USPA Library.**

Would you be kind enough to check your physical collection and files to see if you have any of the missing issues we need? If you have any of the missing issues, please email me, John Reed, at: joreed43@gmail.com, or send them to John Reed, 7702 Reed Road, Levering, Michigan 49755. If you want them back, we'll scan them and return them. Thank you for your help."

Section VIII: USPA Conference Proceedings and Journals are All Digitized and in the Shop!!

6 USPA Journals and 18 out of 19 Proceedings are now available for purchase.

You can download the Tables of contents for the Proceedings here:

The Evolution of the USPA Periodicals

Since its first meeting in 1975, hundreds of top scientists, educators and researchers have made presentations at USPAs annual conferences. They are from the leading edges of their fields, especially regarding the phenomena of Mind-Body connection, energy and emerging technologies. The first audio recordings were made in 1978.

In 1985, USPA produced a perfect-bound Proceedings book for its tenth conference. It is a comprehensive and fully edited collection of abstracts and/or final papers submitted by twenty-eight of the more than fifty presenters at that year's conference. The difficulty of editing papers and formatting the collection for book publication, just weeks before a conference was rather daunting.

In 1986 the USPA Board decided to have a committee professionally edit submitted papers and print them in smaller groups, hence creating a series of six journals published between November of 1988 and the spring of 1993. Each Journal contains six to ten talks given at US Psychotronics Conferences during its first eighteen years. These Journals represent some of the best written USPA material of that time!

In 1993, with advances in computers and copiers, a change was made to print Annual Conference Proceedings again. Conference attendees could buy a copy right at the conference. At 260-400 pages, they were large spiral-bound hard-copy books!

In 2010 another switch was made and the proceedings were produced on CDs.

The 6 USPA Journals and 18 of our 19 Annual Proceedings can be purchased in pdf format from our webstore at <https://www.psychotronics.org/product-category/uspa-publications-journals-proceedings/> All USPA publications are copyright protected and are property of the USPA. They may not be reprinted without permission of the Board of USPA.

Section XII: USPA Conference Recordings – the Digitizing Project:

USPA is still "buried" under a mountain of priceless historical data in the form of **audio cassettes, VHS Cassette Videos and DVD recordings**. What are we going to do with all the originals??

We had a silent auction; one new member bought a copy of EVERY lecture USPA produced

However, we are still offering deals on large quantities of this "hardcopy" media stash. Details have been printed in previous newsletters and can be supplied on request to gailinvermont@outlook.com or on the website at [AUCTION](#). We have doubles and quadruples of some of them. Let us know what you'd like and we'll give you a price you can't refuse! So, if you are interested in any of these items, please let us know. We are considering eBay! We'd rather sell them to you and ship direct than go through the Big E! Contact me gailinvermont@outlook.com Make us an offer. Help USPA save money. If we can sell enough of this merchandise, we can downsize our storage unit and save more money!

What is USPA?

The United States Psychotronics Association (USPA) is a federally recognized, nonprofit 501(c)(3) organization founded in 1975 to serve as a focal point for scientific and technical exploration of the universe of esoteric, spiritual, and psychic arts in the United States of America.

The USPA has been hosting annual conferences for its membership since its formation and has featured countless individuals with cutting-edge viewpoints, research, or theories to share, allowing any interested persons to openly discuss their work.

What is Psychotronics?

USPA defines psychotronics as the science of mind-body-environment relationships, an interdisciplinary science concerned with the interactions of matter, energy, and consciousness.

Psychotronics involves the study, research, and applications of the physics and technology of the mind, brain, spirit, consciousness, and the underlying forces of life and nature – hence the term “psychotronics.” A true understanding of the universe must include the spiritual as well as the technical. USPA provides an opportunity for amateur researchers to present their findings along with the professionals. USPA stresses research, with documentation of results, and practical applications, rather than personal experience and unsupported hypotheses.

Section XVI – J.G. Gallimore’s Five Rare Books Are Now Available!

Jerry G. Gallimore was one of the founders of the USPA in 1975, and was a leading researcher in psychotronics and unusual energies until his untimely death in 1989.

All five of J.G. Gallimore’s rare books on psychotronics subjects and unusual energies have been reprinted by the United States Psychotronics Association (USPA) and are being made available at a fraction of the cost that used copies were being sold at online.

So rare have these books been, that only a few libraries in the entire world had them in their collections, and some original Gallimore’s books were being sold for several hundred dollars each online. However, with these newly reprinted volumes, each will be available for less than \$30.00.

All are: [Available at Amazon.com](#)

The Handbook of Unusual Energies: Volume 1 of Handbook of Unusual Energies	ISBN-10: 1543024998 ISBN-13: 978-1543024999	The first book of three volumes on unusual energies	468 Pages
<p>Gallimore discusses in depth the research, discoveries, and inventions of all the major researchers in subtle energies, the aether, biological 62 fields, pyramid energy, radiesthesia, radionics, crystal transduction, and related subjects.</p> <p>These include the works of Baron Von Reichenbach's and his odic energy, Dr. Wilhelm Reich's orgone energy, Dr. Harold Burr's biological life fields, Kozyrev's time mirror, Edgar Cayce's transmission of energy, and related research done by many others.</p> <p>Of particular importance is Gallimore's 127 page chapter on radionics. In this chapter he discusses in depth the research and devices of Ruth Drown, T. Galen Hieronymus, Rho Sigma, Dr. L. P. Corte and other prominent people in the radionics field.</p>			
Collected Properties & Writings of J. G. Gallimore: Volume 2	ISBN-10: 1543025048 ISBN-13: 978-1543025040	The second book of three volumes on unusual energies	258 Pages
<p>This is the second book in the “Unusual Energies” series that J.G. Gallimore published. It covers Gallimore’s research on Albert Abrams, the founder of modern radionics, psychological physics, psychic energy, thought resonance, subtle energies, crystals, and related subjects.</p> <p>In addition, a number of radionics devices are discussed, such as the De La Warr Diagnostic Instrument. And very helpfully, the rates are provided for substances, body organs, and medical diseases and disorders. I very interesting interview of Christopher Bird, conducted by J.G. Gallimore is provided, as well as a discussion of Walter Russell and his research</p>			

Relationship Between Parapsychology and Gravity: Volume 3	ISBN-10: 1543024947 ISBN-13: 978-1543024944	The third book of three volumes on unusual energies	228 Pages
--	--	---	-----------

This book describes in depth the research and theories of J.G. Gallimore into the question of "parapsychology transmission" -the question of how such things as telepathy, remote viewing, ESP, and similar phenomena can physically occur.

He discusses the various emanations, radiations, and energy fields of all matter and life including the ancient Chinese energy called "chi" (qi), the ancient Indian's prana energy, Reichenback's "odonic force," Gurwitsch's "mitogenic radiation," Wilhelm Reich's orgone energy, and other subtle energies. He shows how all of these energies are similar, how they interact, and how they are related to gravity.

He also discusses crystals as transducers of these energies, and provides diagrams of devices that could potentially be used to harness or control these energies.

Transverse Paraphysics: The New Science of Space, Time, and Gravity Control	ISBN-10: 1543024920 ISBN-13: 978-1543024920		374 Pages
--	--	--	-----------

This book covers the visionary research and theories developed by J.G. Gallimore about anti-gravity, space, time, and biophysics.

He discusses in depth the dimensions of space, time, and gravity, and new discoveries in each of these areas. In addition, he covers research being done on anti-gravity and then discusses anti-gravity patents that have been obtained.

He also discusses the intriguing concept of aura energy fields surrounding humans and other living things, and how extra-sensory perception (ESP) might be explained through biophysical principles.

Unified Field Theory Research Book: Using Subjective Response to Psi-Plasma for Analysis of Properties Neutral Charge Plasma Fields	ISBN-10: 1543024831 ISBN-13: 978-1543024838		134 Pages
--	--	--	-----------

This book is about psychotronics, radionics, electromagnetic fields and waves, psi-plasma, plasma fields, subtle energies, bio-electromagnetic energy, and other unusual energies emitted by living and non-living things. It also is about how living things interact with and are affected by these energies, which may enhance health or harm health.

The book covers the research of Wilhelm Reich on Orgone energy, of Baron Reichenback on the odonic forces, as well as research done by Cazzamalli on brain radiations and Lakhovsky on using high frequency radiations to successfully treat cancer in humans. In addition, Lakhovsky used similar methods to enhance the growth of plants. Gallimore shows how these energies, forces, and fields are all inter-related and provides hypotheses and ideas on their possible unification.
