### Section I - What's Happening SOON:

Saturday, November 11, 2023, 1:00 pm CT Courtney Brown will present USPA Masterclass #48, "Connecting Remote-Viewing Data with Replicable Video Evidence of Extraterrestrial Involvement with Earth"

#### Courtney's Presentation:

He will discuss recent progress in validating remote-viewing data regarding extraterrestrial involvement with Earth by using a new approach to reliably recording UAP/UFO phenomena on demand. Thus, remote-viewing data involving extraterrestrial activity in the

Earth environment no longer depends on rare governmental source images.

**About Courtney Brown:** Courtney Brown is a mathematician and social scientist who teaches in the Department of Political Science at Emory University in Atlanta, Georgia. Independent of his work at the university, he is also a leading scholar on the subject of "remote viewing" as it is done using procedures that were developed by the United States military, or procedures that are derivative of those methodologies.

### Section IV CURRENT EVENTS

**Saturday, November 11, 2023, 1:00 pm CT Courtney Brown will present USPA Masterclass #48, “Connecting Remote-Viewing Data with Replicable Video Evidence of Extraterrestrial Involvement with Earth”**

#### Courtney’s Presentation:

Dr. Courtney Brown, Director of Farsight, will discuss recent progress in validating remote-viewing data regarding extraterrestrial involvement with Earth by using a new approach to reliably recording UAP/UFO phenomena on demand.

Verification is now possible due to recent advances in camera technology, as well as advances in understanding how to process such videos using fast frame rates with infrared capture.

Thus, remote-viewing data involving extraterrestrial activity in the Earth environment no longer depends on rare governmental source images.

Moreover, remote-viewing can now be demonstrated to be a reliable data collection process when using highly trained remote viewers always working under totally blind protocols, and always with verifiable elements included with the targeting.

Dr. Brown will summarize recent advances in this regard done at Farsight.

#### Courtney’s Bio

**Brief Bio:** Courtney Brown is a mathematician and social scientist who teaches in the Department of Political Science at Emory University in Atlanta, Georgia. Independent of his work at the university, he is also a leading scholar on the subject of “remote viewing” as it is done using procedures that were developed by the United States military, or procedures that are derivative of those methodologies.

**Academic Background:** Courtney Brown received his Ph.D. degree from Washington University (St. Louis) in 1982 in political science with an emphasis on mathematical modeling. He began his teaching career as a college calculus instructor in Africa before moving on to teach nonlinear differential and difference equation modeling in the social sciences at the University of California at Los Angeles, Emory University, and the Inter-university Consortium for Political and Social Research Summer Program at the University of Michigan. He has published five peer-reviewed books and numerous articles on applied nonlinear mathematical modeling in the social sciences.

**Remote-Viewing Background:** Dr. Brown is the Director and founder of The Farsight Institute ([www.farsight.org](http://www.farsight.org)), a nonprofit research and educational organization dedicated to the study of the phenomenon of nonlocal consciousness known as “remote viewing.”

He has published peer-reviewed research on this subject in premier scientific outlets, and has spoken internationally at a host of prestigious venues, including various universities, as well as at respected gatherings of physicists. His recently published book on the subject, *Remote Viewing: The Science and Theory of Nonphysical Perception*, is the only book of its kind where the science of remote viewing is developed with respect to highly structured data-collection methodologies of the kind utilized by the U.S. military. In this book he analyzes data and develops a new theory that explains the remote-viewing phenomenon as a consequence of superposition formation on the quantum level.

**Extraterrestrial Interests:** Courtney Brown has a keen interest in extraterrestrial life, especially technologically advanced extraterrestrial life active in the Earth and near-Earth environment.

His interests involve both physical evidence and remote-viewing evidence. Regarding physical evidence, Dr. Brown is involved in teaching people how to reliably make video recordings of extraterrestrial spacecraft.

He has demonstrated that such spacecraft exist in enormous numbers, and can be found overhead, all day, virtually everywhere on Earth. The spacecraft are nearly all using stealth technology to hide their presence and activities, but modern camera technology can overcome this to a large extent.

The necessary requirements are to shoot video in 4K or better, 120 fps, using infrared. Details of the exact methods can be found [HERE](#). Examples of UAP/UFO videos taken using these methods can be found on Dr. Brown's Instagram page: [courtneybrownfarsight](#).

He has a special interest in encouraging university audiences to adopt these methods and to publish their own videos of such UAP/UFO activities, thereby encouraging colleges and universities to modernize their curricula. ## Section V - In Case You Missed This:

**Saturday, October 14, 2023, John Ech presented the 47<sup>th</sup> free USPA Masterclass, “Mechanical Occultism -A Goethean Journey into Psychotronics”**

### John's Presentation:

He discussed the Goethean scientific framework as a practical counterbalance to the one-eyed, color-blind misconceptions of materialist reductionism.

The morphology of living systems, the nature of light and color, as well as Rudolf Steiner's formative forces may be cognized by emphasizing the cosmogenic role of polarities, particularly the metamorphic interchange between expansion and contraction.

### John's Bio

John Ech, of <https://www.aetherforce.energy/> studied mechanical engineering and biology in college, initially embracing materialism and atheism as he rebelled against his Catholic upbringing. While studying for a Buddhism class, a transformative quote sparked an obsession with the potential of the human mind. This in turn ignited a lifelong pursuit of knowledge not limited to mainstream acceptance. Dissatisfied with new age quantum interpretations, he found refuge in the qualitative research of vital energies through the Borderland Research & Science Foundation.

The recording of these masterclasses – and ALL of the other Masterclasses - can be viewed **free of charge by members** on the USPA website, in the members' tab <https://www.psychotronics.org/>

All of the USPA Masterclass recordings, can be **purchased for \$9.99 each** in our shop, where 450 USPA Conference videos and 175 audio recordings are also for sale.

### Kacperski's Corner – Some Good News and Some Bad News

#### Al's Alternative Energy Corner *[And other Cool Topics]*

Hi everyone,

I've got some bad news and some good news this month.

The good news one of our former speakers and inventors sold an idea for a fusion energy generator! Here is the company link: <https://www.isaindustries.com/>

ISA was founded in October of 2016, with a mission to develop the technologies needed to secure our best probable future. Initially, the company started as a garage-based research project studying black holes, quantum physics, and electromagnetism. As a result of the project's discoveries, it became evident that there are relatively untapped alternative sources of energy, that if harnessed would revolutionize how we power our world. Given the potential impact, a team of entrepreneurs and engineers was assembled to develop a new generation of energy technology for the sustainable future.

Their mission: to solve the world's energy problem. ISA is a collective of entrepreneurs and engineers who believe all energy should be inherently sustainable, affordable, and decentralized. We develop new sources of power that enable users to become energy independent. (Thumbs up!)

Also, here is a link to a pdf of mind control patents!

### From Scott Beutlich: Don Paris - lifetime USPA member, speaker and vendor receives an award.

Our scientists often lead double lives. Inductees for the 2023 Class of the South Dakota Rock & Rollers Hall of Fame were announced in May, and honored in a September ceremony.

Don and his 1970's band Free Flite were inducted in the Hall of Fame at this year's celebration. Free Flite, a Rapid City-based four-piece rock band emerged in the early 1970s, comprised of Roger Groethe (drums) Larry Galbraith (lead vocals), Don Paris (bass) and Peter Diggins (guitar).

The band did opening regional shows for major touring acts including Styx, REO Speedwagon, Foghat, The Guess Who, Jo Jo Gunn, Head East, Black Oak Arkansas, Flash and Deodato.

## A New Scientific Discovery – How Sunflowers [Edit: really] See the Sun

[https://www.ucdavis.edu/curiosity/news/how-sunflowers-see-sun?utm\\_source=join1440&utm\\_medium=email&utm\\_placement=newsletter](https://www.ucdavis.edu/curiosity/news/how-sunflowers-see-sun?utm_source=join1440&utm_medium=email&utm_placement=newsletter)

Sunflowers famously turn their faces to follow the sun as it crosses the sky. But how do sunflowers “see” the sun to follow it? New work from plant biologists at the University of California, Davis, published Oct. 31 in PLOS Biology, shows that they use a different, novel mechanism from that previously thought.

“This was a total surprise for us,” said Stacey Harmer, professor of plant biology at UC Davis and senior author on the paper.

Most plants show phototropism — the ability to grow toward a light source. Plant scientists had assumed that sunflowers’ heliotropism, the ability to follow the sun, would be based on the same basic mechanism, which is governed by a molecule called phototropin and responds to light at the blue end of the spectrum.

Sunflowers swing their heads by growing a little more on the east side of the stem — pushing the head west — during the day and a little more on the west side at night, so the head swings back toward the east. Harmer’s lab at the UC Davis College of Biological Sciences has previously shown how sunflowers use their internal circadian clock to anticipate the sunrise, and to coordinate the opening of florets with the appearance of pollinating insects in the morning.

### **Growing toward light**

In the new study, graduate student Christopher Brooks, postdoctoral researcher Hagatop Atamian and Harmer looked at which genes were switched on (transcribed) in sunflowers grown indoors in laboratory growth chambers, and in sunflowers growing in sunlight outdoors.

Indoors, sunflowers grew straight toward the light, activating genes associated with phototropin. But the plants grown outdoors, swinging their heads with the sun, showed a completely different pattern of gene expression. There was no apparent difference in phototropin between one side of the stem and another.

The researchers have not yet identified the genes involved in heliotropism.

“We seem to have ruled out the phototropin pathway, but we did not find a clear smoking gun,” Harmer said.

Blocking blue, ultraviolet, red or far-red light with shade boxes had no effect on the heliotropism response. This shows that there are likely multiple pathways, responding to different wavelengths of light, to achieve the same goal. Upcoming work will look at protein regulation in the plants.

Sunflowers are quick learners. When plants grown in the lab were moved outdoors, they started tracking the sun on the first day, Harmer said. That behavior was accompanied by a burst of gene expression on the shaded side of the plant that did not recur on subsequent days. That suggests some kind of “rewiring” is going on, she said.

Apart from revealing previously unknown pathways for light-sensing and growth in plants, the discovery has broad relevance, Harmer said.

“Things that you define in a controlled environment like a growth chamber may not work out in the real world,” she said.

Atamian is now an assistant professor at Chapman University.

## **Our Library Lion, John Reed now has his own room in the library.**

Click: [The John Reed Room](#)

As we have shared in previous newsletters, John has been collecting, hoarding, and preserving everything he can get his hands on relating to USPA, psychotronics and radionics since – well, since I don't know when. As the collection grows, so does John's frustration at not being able to "complete sets."

He is hoping a "Publications Packrat" like him will have some of the things he is missing. He is creating a digital library by scanning every out of print book, series of newsletters and magazine articles that he can lay his hands on relevant to psychotronics, radionics and sister fields. As his database grows, he will share updates via this newsletter and our website.

**SPECIAL:** In the John Reed Room, you will find the first ten Original USPA Newsletters.

**Please visit The John Reed Room** on line and see if you can help fill a void in John's collections.

## **Section VIII - USPA Publications: Proceedings and Journals are Digitized and in USPA Shop!!**

This month's Featured Proceedings: 2008 (available for 19.99 [Click Here](#))

A few months ago we featured the 1996 Table of Contents out of sequence because we had just recovered it and added it to our library. NOW the set is complete!

We present these tables of contents to give you an idea of the wide scope of topics covered in each volume. When they were originally sold at the conferences, they were big, bulky GBC bound tomes that probably caused some people's luggage to be overweight! Now they are available in space saving pdf files. Now they are easy to download, store, peruse and to use for reference.

#### What is USPA?

The United States Psychotronics Association (USPA) is a federally recognized, nonprofit 501(c)(3) organization founded in 1975 to serve as a focal point for scientific and technical exploration of the universe of esoteric, spiritual, and psychic arts in the United States of America.

The USPA has been hosting annual conferences for its membership since its formation and has featured countless individuals with cutting-edge viewpoints, research, or theories to share, allowing any interested persons to openly discuss their work.

#### What is Psychotronics?

USPA defines psychotronics as the science of mind-body-environment relationships, an interdisciplinary science concerned with the interactions of matter, energy, and consciousness.

Psychotronics involves the study, research, and applications of the physics and technology of the mind, brain, spirit, consciousness, and the underlying forces of life and nature – hence the term “psychotronics.” A true understanding of the universe must include the spiritual as well as the technical. USPA provides an opportunity for amateur researchers to present their findings along with the professionals. USPA stresses research, with documentation of results, and practical applications, rather than personal experience and unsupported hypotheses

## **Section XI - USPA Donors Recognition Page**

The USPA would like to give special recognition on a continuing basis to people who have made generous donations to the United States Psychotronics Association in past years.

This special “USPA Generous Donors Recognition Page” will be carried in each issue of the USPA Journal & Newsletter, and new names will be added as donations are received.

## Section XII Classified Ad Section –

Personal Ads: If you have any “psychotronic related items” to sell, (books, radionic machines, etc.) We charge 20 cents per word, 20.00 per half page with supplied artwork or photos or 35.00 per whole page. Your paid ad will run in the next three issues of the newsletter.

**If you would like to publicize an event for a non-profit organization**, USPA will advertise for you up to 750 words free. We ask for mutual links to our website from yours.

**If you would like to publicize a for-profit event**, or a business USPA charges reasonable ad rates. Link to the ad rates is posted on our Donate page of the website, or [CLICK HERE](#)

**Please Note:** USPA is not responsible for the content or condition of items sold from this newsletter by any private person or company, nor does it back any treatment, modality or veracity of presentation. It does not back any claim of medical efficacy of machines or treatments. USPA cannot recommend specific radionic practitioners, or offer radionic treatments from its board of directors or officers.

## We have great news!

We have finally jumped through all the Amazonian hoops and the USPA book, *Energetic Processes, Book I Second Edition* has been uploaded to KDP (Amazon’s book site) and a proof copy is now being reviewed by the board. As soon as the board has approved the revisions, it will be available for purchase. We hope to be able to offer it on our website at a discount. More information as the process evolves. Book II will follow shortly.

## Section XIII –With Help from USPA J.G. Gallimore’s Books are Again Available

Jerry G. Gallimore was one of the founders of the USPA in 1975, and was a leading researcher in psychotronics and unusual energies until his untimely death in 1989.

All five of J.G. Gallimore’s rare books on psychotronics subjects and unusual energies have been reprinted by the United States Psychotronics Association (USPA) and are being made available at a fraction of the cost that used copies were being sold at online.

So rare have these books been, that only a few libraries in the entire world had them in their collections, and some original Gallimore’s books were being sold for several hundred dollars each online. However, with these newly reprinted volumes, each will be available for less than \$30.00. All are: [Available at Amazon.com](#)

<b>The Handbook of Unusual Energies: Volume</b>	ISBN-13: 978-1543024999	The first book of 3 on unusual energies	468 Pages
Gallimore discusses in depth the research, discoveries, and inventions of all the major researchers in subtle energies, the aether, biological 62 fields, pyramid energy, radiesthesia, radionics, crystal transduction, and related subjects. These include the works of Baron Von Reichenbach's and his odic energy, Dr. Wilhelm Reich's orgone energy, Dr. Harold Burr's biological life fields, Kozyrev's time mirror, Edgar Cayce's transmission of energy, and related research done by many others. Of particular importance is Gallimore's 127 page chapter on radionics. In this chapter he discusses in depth the research and devices of Ruth Drown, T. Galen Hieronymus, Rho Sigma, Dr. L. P. Corte and other prominent people in the radionics field.			
<b>Collected Properties &amp; Writings of J. G. Gallimore: Volume 2</b>	ISBN-13: 978-1543025040	The second book of 3 on unusual energies	258 Pages
This is the second book in the “Unusual Energies” series that J.G. Gallimore published. It covers Gallimore’s research on Albert Abrams, the founder of modern radionics, psychological physics, psychic energy, thought resonance, subtle energies, crystals, and related subjects.			

In addition, a number of radionics devices are discussed, such as the De La Warr Diagnostic Instrument. And very helpfully, the rates are provided for substances, body organs, and medical diseases and disorders. I very interesting interview of Christopher Bird, conducted by J.G. Gallimore is provided, as well as a discussion of Walter Russell and his research

<b>Relationship Between Parapsychology and Gravity: Volume 3</b>	ISBN-13: 978-1543024944	The third book of 3 on unusual energies	228 Pages
--	----------------------------	---	-----------

This book describes in depth the research and theories of J.G. Gallimore into the question of "parapsychology transmission" -the question of how such things as telepathy, remote viewing, ESP, and similar phenomena can physically occur.

He discusses the various emanations, radiations, and energy fields of all matter and life including the ancient Chinese energy called "chi" (qi), the ancient Indian's prana energy, Reichenbach's "odonic force," Gurwitsch's "mitogenic radiation," Wilhelm Reich's orgone energy, and other subtle energies. He shows how all of these energies are similar, how they interact, and how they are related to gravity.

He also discusses crystals as transducers of these energies, and provides diagrams of devices that could potentially be used to harness or control these energies.

<b>Transverse Paraphysics: The New Science of Space, Time, and Gravity Control</b>	ISBN-13: 978-1543024920	Gallimore's fourth book	374 Pages
--	----------------------------	-------------------------	-----------

This book covers the visionary research and theories developed by J.G. Gallimore about anti-gravity, space, time, and biophysics. He discusses in depth the dimensions of space, time, and gravity, and new discoveries in each of these areas. In addition, he covers research being done on anti-gravity and then discusses anti-gravity patents that have been obtained.

He also discusses the intriguing concept of aura energy fields surrounding humans and other living things, and how extra-sensory perception (ESP) might be explained through biophysical principles.

<b>Unified Field Theory Research Book: Using Subjective Response to Psi-Plasma for Analysis of Properties Neutral Charge Plasma Fields</b>	ISBN-13: 978-1543024838	Gallimore's Fifth book	134 Pages
--	----------------------------	------------------------	-----------

This book is about psychotronics, radionics, electromagnetic fields and waves, psi-plasma, plasma fields, subtle energies, bio-electromagnetic energy, and other unusual energies emitted by living and non-living things. It also is about how living things interact with and are affected by these energies, which may enhance health or harm health.

The book covers the research of Wilhelm Reich on Orgone energy, of Baron Reichenback on the odonic forces, as well as research done by Cazzamalli on brain radiations and Lakhovsky on using high frequency radiations to successfully treat cancer in humans. In addition, Lakhovsky used similar methods to enhance the growth of plants. Gallimore shows how these energies, forces, and fields are all inter-related and provides hypotheses and ideas on their possible unification.
