About Pete Radatti:

He worked on the project to connect the first
supercomputer to the ARPANET which later
became the Internet!

He also worked in the space program where he
learned he had a talent for inventing things and
writing.

At one time, Pete worked on the project to
connect NOAA data online which improved
weather forecasting and worked on the Strategic
Defense Initiative Systems Integration Data Center
(Star Wars) (but never got to meet Darth Vader).

USPA Masterclass #39 was “Nikola Tesla: Wizard at War” w/ Marc Seifer

Marc Seifer is an American author who has published books on handwriting analysis (Graphology), human consciousness and the mind, as well as biographies of the inventor Nikola Tesla, and several works of fiction.

His book *Wizard: The Life & Times of Nikola Tesla: Biography of a Genius* has been called "Serious scholarship" by *Scientific American*, "Revelatory" by *Publishers Weekly* and is "Highly Recommended" by the American Association for the Advancement of Science.

Section VI – Articles of Interest

Dan Taylor Recommends a Video: 2014 Documentary about Nobel Prize laureate Luc Montagnier and Water Memory.

This is a YouTube video, found here; <https://www.youtube.com/watch?v=R8VyUsVOic0>. It discusses the work started by Jacques Benveniste in the 1980's and now being taken up by Professor Prof. Luc Montagnier. The beginning of the video commentary follows:

The notion of water memory was first raised in the 1980s by a renowned scientist called Jacques Benveniste. It immediately sparked a huge scientific controversy. Yet it is professor Montagne, the joint recipient of the 2008 Nobel Prize in physiology for the discovery of HIV who took up the torch after Benveniste. Although he had nothing else to prove why did he risk his career by venturing through the troubled waters of water memory?

"I've always been searching for the extraordinary. I find it hard to work on an established theory; I'd rather innovate," Montagne said. Driven by curiosity he applied the technologies of Benveniste on his own research. Following the first experiments on the blood plasma from patients infected with HIV, he detects electromagnetic signals.

"It came to me as a real surprise. I didn't expect that and we were all fascinated by this phenomenon that nobody had ever witnessed until then. This kind of phenomenon wasn't even considered by classical biology."

Encouraged by these first results the professor plunged into water memory. "We really felt like pioneers exploring a new scientific area, a wild jungle so to speak. It gave me a little vertigo to think about the huge possibilities for medical applications. I'm a trained physician so I felt an intellectual excitement. I thought it was a fantastic discovery. I began to think that Benveniste was just right. Benveniste was a renowned biologist in the 1980s, considered as a Nobel Prize candidate, but he died in 2004 from a stiff fight to defend his controversial theory against some radical opponents. 30 years later the theory is still a red-hot issue. Despite all that professor Montagne has resumed Benveniste's research but he's learned the lessons from the water memory case. He knows the road is full of obstacles. [Again, watch the video at <https://www.youtube.com/watch?v=R8VyUsVOic0>.]

Beverly Rubik was interviewed by Stew Peters his network Podcast March 20, 2023.

The topic was "5G Technology is biologically disruptive: 5g radiation penetrates human blood brain barrier." Steve's podcast can be viewed at:

Dan Taylor, John Reed and Glen Rein on Frequencies

Daniel Taylor shared this link on "Frequencies (Part 1) – unearthing the mysteries of life | Alliance For Natural Health":

<https://www.anhinternational.org/news/feature-frequencies-part-1-unearthing-the-mysteries-of-life/>

Some of this article covers:

- Einstein's vision of medicine
- You discover what you look for, and remain ignorant of what you ignore
- We know it's there, but we choose not to see it
- Frequencies are fundamental to all living systems
- 'Essential' electromagnetic fields (EMFs)
- Why do we think electromagnetism is essential to life?

John Reed responded: Thanks so much, Daniel. And here is Part 2:

<https://www.anhinternational.org/news/feature-frequency-medicine-part-2-devices-wacky-or-worthy/>

Which covers:

- Diversity rules
- What we're not talking much about
- A question of quality and quantity
- Units for measuring EMF radiation
- So who's your best friend?
- Demystifying frequency devices
- The consequences of poor industry self-regulation aren't good for natural health
- How do frequency-based devices work?
- Clean or dirty signals?
- Do frequency medicine devices work?

Glen Rein completed the email circle with, "Thanks for sending this Daniel. Part 1 is mostly accurate although "the same old..." One error is the statement that Luc Montagnier discovered the mechanism for homeopathy. He did write one article about that, but referred to the work of DelGiudice who was the theoretical physicist who discovered quantum domains which is considered one of the plausible mechanisms to explain water memory."

Daniel Taylor offered an article on Natural Products That Target Cancer Stem Cells – PMC

By [Jim Moselhy](#), [Sowmyalakshmi Srinivasan](#), [Murali K Ankem](#), and [Chendil Damodaran](#)
 Dan suggested: “See Table 1 for 25 “potential” (subject to testing) radionic reagents...”

The cancer stem cell model suggests that tumor initiation is governed by a small subset of distinct cells with stem-like character termed cancer stem cells (CSCs). CSCs possess properties of self-renewal and intrinsic survival mechanisms that contribute to resistance of tumors to most chemotherapeutic drugs.

The failure to eradicate CSCs during the course of therapy is postulated to be the driving force for tumor recurrence and metastasis. Recent studies have focused on understanding the unique phenotypic properties of CSCs from various tumor types, as well as the signaling pathways that underlie self-renewal and drug resistance.

Natural products (NPs) such as those derived from botanicals and food sources may modulate vital signaling pathways involved in the maintenance of CSC phenotype. The Wntless/Integrated (WNT), Hedgehog, Notch and PI3K/AKT/MTOR pathways have all been associated with quiescence and self-renewal of CSCs, as well as execution of CSC function including differentiation, multidrug resistance and metastasis. Recent studies evaluating NPs against CSC support the epidemiological evidence linking plant-based diets with reduced malignancy rates. This review covers the key aspects of NPs as modulators of CSC fate. The full article can be seen here

Daniel Taylor suggests checking out an article by Thomas J. Brown, ‘Escaping the Subsensible Realm.’

[ed. note: For those to whom the question, “What’s it All About Afie?” continues to ring in the ether, here’s a website to help you ponder further. (Song Alfie: Publisher: Sony/ATV Music Publishing LLC)]

Website: <https://alkemix.substack.com/p/escaping-the-subsensible-realm>

Subtitled “Overcoming humanity's "descent beneath matter," Brown quotes Werner Heisenberg at the beginning of his article, “What we observe is not nature itself, but nature exposed to our method of questioning.”

The modern scientific method is a reductionist approach that has developed into an inexorable non-acceptance of anything which cannot be weighed and measured, thus limiting our acceptance of ourselves. Of course, it has provided us great technology, and there is some great research and learning within, but all at what cost to our health and psyche? Look at how disconnected society is from Nature!

In the modern scientific paradigm, only the inertial properties of dense matter are accepted as real, the so-called “primary qualities.”

Anything in reality which offers experiences to our being - pleasure, delight or whatever - are considered as “secondary qualities,” mere vibrations (in nothing apparently) interpreted as though we are nothing more than mere computer-like brains in biological boxes with wires feeding vibrations in to create experience solely subjectively.

Reality isn’t really real, just ask a scientist. Though you may get a different response from the tax man.

Arthur Eddington, in his *Nature of the Physical World*, argues that modern science is limited by its own methodology. Science can only describe and measure physical phenomena observable and testable in the laboratory. Thereby science is unable to

answer fundamental questions about the nature of reality that go beyond the physical realm.

Science cannot explain the subjective experience of consciousness, within which its “secondary qualities” arise, or the actual nature or substance of life itself. It assumes life and consciousness are mere epiphenomena of inert matter.

We got lucky... yeah, right :)

Eddington, in **Philosophy of Physical Science**, states that “ideally, all our knowledge of the universe could have been reached by visual sensation alone - in fact by the simplest form of visual sensation, colourless and non-stereoscopic.”

Ernst Lehrs, in **Man or Matter** notes this expresses that “in order to obtain scientific cognition of the physical world, man has felt constrained to surrender the use of all his senses except the sense of sight, and to limit even the act of seeing to the use of a single, colourblind, eye.”

In other words, a meter-reading science. All accepted knowledge of the physical sciences can be gained from such. Source: <https://alkemix.substack.com/p/escaping-the-subsensible-realm>

Seeking Millionaire Sponsor

USPA is beginning a search for a lifetime patron of the organization, one who will help establish a small permanent site to house the USPA holdings of books, periodicals, equipment and the priceless collections of works of some renowned scientists who have died. This is all currently being stored and cared for by John Reed

John has scanned many of our books and scientific papers and periodicals to PDF to guard against the loss of their information, but in the interest of guarding the digital information against loss, a permanent safe place is needed for the physical books and materials.

This would require the gift of a small building, and the funding of a stipend for a part time secretary as well as utilities and upkeep of the building. It is a big dream, but somewhere there must be someone who can help! Contact Scott at uspsychotronics@yahoo.com

A Contribution from our Librarian, John Reed's hoards – Love and Crystals

This is from the Psychic Research Newsletter, Vol. 2 No 3 May-June 1985 "The Importance of love in working with and through a crystal."

PSYCHIC RESEARCH NEWSLETTER

VOL. 2 NO. 3 MAY-JUNE 1985

THE IMPORTANCE OF LOVE IN WORKING WITH AND THROUGH A CRYSTAL

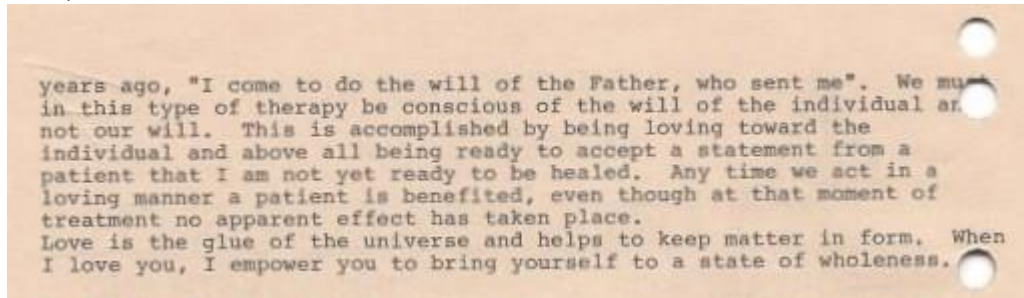

A crystal by itself has no intrinsic power except the fundamental note, or variation of its crystallographic form. A radionic evaluation of the vibration of the double-terminated four-sided healing crystal is 454. The same 454 vibration is observed with a metatronic measurement of water, which has been purified by reverse osmosis. The single quartz crystal, cut and tuned to the vibration of the water molecule, is an apparatus to transfer by resonance a vibration from the crystal to the body of a receiver. The vibration is absorbed in the fluid portion of the body, the blood stream.

It becomes critically important that the intention and will of the operator utilizing a crystal be precise, clear. This is obtained by making a small affirmation or prayer prior to treatment, with the crystal held in the appropriate hand of the healer. You serve the individual for their highest good and not with a desire or will on the part of the person doing the healing.

With the opposing hand placed on the shoulder of the individual, you then imbue the crystal with the thought of love and well being. This establishes a primary carrier wave, which now works to open the thymus gland and establishes a resonance transfer of this vibration into the body of the healee. A transfer is accomplished when you feel a vibration in the receiving hand. For each up and down movement of the crystal the appropriate vibration is felt in the receiving hand. The individual now takes a deep breath and transfers this vibration [love] by the indwelling and outgoing breath. As they do that they will feel a localization of the charge in the area of the body requiring treatment. When they acknowledge this charge is in place, you synchronize your breath with the individuals. Then direct them in a quiet, meaningful, way to go to the source of what is causing their difficulty. You build this field up in a loving manner, as the image forms again into the mind of the healee. Prepare the healee by telling them to release their breath explosively on the command, "Release!" Then both of you draw in your breath together so that the charge is through the witness area, into the crystal. When this is accomplished, expell the breath suddenly from your bodies with the command, "Release!" This is the procedure which is fundamental to all crystal therapy and it is emphasized that you must be clear from any preconception or intuition of what you wish to do, so that you link with the very essence of the activity of that person's subtle body. When you work in a loving manner: a soul contact is established between the healer and the healee; you are protected from any negative vibration coming from the person being treated; you do not interfere with Karma, or the will of that individual. Christ said 2,000

Next page is the rest of the article, but

First, a taste of what it looks like in John's stash...

...and then with the wonders of technology

years ago, "I come to do the will of the Father, who sent me". We must in this type of therapy be conscious of the will of the individual and not our will. This is accomplished by being loving toward the individual and above all being ready to accept a statement from a patient that I am not yet ready to be healed. Any time we act in a loving manner a patient is benefited, even though at that moment of treatment no apparent effect has taken place. Love is the glue of the universe and helps to keep matter in form. When I love you, I empower you to bring yourself to a state of wholeness.

.Quick Background of our Proceedings Evolution

Since its first meeting in 1975, hundreds of top scientists, educators and researchers have made presentations at USPAs annual conferences. They are from the leading edges of their fields, especially regarding the phenomena of Mind-Body connection, energy and emerging technologies. The first audio recordings were made in 1978.

Then, in 1985, USPA produced a perfect-bound Proceedings book for its tenth conference. The proceedings went through quite an evolution, much like our audio and video presentations. In 2010 they went through a “final” stage and the proceedings are now produced as pdf documents.

6 USPA Journals and 18 out of 19 Proceedings are now available for purchase.

The 6 USPA Journals and 18 of our 19 Annual Proceedings can be purchased in pdf format from our webstore at: <https://www.psychotronics.org/product-category/uspa-publications-journals-proceedings/>

All USPA publications are copyright protected and are property of the USPA. They may not be reprinted without permission of the Board of USPA.

Section X – Editor’s Feedback Nook: Get Your Name in the Paper

PLEASE, Share the News with USPA.

Tell me if you - or any other scientist, inventor, creator, theorist or windmill chaser you know - has had any great breakthroughs, *even little breakthroughs*.

I want to know about lectures, honors, prizes, contest wins, trips taken or in the works.

Let me know of recent collaborations, new laboratories, restored laboratories, books or articles published. Tell me how a book changed your life.

Write a few sentences about a great conference you attended. Here’s the place where you can crow about your accomplishments or give praise for someone you think deserves the limelight. Email gailinvermont@outlook.com. Title your email “Good News.”

What is USPA?

The United States Psychotronics Association (USPA) is a federally recognized, nonprofit 501(c)(3) organization founded in 1975 to serve as a focal point for scientific and technical exploration of the universe of esoteric, spiritual, and psychic arts in the United States of America.

The USPA has been hosting annual conferences for its membership since its formation and has featured countless individuals with cutting-edge viewpoints, research, or theories to share, allowing any interested persons to openly discuss their work.

What is Psychotronics?

USPA defines psychotronics as the science of mind-body-environment relationships, an interdisciplinary science concerned with the interactions of matter, energy, and consciousness.

Psychotronics involves the study, research, and applications of the physics and technology of the mind, brain, spirit, consciousness, and the underlying forces of life and nature – hence the term “psychotronics.” A true understanding of the universe must include the spiritual as well as the technical. USPA provides an opportunity for amateur researchers to present their findings along with the professionals. USPA stresses research, with documentation of results, and practical applications, rather than personal experience and unsupported hypotheses.

Section XII - Our Donors

USPA Generous Donors Recognition Page

The USPA would like to give special recognition on a continuing basis to people who have made generous donations to the United States Psychotronics Association in past years.

This special "USPA Generous Donors Recognition Page" will be carried in each issue of the USPA Journal & Newsletter, and new names will be added as donations are received.

Section XIII Classified Ad Section –

Personal Ads: If you have any “psychotronic related items” to sell, (books, radionic machines, etc.) we charge 20 cents per word, 20.00 per half page with supplied artwork or photos or 35.00 per whole page. Your paid ad will run in the next three issues of the newsletter.

If you would like to publicize an event for a non-profit organization, USPA will advertise for you up to 750 words free. We ask for mutual links to our website from yours.

If you would like to publicize a for-profit event, or a business USPA charges reasonable ad rates. Link to the ad rates is posted on our Donate page of the website, or [CLICK HERE](#)

Please Note: USPA is not responsible for the content or condition of items sold from this newsletter by any private person or company, nor does it back any treatment, modality or veracity of presentation. Section XIV – J.G. Gallimore’s Five Rare Books Are Now Available!

Jerry G. Gallimore was one of the founders of the USPA in 1975, and was a leading researcher in psychotronics and unusual energies until his untimely death in 1989.

All five of J.G. Gallimore’s rare books on psychotronics subjects and unusual energies have been reprinted by the United States Psychotronics Association (USPA) and are being made available at a fraction of the cost that used copies were being sold at online.

So rare have these books been, that only a few libraries in the entire world had them in their collections, and some original Gallimore’s books were being sold for several hundred dollars each online. However, with these newly reprinted volumes, each will be available for less than \$30.00. All are: [Available at Amazon.com](#)

The Handbook of Unusual Energies: Volume 1 of Handbook of Unusual Energies	ISBN-10: 1543024998 ISBN-13: 978-1543024999	The first book of three volumes on unusual energies	468 Pages
<p>Gallimore discusses in depth the research, discoveries, and inventions of all the major researchers in subtle energies, the aether, biological 62 fields, pyramid energy, radiesthesia, radionics, crystal transduction, and related subjects.</p> <p>These include the works of Baron Von Reichenbach's and his odic energy, Dr. Wilhelm Reich's orgone energy, Dr. Harold Burr's biological life fields, Kozyrev's time mirror, Edgar Cayce's transmission of energy, and related research done by many others.</p> <p>Of particular importance is Gallimore's 127 page chapter on radionics. In this chapter he discusses in depth the research and devices of Ruth Drown, T. Galen Hieronymus, Rho Sigma, Dr. L. P. Corte and other prominent people in the radionics field.</p>			
Collected Properties & Writings of J. G. Gallimore: Volume 2	ISBN-10: 1543025048 ISBN-13: 978-1543025040	The second book of three volumes on unusual energies	258 Pages
<p>This is the second book in the “Unusual Energies” series that J.G. Gallimore published. It covers Gallimore’s research on Albert Abrams, the founder of modern radionics, psychological physics, psychic energy, thought resonance, subtle energies, crystals, and related subjects.</p> <p>In addition, a number of radionics devices are discussed, such as the De La Warr Diagnostic Instrument. And very helpfully, the rates are provided for substances, body organs, and medical diseases and disorders. I very interesting interview of Christopher Bird, conducted by J.G. Gallimore is provided, as well as a discussion of Walter Russell and his research</p>			

Relationship Between Parapsychology and Gravity: Volume 3	ISBN-10: 1543024947 ISBN-13: 978-1543024944	The third book of three volumes on unusual energies	228 Pages	
<p>This book describes in depth the research and theories of J.G. Gallimore into the question of "parapsychology transmission" -the question of how such things as telepathy, remote viewing, ESP, and similar phenomena can physically occur.</p> <p>He discusses the various emanations, radiations, and energy fields of all matter and life including the ancient Chinese energy called "chi" (qi), the ancient Indian's prana energy, Reichenback's "odic force," Gurwitsch's "mitogenic radiation," Wilhelm Reich's orgone energy, and other subtle energies. He shows how all of these energies are similar, how they interact, and how they are related to gravity.</p> <p>He also discusses crystals as transducers of these energies, and provides diagrams of devices that could potentially be used to harness or control these energies.</p>				
Transverse Paraphysics: The New Science of Space, Time, and Gravity Control	ISBN-10: 1543024920 ISBN-13: 978-1543024920		374 Pages	
<p>This book covers the visionary research and theories developed by J.G. Gallimore about anti-gravity, space, time, and biophysics. He discusses in depth the dimensions of space, time, and gravity, and new discoveries in each of these areas. In addition, he covers research being done on anti-gravity and then discusses anti-gravity patents that have been obtained.</p> <p>He also discusses the intriguing concept of aura energy fields surrounding humans and other living things, and how extra-sensory perception (ESP) might be explained through biophysical principles.</p>				
Unified Field Theory Research Book: Using Subjective Response to Psi-Plasma for Analysis of Properties Neutral Charge Plasma Fields	ISBN-10: 1543024831 ISBN-13: 978-1543024838		134 Pages	
<p>This book is about psychotronics, radionics, electromagnetic fields and waves, psi-plasma, plasma fields, subtle energies, bio-electromagnetic energy, and other unusual energies emitted by living and non-living things. It also is about how living things interact with and are affected by these energies, which may enhance health or harm health.</p> <p>The book covers the research of Wilhelm Reich on Orgone energy, of Baron Reichenback on the odic forces, as well as research done by Cazzamalli on brain radiations and Lakhovsky on using high frequency radiations to successfully treat cancer in humans. In addition, Lakhovsky used similar methods to enhance the growth of plants. Gallimore shows how these energies, forces, and fields are all inter-related and provides hypotheses and ideas on their possible unification.</p>
