USPA free Masterclasses started in 2019!

Section I - What's Happening SOON:

Saturday, September 16, 2023, 1:00 pm CT Libby Rutledge will present the 46th free USPA Masterclass, "Energetically Imprinted Water"

Libby's Presentation: Water is amazing beyond our imagination. Dr. Masaru Emoto said "Water is a messenger of God." Dr. Emoto's experiments with water crystals were done to prove that water carries information. There are many ways to put information, or energy, into water. This talk will focus on energetically imprinted water that is made by using intention, radionics, Hado instruments from Dr. Emoto's Office, and Light Language symbols. It was found that the characteristics of energetically imprinted water, as measured by radionics, change when the water is diluted, depending on what was imprinted. These results may be evidence of the consciousness of water.

About Libby Rutledge: Libby has a Ph.D. in Molecular and Cellular Biology studying the process of endocytosis in cells. She did postdoctoral work in Gene Therapy, genetically engineering viruses to study how good genes could be delivered to cells to correct genetic defects. She has peer reviewed publications and a patent on a virus.

She worked for the Diabetes Center at the University of Washington in Seattle, directing a core facility specializing in real-time PCR, the technique that has been used to detect SARS CoV-2.

Section II - Sponsors' Spot

Yes, we have no more Sponsors; we have no more sponsors today!

In ADDITION to supporting the great USPA Masterclass series, our Sponsors have their business or services recognized in appreciation of their help.

- They are mentioned in each of our Saturday emails leading to the class they sponsor.
- They get a "write-up" in a USPA newsletter.
- They can promote their business or service in a live advertisement before our Masterclass audience before the class begins!

She has peer reviewed publications and a patent on a virus.

She worked for the Diabetes Center at the University of Washington in Seattle, directing a core facility specializing in real-time PCR, the technique that has been used to detect SARS CoV-2.

She also began to study with a meditation teacher in Seattle, and began to hear about auras, non-physical entities, and many topics which did not fit into her belief system, which was only what she could see, touch, or measure.

The meditation teacher moved to Montana, and so did Libby. Libby found a job teaching students molecular biology research at a tribal college, Salish Kootenai College on the Flathead Reservation.

The meditation teacher became abusive and after 14 years of being with this teacher, Libby was thrown out of the group. To cope with the trauma and realization of having been in a cult, Libby found a hypnotherapist on the Flathead Reservation. He was also an herbalist and radionics practitioner. He built a radionics instrument for Libby, and she began to learn, unsuccessfully, to feel the “stick.”

However, Libby found a way to do radionics. She also began seeing in her mind’s eye symbols that were of a very powerful Light Language, and she constructed phrases that had strong energies as measured by radionics. In 2019 Libby traveled to Tokyo for training in Dr. Masaru Emoto’s Office for instruction in Hado (“frequency” in Japanese). She now utilizes radionics, Hado, and the Light Language to make energetically imprinted water, and to research the power of intention.

Saturday, August 19, 2023, 1:00 pm CT Beverly Rubik presented the 45th free USPA Masterclass, “How to Discern the Truth:- Lessons from a Scientist”

About this Masterclass

Throughout her scientific career, Dr. Beverly Rubik has witnessed the stifling or suppression of novel scientific discoveries that challenged mainstream dogma, from alternative therapies to studies on parapsychology and subtle energies. Such “frontier science” remains largely outside of mainstream science. Today humanity is suffering from an even larger problem, a global “pandemic” of disinformation and misinformation. Most information is often a mix of truth and untruth. Yet censorship, downright lies, and scientific fraud have become rampant for any information or ideas that are perceived to challenge the “official narrative.” Our freedom of speech has been seriously curtailed. So, how can we know what is true? Dr. Rubik delved deeply into this enormous problem and shared her

strategies toward discerning reliable information, as well as identifying the "red flags" where more critical questioning is appropriate.

About Dr. Rubik

Dr. Beverly Rubik earned her Ph.D. in biophysics at the University of California, Berkeley. She is an academic scientist internationally known for her pioneering research that challenges scientific dogma. In 1997 she founded Institute for Frontier Science, a nonprofit laboratory near San Francisco. Her scientific contributions include studies on the biofield, energy medicine, water, consciousness, and the adverse health effects of wireless radiation. She has published almost 100 scientific papers and two books. She is a board member of the USPA and a former USPA president. Websites:

Bonus Book Sale- USPA has **ONLY two copies left of Dan Davidson’s *Shape Power* book, ISBN 0-9626321-6-4 for sale. (2020 Revision)**

This book, copyright 2020 by Dan Davidson is the revision of the original *Shape Power* book first published in 1997 by Rivas Publishing.

Description of the original 1997 book: “This book is the result of 35 years of personally funded research into finding how shapes and different materials convert universal aether into other forces and energies.

Dan has broken the code on how the process works; how nature manifests from the virtual particle soup of the aether into matter.

Dan has also defined a unified field theory which puts all this into perspective, complete with the mathematical physics and morphology of

atomic structure. He defines the embryonic basis for a new branch of physics and chemistry. The implications of the breakthrough discoveries elucidated in this book have far reaching implications in every area of our lives.”

The cover of this 2020 edition says, “The fundamental discovery of how shape modifies undifferentiated universal space energy, the aether, into electricity, magnetism and nuclear forces.”

Book is 8.5 x 11 inches, perfect bound, 177 pages long. Cost to the first 5 who order it is 33.00 with shipping. Please use uspasychotronics@yahoo.com on PayPal and include a note in the payment that it is for this book. We'll post a notice when they are all gone. Any purchases that accidentally go through after five will be promptly refunded. [Please don't buy the loose-leaf version on eBay – it is stolen!]

The Library Lion, John Reed is looking for Missing Documents

John has been collecting, hoarding, and preserving everything he can get his hands on relating to USPA, psychotronics and radionics since – well, since I don't know when. As the collection grows, so does John's frustration at not being able to "complete sets."

He is hoping a "Publications Packrat" like him will have some of the things he is missing. He is creating a digital library by scanning every out of print book, series of newsletters and magazine articles that he can lay his hands on relevant to psychotronics, radionics and sister fields. As his database grows, he will share updates via this newsletter and our website.

John is hunting for Newsletters (or group correspondence of any type) from USPA Chapters: If you have copies of any USPA chapter newsletters, please write to the USPA Librarian and Archivist, John Reed at: joreed43@gmail.com. If you want to keep them, please make a Xerox copy, or scan to pdf and send it to John at the above email address, or send them to John with the directions to return them when we've copied them. If you wish to donate your copies to the USPA Library, please let John know, so that shipping arrangements can be made. All shipping costs will be paid for by USPA.

Observations as a non-scientist. Though not from Missouri, I tend to want things shown to me, not just told. By Gail Wind

I found a site called <https://www.famousscientists.org/> First of all, I find almost nothing related to radionics or psychotronics on these pages. Perhaps some of our group can offer contributions to the site!

Meanwhile, I found an article somewhat enlightening, not just for the subject matter, but for "the moral of the story."

This is the article by The Doc

You Will Die for Showing I'm Wrong!

By The Doc

The wife of a leading scientist opened her mail one morning. She was shocked to find a threatening message saying that her husband wouldn't live long enough to die in his bed:

If your infernal thief of a husband is brought home... with every bone in his head smashed to a pulp, you will know the reason...

Tell him from me he is a lying infernal thief, and as sure as his name is Wallace he never dies in his bed.

You must be a miserable wretch to be obliged to live with a convicted felon. Do not think or let him think I have done with him.

The scientist was [Alfred Russel Wallace](#), best known for describing the theory of natural selection independently of [Charles Darwin](#).

Alfred Russel Wallace

However, the threat didn't come from Darwin – that really wasn't the great man's style: it came from John Hampden, a wealthy man who had lost a bet with Wallace.

I Bet You Can't Prove the World is Round

From a strict reading of Scripture, Hampden was certain that the earth must be as flat as a pancake. He was so sure of himself that in January 1870 he

announced an open challenge to all scientists, betting £500 that no-one could prove the world was round.

This was not a small bet. It was about seven years' wages for a skilled tradesman. Hampden placed his bet as an ad in the journal *Scientific Opinion*.

To Wallace the bet looked like a sure thing. In addition to his work as a naturalist, he was a professional surveyor. He knew the earth's curvature perfectly well, and moreover he knew perfectly well how to prove it.

He 'Proved' that Earth is Flat

Hampden had been convinced of the earth's flatness by the published work of the utopian socialist John Rowbotham.

Rowbotham had carried out an experiment on a straight channel of water several miles long flowing through some of England's flattest country – the Bedford Levels.

Rowbotham placed three wooden poles in the water so that the first and last poles were four miles apart. He ensured the poles' tops were all exactly 10 inches above the water. When he looked through a telescope he found that the tops formed a perfect line when viewed from one end. He believed this was only possible if Earth were flat.

This result appears to show the earth is flat. The result is misleading because refraction of light close to the water's surface deceives the eye.

Now, we know the earth isn't flat – we have photos taken from space to prove it. And besides, [Eratosthenes](#) measured our planet's curvature and circumference rather accurately as far back as the third century BC.

Rowbotham's Experiment was Faulty

Rowbotham's mistake was one of refraction. Near the surface of water, refraction of light, an optical effect in which light is deflected, becomes highly significant. If Rowbotham had only arranged his poles so their tops were six feet above the water he would have got the correct result, because refraction is insignificant 6 feet above the surface of the water.

In a correctly designed experiment, the top of the middle pole will be seen higher than the final pole.

This result avoids the distortion caused by refraction and shows the earth is round. Here the poles were all placed with their tops exactly six feet above the water's surface.

On March 5 1870, two months after Hampden issued his challenge in *Scientific Opinion*, he came face to face with Wallace on the Bedford Levels. The two competitors had agreed on an independent referee who, unfortunately, could not be present for the whole process. A local surgeon, Dr. Coulcher, appeared in his place.

Meanwhile, Wallace agreed to Hampden's suggestion of a second independent referee. Hampden brought along William Carpenter, who far from being independent, was a fervent Flat Earther.

The experiment was carried out and, as might be expected, confirmed Earth's curvature. However Carpenter – to Wallace's amazement – claimed the result meant that the earth was flat. Hampden refused to even look through the telescope.

The results were sent to the original referee, John Henry Welsh, who decided in Wallace's favor and awarded him the £500 stake Hampden had placed with him.

Aftermath

- Wallace showed that the earth's surface is curved.
- Strictly speaking, the bet was illegal. Through the courts, Hampden forced Wallace to return £500 to him.
- Hampden began a vicious campaign against Wallace, consisting of both threats and defamation. Wallace, who wished most of all for a quiet life, attempted to ignore these.
- Wallace became sufficiently sick of Hampden's defamation to take action. In January 1871, he sued Hampden for libel. The court awarded Wallace £600.
- To avoid paying anything to Wallace, Hampden gave everything he owned to his son-in-law and declared himself bankrupt.
- Hampden was jailed three times for his actions following the Bedford Levels experiment: for a week, then two months, then six months.
- Wallace ended up out of pocket and suffered years of harassment from Hampden, all to prove something that no educated person doubted in the first place. His was a Pyrrhic victory indeed.

Moral of the story – sometimes a Pyrrhic Victory (a victory or goal achieved at too great a cost) is still worth it in the end.

So often our scientists work long and hard for a good outcome, to find cures, energy sources, better ways of living. They spend hours, days, weeks and years changing tiny variables, painstakingly recording effects, only to be harassed, sued, ridiculed and laughed at while they work.

But the good ones, the really courageous ones, persevere until they prove their theories. It is my personal belief that they should be supported and encouraged in their ongoing efforts and heralded and appreciated when their work bears fruit.

Quick Background of our Proceedings Evolution.

Since its first meeting in 1975, hundreds of top scientists, educators and researchers have made presentations at USPAs annual conferences. They are from the leading edges of their fields, especially regarding the phenomena of Mind-Body connection, energy and emerging technologies. The first audio recordings were made in 1978.

Then, in 1985, USPA produced a perfect-bound Proceedings book for its tenth conference. The proceedings went through quite an evolution, much like our audio and video presentations. In 2010 they went through a "final" stage and the proceedings are now produced as pdf documents.

The 6 USPA Journals ALL 19 OF OUR Annual Proceedings can be purchased in pdf format from our webstore at: <https://www.psychotronics.org/product-category/uspa-publications-journals-proceedings/>

All USPA publications are copyright protected and are property of the USPA. They may not be reprinted without permission of the Board of USPA.

Keep the promises you make to your Self.
This is your magic. This is the way home.

Build a routine. Understand the power of
discipline. It's the highest form of self-
love. It means even when you don't feel
like it, you hold your Self up.

What is USPA?

The United States Psychotronics Association (USPA) is a federally recognized, nonprofit 501(c)(3) organization founded in 1975 to serve as a focal point for scientific and technical exploration of the universe of esoteric, spiritual, and psychic arts in the United States of America.

The USPA has been hosting annual conferences for its membership since its formation and has featured countless individuals with cutting-edge viewpoints, research, or theories to share, allowing any interested persons to openly discuss their work.

What is Psychotronics?

USPA defines psychotronics as the science of mind-body-environment relationships, an interdisciplinary science concerned with the interactions of matter, energy, and consciousness.

Psychotronics involves the study, research, and applications of the physics and technology of the mind, brain, spirit, consciousness, and the underlying forces of life and nature – hence the term “psychotronics.” A true understanding of the universe must include the spiritual as well as the technical. USPA provides an opportunity for amateur researchers to present their findings along with the professionals. USPA stresses research, with documentation of results, and practical applications, rather than personal experience and unsupported hypotheses

Section XI - USPA Generous Donors Recognition Page

The USPA would like to give special recognition on a continuing basis to people who have made generous donations to the United States Psychotronics Association in past years.

This special “USPA Generous Donors Recognition Page” will be carried in each issue of the USPA Journal & Newsletter, and new names will be added as donations are received.

Section XIII – J.G. Gallimore’s Five Rare Books Are Now Available!

Jerry G. Gallimore was one of the founders of the USPA in 1975, and was a leading researcher in psychotronics and unusual energies until his untimely death in 1989.

All five of J.G. Gallimore's rare books on psychotronics subjects and unusual energies have been reprinted by the United States Psychotronics Association (USPA) and are being made available at a fraction of the cost that used copies were being sold at online.

So rare have these books been, that only a few libraries in the entire world had them in their collections, and some original Gallimore's books were being sold for several hundred dollars each online. However, with these newly reprinted volumes, each will be available for less than \$30.00. All are: [Available at Amazon.com](https://www.amazon.com)

The Handbook of Unusual Energies: Volume 1 of Handbook of Unusual Energies	ISBN-10: 1543024998 ISBN-13: 978-1543024999	The first book of three volumes on unusual energies	468 Pages
<p>Gallimore discusses in depth the research, discoveries, and inventions of all the major researchers in subtle energies, the aether, biological 62 fields, pyramid energy, radiesthesia, radionics, crystal transduction, and related subjects.</p> <p>These include the works of Baron Von Reichenbach's and his odic energy, Dr. Wilhelm Reich's orgone energy, Dr. Harold Burr's biological life fields, Kozyrev's time mirror, Edgar Cayce's transmission of energy, and related research done by many others.</p> <p>Of particular importance is Gallimore's 127 page chapter on radionics. In this chapter he discusses in depth the research and devices of Ruth Drown, T. Galen Hieronymus, Rho Sigma, Dr. L. P. Corte and other prominent people in the radionics field.</p>			
Collected Properties & Writings of J. G. Gallimore: Volume 2	ISBN-10: 1543025048 ISBN-13: 978-1543025040	The second book of three volumes on unusual energies	258 Pages
<p>This is the second book in the "Unusual Energies" series that J.G. Gallimore published. It covers Gallimore's research on Albert Abrams, the founder of modern radionics, psychological physics, psychic energy, thought resonance, subtle energies, crystals, and related subjects.</p> <p>In addition, a number of radionics devices are discussed, such as the De La Warr Diagnostic Instrument. And very helpfully, the rates are provided for substances, body organs, and medical diseases and disorders. I very interesting interview of Christopher Bird, conducted by J.G. Gallimore is provided, as well as a discussion of Walter Russell and his research</p>			
Relationship Between Parapsychology and Gravity: Volume 3	ISBN-10: 1543024947 ISBN-13: 978-1543024944	The third book of three volumes on unusual energies	228 Pages
<p>This book describes in depth the research and theories of J.G. Gallimore into the question of "parapsychology transmission" -the question of how such things as telepathy, remote viewing, ESP, and similar phenomena can physically occur.</p> <p>He discusses the various emanations, radiations, and energy fields of all matter and life including the ancient Chinese energy called "chi" (qi), the ancient Indian's prana energy, Reichenbach's "odic force," Gurwitsch's "mitogenic radiation," Wilhelm Reich's orgone energy, and other subtle energies. He shows how all of these energies are similar, how they interact, and how they are related to gravity.</p> <p>He also discusses crystals as transducers of these energies, and provides diagrams of devices that could potentially be used to harness or control these energies.</p>			
Transverse Paraphysics: The New Science of Space, Time, and Gravity	ISBN-10: 1543024920		374 Pages

Control	ISBN-13: 978-1543024920		
<p>This book covers the visionary research and theories developed by J.G. Gallimore about anti-gravity, space, time, and biophysics. He discusses in depth the dimensions of space, time, and gravity, and new discoveries in each of these areas. In addition, he covers research being done on anti-gravity and then discusses anti-gravity patents that have been obtained.</p> <p>He also discusses the intriguing concept of aura energy fields surrounding humans and other living things, and how extra-sensory perception (ESP) might be explained through biophysical principles.</p>			
Unified Field Theory Research Book: Using Subjective Response to Psi- Plasma for Analysis of Properties Neutral Charge Plasma Fields	ISBN-10: 1543024831 ISBN-13: 978-1543024838		134 Pages
<p>This book is about psychotronics, radionics, electromagnetic fields and waves, psi-plasma, plasma fields, subtle energies, bio-electromagnetic energy, and other unusual energies emitted by living and non-living things. It also is about how living things interact with and are affected by these energies, which may enhance health or harm health.</p> <p>The book covers the research of Wilhelm Reich on Orgone energy, of Baron Reichenback on the odic forces, as well as research done by Cazzamalli on brain radiations and Lakhovsky on using high frequency radiations to successfully treat cancer in humans. In addition, Lakhovsky used similar methods to enhance the growth of plants. Gallimore shows how these energies, forces, and fields are all inter-related and provides hypotheses and ideas on their possible unification.</p>
