

President's Message

Starting out with a great beginning for the coming year, the USPA has several new members on the Board of Directors and all have accepted tasks to keep us moving and growing. As members, you can help also by promoting our new publications:

Proceedings of the 1985 USPA Conference
Journal of the U. S. Psychotronics Association

Also, your purchase /subscription is very important to make each of these costly investments a success. They will soon become valuable reference volumes.

I believe in making psychotronics a science. The quality of our presentations at conferences has always been high. Now is the time to present the same quality in our publications. Looking at our first two attempts, I think you will agree that we have succeeded.

For the future, plan to start a local group in your area if you do not have one. We have now made it much easier to do so and also build up a video tape library. \$10.00 per tape, you can present a very entertaining and educational evening for your friends and then keep the tape for future reference. Monthly meetings are suggested. Contact Secretary-Treasurer, Bob Beutlich, for the "local chapter sign-up sheet."

I am very surprised and honored to be chosen your new President and will do my best to fulfill the responsibility of this position. Thank you for your support. Remember, today's magic is tomorrow's science.

Tom Valone.

From the Editor...

You will notice that the format for the newsletter is different than in the past. We are going to be a more "news" oriented publication, with the new USPA *Journal* supplying papers and technical information. Elsewhere in this issue you will find more information on the *Journal*.

You will receive the Newsletter every other month from now on. Twice a year we will include a list of publications and audio and video tapes available. This is *your* Newsletter, so please let me hear from you about improving it.

Eldon Byrd

ANNUAL CONFERENCE AND CALL FOR PAPERS

The next Annual Conference will be held in Dayton, Ohio, at Bergamo the July 20th through 24th. Plan to attend! The theme has not been determined at this point.

This is the first call for papers for the 1988 Conference. Send abstracts (1 or 2 page), titles, or intentions to Tom Valone, 558 Breckinridge, Buffalo, NY 14222. If you are aware of anyone doing research in the psychotronic area you would like to see on the program, we are always open to suggestions for qualified speakers. Send names and addresses to Tom. We will be preparing a "speakers packet" providing the guidelines and acceptable formats for presentations.

NOTICE

We require a written (typed) copy of all presentations given at any of our Conferences for our Archives. If you have ever been a speaker and we do not have your paper, please send it in to Bob Beutlich or Tom Valone *immediately*.

NEWS OF GENERAL INTEREST

The International Psychotronics Association (headquartered in Czechoslovakia) will be holding their Conference in the Fall of 1988, probably in Washington, D.C. This is the first time ever that this major world event has been held outside an Eastern Bloc country. There will be representatives from the USSR, E. Germany, Czechoslovakia, and most of the major communist countries. A terrific opportunity to improve relations with those countries! More details will be provided in the next issue of the Newsletter. For more informations, contact: Mankind Research Unlimited, 1315 Apple Avenue, Silver Spring, MD 20910, or call Dr. Carl Schlieker, (301) 587-8686.

ETHICS COMMITTEE

Ed Skilling has been named Chairman of the Ethics Committee for the USPA. Refer all complaints about individual members or questions about ethics to Ed. The Committee will consider all inputs, investigate, resolve, and handle ethics problems. This is superior to gossip, bad feelings, and undermining.

AIMS OF THE ASSOCIATION

1. To promote the free exchange, discussion and dissemination of information, theories, ideas and practices related to psychotronics.
2. To maintain high standards of ethics, humanitarianism, and scientific practices in the study and application of psychotronics.
3. To preserve the history and geneology of psychotronics.
4. To secure cooperative action in advancing the common cause of its members.
5. To disseminate information of a general, economic, social, or governmental character; to analyze subjects relating thereto; and to secure and present the views of its members to other organizations, the government, and the public.
6. To cooperate with other organizations of like interest.
7. To further the training and education of its members.
8. To promote standardization in the investigation, testing, reporting, and evaluation of psychotronics.
9. To provide in its periodical(s) a national forum for the report and publication of all worthy activities and projects of persons, groups or organizations working in in the field of psychotronics.
10. To make awards, locally and nationally, to persons, associations or agencies, in recognition of outstanding accomplishments in the field of psychotronics.

REVISED CODE OF ETHICS

1. Members shall maintain high standards of ethics and scientific practices and shall be guided in their relationships by personal integrity.
2. They shall uphold the dignity and reputation of the USPA before the public at all times.
3. They shall avoid and discourage sensationalism, exaggeration, undignified and unwarranted statements, or misleading advertising.
4. In providing services for compensation, they shall refuse to undertake that which is of a questionable nature and they shall advise the probability of success.
5. In providing devices of any nature, they shall offer a 30-day money-back guarantee and provide a year's warranty on the item in writing (except for expendable parts). Also, they shall provide a repair service for any device offered (reasonable use required).
6. Devices which require some psychic ability (e.g., pendulum, rub plate, GSR meter) shall not be sold unless some training is offered by the manufacturer (or the manufacturer's agent) which is adequate to effectively operate the device.
7. They shall not use their membership in this Association as evidence of qualification, or as a measure of ability or performance.

Continued on next page

8. They shall not exhibit or use the name U. S. Psychotronics Association on any letterhead, stationery, or business cards, nor in advertising of a business or professional nature.
9. Any conflicts within the membership are encouraged to be submitted to the Ethics Committee of the USPA for investigation first, prior to any public statements, allowing the committee reasonable time to resolve the conflict.
10. *Any member found to be in violation of this Code of Ethics by the Ethics Committee may have membership priviledges in the USPA revoked.*

Section 10. has been added by action of the Board of Directors to provide a method of discipline in the event of violations of the Code. The intent of the code is that all members follow the Golden Rule, *Do unto others as you would have them do unto you*. In the past there have been instances of an individual acting in a manner contrary to the Code on the premise that they were advancing knowledge of psychotronics or making available a product or information – to which they had no proprietary rights. It is necessary for the USPA to insist on each individual member observing the legal and moral issues addressed in the Code of Ethics for the protection the Association and the individual members.

MEMBERSHIP

The U.S. Psychotronics Association (USPA), incorporated in the District of Columbia in August, 1977, is empowered to enroll members in the parent organization and to develop Chapters throughout the United States, Canada, and Mexico. Six categories of membership are open to the imaginative individual who wishes to join with the USPA on the new frontiers of science in working constructively for the qualitative improvement of man and his environment.
