

USPA 2019 Conference Schedule

The United States Psychotronics Association (USPA) defines psychotronics as the science of mind-body-environment relationships, an interdisciplinary science concerned with the interactions of matter, energy, and consciousness.

Radionics 101 – Thursday July 25, 2019

The workshop is designed for novice practitioners and prospective student, as well as for those simply wanting to learn what radionics and psychotronics is all about. It will combine visual and explanatory presentations by USPA Board members.

This workshop will be an excellent entrée to formal training in radionics. Students will learn fundamental theory, the design, and role of instrumentation, and get an overview of the many applications of this cutting edge art and science. More importantly, much of the program will be hands-on. There will be several opportunities to experience the radionics “stick” and/or dowsing response, which is key to instrument operations in radionics and in radiesthesia.

8:15 am-9:00 am Registration ——

9:00 am-10:15 am Housekeeping/The Worlds of Radionics - George Kuepper

10:15 am-10:30 am *****Break***** ——

10:30 am-12:00 pm Dowsing: Learning the Fundamentals - Marty Lucas

12:00 pm-1:30 pm *****Lunch***** ——

1:30 pm-2:45 pm Working With the Radionic Template - Lutie Larsen

2:45 pm-3:00 pm *****Break***** ——

3:00 pm-4:15 pm Radionic Instruments: A Look Under the Hood - Ed Kelly

4:15 pm-5:30 pm Laws and Applications of Radionics Theory - Linda Lancaster

5:30 pm-7:30 pm *****Dinner***** ——

7:30 pm-9:30 pm Hands-opportunities All instructors

Fri, July 26 2019

9 am - Wireless Radiation, 5G, and Our Health - Beverly Rubik & Harry Jobs

The new generation of wireless technology, 5G, is fraught with controversy over health and the environment among other issues. We will discuss them and ways to protect ourselves and our communities.

10 am - Energy + Resonance = Healing: Understanding the Radionics Equation - Ed Kelly

Everything in the physical Universe is energy given form by frequency. The core applications of radionics are to assess the energy levels of the specific frequencies that define our physical forms, then add or remove energy from those elements that we wish to be stronger or weaker using either resonance or dissonance. This presentation will include a short discussion of these ideas, followed by a hands-on, group demonstration of the impact of not only “esoteric” energies, but also the octaves of energy we live with every day, such as light, sound, symbols, and the spoken word.

11 am - Breakout session I

A) Dan Taylor - A Radionic Approach to the “Gene Keys”

Daniel Taylor will present an overview of Richard Rudd’s work with the Gene Keys, and more importantly, describe how this system can be used radionically, to even greater avail.

B) Bev/Harry QA

C) Ed Kelly - QA

12pm - 2pm Lunch

2 pm Flowing with Milk and Honey—A Radionic Approach to Fine Agriculture - Hugh Lovel

Hugh Lovel, author, retired farmer, agriculture consultant, and inventor will speak on Quantum Agriculture. Hugh is the author of “A Biodynamic Farm” and “Quantum Agriculture”. He teaches globally and consults for farms on five continents. He will report on his use of radionics and dowsing over the past forty years. A delightful story teller and brilliant lecturer, Hugh will also explain his new radionic instrument which is designed for farmers and farm consultants.

3 pm Flowing with Milk and Honey—Changing States of Consciousness with the Scientific Application of Sound - Jeffrey Thompson

Dr. Thompson is the Founder/Director of the Center for Neuroacoustic Research in Carlsbad, California, a research center which is actualizing its vision of “Healing the Body*Heart*Mind and Spirit through the Scientific Application of Sound.” Dr. Thompson is considered the world’s premier sound healing researcher, brainwave entrainment expert, and high-tech personal

transformation innovator, motivator and futurist. He is a physician/ musician, composer, inventor, educator and author.

4 pm Breakout session II

- A) Kacperski-Edmonds Demo - An Advanced Alternative Energy Motor Project Made With A 3D Printer
- B) Thompson - QA
- C) Lovel - QA

5 pm Vendor Showcase

1-2 minute each showcasing vendors at the USPA Conference

8 pm - Reception

Meet the Board of Directors - Cash bar & Reception

Sat, July 27 2019

9 am Harmonic Healing - Linda Lancaster

There exists an invisible world within the visible. In Harmonic Healing, we concern ourselves not only with the physical form but also with the subtle anatomy.

10 am Hildegard of Bingen – Mystic, Psychic, Visionary, Herbalist Weaving the Tapestry of Healing from the Cosmic Elements - Ellen Kamhi

Hildegard of Bingen (1098-1179) was a Benedictine Nun who is considered to be the founder of scientific natural history in Germany. Through mystical visions, psychic impressions and observation of nature, she developed a system of natural therapies, using food, gemstones and medicinal herbs. In this presentation, we will investigate her recommendations based on diagnosis, prognosis, and treatments which combined physical treatment with holistic methods centered on “spiritual healing”, including the application of tinctures, herbs, and precious stones, recognizing that the four elements (fire, air, water, and earth), the four seasons, the four humors, the four zones of the earth, and the four major winds must be kept in balance. We will also review modern Scientific Validation that supports the continued use of her methods.

11 am Breakout session III

A) Marty Lucas - Using Love as a Radionics Reagent

If you can measure something, you can manage it. Love is not just a feel-good emotion, it is much more. At its core, it is a measurement of energy and information flow. The more flow the

more communication. In many instances, health challenges are directly related to restrictions in energy flow. Imagine how many issues can be resolved simply by restoring the flow of energy and information. Now imagine the power of such a simple but profound balancing reagent.

Students will:

- Learn the relationship between wellness and energy flow
- Understand emotions are just frequency bands of energy and information
- Be shown how to capture these frequencies and develop their own reagents

B) Linda-Ellen QA

C) Jon Klimo - The Emerging Spiritualization of Science

Updating my 50 years of developing the emerging spiritualization of science as an all-is-consciousness understanding and philosophical idealist practice using radionics as an example, including my latest book and foundation about this.

12pm - 2pm Lunch

2 pm Radionics and Keely's Law of Sympathetic Oscillation - Dale Pond

Radionics has been around for a long time. The mysteries and misinformation surrounding this enigmatic practice are legend. Due a lack of clear cut science or physics within this art and practice has maintained it in obscurity and outright banishment by the orthodox science community as also from the medical industrial complex who perceive it as a threat to their chemical and pharmacological investments. For Radionics to be better understood and successful there must be placed under it a firm grounded in known science paradigm. This presentation does just that. While all of its science is not yet known much of it is.

3 pm Reconnective Healing – The Effect of Energy, Light & Information on Matter, Consciousness & Awareness - Eric Pearl / Jillian Fleer

Reconnective Healing (RH) allows us to connect with an expanded and fully comprehensive spectrum of energy, light, and information through which we experience a highly tangible Intelligence likely presenting itself on Earth for the very first time. The language of this Intelligence is experienced through this inclusive and limitless bandwidth of frequencies that first became accessible and known to the scientific community after they were introduced through Dr. Eric Pearl in 1993. Eric then discovered a way to teach others how to access and interact with this Intelligence. Learning Reconnective Healing provides you with the process and point of engagement with these frequencies that enable a portal to open, tangibly connecting us to a reciprocal, higher-dimensional universe. Deep and profound transformation, expansion and evolution is instantly received physically, mentally, emotionally, spiritually... and more. This energy interaction has created the new terra firma for the healing of humanity as well as the healing of our planet. This presentation will include case histories and interactive demonstrations of RH with selected audience participants.

Numerous scientific studies have been conducted on Reconnective Healing by key Energy Medicine researchers including Drs. Glen Rein, Bill Tiller, Konstantin Korotkov, Gary Schwartz, Ann Baldwin, Melinda Connor, and Richard Hanbury.

4 pm Self-Healing Mechanisms in Biology: Insights from Molecular Biology and Informational Pharmacology - Glen Rein

Healing is a complex phenomena biologically speaking. The medical community would describe Healing as recovery from injury or perhaps maintaining homeostasis (the sweet spot where it all comes together). Scientifically speaking self-recovery is a recognized phenomena, although they do not understand the underlying biophysical and biochemical mechanisms. The complex interactions between cells and molecules and activation of certain genes must be coordinated for the right sequence to result in building

New tissue at the site of injury. It is proposed here that this coordination energy is quantum field modulated with divine energy and intention. Some would call this the life force or prana or qi. This presentation will also propose a new mechanism whereby divine energy can be stepped down to usable EM energy the body can respond to and trigger specific biochemical pathways which bring about a physiological healing.

5 pm Breakout session IV

A) Don Paris - Quantum Entanglement and Radionics: What is Action at a Distance?

In this presentation, Don will build a bridge between the wild world of Radionics and conventional physics.

- B) Dale Pond QA
- C) Pearl / Fler QA
- D) Rein -QA

6pm - 7:30 pm Dinner

7:30 pm Applied Biophoton Physics for Healing: Unique Light-Based Tools to Diagnose and Treat Illness - Dr. Dietrich Klinghardt

Radionics has been around for a long time. The mysteries and misinformation surrounding this enigmatic practice are legend. Due a lack of clear cut science or physics within this art and practice has maintained it in obscurity and outright banishment by the orthodox science community as also from the medical industrial complex who perceive it as a threat to their chemical and pharmacological investments. For Radionics to be better understood and successful there must be placed under it a firm grounded in known science paradigm. This presentation does just that. While all of its science is not yet known much of it is.

Sun, July 28 2019

9 am Elements of an Emerging Scientific Paradigm Shift - Suzzane Price

There exists an invisible world within the visible. In Harmonic Healing, we concern ourselves not only with the physical form but also with the subtle anatomy.

10 am Shabari Bird

Nature spirits or elementals work for the well-being of plants, trees and animals as well as the different elements they are associated with. They vibrate at a higher frequency than ours.

Shabari Bird will share methods for contacting and working with these nature and elemental spirits.

Shabari spent fourteen years in intensive apprenticeships with native elders and shamans from US, Australia and Morocco. She also vision-quest fasted seven years in a row. During these fasts, Shabari has come to know these nature spirits as allies and guardians, also sometimes tricksters. She will also share keys to unlocking your home's positive energies.

11 am Membership Meeting

Membership Meeting

12:00pm -2:15pm Awards Luncheon / Thanks / Silent Auction

2:30 pm Earthing: Health Benefits and Research - Gaetan Chevalier

The Mind-Body-Earth Connection

Throughout time, humans have sat, stood, strolled, and slept on the ground – the skin of our bodies touching the skin of the Earth. Such ordinary contact has served to transfer the Earth's natural, negative charge into the body. Human lifestyle has disconnected us. Earthing, also known as grounding, is the discovery that the disconnect makes us vulnerable to inflammation, pain, stress, poor sleep, and sickness, and that reconnecting to the Earth restores a timeless link to Nature that improves health, sleep, energy, mood, and appearance.

3:30 pm Using Radionics Every Day: Practical Applications for the Home, Health, and Garden - Lutie Larsen

The use of Radionic often seems complicated and mysterious. Join two of your USPA Board members who have used radionics for years. Enjoy a panorama of verbal and visual applications . . . and bring your questions!

Learning Objectives

- Radionic application is based on real principles, natural laws that we are just beginning to understand.
- Tools and techniques have been developing over the past century.
- Most people can learn to use dowsing and radionic technique with training and practice.

4:30 pm Breakout session V

- A) Radionics Panel - Practice and theory
- B) Chevalier QA

6pm- 10pm

Workshop** Dr. Eric Pearl & Jillian Fleer

We are Receivers Connected to the Universe – Now What?

Become a catalyst for the evolution of humanity and human consciousness as you are introduced to a transparent source of Intelligence that will connect you to inexplicable life-lasting healing, deep inner peace, and an expanded bio-photonic essence! A 4-hour workshop to start learning this simple and powerful approach to Reconnective Healing® and establish the beginning of your life-changing new vibrational reality.
